To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Carlos Lastra, City Engineer
Date:	Tuesday, September 1, 2026
Agenda #:	Consideration and **ACTION** on **Resolution Number 2026-120**, to authorize the execution of an Advance Funding Agreement (AFA) between the City of Brownsville and the Texas Department of Transportation to implement major traffic signal improvement at the intersection of Palm Blvd and Jefferson St. (Engineering & Public Works Department).

Summary:
The City of Brownsville was awarded funding through the Category 8 – Highway Safety Improvement Program (HSIP), Off-System, for safety improvements at the intersection of Palm Blvd. and Jefferson St. The project will provide major traffic signal improvements intended to enhance intersection safety and operations.

Project Scope and Analysis:
The proposed action authorizes the execution of an Advance Funding Agreement (AFA) between the City of Brownsville and the Texas Department of Transportation (TxDOT) to implement major traffic signal improvements at the intersection of Palm Blvd. and Jefferson St. The project is funded through the Category 8 – Highway Safety Improvement Program (HSIP), On-System, and will support safety and operational improvements at the intersection.

Funding:

Source: 811-8111-9825 (Public Safety Capital Improvement – Traffic Signals)

Amount: $38,864

Local Contribution if Applicable:

Recommendation:
The City of Brownsville Engineering and Public Works Department recommends authorizing the execution of an Advance Funding Agreement between the City of Brownsville and the Texas Department of Transportation.

Commission Pillar:
Infrastructure

RESOLUTION AUTHORIZING EXECUTION OF AN ADVANCE FUNDING AGREEMENT (AFA) WITH THE TEXAS DEPARTMENT OF TRANSPORTATION FOR PALM BOULEVARD IMPROVEMENT TRAFFIC SIGNAL PROJECT (LIMITS 0.1 MI NE OF JEFFERSON ST TO 0.1 MI SW OF JEFFERSON ST)

WHEREAS, on August 21, 2025, via Minute Order 116997, the Texas Transportation Commission Authorized Palm Boulevard Improvement Traffic Signal Project (the "Project) to receive Category 8 Highway Safety Improvement Program (HISP) funds for project construction and Texas Department of Transportation (TxDOT) oversight; and

WHEREAS the CITY OF BROWNSVILLE is responsible for all non-reimbursable costs and 100% of overruns, if any; and

WHEREAS the Governing Body of CITY OF BROWNSVILLE desires to reaffirm its support of the Project, approve and authorize the execution of an Advance Funding Agreement (AFA) with TxDOT for the Project.

NOW, THEREFORE, BE RESOLVED BY THE CITY OF BROWNSVILLE THAT the MAYOR is authorized to enter into an AFA with TxDOT for this Project.

PASSED AND APPROVED on the 18 day of September 2026.

City of Brownsville

STATE OF TEXAS §

COUNTY OF TRAVIS §

ADVANCE FUNDING AGREEMENT
For
Highway Safety Improvement Program
Off-System

THIS AGREEMENT (Agreement) is made by and between the State of Texas, acting by and through the **Texas Department of Transportation** called the "State", and the **City of Brownsville, Texas**, acting by and through its duly authorized officials, called the "Local Government". The State and Local Government shall be collectively referred to as "the parties" hereinafter.

WITNESSETH

WHEREAS, federal law establishes federally funded programs for transportation improvements to implement its public purposes, and

WHEREAS, the Texas Transportation Code, Section 201.103 establishes that the State shall design, construct and operate a system of highways in cooperation with local governments, and Section 222.052 authorizes the Texas Transportation Commission to accept contributions from political subdivisions for development and construction of public roads and the state highway system within the political subdivision, and

WHEREAS, federal and state laws require local governments to meet certain contract standards relating to the management and administration of State and federal funds, and

WHEREAS, the Texas Transportation Commission has codified 43 TAC, Rules 15.50-15.56 that describe federal, state, and local responsibilities for cost participation in highway improvement and other transportation projects, and

WHEREAS, the Texas Transportation Commission passed Minute Order Number **116997** authorizing the State to undertake and complete a highway improvement or other transportation project generally described as **Traffic signal improvements.** The portion of the project work covered by this Agreement is identified in the Agreement, Article 3, Scope of Work (Project), and

WHEREAS, the Governing Body of the Local Government has approved entering into this Agreement by resolution, ordinance, or commissioners court order dated **{Enter Date of Resolution}**, which is attached to and made a part of this Agreement as Attachment C, Resolution, Ordinance, or Commissioners Court Order (Attachment C). A map showing the

DRAFT

TxDOT:					Federal Highway Administration:

AFA CSJs					CFDA Title	Highway Planning and Construction
District #	21	Code Chart 64#	05950			
Project Name		Palm BLVD Improvement Traffic Signal			*AFA Not Used For Research & Development*	

Project location appears in Attachment A, Location Map Showing Project (Attachment A), which is attached to and made a part of this Agreement.

NOW, THEREFORE, in consideration of the premises and of the mutual covenants and agreements of the parties, to be by them respectively kept and performed as set forth in this Agreement, it is agreed as follows:

AGREEMENT

1. Responsible Parties:

For the Project covered by this Agreement, the parties shall be responsible for the following work as stated in the article of the Agreement referenced in the table below:

1	**Local Government***	Utilities	Article 8
2.	**Local Government**	Environmental Assessment and Mitigation	Article 9
3.	**Local Government**	Architectural and Engineering Services	Article 11
4.	**State**	Construction Responsibilities	Article 12
5.	**Local Government***	Right of Way and Real Property	Article 14

An asterisk next to the party responsible for specific work in the above table indicates that the associated specific work is not anticipated as part of the Project and is therefore not included in the budget; however, the party indicated will be responsible for that specific work if that work is not the subject of another agreement and the State determines that the specific work has become necessary to successful completion of the Project.

2. Period of the Agreement

This Agreement becomes effective when signed by the last party whose signing makes the Agreement fully executed. This Agreement shall remain in effect until the Project is completed or unless terminated as provided below.

3. Scope of Work

The scope of work for the Project consists of traffic signal improvements at Palm Boulevard and Jefferson St which include the foundation and structural work (drill shafts), conduit and pull boxes (to protect electrical and comms wiring), traffic control devices and markings (roadway signage and pavement markings), traffic signal infrastructure (installation of signal poles, mast arms, signal heads and related hardware)

4. Project Sources and Uses of Funds

The total estimated cost of the Project is shown in Attachment B, Project Budget (Attachment B) which is attached to and made a part of this Agreement.

A. If the Local Government will perform any work under this Agreement for which reimbursement will be provided by or through the State, the Local Government

DRAFT

must complete training. If federal funds are being used, the training must be completed before federal spending authority is obligated. Training is complete when at least one individual who is working actively and directly on the Project successfully completes and receives a certificate for the course entitled "Local Government Project Procedures and Qualification for the Texas Department of Transportation" and retains qualification in accordance with applicable TxDOT procedures. Upon request, the Local Government shall provide the certificate of qualification to the State. The individual who receives the training certificate may be an employee of the Local Government or an employee of a firm that has been contracted by the Local Government to perform oversight of the Project. The State in its discretion may deny reimbursement if the Local Government has not continuously designated in writing a qualified individual to work actively on or to directly oversee the Project.

B. The expected cash contributions from the federal government, the State, the Local Government, or other parties are shown in Attachment B. The State will pay for only those Project costs that have been approved by the Texas Transportation Commission. For projects with federal funds, the State and the federal government will not reimburse the Local Government for any work performed before the federal spending authority is formally obligated to the Project by the Federal Highway Administration (FHWA). After federal funds have been obligated, the State will send to the Local Government a copy of the formal documentation showing the obligation of funds including federal award information. The Local Government is responsible for 100% of the cost of any work performed under its direction or control before the federal spending authority is formally obligated.

C. Attachment B shows, by major cost categories, the cost estimates and the party responsible for performing the work for each category. These categories may include but are not limited to: (1) costs of real property; (2) costs of utility work; (3) costs of environmental assessment and remediation; (4) cost of preliminary engineering and design; (5) cost of construction and construction management; and (6) any other local project costs.

D. The State will be responsible for securing the federal and State share of the funding required for the development and construction of the local Project. If the Local Government is due funds for expenses incurred, these funds will be reimbursed to the Local Government on a cost basis.

E. The Local Government will be responsible for all non-federal or non-State participation costs associated with the Project, unless otherwise provided for in this Agreement or approved otherwise in an amendment to this Agreement. For items of work subject to specified percentage funding, the Local Government shall only in those instances be responsible for all Project costs that are greater than the maximum State and federal participation specified in Attachment B and for overruns in excess of the amount specified in Attachment B to be paid by the Local Government.

F. The budget in Attachment B will clearly state all items subject to fixed price funding, specified percentage funding, and the periodic payment schedule, when periodic payments have been approved by the State.

DRAFT

G. When the Local Government bears the responsibility for paying cost overruns, the Local Government shall make payment to the State within thirty (30) days from the receipt of the State's written notification of additional funds being due.

H. When fixed price funding is used, the Local Government is responsible for the fixed price amount specified in Attachment B. Fixed prices are not subject to adjustment unless (1) differing site conditions are encountered; (2) further definition of the Local Government's requested scope of work identifies greatly differing costs from those estimated; (3) work requested by the Local Government is determined to be ineligible for federal participation; or (4) the adjustment is mutually agreed to by the State and the Local Government.

I. Prior to the performance of any engineering review work by the State, the Local Government will pay to the State the amount specified in Attachment B. At a minimum, this amount shall equal the Local Government's funding share for the estimated cost of preliminary engineering performed or reviewed by the State for the Project. At least sixty (60) days prior to the date set for receipt of the construction bids, the Local Government shall remit its remaining financial share for the State's estimated construction oversight and construction cost.

J. The State will not execute the contract for the construction of the Project until the required funding has been made available by the Local Government in accordance with this Agreement.

K. Whenever funds are paid by the Local Government to the State under this Agreement, the Local Government shall remit a check or warrant made payable to the "Texas Department of Transportation" or may use the State's Automated Clearing House (ACH) system for electronic transfer of funds in accordance with instructions provided by TxDOT's Finance Division. The funds shall be deposited and managed by the State and may only be applied by the State to the Project.

L. The State will not pay interest on any funds provided by the Local Government.

M. If a waiver for the collection of indirect costs for a service project has been granted under 43 TAC §15.56, the State will not charge the Local Government for the indirect costs the State incurs on the Project, unless this Agreement is terminated at the request of the Local Government prior to completion of the Project.

N. If the Local Government is an Economically Disadvantaged County (EDC) and if the State has approved adjustments to the standard financing arrangement, this Agreement reflects those adjustments.

O. Where the Local Government is authorized to perform services under this Agreement and be reimbursed by the State, the Local Government is authorized to submit requests for reimbursement by submitting the original of an itemized invoice, in a form and containing all items required by the State, no more frequently than monthly and no later than ninety (90) days after costs are incurred. If the Local Government submits invoices more than ninety (90) days after the costs are incurred and if federal funding is reduced as a result, the State shall have no responsibility to reimburse the Local Government for those costs.

P. Upon completion of the Project, the State will perform a final accounting of the Project costs for all items of work with specified percentage funding. Any funds

DRAFT

due by the Local Government, the State, or the federal government for these work items will be promptly paid by the owing party.

Q. The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under this Agreement or indirectly through a subcontract under this Agreement. Acceptance of funds directly under this Agreement or indirectly through a subcontract under this Agreement acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. An entity that is the subject of an audit or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

R. Payment under this Agreement beyond the end of the current fiscal biennium is subject to availability of appropriated funds. If funds are not appropriated, this Agreement shall be terminated immediately with no liability to either party.

5. Termination of This Agreement

This Agreement shall remain in effect until the Project is completed and accepted by all parties, unless:

A. The Agreement is terminated in writing with the mutual consent of the parties;

B. The Agreement is terminated by one party because of a breach, in which case any costs incurred because of the breach shall be paid by the breaching party;

C. The Local Government elects not to provide funding after the completion of preliminary engineering, specifications, and estimates (PS&E) and the Project does not proceed because of insufficient funds, in which case the Local Government agrees to reimburse the State for its reasonable actual costs incurred during the Project; or

D. The Agreement is terminated by the State because the parties are not able to execute a mutually agreeable amendment when the costs for Local Government requested items increase significantly due to differing site conditions, determination that Local government requested work is ineligible for federal or state cost participation, or a more thorough definition of the Local Government's proposed work scope identifies greatly differing costs from those estimated. The State will reimburse Local Government remaining funds to the Local Government within ninety (90) days of termination; or

E. The Project is inactive for thirty-six (36) consecutive months or longer and no expenditures have been charged against federal funds, in which case the State may in its discretion terminate this Agreement.

6. Amendments

Amendments to this Agreement due to changes in the character of the work, terms of the Agreement, or responsibilities of the parties relating to the Project may be enacted through a mutually agreed upon, written amendment.

DRAFT

7. Remedies

This Agreement shall not be considered as specifying the exclusive remedy for any agreement default, but all remedies existing at law and in equity may be availed of by either party to this Agreement and shall be cumulative.

8. Utilities

The party named in Article 1, Responsible Parties, under AGREEMENT shall be responsible for the adjustment, removal, or relocation of utility facilities in accordance with applicable state laws, regulations, rules, policies, and procedures, including any cost to the State of a delay resulting from the Local Government's failure to ensure that utility facilities are adjusted, removed, or relocated before the scheduled beginning of construction. The Local Government will not be reimbursed with federal or State funds for the cost of required utility work. The Local Government must obtain advance approval for any variance from established procedures. Before a construction contract is let, the Local Government shall provide, at the State's request, a certification stating that the Local Government has completed the adjustment of all utilities that must be adjusted before construction is commenced.

9. Environmental Assessment and Mitigation

Development of a transportation project must comply with the National Environmental Policy Act and the National Historic Preservation Act of 1966, which require environmental clearance of federal-aid projects. The party named in Article 1, Responsible Parties, under AGREEMENT is responsible for the following:

A. The identification and assessment of any environmental problems associated with the development of a local project governed by this Agreement.
B. The cost of any environmental problem's mitigation and remediation.
C. Providing any public meetings or public hearings required for the environmental assessment process. Public hearings will not be held prior to the approval of the Project schematic.
D. The preparation of the NEPA documents required for the environmental clearance of this Project.

If the Local Government is responsible for the environmental assessment and mitigation, before the advertisement for bids, the Local Government shall provide to the State written documentation from the appropriate regulatory agency or agencies that all environmental clearances have been obtained.

10. Compliance with Accessibility Standards

All parties to this Agreement shall ensure that the plans for and the construction of all projects subject to this Agreement are in compliance with standards issued or approved by the Texas Department of Licensing and Regulation (TDLR) as meeting or consistent with minimum accessibility requirements of the Americans with Disabilities Act (P.L. 101-336) (ADA).

DRAFT

11. Architectural and Engineering Services

The party named in Article 1, Responsible Parties, under AGREEMENT has responsibility for the performance of architectural and engineering services. The engineering plans shall be developed in accordance with the applicable State's *Standard Specifications for Construction and Maintenance of Highways, Streets and Bridges* and the special specifications and special provisions related to it. For projects on the State highway system, the design shall, at a minimum conform to applicable State manuals. For projects not on the State highway system, the design shall, at a minimum, conform to applicable American Association of State Highway and Transportation Officials (AASHTO) design standards.

In procuring professional services, the parties to this Agreement must comply with federal requirements cited in 23 CFR Part 172 if the Project is federally funded and with Texas Government Code 2254, Subchapter A, in all cases. Professional contracts for federally funded projects must conform to federal requirements, specifically including the provision for participation by Disadvantaged Business Enterprises (DBEs), ADA, and environmental matters. If the Local Government is the responsible party, the Local Government shall submit its procurement selection process for prior approval by the State. All professional services contracts must be reviewed and approved by the State prior to execution by the Local Government.

12. Construction Responsibilities

The party named in Article 1, Responsible Parties, under AGREEMENT is responsible for the following:

A. Advertise for construction bids, issue bid proposals, receive and tabulate the bids, and award and administer the contract for construction of the Project. Administration of the contract includes the responsibility for construction engineering and for issuance of any change orders, supplemental agreements, amendments, or additional work orders that may become necessary subsequent to the award of the construction contract. In order to ensure federal funding eligibility, projects must be authorized by the State prior to advertising for construction.

B. If the State is the responsible party, the State will use its approved contract letting and award procedures to let and award the construction contract.

C. If the Local Government is the responsible party, the Local Government shall submit its contract letting and award procedures to the State for review and approval prior to letting.

D. If the Local Government is the responsible party, the State must concur with the low bidder selection before the Local Government can enter into a contract with the vendor.

E. If the Local Government is the responsible party, the State must review and approve change orders.

F. Upon completion of the Project, the party responsible for constructing the Project will issue and sign a "Notification of Completion" acknowledging the Project's construction completion and submit certification(s) sealed by a professional engineer(s) licensed in the State of Texas.

DRAFT

G. For federally funded contracts, the parties to this Agreement will comply with federal construction requirements cited in 23 CFR Part 635 and with requirements cited in 23 CFR Part 633, and shall include the latest version of Form "FHWA-1273" in the contract bidding documents. If force account work will be performed, a finding of cost effectiveness shall be made in compliance with 23 CFR 635, Subpart B.

13. Project Maintenance

The Local Government shall be responsible for maintenance of locally owned roads and locally owned facilities after completion of the work. The State shall be responsible for maintenance of the State highway system after completion of the work if the work was on the State highway system, unless otherwise provided for in existing maintenance agreements with the Local Government.

14. Right of Way and Real Property

The party named in Article 1, Responsible Parties, under AGREEMENT is responsible for the provision and acquisition of any needed right of way or real property.

The Local Government shall be responsible for the following:

A. Right of way and real property acquisition shall be the responsibility of the Local Government. Title to right of way and other related real property must be acceptable to the State before funds may be expended for the improvement of the right of way or real property.

B. If the Local Government is the owner of any part of the Project site under this Agreement, the Local Government shall permit the State or its authorized representative access to occupy the site to perform all activities required to execute the work.

C. All parties to this Agreement will comply with and assume the costs for compliance with all the requirements of Title II and Title III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Title 42 U.S.C.A. Section 4601 et seq., including those provisions relating to incidental expenses incurred by the property owners in conveying the real property to the Local Government and benefits applicable to the relocation of any displaced person as defined in 49 CFR Section 24.2(g). Documentation to support such compliance must be maintained and made available to the State and its representatives for review and inspection.

D. The Local Government shall assume all costs and perform necessary requirements to provide any necessary evidence of title or right of use in the name of the Local Government to the real property required for development of the Project. The evidence of title or rights shall be acceptable to the State, and be free and clear of all encroachments. The Local Government shall secure and provide easements and any needed rights of entry over any other land needed to develop the Project according to the approved Project plans. The Local Government shall be responsible for securing any additional real property required for completion of the Project.

DRAFT

E. In the event real property is donated to the Local Government after the date of the State's authorization, the Local Government will provide all documentation to the State regarding fair market value of the acquired property. The State will review the Local Government's appraisal, determine the fair market value and credit that amount towards the Local Government's financial share. If donated property is to be used as a funding match, it may not be provided by the Local Government. The State will not reimburse the Local Government for any real property acquired before execution of this Agreement and the obligation of federal spending authority.

F. The Local Government shall prepare real property maps, property descriptions, and other data as needed to properly describe the real property and submit them to the State for approval prior to the Local Government acquiring the real property. Tracings of the maps shall be retained by the Local Government for a permanent record.

G. The Local Government agrees to make a determination of property values for each real property parcel by methods acceptable to the State and to submit to the State a tabulation of the values so determined, signed by the appropriate Local Government representative. The tabulations shall list the parcel numbers, ownership, acreage and recommended compensation. Compensation shall be shown in the component parts of land acquired, itemization of improvements acquired, damages (if any) and the amounts by which the total compensation will be reduced if the owner retains improvements. This tabulation shall be accompanied by an explanation to support the determined values, together with a copy of information or reports used in calculating all determined values. Expenses incurred by the Local Government in performing this work may be eligible for reimbursement after the Local Government has received written authorization by the State to proceed with determination of real property values. The State will review the data submitted and may base its reimbursement for parcel acquisitions on these values.

H. Reimbursement for real property costs will be made to the Local Government for real property purchased in an amount not to exceed eighty percent (80%) of the cost of the real property purchased in accordance with the terms and provisions of this Agreement. Reimbursement will be in an amount not to exceed eighty percent (80%) of the State's predetermined value of each parcel, or the net cost of the parcel, whichever is less. In addition, reimbursement will be made to the Local Government for necessary payments to appraisers, expenses incurred in order to assure good title, and costs associated with the relocation of displaced persons and personal property as well as incidental expenses.

I. If the Project requires the use of real property to which the Local Government will not hold title, a separate agreement between the owners of the real property and the Local Government must be executed prior to execution of this Agreement. The separate agreement must establish that the Project will be dedicated for public use for a period of not less than 10 (ten) years after completion. The separate agreement must define the responsibilities of the parties as to the use of the real property and operation and maintenance of the Project after

DRAFT

completion. The separate agreement must be approved by the State prior to its execution. A copy of the executed agreement shall be provided to the State.

15. Insurance

If this Agreement authorizes the Local Government or its contractor to perform any work on State right of way, before beginning work, the entity performing the work shall provide the State with a fully executed copy of the State's Form 1560 Certificate of Insurance verifying the existence of coverage in the amounts and types specified on the Certificate of Insurance for all persons and entities working on State right of way. This coverage shall be maintained until all work on the State right of way is complete. If coverage is not maintained, all work on State right of way shall cease immediately, and the State may recover damages and all costs of completing the work.

16. Notices

All notices to either party shall be delivered personally or sent by certified or U.S. mail, postage prepaid, addressed to that party at the following address:

Local Government:	**State:**
City of Brownsville ATTN City Manager 1001 E. Elizabeth ST Brownsville, Texas 78520	Texas Department of Transportation ATTN: Director of Contract Services 125 E. 11th Street Austin, TX 78701

All notices shall be deemed given on the date delivered in person or deposited in the mail, unless otherwise provided by this Agreement. Either party may change the above address by sending written notice of the change to the other party. Either party may request in writing that notices shall be delivered personally or by certified U.S. mail, and that request shall be carried out by the other party.

17. Legal Construction

If one or more of the provisions contained in this Agreement shall for any reason be held invalid, illegal, or unenforceable in any respect, such invalidity, illegality, or unenforceability shall not affect any other provisions and this Agreement shall be construed as if it did not contain the invalid, illegal, or unenforceable provision.

18. Responsibilities of the Parties

The State and the Local Government agree that neither party is an agent, servant, or employee of the other party, and each party agrees it is responsible for its individual acts and deeds as well as the acts and deeds of its contractors, employees, representatives, and agents.

19. Ownership of Documents

Upon completion or termination of this Agreement, all documents prepared by the State shall remain the property of the State. All data and information prepared under this

DRAFT

Agreement shall be made available to the State without restriction or limitation on their further use. All documents produced or approved or otherwise created by the Local Government shall be transmitted to the State, in the format directed by the State, on a monthly basis or as required by the State. The originals shall remain the property of the Local Government. .

20. Compliance with Laws

The parties to this Agreement shall comply with all federal, state, and local laws, statutes, ordinances, rules and regulations, and the orders and decrees of any courts or administrative bodies or tribunals in any manner affecting the performance of this Agreement. When required, the Local Government shall furnish the State with satisfactory proof of this compliance.

21. Sole Agreement

This Agreement constitutes the sole and only agreement between the parties and supersedes any prior understandings or written or oral agreements respecting the Agreement's subject matter.

22. Cost Principles

In order to be reimbursed with federal funds, the parties shall comply with the cost principles established in 2 CFR 200 that specify that all reimbursed costs are allowable, reasonable, and allocable to the Project.

23. Procurement and Property Management Standards

The parties to this Agreement shall adhere to the procurement and property management standards established in 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and to the Texas Uniform Grant Management Standards. The State must pre-approve the Local Government's procurement procedures for purchases to be eligible for state or federal funds.

24. Inspection of Books and Records

The parties to this Agreement shall maintain all books, documents, papers, accounting records, and other documentation relating to costs incurred under this Agreement and shall make such materials available to the State, the Local Government, and, if federally funded, the FHWA and the U.S. Office of the Inspector General or their duly authorized representatives for review and inspection at its office during the Agreement period and for seven (7) years from the date of final reimbursement by FHWA under this Agreement or until any impending litigation or claims are resolved. Additionally, the State, the Local Government, and the FHWA and their duly authorized representatives shall have access to all the governmental records that are directly applicable to this Agreement for the purpose of making audits, examinations, excerpts, and transcriptions.

25. Civil Rights Compliance

The parties to this Agreement are responsible for the following:

DRAFT

A. Compliance with Regulations: Both parties will comply with the Acts and the Regulations relative to Nondiscrimination in Federally-assisted programs of the U.S. Department of Transportation (USDOT), the Federal Highway Administration (FHWA), as they may be amended from time to time, which are herein incorporated by reference and made part of this Agreement.

B. Nondiscrimination: The Local Government, with regard to the work performed by it during the Agreement, will not discriminate on the grounds of race, color, or national origin in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The Local Government will not participate directly or indirectly in the discrimination prohibited by the Acts and the Regulations, including employment practices when the Agreement covers any activity, project, or program set forth in Appendix B of 49 CFR Part 21.

C. Solicitations for Subcontracts, Including Procurement of Materials and Equipment: In all solicitations either by competitive bidding or negotiation made by the Local Government for work to be performed under a subcontract, including procurement of materials or leases of equipment, each potential subcontractor or supplier will be notified by the Local Government of the Local Government's obligations under this Agreement and the Acts and Regulations relative to Nondiscrimination on the grounds of race, color, or national origin.

D. Information and Reports: The Local Government will provide all information and reports required by the Acts, the Regulations, and directives issued pursuant thereto, and will permit access to its books, records, accounts, other sources of information, and facilities as may be determined by the State or the FHWA to be pertinent to ascertain compliance with such Acts, Regulations or directives. Where any information required of the Local Government is in the exclusive possession of another who fails or refuses to furnish this information, the Local Government will so certify to the State or the FHWA, as appropriate, and will set forth what efforts it has made to obtain the information.

E. Sanctions for Noncompliance: In the event of the Local Government's noncompliance with the Nondiscrimination provisions of this Agreement, the State will impose such contract sanctions as it or the FHWA may determine to be appropriate, including, but not limited to:

1. withholding of payments to the Local Government under the Agreement until the Local Government complies and/or
2. cancelling, terminating, or suspending of the Agreement, in whole or in part.

F. Incorporation of Provisions: The Local Government will include the provisions of paragraphs (A) through (F) in every subcontract, including procurement of materials and leases of equipment, unless exempt by the Acts, the Regulations and directives issued pursuant thereto. The Local Government will take such action with respect to any subcontract or procurement as the State or the FHWA may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if the Local Government becomes involved in, or is threatened with, litigation with a subcontractor or supplier because of such direction, the Local Government may request the State to enter into such litigation to protect the interests of the State. In addition, the Local Government

DRAFT

may request the United States to enter into such litigation to protect the interests of the United States.

26. Pertinent Non-Discrimination Authorities

During the performance of this Agreement, each party, for itself, its assignees, and successors in interest agree to comply with the following nondiscrimination statutes and authorities; including but not limited to:

A. Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (pro-hibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21.

