REQUIREMENTS FOR VENDOR CATALOGS/PRICELISTS IN PROPOSALS

Note: The following instructions set forth the requirements for Vendor catalogs/pricelists submitted with Proposals for proposal evaluation purposes. If awarded a Contract, Vendor may be required to resubmit catalogs/pricelists in the format described in the BuyBoard Technical Requirements as detailed further in the Proposal Invitation.

Electronic catalogs/pricelists must be submitted with Vendor's Proposal in the required format (whether submitted electronically through the designated website or in hard copy format via mail or hand delivery) or the Proposal will not be considered. The following is required of all Vendor catalog(s)/pricelist(s) submitted to the Cooperative for evaluation with the Proposal:

Vendors shall submit catalog(s)/pricelist(s) with the Proposal in a readily available and readable electronic format, with **Excel or searchable PDF** preferred. No paper catalogs or manufacturer/vendor websites will be accepted.

Below is a sample chart, with examples of data for each field, showing the data fields that Vendors MUST include in each submitted pricelist/catalog with the Proposal:

BuyBoard Specification Item No. Category	Part/Item Number	Item Description	MSRP/List Price (before BuyBoard Discount)
1	1234	Desk	$50.00
2	1235	Chair	$20.00

The catalogs/pricelists must include all listed data fields (BuyBoard specification category, part/item number, item description, and list price) or the Proposal will not be considered. Catalogs and pricelists should contain only items that relate to the items requested in the specifications. Vendors are discouraged from including irrelevant or non-responsive information with their Proposal. The Cooperative reserves the right to deem a Proposal non-responsive if the Proposal, including catalogs or pricelists submitted with the Proposal, do not specifically relate to the intent of the Proposal Invitation or contain what the Cooperative deems to be, in its sole discretion, excessive irrelevant or non-responsive information, including information which makes it burdensome or impractical for the Cooperative to identify responsive products and pricing.

PROPOSAL SUBMISSION INSTRUCTIONS

Proposal responses (including completed and signed Proposal Invitation forms, completed Proposal specifications, and pricelists/catalogs) must be submitted in electronic format in the manner prescribed in the Instructions to Proposers.

INTENT AND PURPOSE OF THE CONTRACT

The intent of this Proposal Invitation is to solicit sealed Proposals to establish a contract for various types of Construction, Road and Bridge, and Other Related Equipment that may be procured by Cooperative members. Because individual members require different equipment, supplies, and/or services, this Proposal Invitation is a request for a discount off of catalog or price list for supplies, materials and equipment and an hourly not-to-exceed rate for labor for installation and repair. Purchases can be made by a Cooperative member at any time during the Contract term. Except as provided in section E.4 of the General Terms and Conditions or otherwise in this Proposal Invitation, Vendor shall hold its Awarded Pricing firm during the Contract term. In the event of price decreases, such price decreases shall be allowed for all products.

TERM OF CONTRACT

The term of this contract will be from December 1, 2022, through November 30, 2023, with two possible one-year renewals.

As set forth in the General Terms and Conditions, an awarded Vendor has no right to or vested interest in contract renewal. The determination as to whether to renew or non-renew any Vendor Contract, in whole or in part, shall be in the sole discretion of the Cooperative.

For purposes of this Proposal Invitation, a Vendor must generate a minimum of $15,000 through the Contract during an annual contract term or may not be offered a renewal. A Vendor's failure to generate this minimum amount may also be considered by the Cooperative as part of Vendor's past performance evaluation on future proposal invitations.

VALUE OF CONTRACT

The estimated value of this contract is $88,339,450; however, this estimate is based on prior contracts for similar types of products and services and should not be construed to be a guaranty of either a minimum or maximum amount since usage may be dependent upon multiple factors including Cooperative members' actual needs and available funding.

SERVICE FEE

An awarded Vendor under this Proposal Invitation must pay the Cooperative a service fee in the amount of 2% per Purchase Order generated from any contract awarded under this Proposal Invitation, and the service fee is to be included in the Awarded Pricing. Vendor agrees to pay this service fee and remit the fee to the Cooperative in Austin, Texas, promptly upon payment by the Cooperative member for any Purchase Order(s) and within 30 days of the date of each service fee invoice. As set forth in more detail in the General Terms and Conditions, an awarded Vendor will be required to provide the Cooperative with copies and/or reports of all Purchase Orders generated from Vendor's Contract(s) that Vendor receives directly from Cooperative members, Vendor Invoices, and/or such other documentation regarding Cooperative member purchases under any awarded Contract as the Cooperative administrator may require in its reasonable discretion. The Cooperative shall have the right, upon reasonable written notice, to review records of awarded Vendors pertaining to purchases under any awarded Contract to verify purchase activity under the Contract, the accuracy of service fees payable by Vendor, or as otherwise reasonably necessary for the administration of the Contract or when required by law.

CONFIDENTIAL INFORMATION

Any information submitted by Proposer that Proposer considers to be confidential must be clearly identified as such on the Confidential/Proprietary Information Form.

ADDITIONAL INFORMATION

An awarded Vendor must be approved by the manufacturer to sell, install, and service the brand of equipment submitted. Proposers responding to this Proposal Invitation shall submit an approval letter from each manufacturer. Manufacturer authorization letters must include the regions in which equipment may be sold. Manufacturers responding directly to this proposal invitation, in lieu of an authorization letter, must submit a letter explaining that the company is the manufacturer of the products proposed.

Proposers responding to this Proposal Invitation for **"Pre-Owned/Reconditioned/Retired Rental"** equipment must also be approved by the manufacturer to sell pre-owned/reconditioned/retired rental equipment for the brand submitted and must submit an approval letter from each manufacturer with the Proposal. Manufacturer authorization letters must include the regions in which equipment can be sold.

"Pre-Owned/Reconditioned/Retired Rental" shall be defined as equipment having been checked and inspected by a manufacturer-authorized dealer prior to sale and shall be no older than sixty (60) months as of the date of delivery.

Equipment listed as **"Pre-Owned/Reconditioned/Retired Rental"** shall be in good and working condition and shall include a minimum warranty of one-hundred eighty (180) days against any defect from workmanship and parts and shall cover equipment repairs and/or component replacement. Total equipment usage hours as displayed on the service meter will have a maximum of one thousand (1,000) hours per year of age and a minimum of seventy-five percent (75%) of wear remaining for tires, track, and/or ground engagement tools.

AWARD AND EVALUATION

All information required by this Proposal Invitation, including catalogs/pricelists where required by the Proposal Specifications, must be submitted with the Proposal or your Proposal will be deemed nonresponsive. Responsive Proposals will be evaluated, and any Contracts will be awarded based on the evaluation and award criteria as set out in Section C.2 of the General Terms and Conditions determined to provide best value to Cooperative members.

COMPLIANCE WITH APPLICABLE LAWS

By submitting a Proposal, the Proposer certifies that Proposer has provided its valid, proper and correct business entity name and information in its Proposal, that such entity is operating in good standing with the proper authority from whatever state or local jurisdiction is required, and Proposer has obtained, and, if awarded, will continue to maintain during the entire term of this Contract, all permits, approvals, and/or licenses necessary for lawful performance of its obligations under this Contract. Proposer further certifies that, if awarded, Proposer will comply with all applicable state, federal, and local laws, rules, and regulations in regard to awarded products and/or services.

BUYBOARD WEBSITE AND TECHNICAL REQUIREMENTS

Information on awarded Contracts, including awarded products and services under this Proposal Invitation, will be available to Cooperative members on the online marketplace platform utilized by the Cooperative: the BuyBoard. Vendors should review and confirm Vendor's ability to meet the BuyBoard Technical Requirements contained in Appendix I of this Proposal Invitation. The BuyBoard Technical Requirements may be updated from time to time as set forth in the General Terms and Conditions. To the extent a Vendor is awarded a Contract under this Proposal Invitation but is unable to meet the applicable BuyBoard Technical Requirements and provide the information in the format required by those requirements, Vendor acknowledges that the information available on the BuyBoard for Vendor's awarded products or services may be limited. This may place Vendor at a disadvantage and impact the ability of Cooperative members to search, find, review, and purchase Vendor's awarded products and services through the BuyBoard website.

To improve and enhance the experience of Cooperative members seeking to procure goods and services, the Cooperative may also, in its sole discretion, provide Vendors with an opportunity to have Vendor's logo, product images, and similar brand and trademark information included in the BuyBoard online marketplace in relation to Awarded Items. Vendors shall review the BuyBoard Vendor Consent for Name Brand Use included with the Proposal Forms in this Proposal Invitation.

PROFESSIONAL ENGINEERING AND OTHER PROFESSIONAL SERVICES EXCLUDED

The scope of services in this Proposal Invitation and any resulting contract award do not include services that are required to be procured under the Professional Services Procurement Act (Chapter 2254 of the Texas Government Code), including without limitation architecture and professional engineering services.

ADDITIONAL REQUIREMENTS FOR PURCHASES USING FEDERAL GRANT FUNDS (2 C.F.R. 200 Uniform Guidance/EDGAR)

When a Cooperative member seeks to procure goods and services using funds under a federal grant or contract, specific federal laws, regulations, and requirements may apply in addition to those under state law. This includes, but is not limited to, the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 C.F.R. 200 (sometimes referred to as the "Uniform Guidance" or new "EDGAR"). All Vendors submitting a Proposal must complete the EDGAR Vendor Certification Form contained in the Proposal Forms regarding their willingness and ability to comply with certain requirements which may be applicable to specific Cooperative member purchases using federal grant funds. This information will not be used for evaluation purposes but will be made available to Cooperative members for their use while considering their purchasing options when using federal grant funds. Cooperative members may also require Vendors to enter into ancillary agreements, in addition to the BuyBoard contract's general terms and conditions, to address the member's specific contractual needs, including contract requirements for a procurement using federal grants or contracts.

Neither my company nor an owner or principal of my company is currently listed on the government-wide exclusions in SAM, debarred, suspended, or otherwise excluded by agencies or declared ineligible under any statutory or regulatory authority. My company agrees to immediately notify the Cooperative and all Cooperative members with pending purchases or seeking to purchase from my company if my company or an owner or principal is later listed on the government-wide exclusions in SAM, or is debarred, suspended, or otherwise excluded by agencies or declared ineligible under any statutory or regulatory authority.

VENDOR EMPLOYMENT CERTIFICATION

Section 44.031(b) of the Texas Education Code establishes certain criteria that a school district must consider when determining to whom to award a contract. NO BOYCOTT VERIFICATION

A Texas governmental entity may not enter into a contract with a value of $100,000 or more that is to be paid wholly or partly from public funds with a company (excluding a sole proprietorship) that has 10 or more full-time employees for goods or services unless the contract contains a written verification from the company that it: (1) does not boycott Israel and will not boycott Israel during the term of the contract (TEX. GOV'T CODE Ch. 2271), (2) does not boycott energy companies and will not boycott energy companies during the term of the contract (TEX. GOV'T CODE Ch. 2274 effective September 1, 2021), and (3) does not have a practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association and will not discriminate during the term of the contract against a firearm entity or firearm trade association (TEX. GOV'T CODE Ch. 2274 effective September 1, 2021). Accordingly, this certification form is included to the extent required by law.

"Boycott Israel" means refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations specifically with Israel, or with a person or entity doing business in Israel or in an Israeli-controlled territory, but does not include an action made for ordinary business purposes. TEX. GOV'T CODE §808.001(1).

"Boycott energy company" means, without an ordinary business purpose, refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations with a company because the company: (A) engages in the exploration, production, utilization, transportation, sale, or manufacturing of fossil fuel-based energy and does not commit or pledge to meet environmental standards beyond applicable federal and state law; or (B) does business with a company described by Paragraph (A). TEX. GOV'T CODE §809.001(1) (effective September 1, 2021).

"Discriminate against a firearm entity or firearm trade association" means, (A) with respect to the entity or association, to: (i) refuse to engage in the trade of any goods or services with the entity or association based solely on its status as a firearm entity or firearm trade association; (ii) refrain from continuing an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; or (iii) terminate an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; and (B) does not include: (i) the established policies of a merchant, retail seller, or platform that restrict or prohibit the listing or selling of ammunition, firearms, or firearm accessories; and (ii) a company's refusal to engage in the trade of any goods or services, decision to refrain from continuing an existing business relationship, or decision to terminate an existing business relationship: (aa) to comply with federal, state, or local law, policy, or regulations or a directive by a regulatory agency; or (bb) for any traditional business reason that is specific to the customer or potential customer and not based solely on an entity's or association's status as a firearm entity or firearm trade association. TEX. GOV'T CODE §2274.001(3) (effective September 1, 2021).

By signature on the Compliance Forms Signature Page, to the extent applicable, I certify and verify that Vendor does not boycott Israel, boycott energy companies, or discriminate against a firearm entity or firearm trade association and will not do so during the term of any contract awarded under this Proposal Invitation, that this certification is true, complete and accurate, and that I am authorized by my company to make this certification.

ACKNOWLEDGEMENT OF BUYBOARD TECHNICAL REQUIREMENTS

Vendor shall review the BuyBoard Technical Requirements included in this Proposal Invitation. By signature on the Compliance Forms Signature Page, the undersigned affirms that Proposer has obtained a copy of the BuyBoard Technical Requirements, has read and understands the requirements, and certifies that Vendor is able to meet and will comply with those requirements except as follows: *[List and explain BuyBoard Technical Requirements, if any, to which your company **cannot** or will **not** comply.]*

_____

_____

Note: In accordance with the General Terms and Conditions of the Contract, to the extent Vendor is awarded a Contract under this Proposal Invitation but is unable or unwilling to meet the applicable BuyBoard Technical Requirements, the information available on the BuyBoard for Vendor's awarded products or services may be limited, potentially placing Vendor at a disadvantage and impacting the ability of Cooperative members to search, find, review, and purchase Vendor's awarded products and services on the BuyBoard website. Further, to the extent Vendor has acknowledged ability to meet and comply with the BuyBoard Technical Requirements, any subsequent failure or refusal by Vendor to promptly provide information upon request to the Cooperative administrator in accordance with those technical requirements may be deemed an event of default under the Contract. **Initial:** _____

CONSTRUCTION-RELATED GOODS AND SERVICES AFFIRMATION

The Cooperative issued the BuyBoard Procurement and Construction-Related Goods and Services Advisory for Texas Members ("Advisory"), which provides information specifically relevant to the procurement of construction-related goods and services by Texas Cooperative members. The Advisory, available at buyboard.com/Vendor/Resources.aspx, provides an overview of certain legal requirements that are potentially relevant to a Cooperative member's procurement of construction or construction-related goods and services, including those for projects that may involve or require architecture, engineering or independent testing services. A copy of the Advisory can also be provided upon request. Because many BuyBoard contracts include goods or installation services that might be considered construction-related, Proposer must make this Construction Related-Goods and Services Affirmation regardless of type of goods or services associated with this Proposal Invitation.

A contract awarded under this Proposal Invitation covers only the specific goods and/or services awarded by the Cooperative. As explained in the Advisory ("Advisory"), **Texas law prohibits the procurement of architecture or engineering services through a purchasing cooperative. This Proposal Invitation and any Contract awarded thereunder does not include such services. Architecture or engineering services must be procured by a Cooperative member separately, in accordance with the Professional Services Procurement Act (Chapter 2254 of the Texas Government Code) and other applicable law and local policy.**

By signature on the Compliance Forms Signature Page, Proposer affirms that Proposer has obtained a copy of the Advisory, has read and understands the Advisory, and is authorized by Proposer to make this affirmation. If Proposer sells construction-related goods or services to a Cooperative member under a Contract awarded under this Proposal Invitation, Proposer will comply with the Advisory and applicable legal requirements, make a good faith effort to make its Cooperative member customers or potential Cooperative member customers aware of such requirements, and provide a Cooperative member with a copy of the Advisory before accepting the member's Purchase Order or other agreement for construction-related goods or services.

Please note that, as provided in section B.4, certain provisions of the General Terms and Conditions are NOT subject to deviation, and certain deviations will be deemed rejected without further action by the Cooperative. Any attempted deviation, whether directly or indirectly, to provisions identified in this Proposal Invitation as not subject to deviation shall be deemed rejected by the Cooperative and, unless otherwise withdrawn by Vendor, may result in Vendor's Proposal being rejected in its entirety.**

The Cooperative will consider any deviations in its contract award decision and reserves the right to accept or reject a proposal based upon any submitted deviation.

In the absence of any deviation identified and described in accordance with the above, your company must fully comply with the General Terms and Conditions, Proposal Specifications and all other requirements associated with this Proposal Invitation if awarded a Contract under this Proposal Invitation. A deviation will not be effective unless accepted by the Cooperative. The Cooperative, by and through the Cooperative administrator, may, in its sole discretion, seek clarification from and/or communicate with Proposer(s) regarding any submitted deviation, consistent with general procurement principles of fair competition. The Cooperative reserves the right to accept or reject a Proposal based upon any submitted deviation.

If you fail to complete any item in this form, the Cooperative will consider and may list the Vendor's response on the BuyBoard as "NO," the Vendor is unable or unwilling to comply. A "NO" response to any of the items may, if applicable, impact the ability of a Cooperative member to purchase from the Vendor using federal funds.

1. Vendor Violation or Breach of Contract Terms:

Any Contract award will be subject to such BuyBoard General Terms and Conditions, as well as any additional terms and conditions in any Purchase Order or Cooperative member ancillary contract agreed upon by Vendor and the Cooperative member which must be consistent with and protect the Cooperative member at least to the same extent as the BuyBoard Terms and Conditions. If this Agreement is terminated in accordance with this Paragraph, the Cooperative member shall only be required to pay Vendor for goods or services delivered to the Cooperative member prior to the termination and not otherwise returned in accordance with Vendor's return policy. If the Cooperative member has paid Vendor for goods or services not yet provided as of the date of termination, Vendor shall immediately refund such payment(s).

If an alternate provision for termination of a Cooperative member purchase for cause and convenience, including the manner by which it will be effected and the basis for settlement, is included in the Cooperative member's Purchase Order or ancillary agreement agreed to by the Vendor, the Cooperative member's provision shall control.

NATIONAL PURCHASING COOPERATIVE VENDOR AWARD AGREEMENT

In accordance with the Terms and Conditions associated with this Proposal Invitation, a contract awarded under this Proposal Invitation may be "piggy-backed" by another governmental entity. The National Purchasing Cooperative is an intergovernmental purchasing cooperative formed by certain school districts outside of Texas to serve its members throughout the United States. If you agree to be considered for a piggy-back award by the National Purchasing Cooperative, you agree to the following terms and agree to serve National Purchasing Cooperative members in the states you have indicated on the State Service Designation form, in your Proposal.

By signing this form, Proposer (referred to in this Agreement as "Vendor") agrees as follows:

1. Vendor acknowledges that if The Local Government Purchasing Cooperative ("Texas Cooperative") awards Vendor a contract under this Proposal Invitation ("Underlying Award"), the National Purchasing Cooperative ("National Cooperative") may - but is not required to - "piggy-back" on or re-award all or a portion of that Underlying Award ("Piggy-Back Award"). By signing this National Cooperative Vendor Award Agreement ("Agreement"), Vendor accepts and agrees to be bound by any such Piggy-Back Award as provided for herein.

2. In the event National Cooperative awards Vendor a Piggy-Back Award, the National Cooperative Administrator ("BuyBoard Administrator") will notify Vendor in writing of such Piggy-Back Award, which award shall commence on the effective date stated in the Notice and end on the expiration date of the Underlying Award, subject to annual renewals as authorized in writing by the BuyBoard Administrator. Vendor agrees that no further signature or other action is required of Vendor in order for the Piggy-Back Award and this Agreement to be binding upon Vendor. Vendor further agrees that no interlineations or changes to this Agreement by Vendor will be binding on National Cooperative, unless such changes are agreed to by its BuyBoard Administrator in writing.

3. Vendor agrees that it shall offer its goods and services to National Cooperative members at the same unit pricing and same general terms and conditions, subject to applicable state laws in the state of purchase, as required by the Underlying Award. However, nothing in this Agreement prevents Vendor from offering National Cooperative members better (i.e., lower) competitive pricing and more favorable terms and conditions than those in the Underlying Award.

4. Vendor hereby agrees and confirms that it will serve those states it has designated on the State Service Designation Form of this Proposal Invitation. Any changes to the states designated on the State Service Designation Form must be approved in writing by the BuyBoard Administrator.

5. Vendor agrees to pay National Cooperative the service fee provided for in the Underlying Award based on the amount of purchases generated from National Cooperative members through the Piggy-Back Award. Vendor shall remit payment to National Cooperative on such schedule as it specifies (which shall not be more often than monthly). Further, upon request, Vendor shall provide National Cooperative with copies of all purchase orders generated from National Cooperative members, vendor invoices, and/or such other documentation regarding those purchase orders as the Cooperative's administrators may require in their reasonable discretion for purposes of reviewing and verifying purchase activity. Vendor further agrees that National Cooperative shall have the right, upon reasonable written notice, to review Vendor's records pertaining to purchases made by National Cooperative members in order to verify the accuracy of service fees.

6. Vendor agrees that the Underlying Award, including its General Terms and Conditions, are adopted by reference to the fullest extent such provisions can reasonably apply to the post-proposal/contract award phase. The rights and responsibilities that would ordinarily inure to the Texas Cooperative pursuant to the Underlying Award shall inure to National Cooperative; and, conversely, the rights and responsibilities that would ordinarily inure to Vendor in the Underlying Award shall inure to Vendor in this Agreement. Vendor recognizes and agrees that Vendor and National Cooperative are the only parties to this Agreement, and that nothing in this Agreement has application to other third parties, including the Texas Cooperative. In the event of conflict between this Agreement and the terms of the Underlying Award, the terms of this Agreement shall control, and then only to the extent necessary to reconcile the conflict.

7. This Agreement shall be governed and construed in accordance with the laws of the State of Rhode Island and venue for any dispute shall lie in the federal district court of Alexandria, Virginia.

8. Vendor acknowledges and agrees that the award of a Piggy-Back Award is within the sole discretion of National Cooperative, and that this Agreement does not take effect unless and until National Cooperative awards Vendor a Piggy-Back Award and the BuyBoard Administrator notifies Vendor in writing of such Piggy-Back Award as provided for herein.

WHEREFORE, by signing below Vendor agrees to the foregoing and warrants that it has the authority to enter into this Agreement.

MANUFACTURER DEALER DESIGNATION

If Vendor is a manufacturer that sells products through a dealer network and wishes to designate a dealer or multiple dealers ("Designated Dealers") to receive Cooperative member Purchase Orders on Vendor's behalf, you must complete this form for each dealer you wish to designate.

Regardless of any Designated Dealers submitted by Vendor, Vendor specifically agrees and acknowledges that any such designations are for Vendor's convenience only and shall not, if Vendor is awarded a Contract, relieve Vendor of any obligations under the Contract, including payment of Cooperative service fees on all Purchase Orders submitted to Vendor or any Designated Dealer. In accordance with the General Terms and Conditions, an awarded Vendor shall remain responsible and liable for all of its obligations under the Contract and the performance of both Vendor and any of Vendor's Designated Dealers under and in accordance with the Contract and remain subject to all remedies for default thereunder, including, but not limited to suspension and termination of Vendor's Contract for nonpayment of service fees.

If awarded, Vendor authorizes the Cooperative, in its sole discretion, to list any Vendor Designated Dealers in the BuyBoard system and to receive Purchase Orders directly from Cooperative members on behalf of Vendor. To the extent a Vendor with Designated Dealers receives a Purchase Order directly, it shall be the responsibility of Vendor to appropriately process such Purchase Order in accordance with the Contract, including but not limited to timely forwarding such Purchase Order to a Designated Dealer for processing.

The Cooperative reserves the right, in its sole discretion, to refuse addition of, or request removal of, any Designated Dealer, and Vendor agrees to immediately require such Designated Dealer to cease accepting Purchase Orders or otherwise acting on Vendor's behalf under the Contract. Further, the Cooperative administrator shall be authorized to remove or suspend any or all Designated Dealers from the BuyBoard at any time in its sole discretion.

GENERAL TERMS AND CONDITIONS

A. General Provisions

1. Statement of Inclusion/Applicability

These General Terms and Conditions ("Terms and Conditions") apply to this Proposal Invitation and the proposing company's response to this Proposal Invitation. These Terms and Conditions are an integral part of any Contract which is awarded or Purchase Order which is issued in association with this Proposal Invitation.

2. Organization and Section Titles

The provisions of these Terms and Conditions are generally organized according to the stages of the procurement process: proposal, evaluation, award, and performance. This organization of and the section titles used in these Terms and Conditions are for convenience and reference only, and in no way define, describe, extend, or limit the scope or intent of the provisions of any section of this document. Unless otherwise stated, any listing of factors or criteria in these Terms and Conditions does not constitute an order of preference or importance.

3. Definitions

As used in this Proposal Invitation and associated documentation, the following terms have the meanings set out below unless the context requires otherwise, regardless of whether initial capitalization is consistently used. Words used in the singular include the plural, and words used in the plural include the singular. To the extent terms are defined or used differently in different Proposal Invitation documents, substance prevails over form:

"Awarded Items" has the meaning set for in section E.3 of the Terms and Conditions.

"Awarded Pricing" has the meaning set forth in section E.4 of the Terms and Conditions.

"BuyBoard®," "the BuyBoard," or "BuyBoard website" means the internet-based electronic commerce technology provided by the Cooperative Administrator, the Texas Association of School Boards, Inc. (TASB), to enable Cooperative members to purchase awarded goods and services electronically.

"BuyBoard Administrator" or **"Cooperative Administrator"** means the Texas Association of School Boards, Inc. (TASB), 12007 Research Blvd, Austin, Texas 78759.

"Contract" means the contract between the Cooperative and a successful Proposer (Vendor), which gives Vendor the opportunity to serve Cooperative members based on the Cooperative's acceptance of all or part of the Vendor's Proposal, and is comprised collectively of the following:

(a) This Proposal Invitation;
(b) Vendor's Proposal;
(c) Notice of Award issued to Vendor by the Cooperative; and
(d) Purchase Order between a Cooperative member and Vendor, and any additional terms, conditions, or instructions agreed to by Vendor and a Cooperative member that are consistent with these Terms and Conditions. (A Purchase Order between a Cooperative member and Vendor shall be deemed part of the Contract for the specific Cooperative member purchase only and for determination of the Service Fee as set forth in these Terms and Conditions. Purchase Order terms, including additional or supplemental terms, conditions, or instructions agreed to between a Vendor and a Cooperative member where permitted by these Terms and Conditions shall apply between the Cooperative member and Vendor as to the specific Cooperative member purchase only but shall not alter or affect the Terms and Conditions of the Contract as between the Cooperative in its own right and Vendor.)

"Cooperative" means The Local Government Purchasing Cooperative (which may also be referred to as "Texas Cooperative" herein), including when acting by and through the Cooperative Administrator, unless a distinction is made otherwise.

"Cooperative member" or "**member**" means a local governmental entity (e.g., school district, city or county) or other governmental entity that is a member of the Cooperative and is eligible to purchase through a governmental purchasing cooperative or interlocal contract. Although not eligible to be a member of the Cooperative, "Cooperative member" as used in these Terms and Conditions may include the Cooperative administrator's non-profit entity subscribers when used in relation to a purchase from a non-profit subscriber.

"Goods" or **"Products"** (which terms are used interchangeably) means the goods, products, equipment or other commodities and/or services that are the subject of this Proposal Invitation.

"Proposal Invitation" means this Proposal Invitation and all associated documentation, including without limitation, these Terms and Conditions and any amendments hereto, additional terms and conditions specific to this Proposal Invitation, instructions, exhibits or attachments, forms, agreements, certifications, item specifications, appendices, and addenda.

"Proposal" means Proposer's complete and correct response to this Proposal Invitation, including all information, forms, agreements, certifications and other documentation required by this Proposal Invitation, properly submitted by Proposer's duly authorized representative.

"Proposal Due Date" means the date and time specified in the Proposal Invitation, or any addenda thereto, by which Vendors are required to submit Proposals for this Proposal Invitation.

"Proposer" or **"Vendor"** means the company or firm that submits a Proposal or, depending on the context, the proposing company to which the Cooperative awards a Contract under this Proposal Invitation. (For purposes of the forms associated with this Proposal Invitation, "you", "your", "I" or "my" refer to Proposer or Vendor, as applicable.)

"Purchase Order" means a Cooperative member's fiscal form or other instrument which is used in making a purchase from Vendor under a Contract. A Purchase Order may include a written or electronic purchase order, record of an online order, record of a purchasing card (P card) purchase, or any other record or instrument used by a Cooperative member to document a Cooperative member's authorized commitment to purchase awarded goods or services from a Vendor under a Contract.

"Vendor Invoice" means Vendor's billing form or other instrument, written or electronic, documenting charges for goods or services delivered to the Cooperative member under a Purchase Order under a Contract.

B. Proposal Requirements

1. Specifications

Unless otherwise specified, the specifications are intended to be non-proprietary, and should be construed as such. Catalog numbers, brand names, or manufacturer product or reference numbers used in the item specifications in this Proposal Invitation are intended to be descriptive, not restrictive. These references, as well as any approved brands and/or models listed, are intended to identify and indicate the type of product being sought and establish the level of quality desired. If any conflict exists in the item specifications between the product descriptions and any brand names or model or reference numbers used, the product descriptions will override the brand names or model number references.

In some cases, however, the Cooperative may find it advantageous in order to provide best value to Cooperative members to standardize equipment and/or supplies by manufacturer in order to achieve efficiencies in procurement, repair, and operation, to match existing stock, or to satisfy other requirements. In these limited cases, preference will be given to the specific products identified as approved brands and/or models, especially if all other evaluation factors are deemed to be equal. For this reason, where specific brands or models are identified, Proposer is encouraged to propose the exact item specified, in addition to an alternate brand or model with equal/equivalent functionality or features where appropriate or necessary.

In all cases, Proposals must identify the manufacturer, brand, model, etc., of the item being offered. For Proposals on "equal/equivalent" items other than the specified approved brand and/or model, Proposer must supply a complete description and sufficient data for the Cooperative to properly analyze the product being proposed, including its functionality and features. In order to conduct such analysis, the Cooperative may request samples for items other than approved brands and/or models. If the specification identifies a specific brand or model for any item and Proposer fails to identify the manufacturer, brand, model, etc., for that item, **the Cooperative will assume Proposer is proposing on the exact brand and model identified in the specification**, **and if awarded a contract, Vendor must furnish the exact brand name, model, etc., as specified. Substitutions will not be allowed after the contract is awarded,** except as provided for in section E.8 (Product Updates and Substitutions) of these Terms and Conditions.

The apparent silence of the specifications as to any detail, or the apparent omission from any specification of a detailed description concerning any point, will be interpreted to mean that only the best commercial practices will prevail, and the specification will be construed accordingly.

NOTE: Unless a different time period is stated in the General Information document of this Proposal Invitation, if Proposer discovers or suspects an error in any item specification in this Proposal Invitation, including that the specification is proprietary where not intended, Proposer must notify the Cooperative Administrator of the error in writing at bids@buyboard.com immediately, but in no event later than the 10th business day before the Proposal Due Date.

2. Proposal Pricing

Pricing must be provided in the form required by the specifications and in accordance with the Proposal Invitation.

Unless otherwise provided in the specifications, if the specifications require "Line Item" or unit pricing, the Proposal must include a specific not-to-exceed price for the unit of measure specified for that item. Proposer is responsible for clearly noting any differences in proposed packaging and/or units of measure as a deviation in accordance with section B.4 (Deviations from Item Specifications or General Terms and Conditions) of these Terms and Conditions.

Unless otherwise provided in the specifications, if the specifications require "discount from catalog" or "discount from pricelist" pricing, Proposer must quote the discount percentage to be applied to all items in each published catalog or pricelist included in the Proposal. Proposer must submit each catalog or published pricelist proposed with the Proposal in electronic format and in accordance with the requirements of the Proposal Invitation. Catalogs and pricelists should contain only items that relate to the items requested in the specifications. Vendors are discouraged from including irrelevant or non-responsive information with their Proposal. The Cooperative reserves the right to deem a Proposal non-responsive if the catalogs or pricelists submitted do not specifically relate to the intent of the Proposal Invitation or contain what the Cooperative deems, in its sole discretion, excessive irrelevant or non-responsive information, including information which makes it burdensome or impractical for the Cooperative to identify responsive products and pricing.

For installation, repair, and other services or labor, the specifications may require not-to-exceed labor rates or coefficient to be applied to a unit cost book. Proposers must provide pricing in the form required by the specifications and note any deviations in accordance with B.4 (Deviations from Item Specifications or General Terms and Conditions).

Proposer's pricing must be equal to or better than pricing Proposer offers other similarly situated customers under similar circumstances, including those offered to other purchasing cooperatives. Pricing that is not considered equal or better could result in the Proposal being determined non-competitive and not considered for award.

Unless specified otherwise in this Proposal Invitation:

(a) A "cost plus" Proposal will not be accepted;
(b) Proposer will not include freight, transportation and delivery charges or costs, or sales tax in Proposal pricing. (Freight, transportation and delivery charges, if applicable, are to be pre-paid by the awarded Vendor and, subject to section E.5 (Packaging, Transportation, and Delivery) of these Terms and Conditions, included as a separate item on the invoice to the ordering Cooperative member);
(c) Proposal pricing must include the service fee due pursuant to section E.12 (Service Fee) of these Terms and Conditions; and
(d) Proposal pricing must be firm for acceptance and the Cooperative's period for acceptance will be at least 120 calendar days from the Proposal Due Date.

If Vendor is awarded a Contract, updates to pricing during the Contract term shall only be permitted in accordance with the requirements of section E.4 (Awarded Pricing) of these Terms and Conditions. Discount percentages off catalogs or pricelists must remain firm for the full Contract term.

3. Quality

Unless otherwise indicated in this Proposal Invitation, proposed products must be new and in first class condition, and must be warranted in the same manner and to the same extent as normally provided to other customers of Proposer. Additionally, proposed products must conform to the highest standards of manufacturing practice, including, for all tangible goods included in this Proposal Invitation, containers suitable for shipment and storage. Unless otherwise specified, "factory seconds," "refurbished", or otherwise inferior items are not acceptable. All services must comply with applicable industry standards.

4. Deviations from Item Specifications or General Terms and Conditions

Other than a deviation submitted in writing with the Proposal and **accepted by the Cooperative**, the Cooperative will hold Vendor accountable to the Cooperative and Cooperative members to perform in strict accordance with these Terms and Conditions and the item specifications as written. (For requirements for ancillary agreements between Cooperative members and Vendors for specific purchases, see section D.2 (Applicable Terms and Conditions; Ancillary Agreements).)

Vendor must clearly note and explain in detail any and all limitations, exceptions, qualifications, special conditions, or other deviations (collectively "deviations") from these Terms and Conditions or any of the item specifications in the Proposal on the Deviation and Compliance form (or an attachment thereto) at the time the Proposal is submitted. Deviations must be specific to these Terms and Conditions or the item specifications and clearly identify the specific section or item to which the deviation applies. The Cooperative shall not be deemed to have accepted, and a Contract shall not be subject to, any term or condition included in Vendor's Proposal which differs from these Terms and Conditions unless Vendor has specifically identified the deviation on the Deviation and Compliance form and the deviation is accepted by the Cooperative.

The submission of a deviation or deviations may place Vendor at a competitive disadvantage or otherwise prevent the Cooperative from considering the Proposal on the affected item(s).

The following Terms and Conditions are not subject to deviation. Any attempted deviation by Vendor to such Terms and Conditions, whether directly or indirectly, shall be deemed rejected by the Cooperative and, unless otherwise withdrawn by Vendor, may result in Vendor's Proposal being rejected in its entirety:

(a) Section B.9, Requirements of the Texas Public Information Act; Confidential Information;
(b) Section B.12, Certifications;
(c) Section D.2, Applicable Terms and Conditions; Ancillary Agreements;
(d) Section E.6.b, Payments;
(e) Section E.11, BuyBoard Vendor Information and Reporting of Cooperative Member Purchases
(f) Section E.12, Service Fee;
(g) Section E.13, Disclaimer of Warranty and Limitation of Liability;
(h) Section E.14, Sales Tax;
(i) Section E.15, Use of BuyBoard Logo and Trade Name;
(j) Section E.16, Indemnification;
(k) Section E.17, Intellectual Property Infringement;
(l) Section E.18, Remedies for Default and Termination of Contract;
(m) Section E.19, Force Majeure;
(n) Section F., Miscellaneous, including all subsections (F.1-F.12) thereto.

Further, any deviation by Vendor which, directly or indirectly, seeks to add terms or requirements substantively similar to the following shall be deemed rejected by the Cooperative and, unless otherwise withdrawn by Vendor, may result in Vendor's Proposal being rejected in its entirety:

(a) Any deviation seeking to supersede these Terms and Conditions with Vendor's own agreement form, standard agreement, or terms and conditions;
(b) Any deviation seeking to require the Cooperative, Cooperative Administrator, or any Cooperative member to indemnify or hold harmless Vendor.

The Cooperative may, in its sole discretion, seek clarification from and/or communicate with Vendor(s) regarding any submitted deviation(s), consistent with general procurement principles of fair competition. The Cooperative reserves the right to accept or reject a proposal based upon any submitted deviation.

5. Addenda

Any interpretation, correction or change to this Proposal Invitation will be made by written addendum, and updated information contained in an addendum will prevail over the information contained in the original Proposal Invitation or a previous addendum. The Cooperative, by and through the Cooperative Administrator, is the sole authority for the issuance of any addendum, and any communication related to this Proposal Invitation that is not from the Cooperative is invalid. Although the Cooperative may provide electronic notification when an addendum has been issued and the changes will be flagged, it is Vendor's responsibility to monitor the BuyBoard vendor website for possible addenda and incorporate any posted addendum into the Proposal. Vendor must acknowledge each addendum in accordance with the instructions accompanying the addendum.

6. Samples

For any commodities included in this Proposal Invitation, the Cooperative, by and through the Cooperative Administrator, or Cooperative member may request a product sample. Proposer must furnish the requested sample at no cost to the Cooperative, Cooperative Administrator, or requesting Cooperative member, as applicable. The Cooperative Administrator or requesting Cooperative member must receive the sample within such reasonable specified time as requested. The submitted sample must be labeled with the Proposal Invitation name and number, item number, product identification number, and Vendor's name. Vendor's failure to submit a sample when requested will result in the product in question not being considered for award to Vendor.

The Cooperative Administrator or Cooperative member may retain samples for a sufficient length of time for proper evaluation. If not destroyed or consumed during examination or testing and if Vendor has included a written return request with a submitted sample, the Cooperative Administrator or Cooperative member will return samples to Vendor at Vendor's expense. Notwithstanding the foregoing, the Cooperative Administrator or Cooperative member may permanently retain samples submitted by awarded Vendors for the purpose of determining that the quality and workmanship of awarded products delivered to Cooperative members is comparable to the samples. Neither the Cooperative, the Cooperative Administrator, nor a requesting Cooperative member will be liable for samples that are damaged, destroyed or consumed during examination or testing.

7. Proposal on All or Certain Items; Service Regions

Unless otherwise specified, Vendor may propose on any or all items. Vendor should answer all questions related to each item on which Vendor wishes to propose and indicate "No Bid" for those items on which Vendor does not wish to propose. Failure to complete any item in the specifications will be deemed a no bid on that item. The Cooperative will consider items individually and make awards on each item independently, except for related items for which compatibility will be an element of consideration. In such cases, small groups of items may be considered as a unit.

Vendor's Proposal shall specify the regions and/or states that Vendor proposes to serve by completing the appropriate Proposal forms. Vendor shall specify only those regions or states for which Vendor is authorized either under applicable law and/or by the manufacturer to sell the proposed products. If Vendor proposes multiple products, and the regions or states which the Vendor is able to serve and proposes to serve differ by product, Vendor must specify the specific regions or states by product in its Proposal. **A Vendor may not select a region or state in its Proposal where Vendor is unable or unauthorized to sell a proposed product. If it is determined that a Vendor is unable, unauthorized, or refuses to provide any awarded product(s) or service(s) in a region or state specified in Vendor's Proposal, such inability, lack of authorization, or refusal shall be an event of default and subject to all remedies up to and including termination of Vendor's Contract.**

8. "All or Nothing" Awards

Unless otherwise indicated in this Proposal Invitation, "all or nothing" Proposals are **not** acceptable and will be rejected. Vendor must be willing to accept a partial award for any combination of the items or services proposed and must be willing to share the business with any other successful Proposers.

9. Requirements of the Texas Public Information Act; Confidential Information

(a) Vendor Compliance.

The requirements of Subchapter J, Chapter 552, Texas Government Code, may apply to this Proposal Invitation and any awarded Contract, and Vendor agrees that the Contract can be terminated if Vendor knowingly or intentionally fails to comply with a requirement of that subchapter.

Pursuant to Texas Government Code Sections 552.371 and 552.372, to the extent the Contract or any Purchase Order thereunder has a stated expenditure of at least $1 million in public funds for the purchase of goods or services by a governmental body or results in the expenditure of at least $1 million in public funds for the purchase of goods or services by a governmental body in a fiscal year of the governmental body, Vendor shall:

1) preserve all contracting information, as defined in Texas Government Code Section 552.003(7) ("Contracting Information"), related to the Contract or any Cooperative member Purchase Order thereunder as provided by the records retention requirements applicable to the governmental body for the duration of the Contract (including any Purchase Order thereunder);

2) promptly provide to the Cooperative or Cooperative member, as applicable, any Contracting Information related to the Contract that is in the custody or possession of Vendor on request of the Cooperative or Cooperative member; and

3) on completion of the Contract (including any Purchase Order thereunder), either:
   (A) provide at no cost to the Cooperative or Cooperative member, as applicable, all Contracting Information related to the Contract (including any Purchase Order) that is in the custody or possession of Vendor; or
   (B) preserve the Contracting Information related to the Contract (including any Purchase Order thereunder) as provided by the record retention requirements applicable to the Cooperative or Cooperative member, as applicable.

The Cooperative may not accept a Proposal or award a Contract to a Vendor that the Cooperative has determined has knowingly or intentionally failed to comply with Texas Government Code Chapter 552, Subchapter J, in a previous Proposal or Contract unless the Cooperative determines and documents that Vendor has taken adequate steps to ensure future compliance with the requirements of said Subchapter.

(b) Confidential/Proprietary Information.
Proposer must clearly identify information in the Proposal that Proposer considers proprietary or confidential by completing the Confidential/Proprietary Information form. Further, for any other information provided by Vendor to the Cooperative after Contract award (updated catalogs or pricelists, Vendor information, etc.), Vendor shall clearly mark and identify any information that Vendor considers proprietary or confidential. The Cooperative will treat such information as confidential only to the extent allowable under the Texas Public Information Act (Chapter 552 of the Texas Government Code) or similar disclosure law.

If Vendor fails to properly identify information that the Vendor considers proprietary or confidential, the Cooperative shall have no obligation to seek protection of such information from public disclosure should a member of the public or other third party request access to the information under the Texas Public Information Act or similar disclosure laws. **The Cooperative and its Administrator will not be responsible for Vendor's failure to clearly identify information Vendor considers confidential or proprietary.** Vendor may be notified of a third-party request for information that Proposer has identified in the Confidential/Proprietary Information form as proprietary or confidential when required by the Texas Public Information Act or similar disclosure law.

By submitting a Proposal, Vendor acknowledges that the Cooperative and the Cooperative Administrator will disclose information when required by law, even if such information has been identified herein as information Vendor considers confidential or proprietary.

10. Certain Professional Services Excluded
Neither this Proposal Invitation nor any Contract includes services that are required to be procured under the Professional Services Procurement Act (Chapter 2254 of the Texas Government Code), including without limitation architecture and professional engineering services.

11. Withdrawal or Modification of Proposal
Vendor may withdraw or modify a submitted Proposal **prior to the Proposal Due Date and time** specified in this Proposal Invitation. A Proposal may be withdrawn only in strict accordance with this section.

Electronic Proposals Submissions: A Proposal submitted electronically through a website designated by the Cooperative for submission of electronic proposals may be withdrawn or modified prior to the Proposal Due Date and time through the same electronic proposal submission website. Vendor's login to the electronic proposal submission website shall be used to verify Vendor's identity. Vendor shall be solely responsible for ensuring only authorized use of its login, following all website instructions, and ensuring that the Proposal is properly withdrawn or modified prior to the Proposal Due Date and time.

Hard Copy Submissions: If a Vendor submitted a Proposal in hard copy electronic format via mail or in person, rather than electronic submission through the designated website, Proposer must submit a written request to the Cooperative Administrator to withdraw the Proposal. The request to withdraw must be signed by an individual authorized to enter into contracts on Vendor's behalf and indicate the individual's title. If the Cooperative Administrator has any question or doubt regarding Vendor's identity or the identity of its Proposal, withdrawal will not be allowed. If the Cooperative Administrator, decides to allow the withdrawal, Vendor's duly authorized representative may be required to complete and sign a written receipt satisfactory to the Cooperative Administrator before the proposal will be released. The decision of the Cooperative Administrator relating to matters concerning withdrawal of a Proposal is final.

A Vendor may resubmit a withdrawn Proposal, or submit a new Proposal, up until the Proposal Due Date and time, provided any new submission meets the requirements of this Proposal Invitation. If Vendor resubmits a Proposal that was withdrawn and makes any change to any document in the Proposal package, the change must be made in accordance with the Cooperative's instructions for Proposal submissions, and Vendor will be deemed to have authorized such change.

Proposals that are in the Cooperative's possession (including Proposals submitted through an electronic proposal submission website designated by the Cooperative) at the Proposal Due Date and time shall be deemed final, conclusive, and irrevocable; and no Proposal will be subject to withdrawal, amendment, or correction by a Vendor after the Proposal Due Date and time specified in this Proposal Invitation. However, pursuant to section B.4 (Deviations from Item Specifications or General Terms and Conditions), the Cooperative reserves the right, in its sole discretion, to seek clarification, communicate and resolve issues around deviations that were submitted in a Proposal, consistent with general procurement principles of fair competition.

12. Certifications

The Proposer's Acceptance and Agreement and Proposal Acknowledgements forms, which are fundamental to and incorporated into this Proposal Invitation, require Vendor to certify to certain matters. Pursuant to and in accordance with such forms, and in addition to the matters set forth therein, Vendor certifies to the following with respect to this Proposal Invitation, the Proposal, and any Contract awarded under this Proposal Invitation.

(a) Non-Collusion Certification

Vendor agrees and certifies to the following, and understands that the penalty for violating this non-collusion certification will be the immediate disqualification of Vendor's Proposal or, if the violation is revealed after Contract award, any remedies allowed by law or the Contract including termination of Vendor's Contract:

1) Neither Vendor nor any business entity represented by Vendor has received compensation for participation in the preparation of the item specifications or these Terms and Conditions related to this Proposal Invitation;
2) The Proposal has been arrived at independently and is submitted without collusion with any other Vendor, with any competitor or potential competitor, or with any other person or entity to obtain any information or gain any special treatment or favoritism that would in any way limit competition or give any Proposer an unfair advantage over any other Proposer with respect to the Proposal;
3) Vendor has not accepted, offered, conferred, or agreed to confer, and will not in the future accept, offer, confer, or agree to confer, any benefit or anything of value to any person or entity related to the Cooperative or any of its members in connection with any information or submission related to the Proposal, any recommendation, decision, vote, or award related to the Proposal, or the exercise of any influence or discretion concerning the sale, delivery, or performance of any product or service related to the Proposal;
4) Neither Vendor, nor any business entity represented by Vendor, nor anyone acting for such business entity, has violated the Federal Antitrust Laws or the antitrust laws of this State with regard to the Proposal, and the Proposal has not been knowingly disclosed, and will not be knowingly disclosed, to any other Proposer, competitor, or potential competitor prior to the opening of Proposals; and
5) No attempt has been or will be made to induce any other person or entity to submit or to not submit a Proposal.

(b) Certification Regarding Ethics, Fair Competition, and Other Matters

Vendor agrees and certifies to the following:

1) Vendor has, or has the ability to obtain, such financial and other resources, including inventories, as may be required to fulfill all the responsibilities associated with the Proposal;
2) Vendor has a high degree of integrity and business ethics, and a satisfactory record of performance;
3) Vendor is an authorized dealer, distributor, or manufacturer for the products or services offered in the Proposal for each region or state Vendor proposes to serve in the Proposal;
4) Vendor has not been notified by any local, state, or federal agency with competent jurisdiction that its standing in any matters whatsoever would preclude it from submitting its Proposal and Vendor would in no other way whatsoever be disqualified to propose or receive any award or Contract related to this Proposal Invitation, and Vendor will comply with any reasonable request from the Cooperative to supply information sufficient to substantiate the foregoing representations;
5) Vendor has provided its valid, proper and correct business entity name and information in its Proposal, that such entity is operating in good standing with the proper authority from whatever state or local jurisdiction is required, and Vendor has obtained, and will continue to maintain during the entire term of the Contract, all permits, approvals, or licenses necessary for lawful performance of its obligations under this Contract;
6) The prices, prompt payment discount terms, delivery terms, distribution allowances and the quality and/or performance (including warranties) of the product or services offered in the Proposal are and will remain the same or better than those offered Vendor's similarly situated customers under similar circumstances, including those offered through other purchasing cooperatives;
7) All pricing offered in the Proposal is and will remain fair and reasonable considering general market pricing for similar goods or services. Vendor has not and will not seek to engage in price gouging or price manipulation including, but not limited to, submitting artificially low pricing in pricelists, catalogs, or other pricing submitted with the Proposal or quotes to Cooperative members in an attempt to secure a Contract or Purchase Order and subsequently attempting to increase such proposed pricing citing market pricing;
8) The products and services offered in the Proposal represent the full and complete products and services Vendor seeks to provide if awarded a Contract. If awarded, except as permitted by Section E.8 (Product Updates and Substitutions) of the Terms and Conditions, Vendor will be limited to awarded products and services included in the Proposal and will not seek to sell non-awarded items using the Contract.
9) The Proposal complies with all federal, state, and local laws concerning these types of products or services, and Vendor will continue to comply with any applicable federal, state, and local laws related to Vendor's activities in connection with the Contract;
10) Vendor will comply with any applicable prevailing wage rate requirements under the federal Davis-Bacon or state or local law, including Chapter 2258 of the Texas Government Code;
11) Vendor will maintain, at Vendor's expense, any insurance, including without limitation such workers' compensation insurance as may be required by state or local law or policy, necessary to protect the Cooperative and its members from all claims for bodily injury, death, or property damage that might arise from the performance by Vendor or its employees or its agents of any service under the Contract; however, the existence of such insurance does not relieve Vendor of full responsibility and liability for damages, injury, death, or loss as described or as otherwise provided for by law; and
12) Any false statement contained in the Proposal is a material breach of contract which will void the Proposal or any resulting Contract, and subject Vendor to removal from all proposal lists, and possible criminal prosecution.

13. Proposal Signatures

Vendor must submit its Proposal in strict accordance with the Cooperative's instructions, including having an officer duly authorized by Vendor execute the Proposal. By signing, the signatory warrants that he or she has read and agrees to the terms of the Proposal and is authorized to execute same as a legally binding act of Vendor. A facsimile or electronic signature will be deemed an original.

14. No Reimbursement

Vendor understands and acknowledges the Cooperative will not reimburse or pay Vendor for any expenses Vendor incurs in preparing its Proposal or providing additional information required in connection with the Proposal.

C. Proposal Evaluation

1. General

A Proposal submitted in accordance with this Proposal Invitation will initially be considered for award; however, initial consideration of a Proposal will not constitute an assessment of its meeting the necessary qualifications, and a Proposal may be disqualified at any time during the evaluation process for failure to meet any other terms or conditions contained anywhere else in this Proposal Invitation.

2. Best Value Criteria

The Cooperative evaluates Proposals on the basis of best value to Cooperative members. In evaluating Proposals and determining best value for all Cooperative members, the Cooperative will consider the following criteria:

Best Value Criteria		Maximum Points
1	Price Competitiveness	45
2	Vendor Past Performance	15
3	Vendor Reputation for Goods and Services	15
4	Financial and Technical Resources	15
5	Capability of Servicing Cooperative Members	5
6	Any other relevant factor or requirement listed in this Proposal Invitation	5
TOTAL		100

The Cooperative's evaluation may include Vendor's responses to the forms and other attachments or information included with a Proposal or associated with this Proposal Invitation, including but not limited to Vendor's responses to the Proposal Invitation Questionnaire, as well as any other information at its disposal deemed relevant by the Cooperative in its sole discretion. Only responsive Proposals will be evaluated. Failure to include all required information may result in a Proposal being deemed non-responsive.

As a general matter, the Cooperative seeks to make competitive and indefinite quantity awards to Proposers that give the same or better discounts/pricing than they give their best governmental clients and can provide best value to Cooperative members. Proposers should provide competitive pricing that is the same or better than the pricing provided their best governmental clients. Each Proposal is evaluated on its own merit and determined to be fair and reasonable, including by comparing the price/discounts that Vendor offers other governmental clients.

If this Proposal Invitation requires discount pricing, discount practices may be examined and evaluated, in the Cooperative's sole discretion, based on historical data, sales information, discounts granted to other governmental clients, and/or other market research techniques. The Cooperative may award Contracts to multiple Proposers supplying comparable products or services, also known as a multiple award schedule, or award the Contract to a single Proposer. The Cooperative's decision to make multiple awards or a single award will be based upon the Cooperative's sole discretion regarding the type of award that provides best value to all Cooperative members.

In regard to Vendor past performance, among other factors, the Cooperative may consider a Vendor's breach of contractual obligation on any other active or prior Cooperative contract awarded to Vendor including, but not limited to, nonpayment of service fees by Vendor, its parent company or affiliates and/or Vendor's failure to generate any minimum amount specified in a prior-awarded Cooperative contract.

The Proposal Invitation may also require Proposers to provide certain information in the Proposal Forms for which the Cooperative does not evaluate the Proposer's responses as part of the award criteria set out in this Section C.2. The Cooperative requests such information because it may be relevant to federal, state or local procurement law or other requirements that apply to various Cooperative members. (Cooperative members may also require and request Vendors provide additional certifications and information to meet the Cooperative member's specific procurement requirements prior to making purchases under an awarded Contract.) This information, which will be made available to Cooperative members with respect to awarded Vendors, includes the following:

(a) Resident/Nonresident Certification;
(b) Vendor Employment Certification;
(c) Historically Underutilized Business Certification
(d) EDGAR Vendor Certification.

3. Cooperative Board Decision

The Cooperative reserves the right to waive any or all irregularities, formalities, or other technicalities and to be the sole and independent judge of quality and suitability of any products or services offered. The Cooperative may accept or reject a Proposal in its entirety or may reject any part of a Proposal without affecting the remainder of that Proposal and may award individual items in this Proposal Invitation in any combination or in any way that provides best value to Cooperative members based on the criteria set out in section C.2 (Best Value Criteria) of these Terms and Conditions. The Cooperative may use all means and information at the collective disposal of the Cooperative, Cooperative Administrator, and Cooperative members to evaluate Proposals. The final decision as to the best overall offer(s), including as to pricing and suitability of the proposed products or services to meet the needs of and provide best value to Cooperative members, rests solely with the Cooperative's Board of Trustees.

The Board's decision may be protested only in accordance with the Board's protest procedure policy, which is available from the Cooperative Administrator upon written request. Pursuant to the Board's protest procedure policy, a protest challenging the terms, conditions or form of notice of this Proposal Invitation and accompanying documentation must be received by the Cooperative no later than 5:00 p.m. CST the fifth business day before the Proposal opening date, and a protest challenging an award decision, including proposal evaluations, no later than 5:00 p.m. CST the fifth business day after the award is posted on the BuyBoard vendor website.

D. Contract Award

1. Notice of Award and Related Matters

A Proposal is an offer by Vendor to contract with the Cooperative and Cooperative members in accordance with this Proposal Invitation, including without limitation the item specifications and these Terms and Conditions. A Proposal does not become a Contract unless and until the Proposal is accepted by the Cooperative through the issuance of a written Notice of Award to a successful Proposer, whereupon the Contract becomes binding and enforceable. The Contract may then be utilized by a Cooperative member by the member issuing a Purchase Order for the awarded products or services. Vendor must honor all Purchase Orders issued by Cooperative members during the Contract term in accordance with these Terms and Conditions. The Cooperative may maintain Vendor's contract documents in electronic format for the duration of the Contract term.

The Cooperative reserves the right to allow awarded Vendors to add additional service regions, at the Awarded Pricing, to the Vendor's Contract during the Contract term.

As provided for in detail in section E.11 (BuyBoard Vendor Information and Reporting of Cooperative Member Purchases), all Purchase Orders must be processed through the BuyBoard. All deliveries and financial transactions related to the Purchase Order will occur directly between Vendor and the ordering Cooperative member. As provided for in detail in section E.11(c) (Vendor Invoices), Vendor must provide copies of Vendor Invoices for Cooperative member purchases to the Cooperative Administrator.

2. Applicable Terms and Conditions; Ancillary Agreements

By submitting a Proposal, Vendor specifically agrees that these Terms and Conditions shall apply, subject to any deviations properly submitted by Proposer and **approved by the Cooperative** in accordance with section B.4 (Deviations from Item Specifications or General Terms and Conditions). Following award, Vendor shall not seek to impose on a Cooperative member additional terms, conditions, or ancillary agreements that are inconsistent with, or intended to supersede, the Contract Terms and Conditions. Further, Cooperative members and Vendors do not have the authority to modify these Terms and Conditions.

However, nothing herein shall prevent the Cooperative member and Vendor from negotiating additional ancillary terms applicable to a specific purchase or purchases, consistent with the requirements of these Terms and Conditions, including but not limited to:

(a) Detailed product or service requirements for the specific Cooperative member purchase;
(b) Product delivery times and requirements for the specific Cooperative member purchase;
(c) Performance and/or payment bonds from Vendor as may be required by law or policy or deemed necessary or appropriate by the Cooperative member;
(d) Requirements for Vendor to carry and provide proof of insurance as may be required by law or policy or as deemed necessary or appropriate by the Cooperative member;
(e) Requirements for background checks at Vendor's expense on Vendor employees who will have direct contact with students or staff, or for other reasons;
(f) Other requirements applicable to the purchase as may be required by law, local policy, or deemed necessary or appropriate by the Cooperative member.

Any ancillary terms between a Cooperative member and Vendor must be in writing and signed by a representative of the Cooperative member with all necessary authority to accept the agreement and bind the Cooperative member. All risk of confirming proper authority shall lie with Vendor.

By submitting a Proposal, Vendor understands and acknowledges that Cooperative members are governmental entities, and any provision in any ancillary agreement which requires the Cooperative member to indemnify or hold harmless Vendor, or any other provision not allowed by the laws applicable to the purchasing Cooperative member, shall be void and of no effect. Vendor further acknowledges and agrees that, notwithstanding anything in any ancillary agreement, including a product warranty, to the contrary, the laws applicable to such agreement shall be the laws of the state in which the Cooperative member is located. This provision supersedes any provision in any ancillary agreement to the contrary.

Any attempt by Vendor to deviate from this section in Vendor's Proposal shall be deemed rejected. Further, any attempt by an awarded Vendor to impose terms and conditions on a Cooperative member that are inconsistent with the requirements of this section shall be an event of default under the Contract and subject to all remedies up to and including termination of Vendor's Contract.

Nothing in any ancillary agreement between a Cooperative member and Vendor shall affect the Terms and Conditions of the Contract as between the Cooperative and Vendor.

3. Piggyback Contract and Other Entity Clause

It is the Cooperative's intent that other governmental entities throughout the United States, as well as the administrator's nonprofit entity BuyBoard subscribers, have the opportunity to purchase the goods or services awarded under the Contract at the same pricing and according to these Terms and Conditions, subject to applicable state law, through a piggy-back award or similar agreement. To the extent applicable, Vendor must offer and sell the awarded goods and services to such other organizations and entities in accordance with Vendor's Proposal, including without limitation the State Service Designation form and the National Purchasing Cooperative Vendor Award Agreement.

E. Contract Performance

1. Contract Term

(a) Term. The term of the Contract is for the initial term stated in this Proposal Invitation, which term begins on the date specified in the Notice of Award. Unless otherwise stated in this Proposal Invitation, the Contract may be renewed for two additional one-year terms as provided for in this section E.1. In the event the Contract term will expire before the Cooperative awards a successor contract for the categories of awarded products or services, the Contract may be extended beyond the expiration date on a month-to-month basis, or such other term as determined by the Cooperative, upon the agreement of the Cooperative and Vendor, provided that the Awarded Pricing does not increase during such extension. A reference to "Contract term" in these Terms and Conditions means the initial term and any renewal term.

(b) Survival. The Contract shall govern the Vendor's and the Cooperative member's rights and obligations with respect to any Purchase Order issued during the Contract term and afterwards with respect to any Purchase Order or purchase bound by the Cooperative member for specified goods or services **before** the Contract award period ended. This includes, but is not limited to, the Vendor's obligations to pay to the Cooperative all applicable service fees as required by section E.12 (Service Fees) of these Terms and Conditions for such Purchase Orders.

(c) Renewals. Vendor has no right to or vested interest in a Contract renewal. The Cooperative will evaluate the Contract award prior to the expiration of the then current Contract term (initial or renewal) and reserves the right to not renew the Contract based on factors that may include, but are not limited to, the annual amount of business, Vendor's performance (including, but not limited to, compliance with the Terms and Conditions), and the continued provision of best value to Cooperative members. With respect to annual amount of business, Vendor must generate the minimum amount specified in the General Information document associated with this Proposal Invitation through the Contract, during both the initial and the first renewal term, or may not be offered a second renewal term. A Vendor's failure to generate this minimum amount may also be considered by the Cooperative as part of Vendor's past performance evaluation on future proposal invitations. A renewal must be agreed to by the Cooperative and Vendor. Vendor must promptly, and before the start of the renewal term, notify the Cooperative in writing if Vendor does not accept a renewal offered by the Cooperative or Vendor will have been deemed to have accepted the renewal.

2. Prevailing Wages, Bonding and Insurance Requirements

Vendor must comply with any applicable prevailing wage rate requirements under the federal Davis-Bacon and/or state or local law, including but not limited to Chapter 2258 of the Texas Government Code.

Vendor must provide any applicable performance and payment bonds as required by law, including but not limited to Chapter 2253 of the Texas Government Code, or as requested by a Cooperative member.

Vendor must maintain appropriate and sufficient insurance, including without limitation such workers' compensation insurance as may be required by state or local law or policy, necessary to protect Vendor and the Cooperative and its members from all claims for bodily injury, death, or property damage that might arise from the performance by Vendor or its employees or agents of any service under the Contract; however, the existence of such insurance does not relieve Vendor of full responsibility and liability for damages, injury, death, or loss as described or as otherwise provided by law.

3. Awarded Items Only May Be Sold; Conformity to Item Specifications

If awarded a Contract, Vendor may only offer under the Contract those products and services included in Vendor's Proposal and awarded to Vendor by the Cooperative ("Awarded Items"). For awards based on catalogs or pricelists, Awarded Items shall include only those items within the specification category or categories awarded to Vendor that were included in the catalog(s) or pricelist(s) submitted with Vendor's Proposal or as updated when and if permitted

by section E.8 (Product Updates and Substitutions). Any attempt by Vendor to sell items other than Awarded Items under the Contract shall be an event of default under the Contract.

Vendor warrants that the Awarded Items Vendor provides under the Contract will conform to the item specifications and other requirements of this Proposal Invitation (except to the extent and as specifically noted as deviations in Vendor's Proposal), and will be free from all defects in material, workmanship and title. Vendor further warrants that (i) Vendor has obtained, and will continue to maintain during the entire term of the Contract, all permits, approvals, and/or licenses necessary for lawful performance of Vendor's obligations under the Contract; (ii) Vendor will comply with all applicable state, federal and local laws, rules, and regulations in regard to Awarded Items, and (iii) all Awarded Items provided under the Contract meet all applicable legal standards and requirements, including OSHA standards and regulations, and that any electrical items bear the appropriate listing from US, FMRC, NEMA, or UL Laboratories.

If Vendor provides a product that does not conform to an item specification, including delivering a product other than the specific brand and model of the product awarded, the ordering Cooperative member may reject the product when delivered and terminate the Purchase Order, at no cost or penalty to the member.

If Awarded Items include chemicals or other products that customarily require Material Safety Data Sheets (MSDS), Vendor must include the MSDS with the first shipment of the product to a Cooperative member during the Contract term. Vendor must provide additional MSDSs to Cooperative members upon request, promptly and at no additional cost.

4. Awarded Pricing

Awarded pricing shall be based on the line item or unit pricing, discount off catalog or pricelist, not-to-exceed hourly labor rates, or other pricing structure as set forth in the Proposal Invitation, submitted in Vendor's Proposal, and approved by the Cooperative ("Awarded Pricing"). Except as provided in this section E.4 or otherwise in this Proposal Invitation, Vendor shall hold Awarded Pricing firm during the Contract term.

(a) Price Increases

Except as expressly permitted by these Terms and Conditions, Vendor has no contractual right to make price increases during the Contract term. The Cooperative reserves the right to reject any or all price increases it deems not representing best value to Cooperative members.

1) Line Item/Unit Pricing

Unless otherwise provided in the Proposal Invitation, for awards based on not-to-exceed line item or unit pricing, Vendor may submit updated pricing reflecting manufacturer or similar market-wide price increases that occur during the Contract term to the Cooperative, subject to the following requirements:

(A) No price increases will be permitted or accepted between the time of Vendor's Proposal submission and Contract award.
(B) Unless otherwise provided in the Proposal Invitation or approved by the Cooperative Administrator in writing, Vendor shall be required to keep the Awarded Pricing firm for the first year of the Contract Term; thereafter, Vendor may submit updated pricing no more frequently than annually for each subsequent year of the Contract Term.
(C) Vendor must promptly provide all such supporting documentation, including manufacturer documentation, as the Cooperative, by and through the Cooperative Administrator, may require to support price increases;
(D) Information on price increases must be provided in such format as may reasonably be required by the Cooperative Administrator;
(E) All price increases must be supported by manufacturer price changes or similar market changes; and
(F) Updated pricing must be limited to Awarded Items or the updated pricing may be rejected in its entirety. The Cooperative may deem any attempt by Vendor to included non-awarded items in updated pricing as an attempt to sell non-awarded items which is an event of default under the Contract.

2) Discount Off Catalog or Pricelist

For awards based on discount off catalog or pricelist, Vendor shall hold all awarded discount percentages firm during the Contract term. However, Vendor may submit updated pricelists or catalogs reflecting manufacturer or similar market-wide price increases that occur during the Contract term to the Cooperative, subject to the following requirements:

(A) No catalog or pricelist price increases, including website-based catalogs or pricelists, will be permitted or accepted between the time of Vendor's Proposal submission and Contract award;
(B) Following Contract award, Vendor may submit updated pricelists or catalogs to the BuyBoard no more frequently than 180 days from the date of Vendor's last pricelist or catalog unless otherwise provided in the Proposal invitation or otherwise approved by the Cooperative Administrator in writing;
(C) Vendor must promptly provide all such supporting documentation, including manufacturer documentation, as the Cooperative, by and through the Cooperative Administrator, may require to support price increases;
(D) Pricelists or catalogs must be provided in such format as may reasonably be required by the Cooperative Administrator;
(E) All price increases must be supported by manufacturer price changes or similar market changes; and
(F) Updated pricelists or catalogs must be limited to Awarded Items or the pricelist/catalog may be rejected in its entirety. The Cooperative may deem any attempt by Vendor to include non-awarded items in updated pricelists/catalogs as an attempt to sell non-awarded items which is an event of default under the Contract.

3) Labor Rates

Unless otherwise provided in the Proposal Invitation, for Awarded Pricing based on not to exceed hourly labor rates, Vendor may not increase Awarded Pricing during the Contract term unless changes to prevailing wage rates under state, local, or federal law applicable to the work to be performed support higher rates. In such event, the Vendor must notify the Cooperative and, upon request, promptly provide such documentation as the Cooperative may require to support the requested labor rate increase. Unless required by law, no rate increases will be permitted or accepted between the time of Vendor's Proposal submission and Contract award. Following Contract award, Vendor may submit updated labor rates no more frequently than 180 days from Vendors last hourly labor rate submission unless otherwise provided in the Proposal Invitation, otherwise approved by the Cooperative administrator in writing, or otherwise required by law.

For Awarded Pricing based on a coefficient to be applied to a unit price book, coefficients shall remain firm for the full Contract Term and are not subject to change.

(d) Price Decreases

Regardless of the pricing method specified, in the event Vendor decreases the price of awarded products or services below the Awarded Pricing for Vendor's other customers in similar market circumstances, Vendor must offer such decreased pricing to Cooperative members under the Contract.

Further, Cooperative members may negotiate with Vendor, through the BuyBoard request for quotes (RFQ) function or otherwise, to obtain lower prices for Awarded Items based on volume or other factors. Nothing herein shall prohibit Vendor from offering pricing lower than the Awarded Pricing.

(e) Exceeding Awarded Pricing Prohibited

If it is determined that a Vendor has sold Awarded Items to Cooperative members through the Contract at a price higher than the applicable Awarded Pricing, Vendor shall be in default of its Contract and subject to all remedies up to and including termination.

(f) Service Fee Included in Awarded Pricing

Unless specified otherwise in this Proposal Invitation, the service fee due pursuant to section E.12 (Service Fee) of these Terms and Conditions is included in the Awarded Pricing.

5. Packaging, Transportation, and Delivery

Unless otherwise provided for in this Proposal Invitation, all tangible goods included in this Proposal Invitation must be packaged in containers that are new, appropriately designed for the product, and sturdy enough to protect the product during loading, transit, unloading, and storage, and be suitably packed to secure the lowest transportation costs. Products for which palletizing is appropriate must be delivered on standard and industry acceptable pallets for the products to be delivered in good, serviceable condition.

Vendor is responsible for paying all freight, delivery, handling and other charges incurred in transporting and delivering products to a Cooperative member, and for the risk of loss until the product is delivered to and accepted by the Cooperative member. Freight, delivery, handling and other charges incurred in transporting and delivering products to a Cooperative member are to be prepaid by Vendor. Vendor may collect the actual amount of such charges after delivery and acceptance, provided that the charges (a) are reasonable, (b) were disclosed to the Cooperative member, if requested, and in all instances in which the charges exceed ten percent (10%) of the total cost of the order, prior to shipment; (c) are itemized and shown separately on the member's invoice; and (d) are supported by appropriate documentation submitted with the invoice.

Except for items that have hidden defects or that do not meet specifications, title and risk of loss to products pass to a Cooperative member upon the member's actual receipt and acceptance of the product at the point and time of delivery. Unless otherwise noted in the Proposal (as a deviation) or the Purchase Order, Vendor must deliver or provide awarded products or services within 10 business days after receipt of a Cooperative member's Purchase Order. Vendor must immediately notify the Cooperative member's primary contact of any anticipated or actual delay and document the notice in writing, and the member may extend the delivery time or cancel the order if the delay is unacceptable. If the Cooperative member has not received notice of the delay as required by this section, the member may, at its discretion, return to Vendor any items received after the due date, at Vendor's expense and without liability or penalty to the member. When the needs of a Cooperative member require immediate response, the right to pick up tangible goods, if part of this Proposal Invitation, on an "over the counter" basis must be available for the majority of the awarded tangible goods. In these circumstances, the Cooperative member's personnel may pick up the products at Vendor's warehouse location. Additionally, a Cooperative member may request emergency delivery, and Vendor must use its best efforts to comply with rush or emergency requests. If Vendor cannot fulfill the emergency delivery requirement, the member may procure the products or services from alternative sources without penalty. Time is of the essence in Vendor's performance of the Contract.

6. Packing Lists, Invoices and Payments

(a) Packing Lists, Vendor Invoices

Packing lists or other suitable shipping documents must accompany each shipment of tangible goods included in this Proposal Invitation and state: (a) Vendor's name and address; (b) Cooperative member's name and address or delivery location; (c) Cooperative member's Purchase Order number; (d) descriptive information identifying the item(s) delivered, including quantity, item number, product code, item description, and total number of containers; and (e) copies of all product warranties for the item(s) delivered. Vendor must submit separate invoices, in duplicate, on each Purchase Order after each delivery. Invoices must (a) contain the information stated above; (b) separately itemize any transportation and delivery charges, and include associated documentation; (c) include a properly signed copy of the delivery receipt; and (d) be mailed directly to the ordering Cooperative member. Unless specified otherwise in this Proposal Invitation, the service fee due pursuant to section E.12 (Service Fee) of these Terms and Conditions is included in the Awarded Pricing and must not be separately itemized in the invoice.

Vendor shall provide copies of Vendor Invoices to the Cooperative in accordance with the requirements of section E.11(c) (Vendor Invoices).

(b) Payments

Payment by the Cooperative member is due after a Cooperative member's receipt and acceptance of ordered products or services and the documentation identified above, including a complete and correct invoice, in accordance with the Texas Prompt Payment Act (Chapter 2251 of the Texas Government Code). A Cooperative member is not responsible for products delivered or invoiced without a valid purchase order number.

A Cooperative member's obligation to Vendor is payable only and solely from funds available for the purpose of the purchase. Lack of funds will render a Cooperative member's Purchase Order null and void to the extent funds are not available and any delivered but unpaid product will be returned to Vendor. Neither the Cooperative nor TASB is liable or responsible for any payment owed Vendor by a Cooperative member under the Contract.

7. Product Inspection, Testing, and Defective Items

Products supplied under the Contract must be delivered in the best possible condition, be covered by the product warranties provided by Vendor and/or the product manufacturer to other customers, and are subject to inspection, testing, and approval by the Cooperative or a Cooperative member. Tests may be performed on samples taken from any regular shipment of the product. In the event a tested product fails to meet or exceed all requirements of the item specifications or these Terms and Conditions, Vendor must pay the cost of the samples and/or the testing. Upon receipt of notification from the Cooperative or Cooperative member, Vendor must replace and, for tangible goods, pick up the defective product within five business days or on the next service date, whichever is sooner, without charge for the replacement or delivery. Additionally, the Cooperative or member may dispose of defective products that are not picked up and replaced by Vendor, without cost. Products damaged in shipment are considered defective for purposes of the foregoing. Latent defects discovered after delivery and acceptance of any products may result in revocation of the acceptance of such products. The Cooperative or Cooperative member must have access to Vendor's place of business during normal business hours for the purpose of inspecting any awarded product.

8. Product Updates and Substitutions

Vendor's Proposal must specify the products or services Vendor proposes to provide under each category of the Proposal Invitation specifications. Vendor shall only be permitted to provide those products or services specified in the Proposal for the category or categories under which Vendor is awarded under the Contract. Except as provided in this section E.8, the Cooperative will not accept additions or substitutions to any of the product(s) listed in the Proposal after a Notice of Award has been issued.

(a) Updated Catalogs

If a manufacturer catalog submitted with Vendor's proposal is later updated with products within the same Proposal Invitation category or categories, including new products not previously available in the awarded product category, Vendor may substitute the updated catalog for the awarded product or catalog. Notwithstanding the forgoing, updated catalogs shall **not** be permitted to include any of the following:

1) Items that are outside the category or categories under which Vendor was awarded;
2) Items that, in the reasonable discretion of the Cooperative, do not meet the intent of the awarded specification category;
3) Items that were available in the market at the time of the submission of Vendor's Proposal which Vendor either elected not to include or neglected to include with Vendor's Proposal; or
4) Products from manufacturers or brands not specifically included in Vendor's Proposal in the applicable specification category.

(b) Substitutes

If an awarded product or catalog of products is discontinued by the manufacturer and the same manufacturer offers an equivalent replacement product or catalog, Vendor may substitute the replacement product or catalog for the awarded product or catalog.

Vendor shall submit all reasonable supporting documentation requested by the Cooperative Administrator regarding any catalog updates or product or catalog substitutions. The Cooperative, by and through the Cooperative Administrator, reserves the right to reject, in its sole discretion, any catalog updates or product or catalog substitutions.

9. Product and Service Guarantees and Warranties

Vendor shall extend such warranties on Awarded Items, including the installation thereof if such installation is provided by Vendor, as are normally provided to other customers of Vendor. All services shall be performed in a good and workmanlike manner consistent with industry standards. Unless a deviation is submitted by the Vendor with its proposal and accepted by the Cooperative pursuant to section B.4 (Deviations from Item Specifications or General Terms and Conditions) or unless a different warranty is required by a Cooperative member Purchase Order or ancillary agreement, a minimum of a 90-day product or service guaranty or the manufacturer's standard commercial warranty, whichever is greater, will apply to all awarded products and services. At a minimum, all product warranties must provide for replacement of defective merchandise, parts, and labor, and include pick-up of the defective merchandise from the location specified by the Cooperative member and delivery of the replacement(s) to the same location. In addition, such warranty shall include curing any defects in connection with any Vendor installation of the product at no additional cost to the member. The warranty period is effective from the date the Cooperative member accepts the product or the date the service is completed and accepted by the Cooperative member. No waiver of implied warranties shall be effective unless explicitly approved by a Cooperative member in writing in accordance with section D.2 (Applicable Terms and Conditions; Ancillary Agreements).

Vendor shall respond to any reasonable requests for information from the Cooperative, the Cooperative Administrator, or a Cooperative member pertaining to concerns regarding public health or safety in relation to Awarded Items and provide such documentation as may be reasonably requested. In the event of any product recalls affecting Awarded Items, Vendor shall notify the Cooperative Administrator and any Cooperative members who made purchases from Vendor for such recalled products in writing as soon as practicable of the recall and proposed action. At a minimum and without waiving any other requirements under the Contract, law, or Cooperative member Purchase Order or ancillary agreement, Vendor shall be required to take all action required by law or greater remedy as may be offered by Vendor to other customers with respect to recalled products, including but not limited to, prompt replacement and/or refunds.

10. Multiple Distribution Centers, Single Point of Contact, and Designated Dealers

If tangible goods are included as part of Vendor's Awarded Items and Vendor delivers products out of more than one warehouse or distribution center, all warehouses or distribution centers involved in the distribution plan must carry or have timely access to all Awarded Items and must be able to respond to orders in a timely manner. Except as expressly permitted in this Proposal Invitation, product substitutions are not allowed, and the involvement of multiple distribution centers does not alter any restriction against product substitution.

The Cooperative and Cooperative members will have **one Vendor contact person** for overall contract management relative to the Contract, even if Vendor uses multiple distribution centers or designated dealers, and the Cooperative and its members will not be required to deal with multiple Vendor contacts for overall contract management.

If Vendor is a manufacturer that sells products through a dealer network, Vendor may request to designate a dealer or multiple dealers ("Designated Dealer" or "Designated Dealers") to receive Cooperative member Purchase Orders on Vendor's behalf by completing and submitting to the Cooperative Administrator the information required on the Manufacturer Dealer Designation form contained in the Proposal Invitation and, if requested, such other information as the Cooperative Administrator may reasonably require.

Regardless of any Designated Dealers submitted by Vendor, Vendor specifically agrees and acknowledges that any such designations are for Vendor's convenience only and shall not relieve Vendor of any obligations under the Contract, including payment of Cooperative service fees on all Purchase Orders submitted to Vendor or any Designated Dealer. Vendor shall remain responsible and liable for all obligations under the Contract and the

performance of both Vendor and any of Vendor's Designated Dealers under and in accordance with the Contract. Vendor shall remain subject to all remedies for default thereunder, including, but not limited to suspension and termination of Vendor's Contract for nonpayment of service fees.

Further, Vendor acknowledges and agrees that, if Vendor opts to submit Designated Dealers under the Contract, Vendor is responsible for ensuring the accuracy, maintenance, and updating of the Designated Dealer information provided to the Cooperative and ensuring and confirming such information has been received by the Cooperative Administrator in such form as the Cooperative Administrator may reasonably require. Vendor authorizes the Cooperative Administrator, in its sole discretion, to list any Vendor Designated Dealers on the BuyBoard website and authorizes the Designated Dealer(s) to receive Purchase Orders directly from Cooperative members on behalf of Vendor. To the extent a Vendor with Designated Dealers receives a Purchase Order directly, it shall be the responsibility of Vendor to appropriately process such Purchase Order in accordance with the Contract, including but not limited to timely forwarding such Purchase Order to a Designated Dealer for processing.

The Cooperative reserves the right, in its sole discretion, to refuse addition of, or request removal of, any Designated Dealer, and Vendor agrees to immediately require such Designated Dealer to cease accepting Purchase Orders or otherwise acting on Vendor's behalf under the Contract. Further, the Cooperative Administrator shall be authorized to remove or suspend any or all Designated Dealers from the BuyBoard at any time in its sole discretion.

11. BuyBoard Vendor Information and Reporting of Cooperative Member Purchases

(a) BuyBoard Website and Vendor Information

The awarded Contract will be posted on the BuyBoard website as an online marketplace. By submitting a Proposal, Vendor consents to the posting of all Proposal and product information provided by Vendor including, but not limited to, Vendor's Proposal, contact information, product catalogs, and product pricing on the BuyBoard website for Cooperative members. Vendor further authorizes the Cooperative, the Cooperative Administrator, and any third-party contractor providing services for the BuyBoard website to receive and relay such information to Cooperative members electronically, including via electronic punch out from the BuyBoard website.

Posting of Vendor information on the BuyBoard website or other relay of Vendor information by the Cooperative to Cooperative members shall be for the convenience of Cooperative members and Vendors only and shall not be deemed a contractual obligation or duty on the part of the Cooperative. Whether and when to post information to the BuyBoard website shall be in the sole discretion of the Cooperative. To the extent Vendor pricing or catalog information is posted on the BuyBoard website and Vendor subsequently submits updated pricing or catalog information in accordance with sections E.4 or E.8 of the Terms and Conditions, as applicable, the Cooperative Administrator shall have a reasonable time (which in no event shall be less than 10 business days, and may be longer depending on circumstances) to review the information and, if accepted in accordance with the Terms and Conditions, update the information. Vendor shall continue to honor all prior pricing and catalogs and shall not be permitted to sell products or services to Cooperative members using updated pricing or catalog information until all required information has been received and updated by the Cooperative Administrator. It is the responsibility of Vendor to timely provide all pricing and catalog information in the format required by the Cooperative Administrator and respond to requests for additional information from the Cooperative Administrator to avoid delays in information being updated. As provided in sections E.4 and E.8 of these Terms and Conditions, the Cooperative reserves the right to reject any or all price increases or catalog updates.

Neither the Cooperative nor the Cooperative Administrator shall be liable to any party for information provided by Vendor or for any errors in Vendor information posted to the BuyBoard website or relayed to Cooperative members. Vendor shall be fully responsible and liable to the Cooperative, the Cooperative Administrator, and Cooperative members for all information provided by Vendor related to the Proposal Invitation, Contract and/or for posting on the BuyBoard website including, but not limited to, catalogs and pricelists. Vendor shall not upload, enter, or submit any information that may infringe the intellectual property rights of any third party or that contains software viruses or any other code, files, or programs that may damage or disrupt any software,

hardware, or equipment. To the extent Vendor discovers any error in information on the BuyBoard website, Vendor shall promptly advise the Cooperative Administrator in writing at contractadmin@buyboard.com. Vendor shall also confirm the accuracy of all product and pricing information in Purchase Orders prior to acceptance and promptly notify the Cooperative member and Cooperative of any potential errors.

By submitting a Proposal, Vendor certifies that Vendor has read the BuyBoard Technical Requirements contained in this Proposal Invitation and, if awarded a Contract, will comply with all requirements therein except as specifically indicated by Vendor in the Acknowledgement of BuyBoard Technical Requirements form. To the extent Vendor has acknowledged the ability to comply with the BuyBoard Technical Requirements, Vendor's subsequent failure or refusal to comply shall be deemed an event of default under the Contract. To the extent Vendor is unable to meet the applicable BuyBoard Technical Requirements, Vendor acknowledges that, if awarded a Contract, information available on the BuyBoard for Vendor's awarded products or services may be more limited than other Vendors, potentially placing Vendor at a disadvantage and impacting the ability of Cooperative members to search, find, review, and purchase Vendor's awarded products and services on the BuyBoard website.

The BuyBoard Technical Requirements may be updated from time to time, and Vendor agrees to use best efforts to comply, if able, with updated requirements.

In using the BuyBoard Website, Vendor agrees to comply with BuyBoard Terms and Conditions of Use and BuyBoard Privacy Policy ("BuyBoard Website Terms") which are available on the website and may be updated from time to time. The BuyBoard Website Terms supplement the Contract. In the event of any conflict between the Contract and the BuyBoard Website Terms, the Contract shall prevail.

(b) Purchase Order Reporting

A Cooperative member may make purchases from Vendor under the Contract by issuing a Purchase Order to procure Awarded Items. **All Purchase Orders generated by or under the Contract must be processed through the BuyBoard. Except as expressly authorized in writing by the Cooperative Administrator, neither Vendor nor any Vendor Designated Dealer is authorized to process a Purchase Order received directly from a Cooperative member that has not been processed through the BuyBoard or provided to the Cooperative.** To the extent Vendor or Vendor's Designated Dealer receives a Purchase Order directly from a Cooperative member that Vendor has reason to believe has not been received by the Cooperative or processed through the BuyBoard, Vendor shall promptly provide a copy of the Purchase Order to the Cooperative Administrator.

A Vendor may request authorization to self-report Cooperative member purchases by completing the Vendor Request to Self-Report BuyBoard Purchases form included in the Proposal Invitation or such other form as may be required by the Cooperative Administrator. Any request must be submitted in writing and is subject to written approval by the Cooperative Administrator. To the extent that a Vendor is authorized in writing by the Cooperative administrator to self-report Cooperative member purchases under the Contract, Vendor shall be required to comply with all additional terms and conditions imposed by the Cooperative as part of such authorization.

The Cooperative may, from time to time, in its reasonable discretion, provide instructions and modify the procedures for reporting Purchase Orders under the Contract by providing Vendor at least 30 days advance written notice. Vendor acknowledges and agrees that notice provided via electronic mail to the Purchase Order contact designated by Vendor in Vendor's Proposal, or subsequently updated in writing, shall satisfy this requirement. Continued acceptance of Purchase Orders and/or any Contract renewal by Vendor shall constitute acceptance of any modified Purchase Order procedures.

The intent of the Cooperative member to purchase through the Cooperative Contract is paramount. The method or timing of reporting a Purchase Order to the Cooperative shall not alter the nature of the transaction as a BuyBoard purchase or relieve Vendor of the obligation to pay the service fee on such purchase.

Vendor and any Vendor Designated Dealer must maintain the computer and telephone hardware necessary to provide for the electronic receipt of Purchase Orders and pay such costs and fees as may be imposed by a supplier or service provider for the software, equipment and service required to use the BuyBoard.

(c) Vendor Invoices

To further document and report Cooperative member purchases under the Contract, Vendor shall provide the Cooperative with copies of Vendor Invoices for all Cooperative member purchases under the Contract. Vendor shall submit copies or reports of Vendor Invoices to info@buyboard.com promptly upon generation of the invoice. Vendor shall ensure that the Contract number and member Purchase Order number is included with the Vendor Invoice.

In lieu of providing copies of individual Vendor Invoices, Vendor may provide monthly reports of Vendor Invoices to info@buyboard.com no later than the 10th day of the month. The monthly Vendor Invoice reports shall include a list of all invoices billed by Vendor during the preceding month to Cooperative members for purchases under the Contract. Monthly Vendor Invoice reports shall include any and all information reasonably required by and be in such format as may be reasonably required by the Cooperative Administrator. At a minimum, Vendor Invoice reports shall include the Cooperative member name, Purchase Order number, general description of the purchase including Contract number and Contract category under which the purchase was made, and invoice amount.

Vendor agrees to cooperate, and to require any Vendor Designated Dealer(s) to cooperate, with the Cooperative to promptly provide such reasonable information and documentation as the Cooperative Administrator may require regarding Purchase Orders received by Vendor and Vendor Invoices issued by Vendor under the Contract.