B. The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of federal or federal-aid programs and projects).

C. Federal-Aid Highway Act of 1973, (23 U.S.C. § 324 et seq.), as amended, (prohibits discrimination on the basis of sex).

D. Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 et seq.) as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27.

E. The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq.), (prohibits discrimination on the basis of age).

F. Airport and Airway Improvement Act of 1982, (49 U.S.C. Chapter 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex).

G. The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms “programs or activities” to include all of the programs or activities of the federal-aid recipients, subrecipients and contractors, whether such programs or activities are federally funded or not).

H. Titles II and III of the Americans with Disabilities Act, which prohibits discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131-12189) as implemented by Department of Transportation regulations at 49 C.F.R. parts 37 and 38.

I. The Federal Aviation Administration’s Nondiscrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex).

K. Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure

DRAFT

L. compliance with Title VI, the parties must take reasonable steps to ensure that LEP persons have meaningful access to the programs (70 Fed. Reg. at 74087 to 74100).

M. Title IX of the Education Amendments of 1972, as amended, which prohibits the parties from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq.).

27. Disadvantaged Business Enterprise (DBE) Program Requirements

If federal funds are used:

A. The parties shall comply with the Disadvantaged Business Enterprise Program requirements established in 49 CFR Part 26.

B. The Local Government shall adopt, in its totality, the State's federally approved DBE program.

C. The Local Government shall incorporate into its contracts with subproviders an appropriate DBE goal consistent with the State's DBE guidelines and in consideration of the local market, project size, and nature of the goods or services to be acquired. The Local Government shall submit its proposed scope of services and quantity estimates to the State to allow the State to establish a DBE goal for each Local Government contract with a subprovider. The Local Government shall be responsible for documenting its actions.

D. The Local Government shall follow all other parts of the State's DBE program referenced in TxDOT Form 2395, Memorandum of Understanding Regarding the Adoption of the Texas Department of Transportation's Federally-Approved Disadvantaged Business Enterprise by Entity, and attachments found at web address http://ftp.dot.state.tx.us/pub/txdot-info/bop/dbe/mou/mou_attachments.pdf.

E. The Local Government shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of any U.S. Department of Transportation (DOT)-assisted contract or in the administration of its DBE program or the requirements of 49 CFR Part 26. The Local Government shall take all necessary and reasonable steps under 49 CFR Part 26 to ensure non-discrimination in award and administration of DOT-assisted contracts. The State's DBE program, as required by 49 CFR Part 26 and as approved by DOT, is incorporated by reference in this Agreement. Implementation of this program is a legal obligation and failure to carry out its terms shall be treated as a violation of this Agreement. Upon notification to the Local Government of its failure to carry out its approved program, the State may impose sanctions as provided for under 49 CFR Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801 et seq.).

F. Each contract the Local Government signs with a contractor (and each subcontract the prime contractor signs with a sub-contractor) must include the following assurance: *The contractor, sub-recipient, or sub-contractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure*

DRAFT

by the contractor to carry out these requirements is a material breach of this Agreement, which may result in the termination of this Agreement or such other remedy as the recipient deems appropriate.

28. Debarment Certifications

If federal funds are used, the parties are prohibited from making any award at any tier to any party that is debarred or suspended or otherwise excluded from or ineligible for participation in Federal Assistance Programs under Executive Order 12549, "Debarment and Suspension." By executing this Agreement, the Local Government certifies that it and its principals are not currently debarred, suspended, or otherwise excluded from or ineligible for participation in Federal Assistance Programs under Executive Order 12549 and further certifies that it will not do business with any party, to include principals, that is currently debarred, suspended, or otherwise excluded from or ineligible for participation in Federal Assistance Programs under Executive Order 12549. The parties to this Agreement shall require any party to a subcontract or purchase order awarded under this Agreement to certify its eligibility to receive federal funds and, when requested by the State, to furnish a copy of the certification.

If state funds are used, the parties are prohibited from making any award to any party that is debarred under the Texas Administrative Code, Title 34, Part 1, Chapter 20, Subchapter G, Rule §20.585 and the Texas Administrative Code, Title 43, Part 1, Chapter 9, Subchapter G.

29. Lobbying Certification

If federal funds are used, in executing this Agreement, each signatory certifies to the best of that signatory's knowledge and belief, that:

A. No federal appropriated funds have been paid or will be paid by or on behalf of the parties to any person for influencing or attempting to influence an officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

B. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with federal contracts, grants, loans, or cooperative agreements, the signatory for the Local Government shall complete and submit the Federal Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

C. The parties shall require that the language of this certification shall be included in the award documents for all sub-awards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and all sub-recipients shall certify and disclose accordingly. Submission of this certification is a prerequisite for making or entering into this transaction imposed

DRAFT

by Title 31 U.S.C. §1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

30. Federal Funding Accountability and Transparency Act Requirements

If federal funds are used, the following requirements apply:

A. Any recipient of funds under this Agreement agrees to comply with the Federal Funding Accountability and Transparency Act (FFATA) and implementing regulations at 2 CFR Part 170, including Appendix A. This Agreement is subject to the following award terms: http://www.gpo.gov/fdsys/pkg/FR-2010-09-14/pdf/2010-22705.pdf and http://www.gpo.gov/fdsys/pkg/FR-2010-09-14/pdf/2010-22706.pdf.

B. The Local Government agrees that it shall:

1. Obtain and provide to the State a System for Award Management (SAM) number (Federal Acquisition Regulation, Part 4, Sub-part 4.11) if this award provides more than $25,000 in federal funding. The SAM number may be obtained by visiting the SAM website whose address is: https://www.sam.gov/portal/public/SAM/
2. Obtain and provide to the State a Data Universal Numbering System (DUNS) number, a unique nine-character number that allows federal government to track the distribution of federal money. The DUNS may be requested free of charge for all businesses and entities required to do so by visiting the Dun & Bradstreet (D&B) on-line registration website http://fedgov.dnb.com/webform; and
3. Report the total compensation and names of its top five executives to the State if:
   i. More than 80% of annual gross revenues are from the federal government, and those revenues are greater than $25,000,000; and
   ii. The compensation information is not already available through reporting to the U.S. Securities and Exchange Commission.

31. Single Audit Report

If federal funds are used:

A. The parties shall comply with the single audit report requirements stipulated in 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

B. If threshold expenditures of $1,000,000 or more are met during the fiscal year, the Local Government must submit a Single Audit Report and Management Letter (if applicable) to TxDOT's Compliance Division, 125 East 11th Street, Austin, TX 78701 or contact TxDOT's Compliance Division by email at singleaudits@txdot.gov.

C. If expenditures are less than the threshold during the Local Government's fiscal year, the Local Government must submit a statement to TxDOT's Compliance Division as follows: "We did not meet the $_____ expenditure threshold and therefore, are not required to have a single audit performed for FY _____."

DRAFT

D. For each year the Project remains open for federal funding expenditures, the Local Government will be responsible for filing a report or statement as described above. The required annual filing shall extend throughout the life of the Agreement, unless otherwise amended or the Project has been formally closed out and no charges have been incurred within the current fiscal year.

RESOLUTION, ORDINANCE, OR COMMISSIONERS COURT ORDER

DRAFT

Palm Blvd @ Jefferson St. (CSJ: 0921-06-387)

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Victoria De La LLata, Grants & Public Outreach Coordinator
Date:	Tuesday, September 1, 2026
Agenda #:	Consideration and **ACTION** to approve **Resolution Number 2026-124** the submission of Brownsville Metro's application to the Federal Transit Administration (FTA) FY 2026 Grants for Low or No Emissions Program $12,967,600 with $2,288,400 in local funds for the proposed project of vehicle expansion and replacement of vehicles. (Brownsville Metro)

Summary:
The project will fund 14 new transit vehicles, including 2 low-floor vehicles to support the Park & Ride Multimodal Transit Facility, 2 40-foot hybrid diesel buses for Express Connect service to the Port of Brownsville, and 6 35-foot hybrid diesel buses to replace vehicles that have surpassed the end of their useful life and 2 35- foot hybrid diesel buses to expand the fleet for the East to West Connector.

Project Scope and Analysis:
Purchase 14 transit vehicles, including 2 low-floor vehicles to support the Multimodal Transit Facility, 2 40-foot hybrid diesel buses for Express Connect service to the Port of Brownsville, and 10 35-foot hybrid diesel buses to replace vehicles that have reached beyond their useful life and expand the fleet. The project will improve fleet reliability, support service expansion, enhance regional connectivity, and provide more fuel-efficient transit options.

Agenda #:	Consideration and **ACTION** to approve **Resolution Number 2026-126** supporting Brownsville Metro's competitive grant application to the Federal Transit Administration (FTA) under the Bus and Bus Facilities Competitive grant program in the amount of $5,645,700 with local support of $1,411,425 to support the development of a Mulitmodal Transit Facility (Brownsville Metro)

Summary:
Brownsville Metro is seeking FTA funding to support the development of a Park & Ride & Multimodal Transit Facility near Downtown Brownsville between 12th & 13th street that will improve local and regional connectivity, enhance transit services, and expand transportation options for the community.

Project Scope and Analysis:
Development of a Park & Ride Multimodal Transit Facility near Downtown Brownsville under the overpass on 12th & 13th street to improve local and regional connectivity, integrate transit services, and provide convenient connections to other transportation modes. The Park & Ride includes 170 parking spaces, transit bays, ride-share pick-up zones, charging stations, enhanced lighting, a multi-use path and trail connectivity. Connection to the Mitte Culture, Gladys Porter Zoo, UTRGV shuttle connection, the heart of Downtown and the new BTX Connect Service. The project will strengthen Brownsville's role as a regional transportation hub, improve access to downtown destinations, and support future transit growth, mobility, and transit oriented development.

ATTEST:

Mayra A. Rios, TRMC
City Secretary

APPROVED AS TO FORM:

Guillermo (will) S. Trevino, City Attorney

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Martin Vega, Assistant Director of Land Development Services
Date:	Tuesday, September 1, 2026
Agenda #:	Consideration and **APPROVAL** on **SECOND** and **FINAL READING** on **Ordinance Number 235-2026-012**, to rezone from Residential Single-Family (R-1) to Residential Transition (R-3) to allow a townhome development for 3.205 acres out of Share 4, Espiritu Santo Grant, Cameron County, Texas, located at Vasquez Ranch Road, Brownsville Texas 78520, as shown in Exhibit "A". (District 4) (Planning & Redevelopment Department)

Summary:

Property owner, Spaceland Investments, LLC., proposes to change the Zoning Designation for 3.205 acres out of Share 4, Espiritu Santo Grant, Cameron County, Texas, located at Vasquez Ranch Road, Brownsville Texas 78520. The applicant requests to rezone the subject property from Residential Single-Family (R-1) to Residential Transition (R-3) to allow a townhome development.

The predominant land use in the surrounding area is undeveloped land. Additional uses, such as agricultural use and single-family residences, are also present within the vicinity.

The property is located within the Loop Corridor. The proposed use/zoning designation is consistent with the Future Land Use Map.

Project Scope and Analysis:

For context, the 3.205 acres subject to this rezoning request are part of a larger residential development known as Riverwoods Estates. The overall development, which is currently under review through the municipal platting process, consists of approximately 30.13 acres and was originally proposed to be subdivided into 133 single-family residential lots averaging approximately 5,000 square feet in area.

More recently, the developer revised the proposed development plan for the westernmost 3.205 acres of Riverwoods Estates, which abut and front Vasquez Ranch Road and comprise the area subject to this rezoning petition. Under the original development concept, this approximately 1,400-foot-long strip of land was proposed to contain 25 single-family residential lots averaging approximately 5,000 square feet. The developer is now proposing townhome lots averaging approximately 2,500 square feet, which would effectively double the number of residential lots, and potentially the number of individual driveways, fronting Vasquez Ranch Road.

Staff had previously advised the developer that direct driveway access for 25 individual residential lots along Vasquez Ranch Road would not be appropriate. As identified in the adopted Thoroughfare Plan, Vasquez Ranch Road is designated as a Rural

Collector and is intended to ultimately accommodate a 100-foot-wide right-of-way, extend northward to connect with West Alton Gloor Boulevard, carry greater traffic volumes, and accommodate higher operating speeds.

Consistent with accepted access-management practices and the requirements of the adopted Unified Development Code, continuous or closely spaced individual residential driveways are not permitted along Collector and Arterial roadways. Limiting direct driveway access along these roadways is intended to reduce vehicle conflict points, minimize repeated slowing and turning movements within the travel lanes, preserve roadway capacity, and reduce the potential for traffic-related accidents.

The applicant's revised proposal would increase the number of lots fronting Vasquez Ranch Road and, if each lot were provided with independent driveway access, would further increase the number of vehicle conflict points along the roadway. Staff therefore determined that additional access-management measures would be necessary to address potential long-term traffic safety concerns.

To provide the developer with an alternative that would allow the proposed townhome development to proceed while addressing these concerns, staff recommended two modifications to the rezoning request. First, staff recommended Residential Suburban (R-2) zoning in lieu of the requested Residential Transition (R-3) designation. The R-2 district would accommodate the proposed townhome use while representing a less intensive zoning designation than R-3, which also permits multifamily residential development by right.

Second, staff recommended that the zoning change be accompanied by a conditioned Planned Development District incorporating the following development standards:

• Prohibit individual lot access along the frontage of Vasquez Ranch Road, which is designated as a Rural Collector and requires an ultimate right-of-way width of 100 feet.

• Require the installation of a two-way cross-access easement or internal slip street with a minimum width of 30 feet within the proposed townhome development. Access to Vasquez Ranch Road would be limited to two consolidated access points, with one generally located near each end of the development. On-street parking along the cross-access easement or slip street would be prohibited in order to maintain adequate circulation for residents and emergency-response vehicles.

Staff met with the developer and presented these recommendations as an alternative that would allow the proposed townhome development to move forward while maintaining appropriate access management and addressing potential traffic-safety concerns along Vasquez Ranch Road.

Following those discussions, the developer submitted written correspondence indicating disagreement with staff's recommendations and requesting that the original petition proceed as submitted. Specifically, the applicant wishes to rezone the 3.205-acre tract to Residential Transition (R-3) without incorporating the access-management measures recommended by staff and without reducing the number of proposed driveways along Vasquez Ranch Road.

Because the request, as submitted, does not adequately address staff's access-management and traffic-safety concerns associated with increased residential driveway access along a designated Rural Collector, staff informed the applicant that the recommendation presented to the Planning and Zoning Commission would be a denial of the requested rezoning.

Funding:

Source: Fiscal Dept. Approval Not Required

Amount: N/A

Local Contribution if Applicable: N/A

Recommendation:

There was no written or verbal opposition at the Planning and Zoning Commission meeting on August 6, 2026. After listening to the findings of the Planning staff, the Planning and Zoning Commission decided to make a motion to deny the applicant's request to rezone to Residential Suburban (R-3) and move forward with staff's recommendation to rezone from Agriculture (AG) to Residential Suburban (R-2) tied to a conditioned Planned Development District subject to the design parameters mentioned above.

This item was approved by City Commission at 1st Reading on August 18, 2026, as per staff's recommendation.

Commission Pillar:
Planning & Zoning

1. Binder 235-2026-012-PD

ORDINANCE NUMBER 235-2026-012-PD

AN ORDINANCE AMENDING THE "CITY ZONING ORDINANCE" BY AMENDING THE OFFICIAL ZONING ATLAS TO REZONE FROM RESIDENTIAL SINGLE-FAMILY (R-1) TO RESIDENTIAL SUBURBAN (R-2) TO ALLOW A TOWNHOME DEVELOPMENT WITH AN INTERIOR ACCESS EASEMENT ESTABLISHED BY A PLANNED DEVELOPMENT DISTRICT (PDD) FOR 3.205 ACRES OUT OF SHARE 4, ESPIRITU SANTO GRANT, CAMERON COUNTY, TEXAS, LOCATED AT VASQUEZ RANCH ROAD, BROWNSVILLE, TEXAS 78520; AND DEALING WITH RELATED MATTERS INCLUDING $2000 PENALTIES.

WHEREAS, this ordinance is in accordance with the City's comprehensive plan; is consistent with the existing zoning surrounding the area to be rezoned; and bears a substantial relationship to the public health, safety, morals or general welfare; and all procedural requirements for the passage hereof have been met;

Be It Ordained by the City of Brownsville:

Section 1. That the City Commission of the City of Brownsville, Texas, hereby amends the "City Zoning Ordinance" by amending the Official Zoning Atlas to rezone from Residential Single-Family (R-1) to Residential Suburban (R-2) to allow a townhome development with an interior access easement established by a Planned Development District (PDD) for 3.205 acres out of Share 4, Espiritu Santo Grant, Cameron County, Texas, located at Vasquez Ranch Road, Brownsville, Texas 78520.

Section 2. The property described above and within the boundaries of the Planned Development District described by the ordinance establishes the following development-specific zoning regulations:

- Prohibit independent lot access along the frontage of Vasquez Ranch Road, a Rural Collector requiring a total right-of-way dedication of 100 feet.
- Require the installation of a two-way cross-access easement, or slip street, with a minimum width of 30 feet within the interior of the proposed townhome development, limiting access to Vasquez Ranch Road to two access points: one at the beginning of the block and one at the terminus. Parking along this cross-access easement shall be prohibited to permit the adequate flow of local traffic and emergency vehicles.

Section 3. That all provisions of the City of Brownsville Unified Development Code are incorporated herein by reference and declared to be a part hereof; and that this ordinance shall become effective on the earliest date allowed by law.

INTRODUCED at a public hearing on **August 18, 2026**. Passed at First Reading on **August 18, 2026**. PASSED at Second and Final Reading and ADOPTED, APPROVED, and ENACTED on **September 1**, **2026**.

STAFF REPORT

Planning & Redevelopment Department
Zoning Division
1034 E. Levee St. 2nd Floor
Brownsville, TX 78520
(956) 548-6150

APPLICATION DETAILS

Applicant/Representative: Wendy Rodriguez
Property Address: Vasquez Ranch Road / U.S. 281 (Military Hwy)
Application Type: Rezone w/PD
Current Zoning: Residential Single-Family (R-1)
Application Date: May 6, 2026
CC Meeting Dates: 1st-Aug. 18, 2026 / 2nd-Sept. 1, 2026
Overlay(s): None
No. of Mail-outs: 5 Total

Geo ID: 79-0400-0040-0301-00
Case No.: 235-2026-012-PD
Proposed Use: Townhomes w/ Interior Access Easement
Proposed Zoning: Residential Suburban (R-2) w/PD
P&Z Date: August 6, 2026
Electoral District: 4
Annexation Year: 1999
Opposition: No Verbal or Written Opposition

PROPERTY DETAILS

Legal Description: 3.205 acres out of Share 4, Espiritu Santo Grant, Cameron County, Texas, located at Vasquez Ranch Road, Brownsville, Texas 78520.
Roadway Frontage: The subject property is fronting Vasquez Ranch Road, a Collector.
Predominant Land Use: The predominant land use within the area is largely undeveloped land, with scattered single family residential and commercial uses.

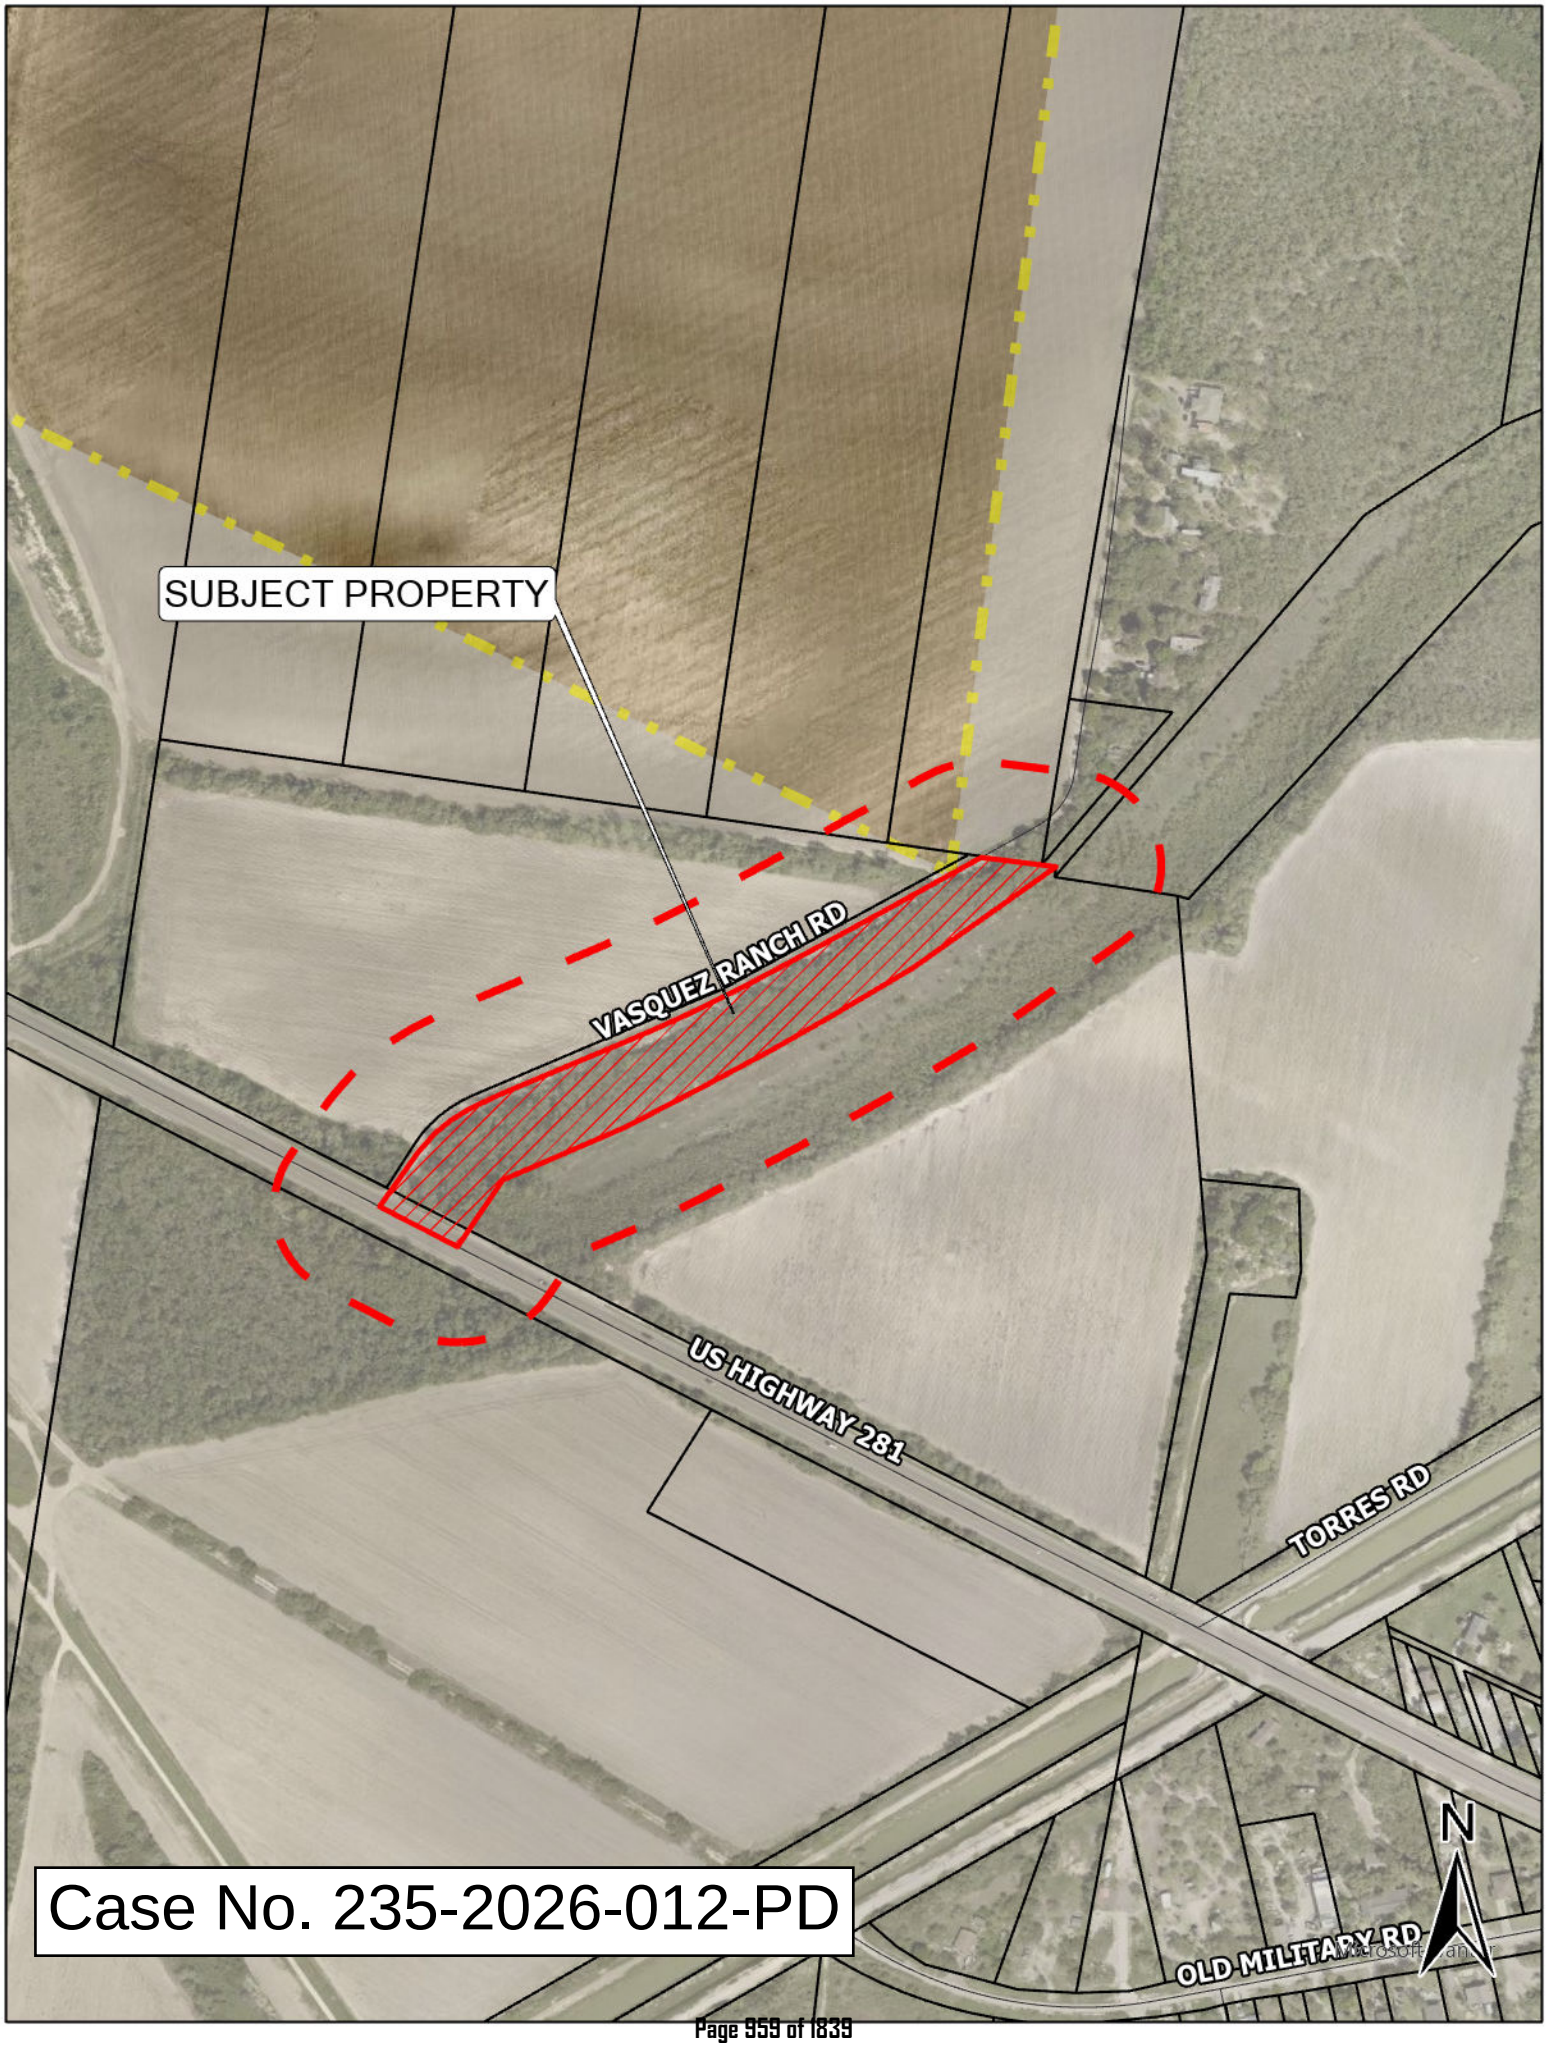
ABUTTING LAND USES (*SEE ATTACHED AERIAL VIEW MAP)*

North: Undeveloped Land, Extra Territorial Jurisdiction (ETJ)
East: Undeveloped Land
South: Undeveloped Land, Agricultural Use
West: Undeveloped Land

EXISTING ZONING DESIGNATIONS (*SEE ATTACHED ZONING MAP)*

North: Extra Territorial Jurisdiction (ETJ), Agricultural (AG)
East: Residential Single-Family (R-1), Agricultural (AG)
South: Residential Single Family (R-1)
West: Residential-Single Family (R-1)

FUTURE LAND USE PLAN (*SEE ATTACHED FUTURE LAND USE MAP)*



The City of Brownsville Future Land Use Plan indicates that the subject land is located within the Loop Corridor. Commercial uses are dominant but should include a healthy mixture of residential, institutional, industrial and community facility land uses. Residential land uses should be primarily single-family and attached apartment houses with an average density of 4 dwelling units per acre. It is the opinion of staff that the request is consistent with the Future Land Use Plan.