12. Service Fee

Vendor must pay the Cooperative the service fee specified in this Proposal Invitation and, unless this Proposal Invitation provides otherwise, the service fee is included in the Awarded Pricing. Except as otherwise provided in this section E.12, Vendor must remit the service fee to the Cooperative in Austin, Texas, within 30 days of the date of each service fee invoice.

Service fees shall be deemed incurred on the date of Vendor's receipt of payment for products or services by the Cooperative member. To the extent that a Vendor disputes any service fee listed in a service fee invoice, including but not limited to assertions that the purchase on which the fee is based has yet to be delivered or paid (e.g. special orders), was canceled by the Cooperative member, or is a duplicate purchase order, the Vendor must notify the Cooperative of the dispute in writing **no later than the 90th day after the original invoice date** ("Dispute Period") by returning a copy of the invoice or statement of outstanding balances to the Cooperative Administrator with each disputed item marked and the basis for dispute provided. To the extent that the disputed service fees have been paid by Vendor, any request for a refund must be provided to the Cooperative Administrator in writing, with supporting documentation, no later than the last day of the Dispute Period. Vendor agrees to cooperate, and require any Vendor Designated Dealer(s) or billing agent to cooperate, with the Cooperative Administrator in attempting to reconcile and resolve disputed fees and shall provide such reasonable information and documentation as the Cooperative Administrator may require to review the disputed fees to the satisfaction of the Cooperative Administrator's staff. Any service fees for which the Cooperative Administrator has not received a notice of dispute or request for refund within the Dispute Period as set forth herein shall be deemed conclusively due and owing and no longer subject to dispute or claim for refund.

Unpaid service fees will be subject to collection in accordance with the Cooperative's Board policy on vendor invoicing and collections, which is available from the Cooperative Administrator on request.

A Vendor may designate a billing agent to receive Cooperative service fee invoices on Vendor's behalf. Such designation must be made in writing by an authorized representative of Vendor and properly submitted to the Cooperative Administrator in such form as the Cooperative Administrator may reasonably require. However, in so doing, Vendor acknowledges and agrees that such designation shall be for Vendor's convenience only and Vendor

shall remain responsible for all obligations under the Contract, including payment of service fees, and shall remain subject to all remedies for default in payment thereof.

Vendor agrees to provide the Cooperative with copies of all Purchase Orders generated by or under the Contract that are received directly from Cooperative members, Vendor Invoices, and/or such other documentation regarding those Purchase Orders as the Cooperative Administrator may require in its reasonable discretion. Additionally, the Cooperative has the right, upon reasonable written notice, to review Vendor's records pertaining to purchases under the Contract with Cooperative members to verify purchase history and the accuracy of service fees payable from Vendor.

13. Disclaimer of Warranty and Limitation of Liability

THE COOPERATIVE AND TASB (BOTH D/B/A BUYBOARD) DISCLAIM ANY AND ALL WARRANTIES, EXPRESS OR IMPLIED, IN REGARD TO THE AVAILABILITY, ACCURACY, CONTENT OR ANY OTHER ASPECT OF ANY INFORMATION, PRODUCT, OR SERVICE FURNISHED UNDER THE CONTRACT AWARD, INCLUDING, WITHOUT LIMITATION, ANY AND ALL IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. WITH RESPECT TO ANY AND ALL CAUSES OF ACTION ARISING UNDER OR RELATED TO THE CONTRACT, NEITHER THE COOPERATIVE NOR TASB, NOR THEIR RESPECTIVE OFFICERS, BOARD MEMBERS, EMPLOYEES OR AGENTS, IS LIABLE TO VENDOR UNDER ANY CIRCUMSTANCES FOR LOST REVENUE, DATA OR PROFITS, OR FOR ANY INDIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL OR EXEMPLARY DAMAGES, EVEN IF THE COOPERATIVE AND/OR TASB HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. WITHOUT WAIVING ANY GOVERNMENTAL IMMUNITY PROVIDED BY LAW, IN NO EVENT WILL THE COOPERATIVE AND/OR TASB'S TOTAL JOINT LIABILIY TO VENDOR EXCEED THE AMOUNT OF THE SERVICE FEE PAID BY VENDOR DURING THE TWELVE MONTHS IMMEDIATELY PRECEEDING THE EVENT GIVING RISE TO SUCH LIABILITY.

Neither the Cooperative nor TASB is in any way liable to Vendor for a Cooperative member's performance or nonperformance of the member's obligations under the Contract or Purchase Order.

14. Sales Tax

Cooperative members are governmental entities which are generally exempt by law from the payment of state sales tax and federal excise tax. Vendor may request a Cooperative member to provide a tax exemption certificate, or the member may establish its tax-exempt status by including tax exemption information or tax exemption certificate with the Purchase Order as authorized under law. Vendor is responsible for collecting such taxes, if any, as may be due from a Cooperative member and remitting payment to the appropriate taxing authority.

15. Use of BuyBoard Logo and Trade Name

The BuyBoard trade name and logo are proprietary to TASB and have been specifically licensed by TASB to the Cooperative. Vendor may not use, display, or otherwise distribute the BuyBoard logo or trade name except in strict accordance with the Cooperative's written guidelines posted on the BuyBoard website.

16. Indemnification

Vendor agrees to defend, indemnify, and hold harmless the Cooperative, TASB, and Cooperative members, and their officers, board members, agents and employees, from and against all third-party claims, actions, suits, liability, liens, loss and damage of any character, type, or description, including without limitation all expenses of litigation, court costs and attorney's fees, arising out of or related to (a) injury or death to any person or damage to any property related to the acts of Vendor or its agents, subcontractors, or employees in the execution of or performance under the Contract or a Purchase Order, as applicable; and (b) Vendor's negligence, misconduct, breach of contract or other failure to comply with its obligations in the execution or performance under the Contract or a Purchase Order, as applicable.

17. Intellectual Property Infringement by Vendor

Without limiting the scope of section E.16 (Indemnification) of these Terms and Condition, if any claim is asserted, or action or proceeding brought against the Cooperative, the Cooperative Administrator, or a Cooperative member that alleges that either (1) all or any part of the products or services supplied by Vendor, in the form supplied or modified by Vendor, or its subcontractors pursuant to Vendor's sole directions, or (2) any information provided by Vendor or its designated dealers or agents to a Cooperative member, the Cooperative, or the Cooperative Administrator (including, but not limited to, information submitted by Vendor to the Cooperative or Cooperative Administrator for the BuyBoard website), infringes or misappropriates any United States intellectual property, intangible asset, or other proprietary right, title or interest (including, without limitation, any copyright or patent or any trade secret right, title, or interest), or violates any other contract, license, grant, or other proprietary right of any third party, the Cooperative, Cooperative Administrator, or Cooperative member upon its awareness, shall give Vendor prompt written notice thereof. Vendor shall defend, and hold the Cooperative, the Cooperative Administrator, and the Cooperative member harmless against any such claim or action and shall indemnify the Cooperative, the Cooperative Administrator, and Cooperative member against any liability, damages and costs resulting from such claim. In addition, if, in any such suit arising from such claim, the continued use of the product for the purpose intended is enjoined by any court of competent jurisdiction, unless otherwise agreed in writing by the Cooperative member, Vendor shall, at its expense and option, either (a) procure for the Cooperative member the right to continue using the product; (b) modify the product so that it becomes non-infringing; (c) replace the product or portions thereof so that it becomes non-infringing; or (d) allow the Cooperative member to return the product or cancel the service and refund the purchase price (less reasonable depreciation for use, if applicable.)

18. Remedies for Default and Termination of Contract

(a) Default and Termination of Cooperative Contract

Except as otherwise provided for in these Terms and Conditions, either party (Cooperative or Vendor) may terminate the Contract in whole or in part in the event of the other party's substantial failure to fulfill its obligations under the Contract through no fault of the terminating party; provided, however, that the defaulting party is given at least 10 business days prior written notice of the default and intent to terminate (delivered by certified mail, return receipt requested, or other method that similarly documents receipt), and, to the extent the default is capable of being cured, a 10 business day opportunity to remedy the default to the satisfaction of the terminating party (or, in the event of default based on Vendor's failure to timely remit the service fee due the Cooperative, such longer cure period as may be established by Cooperative policy.)

At the Cooperative's option and in addition to any other remedies it may have available, the Cooperative may terminate the Contract if Vendor fails to adhere to or violates any of the provisions of these Terms and Conditions, including the certifications. Without limiting the scope of the foregoing, one or more of the following constitute grounds for termination:

1) Materially misleading or false statement(s) in Vendor's Proposal;
2) Delivery of product or services that fail to meet the item specifications;
3) Delivery of product or services that are defective or substandard or fail to pass product inspection;
4) Delivery of a product substitution, except as specifically authorized by the Contract;
5) Failure to meet required delivery schedules;
6) Failure to timely supply Awarded Items at the Awarded Pricing;
7) Failure to timely remit any service fee due the Cooperative under the Contract or any other BuyBoard contract with Vendor, its parent company, or affiliates;
8) Failure to provide, within a reasonable time and where required by the Contract, information reasonably requested by the Cooperative or Cooperative Administrator including, but not limited to, information requested under sections E.11 (BuyBoard Vendor Information and Reporting of Cooperative Member Purchases) or E.12 (Service Fees) of these Terms and Conditions;
9) Processing a Purchase Order received directly from a Cooperative member, without prior written approval from the Cooperative Administrator;

10) Providing architectural or engineering services under the Contract that must be procured pursuant to the Professional Services Procurement Act (Chapter 2254 of the Texas Government Code);
11) Selling non-awarded products or services under the Contract or any other BuyBoard contract; or
12) Vendor refusal, inability, or loss of ability to offer or provide Awarded Items to Cooperative members in awarded regions or states unless caused by a Force Majeure event pursuant and subject to section E.19 (Force Majeure).

Notwithstanding any other provision of this section E.18, in the event of Vendor's default under or breach of any provision in the Contract, the Cooperative reserves the right to enforce the performance of the Contract in any manner prescribed by law or deemed to be in the best interest of the Cooperative or necessary or appropriate to protect or provide best value to Cooperative members. Without limiting the scope of the foregoing, the Cooperative, acting by or through the Cooperative Administrator, may temporarily inactivate (suspend) Vendor from the BuyBoard website and as a BuyBoard vendor, suspend or remove any Vendor Designated Dealer, or require removal of an Awarded Item with or without prior notice to Vendor, if the Cooperative or Cooperative Administrator reasonably determines that that there has been a breach under the Contract or any other BuyBoard contract with Vendor, including but not limited to nonpayment of service fees, or that there is a potential policy, public health, or safety issue to warrant such action. The temporary inactivation may remain in effect pending further action or termination of the Contract by the Cooperative. Vendor remains liable for all obligations and responsibilities incurred prior to and during any temporary inactivation and prior to termination, as applicable.

In the event the Cooperative terminates the Contract, in whole or in part, the Cooperative reserves the right to award the terminated Contract, or any portion thereof, to the next Proposer the Cooperative determines to provide best value to Cooperative members. Additionally, the Cooperative may sue for breach of contract and specific performance and, in addition to contract damages, recover attorneys' fees and costs. Vendor shall be liable for any and all damages permitted by law, and any deviation submitted by Vendor in its Proposal seeking to limit Vendor's liability to the Cooperative shall be deemed rejected.

The Cooperative will not be liable to Vendor for any damages (including, but not limited to, loss of profits or loss of business, or any special, consequential, exemplary, or incidental damages) resulting from termination based on Vendor's default or breach of contract.

If any delay or failure of performance is caused by a Force Majeure event as described in section E.19 (Force Majeure) of these Terms and Conditions, the Cooperative may, in its sole discretion, terminate the Contract in whole or part, provided such termination complies with the procedures set out above. Any Contract termination resulting from any cause other than a Force Majeure event will be deemed a valid reason for the Cooperative not considering any future proposals from the defaulting Vendor.

In the event a Vendor's Contract is terminated under this section E.18, Vendor shall remain responsible for payment of all service fees to the Cooperative for Awarded Items sold under the Contract to Cooperative members prior to such termination.

(b) Default and Termination of Cooperative Member Purchase

A Cooperative member has no authority to terminate the Contract at the Cooperative level for default. A Cooperative member may terminate a Purchase Order or refuse to accept delivery (1) as provided for in these Terms and Conditions, Cooperative member Purchase Order, or ancillary agreement, or (2) for Vendor's material breach of a term or condition included in the Contract, a Cooperative member Purchase Order, or ancillary agreement. Additionally, to the extent permitted by law, Cooperative members may sue for breach of contract and specific performance and, in addition to contract damages, recover attorneys' fees and costs. Nothing herein shall limit the remedies available to a Cooperative member under applicable law.

A Cooperative member will not be liable to Vendor for any damages (including, but not limited to, loss of profits or loss of business, or any special, consequential, exemplary, or incidental damages) resulting from termination based on Vendor's default or breach of contract.

19. Force Majeure

The term Force Majeure includes, but is not limited to, governmental restraints or decrees, provided they affect all companies in Vendor's industry equally and are not actions taken solely against Vendor; acts of God (except natural phenomena, such as rain, wind, or flood, which are normally expected in the locale in which performance is to take place); work stoppages due to labor disputes or strikes; fires; explosions; epidemics or pandemics; riots; war; rebellion; or sabotage.

The Cooperative, Cooperative members, and Vendor are required to use due caution and preventive measures to protect against the effects of Force Majeure, and the burden of proving that Force Majeure has occurred rests on the party seeking relief under this section E.19. The claiming party must promptly notify the other party in writing, citing the details of the Force Majeure event, use due diligence to overcome obstacles to performance created by the Force Majeure event, and resume performance immediately after the obstacles have been removed, provided the Contract has not been terminated in the interim.

Delay or failure of performance of the Contract or a Purchase Order caused solely by a Force Majeure event will be excused for the period of delay caused solely by the Force Majeure event, provided the party claiming the event promptly notifies the other party in writing. Neither party shall have any claim for damages against the other resulting from delays caused solely by Force Majeure. The Cooperative will not be responsible for any cost incurred by Vendor because of a Force Majeure event. A Cooperative member will not be responsible for any cost incurred by Vendor because of the Force Majeure event unless an authorized representative of the Cooperative member has requested, in writing, that Vendor incur such cost in connection with any delay or work stoppage caused by the Force Majeure event.

Notwithstanding any other provision of this section E.19, in the event Vendor's performance of its obligations under the Contract is delayed or stopped by a Force Majeure event, the Cooperative may, at its sole option, terminate the Contract in accordance with section E.18 (Remedies for Default and Termination of Contract) of these Terms and Conditions. This section E.19 does not limit or otherwise modify any of the Cooperative's rights as provided elsewhere in the Contract.

F. Miscellaneous

1. Assignment

Vendor may not sell, assign, transfer, convey or subcontract any responsibility or obligation created by the Contract in regard to the Cooperative without the Cooperative's prior written consent. A Vendor wishing to assign, transfer, or convey all or any portion of an awarded Contract shall submit a written request to the Cooperative, preferably at least 60 days before the projected effective date of the assignment and promptly provide such information as the Cooperative may require to process and consider the request.

Approval or denial of an assignment request shall be within the sole discretion of the Cooperative, and a vendor not awarded a Contract through the Proposal Invitation process has no right or vested interest to assignment of an awarded Contract. In determining whether to consent, the Cooperative may consider any relevant factors, including whether the party to which the sale, assignment, transfer, conveyance or subcontract is proposed is bound to and will honor all obligations and responsibilities imposed on Vendor under the Contract, including Awarded Pricing, and the best interest of and value to Cooperative members. Vendor's attempted sale, assignment, transfer, conveyance or subcontracting of any part of the Contract except in compliance with this section F.1 is void and ineffective.

If Vendor ceases distribution of an Awarded Item for any reason during the Contract term, including ceasing distribution in one or more regions or states designated by Vendor in its Texas Regional Service Designation or State Service Designation forms, and the Cooperative determines that continued availability of the product provides best value to Cooperative members, the Cooperative reserves the right to place the manufacturer of such product on the BuyBoard for the remainder of the Contract term for any or all regions or states in which Vendor has ceased distribution, in which event Vendor's Contract for such product will be deemed assigned to the product manufacturer.

2. Notices

Unless otherwise provided for in this Proposal Invitation, any written notice or other communication required by the Contract or by law will be conclusively deemed to have been given and received on the third business day after such written notice has been deposited in the U. S. Mail, properly addressed, and with sufficient postage affixed thereto, provided that actual notice may also be given via electronic mail or in any other manner used in commerce.

If the conclusion of any time period provided for in these Terms and Conditions falls on a weekend or a federal holiday, the conclusion of such time period shall be deemed to be extended until the next business day. Otherwise, references to time periods measured by days shall mean calendar days unless business days are specifically designated.

3. Equal Employment Opportunity (EEO) Disclosures

Vendor agrees to abide by all applicable laws, regulations, and executive orders pertaining to equal employment opportunity, including federal laws and the laws of the state in which Vendor's primary place of business is located. In accordance with such laws, regulations and executive orders, Vendor agrees that no person in the United States shall, on the grounds of race, color, religion, national origin, sex, age, veteran status, disability or genetic information, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed by Vendor under the Contract. Upon request, Vendor will furnish information regarding its nondiscriminatory hiring and promotion policies.

4. Applicable Law, Venue and Dispute Resolution

The Contract is governed by and will be construed according to the laws of the State of Texas, including the Uniform Commercial Code (UCC) as adopted in the State of Texas as effective and in force on the date of the Contract. Venue for any litigation concerning the Cooperative or TASB lies in Austin, Travis County, Texas, and venue for any litigation between a Cooperative member and Vendor arising under the Contract lies in the home county of the member. The parties have the mutual affirmative duty to attempt to resolve any disputes that arise under the Contract in good faith at the least possible expense prior to the initiation of any type of judicial or administrative proceeding.

5. Waiver

No claim or right arising out of a breach of the Contract can be discharged in whole or part by a waiver or renunciation of the claim or right unless the waiver or renunciation is supported by consideration and is in writing signed by the aggrieved party. A party's failure to require strict performance of any provision of the Contract does not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision.

6. Interpretation – Parol Evidence

This writing is intended by the parties as a final expression of their agreement and a complete and exclusive statement of the terms of their agreement. No course of prior dealing between the parties and no usage of the trade is relevant to supplement or explain any terms used in the Contract. Acceptance or acquiescence in a course of performance rendered under the Contract is not relevant to and does not determine the meaning of the Contract even though the accepting or acquiescing party has knowledge of the performance and opportunity for objection.

7. Right to Assurance
Whenever the Cooperative in good faith has reason to question Vendor's intent to perform, the Cooperative may demand that Vendor give written assurance of its intent to perform. In the event that a demand is made and no assurance is given within five (5) days, the Cooperative may treat the failure as an anticipatory repudiation of the Contract.

8. Non-Appropriations Clause
Texas law prohibits the obligation and expenditure of public funds beyond the fiscal year for which a budget has been approved. A Cooperative member that is a governmental entity (a) reserves the right to rescind a multi-year purchase order or other agreement to purchase products or services under the Contract at the end of the member's fiscal year if it is determined that funding is not available to extend the agreement; and (b) will use its best efforts to attempt to obtain and appropriate funds for payment.

9. Invalid Term or Condition
If any term or condition of the Contract is held invalid or unenforceable, the remainder of the Contract will not be affected and will be valid and enforceable.

10. Remedies Cumulative
The remedies available to the Cooperative, a Cooperative member, or Vendor under this Contract are in addition to any other remedies that may be available under law or in equity.

11. Signatures
Except as otherwise specifically required in these Terms and Conditions, all notices, requests, amendments and other written documentation required or authorized under the Contract may be provided electronically or as an imaged document, and an electronic or facsimile signature shall be deemed an original.

12. Right of Setoff
Any indebtedness or obligation owed by Vendor or Vendor's affiliates to the Cooperative may be appropriated and applied by the Cooperative at any time, and from time to time, on any indebtedness or other obligation owed by the Cooperative to Vendor or Vendor's affiliates, whether such indebtedness or other obligations are now existing or hereafter arise, and whether under the Contract or otherwise. It is further understood and agreed that this right of setoff is in addition to, and not in lieu of, any other right, remedy or recourse which is available to the Cooperative either at law or equity, and that failure to exercise such right of setoff in any instance shall not constitute a waiver of such right.

APPENDIX II
ADDITIONAL TERMS AND CONDITIONS FOR BUYBOARD SELF-REPORTING

The following additional terms and conditions shall apply to any approved Vendor Request to Self-Report BuyBoard Purchases:

1. **BuyBoard Contracts Subject to Self-Reporting.** Authorization to self-report shall apply only to a Contract awarded under this Proposal Invitation. To the extent Vendor is awarded on another BuyBoard contract or contracts, separate authorization to self-report for such other contract(s) is required.

2. **Monthly Vendor Reports.** Vendor shall submit reports of Cooperative member purchases monthly to the Cooperative Administrator ("Monthly Vendor Reports"). All Monthly Vendor Reports shall be provided to BuyBoard at contractadmin@buyboard.com no later than the 10th day of the month. The Monthly Vendor Reports shall include a list of all purchase orders completed and invoiced by Vendor during the preceding month for BuyBoard members. Monthly Vendor Reports shall include any and all information reasonably required by, and in such format as may be reasonably required by, the BuyBoard Administrator from time to time. At a minimum, Monthly Vendor Reports shall include:

    i. BuyBoard member name;
    ii. Purchase Order amount;
    iii. Purchase Order number;
    iv. Date Purchase Order submitted to vendor;
    v. Date purchase executed / completed / delivered;
    vi. List of any Purchase Orders on prior Monthly Vendor Report(s) subsequently canceled;
    vii. General description of purchase, including Vendor's awarded BuyBoard contract number and category or categories under which the purchase was made; and
    viii. Final purchase amount total (as invoiced to BuyBoard member);
    ix. Invoice Date.

3. **Reconciling Self-Reported Information and Discrepancies.** BuyBoard may, in its sole discretion, periodically send information to Cooperative members listing all purchases self-reported by Vendor for the Cooperative member and/or request reports from Cooperative members containing purchase order data. If discrepancies are noted or reported by the Cooperative member as a result of such report or otherwise, Vendor agrees to promptly respond and cooperate with the Cooperative and/or Cooperative members to reconcile and correct any discrepancies. Vendor further agrees to promptly respond to requests and comply with any reasonable request for information and documentation by the Cooperative or a Cooperative member to assist in such reconciliation.

4. **Vendor Accounts.** Recognizing that Cooperative members seeking best value may wish to compare pricing from multiple cooperatives when considering individual purchases, the Cooperative expects Vendor to honor any request by a Cooperative member to make a purchase through the Contract and expects that Vendor will not seek to limit or inhibit a Cooperative member from making individual purchases through the purchasing cooperative of its choice, regardless of the Cooperative member establishing an account with Vendor designating BuyBoard as its cooperative.

5. **Vendor Obligation Comply with BuyBoard Contract.** Nothing in an authorization to self-report shall be deemed to waive any of Vendor's obligations under the General Terms and Conditions of the Contract, including but not limited to Vendor's obligations to honor Cooperative member Purchase Orders and pay all service fees on such Purchase Orders. Nothing shall require Cooperative members to utilize Vendor's self-reporting option to make purchases under the Contract. Vendor shall process all Purchase Orders, including any Purchase Orders received directly through the BuyBoard.

6. **Amendment.** These Additional Terms and Conditions for BuyBoard Self-Reporting are subject to amendment by the Cooperative at any time in its sole discretion. BuyBoard shall provide written notice to Vendor of any amendment, and the amendment shall be effective thirty (30) days after the date of the written notice.

7. **Termination of Self-Report Authorization.** The Cooperative may terminate any authorization for Vendor to self-report at any time for any reason, in its sole discretion. Notice of termination, including the effective date of the termination, shall be provided to Vendor in writing. If Vendor at any time wishes to cease self-reporting BuyBoard member purchases, including after receipt of amended self-reporting terms or conditions as provided herein, Vendor shall provide the Cooperative with at least thirty (30) days prior written notice of its request to revoke, listing the effective date of such revocation in the notice. Any termination or revocation of an authorization to self-report shall pertain to Vendor self-reporting only and shall not affect an awarded Vendor's underlying BuyBoard contract.

8. **BuyBoard Contract Terms and Conditions.** Self-reporting is subject to the General Terms and Conditions of the Contract. Unless otherwise indicated, all capitalized terms used herein shall have the same meaning as set forth in the General Terms and Conditions of the Contract.

9. **Assignment.** An authorization to self-report is specific to Vendor and not subject to assignment. In the event a Vendor's awarded Contract is subsequently assigned to another vendor where permitted by the Contract, the Contract assignee must submit its own Vendor Request to Self-Report BuyBoard Purchases and receive approval of such request by the BuyBoard Administrator.

Bonding Regulatory Notice

BuyBoard contract pricing does not include bonding or insurance. Each entity must assess their individual projects to determine the need for bonding and insurance, including without limitation such workers' compensation insurance as may be required by state or local law or policy. If required, it is the responsibility of each entity to obtain such bonding and insurance or confirmation of coverage, as applicable, from the vendor.

Also, each entity must assess their individual projects to determine whether the project is subject to prevailing wage rate requirements under the federal Davis Bacon Act or state or local law. If any such requirements apply, it is the responsibility of each entity to take appropriate action to determine compliance by the vendor.

The Texas Professional Services Procurement Act, Chapter 2254 of the Texas Government Code ("Act"), prohibits a governmental entity from using a competitive bid process that initially considers price in the procurement of professional services covered under the Act. "Professional services" under the Act includes, but is not limited to, professional engineering, architecture, accounting, landscape architecture, land surveying, and real estate appraisal services. Additionally, the Texas Interlocal Cooperation Act provides that a governmental entity may not use an interlocal contract with a purchasing cooperative to purchase engineering or architectural services (Texas Government Code, Section 791.011(h)). BuyBoard® contracts do not, and are not intended to, include professional services that must be procured in accordance with the Act. Cooperative members are reminded that they must comply with the Act whenever a contract includes professional services as a component part, and may not procure engineering or architectural services through a BuyBoard contract.

BUYBOARD PROCUREMENT AND CONSTRUCTION-RELATED GOODS AND SERVICES ADVISORY FOR TEXAS MEMBERS

Why make purchases using BuyBoard? Purchasing through a cooperative or "interlocal contract" satisfies the Texas law requirement of local governments to seek competitive procurement for the purchase of goods or services. [i] Therefore, you may purchase goods and services from a vendor under Texas law through BuyBoard without having to conduct your own competitive procurement. If, however, you are procuring construction-related services through a BuyBoard contract, such as a Job Order Contract (JOC) or contract for the installation of equipment or materials (e.g., athletic fields and surfaces, kitchen equipment, HVAC, playground equipment, or modular buildings), you may, as explained in this Advisory, need to procure certain aspects of these services using a separate procurement process outside of the BuyBoard and should consult your procurement officer and/or legal advisor for specific advice.

What is BuyBoard's Procurement Process? The BuyBoard uses a competitive procurement process to award contracts to vendors for goods and services that the BuyBoard determines, based on an evaluation of multiple criteria, represents the best value for its members.

How does BuyBoard award a contract to a vendor? As a condition of being awarded a BuyBoard contract, a vendor is bound by and must agree to comply with all the terms of the BuyBoard's proposal invitation (or specifications), the vendor's proposal response, and any additional contract terms negotiated with the BuyBoard member. Among other things, the vendor must honor the pricing submitted in the vendor's proposal. THE PRICE YOU PAY FOR THE GOODS AND SERVICES COVERED BY THE BUYBOARD CONTRACT MAY BE LESS THAN THE AWARDED PRICING, BUT CANNOT BE MORE. Additionally, the vendor must comply with the BuyBoard contract's general terms and conditions, and any additional terms and conditions that apply to the specific BuyBoard contract, as set out in the proposal invitation.

How does a BuyBoard member make purchases through the BuyBoard contract? You utilize the awarded BuyBoard contract by issuing a signed purchase order through the BuyBoard online application to procure the selected goods or services. Although BuyBoard must receive a copy of the signed purchase order, BuyBoard does not review or approve the purchase order or other supplemental agreement that you obtain – this is a matter between you and the vendor. If construction-related services are procured through the BuyBoard, additional contracts with professionals and the contractor may be required, depending on the nature and scope of the services. As stated above, you should consult your procurement officer and/or legal advisor for specific advice.

How do I know that my entity has made a purchase through the BuyBoard?
BuyBoard must have a copy of the purchase order in order for the purchase to be considered a BuyBoard procurement. To ensure that your entity has satisfied state law requirements for competitive procurement, make sure that the BuyBoard has your purchase order. Do not rely on the vendor to submit the purchase order on your behalf; it is your responsibility to make sure that the BuyBoard has the signed purchase order. You may log in to www.buyboard.com using your member I.D. and password to view the Purchase Order Status Report to confirm that the purchase order is in the BuyBoard system.

What should BuyBoard members consider when using BuyBoard for construction-related purchases? While purchasing goods and services through BuyBoard satisfies your legal requirement to competitively procure a good or service, as a general matter you must keep in mind other legal requirements that may relate to the purchase, especially when using BuyBoard for construction-related procurement.

When making construction-related purchases through a BuyBoard contract, BuyBoard members must consider the following:

- **Best value determination.** In compliance with Texas law and any local policy, your entity must first determine that purchasing through an interlocal contract or purchasing cooperative is the procurement method that will provide best value.[ii] This is done by the governing body (e.g., board of trustees, council, commissioners' court, etc.) or may be delegated by the governing body to an individual or committee, with written notice.

- **Products or services not covered by the BuyBoard contract.** The BuyBoard contract covers only the specific goods and services awarded by the BuyBoard. If you want to purchase from a BuyBoard vendor goods or services from a BuyBoard vendor that are not covered by the vendor's BuyBoard contract, such as architectural, design, or engineering services, you must procure them separately in accordance with state law and local policy.

- **Architectural or Engineering and Independent Testing services.** If your procurement includes a construction component that requires architectural or engineering services, you must procure those services separately. YOU MAY NOT PROCURE ARCHITECTURAL OR ENGINEERING SERVICES THROUGH A BUYBOARD CONTRACT. Texas law requires architectural and engineering services to be obtained in accordance with the Professional Services Procurement Act (Chapter 2254 of the Texas Government Code) and prohibits them from being procured through a purchasing cooperative.[iii]

  - **Architecture.** A new building owned by a political subdivision having construction costs exceeding $100,000 or an alteration or addition to an existing building having construction costs exceeding $50,000 must have architectural plans and specifications prepared by an architect.[iv] (An "alteration" or "addition" for purposes of this requirement requires the removal, relocation, or addition of a wall or partition or the alteration or addition of an exit.)

  - **Engineering.** If the goods or services procured through the BuyBoard will involve engineering in which the public health, welfare, or safety is involved, the plans for structural, mechanical, electrical, electronic, fire suppression, geotechnical systems, foundation design, surface water drainage, plumbing and certain roof modifications and associated estimates must be prepared by an engineer, and the engineering construction must be performed under the direct supervision of an engineer.[v] The Engineering Practice Act provides two exceptions to this rule – no engineer is required if (1) the project involves mechanical or electrical engineering and will cost $8,000 or less, or (2) the project does not require mechanical or electrical engineering and will cost $20,000 or less.[vi]

  - **Independent Testing**. If acceptance of a facility by a public entity involves independent testing of construction materials engineering and/or verification testing services, the testing services should be procured under the Professional Services Procurement Act, and may not be procured under a BuyBoard contract.

  - **Written Certification.** A local governmental entity purchasing construction-related goods and services through a cooperative in an amount that exceeds $50,000 must designate a person to certify in writing that the project does not require the preparation of plans or specifications by an architect or engineer OR that an architect or engineer has prepared the plans or specifications.[vii]

- **Bonds.** You must also consider whether the vendor is required to provide a payment or performance bond. A payment bond is required for contracts that exceed $25,000 to protect subcontractors who supply labor or materials for the project. A performance bond is required for a contract that exceeds $100,000, to protect the local government if a contractor fails to complete the project. [viii] Without payment and performance bonds, if the contractor fails to pay its subcontractors or to complete the project, the public entity that entered the contract can be held responsible for payment claims or costs to complete.

- **Construction Contract.** Even though the procurement of construction or construction-related services may be through the BuyBoard, your construction contract is between your entity and the contractor. The BuyBoard contract's general terms and conditions, standing alone, are not sufficient to document your entity's specific transaction. THEREFORE, YOU SHOULD USE AN APPROPRIATE FORM OF CONSTRUCTION CONTRACT JUST AS YOU WOULD DO IF YOU PROCURED CONSTRUCTION SERVICES INDEPENDENTLY, USING COMPETITIVE SEALED PROPOSALS. The contract must contain provisions required by state law including: performance and payment bonds, requirements for payment of prevailing wages to all construction workers, workers' compensation coverage for all workers and, on projects where contractor employees may have direct contact with students, criminal history record checks. Other provisions which should be considered in the construction contract are retainage, contingency, liquidated damages and dispute resolution, among others. If federal funds are involved, additional requirements may apply. (See the Purchasing with Federal Funds BuyBoard Advisory available on the BuyBoard® website for additional information on purchases with federal funds.) By supplementing the BuyBoard contract with an appropriate form of construction contract, you ensure that your entity's unique interests are addressed and that your entity can enforce the contract directly.

- **Legal advice.** Because of the variety of laws that relate to construction-related purchasing and the potential risk of high exposure, you are well-advised to consult with your entity's legal counsel before procuring construction-related goods and services under any procurement method, including a purchasing cooperative.

This Advisory is provided for educational purposes only to facilitate a general understanding of the law. This Advisory is neither an exhaustive treatment on the subject nor is it intended to substitute for the advice of an attorney.

Solicitation Number: RFP #080521

CONTRACT

This Contract is between Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and Crafco Inc., 6165 W. Detroit St., Chandler, AZ 85226 (Supplier).

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to eligible federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Roadway Maintenance Equipment from which Supplier was awarded a contract.

Supplier desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

A. EFFECTIVE DATE. This Contract is effective upon the date of the final signature below.

B. EXPIRATION DATE AND EXTENSION. This Contract expires October 11, 2025, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended one additional year upon the request of Sourcewell and written agreement by Supplier.

C. SURVIVAL OF TERMS. Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All other rights will cease upon expiration or termination of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

A. EQUIPMENT, PRODUCTS, OR SERVICES. Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above. Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

DocuSign Envelope ID: DDA7E4FF-4280-4D61-87C7-B7807C8AC4D3

All Equipment and Products provided under this Contract must be new and the current model. Supplier may offer close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable

time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. SALES TAX. Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;
- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and

- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Change Request Form will become an amendment to this Contract and will be incorporated by reference.

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity

payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be negotiated directly between the Participating Entity and the Supplier. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be

mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Failure of Supplier to maintain the required insurance will constitute a material breach entitling Sourcewell to immediately terminate this Contract for default.

B. CERTIFICATES OF INSURANCE. Prior to commencing under this Contract, Supplier must furnish to Sourcewell a certificate of insurance, as evidence of the insurance required under this Contract. Prior to expiration of the policy(ies), renewal certificates must be mailed to Sourcewell, 202 12th Street Northeast, P.O. Supplier agrees to list Sourcewell and its Participating Entities, including their officers, agents, and employees, as an additional insured under the Supplier's commercial general liability insurance policy with respect to liability arising out of activities, "operations," or "work" performed by or on behalf of Supplier, and products and completed operations of Supplier. D. WAIVER OF SUBROGATION. Supplier waives and must require (by endorsement or otherwise) all its insurers to waive subrogation rights against Sourcewell and other additional insureds for losses paid under the insurance policies required by this Contract or other insurance applicable to the Supplier or its subcontractors. The waiver must apply to all deductibles and/or self-insured retentions applicable to the required or any other insurance maintained by the Supplier or its subcontractors. Where permitted by law, Supplier must require similar written express waivers of subrogation and insurance clauses from each of its subcontractors.

E. UMBRELLA/EXCESS LIABILITY/SELF-INSURED RETENTION. The limits required by this Contract can be met by either providing a primary policy or in combination with umbrella/excess liability policy(ies), or self-insured retention.

The following list only applies when a Participating Entity accesses Supplier's Equipment, Products, or Services with United States federal funds.

A. EQUAL EMPLOYMENT OPPORTUNITY. Except as otherwise provided under 41 C.F.R. § 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. §60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 C.F.R. §, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 C.F.R. § 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor." In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence. Line Item	Question	Response *	
39	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Operational and safety training is standard with each delivery of machine. This is completed either by the Distributor or direct sales representative in that area at no cost to the customer. Each new Crafco unit delivered to the end user includes up to 8 hours of on-site training and safe operation techniques for the equipment. Periodic training is available at the end user request. Crafco provides ongoing equipment training seminars as well as web-based training and troubleshooting.	*
40	Describe any technological advances that your proposed products or services offer.	With over 45 years of manufacturing experience, Crafco has been the leader in the pavement preservation equipment with advancements in safety controls with our on-demand pump system that stops the flow of sealant if the application wand is dropped, keeping the operator from getting burned from sealant splashing from the wand. The Pump Lockout system was also developed to keep the operator from trying to pump sealant before it is heated to the proper temperature and causing premature wear on the pump. New engine operation controls are being used to operate and monitor the entire unit and override operator errors. This control panel also allows the engine to run at a lower speed while heating up, once the melter is ready to start pumping, the engine speeds up to produce more power. This makes the Crafco melters much more fuel efficient. Crafco's engineering and designs make our crack sealing and patching equipment the safest in the marketplace.	*
41	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	Crafco utilizes Tier 4 engines which meet Emission Standards. Crafco developed the Crack-Vac filter system for cleaning the cracks and joints in asphalt and concrete roadways and parking lots. This system contains particle matter down to ten microns (PM-10) which complies with the strict air quality standards in effect today. Crafco also developed the Dust Control Router which eliminates occupational exposure to respirable crystalline silica and reduces dust by 96% when routing cracks and joint for sealant application. Many Crafco sealants are blended with recycled ground tire rubber, as a company, Crafco utilizes approximately 10 million pounds of recycled tire rubber a year. Crafco's sealant Box packaging contains recycled cardboard and is 100% recyclable. Over the past several years Crafco has patented 2 different boxless packages for sealant that eliminates cardboard boxes and is environmentally friendly with all waste eliminated.	*

44	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	Crafco has been in business since 1976 serving the Pavement Preservation Industry. Crafco has engineers that are members of the ASTM committees that work on sealant specifications for the Country. Crafco is also involved with several sealant test decks across the Country: National Transportation Product Evaluation Program, National Center for Asphalt Technology and the MNROADS testing facility in Minnesota. This involvement assures that Crafco sealants are designed and manufactured to the highest quality and deliver the best performance possible for the Agency's needs. Each of the sealant manufacturing plants for Crafco have testing labs. Every manufacturing lot of material is tested and is certified that the sealants meet the specification it was manufactured to before it is shipped to the end user. This guarantees the products quality. The Crafco equipment plant has a very extensive AQ, QC program, that includes the run up of all pieces of equipment to assure all operational aspects of the equipment. All pieces of equipment are inspected and signed off by the QC Manager before shipment. All KM and Graco equipment will be received either at a Crafco facility or Distributor and will be run up to make sure the equipment is in good working order and ready to be delivered to the Agency. Crafco is the only manufacturer of equipment and materials to provide a total pavement preservation solution. This gives Crafco a better understanding of how the melters should work and apply the product in the most efficient way possible.	*

H-GAC has final determination of the adequacy of performance and reporting by Contractor. Termination of this agreement for failure to perform may affect Contractor's ability to participate in future opportunities with H-GAC. After a period of no less than 30 days subsequent to written notice, unless sooner implementation is required by law, such amendments shall have the effect of qualifying the terms of this Agreement and shall be binding upon the parties as if written herein.

The Contractor acknowledges that this Agreement may be terminated for Convenience or Default.

A. *Convenience*

H-GAC may terminate this Agreement at any time, in whole or in part, with or without cause, whenever H-GAC determines that for any reason such termination is in the best interest of HGAC, by providing written notice by certified mail to the Contractor. Upon receipt of notice of termination, all services hereunder of the Contractor and its employees and subcontractors shall cease to the extent specified in the notice of termination.

SPECIAL PROVISIONS

Incorporated by attachment, as part of the whole agreement, H-GAC and the Contractor do, hereby agree to the Special Provisions as follows:

ARTICLE 1: BIDS/PROPOSALS INCORPORATED

In addition to the whole Agreement, the following documents listed in order of priority are incorporated into the Agreement by reference: Bid/Proposal Specifications and Contractor's Response to the Bid/Proposal.

ARTICLE 2: END USER AGREEMENTS ("EUA")

H-GAC acknowledges that the **END USER** may choose to enter into an End User Agreement ("EUA) with the **Contractor** through this Agreement, and that the term of the EUA may exceed the term of the current **H-GAC** Agreement. **H-GAC's** acknowledgement is not an endorsement or approval of the End User Agreement's terms and conditions. **Contractor** agrees not to offer, agree to or accept from the **END USER**, any terms or conditions that conflict with those in **Contractor's** Agreement with **H-GAC.** Contractor affirms that termination of its Agreement with H-GAC for any reason shall not result in the termination of any underlying EUA, which shall in each instance, continue pursuant to the EUA's stated terms and duration. Pursuant to the terms of this Agreement, termination of this Agreement will disallow the **Contractor** from entering into any new EUA with **END USERS.** Applicable **H-GAC** order processing charges will be due and payable to **H-GAC** on any EUAs, surviving termination of this Agreement between **H-GAC** and **Contractor.**

ARTICLE 3: MOST FAVORED CUSTOMER CLAUSE

Contractor shall provide its most favorable pricing and terms to H-GAC. If at any time during this Agreement, Contractor develops a regularly followed standard procedure of entering into agreements with other governmental customers within the State of Texas, and offers the same or substantially the same products/services offered to **H-GAC** on a basis that provides prices, warranties, benefits, and or terms more favorable than those provided to **H-GAC**, **Contractor** shall notify **H-GAC** within ten (10) business days thereafter, and this Agreement shall be deemed to be automatically retroactively amended, to the effective date of Contractor's most favorable past agreement with another entity. **Contractor** shall provide the same prices, warranties, benefits, or terms to **H-GAC** and its END USER as provided in its most favorable past agreement. H-GAC shall have the right and option at any time to decline to accept any such change, in which case the amendment shall be deemed null and void. If **Contractor** claims that a more favorable price, warranty, benefit,

or term that was charged or offered to another entity during the term of this Agreement, does not constitute more favorable treatment, than **Contractor** shall, within ten (10) business days, notify **H-GAC** in writing, setting forth the detailed reasons **Contractor** believes the aforesaid offer is not in fact most favored treatment. **H-GAC**, after due consideration of Contractor's written explanation, may decline to accept such explanation and thereupon this Agreement between **H-GAC** and **Contractor** shall be automatically amended, effective retroactively, to the effective date of the most favored agreement, to provide the same prices, warranties, benefits, or terms to H-GAC and the END USER.
EXCEPTION: *This clause shall not be applicable to prices and price adjustments offered by a bidder, Proposer or contractor, which are not within bidder's/proposer's control [example; a manufacturer's bid concession], or to any prices offered to the Federal Government and its agencies.*

ARTICLE 4: PARTY LIABILITY

Contractor's total liability under this Agreement, whether for breach of contract, warranty, negligence, strict liability, in tort or otherwise, is limited to the price of the particular products/services sold hereunder. Contractor agrees either to refund the purchase price or to repair or replace product(s) that are not as warranted. Contractor accepts liability to repay, and shall repay upon demand to END USER, any amounts determined by H-GAC, its independent auditors, or any state or federal agency, to have been paid in violation of the terms of this Agreement.

ARTICLE 5: GOVERNING LAW & VENUE

Contractor and H-GAC agree that Contractor will make every reasonable effort to resolve disputes with the **END USER** in accord with the law and venue rules of the state of purchase. **Contractor** shall immediately notify **HGAC** of such disputes.