REVIEW CRITERIA

After an analysis of the subject property and its surrounding context, staff has determined that the proposed zoning and associated use would be generally compatible with adjacent existing zoning districts and land uses, and would not place significant or undue strain on existing public infrastructure, including water, wastewater, and transportation systems. Staff is recommending a Planned Development District with the following conditions: the installation of a 30-foot slip street, also referred to as an interior access drive, within the development to facilitate internal traffic circulation. The slip street should provide a shared ingress point at the beginning of the development's frontage and a shared egress point at the terminus of the development's frontage.

STAFF RECOMMENDATION

Based upon the analysis presented in this report and observations from the Planning & Redevelopment Department, staff recommends denial of the zoning change request from Residential Single Family (R-1) District to Residential Transition (R-3) District. Alternatively, staff recommends approval of a zoning change to Residential Suburban (R-2) District with a Planned Development District (PDD) to allow for townhome developments conditioned with specific requirements that would address access management of collector roadways (Vazquez Ranch Road).

METES AND BOUNDS DESCRIPTION
3.205 ACRES OUT OF SHARE 4,
ESPIRITU SANTO GRANT,
CAMERON COUNTY, TEXAS

A tract of land containing 3.205 acres situated in Cameron County, Texas, being a part or portion out of Share 4, Espiritu Santo Grant, said 3.205 acres were conveyed to Spaceland Investments LLC, by virtue of a Warranty Deed recorded in Document Number 2021-46643, Cameron County Official Records, said 3.205 acres also being more particularly described as follows:

COMMENCING at the Northwest corner of said Share 4;

THENCE, S 81° 28' 30" E along the North line of said Share 4, a distance of 1,597.69 feet to a point, for the Northwest corner and POINT OF BEGINNING of this herein described tract;

1. THENCE, S 81° 28' 30" E along the North line of said Share 4, a distance of 163.14 feet to a point for the Northeast corner of this tract;

2. THENCE, S 58° 00' 07" W a distance of 709.04 feet to a point for an outside corner of this tract;

3. THENCE, S 63° 57' 44" W a distance of 527.47 feet to a point for an inside corner of this tract;

4. THENCE, in a Southwesterly direction along a curve to the right with a central angle of 034° 40' 37", a radius of 99.00 feet, an arc length of 59.92 feet, a tangent of 30.91 feet, and a chord that bears S 46° 37' 25" W a distance of 59.01 to a point for an inside corner of this tract;

5. THENCE, S 29° 17' 04" W a distance of 60.02 feet to a point for the Southeast corner of this tract;

6. THENCE, N 60° 42' 56" W a distance of 77.61 feet to a point for the Southernmost Southwest corner of this tract;

7. THENCE, N 15° 46' 07" W a distance of 40.20 feet to a point for the Northernmost Southwest corner of this tract;

8. THENCE, N 29° 17' 04" E a distance of 31.68 feet to a point for an outside corner of this tract;

9. THENCE, in a Northeasterly direction along a curve to the right with a central angle of 034° 40' 37", a radius of 205.00 feet, an arc length of 124.07 feet, a tangent of 64.00 feet, and a chord that bears N 46° 37' 25" E a distance of 122.19 to a point for an inside corner of this tract'

10. THENCE, N 63° 57' 44" E a distance of 521.95 feet to a point for an inside corner of this tract;

11. THENCE, N 58° 00' 07" E a distance of 579.51 feet to the POINT OF BEGINNING and containing 3.205 acres of land, more or less.

I, ROBERTO N. TAMEZ, A REGISTERED PROFESSIONAL LAND SURVEYOR DO HEREBY AFFIRM THAT THIS METES AND BOUNDS DESCRIPTION REPRESENTS THE RESULTS OF A SURVEY MADE ON THE GROUND ON 01/23/2026 UNDER MY DIRECTION AND SUPERVISION.

Z:\Surveys\2024\24100.09\Metes & Bounds\3.205 ACRES METES AND BOUNDS Revised 5-6-2026.docx

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Martin Vega, Assistant Director of Land Development Services
Date:	Tuesday, September 1, 2026
Agenda #:	Consideration and **APPROVAL** on **SECOND** and **FINAL READING** on **Ordinance Number 235-2026-018**, to rezone from Agriculture (AG) to Residential Single-Family (R-1) to allow a single-family residential subdivision for all of Summer Lakes Subdivision Phase 4, Cameron County, Texas, located at Summerhill Boulevard, Brownsville, Texas 78520, as shown in Exhibit "A". (District 4) (Planning & Redevelopment Department)

Summary:

Property owner, Olmito Development, LLC., proposes to change the Zoning Designation for all of Summer Lakes Subdivision Phase 4, Cameron County, Texas, located at Summerhill Boulevard, Brownsville, Texas 78520. The applicant requests to rezone the subject property from Agricultural (AG) to Residential Single-Family (R-1) to allow a single-family residential development.

The predominant land use in the surrounding area is single-family dwelling. Additional uses, such as undeveloped land, are also present within the vicinity.

The property is located within the West Emerging District. The proposed use/zoning designation is consistent with the Future Land Use Map.

Project Scope and Analysis:

The subject property has an approximate area of 28.127 acres and will be site to Section 4 of Summer Lakes Subdivision. Within this residential development, the applicant is proposing 117 single-family lots having an average size of 6,000 square feet. To comply with the required minimum lot size, the property must be rezoned from Agriculture (AG), which requires a minimum lot size of 40,000 square feet, to Residential Single-Family (R-1), which requires a minimum lot size of 5,000 square feet.

Funding:

Source: Fiscal Dept. Approval Not Required

Amount: N/A

Local Contribution if Applicable: N/A

Recommendation:

There was no written or verbal opposition at the Planning and Zoning Commission meeting on August 6, 2026. The Planning and Zoning Commission approves this rezoning from Agriculture (AG) to Residential Single-Family (R-1).

This item was approved by City Commission at 1st Reading on August 18, 2026.

Commission Pillar:

Planning & Zoning

ORDINANCE NUMBER 235-2026-018

AN ORDINANCE AMENDING THE "CITY ZONING ORDINANCE" BY AMENDING THE OFFICIAL ZONING ATLAS TO REZONE FROM AGRICULTURE (AG) TO RESIDENTIAL SINGLE-FAMILY (R-1) TO ALLOW A SINGLE-FAMILY RESIDENTIAL SUBDIVISION FOR ALL OF SUMMER LAKES SUBDIVISION PHASE 4, CAMERON COUNTY, TEXAS, LOCATED AT SUMMERHILL BOULEVARD, BROWNSVILLE, TEXAS 78520.; AND DEALING WITH RELATED MATTERS INCLUDING $2000 PENALTIES.

WHEREAS, this ordinance is in accordance with the City's comprehensive plan; is consistent with the existing zoning surrounding the area to be rezoned; and bears a substantial relationship to the public health, safety, morals or general welfare; and all procedural requirements for the passage hereof have been met;

Be It Ordained by the City of Brownsville:

Section 1. That the City Commission of the City of Brownsville, Texas, hereby amends the "City Zoning Ordinance" by amending the Official Zoning Atlas To rezone from Agriculture (AG) to Residential Single-Family (R-1) to allow a single-family residential subdivision for all of Summer Lakes Subdivision Phase 4, Cameron County, Texas, located at Summerhill Boulevard, Brownsville, Texas 78520.

Section 2. That all provisions of the City of Brownsville Unified Development Code are incorporated herein by reference and declared to be a part hereof; and that this ordinance shall become effective on the earliest date allowed by law.

INTRODUCED at a public hearing on **August 18, 2026**. Passed at First Reading on **August 18, 2026**. PASSED at Second and Final Reading and ADOPTED, APPROVED, and ENACTED on **September 1, 2026**.

(956) 548-6150

APPLICATION DETAILS

Applicant/Representative: Jesus Trevino
Property Address: Summerhill Boulevard
Application Type: Rezone
Current Zoning: Agriculture (AG)
Application Date: July 6, 2026
CC Meeting Dates: 1st – August 18, 2026 / 2nd September 1, 2026
Overlay(s): None
No. of Mail-outs: 47

Geo ID: 79-1410-0060-0040-00
Case No.: 235-2026-0018
Proposed Use: Single-family residential subdivision
Proposed Zoning: Residential Single Family (R-1)
P&Z Date: August 6, 2026
Electoral District: 4
Annexation Year: 2005 / 2025
Opposition: No Verbal or Written Opposition

PROPERTY DETAILS

Legal Description: All of Summer Lakes Subdivision Phase 4, Cameron County, Texas, located at Summerhill Boulevard, Brownsville, Texas 78520.
Roadway Frontage: The subject property is fronting Summerhill Boulevard, a Collector.
Predominant Land Use: The predominant land use within the area is largely single family residential and undeveloped land.

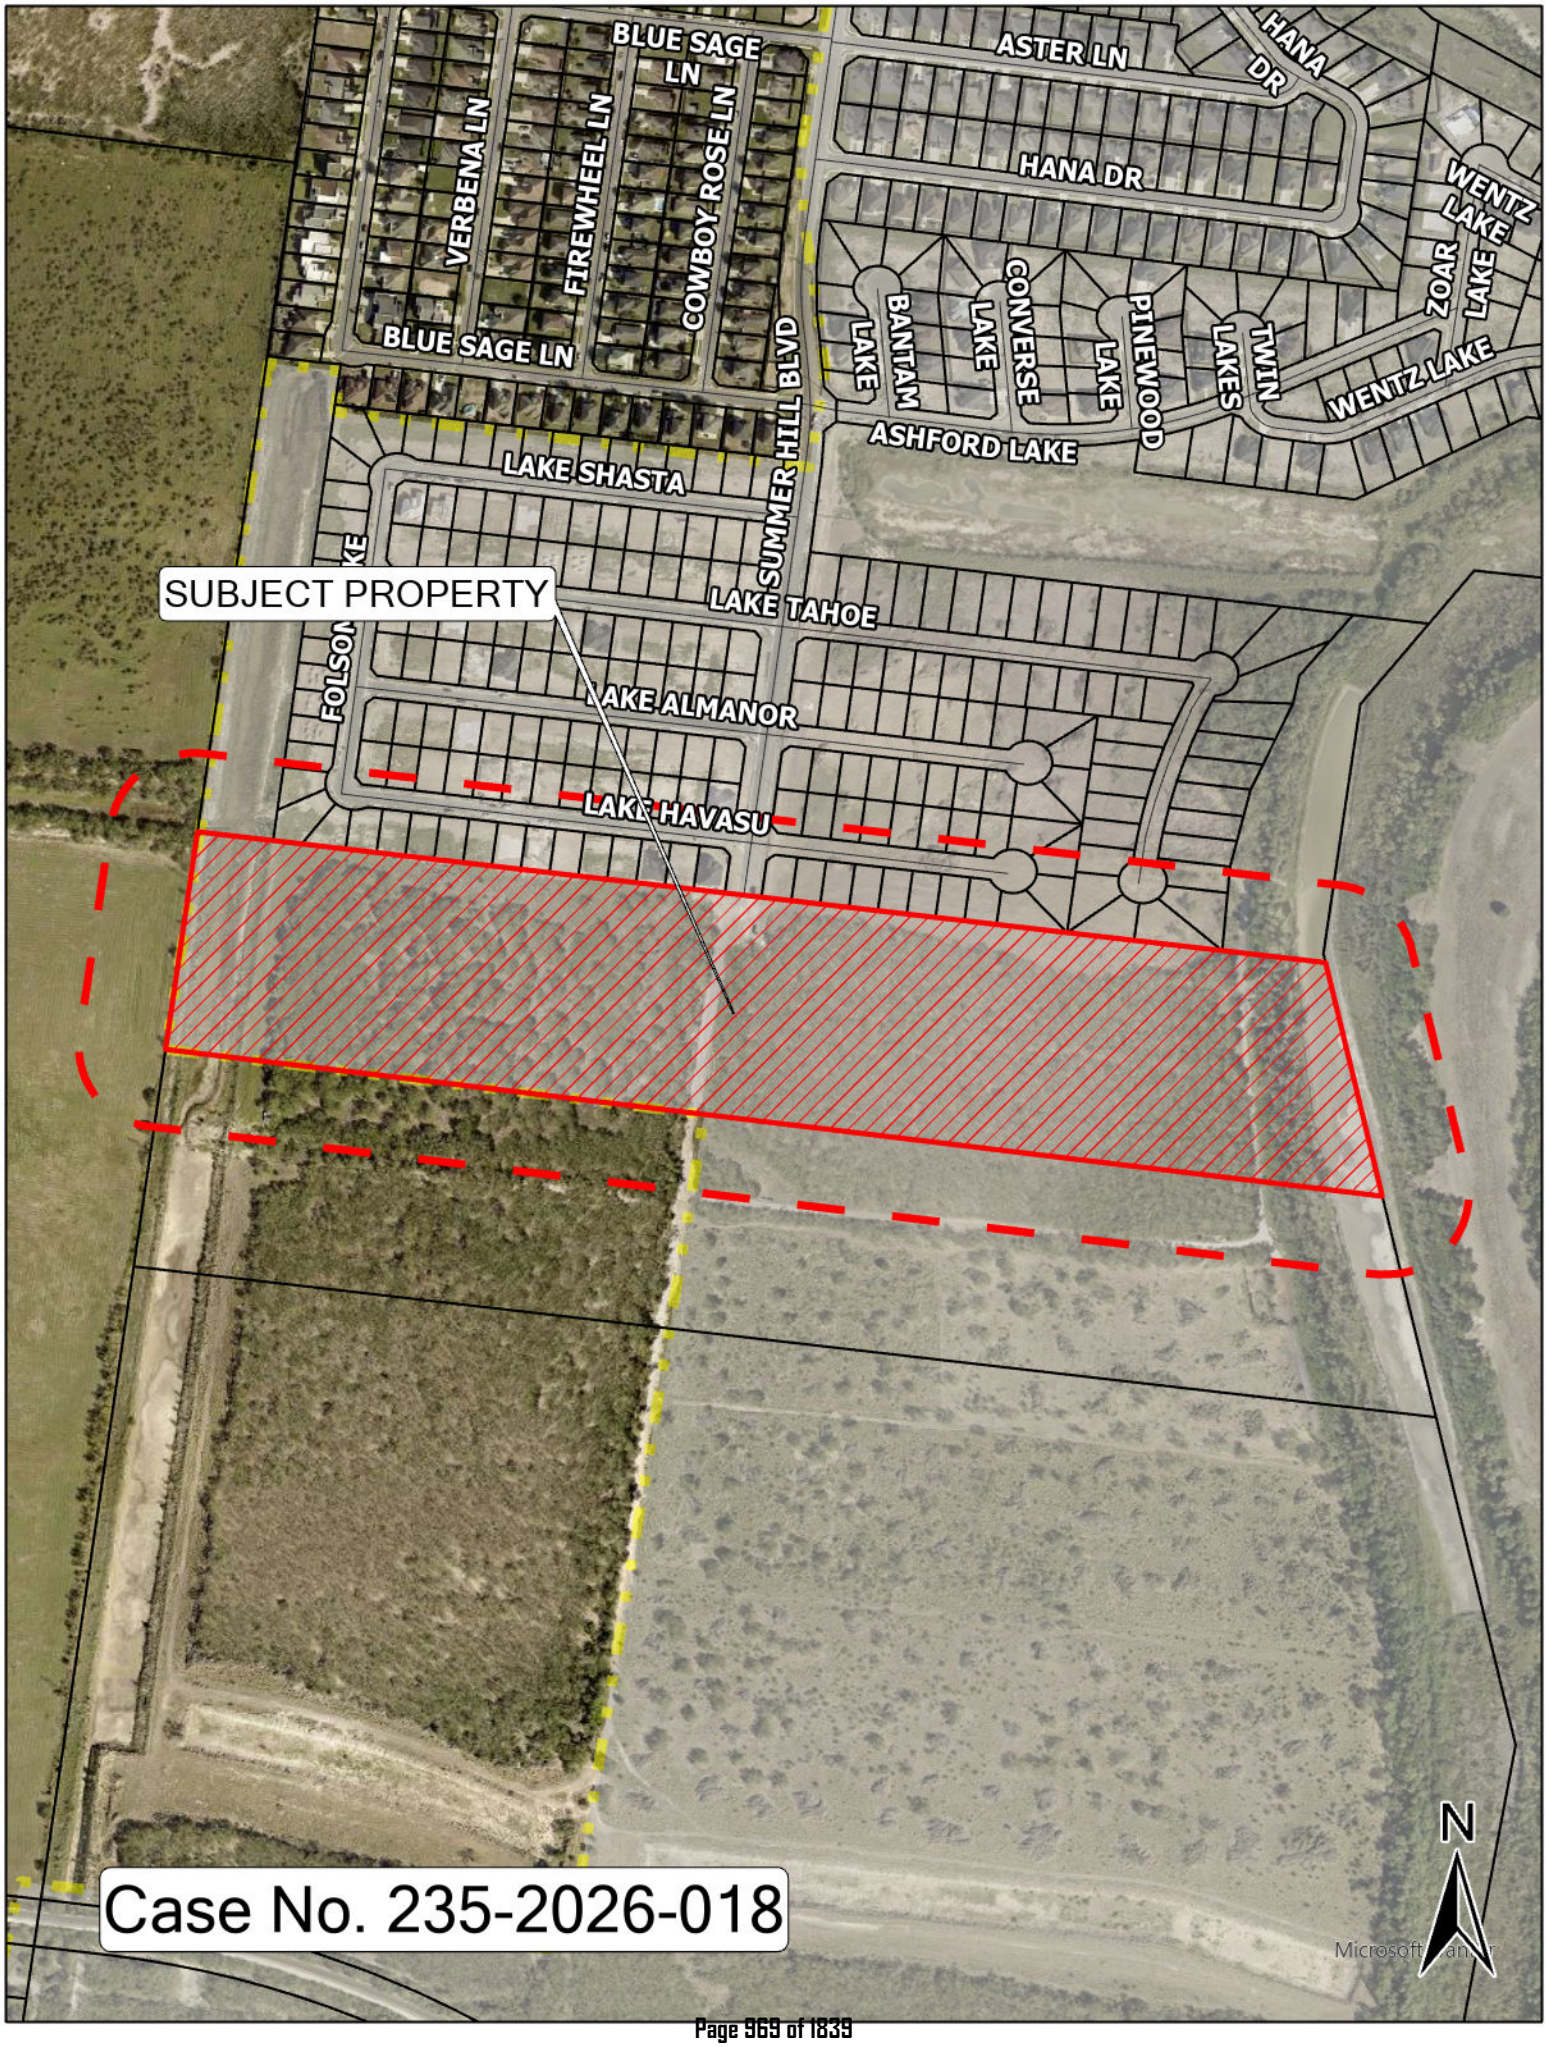
ABUTTING LAND USES (*SEE ATTACHED AERIAL VIEW MAP)*

North: Single Family Residential
East: Single Family Residential
South: Undeveloped Land, Extra Territorial Jurisdiction (ETJ)
West: Undeveloped Land, Extra Territorial Jurisdiction (ETJ)

EXISTING ZONING DESIGNATIONS (*SEE ATTACHED ZONING MAP)*

North: Residential Single Family (R-1)
East: Residential Single Family (R-1)
South: Agriculture (AG), Extra Territorial Jurisdiction (ETJ)
West: Extra Territorial Jurisdiction (ETJ)

FUTURE LAND USE PLAN (*SEE ATTACHED FUTURE LAND USE MAP)*



The City of Brownsville Future Land Use Plan indicates that the subject land is located within the Emerging City West District. This district should be predominantly residential consisting of primarily single-family on large lots with an average density of 1 dwelling unit per acre. Commercial uses should be in the form of community facilities such as schools, parks, preserves and institutional uses such as doctor and veterinarian centers are encouraged. It is the opinion of staff that the request is consistent with the Future Land Use Plan.

REVIEW CRITERIA

After an analysis of the subject property and its surrounding context, staff has determined that the proposed zoning and associated use would be generally compatible with adjacent existing zoning districts and land uses, and would not place significant or undue strain on existing public infrastructure, including water, wastewater, and transportation systems.

STAFF RECOMMENDATION

Based upon the analysis presented in this report and observations from the Planning & Redevelopment Department, staff recommends approval of the zoning change request from Agriculture (AG) District to Residential Single-Family (R-1) District.

ORDINANCE NUMBER 2026-1817

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF BROWNSVILLE, TEXAS, ADOPTING THE DOWNTOWN RENAISSANCE MASTER PLAN AS A LONG-RANGE POLICY GUIDE FOR THE REVITALIZATION, REINVESTMENT, AND DEVELOPMENT OF DOWNTOWN BROWNSVILLE; PROVIDING FOR IMPLEMENTATION; PROVIDING FOR SEVERABILITY; PROVIDING AN EFFECTIVE DATE; AND DEALING WITH RELATED MATTERS.

WHEREAS, the City Commission is authorized under the City Charter and applicable law to adopt plans and policies promoting coordinated development and the public health, safety, and general welfare; and

WHEREAS, the City of Brownsville desires to build upon Downtown Brownsville's cultural, historic, civic, educational, and economic assets and to coordinate public and private investment in a manner that advances the public health, safety, and general welfare; and

WHEREAS, the City, through its Planning and Redevelopment Department and in partnership with Freese and Nichols, Inc., prepared the Downtown Renaissance Master Plan (the "Plan") to establish a shared community vision and an implementation framework for Downtown Brownsville; and

WHEREAS, the planning process included workshops, stakeholder meetings, community events, open houses, online engagement, and presentations to different City boards and the City Commission beginning in August 2025, followed by public review of the draft Plan from June 25 through July 23, 2026; and

WHEREAS, the Plan responds to community priorities for heritage and identity; shade, safety, and cleanliness; housing and activation; amenities and placemaking; walkability and connectivity; and events and festivals; and

WHEREAS, the Plan provides recommendations and action items addressing the public realm, housing and mixed-use development, historic preservation and adaptive reuse, mobility, transportation and parking, economic development, catalyst projects, and phased implementation, including the Adams Street Paseo, Plaza Mayor, and the Switchyards; and

WHEREAS, the City Commission finds that adoption of the Plan will provide a coordinated roadmap for public and private investment and will support a Downtown that is more walkable, safe, shaded, active, clean, connected, and welcoming while preserving Brownsville's distinctive architectural and cultural identity; and

WHEREAS, the City Commission has determined that the Plan is consistent with the City's long-range planning objectives and that all procedural requirements for passage of this ordinance have been satisfied;

Be It Ordained by the City of Brownsville:

Section 1. The City Commission of the City of Brownsville, Texas, hereby adopts the Downtown Renaissance Master Plan, dated August 2026, as the City's long-range policy guide for Downtown Brownsville. The Plan is incorporated into this ordinance by reference as Exhibit "A" as if fully set forth herein. The official copy of the Plan shall be maintained by the City Secretary and the Planning and Redevelopment Department.

Section 2. The Plan shall guide future policy, programming, public-realm improvements, capital planning, partnerships, and public and private investment affecting Downtown Brownsville. The Plan is intended to serve as a flexible framework and shall be implemented in phases based on priorities, feasibility, available funding, and subsequent approvals required by law.

Section 3. The City Manager, or the City Manager's designee, is authorized to coordinate implementation of the Plan; evaluate and pursue grants, partnerships, and other lawful funding opportunities; and use the Plan in preparing recommendations for the annual budget, Capital Improvement Plan, policies, programs, and future projects. Any expenditure, contract, land acquisition, construction project, regulatory amendment, or other action requiring City Commission approval shall be presented separately for consideration and approval.

Section 4. If any provision, section, sentence, clause, or phrase of this ordinance is held to be invalid or unconstitutional by a court of competent jurisdiction, the remaining provisions shall remain in full force and effect.

Section 6. This ordinance shall become effective on the earliest date allowed by law following its final passage and approval.

INTRODUCED at a public hearing on **August 18, 2026**. PASSED at First Reading on **August 18, 2026**. Passed at Second and Final Reading and ADOPTED, APPROVED, and ENACTED on **September 1, 2026**.