ARTICLE 6: SALES AND ORDER PROCESSING CHARGE

Contractor shall sell its products to **END USERS** based on the pricing and terms of this Agreement. **H-GAC** will invoice **Contractor** for the applicable order processing charge when H-GAC receives notification of an END USER order. **Contractor shall remit to H-GAC** the full amount of the applicable order processing charge, after delivery of any product or service and subsequent END USER acceptance. Payment of the Order Processing Charge shall be remitted from Contractor to H-GAC, within thirty (30) calendar days or ten (10) business days after receipt of an END USER's payment, whichever comes first, notwithstanding Contractor's receipt of invoice. For sales made by **Contractor** based on this Agreement, including sales to entities without Interlocal Agreements, **Contractor** shall pay the applicable order processing charges to **H-GAC.** Further, **Contractor** agrees to encourage entities who are not members of H-GAC**'s** Cooperative Purchasing Program to execute an **H-GAC** Interlocal Agreement. **H-GAC** reserves the right to take appropriate actions including, but not limited to, Agreement termination if **Contractor** fails to promptly remit the appropriate order processing charge to H-GAC. In no event shall **H-GAC** have any liability to **Contractor** for any goods or services an **END USER** procures from **Contractor.** At all times, **Contractor** shall remain liable to pay to **H-GAC** any order processing charges on any portion of the Agreement actually performed, and for which compensation was received by **Contractor.**

ARTICLE 7: LIQUIDATED DAMAGES

Contractor and H-GAC agree that Contractor shall cooperate with the END USER at the time an END USER purchase order is placed, to determine terms for any liquidated damages.

ARTICLE 8: INSURANCE

Unless otherwise stipulated in Section B of the Bid/Proposal Specifications, **Contractor** must have the following insurance and coverage minimums:

a. **General liability** insurance with a Single Occurrence limit of at least $1,000,000.00, and a General Aggregate limit of at least two times the Single Occurrence limit.

Product liability insurance with a Single Occurrence limit of at least $1,000,000.00, and a General Aggregate limit of at least two times the Single Occurrence limit for all Products except Automotive Fire Apparatus. For Automotive Fire Apparatus, see Section B of the Bid/Proposal Specifications.

Property Damage or Destruction insurance is required for coverage of **End User** owned equipment while in **Contractor's** possession, custody or control. The minimum Single Occurrence limit is $500,000.00 and the General Aggregate limit must be at least two times the Single Occurrence limit. This insurance may be carried in several ways, e.g. under an Inland Marine policy, as art of Automobile coverage, or under a Garage Keepers policy. In any event, this coverage must be specifically and clearly listed on insurance certificate(s) submitted to **H-GAC**.

b. Insurance coverage shall be in effect for the length of any contract made pursuant to the Bid/Proposal, and for any extensions thereof, plus the number of days/months required to *deliver* any outstanding order after the close of the contract period.
c. Original Insurance Certificates must be furnished to **H-GAC** on request, showing **Contractor** as the insured and showing coverage and limits for the insurances listed above.
d. If any Product(s) or Service(s) will be provided by parties other than **Contractor**, all such parties are required to carry the minimum insurance coverages specified herein, and if requested by **H-GAC**, a separate insurance certificate must be submitted for each such party.
e. **H-GAC** reserves the right to contact insurance underwriters to confirm policy and certificate issuance and document accuracy.

ARTICLE 9: PERFORMANCE AND PAYMENT BONDS FOR INDIVIDUAL ORDERS

H-GAC's contractual requirements DO NOT include a Performance & Payment Bond (PPB); therefore, Contractor shall offer pricing that reflects this cost savings. **Contractor** shall remain prepared to offer a PPB to cover any order if so requested by the **END USER**. **Contractor** shall quote a price to **END USER** for provision of any requested PPB, and agrees to furnish the PPB within ten business (10) days of receipt of **END USER's** purchase order.

ARTICLE 10: CHANGE OF STATUS

Contractor shall immediately notify **H-GAC**, in writing, of **ANY** change in ownership, control, dealership/franchisee status, Motor Vehicle license status, or name. Contractor shall offer written guidance to advise H-GAC if this Agreement shall be affected in any way by such change. **H-GAC** shall have the right to determine whether or not such change is acceptable, and to determine what action shall be warranted, up to and including cancellation of Agreement.

ARTICLE 11: TEXAS MOTOR VEHICLE BOARD LICENSING

All that deal in motor vehicles shall maintain current licenses that are required by the Texas Motor Vehicle Commission Code. If at any time during this Agreement term, any required **Contractor** license is denied, revoked, or not renewed, **Contractor** shall be in default of this Agreement, unless the Texas Motor Vehicle Board issues a stay or waiver. Contractor shall promptly provide copies of all current applicable Texas Motor Vehicle Board documentation to **H-GAC** upon request.

Tax exempt status
Most TIPS Members are tax exempt and the related laws and/or regulations of the controlling jurisdiction(s) of the TIPS Member shall apply.

Assignments of Agreements
No assignment of this Agreement may be made without the prior notification of TIPS. Written approval of TIPS shall not be unreasonably withheld. Payment for delivered goods and services can only be made to the awarded Vendor, Vendor designated reseller or vendor assigned company.

- The Vendor affirms that, to the best of his/her knowledge, the offer has been arrived at independently, and is submitted without collusion with anyone to obtain information or gain any favoritism that would in any way limit competition or give an unfair advantage over other vendors in the award of this Agreement.

Term of Agreement and Renewals
The Agreement with TIPS is for approximately three (3) years with an option for renewal for an additional one (1) consecutive year. If TIPS offers the renewal extension year, the Vendor will be notified by email to the primary contact of the awarded Vendor and shall be deemed accepted by the Vendor unless the awarded Vendor notifies TIPS of its objection to the additional term. TIPS may or may not exercise the available extension(s) provided in the original solicitation beyond the base three-year term. Whether or not to offer the extension is at the sole discretion of TIPS.

"Start Date" for Term Calculation Purposes Only: Regardless of actual award/effective date of Contract, for Agreement "term" calculation purposes only, the Agreement "start date" is the last day of the month that Award Notifications are anticipated as published in the Solicitation
Example: *If the anticipated award date published in the Solicitation is May 22, but extended negotiations delay award until June 27, The end date of the resulting initial "three-year" term Agreement, (which is subject to an extension(s)) will still be May 31, 2023.*

"Termination Date": The scheduled Agreement "termination date" shall be the last day of the month of the month of the Original Solicitation's Anticipated Award Date plus three years.
Example: *If the original term is approximately three years, and the solicitation provides an anticipated award date of May 22, 2020, the expiration date of the original three-year term shall be May 31, 2023.*

Extensions: Any extensions of the original term shall begin on the next day after the day the original term expires.
Example Following the Previous Example: *If TIPS offers a one-year extension, the expiration of the extended term shall be May 31, 2024.*

TIPS may offer to extend Vendor Agreements to the fullest extent the original Solicitation permits.

Automatic Renewal Clauses Incorporated in Awarded Vendor Agreements with TIPS Members Resulting from the Solicitation and with the Vendor Named in this Agreement.
No Agreement for goods or services with a TIPS Member by the awarded vendor named in this Agreement that results from the solicitation award named in this Agreement, may incorporate an automatic renewal clause that exceeds month to month terms with which the TIPS Member must comply. All renewal terms incorporated in an Agreement by the vendor with the TIPS Member shall only be valid and enforceable when the vendor receives written confirmation by purchase order, executed Agreement or other written instruction issued by the TIPS Member for any renewal period. The purpose of this clause is to avoid a TIPS Member inadvertently renewing an Agreement during a period in which the governing body of the TIPS Member has not properly appropriated and budgeted the funds to satisfy the Agreement renewal. This term is not negotiable and any Agreement between a TIPS Member and a TIPS awarded vendor with an automatic renewal clause that conflicts with these terms is rendered void and unenforceable.

Shipments
The Vendor shall ship, deliver or provide ordered products or services within a commercially reasonable time after the receipt of the order from the TIPS Member. If a delay in said delivery is anticipated, the Vendor shall notify TIPS Member as to why delivery is delayed and shall provide an estimated time for completion of the order. TIPS or the requesting entity may cancel the order if estimated delivery time is not acceptable or not as agreed by the parties.

Invoices
Each invoice or pay request shall include the TIPS Member's purchase order number or other identifying designation as provided in the order by the TIPS Member. If applicable, the shipment tracking number or pertinent information for verification of TIPS Member receipt shall be made available upon request.

Payments
The TIPS Member will make payments directly to the Vendor, the Vendor Assigned Dealer or as agreed by the Vendor and the TIPS Member after receiving invoice and in compliance with applicable payment statute(s), whichever is the greater time or as otherwise provided by an agreement of the parties.

Pricing
Price increases will be honored according to the terms of the solicitation. All pricing submitted to TIPS shall include the participation fee, as provided in the solicitation, to be remitted to TIPS by the Vendor. Vendor will not show adding the fee to the invoice presented to TIPS Member customer.

Participation Fees and Reporting of Sales to TIPS by Vendor
The Participation Fee that was published as part of the Solicitation and the fee published is the legally effective fee, along with any fee conditions stated in the Solicitation. Collection of the fees by TIPS is required under Texas Government Code §791.011 Et seq. Fees are due on all TIPS purchases reported by either Vendor or Member. Fees are due to TIPS upon payment by the Member to the Vendor, Reseller or Vendor Assigned Dealer. Vendor, Reseller or Vendor Assigned Dealer agrees that the participation fee is due to TIPS for all

Agreement sales immediately upon receipt of payment including partial payment, from the Member Entity and must be paid to TIPS at least on a monthly basis, specifically within 31 calendar days of receipt of payment, if not more frequently, or as otherwise agreed by TIPS in writing and signed by an authorized signatory of TIPS. Thus, when an awarded Vendor, Reseller or Vendor Assigned Dealer receives any amount of payment, even partial payment, for a TIPS sale, the legally effective fee for that amount is immediately due to TIPS from the Vendor and fees due to TIPS should be paid at least on a monthly basis, specifically within 31 calendar days of receipt of payment, if not more frequently.

Reporting of Sales to TIPS by Vendor

Vendor is required to report all sales under the TIPS contract to TIPS. When a public entity initiates a purchase with a TIPS Awarded Vendor, if the Member inquires verbally or in writing whether the Vendor holds a TIPS Contract, it is the duty of the Vendor to verify whether or not the Member is seeking a TIPS purchase. Once verified, the Vendor must include the TIPS Contract number on any communications and related sales documents exchanged with the TIPS Member entity. To report sales, the Vendor must login to the TIPS Vendor Portal online at https://www.tips-usa.com/vendors_form.cfm and click on the PO's and Payments tab. Pages 3-7 of the Vendor Portal User Guide will walk you through the process of reporting sales to TIPS. Please refer to the TIPS Accounting FAQ's for more information about reporting sales and if you have further questions, contact the Accounting Team at accounting@tips-usa.com. The Vendor or vendor assigned dealers are responsible for keeping record of all sales that go through the TIPS Agreement and submitting same to TIPS. Failure to render the participation fee to TIPS shall constitute a breach of this agreement with our parent governmental entity, Texas Education Service Center Region 8, as established by the Texas legislature and shall be grounds for termination of this agreement and any other agreement held with TIPS and possible legal action. Any overpayment of participation fees to TIPS by a Vendor will be refunded to the Vendor within ninety (90) days of receipt of notification if TIPS receives written notification of the overpayment not later than the expiration of six (6) months from the date of overpayment and TIPS determines that the amount was not legally due to TIPS pursuant to this agreement and applicable law. It is the Vendor's responsibility to identify which sales are TIPS Agreement sales and pay the correct participation fee due for TIPS Agreement sales. Any notification of overpayment received by TIPS after the expiration of six (6) months from the date of overpayment will be non-refundable. Region 8 ESC and TIPS reserve the right to extend the six (6) month deadline to notify if approved by the Region 8 ESC Board of Directors. TIPS reserves all rights under the law to collect the fees due. Please contact TIPS at tips@tips-usa.com or call (866) 839-8477 if you have questions about paying fees.

Parties found liable shall pay their proportionate share of damages as agreed by the parties or as ordered by a court of competent jurisdiction over the case. **NO LIMITATION OF LIABILITY FOR DAMAGES FOR PERSONAL INJURY OR PROPERTY DAMAGE ARE PERMITTED OR AGREED BY TIPS/ESC REGION 8.** Per Texas Education Code §44.032(f), and pursuant to its requirements only, reasonable Attorney's fees are recoverable by the prevailing party in any dispute resulting in litigation.

State of Texas Franchise Tax

By signature hereon, the Vendor hereby certifies that he/she is not currently delinquent in the payment of

any franchise taxes owed the State of Texas under Chapter 171, Tax Code.

Miscellaneous
The Vendor acknowledges and agrees that continued participation in TIPS is subject to TIPS sole discretion and that any Vendor may be removed from the participation in the Program at any time with or without cause. Nothing in the Agreement or in any other communication between TIPS and the Vendor may be construed as a guarantee that TIPS or TIPS Members will submit any orders at any time. TIPS reserves the right to request additional proposals for items or services already on Agreement at any time.

Purchase Order Pricing/Product Deviation
If a deviation of pricing/product on a Purchase Order or contract modification occurs between the Vendor and the TIPS Member, TIPS must be notified within five (5) business days of receipt of change order.

The awarded Vendor may terminate the agreement with ninety (90) days prior written notice to TIPS 4845 US Hwy North, Pittsburg, Texas 75686. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and / or debarment. 3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances. 4. The terms “covered transaction,” “debarred,” “suspended,” “ineligible,” “lower tier covered transaction,” “participants,” “person,” “primary covered transaction,” “principal,” “proposal” and “voluntarily excluded,” as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible or voluntarily excluded from participation in this transaction, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and / or debarment.

Whether or not to offer the extension is at the sole discretion of TIPS.

"Start Date" for Term Calculation Purposes Only: Regardless of actual award/effective date of Contract, for Agreement "term" calculation purposes only, the Agreement "start date" is the last day of the month that Award Notifications are anticipated as published herein.
Example: *If the anticipated award date published herein is May 22, but extended negotiations delay award until June 27, The end date of the resulting initial "three-year" term Agreement, (which is subject to an extension(s)) will still be May 31, 2023.*

"Termination Date": The scheduled Agreement "termination date" shall be the last day of the month of the month of the Original Solicitation's Anticipated Award Date plus three years.

Pricing Models

Pricing for Line Items or Catalog

It is the intention of TIPS to establish an agreement to furnish and/or deliver all goods and services provided by awarded vendors to its members. Proposers are requested to submit a proposal for offering their complete and total line of available products and services to governmental entities, including school districts.

If a name brand is mentioned in the specifications, proposals on any reputable manufacturer's regularly produced equipment of such items of a similar nature or similarly used and substantially equivalent will be considered.

The list or category of goods or services sought by this solicitation is inclusive and not exclusive. There may be other similarly used items that are sold by the responding vendors that may be included as part of the proposing vendor's "catalog" (defined below) now or during the life of the agreement that are considered included in this solicitation and subject to the minimum discount proposed. Pricing may also be exclusively line item pricing or, and recommended, in combination with a minimum catalog discount.

Example: During the life of the agreement, models change and new products come to market that are in the

same category and are added to the vendor's "catalog" and are available for purchase by users of the agreement. If you fail to propose a minimum discount off your catalog, it may limit the ability to change pricing of catalog items and services during the life of the award.

Definition of "catalog"
"Catalog" means the available list of tangible personal property or services, in the most current listing, regardless of date, during the life of the contract, that takes the form of a catalog, price list, schedule, shelf price or other form that:

A. is regularly maintained by the manufacturer or vendor of an item; and
B. is either published or otherwise available for inspection by a customer during the purchase process;
C. to which the minimum discount proposed by the proposing vendor may be applied.

Adding New or Replacement <u>Goods</u> <u>Items</u> During the Life of the Agreement

Is easiest proposing a Minimum Discount off (PREFERRED MODEL) catalog prices for goods or a markup on vendor's cost of a good item. See Pricing sheets 1.

Pay Careful Attention to This When Completing the Pricing spreadsheets.

Adding New or Replacement <u>Services</u> During the Life of the Agreement
Is easiest proposing a Discount off (PREFERRED MODEL) catalog prices for Services because there is no manufacturer or supplier's price in which to apply a markup percentage. See Pricing sheets 2.

Pay Careful Attention to This When Completing the Pricing spreadsheet.

<u>Explanation:</u>

<u>Markup on cost</u>

Vendors may propose a markup on miscellaneous items that are not ordinarily in their catalog or for which no list or manufacturer's pricing is available.
It is NOT recommended proposers use the Markup pricing method <u>EXCLUSIVELY</u> because many members are not allowed to use a bid with a markup pricing method, specifically when using Federal Grant Funds. Using this pricing method may limit the effectiveness of your award.

If you choose to use the markup pricing method:
When proposing a markup on cost model, the vendor shall be required to provide proof of actual cost to the vendor of the goods sold to verify pricing markup is properly and legally applied for the sale of the goods.

NEW ITEMS: TIPS will allow the addition of new goods items to be added to the agreement when they become available to the market through the vendor under the discount off published pricing model or markup on cost model. You must stipulate a discount or markup on catalog price in the

appropriate section of the pricing Excel sheet to be eligible for this option. You may stipulate discount off specific brands or lines of goods if you desire. Be thorough and concise. Any items added must be available to all customers, within legal or contractual limitations, if any. (Example: Apple products are not permitted to be sold to the education market without special agreement from Apple but may be sold to other government customers.)

REPLACEMENT OF DISCONTINUED OR LIMITED AVAILABILITY ITEMS: When proposing a Line Item pricing model - TIPS will allow replacement items to the original list item if it is no longer manufactured or is available in limited quantities. Limited availability must be documented by a letter from the manufacturer. Vendor may replace it with an item of like kind and quality and the price will remain the same as proposed, except if it is cheaper, vendor shall lower the price accordingly and if it is more expensive due to vendor's actual cost from the manufacturer, it will be priced and the same discount shall apply as the item it replaces. Vendor shall be required to prove the pricing if the cost is higher than the original core list price to customer.
Note: If you propose a minimum Discount off catalog, you avoid this process since you are adding an item to your catalog and list price and the proposed minimum discount off catalog would apply to the new item.

Shipping cost:

Pricing presented for goods offered should not include shipping costs from dealer to Member customer. **IF** shipping is included in the price regardless of the situation, then you simply state no additional cost for shipping or delivery to any customer. Example if the truck includes deliver but parts do not, them be sure to specify the variations in your pricing. Shipping method is determined by the vendor and the Member/Customer at the time of the quote/purchase by the Member/Customer and satisfactory shipping methods and costs are agreed at that time. Shipping should be passed through at actual cost to the TIPS Member.

SPECIFICATIONS and PRICING FORMAT (EXCEL SPREADSHEET)

Proposals on any reputable manufacturers regularly produced goods falling within the general categories solicited herein will be considered for award. If a name brand is mentioned, it is only to illustrate type and quality and is not intended to restrict competition. Any list included herein is inclusive and not exclusive. There may be other similarly used items that are sold by the responding vendors that may be included as part of the proposing vendor's "catalog" (Defined above) now or during the life of the contract that are considered included in this RFP. Example: During the life of the contract, models change and new products come to market that are in the same category and are added to the vendor's "catalog" and are available for purchase by users of the contract provided the catalog discount or cost markup proposed is honored by the awarded vendor.

TIPS leaves it to the proposer to determine what goods or services that perform or serve this function and the proposer may list or include anything applicable.

This solicitation is seeking providers for:

IF YOU WISH TO PROPOSE VEHICLE OR TRAILER EQUIPMENT, PARTS, OR SERVICES, PLEASE RESPOND TO: TIPS SOLICITATION 200803 Heavy Duty and Medium Duty Truck and Trailer Parts and Services.

Specifications and Pricing

It is the intention of Region 8 ESC to contract with reliable, high performance vendors to supply heavy and medium duty trucks and trailers to public agencies in the United States. Proposal should list offerings to be considered heavy and medium duty trucks and trailers.

Different options that can be offered would include: radiator sizes, dimensions of cab, trailer, hood length, paint color, lighting, number and style of axles, sleeper size and outfitting, etc. These specifications are purposely left very open so that the Vendor may have the capability of offering many different types and styles of heavy and medium duty trucks and trailers.

If a price list or catalog is submitted or available as defined herein, then a percentage off catalog is acceptable. If line item pricing is proposed, proposals should include any and all listings of product names, sizes, packaging, quantity, pricing, description of services and any other related information.

Proposals should include all listings of heavy duty and medium duty trucks and trailers. DO NOT INCLUDE ITEMS THAT ARE NOT CONSIDERED heavy duty and medium duty trucks and trailers.

Awarded vendor(s) shall perform covered services under the terms of this agreement.

Offerors may provide pricing based on a discount from a manufacturer's price list or catalog, or fixed price, or a combination of both with indefinite quantities. An Electronic Catalog, links to same, and/or availability to access the list prices should accompany the proposal if a discount off catalog is proposed. Multiple percentage discount structure is also acceptable. Please specify where different percentage discounts apply. Additional pricing and/or discounts may be included. Each service proposed is to be

priced separately with all ineligible items identified. TIPS may award to multiple vendors. See pricing instruction in this document and on the pricing forms 1 and 2.

Offerors may elect to limit their proposals to a single item within any category, or multiple items within any or all categories. Region 8 ESC is seeking providers that have the depth, breadth and quality of resources necessary to complete various aspects of this contract. In addition, TIPS also requests any relevant value add commodity or service that could be provided under this contract. While this solicitation specifically covers the above-mentioned category, Offerors are encouraged to submit an offering on any and all products available that they currently perform in their normal course of business. Respondent shall perform and provide these products and/or services under the terms of this agreement. The supplier shall assist the end user with making a determination of their individual needs. The following is a list of included (but not limited to) categories.

Proposers may serve a local area only or a broader geographic area at their discretion and should indicate their limitations for a service area.

Vendors should submit all heavy duty and medium duty trucks and trailers.

Value Added Pricing

Value added services should be explained in detail. If bidder can offer greater quantities at lower pricing, these "value added" prices should be submitted in this section.

Proposal should list offerings to be considered as part of the category heavy duty and medium duty trucks and trailers that can be provided by the Vendor.

A discount off list price pricing model is ideal as list prices change over the life of the awarded agreement. Possible pricing models are discussed in this document. Any other goods and services that are logically related to this general category. TIPS reserves the sole right to determine whether or not proposed goods or services are logically related to this general category.

Additional Services:
Bidder should respond to TIPS SOLICITATION 200803 Heavy Duty and Medium Duty Trucks and Trailers to propose any related services or parts.

All work shall be performed in accordance with the requirements set forth in the resulting contract and each mutually agreed upon work request or purchase order issued by TIPS participating members.

NOTHING IN THIS SOLICITATION IS REQUESTING SERVICES THAT ARE CONSIDERED A PUBLIC WORK/CONSTRUCTION.

Pricing Sheets 1 and 2 must be downloaded from the "Attachments" section, completed and uploaded to the "Response Attachments" PRICING sections.

Since the list of items a vendor may carry is potentially very long, and items are removed and added to the

market frequently, it may be more advantageous to propose a **minimum discount** off your catalog for goods and services. You may offer different discounts for different brands or lines or services of goods if you choose.

A zero discount off catalog proposal is permitted, but TIPS encourage vendors to propose the best discount they feel is necessary to compete with other retailers to provide the greatest benefit to TIPS members.
Please propose a minimum discount off catalog for all non-line items proposed so you will be covered when future items are available in you catalog. By doing this, the pricing is a ceiling and not a floor. You may always lower your price or increase your minimum discount percentage to be more competitive in a particular situation

You may propose all goods as a line item list if you prefer but the PREFERRED proposal method is a minimum discount off catalog prices. Line item proposal prices may only be increased by the markup method or by application of the US Department of Labor (General (not industry specific) Consumer Price Index (CPI) percentage increase applied annually, so proposing the discount off catalog price may provide easier price adjustments but ensures that they are applied fairly to all customers of the vendor because they are published for all customers to see. **You may propose, both discount off a catalog AND line item pricing for specific lists of items if you choose to**.

Caution: Using the Markup method of pricing may exclude some members when using Federal funds as Federal regulations prohibit this type of pricing and some local regulations prohibit this type of pricing and it always requires the proposer to make available to TIPS or its members proof of the cost of the item to the proposer to verify the markup is applied according to the terms of this solicitation ad resulting award.

You may stipulate different discounts off on specific brands or lines of goods if you desire.

PRICING FORMAT (EXCEL SPREADSHEETS 1 and 2)
DO NOT PROPOSE "PRICE TO BE DETERMINED" or "ON REQUEST". This method is not lawful to award by TIPS.
You must have unit pricing that can be applied to the needs of the customer.
Pricing Sheet 1 excel sheet
There are three (3) sections in the Excel sheet #1, Section A, B, and C provided in the solicitation documents, please complete all that are applicable to your proposal. The discount off catalog price is an excellent method if list prices are available and please propose that method in addition to any other method you desire to cover future item or service availability.
Example: IF you are providing a line item pricing sheet AND a discount off the rest of your catalog, be sure to provide both the line item prices on the list of items proposed and a minimum discount off the rest of your catalog. If different sections of your catalog have different minimum discounts, please note accordingly.

Pricing Sheet 2 excel sheet

List any other services, maintenance agreements, mileage fees, maximum travel costs, etc. with line item pricing for year One and maximum percentage increase in pricing for years Two and Three of the awarded contract AND/OR discount off Catalog price as defined above if services are routinely listed in your catalog and priced therein.

Vendor may provide additional pricing in another format.
ALL PRICING SHALL BE FIRM AND CALCULABLE AT THE TIME OF SALE DURING THE LIFE OF THE CONTRACT AND MUST CONFORM AND COMPLY WITH THE VENDOR'S PROPOSED PRICING MODEL IN RESPONSE TO THE ORIGINAL SOLICITATION. **DO NOT PROPOSE "PRICE TO BE DETERMINED". If you have question on this process, call TIPS for clarification.**

Example: Proposed catalog, web or store price for an item is $10.00 each and your proposed minimum discount is 5%, then the price is firm and calculable as $9.50.

Please provide any explanatory information on your pricing proposal you believe is necessary to fully inform TIPS of your intent.

Service Incidental to the Sale of Goods
Many times, the sale of goods may be accompanied by the installation or set up of said goods. Proposers may submit pricing for the services in the Pricing Sheet 2 spreadsheet or in an attachment. However, Vendor should respond to TIPS SOLICITATION 200803 Heavy Duty and Medium Duty Trucks and Trailers to propose related parts and services.

Any and All SERVICES may be proposed, but must be priced either as a line item or as a discount off the published Catalog price for said services. You may provide a catalog of services or a link to the available services or you may create a TIPS-specific Catalog list of services with applicable pricing. Please specify or illustrate your chosen method.

If LINE ITEM GOODS pricing, and during the life of the award, prices may be increased only commensurate, dollar for dollar as your cost for the item increases. To increase the price of a line item prices good, vendor must submit proof from the manufacturer or distributor that the pricing has increased and by how much.

When using line item pricing, vendor should provide on pricing template 2 a maximum price increase percentage for annually for renewal years. Complete all excel pricing forms.

‘We just have to survive this trip’

Marlins’ motley crew pulls out inspiring win in return

Gabe Lacques
USA TODAY

BALTIMORE – They ran sprints down hotel hallways, rolled up sanitary socks into makeshift baseballs and tossed them into mattresses, even stepped around dirty room-service dishes to take part in Zumba classes, all mitigating physical hurdles even if the greater challenge was mental.

For nine days, the Marlins were not a team but rather a grim experiment in pandemic baseball gone wrong, forced into various modes of isolation and quarantine as their luxury accommodations in Philadelphia felt more and more like captivity.

Finally, Tuesday night at Camden Yards, the Marlins returned to a baseball field, but it was almost impossible to deny that this was a team splintered into thirds.

The first team was thousands of miles away: 18 players and three staff members who tested positive for the novel coronavirus and were shipped back to Miami from Philadelphia on sleeper buses, now in isolation and, we can only hope, on the way to recovery.

The second team is what’s left of the first, a group the Marlins are calling the “Trece” – Spanish for 13 – a baker’s dozen of players who dodged COVID-19 but were forced to isolate in Philly for eight days until they were deemed healthy.

The third team? Just consider them the most motley crew of Marlins assembled in a franchise that knows strange times – a mélange of rookies, waiver claims and trade acquisitions tossed together in a week’s time in a madcap attempt to make the roster whole.

Tuesday, the “Trece” and the fresh Fish came together – many of them having never met in person until arriving at Oriole Park – to see what kind of season they might salvage. The results were nothing short of inspiring.

Pitching less than a month after the death of his father, Pablo Lopez – reduced to mattress baseball in his Philly digs – spun five innings of one-hit, scoreless ball against the Orioles.

Veteran catcher Francisco Cervelli punctured the quiet of a scoreless tie with a fifth-inning home run. Three innings later, Jesus Aguilar blasted a ball even deeper over the left field wall. It was his third home run in four games, never mind that the first came nearly 11 days ago.

Two innings of one-hit relief were turned in by James Hoyt and Richard Bleier, who manager Don Mattingly did not meet until Tuesday afternoon, as they waited to get their temperatures checked before boarding the bus to the ballpark.

It was just a 4-0 victory over a rebuilding team, albeit one that improved the Marlins’ record to 4-2 – the finest winning percentage in a season when several teams are well past the 10-game mark.

More than that, it was a modicum of relief.

“We’ve been through a lot,” a visibly drained Mattingly said on a postgame video call. “We didn’t know quite how we’d react. You get tested and you have to persevere and you learn from a lot of situations. We knew we had a good group of guys. We miss the guys who are gone. We just have to survive this trip.”

A trip that was supposed to be one week but is just reaching the halfway point of a 22-day odyssey that cast the eastern portion of MLB’s schedule into disarray.

The Marlins must make up seven games after they lost a week of baseball following the nightmare array of positive tests that waylaid their roster. It began the morning of July 26, when starting pitcher Jose Urena, first baseman Garrett Cooper and outfielder Harold Ramos all tested positive for COVID-19, joining catcher Jorge Alfaro.

Miami played and defeated the Phillies that day, a controversial choice to carry on by league and team. But the bad times were just beginning.

Rather than return home, the Marlins got marooned in Philadelphia as positive tests kept spiraling and, ultimately, taking out Nos. 1-2-3 in their rotation – Sandy Alcantara, Caleb Smith and Urena, and seven members of their bullpen.

The hell of the unknown settled over their hotel.

“The lack of not knowing anything,” Mattingly said of the mental anguish. “We left the ballpark in Philly, we’d lost four guys, and you think that’s it. You plan to leave the next morning. The next morning, the tests come back, awful.

“And then it’s Friday back to Miami. And then that becomes Sunday. You knew guys were getting more frustrated with being locked up in a room, being frustrated with all the stuff out there. We have to move on. It’s good to get back on the field, move forward, talk about baseball.”

Yet still so much had to happen before they could.

Makeshift roster

The avalanche of transactions that occurred Tuesday – 13 players to the injured list, 18 more added to the 40-man or active roster – culminated an unprecedented flurry of pandemic-driven roster activity.

“You never anticipate needing to replace 18 players,” said Michael Hill, the Marlins’ president of baseball operations.

So Hill activated every corner of his organization, from player development to pro scouts to calling in a few solids from execs around the league. Here’s what he came up with:

Not one, but two pitchers named Josh Smith.

An Olympic silver medalist in short-track speedskating who’d make his first major league roster at 30, one of four new Marlins who’d yet to set foot on a big league field.

Seven guys off the scrapheap, either claimed on waivers, or recently released, or acquired for “cash considerations.”

Tuesday night, somehow, it coalesced.

Aguilar looked like he hadn’t missed a beat since the shutdown, and that’s no coincidence. He relied heavily on Zumba classes in his room to stay limber and in the eighth inning destroyed yet another baseball, putting the bow on an emotional victory.

“We’ve been waiting for this moment for 15 days,” says Aguilar. “It was a great moment for us.

“A lot of new guys with the same goal, pushing in the right direction. Now, we’ve got to keep going.

“We have to. We don’t got no choice. We’ve been through a lot.”

Indeed, the human element can’t be underestimated.

Infielder Miguel Rojas – perhaps the team’s best player and its undeniable face – was among those testing positive for COVID-19 and noted in a video call this week the hidden emotional toll.

“It tells you a lot about we’re suffering,” he said. “We’re human beings, not just baseball players. We’re suffering from this virus. We’ve got another 15 teammates that got the virus. This has to bring awareness. Not just to our team but to everybody throughout the league.”

Tuesday, Rojas’ exuberance could not be contained on Twitter, as he rooted on his mates and most notably Lopez, who had gone nearly 11 months since throwing a meaningful pitch.

Lopez stayed sharp during the four-month industry shutdown and looked good early in summer camp. But after the first week, his father died suddenly of a heart attack and Lopez left the team for several days.

Lopez returned to the team by the opener but did not pitch before the hiatus. So he balled up socks and threw into his mattress in his Philadelphia hotel room, just one man on his mind all the while.

“Finding myself alone in my hotel room in Philadelphia, that wore me down mentally,” says Lopez, 24. “But thinking of him kept me going. I kept having conversations with him there. I enjoyed that feeling of someone on my shoulder watching over me.

“He helped me get through that time in Philly, making sure I was doing everything right.”

Jesus Aguilar reacts after hitting a solo home run during the eighth inning Tuesday against the Orioles.
TOMMY GILLIGAN/USA TODAY SPORTS

Motley crew

Minus Alcantara, Urena and Caleb Smith, Lopez might be the Marlins’ ace by default. It wouldn’t be the oddest look on their roster.

The club now counts a 2014 Olympic silver medalist among its ranks: Eddy Alvarez, a 30-year-old rookie outfielder who wowed the club with his versatility in both spring and summer camps.

“Just a tremendous story on stick-to-it-iveness, attention to his craft as a professional baseball player,” Hill says of Alvarez, a Miami native who spent six seasons in the minors with the White Sox and Marlins after winning silver in the Sochi Games. “Being on the major league roster for the first time at that age is just a tremendous credit to him and his hard work.”

Alvarez is one of four Marlins hastily added to the roster who have never played in the big leagues, the other three – pitchers Jorge Guzman and Daniel Castano and outfielder Monte Harrison arriving in trades involving Giancarlo Stanton, Marcell Ozuna and Christian Yelich, respectively.

Those deals signaled a teardown and perhaps an eventual strong young core. Now, the Marlins are building back up in a fashion nobody could have imagined.

They can only hope the worst is behind them.

“We’ve been in the hotel a long time,” says Mattingly. “Guys are happy to be out of there. We expect to win, honestly. It will be a different look. But I think we expect to win.”

MLS IS BACK TOURNAMENT WINNERS AND LOSERS

Orlando surprises; Timbers take title

Jim Reineking
USA TODAY

The first (and hopefully not last) MLS is Back Tournament concluded with the Portland Timbers prevailing over upstart Orlando City in Tuesday night's finale at the ESPN Wide World of Sports Complex.

Coach Giovanni Savarese's Timbers didn't just win a one-of-a-kind trophy but also earned a spot in the 2021 CONCACAF Champions League competition.

Despite the premature exits of two teams – FC Dallas and Nashville SC – before the tournament started due to positive coronavirus tests, MLS is Back could be considered a success, helping reinforce the idea that sports can be played safely inside a bubble during a pandemic.

As the league moved forward with its regular season restarting (again) Wednesday, here's a look back at the best and worst from the month-long World Cup-style tournament.

The Timbers' Larrys Mabiala celebrates his goal in a 2-1 win over Orlando City in the MLS is Back Tournament final Tuesday. DOUGLAS DEFELICE/USA TODAY SPORTS

WINNERS

Orlando City SC: Orlando advancing to the final was a pleasant surprise for a team that hadn't experienced any success since joining the league in 2015. New coach Oscar Pareja appears to have turned this perpetual loser into a force to be reckoned with. Meanwhile, star player Nani turned back the clock to his former European splendor.

Young American players: The U.S. men's national team (USMNT) might have failed to qualify for the last World Cup, but there's plenty to be excited about with the team moving forward. Young players are breaking through on clubs in Europe's top leagues. There are also a number of emerging USMNT prospects in MLS. Here are those who impressed the most in Orlando, Florida:

- **Ayo Akinola, forward, Toronto FC:** The 20-year-old notched five goals in three games and was a breakout sensation in the early portion of the tournament. Akinola is eligible to play internationally for either the U.S., Canada or Nigeria. Having played for the U.S. Under-15, U-17 and U-20 national teams, Akinola has yet to be capped by the senior team.
- **Brenden Aaronson, midfielder, Philadelphia Union:** The Union's efforts with its developmental academy are starting to pay huge dividends, as Aaronson, 19, and defender Mark McKenzie, 21, have been the topics of Euro transfer rumors.
- **Jeremy Ebobisse, forward, Portland Timbers:** The 23-year-old is vital off the field as a key voice in the league's new Black Players Coalition and he performed admirably on it for the winners.
- **Eryk Williamson, midfielder, Portland Timbers:** The 23-year-old has yet to earn his first USMNT call-up but was a vital cog in the Timbers' midfield.
- **Chris Mueller, forward/midfielder, Orlando City SC:** Three goals from Mueller, 23, in group play helped power the Lions into the knockout rounds.
- **James Sands, midfielder, New York City FC:** NYCFC's first homegrown signing, Sands, 20, is another candidate to make a move to Europe's top leagues.

Black Players Coalition: Launched on Juneteenth, the efforts of the league's coalition were ubiquitous at the month-long tournament. The Black Players for Change made their first move before Orlando City and Inter Miami played the tournament's opening game on July 8. More than 170 of the league's Black players lined the field, lifting their fists into air in a moment made more powerful by the silence from having no fans in attendance. The statement lasted 8 minutes and 46 seconds to honor George Floyd, who was killed while in police custody in Minneapolis.

LOSERS

Frank de Boer: Atlanta United – a popular pick to contend for the tournament title – crashed out of the competition after three scoreless games. It was a dismal showing for what once was one of the most entertaining teams to watch. After the tournament, Atlanta parted ways with de Boer, and now one of MLS' premier franchises has hit a low point in its brief existence.

Los Angeles Galaxy: The Galaxy managed just one tie at the tournament, and it took a stoppage-time penalty kick to do it in the team's third and final game. That keeps the Guillermo Barros Schelotto-led Galaxy in the cellar of the Western Conference, sitting two points behind FC Dallas, which didn't even get to play at MLS is Back. The low point, of course, was a 6-2 drubbing at the hands of in-city rival LAFC.

Inter Miami CF: By losing in its first two MLS games before the league shut down in mid-March, and then going 0-3 inside the bubble in Orlando, Inter Miami earned the unenviable distinction of being the first MLS expansion team to lose its first five games. David Beckham's team is still a work in progress, and help appears to be on the way in 2018 World Cup winner Blaise Matuidi, who has agreed to a deal with Inter Miami according to multiple reports.

Indians' fiasco is case study in carelessness

Bob Nightengale
Columnist
USA TODAY

Come on guys, really?

Chicago has some of the best restaurants and nightlife in the country, but as much as you might want to believe you can take on the city and win, it remains undefeated.

Unlike you, Chicago isn't going to wake up in the morning having to deal with any of the fallout from the night before.

Over the weekend, the Windy City showed off its power of temptation yet again by bringing Cleveland's baseball team to a screeching halt.

Specifically, starting pitchers Zach Plesac and Mike Clevinger.

The two went out on the town Saturday night, tried to sneak past MLB's security at their downtown hotel, and, yep, were caught red-handed.

Normally, you could shrug it off – but not this season.

Not in the middle of a pandemic.

Not when one careless move can bring down your entire team.

Just ask the Marlins and Cardinals.

The Marlins are back playing after being out eight days, but the defending NL Central champion Cardinals haven't played a game in two weeks and don't know when they'll return to action.

Fully aware of the seriousness of coronavirus, and knowing you have a starting pitcher on your staff who's a leukemia survivor – Carlos Carrasco – how can you dare be so reckless?

"This one kind of hurts," said Cleveland's Terry Francona, returning to manage the team for the first time since missing eight games with a gastrointestinal issue, which along with his hip and back ailments have led to five or six hospitalizations since February, on Tuesday. "We talked about it as a team today. We will deal with it as we always do. We care about each other, but that doesn't mean you don't get disappointed with each other, or mad at each sometimes. Not being vindictive, how do we make it better so it doesn't happen again?"

It's the ultimate responsibility to every single Cleveland player and staff member to ensure everyone's safety, relying on everyone to do the right thing.

"They hurt us bad," said Adam Plutko, who serves as one of Cleveland's representatives to the MLB Players Association. "They lied to us. They sat here in front of you guys and publicly said things that they didn't follow through on."

The Indians placed pitcher Zach Plesac on the restricted list. AARON DOSTER/AP

Cleveland President Chris Antonetti put both players on the restricted list to isolate them from the rest of the team. They were to undergo COVID-19 tests on Wednesday and won't be permitted to rejoin the team until at least Friday.

Plesac and Clevinger went out together after their 7-1 victory over the White Sox. Plesac, who grew up 45 minutes from Chicago, just won his first game of the season that afternoon and wanted to celebrate.

Plesac, 25, put out a statement Sunday night apologizing for his actions and then doubled down on his remorse on his Instagram post.

"Life can throw some crazy things at you," he wrote, "but how you respond is the testament. What you think is harmless can actually have consequential outcomes...and the lesson learned is this: The most important thing we can do is take care of EACH OTHER. Putting others first, and having the character to understand why there is a greater impact if we are selfless."

Clevinger, 29, issued a statement of his own Tuesday. "In Chicago, I made the mistake of violating the protocols but the biggest mistake of all was not immediately coming clean to my teammates," Clevinger said. "I owe them better. ...

"There is no excuse for my actions, and I can only take responsibility and learn from my mistakes."

Certainly, for a team battling to regain supremacy in the American League Central, and with the pitching talent capable of taking the Indians to the World Series, they can ill afford self-inflicted blunders.

If you get beat on the field, fine. If you beat yourself off the field, inexcusable.

The WWSS is a drinking water infrastructure program that will provide Owner with a seismically resilient water supply, designed to meet future demand and will provide redundancy in case of an emergency event. The WWSS includes more than thirty (30) miles of transmission pipelines, ranging from 36-inches to 66-inches in diameter from an intake at the Willamette River Water Treatment Plant ("WRWTP") in Wilsonville, Oregon, north to Hillsboro, Oregon and Beaverton, Oregon. The WWSS will also include finished water storage tanks (terminal storage), a new water treatment plant, and expansion of the existing WRWTP raw water facilities. For additional history and information, visit www.ourreliablewater.org. The new system is expected to be completed by June 2026.

The goal of implementing a CMMS is to support managing all the WWSS Commission's physical above and below ground assets to ensure assets are maintained at their lowest lifecycle costs while delivering expected levels of service.

The purpose of this Request for Information ("RFI") is to give CMSS vendors ("Respondents") an opportunity to inform the WWSS Commission on commercially available solutions in advance of a formal procurement. This RFI is intended to gather information that could assist in the development of a future procurement process. Vendors are invited to share their perspectives on how their identified products and services could most optimally be used. Information received through the RFI process may help inform the future CMMS model, its business case, and future procurements for CMMS solutions. Submittal of a response to this RFI is not required for a vendor to participate in the future procurement; however, it is strongly encouraged.

THIS IS A REQUEST FOR INFORMATION ONLY. This RFI is issued solely for information and planning purposes. It does not constitute a solicitation (e.g., Request for Proposal or Request for Quotations) from the WWSS Commission or a promise to issue a solicitation in the future. The WWSS Commission shall not compensate respondents for any cost incurred in the preparation or submission of any response to the RFI.

ERO's scope is currently based on an initial meeting at your office on May 18 and site visit of the existing shop area by ERO staff that same day. Significant changes to the described scope of work or cost of construction may result in an approved change of fees. The schedule of deliverables for the scope of work will be determined by the City and ERO. Monthly invoices will be issued by ERO for all services performed under the terms of our Contract Agreement.

ERO will reimburse the City for reasonable defense costs for claims arising out of ERO's professional negligence and is in the aggregate, limited to an amount no greater than the fee earned under this Agreement. The foregoing hold harmless and indemnity obligations shall apply solely to any such causes of action, damages, costs, expenses or defense obligations covered by ERO's insurance. ~~The City agrees to indemnify and hold harmless ERO, its officers, principals, consultants and employees against all damages, liabilities or costs, including reasonable attorneys' fees and defense costs, to the extent caused by City's negligent acts, errors or omissions in connection with the Project and this Agreement and the acts of its contractors, subcontractors or consultants or anyone for whom the City is legally liable.~~

The City or ERO may terminate this Agreement under the terms of our Contract Agreement, Article 7, page 2.