1	5	*Comment too long to show in this table, see attachment for full comment.*
2	5	-
3	4	Thank you to the City Commission, Planning and Zoning Commission, and the consultant team for your comprehensive work on the Downtown Renaissance Master Plan. We appreciate the opportunity to provide feedback to help refine strategies for our city's future growth. Below are our specific comments and inquiries regarding key infrastructure, parking, and mobility areas across the master plan: 1. Pedestrian Infrastructure and Safety along North 6th and 7th Streets Observation: The northern area encompassing the Gladys Porter Zoo and Dean Porter Park welcoming over 1 million combined visitors annually highlights the critical need for robust pedestrian infrastructure. While these corridors have strong potential for walkability, current conditions lack sufficient marked crosswalks, adequate lighting, and cohesive wayfinding/signage. Recommendation / Question: Could the plan explicitly prioritize immediate pedestrian safety enhancements along the North 6th and 7th Street corridors (including high-visibility crosswalks, pedestrian-scale lighting, and wayfinding guides) to ensure safe navigation between major cultural destinations and surrounding neighborhoods? 2. Long-Term Parking Strategy for Northern Anchors (Gladys Porter Zoo & Dean Porter Park) Observation: Parking availability and traffic management around the zoo and Dean Porter Park continue to be significant challenges during peak hours and major community events. Recommendation / Question: To support future growth and multi-generational needs, how will comprehensive parking planning be incorporated into the northern boundary of the district? We would encourage the city to explore structured parking solutions, expanded shared-use agreements, or integrated transit/trolley connections to alleviate congestion at these key regional attractions. 3. Infrastructure Investment and Corridor Planning Toward South Brownsville Observation: The plan outlines exciting growth opportunities toward South Brownsville and international gateways. However, ensuring efficient travel times between North and South Brownsville will be essential to justifying large-scale infrastructure investments in this direction. Questions: Has a comprehensive traffic impact or travel-time feasibility study been conducted to evaluate transit speeds and connectivity between North and South Brownsville? Based on anticipated growth patterns, is the scale of investment in this direction aligned with long-term commercial and residential demand? Will the City be coordinating with the Texas Department of Transportation (TxDOT) to evaluate or design a dedicated major mobility corridor to efficiently handle increased traffic volume moving south? Thank you again for creating a plan of action for the Downtown Renaissance.

5	5	GOOD DAY EVERYONE, THE PDF LOOK GREAT AS A CONCEPT PROPOSAL. FIRST, ALLOW US TO GROUP THINK SAFETY...SOMETIMES, BEHIND THE CURTAIN AND NOT OBVIOUS...OR UNDERCOVER. SAFETY FIRST. SECOND, NEW PAINT JOBS ON THE BORDER AREA...LET'S MAKE IT LOOK NICE...MAYBE ADD AN ART FACADE TO THE BRIDGE AREA. IT WOULD HELP. THIRD, THAT EL PASO TROLLEY LOOKS COOL IF IT HAS AIR CONDITIONING. WE ALSO REQUIRE WAYMO. A BIG PART OF THE NIGHT LIFE IS NO DRINKING AND DRIVING...SO, WE NEED WAYMO. IT SOUNDS FANCY, WAYMO. IT IS NOVEL. FOURTH, THE BIG CONCEPTS IN RESTUARANTS HAVE TO ATTRACT INTERNATIONAL CHEF/OWNERS SORTA LIKE AUSTIN. WE NEED TO RECRUIT PEOPLE FROM AUSTIN OR CALIFORNIA ALL THE WAY TO WASHINGTON. FIFTH, WE NEED TO EXPAND THE PALATE, THE GUSTATORY PALATE, OF BROWNSVILLE RESIDENTS. MAYE, HAVE TARTAR NIGHT SOMEWHERE....IT'S QUITE DELICIOUS. SIXTH, MORE TREES IN BROWNSVILLE. SEVENTH, FIGURE OUT THE TRAFFIC HOTSPOTS AND STOP THEM FROM HAPPENING. EITGTH, MORE FESTIVALS AND AN EFFECTIVE NEWSLETTER SO THAT ALL CAN ATTEND. NINTH, REVENUE WILL COME. THANK YOU FOR ALLOWING ME, DR. ROBERTO "ROBBIE" GUERRERO III MD/JD Esq. TO COMMENT AND PROVIDE INPUT ON OUR GREAT CITY OF BROWNSVILLE, TEXAS.
6	5	I would like to see the addition of architectural lighting at Market Square building, to highlight it and start seeing it as a landmark. Give presence to what we currently have in the meantime of these major upgrades.

7	5	-
8	3	First, I would like to commend City staff and the consultant team for developing a comprehensive vision for the future of Downtown Brownsville. The plan does an excellent job of identifying character areas, improving mobility, enhancing public spaces, and creating a phased implementation framework that will help guide future public investment. It provides a strong physical planning foundation for Downtown's continued revitalization. As I reviewed the draft, I believe there is an opportunity to further strengthen the plan by expanding the economic development implementation strategy. While the document effectively outlines what should be accomplished, it could provide additional guidance on how Downtown's economic growth will be achieved and sustained over time. Specifically, I recommend consideration of the following: 1. Develop a Downtown Business Recruitment Strategy. Rather than generally recommending additional retail and restaurants, identify the types of businesses the City should actively recruit based on market gaps and desired visitor experiences. Examples could include destination dining, specialty retail, entertainment venues, boutique hospitality, and experiential businesses that encourage longer visits and increase Downtown activity. Assign implementation leadership. The Action Plan identifies several partner organizations, but assigning clearer leadership responsibilities for specific initiatives would strengthen accountability. Organizations such as BCIC, TIRZ, UTRGV, Visit Brownsville, Downtown Brownsville organizations, property owners, and other community partners each have unique roles that could be clearly defined. 2. Recognize existing economic development tools. Brownsville already has nationally recognized programs that directly support many of the plan's objectives, including BCIC's BIG Property Rehabilitation Program, Rental Reinvestment Program, and the eBridge Center. These programs are already helping activate vacant buildings, support adaptive reuse, attract businesses, and foster entrepreneurship. Identifying these existing initiatives as implementation tools would demonstrate that many of the recommendations are already underway and provide a roadmap for continued investment. 3. Expand the Innovation District strategy. The plan identifies the Innovation and University Connection as an important character area, but there is an opportunity to more intentionally leverage eBridge Center, UTRGV, Texas Southmost College, and other entrepreneurial resources to establish Downtown as South Texas' premier innovation district. 4. Establish measurable economic performance indicators. In addition to physical improvements, consider including metrics such as storefront occupancy, private investment leveraged, new business openings, jobs created, sales tax growth, upper-story residential occupancy, and pedestrian activity to measure the plan's long-term success. Overall, I believe this plan provides an outstanding framework for the physical revitalization of Downtown Brownsville. By incorporating a stronger economic development and business recruitment component, it can become a more comprehensive implementation guide that not only shapes Downtown's physical environment but also drives sustained investment, entrepreneurship, business growth, quality of life, and long-term economic vitality. Brownsville has made significant progress over the past several years, and this plan has the opportunity to build upon that momentum by fully integrating the public, private, nonprofit, and educational partners that are already contributing to Downtown's renaissance.
9	3	-

10	5	I love it! Implementation will be a challenge, but I think it's great. I live downtown on Adams St., so the plan affects me directly. In particularly I love the Adams St. Paseo, and it looks like you did a great job of taking cues from other cities in the US and Latin America. I do have some thoughts: -- What to do about truck traffic, both up 7th St. and along Adams St.? 7th St. is designated a "Truck Route," so that would have to change. Also, a lot of trucks transit down Adams St. to make deliveries to stores and restaurants downtown, but this could be an issue for the Paseo. What is the plan for that? -- International Blvd. is a major thoroughfare leading to and from Matamoros. It also makes it difficult to get to downtown from the TSC/UTRGV campus. I saw something about creating a corridor to facilitate passage between the campus and downtown but didn't see any details about it. How can movement across International be facilitated without creating traffic problems? UTRGV, in particular, suffers from a relative lack of eating options -- could there be a free shuttle to downtown from the UTRGV campus? -- The plan calls for a small plaza that mirrors the existing plaza on Adams St. at Market Square. However, there is a building there and there are currently two successful businesses in it. In particular, it is the home of the Kraken Lounge, which has popular live music shows. What happens to those businesses? -- There is a large area of undeveloped open space just outside of the study area that extends southeast from the corner of Palm Blvd. and Mexico Blvd and north and east of the Riverside Idea school (there's also a small housing development there. The area closest to Mexico Blvd. could be developed as an event center for things like Sombrero Fest, which has outgrown Washington Park. But a big part of it is heavily forested with native plants and significant levels of wildlife (I've seen coyotes, deer, and a wild pig, along with prints from many other species while on walks with my dogs). It would be great to preserve the forested area, which would offset some of the development north of ITEC and would also be a strong attraction for people who live in the area. -- The plan refers to the "reimagined Washington Park," but doesn't include any details. As I live adjacent to the Park, I am concerned about what that might include, and while I did hear about some proposals, I have some concerns about what that might entail. If these changes are being driven, in part, by the needs of Sombrero Fest, I want to emphasize my earlier comment that Sombrero Fest has outgrown Washington Park and needs to relocate. In fact, I would suggest that no significant changes should be made purely for the sake of Sombrero Fest, which is not certain to remain in Washington Park.
11	-	It has been my observation that the painting of the colorful murals is not the best for this town. I think we need to limit it or to just one location. The recent murals are looking rather tasteless and do not go well with what this town is about.
12	-	The painting on the walls is ghetto. Please stop!!!!!!!!!
13	-	Public art: Please please please limit buildings with excessive bright neon colors and graffiti such as Smoke Shops, Tobacco Stores, and Murals to avoid the city of Brownsville becoming an eye sore. Garish, fluorescent, and mismatched color schemes ruin the architectural integrity of our city.
14	-	In regards to the "Activate" section, Page 102, Public Art: While I appreciate the city's enthusiasm for public art, the current density of commissioned murals in the downtown area is becoming visually overwhelming. I request that the Master Plan include clear caps or stricter spacing limits on public murals. We need to protect the raw, historic brick facades of our historic buildings from being painted over. Public art should complement our historic architecture, not compete with it or crowd out the authentic historic aesthetic of downtown.
15	5	As a resident who values our local aesthetics, I strongly support the historic preservation and public space goals in this Master Plan. However, I want to request that the city implements stricter, cohesive design and color palette standards for commercial corridors connecting to downtown, similar to the regulations used in neighboring South Padre Island. This will prevent visual blight, such as smoke shops painting entire buildings in garish, ultra-bright colors, which detracts from the cultural integrity and welcoming atmosphere of Brownsville.
16	5	Very good idea for the future Brownsville so it will continue to grow in the right direction.
17	5	-
18	5	It would be great to see more green spaces, covered walkways, and better lighting to make the area feel safer and more comfortable for everyone. It would also be great to attract a wider variety of stores, including more affordable shopping and dining options, so families have more choices and can enjoy spending time together in the area.
19	5	-
20	5	This is the attention that Downtown needs to be a great city like others in Texas. Keep it going! I hope we get to acomplish this plan soon!
21	5	-
22	5	-
23	5	Great job being transparent

24	5	Diego Aguirre - Brownsville resident, UTRGV biology student. I read the full draft, and I'd like to flag three specific additions: 1. Solar shade canopies on the plan's proposed parking structures. Chapters 4 (Transform) and 7 (Get Around) both propose new structured parking on land the city or county already owns, but none of the eight chapters mention solar, photovoltaic, or renewable energy anywhere. Putting solar canopies on those garage roofs and over nearby plazas would deliver the shade Chapter 6's â€œProvision of Shadeâ€section names as a top community need, generate power, and protect vehicles from hail â€” current federal commercial solar incentives would help offset the cost. 2. Public shade infrastructure on Elizabeth Street. Chapter 6 states plainly that Elizabeth and Washington's rights-of-way are too narrow for street trees, and defers that shade to private building canopies and awnings. Downtown's busiest commercial street shouldn't depend on individual property owners choosing to build shade. I'd ask the plan commit to engineered public shade structures there instead. 3. Pair the new garages with parking-minimum reform. Chapter 5 (Live) names parking requirements as a cost barrier to the infill and adaptive-reuse housing this plan wants, but stops short of recommending a change. Reducing downtown parking minimums alongside the new structured parking would free existing surface lots for that housing, and a parking-benefit district could reinvest garage/meter revenue directly into the streetscape and shade improvements the plan already calls for. One more note: the city's own Unified Development Code already requires interior shade trees in multifamily parking lots ” one per ten spaces (UDC §4.6.3)” but has no equivalent requirement for commercial lots. Closing that gap downtown would be consistent with a rule the city has already adopted elsewhere. Diego Aguirre
25	-	1. The city should have an ordinance setting minimum standards for the care and appearance of downtown buildings. Currently many of the buildings need a paint job, some have rusted metal gates, fading old signs, torn awnings, etc. (many cities with historic downtown areas hold buildings owners responsible for the care of their properties) 2. A parking garage is needed. 3.A pedestrian walk between 10th and 13th on Elisabeth street should be considered.
26	5	It's fantastic to see the City prioritize lighting for safety and walkability in the evening!
27	3	I am supportive of the overall long-term idea but think it is both too micro-managing of downtown's growth and fatalistic of the overall possibilities. The zoning that rules downtown is too confusing and overbearing; two simple uses - "central mixed-use" and "historic sector", the first consisting of everything besides the main tourist corridors, allowing for midrises (which could even be prescribed to follow design guidelines to make them fit the downtown aesthetic) and the second within the real historic sector, would give developers clear rules on what to build, making it so that new residents can actually live downtown, increasing the income of the neighborhood, lowering the age of its residents, and boosting commercial metrics as well as BMetro usage (as more people would likely use the bus given that everything is closer to one another). This can also include other more minor reforms like point access blocks, etc. Please consider this. There is a unique opportunity for Brownsville to be proactive, not reactive, to its challenges, and the city should take it.
28	-	It's unbelievable how much money the city is spending and wants to keep on spending on downtown when there's lots of roads and street lights to fix and add. Specifically in the low income neighborhoods. Downtown is being rebuilt for the 1% of Brownsville rich people.
29	5	-

30	-	Good morning, I drove up and down Adams Street and Washington Street to see what the restaurant area looks like and how walkable the area is for future development. I agree with many of the recommendations but would like to address the dilapidated homes on many of the downtown streets. What is being done to address this situation and improve the look of downtown? Are there city codes that require properties be maintained in a livable condition? What can be done to remove properties that cannot be repaired? I like the idea of a trolley that circles the downtown area so people can park and ride to the restaurants or shopping area. For seniors, locals and Winter Texans, the walkability of the sidewalks downtown could be smoother because falling is a major concern of seniors. Thank you for allowing me to comment.
31	0	Quit ruining downtown. Move your projects somewhere else. Fix the roads, especially Pablo Kisel between Morrison and Alton Gloor.
32	5	-
33	5	-
34	-	As a resident and business owner in the Riverfront area, I am deeply concerned that while this project appears to have support at both the state and federal levels, progress at the local level has remained limited. The Riverfront represents one of Brownsville's greatest untapped economic opportunities, yet it has not received the same level of strategic attention as other redevelopment areas, such as the Downtown Tax Increment Reinvestment Zone (TIRZ). Additionally, the Riverfront does not appear to be meaningfully incorporated into the City's long-term master plan for redevelopment. This raises an important question: **Why isn't the Riverfront a central part of Brownsville's vision for economic growth and revitalization?** Major private investmentsâ€”such as the proposed hotel developmentâ€”depend on coordinated public infrastructure, long-term planning, and economic development incentives. Without these tools, attracting investment becomes significantly more difficult, and opportunities that could create jobs, increase tourism, expand the tax base, and improve quality of life risk being lost. If Brownsville is truly committed to a citywide renaissance, shouldn't the Riverfront be recognized as one of its premier redevelopment corridors rather than an underutilized asset? I believe our community deserves a clear explanation of the City's vision for the Riverfront and a commitment to ensuring that this unique area receives the attention and investment necessary to reach its full potential.
35	5	Keep up the great work. -Bejarano
36	4	The master plan is missing the river boardwalk between the Gateway and B&M. For such a large master plan this is a huge oversite.
37	5	Yes! Proceed with rebranding these areas. The latest news for the Brownsville area is that we have a new company coming to the Port of Brownsville that will be building high tech marine vessels. With that said, it will bring new residents to our town from many different regions. Brownsville's downtown must be ready to provide quality spaces with meaningful attractions so that our current residents and new residents may enjoy. Brownsville must continue to keep up with the pace of new times!
38	-	I was born an raised in Brownsville all my life. I feel the parking is outdated. In the center of downtown every one wants to park, while the outskirts of downtown no parking?. Solution make the outskirts cheaper so customers can get a discount, and perhaps raise the parking in the center of downtown? J walking is wrong in the downtown. Can you please put a sign not to cross in the middle of the street, It doesn't have to be in force, hopefully it can prevent excitement, I have had several close calls. There's no place like HOME!! Brownsville!
39	3	-
40	5	-

41	5	The plan is outstanding, Downtown leadership and Manager Garces have been truly involved in the past few years, the change is undeniable. It's been amazing to see how much downtown has grown, with more local businesses, public art, events, and people spending time in the area, downtown has really come to life. One of the biggest changes has been giving residents the opportunity to participate and have their voices heard. That level of community involvement wasn't something we had seen before, and it has made a real difference in creating a downtown that reflects the people who live here. The progress over the last few years has been exciting, and this plan is a great next step to keep that momentum going. Thank you to everyone who has worked to make Downtown Brownsville a place our community can be proud of.
42	-	It is my opinion and strong believe that the City Mayor and the Commission doesn't care what the citizens of Brownsville would like to see or what we suggest would be better for our City. Furthermore here's one instead of pumping so much money and energy into the downtown project, the City needs and should focus more on redoing all of the City streets that still need to be done. The City Resacas is another issue the City keeps saying that the Resacas were going to be dredged and cleaned yet nothing has been done about that because most of the City's Rescas are not dredged and very dirty. I've tried to reach out several times with concerns to the City Commissioners Linda Mancias and Bryan Martinez and they both fail to respond, but when Election time comes around all of them come around to push agendas. I am not against making the Downtown area look nice and inviting but the City Government needs to stop pushing the rest of the City to the back burner, it should be about the entire City not just the Downtown area...
43	5	-
44	5	Throughout this project I would encourage the continued use of utilizing plant life that makes Brownsville beautiful. For the additions in the green spaces, native plants and trees would require less watering and would showcase the local beauty. I would also encourage more outdoor seating venues. Brownsville has enjoyable evenings with mild winters that would be ideal for outdoor options. Lastly, I'd encourage the continuation of integrating the culture of the city towards these projects. This is what makes a destination unique.
45	-	Parking needs more parking. There is also lack of lighting on the streets and some streets should be closed to make it more of a walkable space and safer.
46	4	-
47	2	-
48	-	6th street connect to ITEC. Creek behind ITEC trim trees & dredge. Via de las Americas. Amphitheater at the end of rail to trail, behind Danny's Restaurant. Open small room at El Jardin with historic memorabilia for tourists. Open Capitol theater. Historical Assoc needs to make hunter room docs available to public. Historic officer needs to post Historic pics & significance for abandoned buildings to incentivize development. Public private partnerships with parking lots to stay open late, to regulate towing. Contact abandoned property owner & do listing of spots for leasehold improvement program with tenants.
49	-	Walking/bike trail from B&M bridge using existing levee to connect to Palm Blvd. AND walking/bike path from Gateway Bridge to B&M Bridge. Thank you
50	4	I don't see the project on the riverfront that has been talked about for years in the plan. All of the changes that are being proposed are great. The riverfront project that has been talked about would make downtown Brownsville a true destination and allow the existing businesses to grow.
51	4	-
52	5	Chapter 4 in the switchyard development there NEEDS to be a building that will be the tallest building in Brownsville and maybe even as tall or taller than the chase bank tower in McAllen to showcase Brownsville is the real powerhouse of the valley. Thought as long as we have MULTIPLE high rise buildings in the area it's good because currently Brownsville only has three buildings that could be considered for its small skyline so we more nine- ten story developments and that area is the perfect spot.
53	1	Always trying to copy other cities and always falling short. What about local ideas for locals that attracts outsiders to peak in. If I want x, I'll go to x not to a second hand imitation.
54	5	-
55	5	-
56	4	Priority should be given to practical projects that directly support downtown businesses and improve the community, such as repairing sidewalks, installing additional lighting, planting trees, and addressing vacant storefronts. The city should also continue supporting downtown through successful community events, such as First Friday. Stop wasting time/resources on developers from California building "riverfront"... not feasible

57	5	Urbanization and revitalization is a must in reinvigorating life to a historic downtown with great cultural significance. Infill development, high density housing, mixed use environments, and pedestrianized corridors making the neighborhood feel more connected. A lot of the suggestions support these sentiments and are very great for the future trajectory of downtown Brownsville as a underrated destination.
58	5	-
59	5	I'd love to see the plan place a stronger emphasis on expanding housing opportunities in downtown. Having more people living downtown is essential for supporting local businesses, creating a vibrant atmosphere beyond business hours, and driving long-term economic growth and redevelopment. I also think the plan should encourage the activation of second-floor residential spaces through redevelopment and incentive programs. Bringing these underutilized spaces back into use as housing would add much-needed residential options while preserving the character and vitality of downtown.
60	5	Thank you for sharing this updated information regarding the Brownsville Downtown Renaissance Master Plan. Very excited to see the possibility of what is to come. Let's get behind this project and bring it to fruition!
61	-	Please change the name of East Fronton Street to McNair Family Drive.
62	5	-

Comment #1 from the online draft review:

Recommendations to Improve Downtown Brownsville

Priority 1: Public Safety and Lighting

Public safety should be the City's highest priority. If people do not feel safe, they will not visit downtown, regardless of how many businesses or events are offered. Many areas of downtown have inadequate lighting, with entire blocks that are poorly illuminated or have no lighting at all. Dark streets create opportunities for crime and make pedestrians feel unsafe, especially in the evening. Every downtown street should have adequate lighting to create a welcoming environment for families, visitors, and employees. In addition to improving lighting, downtown should have a stronger and more visible police presence. Rather than relying solely on patrol vehicles, the City should consider community-oriented patrols that are both effective and inviting. Bicycle officers during the day and horseback officers in the evening would provide greater visibility, encourage positive interactions with the public, and create a unique atmosphere that complements Brownsville's historic downtown. When residents and visitors feel safe, they stay longer, visit more businesses, and are more likely to return.

Priority 2: Cleanliness and Maintenance

A clean downtown is just as important as a safe one. Clean streets communicate pride, professionalism, and encourage investment. The City should establish a daily maintenance schedule for:

* Sidewalks

* Alleys

* Public trash cans

* Streets and curbs

As a downtown business owner, I frequently arrive in the evening to find piles of trash left directly in front of my business. Since trash collection often does not occur until the following morning, I am forced to clean the area myself by taking the garbage to nearby dumpsters. This should not be the responsibility of business owners. Many people who live downtown improperly dispose of household trash in commercial areas, creating an unpleasant environment for customers and visitors. If we want more families to walk throughout downtown and support local businesses, cleanliness must become a daily priority, not an occasional one.

Priority 3: Parking Solutions

Parking continues to be one of the biggest obstacles to downtown growth. Several practical solutions should be considered:

* Designate parking areas specifically for downtown business owners and their employees so customer parking remains available.

* Expand public parking by purchasing abandoned or underutilized properties adjacent to existing parking lots and constructing multi-level parking structures.

* Open the Cameron County parking block to the public during evenings and weekends when government offices are closed. It currently sits fenced off and unused for much of the week.

* Open the City's multi-level parking garage at the Municipal Court for public use. This is an existing public asset that could significantly increase available parking without major new construction.

Making better use of existing public parking facilities is one of the fastest and most cost-effective ways to improve access to downtown.

Priority 4: Encouraging the Right Businesses Downtown

Downtown should become the heart of Brownsville by attracting businesses and services that naturally belong in a central business district. The City should actively recruit:

* Local retail shops

* Family entertainment venues

* Restaurants and cafes

* Bookstores

* Children's activities

* Museums and cultural attractions

While Brownsville has made tremendous progress in creating an entertainment district for adults, there are still too few destinations for families during the daytime and early evening. The City should also encourage more government agencies to locate downtown, such as:

* Social Security Administration

* Texas Attorney General regional offices

* State agencies

* Additional county and municipal offices

Government offices bring thousands of visitors every week who also support surrounding restaurants, retailers, and service businesses. The City could also explore programs that help businesses relocate downtown by assisting with lease buyouts or relocation incentives.

Priority 5: Invest in Local Businesses

Economic development should not focus solely on recruiting large corporations. Brownsville's greatest long-term investment is its own local entrepreneurs. The City has successfully partnered with major employers such as the Port of Brownsville, Bechtel, and Saronic. While these investments are valuable, local businesses create permanent jobs, generate sales tax revenue, and reinvest their profits within the community. Brownsville should establish a City-managed business investment fund that offers:

* Low-interest loans directly from the City, without requiring traditional bank financing.

* Interest rates of approximately 2% to 3% for qualified local businesses.

* Flexible repayment terms designed to encourage business expansion.

* Forgivable loans tied to measurable economic performance.

For example, if a business receives a $1 million loan and meets agreed-upon benchmarks - such as maintaining employment, generating tax revenue, or operating successfully for ten years - a portion or all of the loan could be forgiven. Programs like these would encourage entrepreneurship, strengthen local businesses, and create long-term economic growth while keeping investment dollars within Brownsville.

Priority 6: More Parks and Green Spaces

Downtown should be a place where families want to spend an entire afternoon, not simply visit one business and leave. The City should continue investing in beautiful public spaces similar to Market Square, Washington Park, and Ringgold Park by creating additional parks, plazas, fountains, shaded seating areas, and picnic spaces throughout downtown. One of

the most important long-term investments is the urban tree canopy. Future landscaping should prioritize large shade trees such as live oaks and other native species instead of palm trees. While palm trees create a tropical appearance, they provide very little shade. Large canopy trees dramatically reduce sidewalk temperatures, improve walkability, encourage outdoor dining, and make downtown significantly more comfortable during South Texas summers. A greener downtown will improve quality of life, attract more visitors, increase property values, and create inviting public spaces that families can enjoy for generations.

Conclusion

Downtown Brownsville has incredible potential. By focusing on six core priorities - public safety, cleanliness, parking, attracting the right businesses, investing in local entrepreneurs, and expanding green public spaces - the City can create a downtown that is vibrant, family-friendly, economically strong, and welcoming to both residents and visitors. Every decision should be guided by one question:

"Will this make more people want to spend time in downtown Brownsville?"

If the answer is yes, then it is an investment worth making.

WHAT THE PLAN WAS ASKED TO DO

Build on recent Downtown momentum and public/private investment.

Support preservation while encouraging reinvestment and adaptive reuse.

Create a shared community vision for Downtown.

Strengthen Downtown housing and mixed-use development opportunities.

Identify priorities that make Downtown more walkable, safe, shaded, active, and welcoming.

Create an implementation framework that helps the City move from planning to action.

WHAT THE COMMUNITY SAID

The following is a summary of the input received from the community about the future of Downtown Brownsville

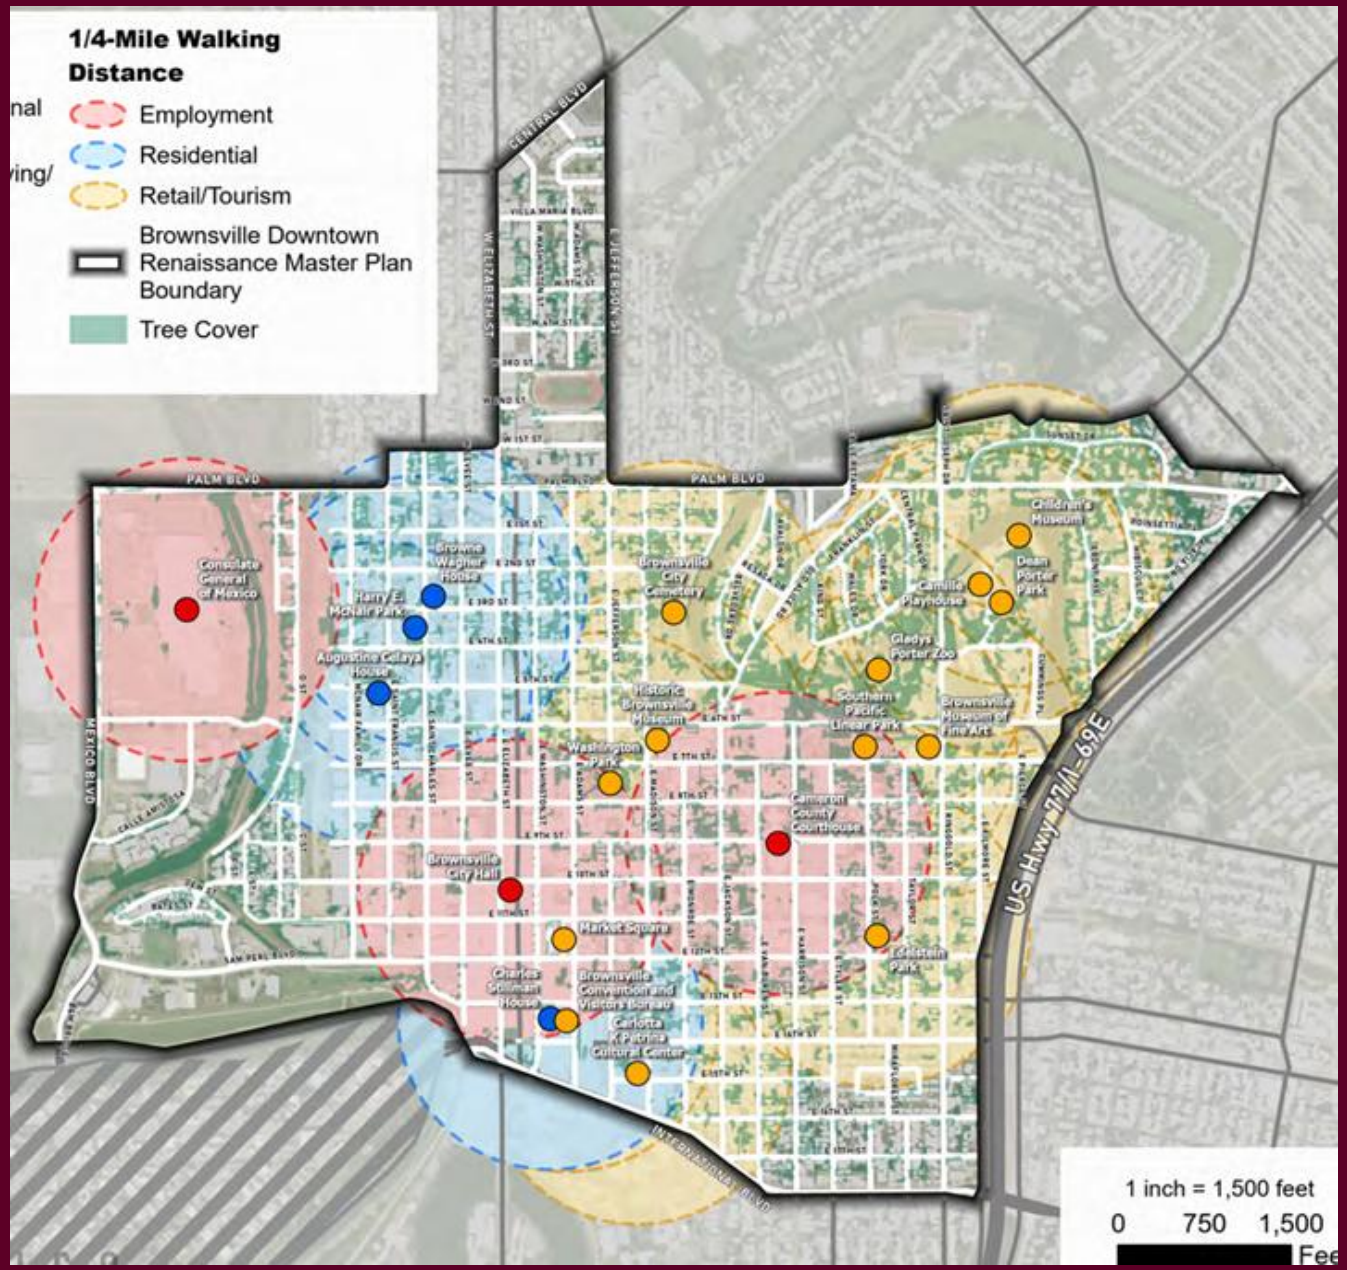
WHAT WE DISCOVERED

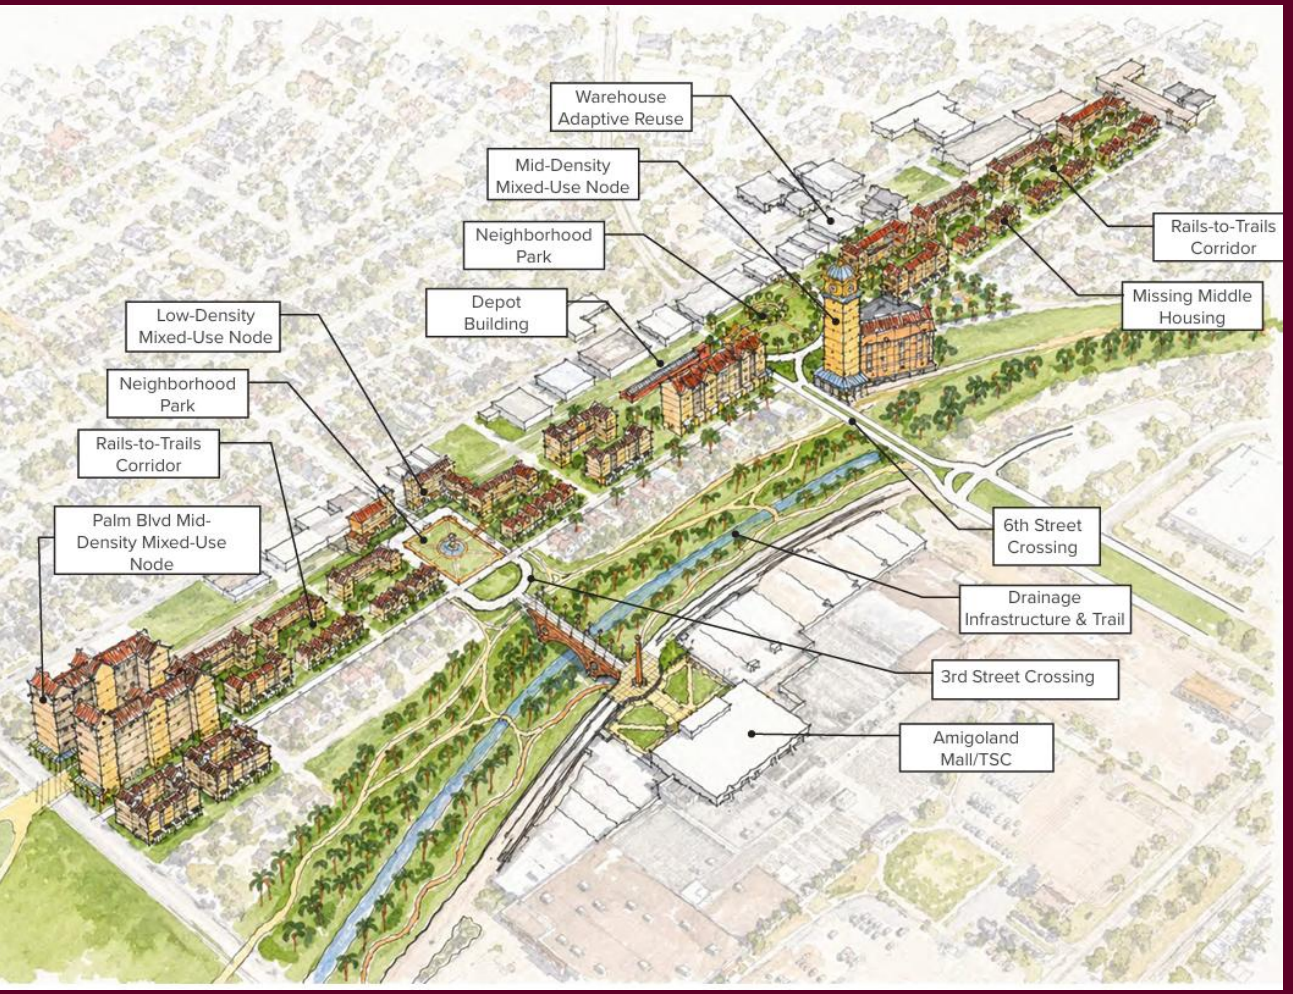


DOWNTOWN HAS MOMENTUM, BUT LACKS FOCUS.

Ongoing investments including infrastructure, events, private and institutional investments. People are already investing in Downtown Brownsville, but we need to make sure those are coordinated so they are all more successful.

DOWNTOWN HAS A LOT TO OFFER, BUT IT LACKS CONNECTIVITY.

There are plenty of destinations and distinct areas of character in Downtown, but they don't feel like they are part of a larger whole and it's hard to travel between destinations without having to drive and park multiple times.



DOWNTOWN IS STRONG, BUT LACKS LIVING OPPORTUNITIES.

Downtown is a major employment and visitor district but the area's resident population has declined, new housing units are slow to come online and daily services are disappearing. Some realistic housing demand exists, but it must be cultivated carefully.

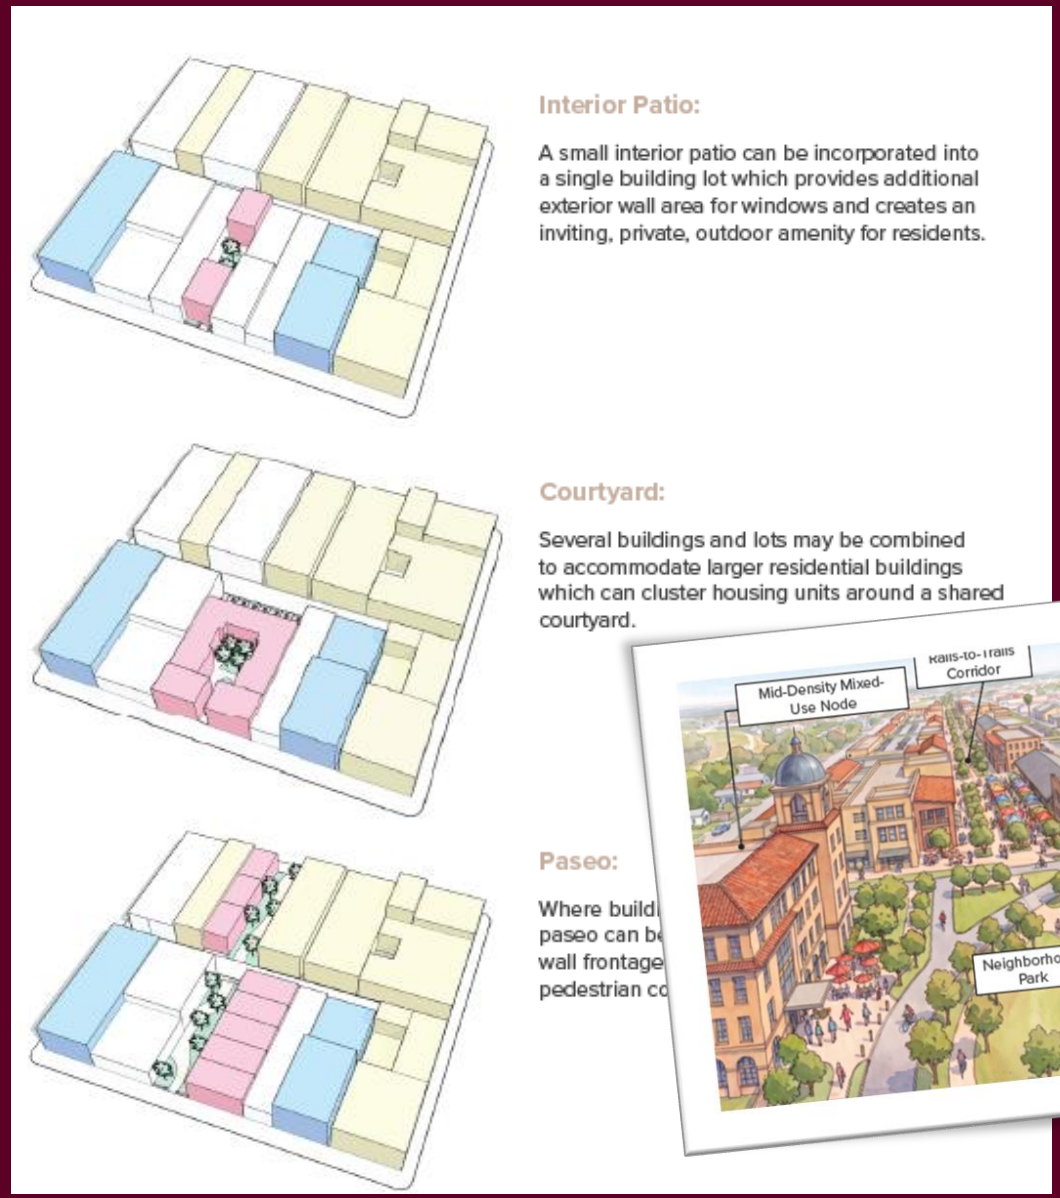
SHADE IS NOT JUST BEAUTIFICATION; IT IS CORE INFRASTRUCTURE AND AN ECONOMIC DEVELOPMENT STRATEGY.

Heat, lack of tree canopy, and limited shade directly affect walkability, comfort, public health, and time spent Downtown.

THE SWITCHYARDS AREA MAY BE DOWNTOWN'S MOST NOTABLE LONG-TERM GROWTH OPPORTUNITY.

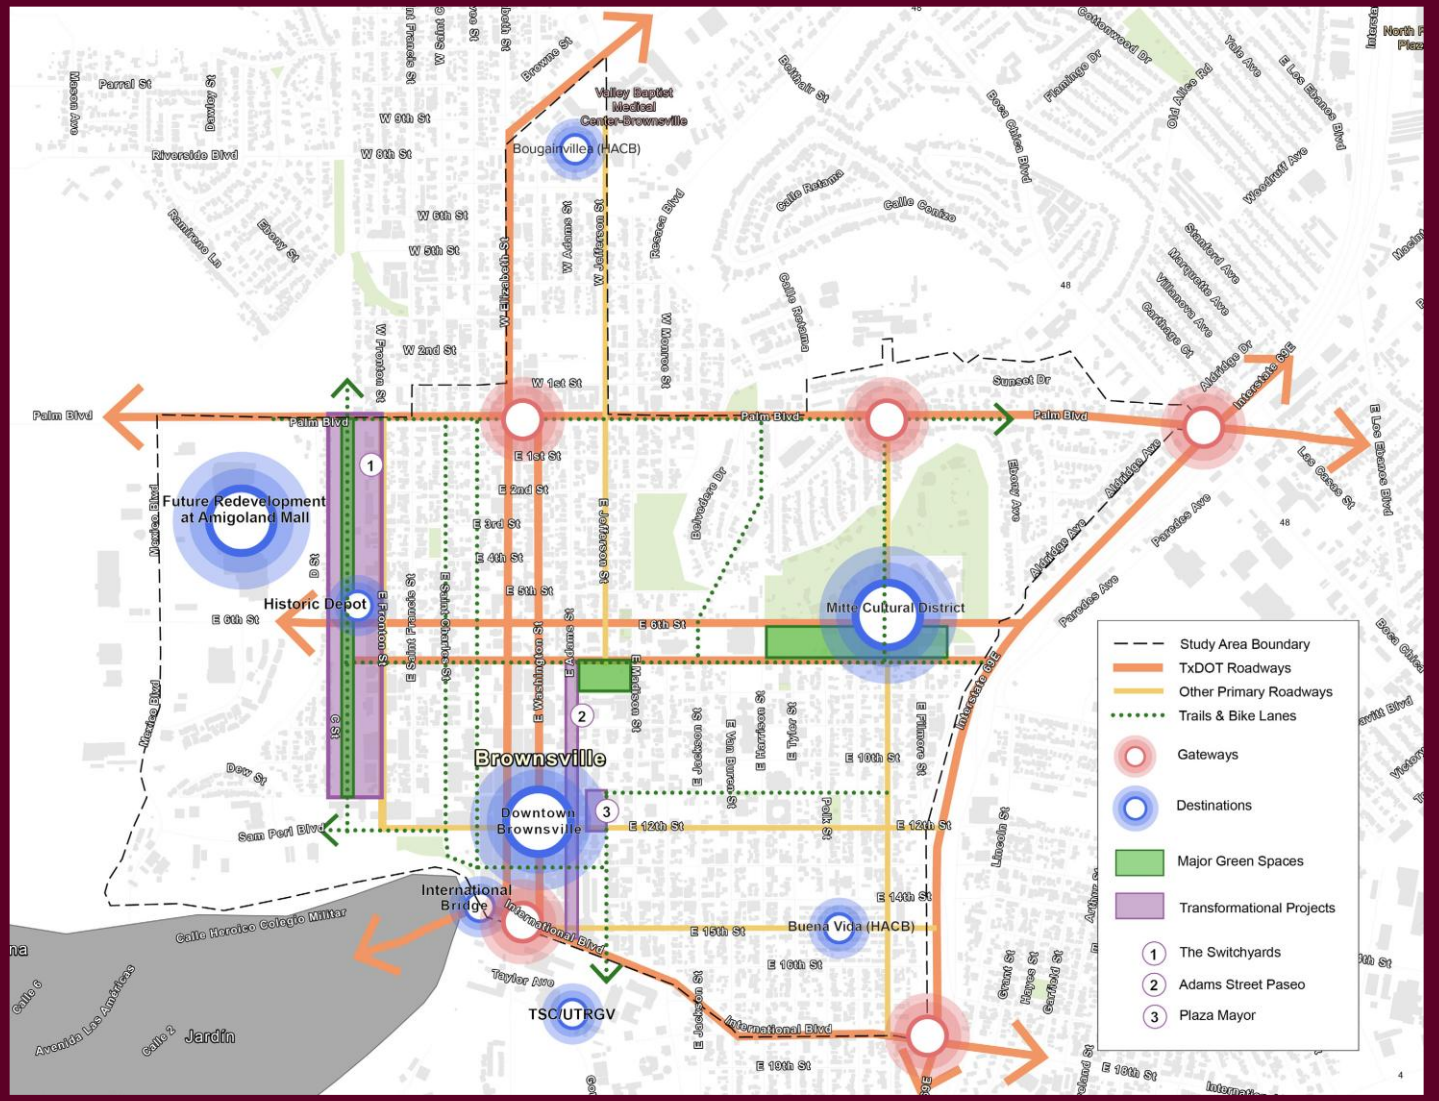
Because of public land ownership, fewer historic constraints, and proximity to Amigoland, this area can accommodate larger-scale redevelopment, a rails-to-trails corridor, missing middle housing, adaptive reuse, and mixed-use development.

HOW THE PLAN DELIVERS



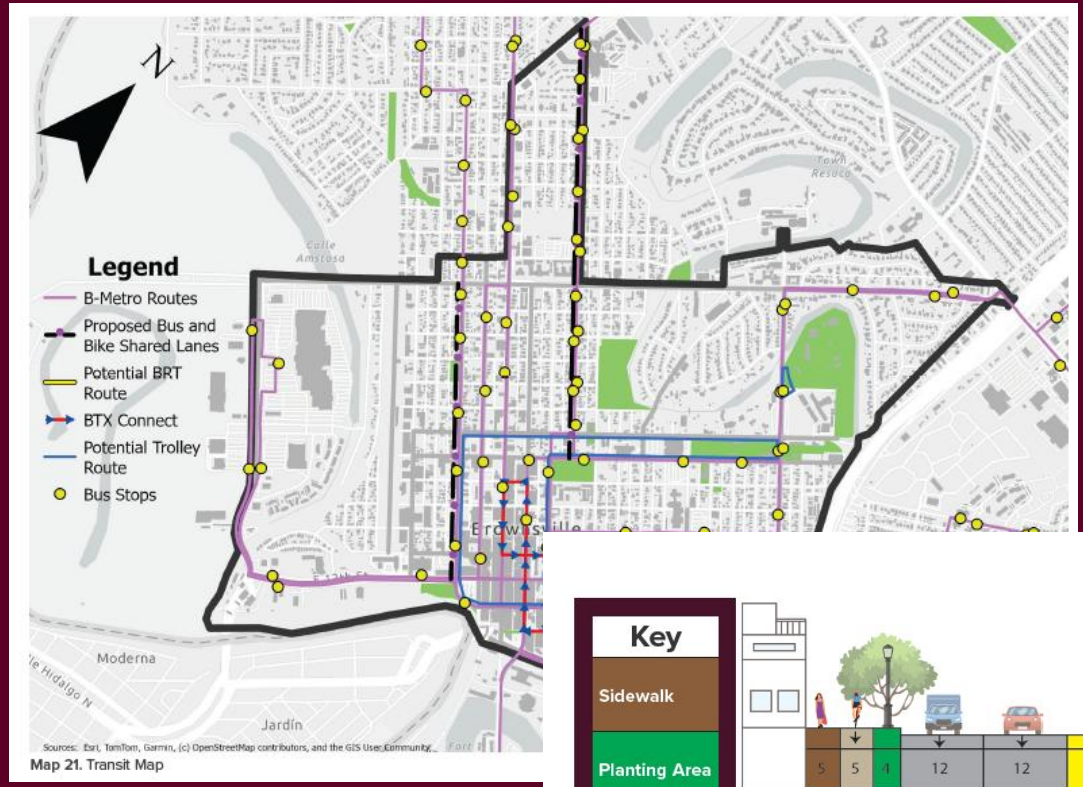
TRANSFORMATIONAL PROJECTS

- Plaza Mayor
- Adams Street Paseo
- The Switchyards



HOUSING STRATEGIES

- Adaptive reuse & upper story activation in historic buildings
- Small-lot, compatible infill developments
- Housing variety in the Switchyards
- Partnerships & incentives, model projects
- Review and update regulations where needed



PUBLIC REALM STRATEGIES

- Overall framework
- Identity & character
- Safety & comfort
- Amenities, shade sidewalks, landscaping, etc.
- Streetscape typologies and application of amenities

MOBILITY, TRANSPORTATION, AND PARKING RECOMMENDATIONS

- Parking strategies, including a garage
- Walking & cycling routes
- Public transit
- Priority corridors
- Typical cross-sections

Map 21. Transit Map

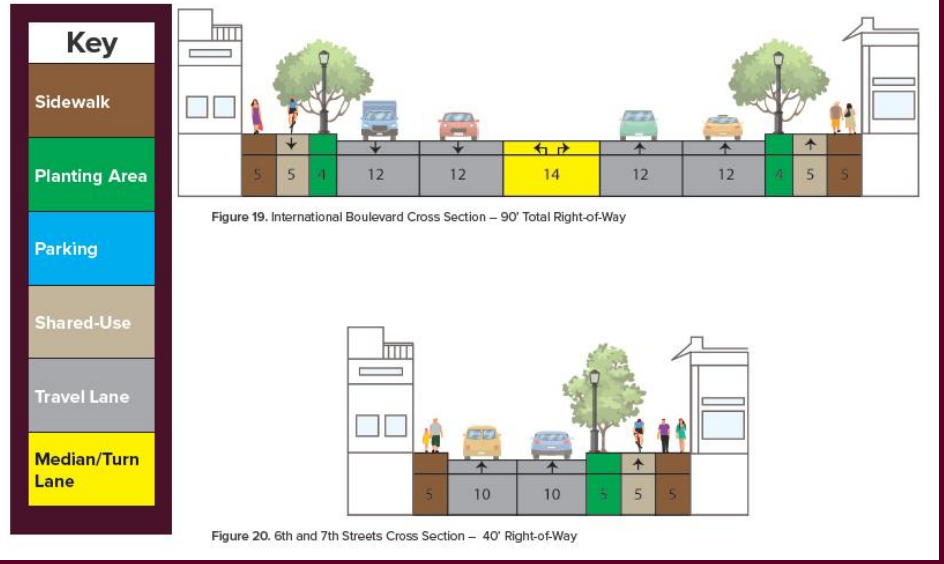


Figure 19. International Boulevard Cross Section – 90' Total Right-of-Way

Figure 20. 6th and 7th Streets Cross Section – 40' Right-of-Way

WHAT NOW

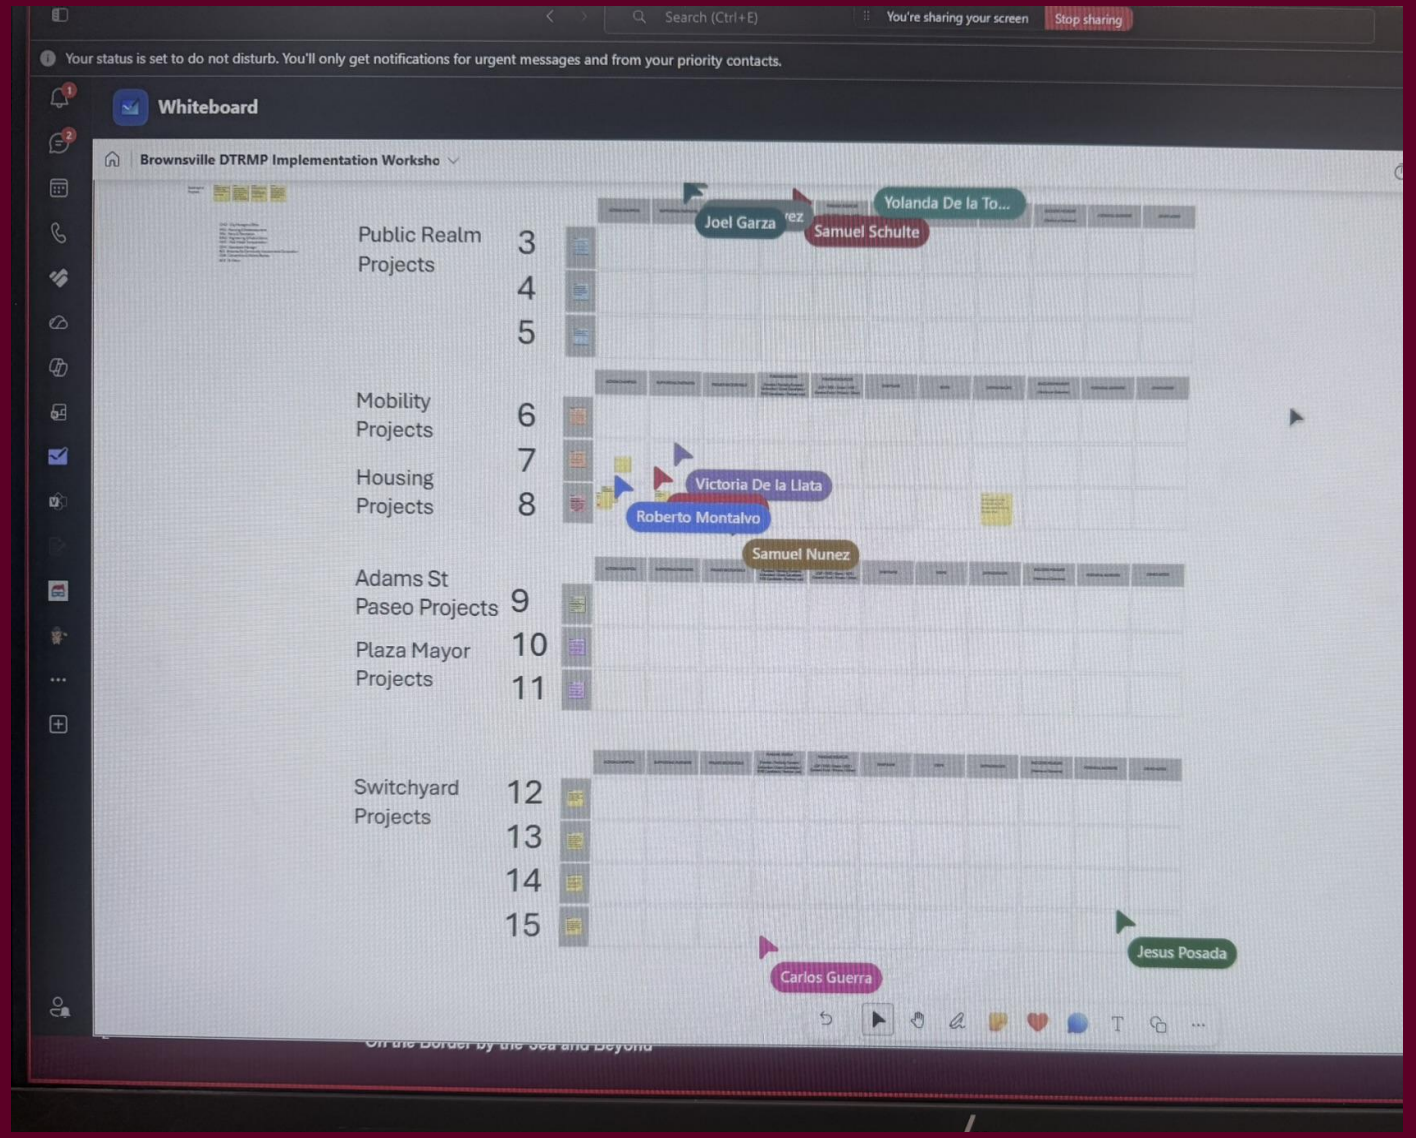
IMPLEMENTATION & ACTION ITEMS

- 63 action items for public realm, mobility/parking, housing, and catalyst projects.
- Enabling actions related to policy, regulation and funding.
- A more detailed table for CIP-related actions to facilitate CIP planning.