If acceptable, please sign and return one copy of this Agreement to ERO. We appreciate the opportunity to provide this Agreement and look forward to working with the City of Brownsville and the new Sanitation Department Shop. Feel free to contact us should you have any questions or comments.

Re: Services Agreement Proposal for Architecture and Engineering Services of the City of Brownsville New Sanitation Department Shop

Dear Mr. Garcia:

With the existing Architectural Services Contract Agreement for the City of Brownsville, #ASC-41-0719, entered on February 4, 2020, ERO Architects (ERO) is pleased to provide our proposal for a Services Agreement (Agreement) to the City of Brownsville (City) for professional services to prepare a sealed set of drawings, code compliance and specifications setting forth requirements for permitting on the construction and expansion of the New Brownsville Sanitation Department Shop, Phase 1 and Phase 2, located at 9000 Ruben M Torres, Brownsville, Texas 78521 (Project). ERO will provide architecture, MEP/F and structural services and utilize local sub-consultants to assist on the Project.

Scope of Work Services
ERO's scope is currently based on an initial meeting at your office on May 18 and site visit of the existing shop area by ERO staff that same day. Your office shared information of the existing shop structure and your thoughts about its possible new construction, expansion and/or addition options to the shop site similar to the Republic Services La Gloria Landfill in Edinburg (program to be determined). Delivering two building phases with an open area pavillion and an enclosed office area, two service bays for maintenance, new hoist and parking.

ERO will abide by the Scope of Services for architectural and engineering services agreed upon in Exhibit A of our Contract Agreement, page 5, including concept validation, schematic design, design development, sealed construction documents (permit ready with code compliance and specifications), bidding and negotiations, construction administration and close out phases. ERO complies with rules and regulations of funding agencies.

Compensation
For the Scope of Work as described above ERO proposes a fee of $75,000 for the Phase 1 new building based on 7.5% of the cost estimate of $1,000,000; and a fee of $150,000 for the Phase 2 new building based on 7.5% of the cost estimate of $2,000,000 (fee percentages are noted in Exhibit B, page 10). Significant changes to the described scope of work or cost of construction may result in an approved change of fees. The schedule of deliverables for the scope of work will be determined by the City and ERO. Monthly invoices will be issued by ERO for all services performed under the terms of our Contract Agreement.

Assumptions / Exclusions / Provisions
- City will provide civil engineering, surveys and a geotechnical report.
- Excludes design and detailing of sitework including parking, irrigation, landscape, paving, fencing, retaining walls, dumpster pads, sign foundations, etc. unless specifically included as additional services.
- Excludes commissioning, testing, special inspections or responsibility for these services.
- These services can be provided as additional services under a different proposal and scope of work.
- ERO has no control over construction cost market conditions or bidding procedures.

Additional Services
Additional Services, if required, include: work beyond the scope described in this proposal; items specifically identified as Additional Services; revisions in ERO's work due to a change with instructions or approvals given by the City; enactment of or revisions to codes, laws, ordinances, or official interpretations which necessitate changes in ERO's work; construction duration beyond the approved schedule; and/or changes in scope, all utilizing the Exhibit D Task Order Form, page 16.

Reimbursable Expenses
Reimbursable expenses are allowed based on terms stipulated in Exhibit B of our Contract Agreement, page 10.

Insurance
ERO and its team carry professional liability, general liability and workers compensation insurance policies in accordance with what we have found are generally acceptable requirements. ERO will furnish proof of insurance coverages as required under Section D of our Contract Agreement, page 18.

Standard of Care
ERO will perform the Project in a manner consistent with the degree of competency, care and skill ordinarily exercised by other professionals of the same profession currently practicing under similar circumstances at the same time and in the same or similar locale and conform, as applicable, to appropriate federal, state and local laws, regulations and codes relevant to this Agreement.

Indemnification and Liability
ERO shall indemnify and hold harmless the City, its board, consultants and employees, from and against those liabilities, damages, and costs that the City is legally obligated to pay as a result of negligent acts, errors or omissions of ERO. ERO will reimburse the City for reasonable defense costs for claims arising out of ERO's professional negligence and is in the aggregate, limited to an amount no greater than the fee earned under this Agreement. The foregoing hold harmless and indemnity obligations shall apply solely to any such causes of action, damages, costs, expenses or defense obligations covered by ERO's insurance. The City agrees to indemnify and hold harmless ERO, its officers, principals, consultants and employees against all damages, liabilities or costs, including reasonable attorneys' fees and defense costs, to the extent caused by City's negligent acts, errors or omissions in connection with the Project and this Agreement and the acts of its contractors, subcontractors or consultants or anyone for whom the City is legally liable.

Termination
The City or ERO may terminate this Agreement under the terms of our Contract Agreement, Article 7, page 2.

If acceptable, please sign and return one copy of this Agreement to ERO. We appreciate the opportunity to provide this Agreement and look forward to working with the City of Brownsville and the new Sanitation Department Shop. Feel free to contact us should you have any questions or comments.

Respectfully submitted,

Subject: Proposal for the Replacement of Landfill Gas Lateral Piping, Variable Frequency Drive, and Additional Non-Routine Services at the City of Brownsville Landfill.

Dear Mr. Maldonado:

SCS Field Services (SCS-FS) is pleased to submit this proposal for the above referenced project and appreciates the opportunity to be of service to the City of Brownsville Landfill (Site).

SCOPE OF WORK

The Scope of Work is based on the routine maintenance that is performed monthly at the Site. SCS-FS will provide all labor, equipment, and materials needed to perform the existing landfill gas (LFG) lateral and variable frequency drive (VFD) replacement. Due to the depths of the lateral piping from operational filling after installation, SCS-FS will need to install new lateral piping to a safe and workable trench depth at locations closer to the perimeter header or existing extraction wells. Below is a list of the required tasks SCS-FS is proposing to perform as part of this proposal.

- SCS-FS proposes to expose existing vacuum laterals to well connections at EW103R, EW106R, EW110R, and EW112R. This will allow for SCS-FS personnel to abandon vacuum laterals below grade due to watered in laterals that hinder gas extraction at these locations.

- SCS-FS proposes to install 6-inch lateral lines to the existing wells and tie-in at the closest, predetermined locations that allow for the condensate liquids to drain back into the header piping and condensate sumps.

- SCS-FS will salvage existing wellheads and reinstall them to new lateral lines once completed to continue gas extraction of the well.

SCS-FS will order and install a new VFD on one of the blowers at the Site, which is not functioning and preventing operation of the blower. Once installed, SCS-FS will restart the blower and verify that the system is operating satisfactorily. Although the VFD on the other blower also does not appear to be functioning properly, SCS-FS is not proposing to replace it at this time. Instead, that VFD will be removed and shipped to a vendor to be assessed and possibly repaired.

With this proposal, SCS intends to provide non-routine services for the Site. These services are intended to provide activities that may be requested by the City of Brownsville during the contract period. This task includes no specific scope of services except to provide construction services as

directed by the City. The cost estimate associated with this task is solely for authorization purposes only. Cost for this task will be authorized after an official quote from SCS-FS personnel to be approved by the City. Additional fees may be authorized by the City by change order should the initial budget be consumed. The work associated with this task will be at the direct request by City staff.

ASSUMPTIONS AND CONDITIONS

- SCS-FS' price does not include seeding of disturbed areas, silt fence or other erosion control or sediment control measures.
- SCS-FS' price does not include an articulated dump truck for trash or soil hauling and Site personnel will assist in placement of these materials for cost saving purposes as agreed upon.
- Existing wiring at the Site will be satisfactory for installation of the new VFD without additional electrical work.
- The cost estimate accounts for purchase of a new VFD, removal and replacement of the existing VFD, and shipment of the old VFD to the vendor but not for the repair of that VFD. If the vendor determines that the VFD can be repaired, then SCS-FS will provide a separate cost estimate to the City for that service.
- Any tie-in locations that are inaccessible due to extreme amounts of liquid that requires additional equipment and material is not included in the proposed price.
- Reasonable site access for the listed authorized personnel, equipment, and materials to enable completion of the work.
- SCS-FS' price does not include obtaining construction, NPDES, storm water or other environmental permits.
- SCS-FS assumes that conditions, which differ materially from information provided by the client or what is reasonably anticipated given the nature of the work, are excluded from our bid.
- Work will be performed in OSHA Level D protection.
- SCS-FS' price does not include marking of utility lines, nor damage to unmarked utility lines.
- Site and weather conditions will permit completion of the project in accordance with the proposed time frame.
- This quote is valid for 60 days from the date of this submittal.

PROJECT SCHEDULE

Upon approval of this proposal, SCS-FS will begin scheduling personnel, equipment, and materials for the replacement lateral installation and order a new VFD. SCS-FS estimates 6 working days to complete lateral installation and can begin mobilizing to site as soon as August 14, 2023. As soon as

possible after receiving the VFD, SCS-FS personnel will visit the Site to complete its installation. Removal of the existing VFD and installation of the new VFD is expected to take one day onsite. The VFD being removed will then be shipped to the vendor.

COMPENSATION

SCS-FS would be pleased to perform the work in accordance with the above listed Assumptions and Conditions for a total cost of $106,914. See below for cost breakdown.

1	Mobilization/Demobilization	LS	1	$ 10,750	$ 10,750

Procurement Summary

Task Order No. 2020-1 to provide Professional Engineering Services for the Municipal Solid Waste Facility (City of Brownsville Landfill), for a retainer fee in the amount of **Four Million, Fifty-Five Thousand and Sixty Dollars, with 0 Cents, $4,055,060.** Upon approval, Task Order Authorization No. 2020-1 will exercise the second of three extension periods as per terms and conditions of Section 3.A.2 of the Master Consulting Agreement.

The engineering staff at SCS has over 20 years of experience working with the City Landfill and City Staff. During this time, their staff has assisted the City with numerous projects and tasks, which include the following:

FINANCIAL IMPACT
The proposal for **Task Order Authorization No. 2020-1** lists the scope of services and estimated costs associated with extending the provision of engineering and environmental services through 2015. Projected costs for the five-year term totals **$4,055,060** which will cover twenty-two (22) total tasks. This represents a 4% increase from the previous 2015-2020 retainer.

For 2020-2025, there are some new task orders being proposed to the Master Consulting Agreement portion of the contract. The purposes stem from new State and Federal requirement, implementing improved planning strategies, and others with the intent of reaching long-term, cost-savings goals for the City.

The following is offers an explanation on the newly proposed tasks:

Task 8 - Gas Collection & Control Plan *(FY21 one-year annual budget)*
The task will satisfy City Landfill's requirements under 40 CFR 63, Subpart AAAA which was finalized in March 2020.

Task 9 - NSPS Reporting *(five-year annual budget)*
The task is necessary to fulfill the Full New Source Performance Standard (NSPS) control requirements for the City Landfill beginning in June 2021.

Task 10 - NSPS Initial Source Test *(FY21 one-year annual budget)*
The task is necessary to carry out mandated source testing on the City Landfill's open gas flare to be performed in the second half of 2021, and submitted by December 2021 with the first NSPS semi-annual report.

Task 12 - Tipping Fee Study and Financial Analysis *(five-year annual budget)*
SCS will perform an annual assessment on the adequacy of the current landfill tipping fees to cover service costs and potential rate adjustment to support the development a 10-year "business plan" for the City. The data collected will complement the City's overall Solid Waste Plan.

Task 18 - Safe Equipment Operator Training *(five-year annual budget)*
The training will address safety and industry best practices to perform landfill operations and maintenance more efficiently. Specialized training and education is expected to translate into improved safety awareness, savings on equipment maintenance costs and efficiency of operations, as well as increase the staff motivation.

Task 19 - Construction Quality Assurance of Landfill Gas System Expansion *(FY21 one-year annual budget)*
SCS will perform construction quality assurance on the planned construction of the GCCS expansion scheduled for completion by March 2021 as per TCEQ regulation.

Task 20 - Alternate Daily Cover *(five-year annual budget)*
SCS will offer assistance with proper spray-on application of alternate daily cover on an as needed basis. An analysis conducted on the standard 6" daily cover operation shows that it costs the City $8,800/day. The expenses include airspace, clean soil material, and excavation/hauling. Having this type of service available at the City's disposal translates into landfill operational cost savings and a reduction in resources used. However, more importantly it helps in keeping the City in compliance with TCEQ regulations and Site Permit requirements during wet-weather days when covering the working face(s) with soil is nearly an impossible feat.

CONCLUSION
The term of the Master Consulting Agreement may be extended automatically by the terms and conditions (Sec. 3.A.2) of the Master Consulting Agreement for a period of five years upon the same terms and conditions as herein set forth. Therefore, the City of Brownsville Engineering and Public Works Department recommends the extension of the agreement in order for the City to continue to receive excellent service from SCS at the City Landfill for the next five years.

Funding will be derived from Landfill Fund 66 - Special Projects/Professional Services.

SUBJECT:	**Master Consulting Agreement Renewal for Engineering Services at Brownsville Municipal Solid Waste Landfill #LES-63-0703**

RECOMMENDATION:

The Engineering & Public Works Department is recommending approval to renew the City Landfill Engineering Services with Stearns, Conrad and Schmidt Consulting Engineers, Inc. dba SCS Engineers (SCS) of Houston, TX for an additional five (5) year term with a retainer fee in the amount of $4,055,060. Upon approval, Task Order Authorization No. 2020-1 will exercise the second of three extension periods as per terms and conditions of Section 3.A.2 of the Master Consulting Agreement.

BACKGROUND:

The Texas Commission on Environmental Quality (TCEQ) requires all solid waste facilities to use specially trained scientists and engineers to maintain and ensure environmental compliance with regulations. To ensure quality and accountability, a Certified Professional Engineer and City Management or Authorized Representative is required to sign off on any site permit applications and support documentation for the landfill. Permit applications, facility environmental programs and other work requiring comprehensive knowledge of State and Federal regulations, which keeps the City landfill in compliance, avoids penalties and increases efficiency. SCS has been providing the technical services associated with the City's solid waste disposal facilities in accordance through a Master Consulting Agreement (hereinafter "Agreement") with the City of Brownsville since April 2011. The current term extension for landfill engineering retainer services ends on September 30, 2020.

The engineering staff at SCS has over 20 years of experience working with the City Landfill and City staff. During this time, their staff has assisted the City with numerous projects and tasks, which include the following:

- Expanding the life of the landfill in 2000. Under the old permit, the landfill would now be filled to capacity, and the City would be paying landfill closure costs and forced to find other alternatives for the disposal of solid waste generated by the community. As of this writing, the City landfill has disposal capacity through the year 2070. In effect, a significant financial gain was realized for the City and helped reduce the costs to operate the landfill.

- Assisting the City with permitting the compost program to take advantage of the TCEQ fee compost rebate program. Enrolling in this program saves the City an average of $40,000 annually in solid waste fees. Having a compost facility also saves the City 20,000 cubic yards of landfill airspace annually, which adds one month of facility life expectancy each year.

- Assisting the City with registering a tire storage and processing facility that has allowed the City to be proactive in dealing with the ongoing issue proper management of used/scrap tires. The City now serves as the primary facility for receiving scrap/used tires during regional tire cleanup events.

- Assisting with TCEQ approving site permit modifications for five (5) different alternate daily cover methods which has resulted in significant savings in operational costs and cover soil resources.

- Assisting the City with oversight of several construction projects, all of which were successfully completed at or under budget; notable projects include Methane Gas Remediation and Scalehouse relocation in 2012, Sediment/Erosion Control in 2014, and Disposal Cell #3 in 2009 and #4 in 2019.

- Assisting the City with applying for an Energy Efficiency and Conservation Block Grant (EECBG) from the American Recovery and Reinvestment Act of 2009 (ARRA). As a result of this collaboration, the City was awarded a $1,659,200 grant to install a landfill gas collection system at the Landfill. With the operation of the landfill gas collection system, the City reduces their greenhouse gas emissions and is eligible for possible revenue from the carbon credit market; SCS has now completed the TCEQ approved design and construction plan for the required expansion of the Landfill Gas System which needs to be functional by March 2021.

- Developing a compliance management program that has resulted in excellent inspections by the TCEQ for sixteen consecutive years with no Notices of Violation/Enforcement and $0 dollars in administrative penalties. They have been key component in the establishment of a positive and trustful relationship with regulators.

The City has also been working closely with SCS staff on marketing and financial figures to analyze the feasibility of incorporating innovative programs in the solid waste industry that will generate both additional revenue and cost savings for the City.

Re: Proposal to Provide Engineering and Compliance Services for the City of Brownsville Landfill for the Five-Year Period October 1, 2020 through September 30, 2025
Task Order Authorization No. 2020 - 1

Dear Mr. Perez:

Per your request, SCS Engineers is pleased to submit this proposal for additional services to the City of Brownsville to provide engineering and compliance services to include training, design, preparation of plans, specifications, permit modifications, compliance assistance, environmental monitoring, and aerial and land surveying for the City of Brownsville Landfill.

INTRODUCTION

As you know, over the last several years through the City-SCS partnership, we have been able to develop creative ways to improve the landfill's long term viability, operations, regulatory compliance, and financial returns. For example, our team:

- Prepared a landfill expansion permit amendment that extended the life of the landfill from having to close in the year 2007 to closing in the year 2069;
- Helped landfill operations improve the landfill compaction rate of 1,140 pounds per cubic yard in 2009 to 1,987 pounds per cubic yard in 2019, an efficiency increase of over 70 percent;
- Obtained a U S Energy Efficiency and Conservation Block Grant of $1,659,200 to reduce fossil fuel emissions, reduce total energy use, improve energy efficiency in all sectors, and to spur economic growth and create or retain jobs;
- Maintained compliance with appropriate federal, state, and local requirements including over 10 years of TCEQ inspections with zero violations.

We feel that understanding your overall solid waste system (or operations) and long-term plans enables us to be better engineers and consultants for the City. The SCS staff that will serve you in the coming years is the same as in the past 20 years. We are very familiar with the landfill and the challenges you face. As we've demonstrated over the years, we treat your asset as if it were our own, through the decisions and recommendations we make.

Our goal is not only to provide the technical services you need, but to always improve on our client service. We know the City has new staff that will be engaged in the work in the coming years. To ensure our working relationship continues to be smooth and productive, we suggest having initial and periodic meetings with your staff to gain an understanding of how you and they would like us to interact. For example, how often and through what media would you like us to communicate; what decisions you

would like to be involved in; format of deliverables, invoices, and other things that affect our day-to-day working relationship. We also understand that priorities often change; therefore, we will periodically revisit these topics to ensure we remain in lock step with you.

Lastly, we have recently employed a client feedback tool to obtain your feedback on a formal, routine basis. Based on the frequency you select, we will send a request for feedback that takes only 1 to 2 minutes to complete. This form of frequent communications and check-ins has proven to be extremely valuable in our ability to adjust to client needs and preferences.

This proposal represents a continuation of services contemplated in contract LES-63-0703 under Article 3A2 of the Master Consulting Agreement (MSA), and based on mutual written acknowledgement to renew the contract in a letter dated April 9, 2020 initiated by the City. In accordance with Sections 2 and 2A of the MSA between SCS Engineers and the City of Brownsville, this proposal serves as an amendment to the MSA. This proposal, called Task Order Authorization No. 2020 - 1, allows SCS to provide engineering and environmental services to the City of Brownsville Landfill and to address additional permit and compliance issues with changing Texas Commission on Environmental Quality (TCEQ) and the USEPA regulations.

We look forward to assisting the City with the management of your critical asset, including implementation of the current and new TCEQ and EPA requirements and developing the landfill in a cost-efficient manner. To this end, SCS offers the following Scope of Services.

SCOPE OF SERVICES

Task Order Authorization Number 2020 - 1 is divided into individual tasks for project management purposes. Details on the specific tasks are provided in this Scope of Services, Schedule, and Fees.

Task 1 – Project Management and Project Meetings

This task includes the management of the project, budgets, preparation of project status memoranda and invoices, and participation at regular scheduled meetings with City staff. Activities may include day-to-day and weekly communications as well as monthly progress reports for all project tasks throughout the duration of the project. This task includes one project meeting per year with the City staff and SCS's project engineer and manager.

Task 2 – Conduct Site Operating Procedures Training, Annual Compliance Review, Annual Financial Assurance Assistance, Special Waste Authorization Assistance, and Annual SPCC Plan Assistance

In accordance with the requirements of the City of Brownsville's landfill permit, SCS staff will provide annual training to all site personnel and management on the requirements of the following:

- Site Operating Plan (SOP)
- Prohibited waste
- Emergency response procedures, including fire and explosion
- Use of emergency equipment, communications or alarm systems
- Response to environmental contamination incidents
- Shutdown of operations

- Endangered species
- Hazardous waste identification
- Safety
- Fire protection
- Load inspection
- Prohibited waste
- SPCC
- Emergency response
- Litter control
- Random inspection
- Leachate system maintenance

SCS staff will visit with site personnel to assess the current operating practices and then will train the personnel in methods of incorporating the new procedures with the current practices. Training will be given in four (4) personnel categories as described in the SOP. These categories are Laborers, Gate/Scale Attendants, Equipment Operators, and Landfill Manager. SCS will schedule monthly visits over the course of each year to conduct the training. SCS will coordinate training sessions with City staff.

SCS will conduct annual compliance reviews of the facility. This compliance review will typically occur approximately 2 months prior to the landfill's anticipated TCEQ inspection. SCS will document the findings of the review with City staff and recommended corrective actions. Additionally, SCS and subcontract staff will attend the annual TCEQ inspection with City staff.

SCS will conduct reviews of special waste requests and assist the City in evaluating and processing the special waste request. This will be performed on an as needed basis. City staff will forward special waste requests to SCS. SCS will review the special waste paperwork for compliance with current permit and TCEQ requirements and will prepare a written evaluation on the data submitted and additional requirements.

SCS will provide the City with assistance in updating the financial assurance per the permit requirements and provide annual assistance for communicating with the TCEQ.

SCS will annually review the Landfill's Spill Prevention Control and Countermeasures (SPCC) Plan and update the plan accordingly.

Task 3 – Landfill and Compost Operations Assistance

SCS will provide assistance with the operations of the landfill and compost facility.

SCS will provide project staff to visit the landfill facility weekly. SCS staff will inspect the overall layout of the landfill and recommend any operation, construction or maintenance changes that are required as part of the permit or by good operating practices. SCS staff will meet with City staff to discuss the results of the inspections and any other ongoing operational issues.

SCS will provide project staff to visit the compost facility weekly. SCS staff will inspect the overall layout of the facility and recommend any construction or maintenance issues that are required as part of the permit. SCS staff will inspect the layout of the feed materials, process materials and final

compost materials to determine if they are being stored appropriately, including size and location of piles. SCS will review the operating processes of the facility, the grinding process, the feed mixture (nitrogen ratio of 25:1 to 30:1), the windrow turning, the screening of the compost, and the storage and final processing of the finished material. Additionally, SCS will assist with the temperature and tracking of the windrows to assure that the compost material has been held over 140° F for at least 15 days and turned every 3 days during this process.

SCS staff will review the compost program records including:

- Incoming feedstocks,
- Outgoing compost,
- Volume of finished product,
- Volume beneficially reused,
- Documentation of the expenses to operate the facility, including:
  - Labor,
  - Equipment, and
  - Fuel and other supplies.

SCS will assist the City staff with preparing TCEQ required reports including Incoming Feedstock and Outgoing Compost, documentation of expenses and other forms or reports that might be required by the TCEQ. By fining these reports, SCS will assist the City in qualifying for a refund of up to 15% of the solid waste fees, consistent with TCEQ rule §30 TAC 330.677.

SCS staff will be available to assist the City with any TCEQ audits of the compost facility.

Task 4 – Landfill Gas Flare Opacity Inspections

SCS will conduct daily opacity inspections of the landfill gas flare. SCS staff will document the opacity of the flare in accordance with the facility's TCEQ air permit. The inspection reports will be provided to the facility for inclusion in the landfill's Site Operating Record.

Task 5 – Semi-Annual Air Permit Audit (Compliance Report) and Title V Reporting

SCS will conduct two compliance audits per year in accordance with the provisions of the landfill's Title V permit, Standard Permit, and pertinent Federal Regulations (such as the New Source Performance Standards (NSPS) for Municipal Solid Waste Landfills). SCS personnel will visit the site twice a year to evaluate the compliance status of the landfill and to help assure the City that compliance with respect to appropriate air regulations and requirements is maintained. SCS will meet with the City staff during this visit to discuss the preliminary findings and discuss possible recommendations. Upon the City's authorization of the audit report, SCS will provide copies for the City's files. These reports will coincide with the landfill's Title V reporting events so that, upon completion of the audit, the City's Responsible Official will have more information on which to base a compliance determination. SCS has budgeted two meetings a year at the site with the City to discuss the final audit findings and the report.

As mentioned above, this task also includes the semi-annual preparation of the landfill's Title V semi-annual deviation reports and annual certification reports to the TCEQ. These reports are required so

that the City's Responsible Official can certify that compliance with air-related requirements was maintained.

SCS will schedule the audits to coincide with the Title V reporting so that compliance can be discussed with the Responsible Official prior to filing these reports.

Task 6 –Air Permit Renewals and Revisions

This task covers two known permitting actions that will be needed during the contract period.

The first will be updating the Title V permit for the new rules under 40 CFR 63, Subpart AAAA that were recently finalized. This will remove the landfill from 40 CFR 60, Subpart WWW requirements and bring this new rule's requirements into the permit, as required. This permit revision will be processed concurrently with the GCCS Design Plan that's included as another task in late 2020. It will consist of a cover letter narrative and appropriate TCEQ forms. A draft will be prepare for City review and signature. Upon receipt of comments and the executed certification page, SCS will submit the revision on the City's behalf, and answer any TCEQ questions that come up during their review.

For the second permitting action, the Title V General Operating Permit (GOP) No. 517 which requires renewal every five years, will require a renewal in 2025. Per 30 TAC § 122.133(4), in order for an application for GOP renewal to be considered "timely" it must be submitted between 6 and 18 months before the existing GOP's expiration date.

SCS will prepare the certification document to renew the GOP. This certification document will contain a narrative discussion supporting the renewal as well as the GOP checklist and appropriate unit attribute checklists for the emissions sources that are subject to regulatory requirements. SCS should not require any information from the City to complete this work since we perform all other air compliance functions and are aware of on-site sources. Renewals for GOP permits do not require fees and, as such, no permitting fees are included in this proposal.

Upon completion of a draft renewal application, SCS will transmit a draft to the City for review, comment, and Responsible Official signature. Upon receipt of comments, SCS will prepare final copies for submittal to the proper regulatory agencies and the City.

Task 7 – Annual Greenhouse Gas, Emissions Fee, and Emissions Inventory

SCS will perform annual Greenhouse Gas (GHG) reporting, Emissions Inventory (EI) reporting, and Emissions Fee reporting. GHG and EI reporting are due on or around March 31st each year, with Emission Fee reporting due by June 1st each year.

SCS will collect the information necessary to estimate emissions for GHG and EI reporting. We will have most, if not all of this information from other work we do for the City. Once we have the necessary information, we will prepare emissions calculations conforming to the GHG and EI reporting requirements along with other information regarding the landfill required by EPA and TCEQ. Based upon SCS's familiarity with the City's facility and permit, and since site visits will be made in association with the annual air audits, no site visits are included in this task.

Once SCS has prepared the appropriate emissions calculations, we will work to enter them into the required online reporting portals (eGGRT for GHG reporting and STEERS for EI reporting). We will contact the City for a final review once the online entry has been completed. Ultimately, the City will be contacted to certify the EI results to TCEQ through STEERS, however, SCS can submit the GHG reporting results as the City's agent. As a final deliverable for the GHG and EI reporting, SCS will provide the City with a memorandum annually, summarizing pertinent details of the reporting for the landfill's files.

Regarding the Emission Fee reporting, this is a follow-up to the State of Texas EI. In April of each year, TCEQ will send out an emissions fee remittance form. SCS will fill out this form on behalf of the City utilizing EI values that were submitted by the prior March 31st. We will also remit this form to TCEQ on the City's behalf after the City's review period. The City will be invoiced separately by October 31st each yeah with payment due by November 30th. Our fee assumes that the City will pay these fees separately from SCS' work.

Task 8 – GCCS Design Plan

For this work, SCS will prepare the stand-alone GCCS Design Plan to satisfy the landfill's requirements under 40 CFR 63, Subpart AAAA. This rule, which was finalized on March 26, 2020, effectively brings the newer NSPS rules into play for the landfill. As such, a new GCCS Design Plan is needed to replace the previous one, and obtain new approval for the operating flexibilities the landfill will want for the gas system.

Most, if not all, of the design content for the new GCCS Design Plan will be utilized from the existing NSPS plan that SCS completed recently for 40 CFR 60, Subpart WWW. However, the regulatory provisions and references, and the requested flexibilities will require extensive revisions.

The GCCS Design Plan itself will consist of: a written portion, GCCS design modeling, GCCS layout drawings, GCCS detail drawings, and other backup attachments. Appropriate TCEQ certification pages and checklists will also be included.

A copy of the GCCS Design Plan draft will be provided for the City's review. Upon receipt of comments and appropriate certification signature pages, final copies will be provided for submittal to TCEQ as applicable. The final GCCS Design Plan prepared under this task will be sealed by a professional engineer licensed in the State of Texas. Lastly, this proposal includes services through submitting this to TCEQ and responding to routine comments on the submittal.

Task 9 – NSPS Reporting

Full New Source Performance Standard (NSPS) control requirements for the City begin on June 10, 2021. An initial NSPS report is due thereafter within the first 180 days (by December 7, 2021), and semi-annually thereafter. This task covers preparation of these reports through the report due by no later than June 7, 2025.

Each of these reports will be combined with all Startup, Shutdown, and Malfunction (SSM) reporting. Also, the Title V reporting period (and on-site audits) will be adjusted to coincide with the NSPS reporting so that only one report will be required.

The NSPS reports will encompass all of the required content for NSPS and SSM requirements. The initial report in late 2021 will include additional start-up information and the flare source test (testing and that portion of the report is included as a separate task). For each semi-annual period, SCS will begin compiling information at the end of each six-month reporting period, and prepare a draft report for the City's review and approval. Upon receipt of any City comments and the City's signature certification, SCS will prepare the final report copies and transmit them to TCEQ with a hard copy to the City for the landfill files.

Task 10 – NSPS Initial Source Test (Flare and Gas System)

A source test on the open flare must be performed in the second half of 2021, and submitted by December 7, 2021 with the first NSPS semi-annual report. For this task, SCS will prepare a source test for the open flare in compliance with 40 CFR §60.8 and 40 CFR §60.18 operating requirements. In order to fully comply with these requirements, the following tests will be performed:

- ASTM D1946 testing of three landfill gas samples for heating value and fixed gas content (CH_4, CO_2, O_2, and N_2);
- Volumetric flow rate calculated in accordance with EPA Method 2C;
- EPA Method 1 to determine traverse sampling points; and
- EPA Method 22 to evaluate visible emissions on 20-minute intervals with 5-minute breaks for a 2-hour period.

Upon receiving a notice-to-proceed, SCS will coordinate with Advance Technology Labs (ATL), to obtain canisters for sampling and schedule the sampling, flow measurements, and opacity testing with landfill staff.

SCS will work with the City to set a date for the flare testing to provide notice to the TCEQ regional office in case they want to observe the testing (as required); a 30-day notification is required to TCEQ in case they wish to be present for the sampling. Once a date is determined for the testing, SCS will prepare and submit the notification to TCEQ on the City's behalf.

Upon receipt of all needed laboratory and field results, a draft source test demonstration will be prepared. The demonstration will be in the form of a letter with TCEQ's specified certification page for signature, along with additional backup information including the following:

- Calculations showing heating content and maximum allowable tip velocity;
- Manufacturer's data from the flare's operation manual showing, at a minimum, tip diameter and maximum allowable flow;
- Flare flow (Method 2) and gas analysis data (ASTM D1946) used in the heat content and tip velocity calculations; and
- Method 22 opacity observation results.

SCS will provide a draft submittal to the City for review and certification. This report will ultimately be included in the initial NSPS report as required by the NSPS rule.

As required by 40 CFR §60.757(g), the initial source test report requires not only the information discussed above on the flare itself, but also the following items that we will obtain from the most recent GCCS Design Plan:

- A diagram of the collection system showing collection system positioning including all wells, horizontal collectors, surface collectors, or other gas extraction devices, including the locations of any areas excluded from collection and the proposed sites for the future collection system expansion;
- The data upon which the sufficient density of wells, horizontal collectors, surface collectors, or other gas extraction devices and the gas mover equipment sizing are based;
- The documentation of the presence of asbestos or nondegradable material for each area from which collection wells have been excluded based on the presence of asbestos or nondegradable material;
- The sum of the gas generation flow rates for all areas from which collection wells have been excluded based on non-productivity and the calculations.
- The provisions for increasing gas mover equipment capacity with increased gas generation flow rate, if the present gas mover equipment is inadequate to move the maximum flow rate expected over the life of the landfill; and
- The provisions for the control of off-site migration.

As such, these items will also be addressed in the initial report as well as the flare's source testing results.

Task 11 – Annual Landfill Airspace, Development, and Budget Analysis

Once a year, SCS will perform an aerial survey of the site and conduct an airspace analysis. SCS will contract, coordinate and manage an aerial mapping subcontractor. SCS will provide the City with an electronic file of the topographic map, a 1 foot scale contour map of the facility and two aerial photos of the landfill.

SCS will evaluate the airspace consumed since the previous aerial survey and compute the compaction density obtained over the studied time period. SCS will perform this task at approximately the same time period every year.

SCS will prepare and update annually the following:

- General landfill volume, compaction, density and site life data
- Landfill development cost summary
- Annual budget summary
- Labor, equipment and expenses
- Port of Brownsville soil purchase
- Engineering and environmental monitoring
- Gas system operation and maintenance
- Sediment and erosion control remaining for life of site
- Temporary sediment and erosion control construction
- Remaining cell construction costs
- Remaining closure costs – Subtitle D Areas
- Remaining closure costs – Pre-subtitle D Areas
- Remaining gas system construction costs
- Sediment and Erosion control costs

- Post closure costs
- Next year landfill gas system budget
- Closed areas
- Projected final cover sequence for remainder of landfill
- Soil balance data
- Landfill density
- Tonnage received and airspace consumed

A landfill development report will be prepared to assist the City with annual budget plans for the landfill and long term accruals.

Task 12 – Tipping Fee Study and Financial Analysis

SCS will assess the adequacy of the current landfill tipping fees to cover the cost of providing landfill services and propose potential rate adjustments that will help the City meet your operational, capital, and financial goals over a 10-year projection period.

We will initiate the study by scheduling a kickoff meeting with the City to discuss key issues, near and long-term goals, and metrics that the City considers to be most important to landfill financial performance. At this meeting, we will also distribute our data request, discuss the items required for our analysis, and establish the platform we will use for data transfer. We will identify the key members of our team and the City staff who will be involved in the study.

SCS will review the historical and budgeted expenses, debt service schedules and coverage requirements, capital improvement and vehicle/equipment replacement plans, solid waste ordinances, and fund balances. We will also review other data provided by City staff and remain in contact with the City if we need clarification on the data prior to our first interactive work session.

This revenue sufficiency analysis (i.e.: tipping fee study) will assess the long-term financial outlook of the City's landfill operations, including a financial management plan and associated plan of tipping fee revenue adjustments. SCS will review historical budgeted and executed operating expenses, the planned capital costs and associated funding sources, existing debt service and coverage ratios, available operating, capital and debt service reserves, and any financial policies and reserve requirements dictated by policies of the City.

SCS will consider growth in the City and assess how this will affect the number of customers at the landfill and volume/usage projections. We will apply escalation factors to costs/revenues and identify any other issues or questions affecting financial performance to be discussed with the City during our first interactive meeting. Our model will utilize the above-mentioned data and assumptions to create projections of revenues, operating expenses, capital spending, and fund balances.

The results will allow SCS and City staff to develop a 10-year plan of potential annual rate adjustments that will realistically reflect the dynamics of your landfill while minimizing the impact to your customers and citizens.

Once the revenue sufficiency analysis is complete, SCS will analyze the City's costs to accept and process various types of waste brought to the landfill by your customers and discuss the basis for your

current tipping fees. We will evaluate the costs of facility operations by examining each line item in the landfill budget.

SCS will distribute workbooks to the City and work with you to allocate employee labor and vehicle/equipment usage to each of your waste types/service classes. Using this labor and vehicle/equipment allocation, input from staff, and any other data provided, we will allocate the line item budget to each waste type/service you provide. We will then compare the costs for each waste type/service to the revenues generated by each respective waste type/service. The outcome of this analysis then becomes the basis for assessing the net revenue requirement used in calculating your updated tipping fees.

SCS will perform a detailed invoice/tonnage data analysis and will develop alternate tipping fee structure recommendations. The goal is to develop tipping fees that will be easily understandable and equitably distribute the costs to accept and process various types of waste at the landfill.

SCS will conduct a survey of comparable Texas landfills to determine the City's tipping fees relative to these other landfills. Once the analysis is complete, we will provide the City with schedules containing the assumptions and projections used in developing the analysis.

If desired, SCS will attend a public meeting with the City Commission and present the findings of our analysis, screenshots of the model results, and recommendations in a PowerPoint presentation. At this meeting, the detailed models used to develop the plan of revenue adjustments and updated tipping fees will be available if the Commission has any questions regarding the data or assumptions used.

SCS proposes to prepare the above scope initially, with the revenue sufficiency and review of customer impacts updated annually for the next 4 years.

Task 13 – Annual Sediment and Erosion Control Plan

SCS will annually prepare an erosion and sediment control plan for the City's use in constructing interim erosion and sediment controls in accordance with the TCEQ regulations regarding the erosional stability during all phases of landfill operations.

These plans will include the following:

- Cover Sheet
- Existing Conditions Plan
- Erosion and Sediment Control Location Sheets (2 to 4 sheets)
- Erosion and Sediment Control Detail Sheets (up to 6 sheets)

SCS will utilize the City's current topographic survey of the landfill. SCS has not included any budget in this proposal for additional topographic survey.

SCS understands that the City may conduct most or all of the construction activities with City forces. SCS will prepare the plans to allow for the City to bid out any part or all of the construction or material supply.

SCS will prepare Technical Specifications for the construction of the erosion and sediment controls as appropriate. SCS will also prepare an engineer's estimate of the construction quantities.

On years where the City decides to bid out all or part of the work, SCS will prepare the Standard City Bid Documents and assist with the bidding of this work. Additional services for managing the construction of this work will be authorized by an additional Task Order and approved by the City.

These plans and specifications will be prepared in general accordance with the TCEQ's regulations and the City of Brownsville's latest permit, as amended or modified.

SCS will prepare up to six (6) copies of the construction drawings per year for the City's use.

Task 14 – Groundwater and Leachate Monitoring

SCS will continue the groundwater monitoring program for thirty-two (32) wells located at the site.

Each monitoring event will be performed according to the *Groundwater Sampling and Analysis Plan (GWSAP)* in the landfill permit. In addition, an annual report will be submitted to the TCEQ that will include: a description of the monitoring activities; results of analytical testing; a statement regarding whether statistically significant increases in chemical concentrations have occurred; groundwater flow rates and direction in the uppermost aquifer; a contour map of piezometric water levels; and recommendations for any changes. SCS will submit an electronic file of the testing results to the TCEQ, and statistical analyses will be performed after the August 2017 and 2019 events.

Additionally, SCS will annually take a composite sample of the site leachate. The composite samples will be obtained from each of the seven leachate sump riser pipes located throughout the facility. Samples collected from the leachate collection system will be shipped to an environmental laboratory for analytical testing. This leachate will be analyzed for the same constituents used to analyze the groundwater. Results from these analyses will be prepared for inclusion in the site's Operating Record.

This proposal includes budget solely to conduct routine groundwater monitoring events as described above. Should any conditions present themselves that require additional analysis, monitoring, or corrective action, SCS will request a new Task Order from the City prior to commencing additional work

Task 15 – Landfill Gas Monitoring

SCS will conduct quarterly landfill gas monitoring in accordance with the requirements of Part III, Attachment 14, Landfill Gas Management Plan. A pressure meter, Lower Explosive Limit meter, and groundwater interface probe will be utilized to perform the data collection at the 10 methane gas probes. In addition, methane measurements will be recorded within on-site buildings. SCS will perform equipment calibrations, collect data, and prepare methane data paperwork according to the gas management plan.

This proposal includes budget to conduct quarterly landfill gas monitoring events as described above. Should any conditions present themselves that require additional analysis, monitoring, or corrective action, SCS will request a new Task Order from the City prior to commencing additional work.

Task 16 – Storm Water Pollution Prevention Program

The storm water pollution prevention program consists of performing annual comprehensive compliance inspections, employee training, and quarterly sampling and analysis of storm water discharges. For the quarterly sampling program, landfill personnel collect storm water samples at two (2) representative discharge outfalls. These samples will be transferred to SCS representatives who will package and ship the samples to a laboratory for analytical testing of total iron, total suspended solids (TSS), and when obtainable, biological and water quality parameters in accordance with the TPDES permit. SCS will annually prepare a summary report of the findings. In conjunction with the annual report, SCS will provide annual inspections and training of landfill personnel.

This proposal includes budget solely to conduct annual stormwater monitoring events as described above. Since no significant site revisions are anticipated at this time, this proposal does not include any monies for updating the Storm Water Pollution Prevention Plan (SWPPP) to incorporate any significant site revisions. Should any conditions present themselves that require additional analysis, monitoring, or corrective action, SCS will request a new Task Order from the City prior to commencing additional work.

Task 17 – Weekly Stormwater Inspections

On a weekly basis, SCS staff will inspect the site for compliance with the SWPPP (plan) and TPDES (permit). SCS personnel will inspect the facility and prepare a weekly inspection report immediately following the inspection. SCS personnel will meet with site personnel to discuss the inspection findings and any required corrective actions. A copy of the weekly report will be left at the landfill for inclusion into the Site Operating Record.

Task 18 – Safe Equipment Operator Training

On an annual basis, SCS staff will provide safe equipment operator and driver training for up to 40 students. SCS will host 4 sessions a day, with up to 10 students per session. Each student will get a 45 minute classroom training and a 30 minute session of the driving simulator. A copy of the weekly report will be left at the landfill for inclusion into the Site Operating Record. The roster of City staff completing the training sessions will be provided to the City.

Task 19 – Construction Quality Assurance of Landfill Gas System Expansion

This scope of work is for the construction quality assurance (CQA) services for the gas collection and control system (GCCS) expansion project proposed at the City of Brownsville Landfill (landfill). Our CQA services are described in detail below, but generally include review of Contractor submittals, requests-for-information, and installed quantities; observation and documentation of drilling of landfill gas (LFG) extraction wells, LFG collection piping, and condensate management components; and preparation of a construction documentation report.

Our proposal has been separated into the following subtasks:

- Subtask 1 – Field CQA Services;
- Subtask 2 – Construction-Phase Engineering Services; and
- Subtask 3 – Construction Documentation Report.

Our CQA team will be supervised by a Professional Engineer licensed in the State of Texas, and will certify upon completion that the GCCS expansion has been installed in accordance with the Bid Documents and nationally recognized industry standards.

Subtask 1 – Field CQA Services

This task includes field CQA services during the project. During construction, SCS will provide a qualified CQA technician to be onsite daily to observe and document construction, and to verify conformance with the construction plans and specifications.

The CQA technician's responsibilities during drilling and completion of extraction wells will include the following:

1. Document and observe well construction for conformance to the approved construction plans and specifications.
2. Document and observe the waste composition, temperature, and decomposition level of waste removed from the wellbore. This information will be documented on well boring logs.
3. Document and observe that proper well depths, pipe types, backfill, backfill procedures, and well pipe lengths are consistent with the construction plans and specifications. This information will be documented on well installation records.
4. SCS' CQA technician will have the capability to confirm well locations and elevations using GPS survey equipment.