DOWNTOWN LIVING

Impact: Low | Feasibility: Moderate

Increasing the number of residents living downtown can support local businesses, activate streets throughout the day and evening and strengthen long-term economic vitality. Encouraging upper-story housing, adaptive reuse of historic buildings and mixed-use development can introduce new housing opportunities while preserving downtown's character. Addressing financial and regulatory barriers will be critical to enabling housing development in downtown.



While adding more residents can strengthen downtown over time by supporting local businesses, increasing activity, and creating a more consistent customer base, the pace of residential growth is often gradual. In the near term, this strategy may not generate immediate visible change at the same scale as public space or catalytic redevelopment projects, especially if market demand is still emerging.

Downtown housing is possible, but it often depends on market conditions, development interest, financing, and supportive policies. It may require incentives, redevelopment of underutilized properties, zoning flexibility, or public-private partnerships. These factors make it more achievable than a highly complex catalytic site, but less straightforward than public improvements or operational changes.

Key	Action	Type	Time Frame	Lead Entity	Cost Range
3.a	Ensure a Downtown housing strategy is included in the Brownsville Housing Master Plan to identify priority housing types, target price points, adaptive reuse opportunities, and barriers such as code requirements, parking minimums, and financing gaps.	Plan	Short Term (0-2 Years)	P&RD; Grants and Community Department as supporting dept.	Very Low
3.b	Update codes and create an incentive package to support mixed-use housing, upper-story residential conversion, infill apartments, and redevelopment by reducing regulatory barriers and improving development feasibility.	Policy / Program	Medium Term (2-5 Years)	P&RD	Very Low
3.c	Launch an adaptive reuse pilot program targeting underused Downtown buildings for upper-floor housing conversion through façade assistance, Code compliance upgrades sunsidies, and developer outreach.	Program	Medium Term (2-5 Years)	BCIC; P&RD	Medium
3d.	Redevelop the Bougainvillea Housing Development to support future development along the Jefferson Corridor and broader Downtown housing goals.	Capital Project	Medium Term (2-5 Years)	BHA	High

City Staff / Departmental Implementation Collab

- Allowed the people involved in implementation to provide input
- Got buy-in from City staff across departments
- Established a culture of collaboration for implementation
- Asked staff to take responsibility for action items

NEAR-TERM (2yr):

EASY WINS & BUILD MOMENTUM

- Lighting, shade and furnishings, signage
- Parking strategy
- Activated alley pilots
- Maintenance and cleanliness improvements
- Small business and façade support
- Switchyards rails-to-trails corridor

MID-TERM (5yr):

ALIGN INVESTMENT

- Housing incentives, adapti ve reuse support and P3 projects
- TIRZ-supported public realm and infrastructure projects
- Historic depot reuse
- Downtown trolley or circulator

LONG-TERM (10yr):

TRANSFORMATIONAL PROJECTS

- Switchyards development
- Highway access improvements
- Larger infrastructure projects

Some projects will require implementation throughout the planning horizon…

ADAMS STREET PASEO

Near Term	Mid Term	Long Term
Piloting and planning for Phase 1 of Adams Street Paseo	Design & construct Phase 1 (three blocks) of Adams Street Paseo	Adams Street Paseo expansion north & south

PLAZA MAYOR

Near Term	Mid Term	Long Term
Partnerships and land discussions	Phase 1 and 2	Phase 3 +

WHY THIS MATTERS FOR CITY COMMISSION

- Advance the community's vision for Downtown.
- Focus investment where it can build momentum.
- Support Downtown as an economic and civic center.
- Create a practical path to implementation.

Questions or Feedback?

Thank you!

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Martin Vega, Assistant Director of Land Development Services
Date:	Tuesday, September 1, 2026
Agenda #:	Consideration and **APPROVAL** on **SECOND** and **FINAL READING** on **Ordinance Number 235-2026-903-S**, to request a Specific Use Permit (SUP) in a Commercial Corridor (CC) zoning district to allow a commercial plaza and establish reduced setbacks for Lots 16, 17, and 18, Block 1, Naranja Vista Subdivision, Cameron County, Texas located at 9935 Naranjo Road, Brownsville, Texas 78521, as shown in Exhibit "A". (District 3) (Planning & Redevelopment Department)

Summary:

This is a City Initiated Case to adopt a specific use permit in a Commercial Corridor (CC) zoning district for Lots 16, 17, and 18, Block 1, Naranja Vista Subdivision, Cameron County, Texas located at 9935 Naranjo Road, Brownsville, Texas 78521. At this time, the base zoning designation will remain unchanged while the specific use permit will allow a commercial plaza and establish reduced setbacks to accommodate the proposed development.
The predominant land use in the surrounding area is single family dwelling and commercial business. Additional uses, such as undeveloped land and multi-family development are also present within the vicinity.

The property is located within the Linkage Corridor. The proposed use/zoning designation is consistent with the Future Land Use Map.

Project Scope and Analysis:

For context, this City-initiated Specific Use Permit is intended to provide the property owner with greater flexibility to develop the subject property, which consists of three platted lots averaging approximately 2,500 square feet each.

The subject property is located along Anacua Road, also known as Naranjo Road, which is classified as a Secondary Arterial roadway and requires an ultimate right-of-way width of 110 feet. Given the relatively small size of the overall property, approximately 7,500 square feet, the required dedication of 55 feet measured from the roadway centerline significantly reduces the developable area of the site and results in a constrained building envelope.

In an effort to facilitate development while recognizing the impact of the future right-of-way dedication, staff is proposing a conditioned Specific Use Permit to provide limited flexibility from certain development standards. The underlying zoning designation would remain unchanged; however, the proposed conditions and design parameters would allow the property to be developed more efficiently despite the site constraints created by the anticipated right-of-way requirement.

It is also important to note that the ultimate widening of Anacua Road is not anticipated to occur in the near term. For this reason, staff finds it appropriate to allow certain development components to be temporarily located within areas that may ultimately be affected by the future roadway expansion. These allowances would remain subject to the conditions of the Specific

Use Permit and are intended to accommodate reasonable use of the property until such time as the additional right-of-way is needed for roadway improvements.

The proposed conditions and design parameters are as follows:

- To allow reduced front yard setbacks.
- To allow 5-foot setbacks along the lateral and rear property lines.
- To allow 2 parking spaces to exist in the front yard until the expansion improvements of Naranjo Road take place.
- To allow a commercial waste container enclosure within the front yard until the planned Naranjo Road expansion improvements are completed, provided that the enclosure is screened from street view with landscaping equal to or greater than the height of the enclosure. Alternatively, roll-out trash bins may be permitted for each of the proposed suites/businesses, not to exceed three total suites.

ORDINANCE NUMBER 235-2026-903-S

AN ORDINANCE AMENDING THE "CITY ZONING ORDINANCE" BY AMENDING THE OFFICIAL ZONING ATLAS TO REQUEST A SPECIFIC USE PERMIT (SUP) IN A COMMERCIAL CORRIDOR (CC) ZONING DISTRICT TO ALLOW A COMMERCIAL PLAZA AND ESTABLISH REDUCED SETBACKS FOR LOTS 16, 17, AND 18, BLOCK 1, NARANJA VISTA SUBDIVISION, CAMERON COUNTY, TEXAS, LOCATED AT 9935 NARANJO ROAD, BROWNSVILLE, TEXAS 78521.; AND DEALING WITH RELATED MATTERS INCLUDING $2000 PENALTIES.

WHEREAS, this ordinance is in accordance with the City's comprehensive plan; is consistent with the existing zoning surrounding the area to be rezoned; and bears a substantial relationship to the public health, safety, morals or general welfare; and all procedural requirements for the passage hereof have been met;

Be It Ordained by the City of Brownsville:

Section 1. That the City Commission of the City of Brownsville, Texas, hereby amends the "City Zoning Ordinance" by amending the Official Zoning Atlas To request a Specific Use Permit (SUP) in a Commercial Corridor (CC) zoning district to allow a commercial plaza and establish reduced setbacks for Lots 16, 17, and 18, Block 1, Naranja Vista Subdivision, Cameron County, Texas, located at 9935 Naranjo Road, Brownsville, Texas 78521.

Section 2. That all provisions of the City of Brownsville Unified Development Code are incorporated herein by reference and declared to be a part hereof; and that this ordinance shall become effective on the earliest date allowed by law.

Section 3. The property described above and by this ordinance is subject to the following conditions:

- To allow reduced front yard setbacks.
- To allow 5 foot setbacks along the lateral and rear property lines.
- To allow 2 parking spaces to exist in the front yard until the expansion improvements of Naranjo Road take place.
- To allow a commercial waste container enclosure within the front yard until the planned Naranjo Road expansion improvements are completed, provided that the enclosure is screened from street view with landscaping equal to or greater than the height of the enclosure. Alternatively, roll-out trash bins may be permitted for each of the proposed suites/businesses, not to exceed three total suites.

INTRODUCED at a public hearing on **August 18, 2026**. Passed at First Reading on **August 18, 2026**. PASSED at Second and Final Reading and ADOPTED, APPROVED, and ENACTED on **September 1, 2026**.

Case No.: 235-2026-903-S
Proposed Use: Commercial Plaza w/ reduced setbacks
Proposed Zoning: Corridor Commercial (CC) w/ Specific Use Permit (SUP)
P&Z Date: August 6, 2026
Electoral District: 3
Annexation Year: 1999
Opposition: No Verbal or Written Opposition

PROPERTY DETAILS

Legal Description: Lots 16, 17, and 18, Block 1, Naranja Vista Subdivision, Cameron County, Texas, located 9935 Naranjo Road, Brownsville, Texas 78521.
Roadway Frontage: The subject property is fronting Naranjo Road, a Secondary Arterial.
Predominant Land Use: The predominant land use is a mix of single and multifamily residential, with commercial and undeveloped land.

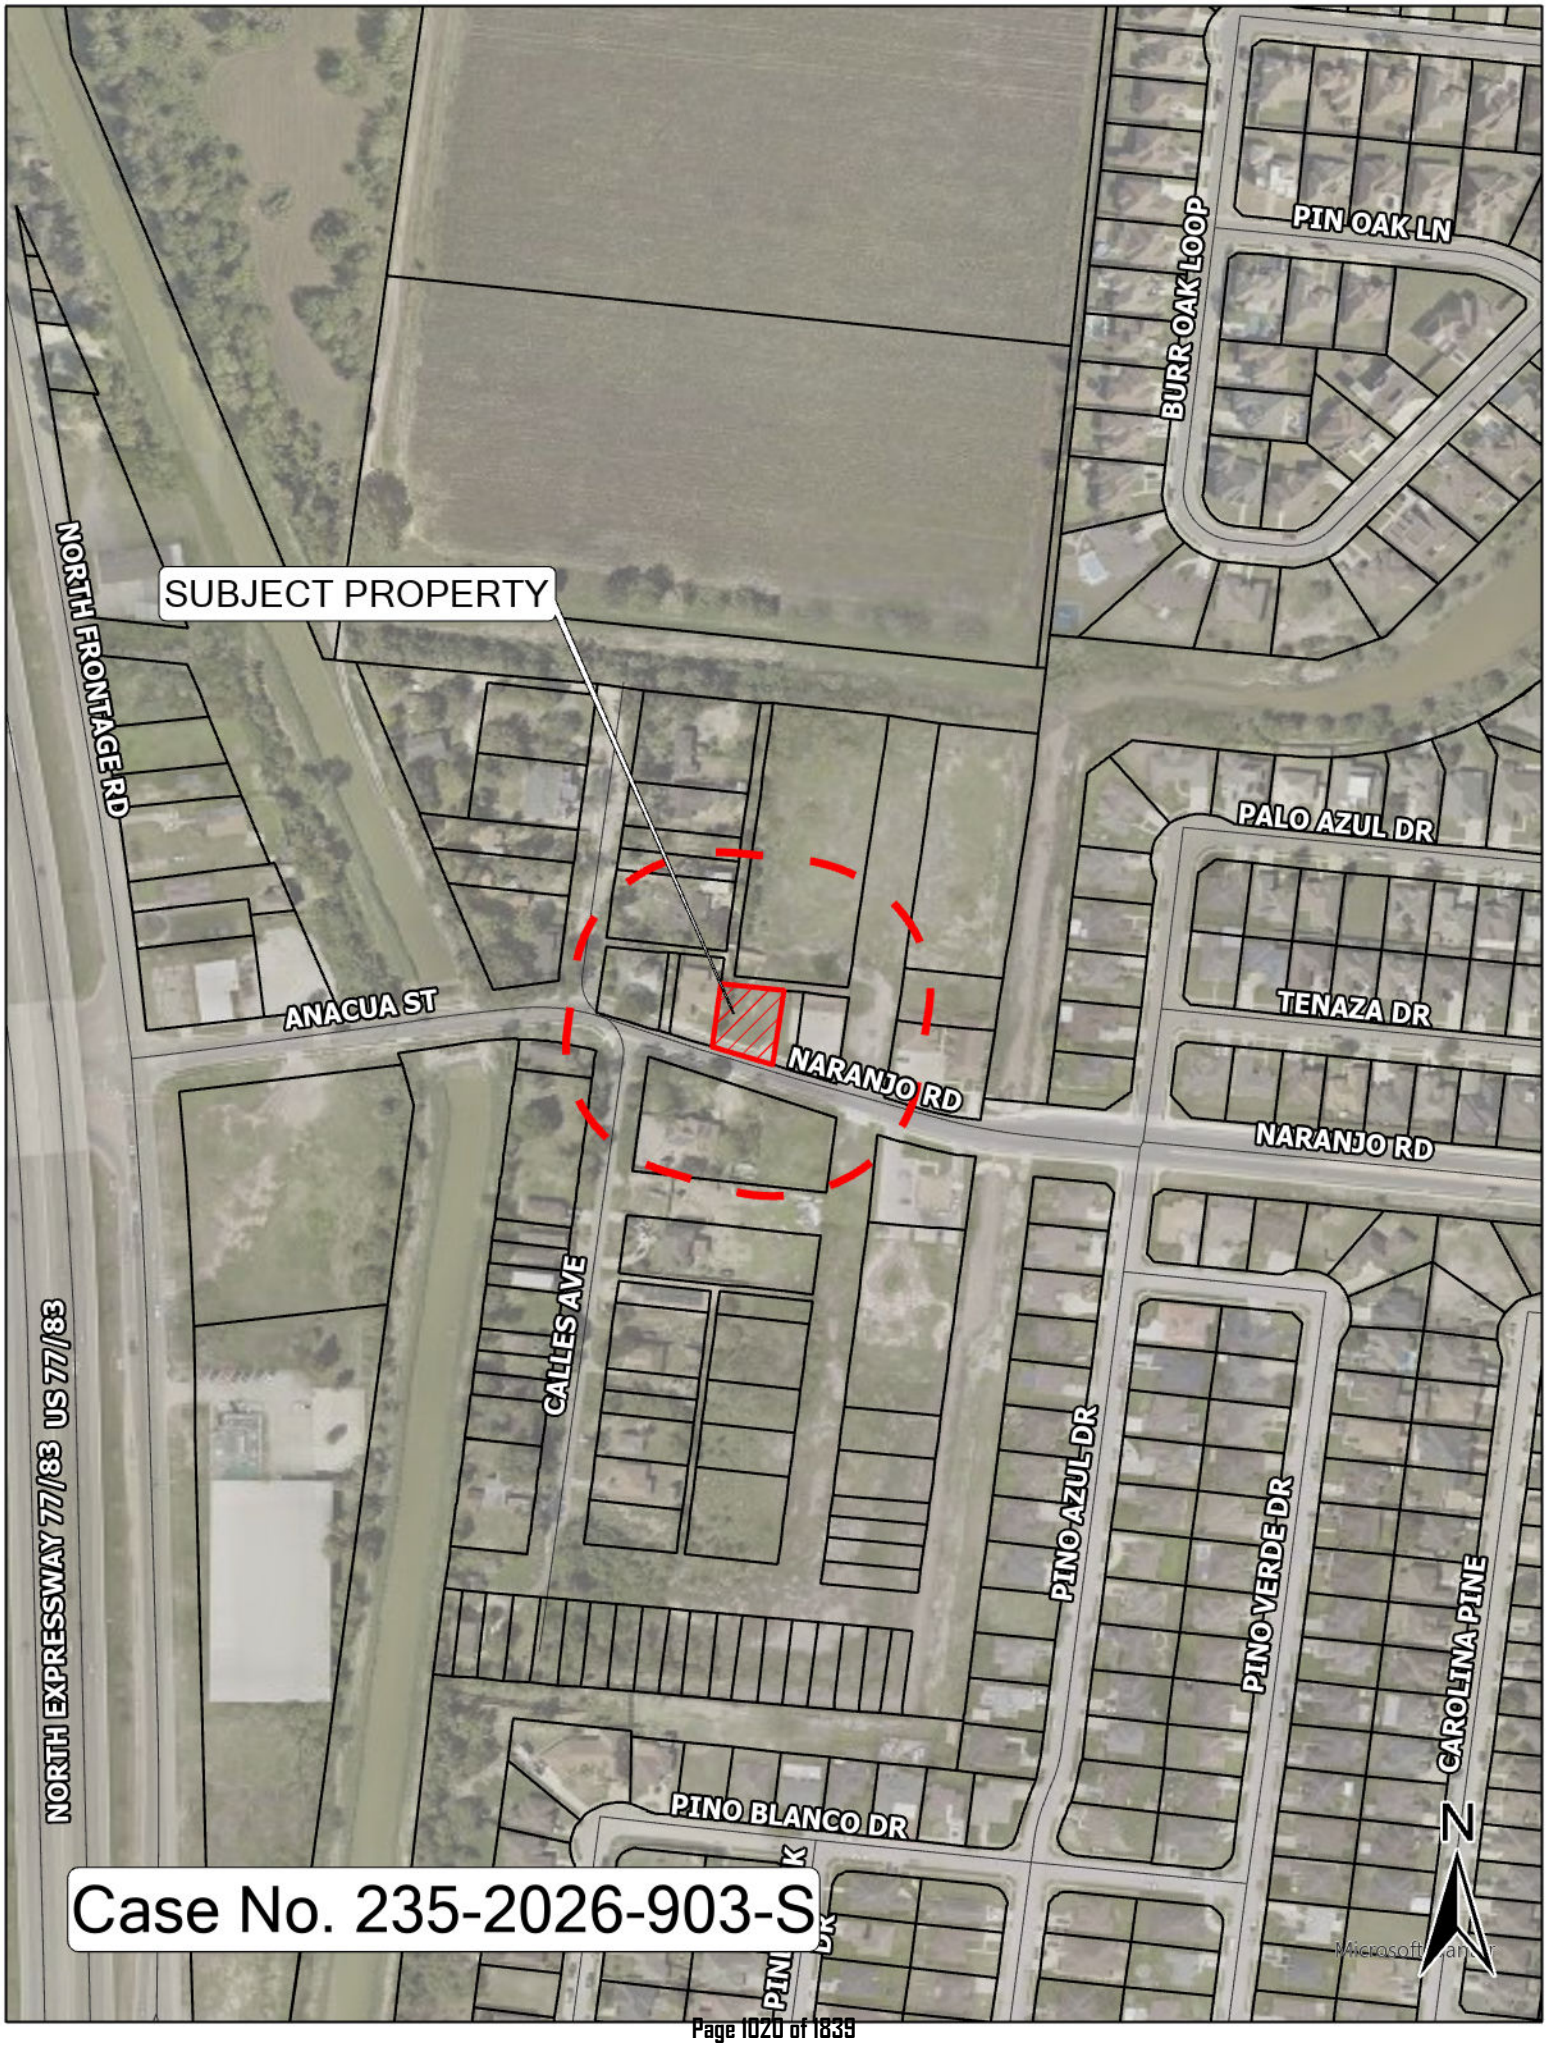
ABUTTING LAND USES (*SEE ATTACHED AERIAL VIEW MAP)*

North: Single Family Residential, Undeveloped Land
East: Multifamily Residential, Commercial
South: Single Family Residential, Commercial
West: Single Family Residential, Commercial

EXISTING ZONING DESIGNATIONS (*SEE ATTACHED ZONING MAP)*

North: Residential Transition (R-3)
East: Corridor Commercial (CC), Residential Single Family (R-1)
South: Residential Transition (R-3), Corridor Commercial (CC)
West: Residential Transition (R-3), Corridor Commercial (CC)

FUTURE LAND USE PLAN (*SEE ATTACHED FUTURE LAND USE MAP)*



The City of Brownsville Future Land Use Plan indicates that the subject land is located within the Linkage Corridor. Land uses in the Linkage Corridor are primarily commercial, which should have a regional focus. Uses can include medical offices, auditoriums, and sports facilities. Residential uses should constitute about one quarter of the land uses in the form of single-family homes and townhomes and should be an average of 6 dwelling units per acre. It is the opinion of staff that the request is consistent with the Future Land Use Plan.

REVIEW CRITERIA

After an analysis of the subject property and its surrounding context, staff has determined that the proposed zoning and associated use would be compatible with the adjacent zoning districts and land uses, and would not place significant or undue strain on existing public infrastructure, including water, wastewater, and transportation systems. Reduced setbacks are approved (see site plan exhibit) by City staff in order to maximize the use of the remaining lot area after ROW dedication and development requirements are applied.

STAFF RECOMMENDATION

Based upon the analysis presented in this report and observations from the Planning & Redevelopment Department, staff recommends approval of the Specific Use Permit (SUP) request for a commercial plaza development with reduced setbacks, subject to site plan review approval.

Date:	Tuesday, September 1, 2026
Agenda #:	Consideration and **APPROVAL** on **SECOND** and **FINAL READING** on **Ordinance Number 235-2026-904**, to rezone from Residential Single-Family (R-1) to Residential Suburban (R-2) to allow an existing duplex subdivision for all of Hidden Meadows Subdivision Section 2, Cameron County, Texas, located at Hidden Meadows Boulevard, Brownsville, Texas 78520, as shown in Exhibit "A". (District 4) (Planning & Redevelopment Department)

Summary:

This is a City Initiated Case to change the zoning designation for all of Hidden Meadows Subdivision Section 2, Cameron County, Texas, located at Hidden Meadows Boulevard, Brownsville, Texas 78520. The proposed zoning reclassification will amend the Zoning Map from Residential Single-Family (R-1) to Residential Suburban (R-2).
The predominant land use in the surrounding area is single family dwelling and duplex. Additional uses, such as undeveloped land are also present within the vicinity.

The property is located within the Town Corridor and Sub Regional Node. The proposed use/zoning designation is consistent with the Future Land Use Map.

The proposed zoning change is intended as a housekeeping measure to correct a discrepancy between the existing development pattern and the adopted zoning map.

Project Scope and Analysis:

For context, Hidden Meadows Subdivision Phase 2 was platted in the late 1990s as a duplex development. The subdivision is currently approximately 95% built out, with only four to five vacant lots remaining. Of the developed properties, approximately 90% contain duplexes, while the remaining 10% contain single-family residences. As a result, duplex structures represent the predominant development pattern within the subdivision.

Since the subdivision was recorded, the property has been zoned Residential Single-Family. Historically, duplexes were permitted within the subdivision based on the development type identified on the recorded plat rather than on the uses permitted by the applicable zoning district. Consequently, the existing duplexes are considered legal nonconforming uses under the current Residential Single-Family zoning designation, and new duplex development would not be permitted.

Staff identified this discrepancy following a recent inquiry regarding the development of the remaining vacant lots, where duplex construction was proposed consistent with the original subdivision design and prevailing development pattern.

Rezoning Hidden Meadows Subdivision Phase 2 to R-2 would correct the discrepancy between the adopted zoning designation and the established development pattern, bring the existing duplex uses into conformity with the zoning regulations, and allow

the remaining vacant lots to develop in a manner consistent with the subdivision as originally platted and predominantly developed.

Proposed Zoning: Residential Suburban (R-2)
P&Z Date: August 6, 2026
Electoral District: 4
Annexation Year: 1991
Opposition: No Verbal or Written Opposition

PROPERTY DETAILS

Legal Description: All of Hidden Meadows Subdivision Section 2, Cameron County, Texas, located at Hidden Meadows Boulevard, Brownsville, Texas 78520.
Roadway Frontage: The subject property is fronting Hidden Meadows Boulevard, a local street.
Predominant Land Use: The predominant land use within the area is largely duplex and single family residential.

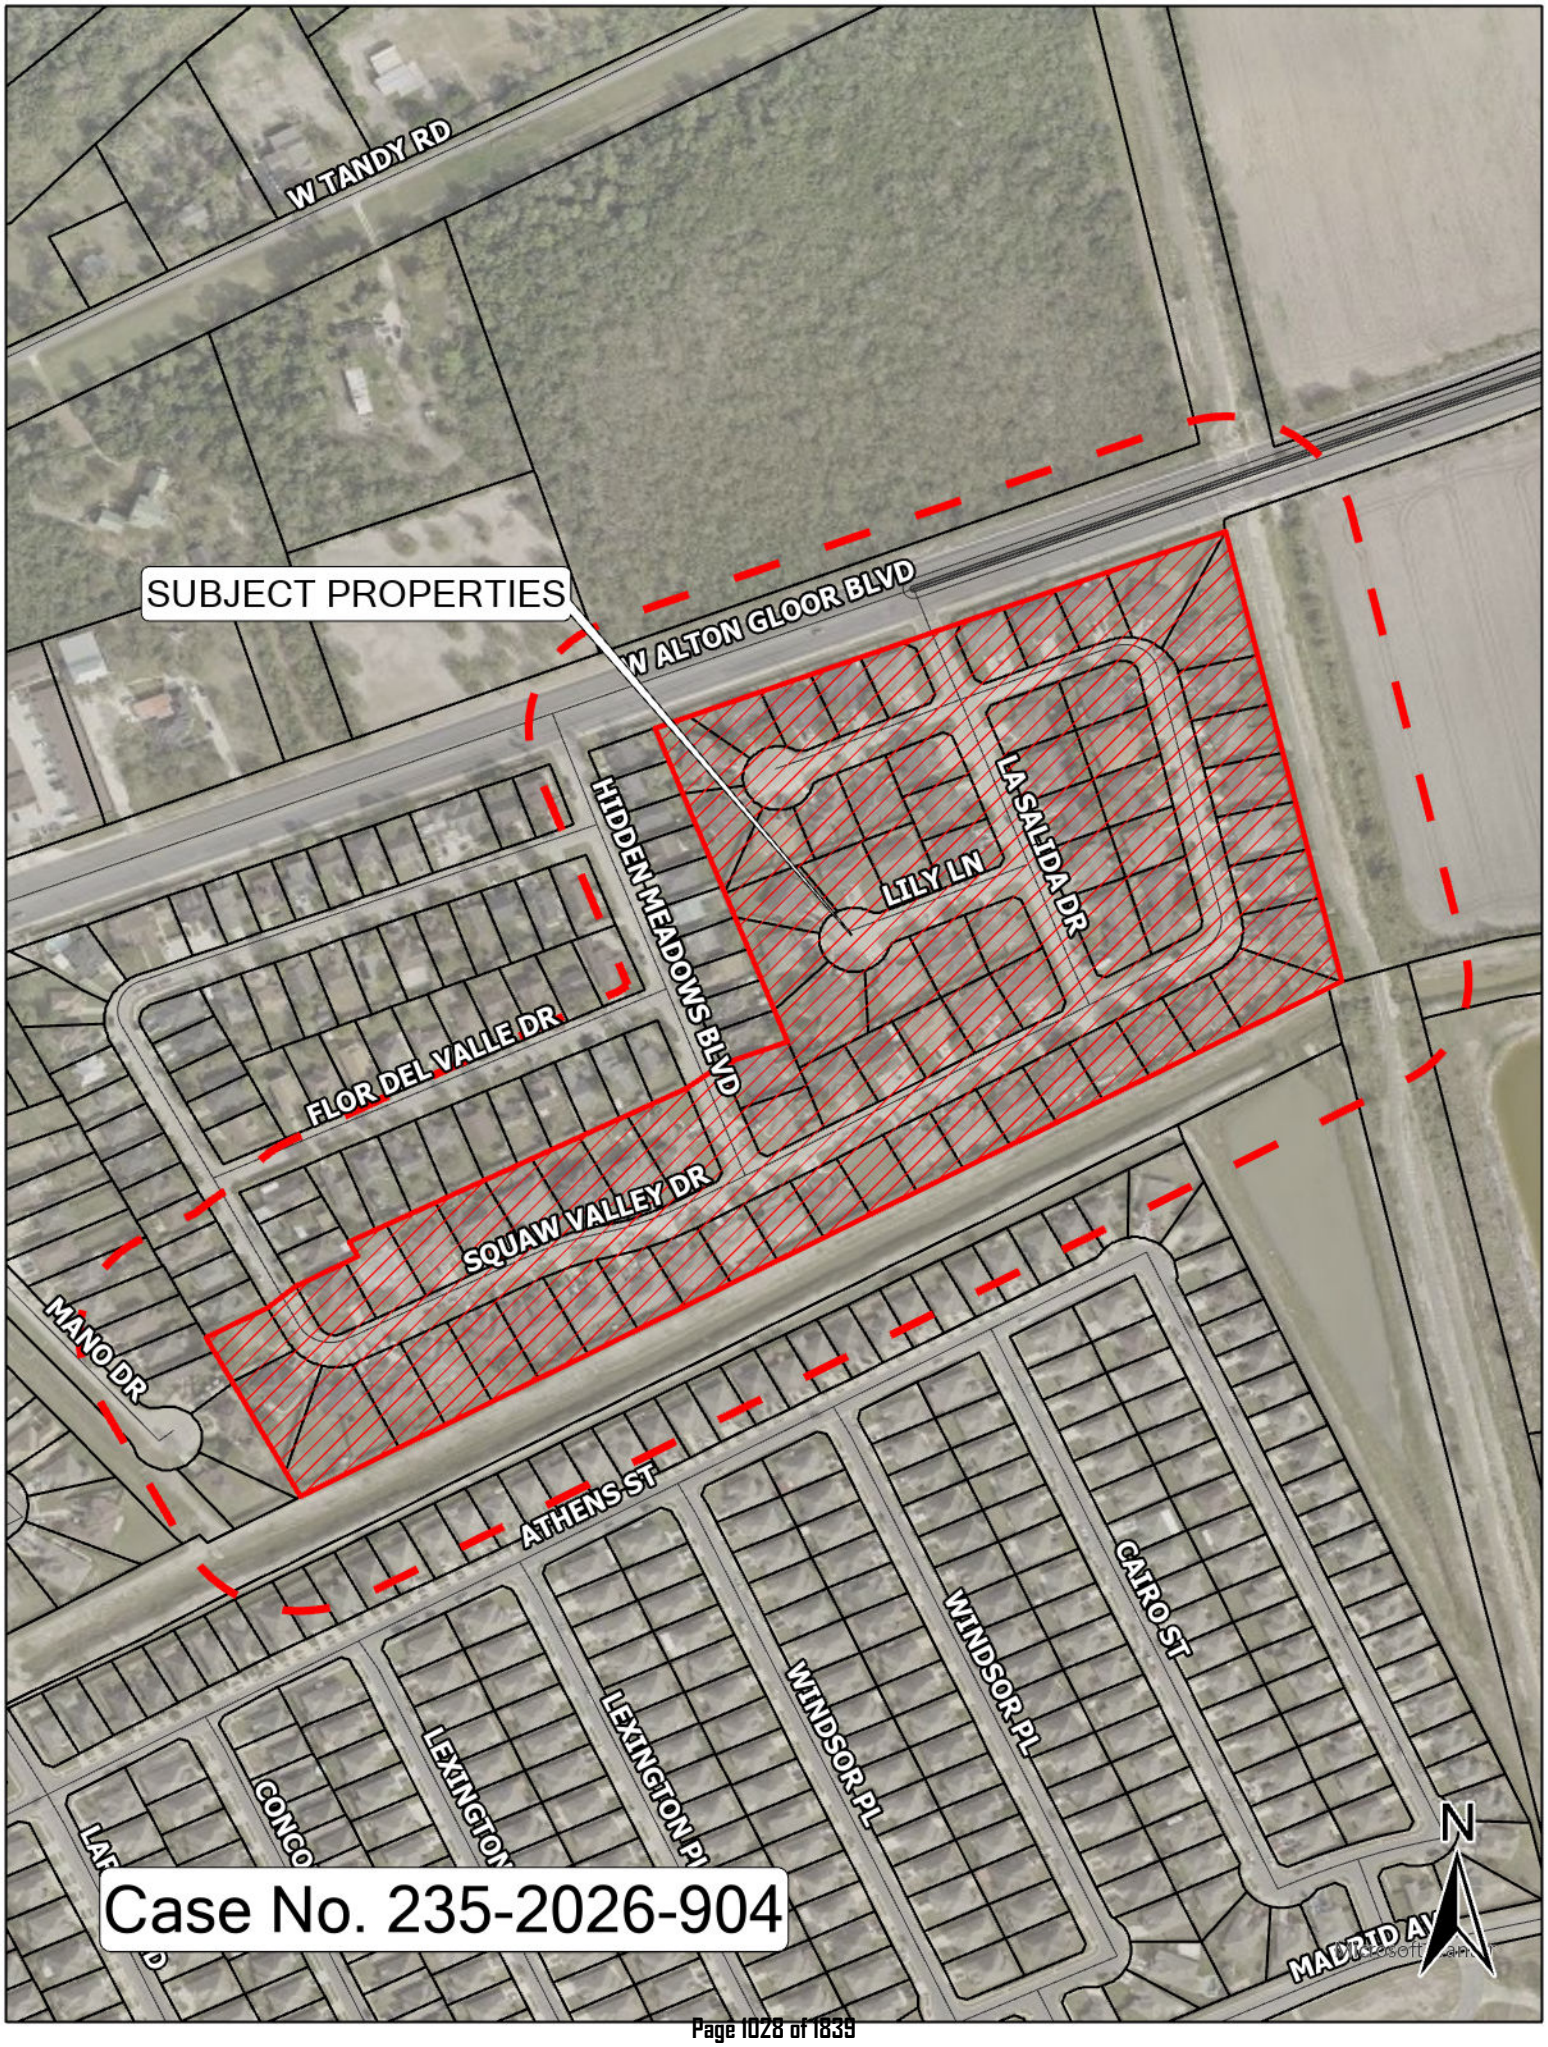
ABUTTING LAND USES (*SEE ATTACHED AERIAL VIEW MAP)*

North: Duplex, Single Family Residential, Undeveloped Land
East: Duplex**,** Single Family Residential, Undeveloped Land
South: Duplex, Single Family Residential
West: Duplex, Singel Family Residential

EXISTING ZONING DESIGNATIONS (*SEE ATTACHED ZONING MAP)*

North: Residential Estate (RE), Residential Single Family (R-1), Residential Transition (R-3)
East: Residential Single Family (R-1), Regional Center (RC)
South: Residential Single Family (R-1)
West: Residential Single Family (R-1)

FUTURE LAND USE PLAN (*SEE ATTACHED FUTURE LAND USE MAP)*



The Future Land Use Plan shows this area predominantly within the Town Corridor and Sub Regional Node. Town Corridors are primarily residential with small clusters of commercial land uses such as office and retail uses to serve local residents. It is the opinion of staff that the request is consistent with the Future Land Use Plan.

REVIEW CRITERIA

After an analysis of the subject property and its surrounding context, staff has determined that the proposed zoning and associated use would be generally compatible with adjacent existing zoning districts and land uses, and would not place significant or undue strain on existing public infrastructure, including water, wastewater, and transportation systems. This zoning district change (R-2) is a correction to the currently assigned zoning district (R-1) to allow for the legal continuation of existing duplex uses and for proposals of new and compatible duplex uses within vacant lots of the established subdivision.

STAFF RECOMMENDATION

Based upon the analysis presented in this report and observations from the Planning & Redevelopment Department, staff recommends approval of the zoning change request from Residential Single Family (R-1) District to Residential Suburban (R-2) District.

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Martin Vega, Assistant Director of Land Development Services
Date:	Tuesday, September 1, 2026
Agenda #:	Consideration and **APPROVAL** on **SECOND** and **FINAL READING** on **Ordinance Number 235-2026-905**, to rezone from Commercial Corridor (CC) to Residential Transition (R-3) to allow an existing single-family development for an approximate 2.09 acres out of Lots 1, 2, 5, 6, 7, and 8, Block 40, out of Share 28 of the Brownell Tract, coming from a portion of El Jardin Subdivison, located at Lester Drive, Brownsville, Texas 78521, as shown in Exhibit "A". (District 2) (Planning & Redevelopment Department)

Summary:

This is a City Initiated Case to change the zoning designation for an approximate 2.09 acres out of Lots 1, 2, 5, 6, 7, and 8, Block 40, out of Share 28 of the Brownell Tract, coming from a portion of El Jardin Subdivison, located at Lester Drive, Brownsville, Texas 78521. The proposed zoning reclassification will amend the Zoning Map from Commercial Corridor (CC) to Residential Transition (R-3).
The predominant land use in the surrounding area is commercial business. Additional uses, such as single-family residences, multi-family development, and industrial development, are also present within the vicinity.

The property is located within the Linkage Corridor. The proposed use/zoning designation is consistent with the Future Land Use Map.

The proposed zoning change is intended as a housekeeping measure to correct a discrepancy between the existing development pattern and the adopted zoning map.

Project Scope and Analysis:

For context, the subject 2.09-acre tract was partitioned over time into 11 parcels. It is important to note that these parcels were created without completing the formal subdivision process and, therefore, are not recognized as legal lots of record.

At present, single-family residences have been developed on nine of the 11 parcels, while two parcels remain vacant. Staff identified a discrepancy between the existing zoning designation and the established development pattern following a recent permit application to construct a single-family residence on one of the vacant parcels.

The proposed zoning change from CC to R-3 would bring the existing single-family residential uses into conformity with the zoning regulations and would allow the remaining vacant parcels to develop in a manner consistent with the established residential character of the area.

The R-3 zoning district was identified as the most appropriate designation because it is compatible with surrounding residential zoning and development patterns. Applying the R-3 designation would also promote a logical and contiguous zoning pattern and avoid the creation of an isolated zoning district, or spot zoning.

No. of Mail-outs: 23

Geo ID: 73-8670-0400-0010-00
Case No.: 235-2026-905
Proposed Use: Existing Single Family Development
Proposed Zoning: Residential Transition (R-3)
P&Z Date: August 6, 2026
Electoral District: 2
Annexation Year: 1991
Opposition: No Verbal or Written Opposition

PROPERTY DETAILS

Legal Description: Approximately 2.09 acres out of Lots 1, 2, 5, 6, 7, and 8, Block 40, out of Share 28 of the Brownell Tract, coming from a portion of El Jardin Subdivision, located at Lester Drive, Brownsville, Texas 78521.
Roadway Frontage: The subject property is fronting Lester Drive, a Local Street.
Predominant Land Use: The predominant land use within the area is a mix of commercial, industrial, and single and multifamily residential.

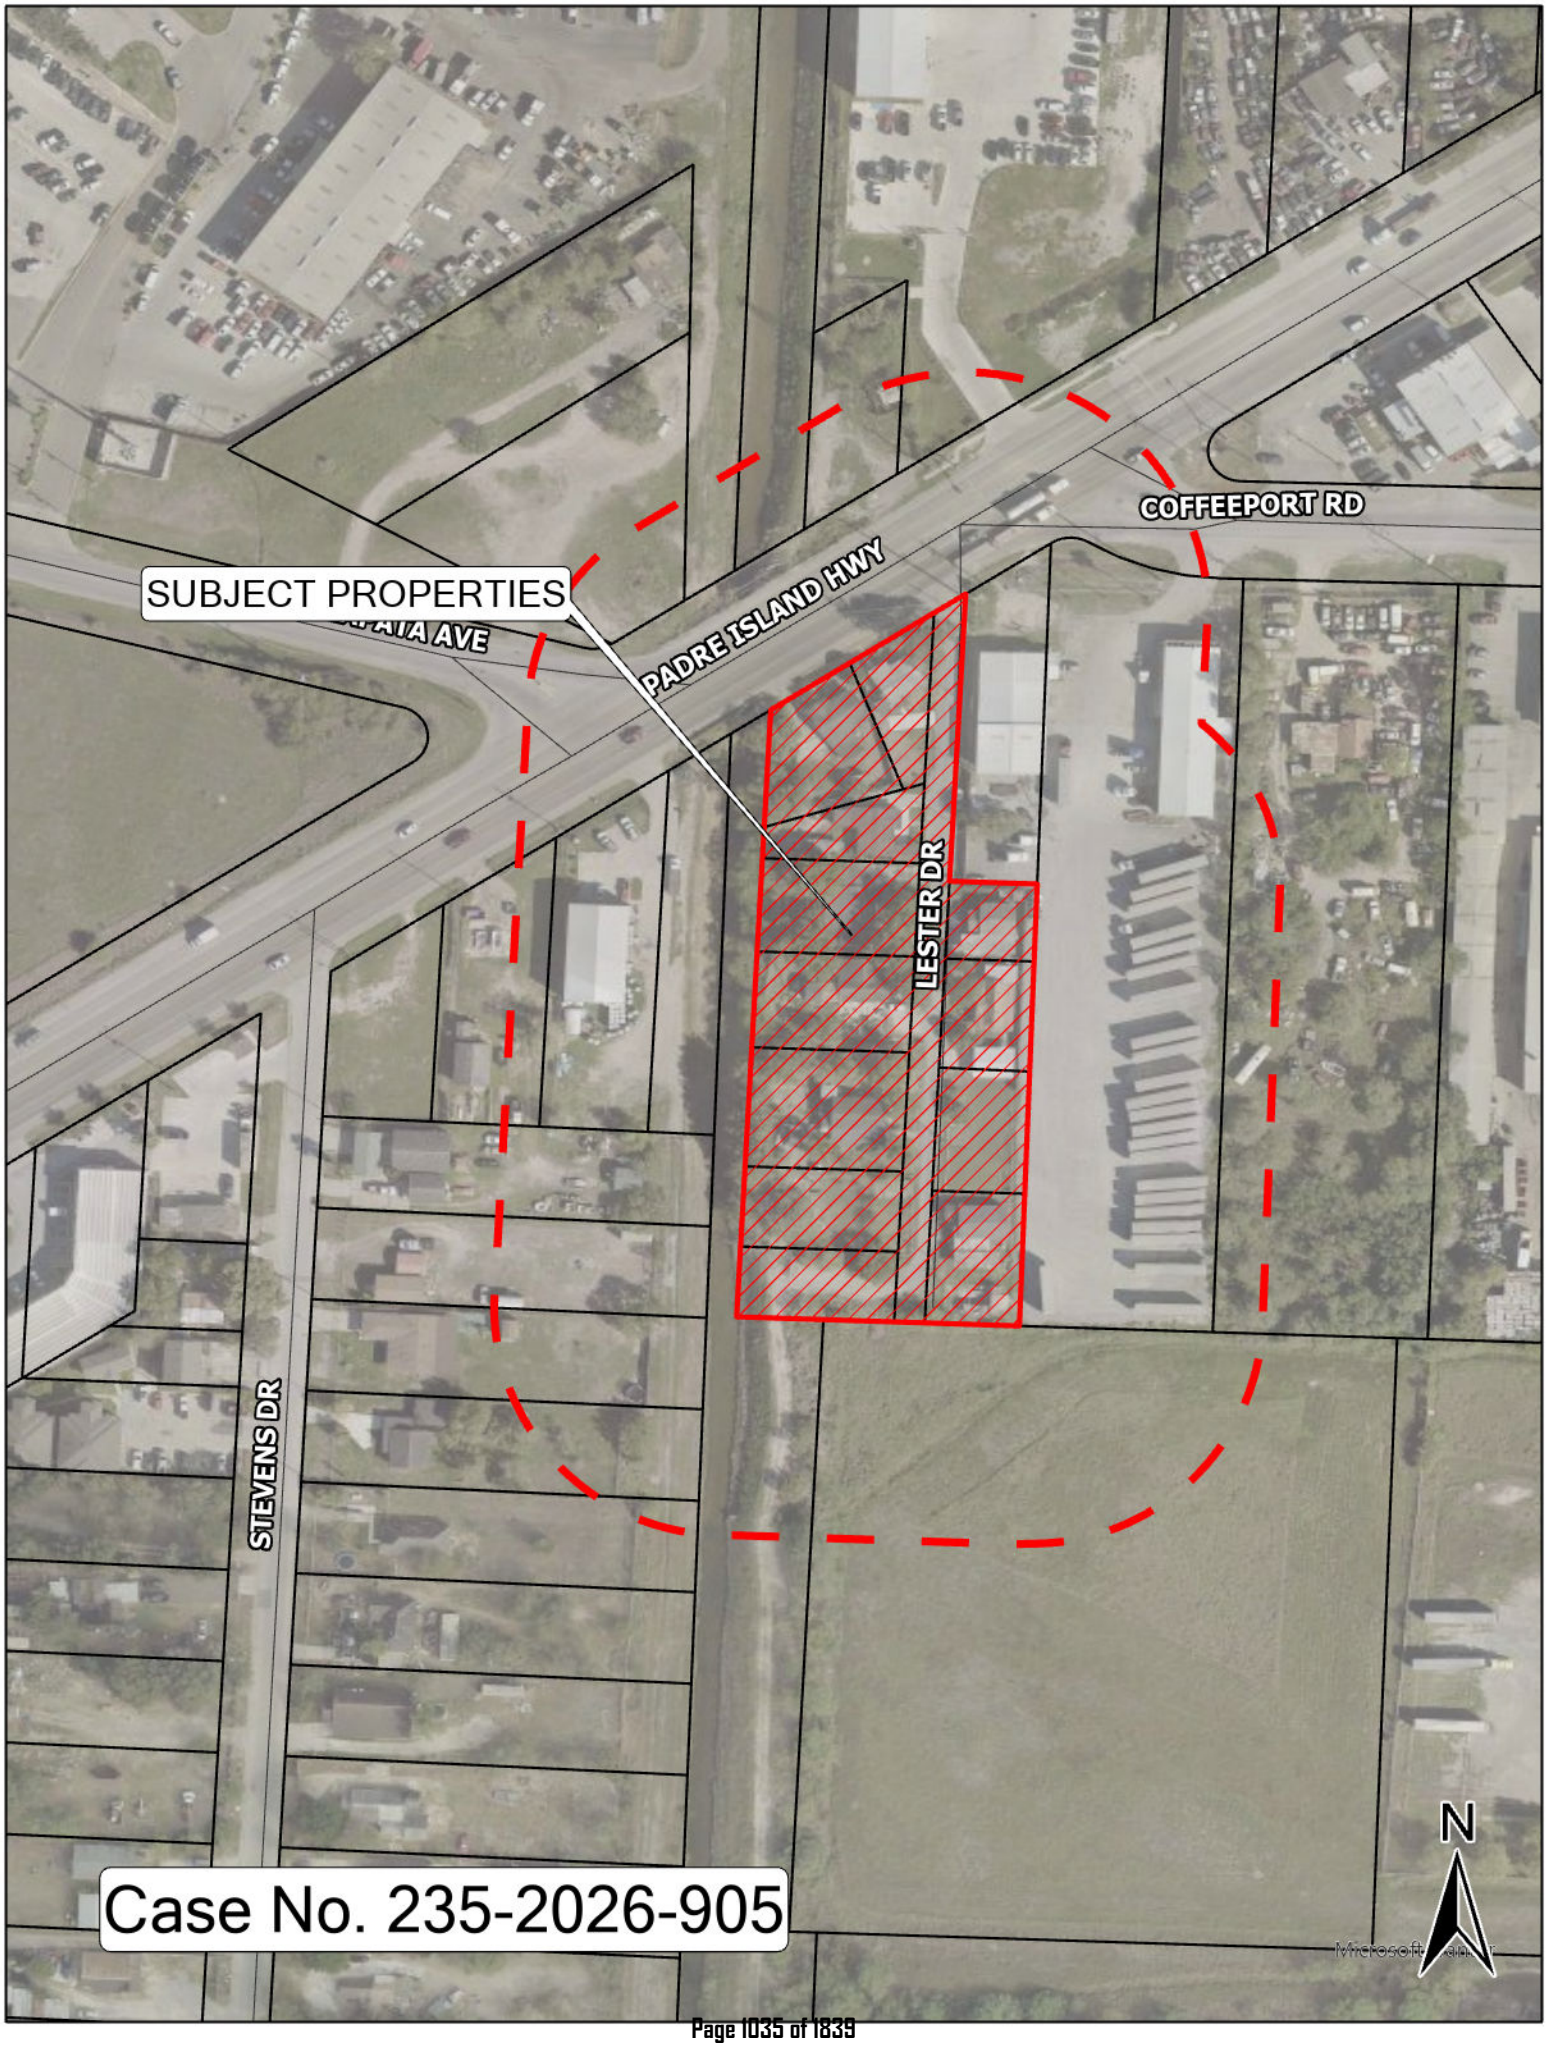
ABUTTING LAND USES (*SEE ATTACHED AERIAL VIEW MAP)*

North: Industrial
East: Industrial
South: Industrial, Multifamily, Single Family Residential
West: Commercial, Multifamily, Industrial

EXISTING ZONING DESIGNATIONS (*SEE ATTACHED ZONING MAP)*

North: Light Industrial (LI)
East: Light Industrial (LI)
South: Light Industrial, Residential Transition (R-3)
West: Corridor Commercial (CC), Residential Transition (R-3), Light Industrial (LI)

FUTURE LAND USE PLAN (*SEE ATTACHED FUTURE LAND USE MAP)*



The City of Brownsville Future Land Use Plan indicates that the subject land is located within the Linkage Corridor. Land uses in the Linkage Corridor are primarily commercial, which should have a regional focus. Uses can include medical offices, auditoriums, and sports facilities. Residential uses should constitute about one quarter of the land uses in the form of single-family homes and townhomes and should be an average of 6 dwelling units per acre. It is the opinion of staff that the request is consistent with the Future Land Use Plan.

REVIEW CRITERIA

After an analysis of the subject property and its surrounding context, staff has determined that the proposed zoning and associated use would be generally compatible with adjacent existing zoning districts and land uses, and would not place significant or undue strain on existing public infrastructure, including water, wastewater, and transportation systems. This zoning district change (R-3) is a correction to the currently assigned zoning district (CC) to allow for the legal continuation of existing single family uses and for proposals of new and compatible uses within vacant lots of the established area.

STAFF RECOMMENDATION

Based upon the analysis presented in this report and observations from the Planning & Redevelopment Department, staff recommends approval of the zoning change request from Corridor Commercial (CC) District to Residential Transition (R-3) District.