The CQA technician's responsibilities during the remainder of the project will include the documentation and observation of the following for conformance with the construction plans and specifications:

1. Materials, layout and installation of pipe, fittings, and valves associated LFG collection system and condensate management system, including air supply, condensate forcemain, condensate sumps, and LFG collection header/lateral piping.
2. Review, observe, and document pneumatic pipe pressure testing.
3. The CQA technician will perform record location and elevation surveys of installed pipe, fittings, and valves and verify proper slopes and depths of piping prior to burial consistent with the construction plans and specifications. This work will be completed with GPS survey equipment. The survey equipment and CQA Technician will be capable of inversing slopes in the field to provide immediate verification of slopes to the Contractor. The survey equipment will be available for use on-site during all times that construction activities are ongoing.

If field conditions require an adjustment to the well locations, piping or other materials, the Certifying Engineer will confirm what adjustments are needed, and coordinate accordingly with City and CQA Technician(s). During construction, the Certifying Engineer or qualified representative will review and approve collected survey data on a weekly basis. Additionally, during construction the CQA Technician will prepare daily activity reports documenting conformance with the construction plans and specifications, which will be incorporated into the construction documentation report (see Subtask 3).

Subtask 2 – Construction-Phase Engineering Services

This task includes the supervision, project management, and construction-phase engineering services by the Design/Certifying Engineer or representative thereof during the entire construction duration. This individual will make visits to the site to be familiar with the work and to review the gathered documentation of construction. The Design/Certifying Engineer or qualified representative thereof will perform the construction-phase engineering services, which will include the following services:

- Telephone calls among the City, Contractor, and/or CQA technician to answer questions and resolve issues.
- Review and respond to all Contractor submittals, requests-for-information and clarifications of construction plans and specifications.
- Preparation of well boring logs and well completion records based on documented installation of LFG extraction wells.
- Review and evaluate record survey data on a weekly basis.
- Maintain files for correspondence, photographs, requests-for-information or clarifications, and other construction project related documentation.
- Our fee estimate for this task assumes that up to 6 hours/week for the Design/Certifying Engineer or qualified representative thereof will be sufficient over the assumed project duration to complete the construction-phase engineering services.

In addition to the above construction-phase engineering services, the design/Certifying Engineer or qualified representative will participate in project meetings by conference call, as needed, and attend up to six (6) onsite inspections/meetings during the project.

Subtask 3 – Construction Documentation Report

This task will include the preparation of a construction documentation report. This report will include record drawings and surveys; including surveying of extraction wells, piping at 50-foot intervals or less for pipe inflections, fittings, and valves, and other infrastructure installed during the course of the project. The construction report will include a project overview, record survey, results of field testing, LFG extraction well boring logs and installation records, daily reports, and photographs taken during construction. The narrative portion of the report will list project participants, construction milestone dates, and provide a description of issues encountered during construction or areas that may warrant attention in the future.

A draft (electronic PDF format) of the construction report will be provided to the City within four (4) weeks of field work completion for review. Up to three (3) final hard copies for the site's records will be submitted within two (2) weeks after receiving comments. The final report will have any edits per comments from the City addressed, and will be sealed by a professional engineer registered in the State of Texas.

Task 20 – Spray-On Alternative Daily Cover

SCS sub-contractors will apply spray-on alternative daily cover (ADC) as directed by City staff. The City will supply the ADC materials. SCS' sub-contractor will supply, operate and maintain the spray on machinery. SCS has budgeted to apply the spray-on ADC a maximum average twice-weekly basis for a maximum of 104 applications per year. SCS will apply two loads of ADC per event. The ADC will be applied to the areas of the landfill as directed by City staff. SCS will only apply ADC at the direction of City staff.

This task will be billed on a per event basis for 2 loads of ADC per event.

Task 21 – Miscellaneous and Contingency Projects

With this proposal, SCS intends to provide unspecified engineering and consulting services. This task provides for funding of unforeseen activities that may be required by the TCEQ to comply with landfill regulations and for other miscellaneous activities that may be requested by the City of Brownsville during the contract period. Miscellaneous activities may include: verification re-testing and/or assessment monitoring relating to the groundwater monitoring program; verification re-testing for other monitoring programs including methane and leachate; tire fire investigation; methane investigations; TCEQ spot inspections and other tasks requested by City staff that are not covered by other tasks in this proposal. As additional services are determined necessary by the City, a determination will be made by City staff whether to seek an additional proposal and task authorization or to approve work under this task.

The work associated with this task will be at the direct request by City staff and will be billed on a labor fee plus expense basis. This work is conducted each year of the task order as authorized and directed by the City.

SCS will conduct no work on this task without the explicit direction from the City of Brownsville.

This task includes no specific scope of services except to provide additional engineering services as directed by the City. The cost estimate associated with this task is solely for authorization purposes only. Cost for this task will be on a time and expenses basis. Additional fee may be authorized by the City by change order should the initial budget be consumed.

Task 22 – Surveying

SCS will manage, direct, and conduct land surveying for permit, design, bidding, operations and construction purposes at the landfill, as authorized by the City of Brownsville. With this proposal, SCS intends to provide unspecified surveying services in conjunction with a local firm with experience and expertise at the landfill and is licensed to practice land surveying in the state of Texas. As surveying services are determined necessary by the City, a determination will be made by City staff as to either contract directly between the City and the surveyor or authorize SCS to contract and conduct the surveying.

SCS will conduct no surveying without the explicit direction from the City of Brownsville.

This task includes no specific scope of services except to provide land surveying services as directed by the City. The fee estimate associated with this task is solely for authorization purposes only. Fee for this task will be on a time and expenses basis. Additional fee may be authorized by the City by change order should the initial budget be consumed.

The task is necessary to carry out mandated source testing on the City Landfill's open gas flare to be performed in the second half of 2021, and submitted by December 2021 with the first NSPS semi-annual report.

Task 12 - Tipping Fee Study and Financial Analysis *(five-year annual budget)*
SCS will perform an annual assessment on the adequacy of the current landfill tipping fees to cover service costs and potential rate adjustment to support the development a 10-year "business plan" for the City. The data collected will complement the City's overall Solid Waste Plan.

Task 18 - Safe Equipment Operator Training *(five-year annual budget)*
The training will address safety and industry best practices to perform landfill operations and maintenance more efficiently. Specialized training and education is expected to translate into improved safety awareness, savings on equipment maintenance costs and efficiency of operations, as well as increase the staff motivation.

Task 19 - Construction Quality Assurance of Landfill Gas System Expansion *(FY21 one-year annual budget)*
SCS will perform construction quality assurance on the planned construction of the GCCS expansion scheduled for completion by March 2021 as per TCEQ regulation.

Task 20 - Alternate Daily Cover *(five-year annual budget)*
SCS will offer assistance with proper spray-on application of alternate daily cover on an as needed basis. An analysis conducted on the standard 6" daily cover operation shows that it costs the City $8,800/day. The expenses include airspace, clean soil material, and excavation/hauling. Having this type of service available at the City's disposal translates into landfill operational cost savings and a reduction in resources used. However, more importantly it helps in keeping the City in compliance with TCEQ regulations and Site Permit requirements during wet-weather days when covering the working face(s) with soil is nearly an impossible feat.

CONCLUSION
The term of the Master Consulting Agreement may be extended automatically by the terms and conditions (Sec. 3.A.2) of the Master Consulting Agreement for a period of five years upon the same terms and conditions as herein set forth. Therefore, the City of Brownsville Engineering and Public Works Department recommends the extension of the agreement in order for the City to continue to receive excellent service from SCS at the City Landfill for the next five years.

Funding will be derived from Landfill Fund 66 - Special Projects/Professional Services.

Date:	July 7, 2020
SUBJECT:	**Master Consulting Agreement Renewal for Engineering Services at Brownsville Municipal Solid Waste Landfill #LES-63-0703**

RECOMMENDATION:
The Engineering & Public Works Department is recommending approval to renew the City Landfill Engineering Services with Stearns, Conrad and Schmidt Consulting Engineers, Inc. dba SCS Engineers (SCS) of Houston, TX for an additional five (5) year term with a retainer fee in the amount of $4,055,060. Upon approval, Task Order Authorization No. 2020-1 will exercise the second of three extension periods as per terms and conditions of Section 3.A.2 of the Master Consulting Agreement.

BACKGROUND:
The Texas Commission on Environmental Quality (TCEQ) requires all solid waste facilities to use specially trained scientists and engineers to maintain and ensure environmental compliance with regulations. To ensure quality and accountability, a Certified Professional Engineer and City Management or Authorized Representative is required to sign off on any site permit applications and support documentation for the landfill. Permit applications, facility environmental programs and other work requiring comprehensive knowledge of State and Federal regulations, which keeps the City landfill in compliance, avoids penalties and increases efficiency. SCS has been providing the technical services associated with the City's solid waste disposal facilities in accordance through a Master Consulting Agreement (hereinafter "Agreement") with the City of Brownsville since April 2011. The current term extension for landfill engineering retainer services ends on September 30, 2020.

The engineering staff at SCS has over 20 years of experience working with the City Landfill and City staff. During this time, their staff has assisted the City with numerous projects and tasks, which include the following:

- Expanding the life of the landfill in 2000. Under the old permit, the landfill would now be filled to capacity, and the City would be paying landfill closure costs and forced to find other alternatives for the disposal of solid waste generated by the community. As of this writing, the City landfill has disposal capacity through the year 2070. In effect, a significant financial gain was realized for the City and helped reduce the costs to operate the landfill.

- Assisting the City with permitting the compost program to take advantage of the TCEQ fee compost rebate program. Enrolling in this program saves the City an average of $40,000 annually in solid waste fees. Having a compost facility also saves the City 20,000 cubic yards of landfill airspace annually, which adds one month of facility life expectancy each year.

- Assisting the City with registering a tire storage and processing facility that has allowed the City to be proactive in dealing with the ongoing issue proper management of used/scrap tires. The City now serves as the primary facility for receiving scrap/used tires during regional tire cleanup events.

- Assisting with TCEQ approving site permit modifications for five (5) different alternate daily cover methods which has resulted in significant savings in operational costs and cover soil resources.

- Assisting the City with oversight of several construction projects, all of which were successfully completed at or under budget; notable projects include Methane Gas Remediation and Scalehouse relocation in 2012, Sediment/Erosion Control in 2014, and Disposal Cell #3 in 2009 and #4 in 2019.

- Assisting the City with applying for an Energy Efficiency and Conservation Block Grant (EECBG) from the American Recovery and Reinvestment Act of 2009 (ARRA). As a result of this collaboration, the City was awarded a $1,659,200 grant to install a landfill gas collection system at the Landfill. With the operation of the landfill gas collection system, the City reduces their greenhouse gas emissions and is eligible for possible revenue from the carbon credit market; SCS has now completed the TCEQ approved design and construction plan for the required expansion of the Landfill Gas System which needs to be functional by March 2021.

- Developing a compliance management program that has resulted in excellent inspections by the TCEQ for sixteen consecutive years with no Notices of Violation/Enforcement and $0 dollars in administrative penalties. They have been key component in the establishment of a positive and trustful relationship with regulators.

The City has also been working closely with SCS staff on marketing and financial figures to analyze the feasibility of incorporating innovative programs in the solid waste industry that will generate both additional revenue and cost savings for the City.

FINANCIAL IMPACT

The proposal for **Task Order Authorization No. 2020-1** lists the scope of services and estimated costs associated with extending the provision of engineering and environmental services through 2015. Projected costs for the five-year term totals $4,055,060 which will cover twenty-two (22) total tasks. This represents a 4% increase from the previous 2015-2020 retainer.

For 2020-2025, there are some new task orders being proposed to the Master Consulting Agreement portion of the contract. The purposes stem from new State and Federal requirement, implementing improved planning strategies, and others with the intent of reaching long-term, cost-savings goals for the City.

The following is offers an explanation on the newly proposed tasks:

Task 8 - Gas Collection & Control Plan *(FY21 one-year annual budget)*

The task will satisfy City Landfill's requirements under 40 CFR 63, Subpart AAAA which was finalized in March 2020.

Task 9 - NSPS Reporting *(five-year annual budget)*

The task is necessary to fulfill the Full New Source Performance Standard (NSPS) control requirements for the City Landfill beginning in June 2021.

Task 10 - NSPS Initial Source Test *(FY21 one-year annual budget)*

The task is necessary to carry out mandated source testing on the City Landfill's open gas flare to be performed in the second half of 2021, and submitted by December 2021 with the first NSPS semi-annual report.

Task 12 - Tipping Fee Study and Financial Analysis *(five-year annual budget)*

SCS will perform an annual assessment on the adequacy of the current landfill tipping fees to cover service costs and potential rate adjustment to support the development a 10-year "business plan" for the City. The data collected will complement the City's overall Solid Waste Plan.

Task 18 - Safe Equipment Operator Training *(five-year annual budget)*

The training will address safety and industry best practices to perform landfill operations and maintenance more efficiently. Specialized training and education is expected to translate into improved safety awareness, savings on equipment maintenance costs and efficiency of operations, as well as increase the staff motivation.

Task 19 - Construction Quality Assurance of Landfill Gas System Expansion *(FY21 one-year annual budget)*

SCS will perform construction quality assurance on the planned construction of the GCCS expansion scheduled for completion by March 2021 as per TCEQ regulation.

Task 20 - Alternate Daily Cover *(five-year annual budget)*

SCS will offer assistance with proper spray-on application of alternate daily cover on an as needed basis. An analysis conducted on the standard 6" daily cover operation shows that it costs the City $8,800/day. The expenses include airspace, clean soil material, and excavation/hauling. However, more importantly it helps in keeping the City in compliance with TCEQ regulations and Site Permit requirements during wet-weather days when covering the working face(s) with soil is nearly an impossible feat.

CONCLUSION

The term of the Master Consulting Agreement may be extended automatically by the terms and conditions (Sec. 3.A.2) of the Master Consulting Agreement for a period of five years upon the same terms and conditions as herein set forth.

Therefore, the City of Brownsville Engineering and Public Works Department recommends the extension of the agreement in order for the City to continue to receive excellent service from SCS at the City Landfill for the next five years.

IV. The non-appropriation of funds did not result from any act or failure to act on the part of the CLIENT,

Then the CLIENT shall have the right to cancel the Agreement by a written notice to SCS no earlier than thirty (30) days prior to the end of the Client fiscal year. However, if the terms of this clause causes cancellation of the Agreement, the services as described in the Agreement shall not be performed by any other entity not associated with SCS.

Except to the extent it may invalidate or prejudice any insurance coverage of either party, (i) all disputes between parties arising out of or related to this AGREEMENT shall be decided by non-binding alternate dispute resolution procedures as mutually agreed, and (ii) in the absence of such agreement, disputes shall be decided by non-binding arbitration in accordance with the existing Commercial Arbitration Rules of the American Arbitration Association.

B. Written notice of demand for arbitration must be given to the other party and to the American Arbitration Association within reasonable time after the dispute has arisen, and in no event after the date when the institution of court proceedings based on such dispute would be barred by the applicable statute of limitations.

C. The arbitration hearings shall be held in the appropriate jurisdiction in the State of Texas. Costs of arbitration shall be apportioned between the parties as the arbitrator(s) may decide, consistent with the parties' intent that the non-prevailing party should bear said costs and attorney's fees.

B. SCS shall provide a Safety & Health Plan for its employees covering any exposure to hazardous materials (as defined in RCRA, 40 CFR, Part 261) and shall complete all work in accordance with that plan.

In addition to general safety and health guidelines, SCS will provide a site-specific Safety and Health Plan, if necessary.

21. OWNERSHIP AND MAINTENANCE OF DOCUMENTATION:

All materials resulting from SCS's work on this project, including documents, calculations, maps, photographs, drawing, computer printouts, notes, samples, specimens and any other pertinent data, are instruments of SCS's services, but unless otherwise specified in Paragraph 2 shall be owned by CLIENT. SCS shall have the right to retain and use copies or duplicates of all materials and shall not be required to treat such copies or duplicates as confidential information or trade secrets.

SCS must, and must ensure that its sub-contractors and its personnel, keep secret and confidential and not (unless compelled by law) disclose to any third party any information, data, specification, drawings, reports or other documents supplied by CLIENT to SCS or brought into existence by SCS in the performance of the Services and which is not in the public domain. SCS must take or cause to be taken such reasonable precautions as may be necessary to maintain secrecy and confidentiality.

SCS must not advertise, publish or release information to the public concerning this Agreement, the Services or the operations of CLIENT without prior written consent of CLIENT.

Copyright and other intellectual property rights in materials created or processes invented by the Contractor in performing the Services will belong to CLIENT.

Re: Proposal to Provide Engineering and Compliance Services for the City of Brownsville Landfill for the Five-Year Period October 1, 2020 through September 30, 2025
Task Order Authorization No. 2020 - 1

Dear Mr. Perez:

Per your request, SCS Engineers is pleased to submit this proposal for additional services to the City of Brownsville to provide engineering and compliance services to include training, design, preparation of plans, specifications, permit modifications, compliance assistance, environmental monitoring, and aerial and land surveying for the City of Brownsville Landfill.

INTRODUCTION

As you know, over the last several years through the City-SCS partnership, we have been able to develop creative ways to improve the landfill's long term viability, operations, regulatory compliance, and financial returns. For example, our team:

- Prepared a landfill expansion permit amendment that extended the life of the landfill from having to close in the year 2007 to closing in the year 2069;
- Helped landfill operations improve the landfill compaction rate of 1,140 pounds per cubic yard in 2009 to 1,987 pounds per cubic yard in 2019, an efficiency increase of over 70 percent;
- Obtained a U S Energy Efficiency and Conservation Block Grant of $1,659,200 to reduce fossil fuel emissions, reduce total energy use, improve energy efficiency in all sectors, and to spur economic growth and create or retain jobs;
- Maintained compliance with appropriate federal, state, and local requirements including over 10 years of TCEQ inspections with zero violations.

We feel that understanding your overall solid waste system (or operations) and long-term plans enables us to be better engineers and consultants for the City. The SCS staff that will serve you in the coming years is the same as in the past 20 years. We are very familiar with the landfill and the challenges you face. As we've demonstrated over the years, we treat your asset as if it were our own, through the decisions and recommendations we make.

Our goal is not only to provide the technical services you need, but to always improve on our client service. We know the City has new staff that will be engaged in the work in the coming years. To ensure our working relationship continues to be smooth and productive, we suggest having initial and periodic meetings with your staff to gain an understanding of how you and they would like us to interact. For example, how often and through what media would you like us to communicate; what decisions you

would like to be involved in; format of deliverables, invoices, and other things that affect our day-to-day working relationship. We also understand that priorities often change; therefore, we will periodically revisit these topics to ensure we remain in lock step with you.

Lastly, we have recently employed a client feedback tool to obtain your feedback on a formal, routine basis. Based on the frequency you select, we will send a request for feedback that takes only 1 to 2 minutes to complete. This form of frequent communications and check-ins has proven to be extremely valuable in our ability to adjust to client needs and preferences.

This proposal represents a continuation of services contemplated in contract LES-63-0703 under Article 3A2 of the Master Consulting Agreement (MSA), and based on mutual written acknowledgement to renew the contract in a letter dated April 9, 2020 initiated by the City. In accordance with Sections 2 and 2A of the MSA between SCS Engineers and the City of Brownsville, this proposal serves as an amendment to the MSA. This proposal, called Task Order Authorization No. 2020 - 1, allows SCS to provide engineering and environmental services to the City of Brownsville Landfill and to address additional permit and compliance issues with changing Texas Commission on Environmental Quality (TCEQ) and the USEPA regulations.

We look forward to assisting the City with the management of your critical asset, including implementation of the current and new TCEQ and EPA requirements and developing the landfill in a cost-efficient manner. To this end, SCS offers the following Scope of Services.

SCOPE OF SERVICES

Task Order Authorization Number 2020 - 1 is divided into individual tasks for project management purposes. Details on the specific tasks are provided in this Scope of Services, Schedule, and Fees.

Task 1 – Project Management and Project Meetings

This task includes the management of the project, budgets, preparation of project status memoranda and invoices, and participation at regular scheduled meetings with City staff. Activities may include day-to-day and weekly communications as well as monthly progress reports for all project tasks throughout the duration of the project. This task includes one project meeting per year with the City staff and SCS's project engineer and manager.

Task 2 – Conduct Site Operating Procedures Training, Annual Compliance Review, Annual Financial Assurance Assistance, Special Waste Authorization Assistance, and Annual SPCC Plan Assistance

In accordance with the requirements of the City of Brownsville's landfill permit, SCS staff will provide annual training to all site personnel and management on the requirements of the following:

- Site Operating Plan (SOP)
- Prohibited waste
- Emergency response procedures, including fire and explosion
- Use of emergency equipment, communications or alarm systems
- Response to environmental contamination incidents
- Shutdown of operations

- Endangered species
- Hazardous waste identification
- Safety
- Fire protection
- Load inspection
- Prohibited waste
- SPCC
- Emergency response
- Litter control
- Random inspection
- Leachate system maintenance

SCS staff will visit with site personnel to assess the current operating practices and then will train the personnel in methods of incorporating the new procedures with the current practices. Training will be given in four (4) personnel categories as described in the SOP. These categories are Laborers, Gate/Scale Attendants, Equipment Operators, and Landfill Manager. SCS will schedule monthly visits over the course of each year to conduct the training. SCS will coordinate training sessions with City staff.

SCS will conduct annual compliance reviews of the facility. This compliance review will typically occur approximately 2 months prior to the landfill's anticipated TCEQ inspection. SCS will document the findings of the review with City staff and recommended corrective actions. Additionally, SCS and subcontract staff will attend the annual TCEQ inspection with City staff.

SCS will conduct reviews of special waste requests and assist the City in evaluating and processing the special waste request. This will be performed on an as needed basis. City staff will forward special waste requests to SCS. SCS will review the special waste paperwork for compliance with current permit and TCEQ requirements and will prepare a written evaluation on the data submitted and additional requirements.

SCS will provide the City with assistance in updating the financial assurance per the permit requirements and provide annual assistance for communicating with the TCEQ.

SCS will annually review the Landfill's Spill Prevention Control and Countermeasures (SPCC) Plan and update the plan accordingly.

Task 3 – Landfill and Compost Operations Assistance

SCS will provide assistance with the operations of the landfill and compost facility.

SCS will provide project staff to visit the landfill facility weekly. SCS staff will inspect the overall layout of the landfill and recommend any operation, construction or maintenance changes that are required as part of the permit or by good operating practices. SCS staff will meet with City staff to discuss the results of the inspections and any other ongoing operational issues.

SCS will provide project staff to visit the compost facility weekly. SCS staff will inspect the overall layout of the facility and recommend any construction or maintenance issues that are required as part of the permit. SCS staff will inspect the layout of the feed materials, process materials and final

compost materials to determine if they are being stored appropriately, including size and location of piles. SCS will review the operating processes of the facility, the grinding process, the feed mixture (nitrogen ratio of 25:1 to 30:1), the windrow turning, the screening of the compost, and the storage and final processing of the finished material. Additionally, SCS will assist with the temperature and tracking of the windrows to assure that the compost material has been held over 140° F for at least 15 days and turned every 3 days during this process.

SCS staff will review the compost program records including:

- Incoming feedstocks,
- Outgoing compost,
- Volume of finished product,
- Volume beneficially reused,
- Documentation of the expenses to operate the facility, including:
  - Labor,
  - Equipment, and
  - Fuel and other supplies.

SCS will assist the City staff with preparing TCEQ required reports including Incoming Feedstock and Outgoing Compost, documentation of expenses and other forms or reports that might be required by the TCEQ. By fining these reports, SCS will assist the City in qualifying for a refund of up to 15% of the solid waste fees, consistent with TCEQ rule §30 TAC 330.677.

SCS staff will be available to assist the City with any TCEQ audits of the compost facility.

Task 4 – Landfill Gas Flare Opacity Inspections

SCS will conduct daily opacity inspections of the landfill gas flare. SCS staff will document the opacity of the flare in accordance with the facility's TCEQ air permit. The inspection reports will be provided to the facility for inclusion in the landfill's Site Operating Record.

Task 5 – Semi-Annual Air Permit Audit (Compliance Report) and Title V Reporting

SCS will conduct two compliance audits per year in accordance with the provisions of the landfill's Title V permit, Standard Permit, and pertinent Federal Regulations (such as the New Source Performance Standards (NSPS) for Municipal Solid Waste Landfills). SCS personnel will visit the site twice a year to evaluate the compliance status of the landfill and to help assure the City that compliance with respect to appropriate air regulations and requirements is maintained. SCS will meet with the City staff during this visit to discuss the preliminary findings and discuss possible recommendations. Upon the City's authorization of the audit report, SCS will provide copies for the City's files. These reports will coincide with the landfill's Title V reporting events so that, upon completion of the audit, the City's Responsible Official will have more information on which to base a compliance determination. SCS has budgeted two meetings a year at the site with the City to discuss the final audit findings and the report.

As mentioned above, this task also includes the semi-annual preparation of the landfill's Title V semi-annual deviation reports and annual certification reports to the TCEQ. These reports are required so

that the City's Responsible Official can certify that compliance with air-related requirements was maintained.

SCS will schedule the audits to coincide with the Title V reporting so that compliance can be discussed with the Responsible Official prior to filing these reports.

Task 6 –Air Permit Renewals and Revisions

This task covers two known permitting actions that will be needed during the contract period.

The first will be updating the Title V permit for the new rules under 40 CFR 63, Subpart AAAA that were recently finalized. This will remove the landfill from 40 CFR 60, Subpart WWW requirements and bring this new rule's requirements into the permit, as required. This permit revision will be processed concurrently with the GCCS Design Plan that's included as another task in late 2020. It will consist of a cover letter narrative and appropriate TCEQ forms. A draft will be prepare for City review and signature. Upon receipt of comments and the executed certification page, SCS will submit the revision on the City's behalf, and answer any TCEQ questions that come up during their review.

For the second permitting action, the Title V General Operating Permit (GOP) No. 517 which requires renewal every five years, will require a renewal in 2025. Per 30 TAC § 122.133(4), in order for an application for GOP renewal to be considered "timely" it must be submitted between 6 and 18 months before the existing GOP's expiration date.

SCS will prepare the certification document to renew the GOP. This certification document will contain a narrative discussion supporting the renewal as well as the GOP checklist and appropriate unit attribute checklists for the emissions sources that are subject to regulatory requirements. SCS should not require any information from the City to complete this work since we perform all other air compliance functions and are aware of on-site sources. Renewals for GOP permits do not require fees and, as such, no permitting fees are included in this proposal.

Upon completion of a draft renewal application, SCS will transmit a draft to the City for review, comment, and Responsible Official signature. Upon receipt of comments, SCS will prepare final copies for submittal to the proper regulatory agencies and the City.

Task 7 – Annual Greenhouse Gas, Emissions Fee, and Emissions Inventory

SCS will perform annual Greenhouse Gas (GHG) reporting, Emissions Inventory (EI) reporting, and Emissions Fee reporting. GHG and EI reporting are due on or around March 31st each year, with Emission Fee reporting due by June 1st each year.

SCS will collect the information necessary to estimate emissions for GHG and EI reporting. We will have most, if not all of this information from other work we do for the City. Once we have the necessary information, we will prepare emissions calculations conforming to the GHG and EI reporting requirements along with other information regarding the landfill required by EPA and TCEQ. Based upon SCS's familiarity with the City's facility and permit, and since site visits will be made in association with the annual air audits, no site visits are included in this task.

Once SCS has prepared the appropriate emissions calculations, we will work to enter them into the required online reporting portals (eGGRT for GHG reporting and STEERS for EI reporting). We will contact the City for a final review once the online entry has been completed. Ultimately, the City will be contacted to certify the EI results to TCEQ through STEERS, however, SCS can submit the GHG reporting results as the City's agent. As a final deliverable for the GHG and EI reporting, SCS will provide the City with a memorandum annually, summarizing pertinent details of the reporting for the landfill's files.

Regarding the Emission Fee reporting, this is a follow-up to the State of Texas EI. In April of each year, TCEQ will send out an emissions fee remittance form. SCS will fill out this form on behalf of the City utilizing EI values that were submitted by the prior March 31st. We will also remit this form to TCEQ on the City's behalf after the City's review period. The City will be invoiced separately by October 31st each yeah with payment due by November 30th. Our fee assumes that the City will pay these fees separately from SCS' work.

Task 8 – GCCS Design Plan

For this work, SCS will prepare the stand-alone GCCS Design Plan to satisfy the landfill's requirements under 40 CFR 63, Subpart AAAA. This rule, which was finalized on March 26, 2020, effectively brings the newer NSPS rules into play for the landfill. As such, a new GCCS Design Plan is needed to replace the previous one, and obtain new approval for the operating flexibilities the landfill will want for the gas system.

Most, if not all, of the design content for the new GCCS Design Plan will be utilized from the existing NSPS plan that SCS completed recently for 40 CFR 60, Subpart WWW. However, the regulatory provisions and references, and the requested flexibilities will require extensive revisions.

The GCCS Design Plan itself will consist of: a written portion, GCCS design modeling, GCCS layout drawings, GCCS detail drawings, and other backup attachments. Appropriate TCEQ certification pages and checklists will also be included.

A copy of the GCCS Design Plan draft will be provided for the City's review. Upon receipt of comments and appropriate certification signature pages, final copies will be provided for submittal to TCEQ as applicable. The final GCCS Design Plan prepared under this task will be sealed by a professional engineer licensed in the State of Texas. Lastly, this proposal includes services through submitting this to TCEQ and responding to routine comments on the submittal.

Task 9 – NSPS Reporting

Full New Source Performance Standard (NSPS) control requirements for the City begin on June 10, 2021. An initial NSPS report is due thereafter within the first 180 days (by December 7, 2021), and semi-annually thereafter. This task covers preparation of these reports through the report due by no later than June 7, 2025.

Each of these reports will be combined with all Startup, Shutdown, and Malfunction (SSM) reporting. Also, the Title V reporting period (and on-site audits) will be adjusted to coincide with the NSPS reporting so that only one report will be required.

The NSPS reports will encompass all of the required content for NSPS and SSM requirements. The initial report in late 2021 will include additional start-up information and the flare source test (testing and that portion of the report is included as a separate task). For each semi-annual period, SCS will begin compiling information at the end of each six-month reporting period, and prepare a draft report for the City's review and approval. Upon receipt of any City comments and the City's signature certification, SCS will prepare the final report copies and transmit them to TCEQ with a hard copy to the City for the landfill files.

Task 10 – NSPS Initial Source Test (Flare and Gas System)

A source test on the open flare must be performed in the second half of 2021, and submitted by December 7, 2021 with the first NSPS semi-annual report. For this task, SCS will prepare a source test for the open flare in compliance with 40 CFR §60.8 and 40 CFR §60.18 operating requirements. In order to fully comply with these requirements, the following tests will be performed:

- ASTM D1946 testing of three landfill gas samples for heating value and fixed gas content (CH_4, CO_2, O_2, and N_2);
- Volumetric flow rate calculated in accordance with EPA Method 2C;
- EPA Method 1 to determine traverse sampling points; and
- EPA Method 22 to evaluate visible emissions on 20-minute intervals with 5-minute breaks for a 2-hour period.

Upon receiving a notice-to-proceed, SCS will coordinate with Advance Technology Labs (ATL), to obtain canisters for sampling and schedule the sampling, flow measurements, and opacity testing with landfill staff.

SCS will work with the City to set a date for the flare testing to provide notice to the TCEQ regional office in case they want to observe the testing (as required); a 30-day notification is required to TCEQ in case they wish to be present for the sampling. Once a date is determined for the testing, SCS will prepare and submit the notification to TCEQ on the City's behalf.

Upon receipt of all needed laboratory and field results, a draft source test demonstration will be prepared. The demonstration will be in the form of a letter with TCEQ's specified certification page for signature, along with additional backup information including the following:

- Calculations showing heating content and maximum allowable tip velocity;
- Manufacturer's data from the flare's operation manual showing, at a minimum, tip diameter and maximum allowable flow;
- Flare flow (Method 2) and gas analysis data (ASTM D1946) used in the heat content and tip velocity calculations; and
- Method 22 opacity observation results.

SCS will provide a draft submittal to the City for review and certification. This report will ultimately be included in the initial NSPS report as required by the NSPS rule.

As required by 40 CFR §60.757(g), the initial source test report requires not only the information discussed above on the flare itself, but also the following items that we will obtain from the most recent GCCS Design Plan:

- A diagram of the collection system showing collection system positioning including all wells, horizontal collectors, surface collectors, or other gas extraction devices, including the locations of any areas excluded from collection and the proposed sites for the future collection system expansion;
- The data upon which the sufficient density of wells, horizontal collectors, surface collectors, or other gas extraction devices and the gas mover equipment sizing are based;
- The documentation of the presence of asbestos or nondegradable material for each area from which collection wells have been excluded based on the presence of asbestos or nondegradable material;
- The sum of the gas generation flow rates for all areas from which collection wells have been excluded based on non-productivity and the calculations.
- The provisions for increasing gas mover equipment capacity with increased gas generation flow rate, if the present gas mover equipment is inadequate to move the maximum flow rate expected over the life of the landfill; and
- The provisions for the control of off-site migration.

As such, these items will also be addressed in the initial report as well as the flare's source testing results.

Task 11 – Annual Landfill Airspace, Development, and Budget Analysis

Once a year, SCS will perform an aerial survey of the site and conduct an airspace analysis. SCS will contract, coordinate and manage an aerial mapping subcontractor. SCS will provide the City with an electronic file of the topographic map, a 1 foot scale contour map of the facility and two aerial photos of the landfill.

SCS will evaluate the airspace consumed since the previous aerial survey and compute the compaction density obtained over the studied time period. SCS will perform this task at approximately the same time period every year.

SCS will prepare and update annually the following:

- General landfill volume, compaction, density and site life data
- Landfill development cost summary
- Annual budget summary
- Labor, equipment and expenses
- Port of Brownsville soil purchase
- Engineering and environmental monitoring
- Gas system operation and maintenance
- Sediment and erosion control remaining for life of site
- Temporary sediment and erosion control construction
- Remaining cell construction costs
- Remaining closure costs – Subtitle D Areas
- Remaining closure costs – Pre-subtitle D Areas
- Remaining gas system construction costs
- Sediment and Erosion control costs

- Post closure costs
- Next year landfill gas system budget
- Closed areas
- Projected final cover sequence for remainder of landfill
- Soil balance data
- Landfill density
- Tonnage received and airspace consumed

A landfill development report will be prepared to assist the City with annual budget plans for the landfill and long term accruals.

Task 12 – Tipping Fee Study and Financial Analysis

SCS will assess the adequacy of the current landfill tipping fees to cover the cost of providing landfill services and propose potential rate adjustments that will help the City meet your operational, capital, and financial goals over a 10-year projection period.

We will initiate the study by scheduling a kickoff meeting with the City to discuss key issues, near and long-term goals, and metrics that the City considers to be most important to landfill financial performance. At this meeting, we will also distribute our data request, discuss the items required for our analysis, and establish the platform we will use for data transfer. We will identify the key members of our team and the City staff who will be involved in the study.

SCS will review the historical and budgeted expenses, debt service schedules and coverage requirements, capital improvement and vehicle/equipment replacement plans, solid waste ordinances, and fund balances. We will also review other data provided by City staff and remain in contact with the City if we need clarification on the data prior to our first interactive work session.

This revenue sufficiency analysis (i.e.: tipping fee study) will assess the long-term financial outlook of the City's landfill operations, including a financial management plan and associated plan of tipping fee revenue adjustments. SCS will review historical budgeted and executed operating expenses, the planned capital costs and associated funding sources, existing debt service and coverage ratios, available operating, capital and debt service reserves, and any financial policies and reserve requirements dictated by policies of the City.

SCS will consider growth in the City and assess how this will affect the number of customers at the landfill and volume/usage projections. We will apply escalation factors to costs/revenues and identify any other issues or questions affecting financial performance to be discussed with the City during our first interactive meeting. Our model will utilize the above-mentioned data and assumptions to create projections of revenues, operating expenses, capital spending, and fund balances.

The results will allow SCS and City staff to develop a 10-year plan of potential annual rate adjustments that will realistically reflect the dynamics of your landfill while minimizing the impact to your customers and citizens.

Once the revenue sufficiency analysis is complete, SCS will analyze the City's costs to accept and process various types of waste brought to the landfill by your customers and discuss the basis for your

current tipping fees. We will evaluate the costs of facility operations by examining each line item in the landfill budget.

SCS will distribute workbooks to the City and work with you to allocate employee labor and vehicle/equipment usage to each of your waste types/service classes. Using this labor and vehicle/equipment allocation, input from staff, and any other data provided, we will allocate the line item budget to each waste type/service you provide. We will then compare the costs for each waste type/service to the revenues generated by each respective waste type/service. The outcome of this analysis then becomes the basis for assessing the net revenue requirement used in calculating your updated tipping fees.

SCS will perform a detailed invoice/tonnage data analysis and will develop alternate tipping fee structure recommendations. The goal is to develop tipping fees that will be easily understandable and equitably distribute the costs to accept and process various types of waste at the landfill.

SCS will conduct a survey of comparable Texas landfills to determine the City's tipping fees relative to these other landfills. Once the analysis is complete, we will provide the City with schedules containing the assumptions and projections used in developing the analysis.

If desired, SCS will attend a public meeting with the City Commission and present the findings of our analysis, screenshots of the model results, and recommendations in a PowerPoint presentation. At this meeting, the detailed models used to develop the plan of revenue adjustments and updated tipping fees will be available if the Commission has any questions regarding the data or assumptions used.

SCS proposes to prepare the above scope initially, with the revenue sufficiency and review of customer impacts updated annually for the next 4 years.

Task 13 – Annual Sediment and Erosion Control Plan

SCS will annually prepare an erosion and sediment control plan for the City's use in constructing interim erosion and sediment controls in accordance with the TCEQ regulations regarding the erosional stability during all phases of landfill operations.

These plans will include the following:

- Cover Sheet
- Existing Conditions Plan
- Erosion and Sediment Control Location Sheets (2 to 4 sheets)
- Erosion and Sediment Control Detail Sheets (up to 6 sheets)

SCS will utilize the City's current topographic survey of the landfill. SCS has not included any budget in this proposal for additional topographic survey.

SCS understands that the City may conduct most or all of the construction activities with City forces. SCS will prepare the plans to allow for the City to bid out any part or all of the construction or material supply.

SCS will prepare Technical Specifications for the construction of the erosion and sediment controls as appropriate. SCS will also prepare an engineer's estimate of the construction quantities.

On years where the City decides to bid out all or part of the work, SCS will prepare the Standard City Bid Documents and assist with the bidding of this work. Additional services for managing the construction of this work will be authorized by an additional Task Order and approved by the City.

These plans and specifications will be prepared in general accordance with the TCEQ's regulations and the City of Brownsville's latest permit, as amended or modified.

SCS will prepare up to six (6) copies of the construction drawings per year for the City's use.

Task 14 – Groundwater and Leachate Monitoring

SCS will continue the groundwater monitoring program for thirty-two (32) wells located at the site.

Each monitoring event will be performed according to the *Groundwater Sampling and Analysis Plan (GWSAP)* in the landfill permit. In addition, an annual report will be submitted to the TCEQ that will include: a description of the monitoring activities; results of analytical testing; a statement regarding whether statistically significant increases in chemical concentrations have occurred; groundwater flow rates and direction in the uppermost aquifer; a contour map of piezometric water levels; and recommendations for any changes. SCS will submit an electronic file of the testing results to the TCEQ, and statistical analyses will be performed after the August 2017 and 2019 events.

Additionally, SCS will annually take a composite sample of the site leachate. The composite samples will be obtained from each of the seven leachate sump riser pipes located throughout the facility. Samples collected from the leachate collection system will be shipped to an environmental laboratory for analytical testing. This leachate will be analyzed for the same constituents used to analyze the groundwater. Results from these analyses will be prepared for inclusion in the site's Operating Record.

This proposal includes budget solely to conduct routine groundwater monitoring events as described above. Should any conditions present themselves that require additional analysis, monitoring, or corrective action, SCS will request a new Task Order from the City prior to commencing additional work

Task 15 – Landfill Gas Monitoring

SCS will conduct quarterly landfill gas monitoring in accordance with the requirements of Part III, Attachment 14, Landfill Gas Management Plan. A pressure meter, Lower Explosive Limit meter, and groundwater interface probe will be utilized to perform the data collection at the 10 methane gas probes. In addition, methane measurements will be recorded within on-site buildings. SCS will perform equipment calibrations, collect data, and prepare methane data paperwork according to the gas management plan.

This proposal includes budget to conduct quarterly landfill gas monitoring events as described above. Should any conditions present themselves that require additional analysis, monitoring, or corrective action, SCS will request a new Task Order from the City prior to commencing additional work.

Task 16 – Storm Water Pollution Prevention Program

The storm water pollution prevention program consists of performing annual comprehensive compliance inspections, employee training, and quarterly sampling and analysis of storm water discharges. For the quarterly sampling program, landfill personnel collect storm water samples at two (2) representative discharge outfalls. These samples will be transferred to SCS representatives who will package and ship the samples to a laboratory for analytical testing of total iron, total suspended solids (TSS), and when obtainable, biological and water quality parameters in accordance with the TPDES permit. SCS will annually prepare a summary report of the findings. In conjunction with the annual report, SCS will provide annual inspections and training of landfill personnel.

This proposal includes budget solely to conduct annual stormwater monitoring events as described above. Since no significant site revisions are anticipated at this time, this proposal does not include any monies for updating the Storm Water Pollution Prevention Plan (SWPPP) to incorporate any significant site revisions. Should any conditions present themselves that require additional analysis, monitoring, or corrective action, SCS will request a new Task Order from the City prior to commencing additional work.

Task 17 – Weekly Stormwater Inspections

On a weekly basis, SCS staff will inspect the site for compliance with the SWPPP (plan) and TPDES (permit). SCS personnel will inspect the facility and prepare a weekly inspection report immediately following the inspection. SCS personnel will meet with site personnel to discuss the inspection findings and any required corrective actions. A copy of the weekly report will be left at the landfill for inclusion into the Site Operating Record.

Task 18 – Safe Equipment Operator Training

On an annual basis, SCS staff will provide safe equipment operator and driver training for up to 40 students. SCS will host 4 sessions a day, with up to 10 students per session. Each student will get a 45 minute classroom training and a 30 minute session of the driving simulator. A copy of the weekly report will be left at the landfill for inclusion into the Site Operating Record. The roster of City staff completing the training sessions will be provided to the City.

Task 19 – Construction Quality Assurance of Landfill Gas System Expansion

This scope of work is for the construction quality assurance (CQA) services for the gas collection and control system (GCCS) expansion project proposed at the City of Brownsville Landfill (landfill). Our CQA services are described in detail below, but generally include review of Contractor submittals, requests-for-information, and installed quantities; observation and documentation of drilling of landfill gas (LFG) extraction wells, LFG collection piping, and condensate management components; and preparation of a construction documentation report.

Our proposal has been separated into the following subtasks:

- Subtask 1 – Field CQA Services;
- Subtask 2 – Construction-Phase Engineering Services; and
- Subtask 3 – Construction Documentation Report.

Our CQA team will be supervised by a Professional Engineer licensed in the State of Texas, and will certify upon completion that the GCCS expansion has been installed in accordance with the Bid Documents and nationally recognized industry standards.

Subtask 1 – Field CQA Services

This task includes field CQA services during the project. During construction, SCS will provide a qualified CQA technician to be onsite daily to observe and document construction, and to verify conformance with the construction plans and specifications.

The CQA technician's responsibilities during drilling and completion of extraction wells will include the following:

1. Document and observe well construction for conformance to the approved construction plans and specifications.
2. Document and observe the waste composition, temperature, and decomposition level of waste removed from the wellbore. This information will be documented on well boring logs.
3. Document and observe that proper well depths, pipe types, backfill, backfill procedures, and well pipe lengths are consistent with the construction plans and specifications. This information will be documented on well installation records.
4. SCS' CQA technician will have the capability to confirm well locations and elevations using GPS survey equipment.

The CQA technician's responsibilities during the remainder of the project will include the documentation and observation of the following for conformance with the construction plans and specifications:

1. Materials, layout and installation of pipe, fittings, and valves associated LFG collection system and condensate management system, including air supply, condensate forcemain, condensate sumps, and LFG collection header/lateral piping.
2. Review, observe, and document pneumatic pipe pressure testing.
3. The CQA technician will perform record location and elevation surveys of installed pipe, fittings, and valves and verify proper slopes and depths of piping prior to burial consistent with the construction plans and specifications. This work will be completed with GPS survey equipment. The survey equipment and CQA Technician will be capable of inversing slopes in the field to provide immediate verification of slopes to the Contractor. The survey equipment will be available for use on-site during all times that construction activities are ongoing.

If field conditions require an adjustment to the well locations, piping or other materials, the Certifying Engineer will confirm what adjustments are needed, and coordinate accordingly with City and CQA Technician(s). During construction, the Certifying Engineer or qualified representative will review and approve collected survey data on a weekly basis. Additionally, during construction the CQA Technician will prepare daily activity reports documenting conformance with the construction plans and specifications, which will be incorporated into the construction documentation report (see Subtask 3).

Subtask 2 – Construction-Phase Engineering Services

This task includes the supervision, project management, and construction-phase engineering services by the Design/Certifying Engineer or representative thereof during the entire construction duration. This individual will make visits to the site to be familiar with the work and to review the gathered documentation of construction. The Design/Certifying Engineer or qualified representative thereof will perform the construction-phase engineering services, which will include the following services:

- Telephone calls among the City, Contractor, and/or CQA technician to answer questions and resolve issues.
- Review and respond to all Contractor submittals, requests-for-information and clarifications of construction plans and specifications.
- Preparation of well boring logs and well completion records based on documented installation of LFG extraction wells.
- Review and evaluate record survey data on a weekly basis.
- Maintain files for correspondence, photographs, requests-for-information or clarifications, and other construction project related documentation.
- Our fee estimate for this task assumes that up to 6 hours/week for the Design/Certifying Engineer or qualified representative thereof will be sufficient over the assumed project duration to complete the construction-phase engineering services.

In addition to the above construction-phase engineering services, the design/Certifying Engineer or qualified representative will participate in project meetings by conference call, as needed, and attend up to six (6) onsite inspections/meetings during the project.

Subtask 3 – Construction Documentation Report

This task will include the preparation of a construction documentation report. This report will include record drawings and surveys; including surveying of extraction wells, piping at 50-foot intervals or less for pipe inflections, fittings, and valves, and other infrastructure installed during the course of the project. The construction report will include a project overview, record survey, results of field testing, LFG extraction well boring logs and installation records, daily reports, and photographs taken during construction. The narrative portion of the report will list project participants, construction milestone dates, and provide a description of issues encountered during construction or areas that may warrant attention in the future.

A draft (electronic PDF format) of the construction report will be provided to the City within four (4) weeks of field work completion for review. Up to three (3) final hard copies for the site's records will be submitted within two (2) weeks after receiving comments. The final report will have any edits per comments from the City addressed, and will be sealed by a professional engineer registered in the State of Texas.

Task 20 – Spray-On Alternative Daily Cover

SCS sub-contractors will apply spray-on alternative daily cover (ADC) as directed by City staff. The City will supply the ADC materials. SCS' sub-contractor will supply, operate and maintain the spray on machinery. SCS has budgeted to apply the spray-on ADC a maximum average twice-weekly basis for a maximum of 104 applications per year. SCS will apply two loads of ADC per event. The ADC will be applied to the areas of the landfill as directed by City staff. SCS will only apply ADC at the direction of City staff.

This task will be billed on a per event basis for 2 loads of ADC per event.

Task 21 – Miscellaneous and Contingency Projects

With this proposal, SCS intends to provide unspecified engineering and consulting services. This task provides for funding of unforeseen activities that may be required by the TCEQ to comply with landfill regulations and for other miscellaneous activities that may be requested by the City of Brownsville during the contract period. Miscellaneous activities may include: verification re-testing and/or assessment monitoring relating to the groundwater monitoring program; verification re-testing for other monitoring programs including methane and leachate; tire fire investigation; methane investigations; TCEQ spot inspections and other tasks requested by City staff that are not covered by other tasks in this proposal. As additional services are determined necessary by the City, a determination will be made by City staff whether to seek an additional proposal and task authorization or to approve work under this task.

The work associated with this task will be at the direct request by City staff and will be billed on a labor fee plus expense basis. This work is conducted each year of the task order as authorized and directed by the City.

SCS will conduct no work on this task without the explicit direction from the City of Brownsville.

This task includes no specific scope of services except to provide additional engineering services as directed by the City. The cost estimate associated with this task is solely for authorization purposes only. Cost for this task will be on a time and expenses basis. Additional fee may be authorized by the City by change order should the initial budget be consumed.

Task 22 – Surveying

SCS will manage, direct, and conduct land surveying for permit, design, bidding, operations and construction purposes at the landfill, as authorized by the City of Brownsville. With this proposal, SCS intends to provide unspecified surveying services in conjunction with a local firm with experience and expertise at the landfill and is licensed to practice land surveying in the state of Texas. As surveying services are determined necessary by the City, a determination will be made by City staff as to either contract directly between the City and the surveyor or authorize SCS to contract and conduct the surveying.

SCS will conduct no surveying without the explicit direction from the City of Brownsville.

This task includes no specific scope of services except to provide land surveying services as directed by the City. The fee estimate associated with this task is solely for authorization purposes only. Fee for this task will be on a time and expenses basis. Additional fee may be authorized by the City by change order should the initial budget be consumed.

Mr. Jose Maldonado
Landfill & Storm Water Manager
City of Brownsville Landfill

Brownsville, 78521

Subject: Proposal for the Replacement of Landfill Gas Lateral Piping, Variable Frequency Drive, and Additional Non-Routine Services at the City of Brownsville Landfill.

Dear Mr. Maldonado:

SCS Field Services (SCS-FS) is pleased to submit this proposal for the above referenced project and appreciates the opportunity to be of service to the City of Brownsville Landfill (Site).

SCOPE OF WORK

The Scope of Work is based on the routine maintenance that is performed monthly at the Site. SCS-FS will provide all labor, equipment, and materials needed to perform the existing landfill gas (LFG) lateral and variable frequency drive (VFD) replacement. Due to the depths of the lateral piping from operational filling after installation, SCS-FS will need to install new lateral piping to a safe and workable trench depth at locations closer to the perimeter header or existing extraction wells. Below is a list of the required tasks SCS-FS is proposing to perform as part of this proposal.

- SCS-FS proposes to expose existing vacuum laterals to well connections at EW103R, EW106R, EW110R, and EW112R. This will allow for SCS-FS personnel to abandon vacuum laterals below grade due to watered in laterals that hinder gas extraction at these locations.

- SCS-FS proposes to install 6-inch lateral lines to the existing wells and tie-in at the closest, predetermined locations that allow for the condensate liquids to drain back into the header piping and condensate sumps.

- SCS-FS will salvage existing wellheads and reinstall them to new lateral lines once completed to continue gas extraction of the well.

SCS-FS will order and install a new VFD on one of the blowers at the Site, which is not functioning and preventing operation of the blower. Once installed, SCS-FS will restart the blower and verify that the system is operating satisfactorily. Although the VFD on the other blower also does not appear to be functioning properly, SCS-FS is not proposing to replace it at this time. Instead, that VFD will be removed and shipped to a vendor to be assessed and possibly repaired.

With this proposal, SCS intends to provide non-routine services for the Site. These services are intended to provide activities that may be requested by the City of Brownsville during the contract period. This task includes no specific scope of services except to provide construction services as

directed by the City. The cost estimate associated with this task is solely for authorization purposes only. Cost for this task will be authorized after an official quote from SCS-FS personnel to be approved by the City. Additional fees may be authorized by the City by change order should the initial budget be consumed. The work associated with this task will be at the direct request by City staff.

ASSUMPTIONS AND CONDITIONS

- SCS-FS' price does not include seeding of disturbed areas, silt fence or other erosion control or sediment control measures.
- SCS-FS' price does not include an articulated dump truck for trash or soil hauling and Site personnel will assist in placement of these materials for cost saving purposes as agreed upon.
- Existing wiring at the Site will be satisfactory for installation of the new VFD without additional electrical work.
- The cost estimate accounts for purchase of a new VFD, removal and replacement of the existing VFD, and shipment of the old VFD to the vendor but not for the repair of that VFD. If the vendor determines that the VFD can be repaired, then SCS-FS will provide a separate cost estimate to the City for that service.
- Any tie-in locations that are inaccessible due to extreme amounts of liquid that requires additional equipment and material is not included in the proposed price.
- Reasonable site access for the listed authorized personnel, equipment, and materials to enable completion of the work.
- SCS-FS' price does not include obtaining construction, NPDES, storm water or other environmental permits.
- SCS-FS assumes that conditions, which differ materially from information provided by the client or what is reasonably anticipated given the nature of the work, are excluded from our bid.
- Work will be performed in OSHA Level D protection.
- SCS-FS' price does not include marking of utility lines, nor damage to unmarked utility lines.
- Site and weather conditions will permit completion of the project in accordance with the proposed time frame.
- This quote is valid for 60 days from the date of this submittal.

PROJECT SCHEDULE

Upon approval of this proposal, SCS-FS will begin scheduling personnel, equipment, and materials for the replacement lateral installation and order a new VFD. SCS-FS estimates 6 working days to complete lateral installation and can begin mobilizing to site as soon as August 14, 2023. As soon as

possible after receiving the VFD, SCS-FS personnel will visit the Site to complete its installation. Removal of the existing VFD and installation of the new VFD is expected to take one day onsite. The VFD being removed will then be shipped to the vendor.

COMPENSATION

SCS-FS would be pleased to perform the work in accordance with the above listed Assumptions and Conditions for a total cost of $106,914. See below for cost breakdown.

2. Install the new Point of Sale System

- New system will improve customer experience.
- Provide more payment options, including cash, web, and debit/credit card payment and patrons will be able to book the meeting room online.
- New system will be easier to manage, and can be utilitzed in other departments.

Project Scope and Analysis:

The statement of work (SOW) for the installation of the new Point of Sale system will include the following deliverables:

- The new system includes hardware, software, and installation
- CityBase is responsible for the maintenance and upgrades of the hardware & software.

SUBMITTER MERCHANT
PAYMENT PROCESSING INSTRUCTIONS AND GUIDELINES

These terms and conditions, the application, forms, and other documents provided by you herewith constitute the Agreement between Paymentech, LLC, JPMorgan Chase Bank, NA, and Merchant

Paymentech, LLC, also known as Chase Merchant Services ("CMS", "we", or "us"), for itself and on behalf of JPMorgan Chase Bank, N.A. ("Chase"), is excited about the opportunity to join **CityBase Inc.** (referred to herein as "Submitter") in providing you, the Merchant signing below (hereinafter referred to as "you" or "Merchant") with state-of-the-art payment processing services.

When you use the services of Submitter to receive payments for Transactions initiated by Card or by ECP, those Transactions are processed by us through systems and networks owned by the Networks, each of which maintains its own set of Network Rules governing Transactions processed over such Network.

The Network Rules, generally require that we have a direct contract with each merchant for which we process payment transactions through the Network, and this agreement (this "Agreement") contains certain contractual commitments required by the Network Rules to be contained in each such contract.

1. Compliance with Network Rules, Applicable Law and User Guide; Network Liabilities.

You agree to comply with the Network Rules (including the Security Standards) of each Network, as they pertain to the Transactions you submit to us (directly or via Submitter) for processing through Submitter. You shall not, through act or omission, cause CMS or Chase to violate any Network Rules. You shall perform your obligations under this Agreement in compliance with all applicable federal, state and local laws and regulations and shall not submit any Transaction that it knows to be illegal. CMS reserves the right to temporarily suspend funding or refuse to process any Transaction if we reasonably suspect that it was prepared in violation of any provision of this Agreement, applicable law, or the Network Rules. You agree to pay any and all fines, fees, penalties, liabilities, charges and other amounts which may be imposed or assessed by the Networks on you, Chase or CMS as a result of your actions, omissions, Transactions, Chargebacks or Returns, including without limitation, your failure to comply with the Network Rules, this Agreement or any Security Standards (the "Network Liabilities").

2. Your Transactions; Chargebacks and Returns.

You represent and warrant that you will only use our services and submit Transactions for processing which represent the sale or lease of goods or the provision of services by you to a Customer and not on behalf of any third-party seller. You shall have full liability for all Chargebacks (with respect to Card Transactions) and all Returns (with respect to ECP Transactions), as may be assessed in accordance with the applicable Network Rules, provided, however, that in the event that any Chargeback or Return is ultimately reversed by the applicable Network in your favor, CMS shall refund you for the amount thereof.

3. Settlement and Funding.

(a) CMS will submit your Transactions to the applicable Network for processing, and thereafter will provisionally fund the Settlement Account (as defined below).
(b) You must designate at least one bank account for the deposit and settlement of funds and the debit of any fees and costs associated with CMS's processing of the Transactions (all such designated bank accounts shall be collectively referred to herein as the "Settlement Account"). You authorize CMS to initiate electronic credit entries, debit entries, and adjustments to your Settlement Account for amounts due to or from you in connection with this Agreement. CMS will not be liable for any delays in receipt of funds or errors in Settlement Account entries caused by third parties, including but not limited to delays or errors by Submitter, the Networks, or your bank.
(c) Unless otherwise agreed, the dollar amount payable to you for your Transactions will be equal to the amount submitted by you in connection with your sale Transactions, minus the sum of amounts due from you, including Refunds, Chargebacks, Returns, Network Liabilities, and all applicable charges and adjustments; provided, however, that in the event we fail to withhold any such amounts from

your Transaction proceeds, we may debit your Settlement Account for such amounts ;

(d) If we fail to withhold any Refunds, Returns, Chargebacks, Network Liabilities or other charges or amounts due from the proceeds payable to the Settlement Account (including where such proceeds are insufficient to cover such obligations), or if the Settlement Account does not have a sufficient balance to pay amounts due from you under these guidelines, we may pursue one or more of the following options: (i) demand and receive immediate payment for such amounts; (ii) debit the Settlement Account for the amount of the negative balance; (iii) withhold settlement payments to the Settlement Account until all amounts are paid, (iv) delay presentation of refunds until a payment is made to us of a sufficient amount to cover the negative balance; and (v) pursue any remedies we may have at law or in equity.

4. Specific Requirements, Representations and Warranties Relating to ACH Transactions.

(a) The NACHA Operating Rules ("NACHA Rules") are the applicable Network Rules governing your ECP Transactions that utilize the ACH network, including, without limitation, ACH, ARC, TEL and WEB Transactions ("ACH Transactions"). You are responsible for complying with the NACHA Rules as set forth in Section 1 of this Agreement. The originating depository financial institution which CMS uses (currently Chase) to originate and process your ACH Transactions (the "ODFI", as that term is further defined in the NACHA Rules) retains the right to reject or delay any ACH Transaction, to execute an ACH Transaction through any clearing house or channel it deems appropriate, to terminate or suspend your right to originate ACH Transactions, or to audit your compliance with the NACHA Rules.

(b) Any credit made to your Customer's account as a result of an ACH Transaction originated by you (e.g., an issuance of a refund) is provisional until your Customer's receiving depository financial institution (the "RDFI", as further defined in the NACHA Rules) receives final settlement for such entry through a Federal Reserve Bank. If final settlement is not received by the RDFI, the RDFI will receive a refund from your Customer, and your Customer will not be deemed to have been paid by you.

(c) You represent and warrant that: (i) each ACH Transaction you originate will comply with all applicable laws and NACHA Rules; (ii) you will not originate any ACH Transaction as a Third Party Sender (as that term is defined in the NACHA Rules) and will not allow any third party to originate an ACH Transaction through your account under this Agreement; (iii) all ACH Transactions resulting in a debit to the Customer will be authorized by the Customer in writing and signed or similarly authenticated in a manner that complies with the NACHA Rules; (iv) you will obtain and retain proper authorization, in accordance with all applicable laws and the NACHA Rules, for each initiation of an ACH debit or credit to a Customer's account, and will make copies thereof available to us upon request; and (v) you hereby make to us, and certify compliance with, all warranties that we or the ODFI make, or are deemed to make, under the NACHA Rules, in connection with any ACH Transaction you originate.

5. Safeguarding Account Information; Security Standards.

(a) By accepting Card and ECP payments from your Customers, you acknowledge and understand the importance of protecting Transactions and Account Information and complying with the applicable Network Rules, Security Standards, and applicable law. You also acknowledges the heightened risk associated with access to Transactions and Account Information, and, to the extent you do have access to Transactions and Account Information, you must establish policies and procedures to protect such information in conformity with the Network Rules, Security Standards, and applicable law, including the storage and disclosure of such information. You shall exercise reasonable care to prevent use or disclosure of Transactions, Account Information, other than as necessary to complete a Transaction or as otherwise specifically permitted by the Network Rules or required by applicable law. If at any time you determine or suspect that Transactions or Account Information have been compromised, you must notify CMS immediately and assist in providing notification to such parties as may be required by law or Network Rules, or as CMS otherwise reasonably deems necessary. You further agree to provide CMS, upon its request, with information related to your compliance with the Network Rules and Security Standards as may from time to time be required by the Networks or reasonably requested by us.

(b) You acknowledge that failure to comply with the Network Rules, including the Security Standards, or the occurrence of a Data Compromise Event, may result in assessments, fines and/or penalties by the Networks. In the event CMS or Chase incurs any damage, loss, liability or expense as a result of any such failure or occurrence, including, without limitation, any Network Liability, you shall reimburse CMS and Chase, as applicable, immediately for all such amounts. Furthermore, if any Network requires a forensic examination of you or any of your agents, business partners, contractors, or subcontractors due to a Data Compromise Event, you agree to cooperate with such forensic examination until it is completed, including, without limitation, the engagement of an examiner acceptable to the relevant Network. Notwithstanding the foregoing, the Networks may directly, or demand that CMS, engage an examiner on your behalf in order to expedite the investigation of the Data Compromise Event.

6. Merchant Taxpayer Certification and CMS Reporting Obligations.

Upon request from time to time, Merchant shall provide CMS with the appropriate taxpayer certification documentation, via Internal Revenue Service (IRS) Form W-9 (or the appropriate versions of Form W-8, if applicable). Merchant shall promptly notify CMS if there are any changes in this information. CMS may deduct withholding taxes, if any, from proceeds payable to Merchant or any entity that is a party to this agreement where required under applicable law. CMS may, in accordance with applicable law and from time to time during the term of this Agreement, request Merchant to recertify its taxpayer certification hereunder. Furthermore, Merchant shall be responsible for any penalties related to the reporting obligations of CMS hereunder to the extent such penalties accrue based on the actions or inactions of Merchant despite reasonable notice from CMS.

7. Amendments and Updates.

We reserve the right to update or amend this Agreement from time to time, including as may be required to ensure compliance with the Network Rules, applicable law, or the policies, procedures or requirements of the ODFI. In such event, we will provide you with the changes, or with an updated copy of this Agreement, and your continued use of our processing services after your receipt of such changes shall constitute your agreement to comply with the Agreement as so amended.

8. Data Security and Privacy

By signing below, you represent to us that you **do not** have access to any Account Information (such as the Customer's primary account number, expiration date, security code or personal identification number) and you will not request access to such Account Information from Submitter. Agenda #:	Consideration and **ACTION** to award authorization to replace and install LED lighting technology to American Electric Power Texas. (Engineering & Public Works Department)

Summary:
American Electric Power Texas (AEP Texas) will now be offering LED lighting in both the Municipal Street Lighting Service and the Non-Roadway Lighting Service. These lighting services will be available in all of the areas certified to be served by AEP Texas.

Compared to High-Pressure Sodium (HPS) lights, LED lights have a longer bulb life. With time, HPS bulbs may become dimmer and lose efficiency. The operating cost over the lifetime of an HPS bulb increases with usage. While on the contrary, LED bulbs offer more power at the end of their lives.

Project Scope and Analysis:
The purpose of this request is to upgrade the existing light fixtures from HPS to LED. Depending on the type of light in service and the current energy rate, the new lower-wattage LED lighting may be a more economical solution to the City of Brownsville's lighting needs.

ENGINEERING & PUBLIC WORKS DEPARTMENT.

Agenda Item #

Consideration and action to award authorization to replace and install LED technology to American Electric Power Texas. (Engineering & Public Works).

AGENDA DESCRIPTION.

The upgrade from HPS to LED technology is mainly for the benefit of our citizens by providing better lighting; also, the approval will bring other benefits, such as the following:

- Lowering Electricity Costs
- Efficiency.
- Lifespan.

Directive to replace upon fixture failure.

Background: AEP Texas will now be offering LED lighting in both the Municipal Street Lighting Service and the Non-Roadway Lighting Service. These lighting services will be available in all of the areas certified to be served by AEP Texas. AEP Texas is pleased to offer this more energy efficient service. Depending on the type of light that is currently in service, and your current energy rate, the new lower wattage LED lighting may be a more economical solution to your lighting needs. We encourage our customers to review their current lighting fixture types and see if a light change is a good solution for your constituents.

There are least three ways to approach this new light service offering.

1. What should be your choice for new roadway and non-roadway lights?
2. What type of directive would you like to put in place for existing fixtures if they fail?
3. Do you want to develop a proactive replacement program to use the more energy efficient LED lighting? Please note that there is an up-front $137.86 charge per light for replacing the existing light before its fixture failure. This $137.86 charge per light pays for the undepreciated life of the light that is being removed.

This form addresses item 2 above: What is your directive to AEP Texas upon the failure of an existing fixture?

Brownsville South Padre Island International Airport

Air Service Development

- Air Service Development (ASD) is the process of recruiting additional air service to a community.
- Airline fees and charges are a primary driver of airport revenue, and non-airline revenue such as parking, rental cars, and concessions are driven by passengers – more seats lead to more revenue for the airport.
- Airline service is also an economic powerhouse for a community – creating business and job opportunities, while boosting tourism.
- Airlines have Network Planners who determine what routes the airline flies and build the actual flight schedule.
- Network Planners juggle many variables and find many different solutions to the same problems – meaning they don't always have time to study an opportunity in detail.
- Air Service Development professionals provide Network Planners with local knowledge and additional analysis of available data in hopes of convincing them to add or maintain air service.

BRO Brownsville South Padre Island International Airport

Consultant Services

- Development and delivery of a Leakage/Catchment study and Market Opportunity Analysis, to be updated and revised throughout the contract term.
- Development of presentations and representation at 2 industry conferences within the U.S. (such as Jumpstart, Routes, TakeOff, etc.).
- Creating presentations and representation at airline headquarters visits.
- Updates as needed to support the airport's input on community-supported incentive programs and revisions to the airport's incentive program .
- Monthly, Quarterly, and ad hoc data reporting.
- Ongoing advocacy of BRO with Airline Network Planners at lunches, social events, and other gatherings to promote strong familiarity with the market.
- Weekly communication with the BRO leadership team.
- Continuous on-call response to questions, meetings, and other engagements.

CMT Justification

BRO will be presented with proposals from multiple air service development consulting firms, most of whom also maintain considerable experience in BRO's Scope of Work.

So how does CMT stand out?

For starters, our consultants know the BRO market – in fact, we have been responsible for launching new air services and new carriers at BRO in the past 5 years we've worked with BRO.

Second, catchment data is key to BRO's future air service development strategy and we maintain what we believe is the industry's best catchment data source, capable of identifying visitors to the market and where they are staying.

Finally, we are backed by a 420-person organization and brand with more than 75-years of experience in developing, and more importantly, maintaining client relationships with U.S. airports. It is for these reasons that we are excited to continue to partner with BRO and your community to build your market's air service portfolio.

The fee schedule for agreements awarded under solicitation is 2%.

Term of Agreement and Renewals

The Agreement with TIPS is for three (3) years with an option for renewal for an additional one (1) consecutive year if both parties agree. Example: *If the agreement is scheduled to end on May 23, the anniversary date of the award, it would actually be extended to May 31 in the last month of the last year the contract is active.*

Pricing Models

Pricing for Line Items or Catalog

It is the intention of TIPS to establish an agreement to furnish and/or deliver all goods and services provided by awarded vendors to its members. Proposers are requested to submit a proposal for offering their complete and total line of available products and services to governmental entities, including school districts.

If a name brand is mentioned in the specifications, proposals on any reputable manufacturer's regularly produced equipment of such items of a similar nature or similarly used and substantially equivalent will be considered.

The list or category of goods or services sought by this solicitation is inclusive and not exclusive. There may be other similarly used items that are sold by the responding vendors that may be included as part of the proposing vendor's "catalog" (defined below) now or during the life of the agreement that are considered included in this solicitation and subject to the minimum discount proposed. Pricing may also be exclusively line item pricing or, and recommended, in combination with a minimum catalog discount.

Example: During the life of the agreement, models change and new products come to market that are in the same category and are added to the vendor's "catalog" and are available for purchase by users of the agreement. If you fail to propose a minimum discount off your catalog, it may limit the ability to change pricing of catalog items and services during the life of the award.

Definition of "catalog"
"Catalog" means the available list of tangible personal property or services, in the most current listing, regardless of date, during the life of the contract, that takes the form of a catalog, price list, schedule, shelf price or other form that:

A. is regularly maintained by the manufacturer or vendor of an item; and
B. is either published or otherwise available for inspection by a customer during the purchase process;
C. to which the minimum discount proposed by the proposing vendor may be applied.

Adding New or Replacement <u>Goods</u> <u>Items</u> During the Life of the Agreement

Is easiest proposing a Minimum Discount off (PREFERRED MODEL) catalog prices for goods or a markup on vendor's cost of a good item. See Pricing sheets 1.

Pay Careful Attention to This When Completing the Pricing spreadsheets.

Adding New or Replacement Services During the Life of the Agreement
Is easiest proposing a Discount off (PREFERRED MODEL) catalog prices for Services because there is no manufacturer or supplier's price in which to apply a markup percentage. See Pricing sheets 2.

Pay Careful Attention to This When Completing the Pricing spreadsheet.

Explanation:

Markup on cost

Vendors may propose a markup on miscellaneous items that are not ordinarily in their catalog or for which no list or manufacturer's pricing is available.
It is NOT recommended proposers use the Markup pricing method EXCLUSIVELY because many members are not allowed to use a bid with a markup pricing method, specifically when using Federal Grant Funds. Using this pricing method may limit the effectiveness of your award.

If you choose to use the markup pricing method:
When proposing a markup on cost model, the vendor shall be required to provide proof of actual cost to the vendor of the goods sold to verify pricing markup is properly and legally applied for the sale of the goods.

NEW ITEMS: TIPS will allow the addition of new goods items to be added to the agreement when they become available to the market through the vendor under the discount off published pricing model or markup on cost model. You must stipulate a discount or markup on catalog price in the appropriate section of the pricing Excel sheet to be eligible for this option. You may stipulate discount off specific brands or lines of goods if you desire. Be thorough and concise. Any items added must be available to all customers, within legal or contractual limitations, if any. (Example: Apple products are not permitted to be sold to the education market without special agreement from Apple but may be sold to other government customers.)

REPLACEMENT OF DISCONTINUED OR LIMITED AVAILABILITY ITEMS: When proposing a Line Item pricing model - TIPS will allow replacement items to the original list item if it is no longer manufactured or is available in limited quantities. Limited availability must be documented by a letter from the manufacturer. Vendor may replace it with an item of like kind and quality and the price will remain the same as proposed, except if it is cheaper, vendor shall lower the price accordingly and if it is more expensive due to vendor's actual cost from the manufacturer, it will be priced and the same discount shall apply as the item it replaces. Vendor shall be required to prove the pricing if the cost is higher than the original core list price to customer.
Note: If you propose a minimum Discount off catalog, you avoid this process since you are adding an item to your catalog and list price and the proposed minimum discount off catalog would apply to the new item.

Shipping cost:
Pricing presented for goods offered should not include shipping costs from dealer to Member customer. **IF** shipping is included in the price regardless of the situation, then you simply state no additional cost for shipping or delivery to any customer. Example if the truck includes deliver but parts do not, them be sure to specify the variations in your pricing. Shipping method is determined by the vendor and the Member/Customer at the time of the quote/purchase by the Member/Customer and satisfactory shipping methods and costs are agreed at that time. Shipping should be passed through at actual cost to the TIPS Member.

SPECIFICATIONS and PRICING FORMAT (EXCEL SPREADSHEET)

Proposals on any reputable manufacturers regularly produced goods falling within the general categories solicited herein will be considered for award. If a name brand is mentioned, it is only to illustrate type and quality and is not intended to restrict competition. Any list included herein is inclusive and not exclusive. There may be other similarly used items that are sold by the responding vendors that may be included as part of the proposing vendor's "catalog" (Defined above) now or during the life of the contract that are considered included in this RFP. Example: During the life of the contract, models change and new products come to market that are in the same category and are added to the vendor's "catalog" and are available for purchase by users of the contract provided the catalog discount or cost markup proposed is honored by the awarded vendor.

TIPS leaves it to the proposer to determine what goods or services that perform or serve this function and the proposer may list or include anything applicable.

This solicitation is seeking providers for:

Furniture, Furnishings and Services

Specifications and Pricing

It is the intention of Region 8 ESC to establish a contract with Vendor(s) for Furniture, Furnishings and Services. Awarded Vendor(s) shall perform covered services under the terms of this agreement.

If a price list or catalog is submitted or available as defined herein, then a percentage off catalog is acceptable. If line item pricing is proposed, proposals should include any and all listings of product names, sizes, packaging, quantity, pricing, description of services and any other related information.

Proposals should include all listings of furniture, furnishings, and any related services. DO NOT INCLUDE ITEMS THAT ARE NOT CONSIDERED furniture, furnishings, and any related services. Hourly or other unit

pricing for services providing installation, repair, or maintenance to may be submitted. Accessories to support the furniture, furnishings, and any related services should be submitted.

Awarded vendor(s) shall perform covered services under the terms of this agreement.

Offerors shall provide pricing based on a discount from a manufacturer's price list or catalog, or fixed price, or a combination of both with indefinite quantities. Electronic Catalog or links to same and/or price lists must accompany the proposal if a discount off catalog is proposed. Include an electronic copy of the catalog from which discount, or fixed price, is calculated. Multiple percentage discount structure is also acceptable. Please specify where different percentage discounts apply. Additional pricing and/or discounts may be included. Each service proposed is to be priced separately with all ineligible items identified. Services may be awarded to multiple vendors. See pricing instruction in this document and on the pricing forms 1 and 2.

Offerors may elect to limit their proposals to a single service within any category, or multiple services within any or all categories. Region 8 ESC is seeking service providers that have the depth, breadth and quality of resources necessary to complete all phases of this contract. In addition, TIPS also requests any value add commodity or service that could be provided under this contract. While this solicitation specifically covers the above-mentioned category, Offerors are encouraged to submit an offering on any and all products or services available that they currently perform in their normal course of business. Respondent shall perform and provide these products and/or services under the terms of this agreement. The supplier shall assist the end user with making a determination of their individual needs. The following is a list of included (but not limited to) categories.

Proposers may serve a local area only or a broader geographic area at their discretion and should indicate their limitations for a service area.

Vendors should submit all items and goods related to supplying furniture, furnishings, and any related services. Bidder should submit all applicable services for all types of furniture, furnishings, and any related services.

Value Added Pricing

Value added services should be explained in detail. If bidder can offer greater quantities at lower pricing, these "value added" prices should be submitted in this section.

Proposal should list offerings to be considered as part of the category of furniture, furnishings, and any related services that can be provided by the Vendor. Servicing of furniture or furnishings or any related service to support furniture or furnishings may be included in this proposal.

A discount off list price pricing model is ideal as list prices change over the life of the awarded agreement. Possible pricing models are discussed in this document. Any other goods and services that are logically related to this general category. TIPS reserves the sole right to determine whether or not proposed goods or services are logically related to this general category.

Additional Services:
Bidder should list in the Pricing Sheet 2 excel spreadsheet all related services, installation, travel, and hourly fee or other defined unit cost according to category offered on this contract. Offering must be related to this category. No inappropriate offerings will be considered.

The Vendor shall furnish all necessary labor, materials, tools, supplies, equipment, transportation, supervision, management and shall perform all operations necessary and required for services. All work shall be performed in accordance with the requirements set forth in the resulting contract and each mutually agreed upon work request or purchase order issued by TIPS participating members.

NOTHING IN THIS SOLICITATION IS REQUESTING SERVICES THAT ARE CONSIDERED A PUBLIC WORK/CONSTRUCTION.

Pricing Sheets 1 and 2 must be downloaded from the "Attachments" section, completed and uploaded to the "Response Attachments" PRICING sections.

Since the list of items a vendor may carry is potentially very long, and items are removed and added to the market frequently, it may be more advantageous to propose a **minimum discount** off your catalog for goods and services. You may offer different discounts for different brands or lines or services of goods if you choose.

A zero discount off catalog proposal is permitted, but TIPS encourage vendors to propose the best discount they feel is necessary to compete with other retailers to provide the greatest benefit to TIPS members.

Please propose a minimum discount off catalog for all non-line items proposed so you will be covered when future items are available in you catalog. By doing this, the pricing is a ceiling and not a floor. You may always lower your price or increase your minimum discount percentage to be more competitive in a particular situation

You may propose all goods as a line item list if you prefer but the PREFERRED proposal method is a minimum discount off catalog prices. Line item proposal prices may only be increased by the markup method or by application of the US Department of Labor (General (not industry specific) Consumer Price Index (CPI) percentage increase applied annually, so proposing the discount off catalog price may provide easier price adjustments but ensures that they are applied fairly to all customers of the vendor because they are published for all customers to see. **You may propose, both discount off a catalog AND line item pricing for specific lists of items if you choose to**.

Caution: Using the Markup method of pricing may exclude some members when using Federal funds as Federal regulations prohibit this type of pricing and some local regulations prohibit this type of pricing and it always requires the proposer to make available to TIPS or its members proof of the cost of the item to the proposer to verify the markup is applied according to the terms of this solicitation ad resulting award.

You may stipulate different discounts off on specific brands or lines of goods if you desire.

PRICING FORMAT (EXCEL SPREADSHEETS 1 and 2)
DO NOT PROPOSE "PRICE TO BE DETERMINED" or "ON REQUEST". This method is not lawful to award by TIPS.

You must have unit pricing that can be applied to the needs of the customer.
Pricing Sheet 1 excel sheet
There are three (3) sections in the Excel sheet #1, Section A, B, and C provided in the solicitation documents, please complete all that are applicable to your proposal. The discount off catalog price is an excellent method if list prices are available and please propose that method in addition to any other method you desire to cover future item or service availability.
Example: IF you are providing a line item pricing sheet AND a discount off the rest of your catalog, be sure to provide both the line item prices on the list of items proposed and a minimum discount off the rest of your catalog. If different sections of your catalog have different minimum discounts, please note accordingly.

Pricing Sheet 2 excel sheet
List any other services, maintenance agreements, mileage fees, maximum travel costs, etc. with line item pricing for year One and maximum percentage increase in pricing for years Two and Three of the awarded contract AND/OR discount off Catalog price as defined above if services are routinely listed in your catalog and priced therein.

Vendor may provide additional pricing in another format.
ALL PRICING SHALL BE FIRM AND CALCULABLE AT THE TIME OF SALE DURING THE LIFE OF THE CONTRACT AND MUST CONFORM AND COMPLY WITH THE VENDOR'S PROPOSED PRICING MODEL IN RESPONSE TO THE ORIGINAL SOLICITATION. **DO NOT PROPOSE "PRICE TO BE DETERMINED". If you have question on this process, call TIPS for clarification.**

Example: Proposed catalog, web or store price for an item is $10.00 each and your proposed minimum discount is 5%, then the price is firm and calculable as $9.50.

Please provide any explanatory information on your pricing proposal you believe is necessary to fully inform TIPS of your intent.

Service Incidental to the Sale of Goods
Many times, the sale of goods may be accompanied by the installation or set up of said goods. Proposers may submit pricing for the services in the Pricing Sheet 2 spreadsheet or in an attachment.

Any and All SERVICES may be proposed, but must be priced either as a line item or as a discount off the published Catalog price for said services. You may provide a catalog of services or a link to the available services or you may create a TIPS-specific Catalog list of services with applicable pricing. Please specify or illustrate your chosen method.

If LINE ITEM GOODS pricing, and during the life of the award, prices may be increased only commensurate, dollar for dollar as your cost for the item increases. To increase the price of a line item prices good, vendor must submit proof from the manufacturer or distributor that the pricing has increased and by how much.

NOTE: FAILURE TO PROPOSE SERVICES SHALL EXCLUDE THEM FROM YOUR OFFERING THROUGH THIS AWARD SO, PLEASE INCLUDE THEM IS SOME CALCULABLE WAY. YOU MAY PROVIDE A PERCENTAGE DISCOUNT OFF POSTED PRICES OR CATALOG PRICES FOR THE LOCATION OF THE STORE OR IN SOME SPECIFIC MANNER THAT FITS YOU BUSINESS MODEL.

When using line item pricing, vendor should provide on pricing template 2 a maximum price increase percentage for annually for renewal years. Complete all excel pricing forms.

NEW FEATURES FOR MOBILE USERS:
Phone number hotlinks can be used to dial the number on mobile phones.
Address hotlinks can be used to show the address in Google Maps.

This is generally a self-certifying database. The SBA does not make any representation as to the accuracy of any of the data included, other than certifications relating to 8(a) Business Development, HUBZone or Small Disadvantaged Business status. The SBA strongly recommends that contracting officers diligently review a bidder's small business self-certification before awarding a contract.

TIPS VENDOR AGREEMENT

Between Global Industries, Inc. **and**

(Company Name)

THE INTERLOCAL PURCHASING SYSTEM (TIPS),
a Department of Texas Education Service Center Region 8 for
TIPS RFP 200301 Furniture, Furnishings and Services

General Information

The Vendor Agreement ("Agreement") made and entered into by and between The Interlocal Purchasing System (hereinafter "TIPS") a government cooperative purchasing program authorized by the Region 8 Education Service Center, having its principal place of business at 4845 US Hwy 271 North, Pittsburg, Texas 75686 and the TIPS Vendor. This Agreement consists of the provisions set forth below, including provisions of all attachments referenced herein. In the event of a conflict between the provisions set forth below and those contained in any attachment, the provisions set forth shall control unless otherwise agreed by the parties in writing and by signature and date on the attachment.

A Purchase Order ("PO"), Agreement or Contract is the TIPS Member's approval providing the authority to proceed with the negotiated delivery order under the Agreement. Special terms and conditions as agreed between the Vendor and TIPS Member should be added as addendums to the Purchase Order, Agreement or Contract. Items such as certificate of insurance, bonding requirements, small or disadvantaged business goals are some, but not all, of the possible addendums.

Terms and Conditions

Freight
All quotes to Members shall provide a line item for cost for freight or shipping regardless if there is a charge or not. If no charge for freight or shipping, indicate by stating "No Charge", "$0", "included in price" or other similar indication. Otherwise, all shipping, freight or delivery changes shall be passed through to the TIPS Member at cost with no markup and said charges shall be agreed by the TIPS Member unless alternative shipping terms are agreed by TIPS as a result of the proposal award.

Warranty Conditions
All new supplies equipment and services shall include ***manufacturer's minimum standard warranty*** unless otherwise agreed to in writing. Vendor shall be legally permitted to sell all products offered for sale to TIPS Members if the offering is included in the Request for Proposal ("RFP") category. All goods proposed and sold shall be new unless clearly stated in writing.

Customer Support
The Vendor shall provide timely and accurate customer support for orders to TIPS Members as agreed by the Parties. Vendors shall respond to such requests within a commercially reasonable time after receipt of

the request. If support and/or training is a line item sold or packaged with a sale, support shall be as agreed with the TIPS Member.

Agreements
Agreements for purchase will normally be put into effect by means of a purchase order(s) executed by authorized agents of the TIPS Member participating government entities, but other means of placing an order may be used at the Member's discretion.

Tax exempt status
Most TIPS Members are tax exempt and the related laws and/or regulations of the controlling jurisdiction(s) of the TIPS Member shall apply.

Assignments of Agreements
No assignment of this Agreement may be made without the prior notification of TIPS. Written approval of TIPS shall not be unreasonably withheld. Payment for delivered goods and services can only be made to the awarded Vendor, Vendor designated reseller or vendor assigned company.

Disclosures

- Vendor and TIPS affirm that he/she, or any authorized employees or agents, has not given, offered to give, nor intends to give at any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor or service to a public servant in connection with this Agreement.

- Vendor shall attach, in writing, a complete description of any and all relationships that might be considered a conflict of interest in doing business with the TIPS program.

- The Vendor affirms that, to the best of his/her knowledge, the offer has been arrived at independently, and is submitted without collusion with anyone to obtain information or gain any favoritism that would in any way limit competition or give an unfair advantage over other vendors in the award of this Agreement.

Term and Renewal of Agreements
The Agreement with TIPS is for three (3) years with an option for renewal for an additional one (1) consecutive year if both parties agree. TIPS may or may not exercise the one-year extension beyond the base three-year term and whether or not to offer the extension is at the sole discretion of TIPS. The scheduled Agreement termination date shall be the last date of the month of the last month of the agreement's legal effect. **Example:** *If the agreement is scheduled to end on May 23, the anniversary date of the award, it would actually be extended to May 31 in the last month of the last year the contract is active.*

Automatic Renewal Clauses Incorporated in Awarded Vendor Agreements with TIPS Members Resulting from the Solicitation and with the Vendor Named in this Agreement.
No Agreement for goods or services with a TIPS Member by the awarded vendor named in this Agreement that results from the solicitation award named in this Agreement, may incorporate an automatic renewal clause that exceeds month to month terms with which the TIPS Member must comply. All renewal terms incorporated in an Agreement by the vendor with the TIPS Member shall only be valid and enforceable when the vendor receives written confirmation by purchase order, executed Agreement or other written instruction issued by the TIPS Member for any renewal period. The purpose of this clause is to avoid a TIPS

Member inadvertently renewing an Agreement during a period in which the governing body of the TIPS Member has not properly appropriated and budgeted the funds to satisfy the Agreement renewal. This term is not negotiable and any Agreement between a TIPS Member and a TIPS awarded vendor with an automatic renewal clause that conflicts with these terms is rendered void and unenforceable.

Shipments
The Vendor shall ship, deliver or provide ordered products or services within a commercially reasonable time after the receipt of the order from the TIPS Member. If a delay in said delivery is anticipated, the Vendor shall notify TIPS Member as to why delivery is delayed and shall provide an estimated time for completion of the order. TIPS or the requesting entity may cancel the order if estimated delivery time is not acceptable or not as agreed by the parties.

Invoices
Each invoice or pay request shall include the TIPS Member's purchase order number or other identifying designation as provided in the order by the TIPS Member. If applicable, the shipment tracking number or pertinent information for verification of TIPS Member receipt shall be made available upon request.

Payments
The TIPS Member will make payments directly to the Vendor, the Vendor Assigned Dealer or as agreed by the Vendor and the TIPS Member after receiving invoice and in compliance with applicable payment statute(s), whichever is the greater time or as otherwise provided by an agreement of the parties.

Pricing
Price increases will be honored according to the terms of the solicitation. All pricing submitted to TIPS shall include the participation fee, as provided in the solicitation, to be remitted to TIPS by the Vendor. Vendor will not show adding the fee to the invoice presented to TIPS Member customer.

Participation Fees and Reporting of Sales to TIPS by Vendor
The Participation Fee that was published as part of the Solicitation and the fee published is the legally effective fee, along with any fee conditions stated in the Solicitation. Collection of the fees by TIPS is required under Texas Government Code §791.011 Et seq. Fees are due on all TIPS purchases reported by either Vendor or Member. Fees are due to TIPS upon payment by the Member to the Vendor, Reseller or Vendor Assigned Dealer. Vendor, Reseller or Vendor Assigned Dealer agrees to pay the participation fee to TIPS for all Agreement sales upon receipt of payment including partial payment, from the Member Entity or as otherwise agreed by TIPS in writing and signed by an authorized signatory of TIPS. Thus, when an awarded Vendor, Reseller or Vendor Assigned Dealer receives any amount of payment, even partial payment, for a TIPS sale, the legally effective fee for that amount is due to TIPS from the Vendor.

Reporting of Sales to TIPS by Vendor
Vendor is required to report all sales under the TIPS contract to TIPS. If the TIPS Member entity requesting a price from the awarded Vendor requests the TIPS contract, Vendor must include the TIPS Contract number on any communications with the TIPS Member entity. To report sales, the Vendor must login to the TIPS Vendor Portal online at https://www.tips-usa.com/vendors_form.cfm and click on the PO's and Payments tab. Pages 3-7 of the Vendor Portal User Guide will walk you through the process of reporting sales to TIPS. Please refer to the TIPS Accounting FAQ's for more information about reporting sales and if you have further questions, contact the Accounting Team at accounting@tips-usa.com. The Vendor or vendor assigned dealers are responsible for keeping record of all sales that go through the TIPS Agreement and submitting same to TIPS. Failure to render the participation fee to TIPS shall constitute a breach of this agreement with our parent

governmental entity, Texas Education Service Center Region 8, as established by the Texas legislature and shall be grounds for termination of this agreement and any other agreement held with TIPS and possible legal action. Any overpayment of participation fees to TIPS by a Vendor will be refunded to the Vendor within ninety (90) days of receipt of notification if TIPS receives written notification of the overpayment not later than the expiration of six (6) months from the date of overpayment and TIPS determines that the amount was not legally due to TIPS pursuant to this agreement and applicable law. It is the Vendor's responsibility to identify which sales are TIPS Agreement sales and pay the correct participation fee due for TIPS Agreement sales. Any notification of overpayment received by TIPS after the expiration of six (6) months from the date of overpayment will be non-refundable. Region 8 ESC and TIPS reserve the right to extend the six (6) month deadline to notify if approved by the Region 8 ESC Board of Directors. TIPS reserves all rights under the law to collect the fees due. Please contact TIPS at tips@tips-usa.com or call (866) 839-8477 if you have questions about paying fees.

Indemnity

The Vendor agrees to indemnify and hold harmless and defend TIPS, TIPS Member(s), officers and employees from and against all claims and suits by third parties for damages, injuries to persons (including death), property damages, losses, and expenses including court costs and reasonable attorney's fees, arising out of, or resulting from, Vendor's performance under this Agreement, including all such causes of action based upon common, constitutional, or statutory law, or based in whole or in part, upon allegations of negligent or intentional acts on the part of the Vendor, its officers, employees, agents, subcontractors, licensees, or invitees. Parties found liable shall pay their proportionate share of damages as agreed by the parties or as ordered by a court of competent jurisdiction over the case. **NO LIMITATION OF LIABILITY FOR DAMAGES FOR PERSONAL INJURY OR PROPERTY DAMAGE ARE PERMITTED OR AGREED BY TIPS/ESC REGION 8.** Per Texas Education Code §44.032(f), and pursuant to its requirements only, reasonable Attorney's fees are recoverable by the prevailing party in any dispute resulting in litigation.

State of Texas Franchise Tax

By signature hereon, the Vendor hereby certifies that he/she is not currently delinquent in the payment of any franchise taxes owed the State of Texas under Chapter 171, Tax Code.

Miscellaneous

The Vendor acknowledges and agrees that continued participation in TIPS is subject to TIPS sole discretion and that any Vendor may be removed from the participation in the Program at any time with or without cause. Nothing in the Agreement or in any other communication between TIPS and the Vendor may be construed as a guarantee that TIPS or TIPS Members will submit any orders at any time. TIPS reserves the right to request additional proposals for items or services already on Agreement at any time.

Purchase Order Pricing/Product Deviation

If a deviation of pricing/product on a Purchase Order or contract modification occurs between the Vendor and the TIPS Member, TIPS must be notified within five (5) business days of receipt of change order.

Termination for Convenience of TIPS Agreement Only

TIPS reserves the right to terminate this agreement for cause or no cause for convenience with a thirty (30) days prior written notice. Termination for convenience is conditionally required under Federal Regulations 2 CFR part 200 if the customer is using federal funds for the procurement. All purchase orders presented to the Vendor, but not fulfilled by the Vendor, by a TIPS Member prior to the actual termination of this agreement shall be honored at the option of the TIPS Member. The awarded Vendor may terminate the agreement with ninety (90) days prior written notice to TIPS 4845 US Hwy North, Pittsburg, Texas 75686.

The vendor will be paid for goods and services delivered prior to the termination provided that the goods and services were delivered in accordance with the terms and conditions of the terminated agreement. This termination clause does not affect the sales agreements executed by the Vendor and the TIPS Member customer pursuant to this agreement. TIPS Members may negotiate a termination for convenience clause that meets the needs of the transaction based on applicable factors, such as funding sources or other needs.

TIPS Member Purchasing Procedures

Usually, purchase orders or their equal are issued by participating TIPS Member to the awarded vendor and should indicate on the order that the purchase is per the applicable TIPS Agreement Number. Orders are typically emailed to TIPS at tipspo@tips-usa.com.

- Awarded Vendor delivers goods/services directly to the participating member.
- Awarded Vendor invoices the participating TIPS Member directly.
- Awarded Vendor receives payment directly from the participating member.
- Fees are due to TIPS upon payment by the Member to the Vendor. Vendor agrees to pay the participation fee to TIPS for all Agreement sales upon receipt of payment including partial payment, from the Member Entity or as otherwise agreed by TIPS in writing and signed by an authorized signatory of TIPS.

Licenses

Awarded Vendor shall maintain, in current status, all federal, state and local licenses, bonds and permits required for the operation of the business conducted by awarded Vendor. Awarded Vendor shall remain reasonably fully informed of and in compliance with all ordinances and regulations pertaining to the lawful provision of goods or services under the Agreement. TIPS and TIPS Members reserves the right to stop work and/or cancel an order or terminate this or any other sales Agreement of any awarded Vendor whose license(s) required for performance under this Agreement have expired, lapsed, are suspended or terminated subject to a 30-day cure period unless prohibited by applicable statue or regulation.

Novation

If awarded Vendor sells or transfers all assets, rights or the entire portion of the assets or rights required to perform this Agreement, a successor in interest must guarantee to perform all obligations under this Agreement. A simple change of name agreement will not change the Agreement obligations of awarded vendor. TIPS will consider Contract Assignments on a case by case basis. TIPS must be notified within five (5) business days of the transfer of assets or rights.

Site Requirements (*only when applicable to service or job*)

Cleanup: When performing work on site at a TIPS Member's property, awarded Vendor shall clean up and remove all debris and rubbish resulting from their work as required or directed by TIPS Member or as agreed by the parties. Upon completion of work, the premises shall be left in good repair and an orderly, neat, clean and unobstructed condition.

Preparation: Awarded Vendor shall not begin a project for which TIPS Member has not prepared the site, unless awarded Vendor does the preparation work at no cost, or until TIPS Member includes the cost of site preparation in a purchase order. Points will be assigned to this criterion based on your answer to this Attribute. Points are awarded if you agree not increase your catalog prices (as defined herein) more than X% annually over the previous year for years two and three and potentially year four, unless an exigent circumstance exists in the marketplace and the excess price increase which exceeds X% annually is supported by documentation provided by you and your suppliers and shared with TIPS, if requested. If you agree NOT to increase prices more than 5%, except when justified by supporting documentation, you are awarded 10 points; if 6% to 14%, except when justified by supporting documentation, you receive 1 to 9 points incrementally. 84 **Required Confidentiality Claim Form**

Required Confidentiality Claim Form
This completed form is required by TIPS. By submitting a response to this solicitation you agree to download from the “Attachments” section, complete according to the instructions on the form, then uploading the completed form, with any confidential attachments, if applicable, to the “Response Attachments” section titled “Confidentiality Form” in order to provide to TIPS the completed form titled, “CONFIDENTIALITY CLAIM FORM”. By completing this process, you provide us with the information we require to comply with the open record laws of the State of Texas as they may apply to your proposal submission. If you do not provide the form with your proposal, an award will not be made if your proposal is qualified for an award, until TIPS has an accurate, completed form from you.
Read the form carefully before completing and if you have any questions, email Rick Powell at TIPS at rick.powell@tips-usa.com

85	**Choice of Law clauses with TIPS Members** If the vendor is awarded a contract with TIPS under this solicitation, the vendor agrees to make any Choice of Law clauses in any contract or agreement entered into between the awarded vendor and with a TIPS member entity to read as follows: "Choice of law shall be the laws of the state where the customer resides" or words to that effect. Agreed
86	**Venue of dispute resolution with a TIPS Member** In the event of litigation or use of any dispute resolution model when resolving disputes with a TIPS member entity as a result of a transaction between the vendor and TIPS or the TIPS member entity, the Venue for any litigation or other agreed upon model shall be in the state and county where the customer resides unless otherwise agreed by the parties at the time the dispute resolution model is decided by the parties. Agreed
87	**Automatic renewal of contracts or agreements with TIPS or a TIPS member entity** This clause **DOES NOT** prohibit multiyear contracts or agreements with TIPS member entities. Because TIPS and TIPS members are governmental entities subject to laws that control appropriations of funds during their fiscal years for contracts and agreements to provide goods and services, does the Vendor agree to limit any automatic renewal clauses of a contract or agreement executed as a result of this TIPS solicitation award to not longer than "month to month" and at the TIPS contracted rate. Agreed
88	**Indemnity Limitation with TIPS Members** Texas and other states restrict by law or state Constitution the ability of a governmental entity to indemnify others. TIPS requires that any contract entered into between a vendor and TIPS or a TIPS Member as a result of an award under this Solicitation limit the requirement that the Customer indemnify the Vendor by either eliminating any such indemnity requirement clauses in any agreements, contracts or other binding documents **OR** by prefacing all indemnity clauses required of TIPS or the TIPS Member entity with the following: "To the extent permitted by the laws or the Constitution of the state where the customer resides, ". **Agreement is a required condition to award of a contract resulting from this Solicitation.** Agreed
89	**Arbitration Clauses** Except for certain circumstances, TIPS forbids a mandatory arbitration clause in any contract or agreement entered into between the awarded vendor with TIPS or a TIPS member entity. Does the vendor agree to exclude any arbitration requirement in any contracts or agreement entered into between TIPS or a TIPS member entity through an awarded contract with TIPS? Agreed
90	**Required Vendor Sales Reporting** By responding to this Solicitation, you agree to report to TIPS all sales made under any awarded Agreement with TIPS. Vendor is required to report all sales under the TIPS contract to TIPS. If the TIPS Member entity requesting a price from the awarded Vendor requests the TIPS contract, Vendor must include the TIPS Contract number on any communications with the TIPS Member entity. If awarded, you will be provided access to the Vendor Portal. To report sales, login to the TIPS Vendor Portal and click on the PO's and Payments tab. Pages 3-7 of the Vendor Portal User Guide will walk you through the process of reporting sales to TIPS. Please refer to the TIPS Accounting FAQ's for more information about reporting sales and if you have further questions, contact the Accounting Team at accounting@tips-usa.com. The Vendor or vendor assigned dealers are responsible for keeping record of all sales that go through the TIPS Agreement and submitting same to TIPS.

To: All TIPS Members

Re: TIPS Federal Funds Disclaimer and Information Sheet

To whom it may concern:

You have clicked on a link or otherwise sought to determine whether a specific TIPS Vendor on a specific TIPS Contract is EDGAR compliant. If the website states "No" to EDGAR compliance for that specific Vendor Contract, then the specific TIPS Vendor on that specific TIPS Contract is ***not EDGAR compliant***. If the website states "View Doc" to EDGAR compliance and you are linked to this letter, then TIPS has ensured the specific TIPS Vendor's compliance with 2 CFR 200 on the specified contract ***to the extent a cooperative can do so***, as described below.

Region 8 Education Service Center (Region 8 ESC) is a Texas Education Service Center which operates The Interlocal Purchasing System (TIPS), a purchasing cooperative and department of Region 8 ESC. This document certifies that Region 8 ESC and TIPS made every effort to comply with the most restrictive requirements of 2 CFR 200, identified for educational purposes as the Education Department General Administrative Regulations ("EDGAR"). Please note that federal funds not sourced from the US Department of Education are likely regulated by 2 CFR 200 but are not technically "EDGAR." Each federal agency and its corresponding state "pass-through" agency may interpret 2 CFR 200 differently. TIPS certifies that it competitively procures all awarded contracts pursuant to § 44.031 of the Texas Education Code, or Texas Government Code § 2269, as applicable, the most restrictive procurement method, and performs the most restrictive procurement method required by law and regulation, including all of the necessary steps outlined in 2 CFR 200, except the Price or Cost Analysis for purchases of $250,000 and greater. (See below). ***This letter certifies that the Vendor agreed to those 2 CFR 200 contract provisions for the specified contract.***

However, this TIPS certification cannot relieve Members of federal requirements that cannot reasonably be performed by cooperatives. For example, 2 CFR 200 requires a cost or price analysis for purchases over $250,000.00, a threshold adopted by TEA and the US Dept. of Education. TIPS does not perform a formal cost or price analysis because TIPS is not the entity making the actual purchase of goods or services. If a Vendor is awarded then TIPS has determined that the pricing is within the competitive range for the Vendor's offering. However, when required by law, the TIPS Member must perform the required analysis on the specific goods or services before seeking TIPS pricing/purchasing from the TIPS Vendor and then upon completion of the purchase process.

Additionally, due to the Texas Department of Agriculture Guidance ARM Section 17 ("ARM Section 17"), relating to Federal Child Nutrition Program Funds (Primarily Texas Public School Fund 240), requirement that all solicitations include specific quantities of goods or services purchased, TIPS Contracts are not in compliance with ARM Section 17 as a **stand-alone** purchase contract. This is because TIPS has no way of predicting which Members will purchase specific quantities of goods and services. However, for Federal Child Nutrition Fund purchases in which the ARM Section 17 required cost or price analysis has been performed by the Member, TIPS contracts may be used in conjunction with the Member's three quote process ***unless labeled with "No" as to EDGAR compliance***. See also ARM Section 17.84 addresses purchasing through a "Third Party Cooperative that does not follow USDA Procurement Regulations". This will include TIPS and possibly other cooperatives that do not specify the exact quantities and line items procured by the cooperative. See the latest ARM Section 17 here.

If this letter was linked or provided in relation to a specific Vendor Contract then the Vendor has agreed to the 2 CFR 200 Contract provisions. For our Members' benefit, we encourage you, when expending federal funds, to make certain that you understand and comply with any other 2 CFR 200 requirements that cannot necessarily be met on your behalf by a cooperative. We also encourage you to incorporate all 2 CFR 200 TIPS Contract provisions agreed to by the Vendor into all supplemental agreements you enter into with the TIPS Vendor, if any. While TIPS works very hard to ensure legal purchasing compliance on Members' behalf TIPS does not provide legal counsel to its Members. TIPS recommends that you consult your legal counsel when executing contracts with TIPS Vendors. TIPS reserves the right to change its process as necessary in relation to updated guidance. Thank you for being a Member of TIPS and for letting us assist with your procurement needs.

Lochte takes aim at 5th lap in Olympics

Tommy Birch
The Des Moines Register
USA TODAY Network

DES MOINES, Iowa – Swimming star Ryan Lochte still has plenty he wants to accomplish in his athletic career.

He prefers to keep the majority of his goals to himself. But he can't hide the most obvious.

"Those are my goals – the goals that I want to accomplish in the sport of swimming," Lochte said. "So I'm going to keep them to myself and keep everyone guessing. The most important one, I think everyone knows, is I want to make my fifth Olympic team."

Lochte is in the middle of that quest.

He's in Des Moines this week competing in the TYR Pro Swimming Series at MidAmerican Energy Company Aquatic Center at Wellmark YMCA. Lochte is one of more than 300 swimmers expected to compete in 28 events from Wednesday through Saturday.

Lochte, a swimming legend with 12 Olympic medals, 27 World Championship medals and a total of 90 medals in major international competitions, is one of the event's biggest headliners. And for good reason.

The spotlight has been shining on Lochte in and out of the pool for years. He's not just a decorated swimmer but one of the sport's most polarizing figures as a reality show star.

During the 2016 Olympics, Lochte was at the center of an international controversy when he falsely claimed that he and three other American swimmers had been robbed while in Rio de Janeiro. Lochte later apologized for lying about the incident, leading USA Swimming to suspend him from domestic and international competitions for 10 months.

Lochte was suspended again in 2018 for 14 months for using a prohibited intravenous infusion.

Lochte says he's grown from the controversies.

"I've grown dramatically," he said.

Ryan Lochte has won 12 Olympic medals and 27 World Championship medals. ROB SCHUMACHER/USA TODAY SPORTS

"I've really grown especially in the past three years, four years since 2016. I think I've grown so much. My life has changed so much. I'm a different person than I was. It's just amazing – I'm so happy with everything that's going on in my life that I'm excited to see what's in store for later on in my next chapter of life."

His hope is that it includes the sport's biggest stage again.

Lochte, who has been training in Florida, has been preparing for the Olympic Swim Trials in June. He said he spends his days swimming and weight training.

The rest of his time is dedicated to his wife and two kids.

The former reality television star said he's enjoying this stage in his life.

"That's basically my life right now," Lochte said. "I don't get naps or anything like that. It's basically swimming, going home and being a dad and a husband.

"I wouldn't change it for the world. It's the most fun I'm having right now."

The 35-year-old said feels great physically and believes he is still among the world's elite.

"I wouldn't be back in the water training this hard if I didn't believe in myself – that I could do it – beating my body up every day," Lochte said. "So I definitely feel like I do have a shot.

"It's going to be a lot harder than it's ever been in my entire life but I definitely believe I have a shot."

Fast pool lures Ledecky, Olympians to Des Moines

Tommy Birch
The Des Moines Register
USA TODAY

DES MOINES, Iowa – Olympic gold medalist Katie Ledecky had never been to Des Moines before this week. But the decorated swimmer had heard plenty about the central Iowa town before arriving for the TYR Pro Swim Series.

Ledecky talked to plenty of coaches and swimmers who experienced the event's first run at MidAmerican Energy Company Aquatic Center at Wellmark YMCA last year. They all said the same thing.

They loved it.

"Some of my fellow national team members – I remember training with a couple of them at a training camp right after they competed in Des Moines," Ledecky said. "They were all talking about how great the energy was and how Des Moines really put on a good show and they really treated the athletes well. Word travels and we all talk about meets. I've heard it quite a bit."

Ledecky will experience it firsthand this week when the marquee meet returns. She will be one of more than 300 swimmers from around the globe, including world champions, world record-holders, Olympic medalists and up-and-coming stars, who are expected to compete in the 28 events, which run from Wednesday through Saturday.

Des Moines is the third of five stops in the 2020 series, which includes events in Greensboro, North Carolina; Knoxville, Tennessee; Mission Viejo, California; and Indianapolis.

Katie Ledecky says of the TYR Pro Swim Series in Des Moines: "It'll be kind of a good launching point into the next block of training." KELVIN KUO/USA TODAY SPORTS

Des Moines' debut event last year was a resounding success for the city and the pool, which opened its doors in 2018.

Things went so well that an elite group of swimmers are now flocking to Des Moines to take part in it this time.

Caeleb Dressel, a two-time gold medalist at the 2016 Olympics, will be on hand. So will Simone Manuel, a four-time Olympic medalist, and Ryan Murphy, who won three golds in the 2016 Olympics.

Swimming legend Ryan Lochte, who has 12 Olympic medals and 27 World Championship medals, also will compete.

Lochte, who was suspended for 14th months in 2018 for receiving an intravenous infusion, wasn't eligible last time, but he's heard the same rave reviews of Des Moines from his training partners.

"They went last year and they just said how the pool was really fast," Lochte said. "Just like the crowd and everything that it was a really good swim meet. I was a little bummed that I couldn't swim or partake in that last year, but I'm very excited to be doing that this year."

The headliner of the event might be Ledecky, a two-time Olympian and winner of six Olympic medals. The 22-year-old, who owns the world record in the 400, 800 and 1,500 freestyle, has won more World Championship medals (18) than any other woman in the history of the sport.

She has her sights on adding to that impressive resume during the Olympic swim trials in June.

Ledecky said the trip to Des Moines plays a pivotal role in her journey back to the Olympics, especially with the 2020 Games just around the corner.

"It'll be a good test," Ledecky said. "We have a couple more meets between now and the Olympic trials, but each meet is a good marker and a good chance to see what I need to continue to work on over the next couple of months. It'll be kind of a good launching point into the next block of training."

Lochte, who has been training hard in Florida, said he was anxious to compete.

"It doesn't matter how hard you train in practice," Lochte said. "Practice is practice. "When you go to a swim meet, it matters about racing. And the more racing you do, the better you get. So any chance that I can get on those blocks and just race other people, it's better for me.

"I'm really, definitely looking forward to getting back into it and into the racing mode."

While Des Moines won't make or break any Olympic plans for competitors, it should be a solid – and entertaining – show for swimming fans, offering a possible preview of the some of the events in Tokyo this summer.

After hearing so much about Des Moines, Lochte said he's pumped to finally experience it.

"I'm very excited to go to Des Moines and get some quality racing in and have fun," he said.

Winning NC Central coach set for decade

Dan Wolken
USA TODAY

LeVelle Moton has a 199-126 record in 10 years as head coach at North Carolina Central. PETER CASEY/USA TODAY SPORTS

For an industry that loves to send bright young coaches up through the ranks, sometimes before they've proved anything on the court, it's somewhat puzzling that LeVelle Moton is still at North Carolina Central.

Moton, 45, is already responsible for the best stretch of basketball since the historically black university joined Division I, having won the Mid-Eastern Athletic Conference tournament four times with a possible fifth this weekend.

Even some of his former players are surprised he hasn't parlayed that success into a higher-profile job.

"We thought he was going to leave possibly going into my senior year because we came off such a great year and he showcased himself and was a hot commodity," said Jordan Parks, who was part of North Carolina Central's first NCAA tournament team in 2014. "He's a phenomenal coach. But it's hard to say because he has a strong bond with the university being an ex-player (at NCCU), being from Raleigh and doing all the things he's done. He wants to do culture-shifting things. He'd love to take N.C. Central and break that stigma of being just an HBCU basketball program."

But there's another factor to Moton's longevity at N.C. Central beyond just loyalty: his contract.

Out of the 62 Division I coaches at a public school whose contract terms USA TODAY Sports obtained for its annual pay survey, nobody has a longer-term deal than Moton, who is guaranteed to make $325,000 annually plus bonuses through the 2030-31 season.

Though the reasons for extending Moton's contract out that far after another NCAA tournament bid last season are likely easy to explain, North Carolina Central declined interview requests with any coach or administrator to discuss Moton's contract. "(Moton) does not want to draw attention to the details of his contract," spokesman Kyle Serba wrote in an email.

Those details, however, are both publicly available and relevant in understanding how a small school that competed in Division II until 2007 has rewarded a uniquely successful coach with job security that goes far beyond what his peers have been able to obtain.

After being elevated to head coach in 2009, he signed an eight-year contract on April 1, 2014, following the program's first NCAA tournament appearance. It was extended in 2017 for a new eight-year term, increasing his guaranteed salary from $250,000 to $288,000. But this time, it included a clause that Moton would automatically have a year added to the end of the contract (up to three years total) if N.C. Central won either the MEAC regular-season or tournament title. Finally, N.C. State sweetened Moton's deal again last spring after its third straight MEAC tournament title, extending the deal through 2030 with the same potential three-year rollover provision. Because of the Eagles' regular-season title, that means he will begin the 2020-21 season with 11 years remaining on his deal with a total of $3.575 million in salary guaranteed.

That level of commitment is justified, according to former player Kyle Benton, because Moton has proved the ability to sustain that success even though the roster changes significantly nearly every year. "The last three years there were times me and former players would look back and say, 'Hey, is this team going to be the same? But when MLK Day comes around, he says that's when his teams start to click," Benton said. "What has happened is North Carolina Central has become that target school people are either really scared of or really prepared to play. It's the other teams' championship game."

The success has given Moton the leverage to secure other contractual perks, including a courtesy car and a clause that was added in 2019 to pay for travel accommodations for his wife and children to half the team's road games and all postseason games.

Moton can earn a $1,000 bonus for every athlete who graduates within their five-year NCAA eligibility clock, $4,500 if the team reaches a 950 APR or a 3.0 GPA, $4,000 for winning 20 games, $7,500 for a MEAC regular-season title and $15,000 for winning the conference tournament.

But Moton's biggest potential bonus comes in the form of a one-time payment equal to 20% of the net revenue (minus travel expenses) N.C. Central collects for playing non-conference guarantee games if that total number reaches $250,000. Last year, under slightly different contract terms than he has in his new deal, that payout to Moton totaled $44,244.58.

The long-term commitment Central has already made could pay off if it keeps him around a few more years.

"He just knows what he's doing," Parks said. "He knows who to recruit, who fits into his program. He's not always looking for the best player, he's looking for the guy who is going to buy in and he'll showcase what it is you do well. I really think he has a few steps ahead of the other programs where he just knows how to get it done and what it takes to win. I truly believe he can do it at any level, not just the MEAC or HBCU level."

Often it's a struggle for coaches at HBCUs to get attention from schools in higher-level conferences, largely because the number of guarantee games they have to play to make their budget distorts their record. This season the Eagles started 3-10 playing against the likes of Georgia, Louisville and Wofford before proving themselves as MEAC's top team with a 13-3 league record.

Few know that reality as well as Cy Alexander, who won a combined six MEAC tournament titles at South Carolina State and North Carolina A&T before retiring in 2016. Alexander interviewed for numerous jobs over the years that would have paid him more money and given him a bigger platform but always found himself as the runner-up in those searches. He wonders if the same stigma has been attached to Moton.

"I don't think he loses a lot of sleep because he hasn't gotten that opportunity," Alexander said. "At some point maybe you say to yourself, 'I can keep winning championships and make history at my alma mater and I've taken care of my family real well.' That's what happened with me, and at some point you say make the best of where you are. You can become so frustrated that it takes your eye off the prize and the prize is still to try to win championships.

"But he deserves that opportunity. He's a great tactician and a genuine high-level Division I college basketball coach. He could coach at any level, and he's proven that with the success he's had."

The RFP will allow Benton County to select and retain a Construction Management firm to perform duties as listed. Responses will be reviewed, scored, and ranked according to the criteria defined in this solicitation document.

Any savings the construction manager/general contractor realizes in performing the public improvement contract will accrue to the County, unless the public improvement contract provides otherwise.

Specify terms and conditions that govern how the fixed price, guaranteed maximum price or other maximum price set forth in the public improvement contract will be determined and whether the price includes or is based on unit pricing or allows for work that is constructed in phases;

State that the County will not pay any amount that exceeds a fixed price, guaranteed maximum price or other maximum price specified in the public improvement contract unless the amount results from material changes to the scope of work set forth in the public improvement contract and the parties to the public improvement contract agree in writing to the material changes.

By the earlier of the date on which the County and a construction management firm agree on a fixed price, guaranteed maximum price or other maximum price or the date on which the construction manager/general contractor begins to solicit offers for construction services from subcontractors, the public improvement contract that the County negotiates with the construction management firm must:

(a) Describe the methods the construction management firm will use to qualify and select subcontractors. The methods must be competitive and should provide prospective subcontractors with a reasonable opportunity to participate in the construction management firm qualification and selection process.

(b) Identify the portions of the construction work under the public improvement contract for which the construction management firm may waive the qualification and selection process described in paragraph (a) of this subsection and describe:

(1) How the construction management firm may determine the portions of the construction work that will not be subject to the qualification and selection process described in paragraph (a) of this subsection; and

(2) The process the construction management firm will use to qualify and select prospective subcontractors for the portions of the construction work that are not subject to the qualification and selection process described in paragraph (a) of this subsection.

(c) Identify the conditions under which the construction management firm or an affiliate or subsidiary of the construction management firm may perform or compete with other prospective subcontractors to perform construction work under the public improvement contract and describe the methods the construction management firm will use to qualify and select an affiliate or subsidiary to perform the construction work.

(d) Describe how the construction management firm will announce which prospective subcontractors the construction management firm have selected to perform construction services in connection with the public improvement contract.

(e) Describe the conditions under which the construction management firm will discuss the qualification and selection process described in this subsection with a prospective subcontractor that the construction management firm did not select for a subcontract if the construction management firm receives a request from the prospective subcontractor to discuss the process.

Sourcewell's solicitation process complies with Minnesota law and policies, and results in cooperative contracting solutions from which Sourcewell's members procure equipment, products, and services.

Cooperative contracting provides members and vendors increased administrative efficiencies and the power of combined purchasing volume that result in overall cost savings. At times, Sourcewell also partners with other purchasing cooperatives to combine the purchasing volume of their membership into a single solicitation and contract expanding the reach of contracted vendors potential pool of end users.

Sourcewell uses a website-based platform, the Sourcewell Procurement Portal, through which all proposals to this RFP must be submitted.

B. MEMBERS AND USE OF RESULTING CONTRACTS

Membership in Sourcewell is open to government and non-profit entities across the United States and Canada; such as municipal, state/province, K-12 and higher education, tribal government, and other public entities. Access to contracted equipment, products, or services by Members is typically through a purchase order issued directly to the applicable vendor. A Member may request additional terms or conditions related to a purchase. Use of Sourcewell contracts is voluntary and Members retain the right to obtain similar equipment, products, or services from other sources.

For Canadian entities: This RFP is intended to include municipalities and publicly-funded academic institutions, school boards, health authorities, and social services (MASH sectors); including members of the Rural Municipalities of Alberta (RMA), and their represented Associations: Saskatchewan Association of Rural Municipalities (SARM), Saskatchewan Urban Municipalities Association (SUMA), and Association of Manitoba Municipalities (AMM).

II. EQUIPMENT, PRODUCTS, AND SERVICES

A. SOLUTIONS-BASED SOLICITATION

This RFP and contract award process is a solutions-based solicitation; meaning that Sourcewell is seeking equipment, products, or services that meet the general requirements of the scope of this RFP and that are commonly desired or are required by law or industry standards.

B. REQUESTED EQUIPMENT, PRODUCTS, OR SERVICES

It is expected that Proposers offer a wide array of equipment, products, or services at lower prices and with better value than what they would ordinarily offer to a single government entity, a school district, or a regional cooperative.

1. Sourcewell is seeking proposals for Furniture Solutions with Related Accessories and Services, for applications such as a) office, conference, lobby, lounge, common, collaboration, multi-purpose, and meeting spaces; b) classroom, lab, studio, and maker spaces; c) library, media, technology, or computer centers; and, d) food service or dining areas, student union spaces, and residence halls. Comprehensive solutions are sought for furniture types to include, but not be limited to:

a. Desks, chairs (folding and stackable), tables, modular walls, cubicles, seating (benches, fixed, stools, etc.), patio or outdoor, cabinets or integrated storage, and residential hall furnishings;

b. Related services including rental, design, installation, assembly, safety inspection, repair, renovation, refurbishment, and re-manufacture, retrofit or recycling services for the furniture solutions described above; and

c. Complementary offerings may include: office related storage and technology integrated furniture solutions.

A Proposer may elect to offer a materials-only solution, a turn-key solution, or an alternative solution. Generally, a turn-key solution is most desirable to Sourcewell and its Members, however, it is not mandatory or required.

This solicitation does not include those equipment, products, or services covered under categories included in contracts currently maintained by Sourcewell:

1. RFP#091719 Event Seating and Staging Solutions with Related Accessories and Services
2. RFP#040215 Storage Products or Systems with Related Accessories
3. RFP#081419 Technology Catalog Solutions

Proposers may include related equipment, accessories, and services to the extent that these solutions are complementary to the equipment, products, or service(s) being proposed.

Generally, the solutions for Sourcewell Members are turn-key solutions, providing a combination of equipment, products and services, delivery, and installation to a properly operating status. However, equipment or products only solutions may be appropriate for situations where Sourcewell Members possess the ability, either in-house or through local third-party contractors, to properly install and bring to operation those equipment/products being proposed.

Sourcewell prefers vendors that provide a sole source of responsibility for the products and services provided under a resulting contract. If Proposer requires the use of dealers, resellers, or subcontractors to provide the products or services, the Proposal should address how the products or services will be provided to Members and describe the network of dealers, resellers, and/or subcontractors that will be available to serve Sourcewell Members under a resulting contract.

Sourcewell desires the broadest possible selection of products/equipment and services being proposed over the largest possible geographic area and to the largest possible cross-section of Sourcewell current and potential Members.

C. REQUIREMENTS

It is expected that Proposers have knowledge of all applicable industry standards, laws, and regulations and possess an ability to market and distribute the equipment, products, or services to Members.

1. Safety Requirements. All items proposed must comply with current applicable safety or regulatory standards or codes.
2. Deviation from Industry Standard. Deviations from industry standards must be identified with an explanation of how the equipment, products, and services will provide equivalent function, coverage, performance, and/or related services.
3. New Equipment and Products. Proposed equipment and products must be for new, current model; however, Proposer may offer certain close-out equipment or products if it is specifically noted in the Pricing proposal.
4. Delivered and operational. Unless clearly noted in the Proposal, equipment and products must be delivered to the Member as operational.
5. Warranty. All equipment, products, supplies, and services must be covered by a warranty that is the industry standard or better.

D. ANTICIPATED CONTRACT TERM

Sourcewell anticipates that the term of any resulting contract(s) will be four (4) years. An extension may be offered based on the best interests of Sourcewell and its members.

E. ESTIMATED CONTRACT VALUE AND USAGE

Based on past volume of similar contracts, the estimated annual value of all transactions from contracts resulting from this RFP are anticipated to be USD $200M therefore, proposers are expected to propose volume pricing. Sourcewell anticipates considerable activity under the contract(s) awarded from this RFP; however, sales and sales volume from any resulting contract are not guaranteed.

F. MARKETING PLAN

Proposer's sales force will be the primary source of communication with Members. The Proposer's Marketing Plan should demonstrate Proposer's ability to deploy a sales force or dealer network to Members, as well as Proposer's sales and service capabilities. It is expected that Proposer will promote and market any contract award.

G. ADDITIONAL CONSIDERATIONS

1. Contracts will be awarded to Proposers able to best meet the need of Members. Proposers should submit their complete line of equipment, products, or services that are applicable to the scope of this RFP.
2. Proposers should include all relevant information in its proposal. Sourcewell cannot consider information that is not provided in the Proposal. Sourcewell reserves the right to verify Proposer's information and may request clarification from a Proposer, including samples of the proposed equipment or products.
3. Depending upon the responses received in a given category, Sourcewell may need to organize responses into subcategories in order to provide the broadest coverage of the requested equipment, products, or services to Members. Awards may be based on a subcategory.
4. A Proposer's documented negative past performance with Sourcewell or its Members occurring under a previously awarded Sourcewell contract may be considered in the evaluation of a proposal.

III. PRICING

A. REQUIREMENTS

All proposed pricing must be:

1. Either Line-Item Pricing or Percentage Discount from Catalog Pricing, or a combination of these:

a. **Line-item Pricing** is pricing based on each individual product or services**.** Each line must indicate the Vendor's published "List Price," as well as the "Contract Price."
b. **Percentage Discount from Catalog or Category** is based on a percentage discount from a catalog or list price, defined as a published Manufacturer's Suggested Retail Price (MSRP) for the products or services. Individualized percentage discounts can be applied to any number of defined product groupings. Proposers will be responsible for providing and maintaining current published MSRP with Sourcewell, and this pricing must be included in its proposal and provided throughout the term of any Contract resulting from this RFP.

2. The Proposer's ceiling price (Ceiling price means that the proposed pricing will be considered as the highest price for which equipment, products, or services may be billed to a Member). However, it is permissible for vendors to sell at a price that is lower than the contracted price;
3. Stated in U.S., and Canadian dollars for Proposers intending to sell in Canada (as applicable); and
4. Clearly understood, complete, and fully describe the total cost of acquisition (e.g., the cost of the proposed equipment, products, and services delivered and operational for its intended purpose in the Member's location).

Proposers should clearly identify any costs that are NOT included in the proposed product or service pricing. This may include items such as installation, set up, mandatory training, or initial inspection. Include identification of any parties that impose such costs and their relationship to the Proposer. Additionally, Proposers should clearly describe any unique distribution and/or delivery methods or options offered in the Proposal.

B. ADMINISTRATIVE FEES

Proposers are expected to pay to Sourcewell an administrative fee in exchange for Sourcewell facilitating the resulting contracts. The administrative fee is normally calculated as a percentage of the total sales to Members for all contracted equipment, products, or services made during a calendar quarter, and is typically one percent (1%) to two percent (2%). In some categories, a flat fee may be an acceptable alternative.

IV. CONTRACT

Proposers awarded a contract will be required to execute a contract with Sourcewell. Only those modifications the Proposer indicates in its proposal will be available for discussion. Much of the language in the Contract reflects Minnesota legal requirements and cannot be altered. Numerous and/or onerous exceptions that contradict Minnesota law may result in a proposal being disqualified from further review and evaluation.

To request a modification to the Contract terms, conditions, or specifications, a Proposer must complete and submit an Exceptions to Terms, Conditions, or Specifications Form, with all

requested modifications, through the Sourcewell Procurement Portal at the time of submitting the Proposer's response.

V. RFP PROCESS

A. PRE-PROPOSAL CONFERENCE

Sourcewell will hold an optional, non-mandatory pre-proposal conference via webcast on the date and time noted on page one of this RFP and on the Sourcewell Procurement Portal. The purpose of this conference is to allow potential Proposers to ask questions regarding this RFP and Sourcewell's competitive contracting process. Information about the webcast will be sent to all entities that requested a copy of this RFP through the Sourcewell Procurement Portal. Pre-proposal conference attendance is optional.

B. QUESTIONS REGARDING THIS RFP AND ORAL COMMUNICATION

Questions regarding this RFP must be submitted through the Sourcewell Procurement Portal. The deadline for submission of questions is found in the Solicitation Schedule and on the Sourcewell Procurement Portal. Answers to questions will be issued through an addendum to this RFP. Repetitive questions will be summarized into a single answer and identifying information will be removed from the submitted questions.

All questions, whether specific to a Proposer or generally related to the RFP, must be submitted using this process. Do not contact individual Sourcewell staff to ask questions or request information as this may disqualify the Proposer from responding to this RFP. Sourcewell will not respond to questions submitted after the deadline.

C. ADDENDA

Sourcewell may modify this RFP at any time prior to the proposal due date by issuing an addendum. Addenda issued by Sourcewell become a part of the RFP and will be delivered to potential Proposers through the Sourcewell Procurement Portal. Sourcewell accepts no liability in connection with the delivery of any addenda.

Before a proposal will be accepted through the Sourcewell Procurement Portal, all addenda, if any, must be acknowledged by the Proposer by checking the box for each addendum. It is the responsibility of the Proposer to check for any addenda that may have been issued up to the time for solicitation closing.

If an addendum is issued after a Proposer submitted its proposal, the Sourcewell Procurement Portal will WITHDRAW the submission and change the Proposer's proposal status to INCOMPLETE. The Proposer can view this status change in the "MY BIDS" section of the Sourcewell Procurement Portal Vendor Account. The Proposer is solely responsible to:

i) make any required adjustments to its proposal;
ii) acknowledge the addenda; and
iii) Ensure the re-submitted proposal is RECEIVED through the Sourcewell Procurement Portal no later than the closing time and date shown in the Solicitation Schedule.

D. PROPOSAL SUBMISSION

Proposer's complete proposal must be submitted through the Sourcewell Procurement Portal no later than the date and time specified in the Solicitation Schedule. Any other form of proposal submission, whether electronic, paper, or otherwise, will not be considered by Sourcewell. **Only complete proposals that are timely submitted through the Sourcewell Procurement Portal will be considered. Late proposals will not be considered.** It is the Proposer's sole responsibility to ensure that the proposal is received on time.

All proposals must be received through the Sourcewell Procurement Portal no later than the Proposal Due Date and time noted in the Solicitation Schedule above. It is recommended that Proposers allow sufficient time to upload the proposal and to resolve any issues that may arise. The closing time and date is determined by the Sourcewell Procurement Portal web clock.

In the event of problems with the Sourcewell Procurement Portal, follow the instructions for technical support posted in the portal. It may take up to twenty-four (24) hours to respond to certain issues.

Upon successful submission of a proposal, the Portal will automatically generate a confirmation email to the Proposer. If the Proposer does not receive a confirmation email, contact Sourcewell's support provider at support@bidsandtenders.ca.

To ensure receipt of the latest information and updates via email regarding this solicitation, or if the Proposer has obtained this solicitation document from a third party, the onus is on the Proposer to create a Sourcewell Procurement Portal Vendor Account and register for this solicitation opportunity.

All proposals must be acknowledged digitally by an authorized representative of the Proposer attesting that the information contained in in the proposal is true and accurate. By submitting a proposal, Proposer warrants that the information provided is true, correct, and reliable for purposes of evaluation for potential contract award. The submission of inaccurate, misleading, or false information is grounds for disqualification from a contract award and may subject the Proposer to remedies available by law.

Consider the following Questions and Answers to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

Question 1:

If a manufacturer enters a bid for this solicitation and lists a specific dealer as part of his bid, can the dealer also enter a bid listing the manufacturer's line of products and can both of them be awarded?

Answer 1:

Sourcewell does not limit the proposers in any given solicitation. Each proposer, in its discretion, will propose the equipment, products, and services that it deems to fall within Sourcewell's requested equipment, products, and services as described in RFP Section II. B (Requested Equipment, Products and Services). Proposals are evaluated based on the criteria stated in the RFP.

Question 2:

Is Sourcewell including Quebec in this solicitation?

Answer 2:

Sourcewell utilizes a competitive, solutions-based solicitation approach that is not based on detailed specifications, finite quantities, or set locations. Sourcewell members include thousands of governmental, higher education, K-12 education, not-for-profit, tribal government, and other public agencies located in the United States and Canada. However, this solicitation has not been posted in the French language, nor has it been advertised specifically in Quebec, which may impact the use of the awarded contracts within the province.

Question 3:

In section 4 of the sample contract provided regarding product and pricing change requests, the last bullet point states to include a complete restatement of pricing documentation in Microsoft Excel. Can you please confirm if the initial pricing must be in excel format or can we submit our price book only with an intended discount structure?

Answer 3:

Section 4, Product and Pricing Change Requests of the Contract Template is applicable once a vendor has a contract and needs to change pricing or add or subtract products from the initial proposed offering. It is left to the discretion of each proposer to determine and propose the pricing approach that aligns with their business methods and satisfies all the requirements of RFP Article III - Pricing. Proposals are evaluated based on the criteria stated in the RFP.

Addendum No. 11
Solicitation Number: RFP 121919
Solicitation Name: Furniture Solutions with Related Accessories and Services

Consider the following Question and Answer to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

Question 1:

We do not carry an insurance coverage required in the Sourcewell contract template. How should we address this in our response?

Answer 1:

To request a modification to the template Contract terms, conditions, or specifications, a Proposer may complete and submit the Exceptions to Terms, Conditions, or Specifications Form, which is found as the final Table of Step 1 – Specifications in the proposal submission process. The contract template will be completed and sent to each awarded vendor, with inclusion of any exceptions stated in the proposer's Exceptions to Terms, Conditions, or Specifications Form that are acceptable to Sourcewell, at the time of award notification.

Addendum No. 12
Solicitation Number: RFP 121919
Solicitation Name: Furniture Solutions with Related Accessories and Services

Consider the following Question and Answer to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

Question 1:

Regarding Table 11: Pricing & Delivery - Line Item 54, the detailed pricing data showing both our list prices as well as the Sourcewell discounted price for all SKUs expands some of the price lists beyond a standard letter size in landscape orientation, but works in 11 x 17 landscape orientation. Will this be an issue when submitting our pricing data in an electronic format?

Answer 1:

It is left to the discretion of each proposer to determine the content and format of the data and documentation that best represents their proposal. As mentioned in Addendum 3, a Proposer may navigate to Step 4 of the response process, select "Preview Bid" and then "Preview My Bid in PDF" to self-assess the output format. Sourcewell will consider the relevant information submitted in each proposal and apply the evaluation criteria as set forth in the RFP.