CITY OF BROWNSVILLE, TEXAS
ORDINANCE NO. 2026-1818

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF BROWNSVILLE, TEXAS, RELATED TO THE MADEIRA ESPIRITU SANTO PUBLIC IMPROVEMENT DISTRICT NUMBER ONE; ACCEPTING AND APPROVING AN UPDATE TO THE MADEIRA ESPIRITU SANTO PUBLIC IMPROVEMENT DISTRICT NUMBER ONE (PID) OPERATIONS AND MAINTENANCE SERVICE AND ASSESSMENT PLAN; ACCEPTING AND APPROVING THE UPDATED ASSESSMENT ROLL FOR THE PID; MAKING A FINDING OF SPECIAL BENEFIT TO PROPERTY WITHIN THE PID; LEVYING SPECIAL ASSESSMENTS AGAINST SUCH PROPERTY AND ESTABLISHING A LIEN ON SUCH PROPERTY; PROVIDING FOR THE METHOD OF ASSESSMENT AND THE PAYMENT OF THE ASSESSMENTS LEVIED AGAINST THE PID ASSESSED PROPERTY; PROVIDING PENALTIES AND INTEREST ON DELINQUENT ASSESSMENTS; AND, ALSO PROVIDING OFFICIAL NOTICE OF THE PID'S UPDATED SAP TO THE CAMERON COUNTY CLERK IN ACCORDANCE WITH CHAPTER 372 OF THE TEXAS LOCAL GOVERNMENT CODE, AS AMENDED; MAKING LEGISLATIVE FINDINGS; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Brownsville, Texas (the "City"), is authorized under Chapter 372 of the Texas Local Government Code, as amended (the "Act"), to create a public improvement district within the corporate limits and the extraterritorial jurisdiction of the City ("the ETJ"); and

WHEREAS, on June 17, 2025, the City Commission of the City (the "City Commission") conducted a public hearing to consider a petition received by the City requesting the creation of a public improvement district now located within the corporate boundaries of the City; and

WHEREAS, on June 17, 2025, following the public hearing, the City Commission adopted Resolution No. 2025-069 (the "Authorization Resolution"), authorizing, establishing, and creating the Madeira Espiritu Santo Public Improvement District Number One (the "District"); and

WHEREAS, on July 15, 2025, the City Commission adopted and approved Resolution No. 2025-070 accepting the Madeira Espiritu Santo Public Improvement District Number One Preliminary Operations and Maintenance Service and Assessment Plan (the "Preliminary O&M SAP"), directing that the Preliminary O&M SAP be filed with the City Secretary and made available for public inspection, calling for a public hearing on August 5, 2025, (the "Assessment Hearing") to consider the levy of assessments against assessable property within the District (the "Assessed Property") to pay the costs of supplemental services including (1) payment of annual service costs related to the operation of the District exclusively consisting of actual annual costs

of maintenance of right-of-way and recreation improvements, including but not limited to landscaping, streetscapes, recreational facilities, parks, green spaces, trails, fountains, lighting, signage, and public art financed by assessments levied on property within the District; (2) payment of expenses related to the establishment of the District including establishing, administering, and operating the District, and (3) payment of expenses related to the collection of the annual assessments (collectively, the "Supplemental Services"), as further described in the Preliminary O&M SAP, and authorizing and directing the City Secretary to mail, publish, and otherwise provide notices of the Assessment Hearing as required by the PID Act; and

WHEREAS, on July 21, 2026, the City Commission adopted Resolution No. 2026-103 authorizing and calling a public hearing to determine the adoption of an updated service and assessment plan and the levy of the assessment within the District (the "Updated O&M SAP"); and

WHEREAS, the Updated O&M SAP includes a service plan, assessment plan, and an assessment roll as required by the Act; and

WHEREAS, the City, at its sole cost, will maintain the Supplemental Services with proceeds from operation and maintenance assessments (the "O&M Assessment") levied against Assessed Property; and

WHEREAS, after mailing, publishing, and otherwise providing all notices of the Assessment Hearing as required by the Act, the City Commission began the public hearing on August 4, 2026, at the time and place and for the purposes set forth in the notices; and

WHEREAS, after all persons having an interest in the levy of O&M Assessment against the Assessed Property were given an opportunity to be heard in support of or in opposition to the O&M Assessment, the City Commission closed the Assessment Hearing on August 4, 2026; and

WHEREAS, the City Commission finds and determines that the Madeira Espiritu Santo Public Improvement District Number One Updated Operations and Maintenance Service and Assessment Plan, in a form substantially similar to the attached **Exhibit A** (the "Updated O&M SAP"), and which is incorporated herein for all purposes, should be approved and that the O&M Assessments should be levied as provided in this Ordinance and the Assessment Roll, attached as Exhibit D to the Updated O&M SAP (the "Assessment Roll"); and

WHEREAS, after the closing of the Assessment Hearing, and after considering the information, materials, evidence and testimony offered to the City Commission prior to and at the Assessment Hearing, the City Commission has determined that it promotes the interest of the City to adopt and approve this Ordinance.

NOW THEREFORE, BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF BROWNSVILLE, TEXAS, THAT:

SECTION 1. The findings set forth above, together with the exhibits attached hereto, are incorporated into the body of this Ordinance as if fully set forth herein. Any capitalized terms used herein but not otherwise defined shall have the meanings set forth in the Updated O&M SAP.

SECTION 2. The City Commission hereby accepts the Updated O&M SAP in substantially the form attached hereto as **Exhibit A** and is incorporated as part of this Ordinance for all purposes. The Updated O&M SAP shall be updated by the City Commission no less frequently than annually as required by the Act.

SECTION 3. Based on the Updated O&M SAP, the City Commission hereby levies an O&M Assessment upon each Assessed Property in the amounts set forth on the Assessment Roll.

SECTION 4. Each O&M Assessment against an Assessed Property, together with Annual Collection Costs, and reasonable attorney's fees, if incurred, constitutes a lien against the Assessed Property and is the personal liability of and charge against the owner of the Assessed Property regardless of whether the owner is named in this Ordinance.

SECTION 5. The O&M Assessment lien created against each Assessed Property is effective from the date of this Ordinance and constitutes covenants that shall run with the land. The special O&M Assessment lien may be enforced by the City, including foreclosure, in the same manner that an ad valorem tax lien is foreclosed. Any purchaser of an Assessed Property in foreclosure takes subject to the lien against the Assessed Property created by the O&M Assessment.

SECTION 6. The O&M Assessments against each Assessed Property as set forth in the Assessment Roll are due and payable not later than January 31, 2027 and will be delinquent February 1, 2027. Delinquent O&M Assessments shall incur interest, penalties, and attorney's fees in the same manner as delinquent ad valorem taxes.

SECTION 7. The City shall cause the O&M Assessments to be billed and collected at the same time and in the same manner as the ad valorem taxes, and immediately deposited into the District's "Operations and Maintenance Assessment Fund" to be held separate and apart from the other funds and accounts of the City. The Annual Installments collected each year from the levy of the O&M Assessments shall be deposited in the Operations and Maintenance Assessment Fund and shall be used in accordance with the provisions of the Updated O&M SAP.

SECTION 8. Based on materials and information prepared by City staff and qualified professional consultants, on testimony provided throughout the process of creating the District and levying the O&M Assessments including, but not limited to, testimony offered at the Assessment Hearing, the City Commission, acting in its discretionary, legislative capacity hereby finds and determines:

8.1 That the Assessed Property is specially benefitted by the Supplemental Services in an amount that meets or exceeds the O&M Assessments.

8.2 The O&M Assessments (i) are just and equitable; (ii) produces substantial equality, considering benefits received and the burdens imposed; (iii) results in equal shares of the cost of the services on property similarly benefited; and (iv) is authorized

by and has been levied in accordance with the Act, state law, and ordinances of the City.

8.3 That the O&M Assessments against the Assessed Property are in amounts required to pay the costs of the Supplemental Services.

SECTION 9. The City Commission may make supplemental assessments to correct omissions or mistakes related to the cost of the Supplemental Services and O&M Assessments if the City Commission determines that any O&M Assessment is excessive, in accordance with the provisions of the Act. The City Commission may also adjust the O&M Assessments downward following each annual update to the O&M SAP.

SECTION 10. P3Works, LLC, is hereby designated to serve, or until otherwise determined by the City Commission, as the Administrator of the Updated O&M SAP, as amended and supplemented from time to time, and of the O&M Assessments levied by this Ordinance. The Administrator shall perform the duties of the Administrator described in the Updated O&M SAP and in this Ordinance. The Administrator's fees, charges and expenses for provided such service shall constitute an Annual Collection Costs. The Cameron County Tax Assessor and Collector is hereby appointed and designated as the collector of the O&M Assessments and Annual Collection Costs.

SECTION 11. The City Secretary is directed to cause a copy of this Ordinance, including the Updated O&M SAP and the Assessment Roll, to be recorded in the real property records of Cameron County, Texas, not later than the seventh day after the date the City Commission adopts this Ordinance approving the Updated O&M SAP. The City Secretary is further directed to similarly file each Annual Service Plan Update approved by the City Commission, with each such filing to occur within seven days of the date each respective Annual Service Plan Update is approved.

SECTION 12. This Ordinance incorporates, by reference, all provisions of the Act. In the event of any conflict between this Ordinance and the Act, the Act shall control. To the extent not inconsistent with this Ordinance, and not inconsistent with the Act or the other laws governing public improvement districts, the provisions of the Texas Tax Code shall be applicable to the imposition and collection of the O&M Assessments by the City.

SECTION 13. If any section, article, paragraph, sentence, clause, phrase or word of this Ordinance, or application thereto any persons or circumstances, is held invalid by a court of competent jurisdiction, such holding shall not affect the validity of the remaining portions of this Ordinance; and the City Commission hereby declares it would have passed such remaining portions of this Ordinance despite such invalid portions, which remaining portions shall remain in full force and effect.

SECTION 14. This Ordinance shall become effective from and after its date of passage and approval by the City Commission.

INTRODUCTION

Capitalized terms used in this 2026 O&M Service and Assessment Plan shall have the meanings given to them in **Section I** unless otherwise defined in this 2026 O&M Service and Assessment Plan or unless the context in which a term is used clearly requires a different meaning. Unless otherwise defined, a reference to a "Section," an "Exhibit," or an "Appendix" shall be a reference to a Section of this 2026 O&M Service and Assessment Plan or an Exhibit attached to and made a part of this 2026 O&M Service and Assessment Plan for all purposes.

On June 17, 2025, after due process, the City Commission approved Resolution 2025-069 authorizing the establishment of the District in accordance with the PID Act, which authorization was effective as of the date of the adoption of the Resolution as required by the PID Act. The purpose of the District is to finance the actual costs of the Supplemental Services that confer a special benefit on approximately 1,330.32 acres located within the corporate limits of the City, as described on **Exhibit F** and depicted on **Exhibit A**.

This 2026 O&M Service and Assessment Plan serves for the purposes of (1) identifying the Operation and Maintenance Costs to be provided by the District; (2) identifying the costs of the Supplemental Services; (3) identifying the indebtedness to be incurred for the Supplemental Services, and the manner of assessing all of the Assessed Property for the costs of the Supplemental Services; (4) levying the O&M Assessments for the Assessed Property; and (5) approving the Assessment Roll for the District.

The PID Act requires a Service Plan must (i) cover a period of at least five years; (ii) define the annual indebtedness and projected cost of the Supplemental Services; and (iii) include a copy of the notice form required by Section 5.014 of the Texas Property Code, as amended. The Service Plan is contained in Section IV and the notice form is attached as **Appendix B**.

The PID Act requires that the Service Plan include an Assessment Plan that assesses the Supplemental Services against the Assessed Property based on the special benefits conferred on such property by the Supplemental Services. The Assessment Plan is contained in **Section V**.

The PID Act requires an Assessment Roll that states the O&M Assessment against each Parcel of Assessed Property determined by the method chosen by the City Commission. The O&M Assessment against each Parcel of Assessed Property must be sufficient to pay the share of the Supplemental Services apportioned to such Parcel and cannot exceed the special benefit conferred on the Parcel by such Supplemental Services. The Assessment Roll is included as **Exhibit D**.

SECTION I: DEFINITIONS

"2026 O&M Assessment Ordinance" means an O&M Assessment Ordinance adopted by the City Commission in accordance with the PID Act that approved this 2026 O&M Service and Assessment Plan and levied the O&M Assessments.

"2026 O&M Service and Assessment Plan" means this Madeira Espiritu Santo Public Improvement District Number One Operations and Maintenance Service and Assessment Plan as updated, amended, and supplemented from time to time.

"Administrator" means the City or independent firm designated by the City who shall have the responsibilities provided in this 2026 O&M Service and Assessment Plan, or any other agreement or document approved by the City related to the duties and responsibilities of the administration of the District. The current Administrator is P3Works, LLC.

"Annual Collection Costs" mean the actual or budgeted costs and expenses related to the operation of the District, including, but not limited to, costs and expenses for: (1) the Administrator; (2) City staff; (3) legal counsel, engineers, accountants, financial advisors, and other consultants engaged by the City; (4) preparation of updates to this 2026 O&M Service and Assessment Plan including the Assessment Roll; (5) the collection and application of the O&M Assessment and Annual Installments, (6) the use of the foregoing to pay the Annual Installments; and (7) the maintenance of books and records.

"Annual Installment" means the annual installment payment of the O&M Assessment as calculated by the Administrator and approved by the City Commission, plus Annual Collection Costs.

"Assessed Property" means any Parcel within the District other than Non-Benefited Property against which an O&M Assessment is levied.

"Assessment Plan" means the methodology employed to assess the cost of the Supplemental Services against the Assessed Property within the District based on the special benefits conferred on such property by the Supplemental Services, more specifically described in **Section V**.

"Assessment Roll" means any assessment roll for the Assessed Property within the District, as updated, modified, or amended from time to time in accordance with the procedures set forth herein and in the PID Act, including any O&M A&R Service and Assessment Plan.

"City" means the City of Brownsville, Texas.

"City Commission" means the governing body of the City.

"County" means Cameron County, Texas.

"Delinquent Collection Costs" mean costs related to the collection of delinquent O&M Assessment, delinquent Annual Installments, or any other delinquent amounts due under this 2026 O&M Service and Assessment Plan including penalties and reasonable attorney's fees actually paid but excluding amounts representing interest and penalty interest.

"Developer" means Madeira Properties, Ltd., a Texas limited partnership, and any successors or assigns thereof that intends to develop the property in the District for the ultimate purpose of transferring title to end users.

"District" means the Madeira Espiritu Santo Public Improvement District Number One containing approximately 1,330.32 acres located within the corporate limits of the City, as more specifically described in **Exhibit F** and depicted on **Exhibit A**.

"HOA" means a property owner's association entity established for the property located within the boundaries of the District. The HOA shall be responsible for maintaining the Public Improvements.

"Improvement Area #1" means approximately 91.14 acres located within the District, the boundaries of which as more specifically identified by the Improvement Area #1 Final Plat depicted on **Exhibit G** and lots listed in the Assessment Roll on **Exhibit D**.

"Improvement Area #1 Assessed Property" means any Parcel within Improvement Area #1 against which an O&M Assessment is levied.

"Improvement Area #1 Final Plat" means the Acacia Place at Madeira Phase One Plat approved by the City and recorded in the official public records of the County and depicted on **Exhibit G**.

"Land Use" means the classification of certain property within the District based on zoning, platting, or actual use, designating such property for either residential or commercial purposes.

"Land Use Commercial" means a Land Use classification of Assessed Property that is intended or used primarily for non-residential purposes, including but not limited to retail, office, or other business or commercial activities, and which allocation of the O&M Assessment to all Land Use Commercial shall be calculated based on the proportion of the total acreage of Assessed Property classified as Land Use Commercial relative to the total acreage of all the Assessed Property within the District.

"Land Use Residential" means a Land Use classification of Assessed Property that is intended or used primarily for residential purposes, including single-family homes, and which allocation of the O&M Assessment to all Land Use Residential shall be calculated based on the proportion of the total acreage of Assessed Property classified as Land Use Residential relative to the total acreage of all the Assessed Property within the District.

"Lot" or "**Lots"** means for any portion of the District for which a final subdivision plat has been recorded in the plat or official public records of the County, a tract of land described by "lot" in such final and recorded subdivision plat.

"Lot Type" means a classification of final building Lots with similar characteristics (e.g. commercial, townhome, multi-family, single family residential, etc.), as determined by the Administrator, based on information provided by the Developer, and confirmed by the City Commission.

"Lot Type Commercial" means a Lot Type within Land Use Commercial that is designated or intended for commercial use, and which allocation of the O&M Assessment to each Lot Type Commercial shall be calculated based on the proportion of acreage of each Parcel classified as Lot Type Commercial relative to the total acres of all the Assessed Property within Land Use Commercial.

"Lot Type Residential" means a Lot Type within Land Use Residential that is designated or intended for residential use, and which allocation of the O&M Assessment to each Lot Type Residential shall be calculated based on the count of Parcels classified as Lot Type Residential relative to the total number of Parcels of all the Assessed Property within Land Use Residential.

"Non-Benefited Property" means Parcels within the boundaries of the District that accrue no special benefit from the Supplemental Services as determined by the City Commission.

"O&M A&R Service and Assessment Plan" means an amended and restated service and assessment plan which serves to replace in its entirety the 2026 O&M Service and Assessment Plan, or any previously approved O&M A&R Service and Assessment Plans, prepared no less frequently than annually by the Administrator and approved by the City Commission.

"O&M Assessment" means an assessment levied annually against a Parcel of Assessed Property within the District and imposed pursuant to an O&M Assessment Ordinance to fund the Operation and Maintenance Costs of the Supplemental Services, subject to reallocation upon the subdivision of such Parcel or reduction according to the provisions herein and in the PID Act.

"O&M Assessment Ordinance" means an ordinance adopted by the City Commission in accordance with the PID Act that levies the O&M Assessment.

"O&M Budget" means the report provided by the City or Developer that describes the Operation and Maintenance Costs, including their costs and location, and is attached hereto as **Appendix A**.

"Operation and Maintenance Costs" means the costs to fund the Supplemental Services which include the annual costs to operate and maintain the Public Improvements that benefit the

District based on a budget prepared annually by the City, or the Developer, and provided to the Administrator.

"Parcel" or **"Parcels"** means a specific property within the District identified by either a tax map identification number assigned by the Cameron Appraisal District for real property tax purposes, by metes and bounds description, or by lot and block number in a final subdivision plat recorded in the official public records of the County, or by any other means determined by the City.

"PID Act" means Chapter 372, Texas Local Government Code, as amended.

"Public Improvements" means certain public improvements that confer a special benefit on all the Assessed Property within the District, as further described in **Section III** and depicted on **Exhibit E**.

"Public Property" means property within the boundaries of the District that is owned by or irrevocably offered for dedication to the federal government, the State of Texas, Cameron County, the City, a school district or any other public agency, whether in fee simple or through an exclusive use easement.

"Remainder Area" means approximately 1,239.18 acres located within the District and entirely outside of Improvement Area #1, to be developed as one or more future improvement areas.

"Service Plan" covers a period of at least five years and defines the annual indebtedness and projected Supplemental Services more specifically described in **Section IV**.

"Supplemental Services" means improvements and services authorized by Section 372.003 of the PID Act, as listed in **Section III.**

"Trigger Date" means the date a final subdivision plat is filed and recorded in the official public records of the County and has been approved by the City. If the Trigger Date occurs on or before July 31st of the then current year, then Assessments will be due the January 31st of the following year. If the Trigger Date occurs after July 31st of the then current year, then the Assessments will be due on the second January 31st after the final plat is filed.

SECTION II: THE DISTRICT

The District includes approximately 1,330.32 contiguous acres located within the corporate limits of the City, as more particularly described by the legal description on **Exhibit F** and depicted on **Exhibit A**. Development of the District is anticipated to be developed in approximately 10 phases.

Improvement Area #1 includes approximately 91.14 contiguous acres located within the City, the legal descriptions for each lot identified in the Assessment Roll shown on **Exhibit D** and depicted on the Improvement Area #1 Final Plat on **Exhibit G**.

SECTION III: SUPPLEMENTAL SERVICES

The City Commission established the District to fund the Operation and Maintenance Costs of the Supplemental Services within the District. The Supplemental Services of the District include:

- *Public Improvements Operation and Maintenance*

  Costs include operations and maintenance of certain Public Improvements within the District, including: (1) water; (2) storm sewer; (3) rights-of-way maintenance; (4) open space; (5) trails; (6) landscaping; (7) parks; and (8) streetscape. The operation and maintenance will provide benefit to all Parcels within the District.

In addition to the Operation and Maintenance Costs, the Supplemental Services shall also include the Annual Collection Costs for the District.

SECTION IV: SERVICE PLAN

The PID Act requires the Service Plan to cover a period of at least five years. The Service Plan is required to define the annual indebtedness and projected costs of the Supplemental Services of the District during the five-year period. The Service Plan is also required to include a copy of the notice form required by Section 5.014 of the Texas Property Code, as amended. The Service Plan must be reviewed and updated in each O&M A&R Service and Assessment Plan. **Exhibit C** summarizes the Service Plan for the District. Per the PID Act and Section 5.014 of the Texas Property Code, as amended, this 2026 O&M Service and Assessment Plan, and any future O&M A&R Service and Assessment Plans, shall include a form of the buyer disclosures for the District. The notice form required by Section 5.014 of the Texas Property Code is attached hereto as **Appendix B**.

SECTION V: ASSESSMENT PLAN

The PID Act allows the City Commission to allocate the Operation and Maintenance Costs of the Supplemental Services of the District to the Assessed Property based on the special benefit received from the provision of the operations and maintenance. The PID Act provides that such costs may be apportioned in any manner approved by the City Commission that results in imposing equal shares of such costs on property similarly benefitted.

This section of this O&M Service and Assessment Plan describes the special benefit received by each Assessed Property within the District as a result of the Supplemental Services and provides the basis and justification for the determination that this special benefit equals or exceeds the amount of the O&M Assessments levied on the Assessed Property for such Supplemental Services. In no event will the O&M Assessment exceed the City's actual costs of the Operation and Maintenance Costs for the Supplemental Services.

The O&M Assessment shall be subject to penalties and procedures for the Annual Installments as authorized by the PID Act. All Public Improvements of the Operation and Maintenance Costs were designed and constructed in accordance with City standards and specifications. The Public Improvements, of which the Operation and Maintenance Costs will be financed through the District, will be dedicated to and owned by the City through a separate instrument, while the HOA shall be responsible for the ongoing maintenance of the Public Improvements. The City's portion of the Operation and Maintenance Costs will be funded by the collection of O&M Assessments annually levied on the Assessed Property.

A. Assessment Methodology

- The City, Developer, or HOA will prepare, or cause to be prepared, and provide the Administrator a budget for the Operation and Maintenance Costs of the Supplemental Services.
- Annually, considering all plats filed and approved by the City Commission, the costs of the Supplemental Services shall be allocated in aggregate 100% to each Parcel of Assessed Property based on the methodology contained herein. The costs of the Supplemental Services shall be allocated among the Assessed Property according to Land Use, based on the proportionate share of total acreage of each Land Use relative to the total acres of all the Assessed Property.
- At the time this 2026 O&M Service and Assessment Plan is approved by the City Commission, Land Use Residential is the only platted property and has met the Trigger Date requirement, therefore, 100% of the costs of the Supplemental Services are allocated to Land Use Residential.

- The costs of the Supplemental Services allocated to Land Use Residential shall be further allocated to each Lot Type Residential equally among all Parcels classified as Lot Type Residential located within the District.
- The costs of the Supplemental Services allocated to Land Use Commercial shall be further allocated to each Parcel classified as Lot Type Commercial based on each Parcel's acreage relative to the total acreage of Land Use Commercial. The Lots classified as Lot Type Commercial are currently within the Remainder Area and are subject to a future O&M Assessment according to the Trigger Date provisions described herein.
- The District will receive special benefit equal to or greater than the O&M Assessment as a result of the Operation and Maintenance Costs of the Supplemental Services.

B. Assessments

The O&M Assessment will be levied on the Assessed Property according to the amount shown on the Assessment Roll, attached hereto as **Exhibit D**. The O&M Assessment will be levied annually on each Parcel of Assessed Property pursuant to the methodology defined in **Section V**.

Collection of Annual Installments for each phase within the Remainder Area are deferred until the Trigger Date has been reached for each respective phase. If the Trigger Date occurs on or before July 31st of the year that the final plat for a phase within the Remainder Area is filed with the County, then Assessments levied on the property within such phase of the Remainder Area, including the Annual Installments thereof, will be delinquent if not paid on or before the January 31st of the following year. If the Trigger Date occurs after July 31st of the year the final plat for a phase within the Remainder Area is filed with the County, then Assessments levied on the property within such phase of the Remainder Area, including the Annual Installments thereof, will be delinquent if not paid on or before the second January 31st after the final plat is filed with the County.

C. Finding of Special Benefit

Acting in its legislative capacity and based on information provided by the Developer and reviewed by the City staff and by third-party consultants retained by the City, the City Commission has found and determined:

- The costs of the Supplemental Services equal $233,498.32 at the time of the adoption of the 2026 O&M Assessment Ordinance by the City Commission, as shown on **Exhibit B**; and
- The Assessed Property receives special benefit from the Supplemental Services equal to or greater than the costs of the Supplemental Services; and

- The O&M Assessment will be an amount that results in an amount not to exceed the costs of the Supplemental Services. The Assessed Property will be allocated 100% of the O&M Assessment levied for the Supplemental Services, which equals $209,637.32 as shown on the Assessment Roll attached hereto as **Exhibit D**; and
- The special benefit ($233,498.32) received by the Assessed Property from the Supplemental Services is equal to or greater than the amount of the O&M Assessment ($209,637.32) levied on the Assessed Property for the Supplemental Services.

Open space, including Public Property, easements that create an exclusive use for a public utility provider, and HOA owned property, that is maintained or will be maintained by the HOA to the extent it may receive incidental services but accrue no special benefit from Supplemental Services, is designated as Non-Benefited Property. None of the Supplemental Services cost is apportioned to the Non-Benefited Property.

D. Annual Collection Costs

The Annual Collection Costs shall be paid for annually by the owner of each Parcel pro rata based on the ratio of the amount of the O&M Assessment levied annually on each Parcel to the total O&M Assessment. The Annual Collection Costs shall be collected as part of the Annual Installments in the amounts shown on the Assessment Roll, which may be revised based on actual costs incurred in any O&M A&R Service and Assessment Plan.

SECTION VI: TERMS OF THE ASSESSMENTS

A. Operations and Maintenance Assessments and Annual Installments.

The O&M Assessment and the Annual Installments thereof shall be calculated and collected each year in an amount sufficient to pay the Operation and Maintenance Costs.

B. Payment of O&M Assessment in Annual Installments

1. O&M Assessments are subject to adjustments in each O&M A&R Service and Assessment Plan based on the projected Operation and Maintenance Cost as directed by the City.
2. The Administrator shall prepare and submit to the City Commission for its review and approval a preliminary O&M A&R Service and Assessment Plan, including a preliminary Assessment Roll based on the budgeted Operation and Maintenance Costs.
3. The preliminary O&M A&R Service and Assessment Plan will be placed in the City Secretary's office for inspection, and the City Commission will consider a resolution to

call a public hearing and will cause notices of the public hearings to be mailed to all property owners within the District and published in the newspaper of record in accordance with the PID Act.

4. The Administrator shall prepare and submit to the City Commission for its review and approval a final O&M A&R Service and Assessment Plan to allow for the billing and collection of Annual Installments. Each O&M A&R Service and Assessment Plan shall include an updated Assessment Roll, and updated calculations of Annual Installments. Annual Installments shall be mailed at the direction of the City and collected per instruction on the invoice. Annual Installments shall be subject to the penalties and procedures in case of delinquencies as set forth in the PID Act and in the same manner as ad valorem taxes for the City; the City Commission may provide for other means of collecting Annual Installments. O&M Assessment shall have the lien priority specified in the PID Act.

5. The District will receive special benefit equal to or greater than the O&M Assessment as a result of the Supplemental Services.

6. Each O&M Assessment and the Annual Installments thereof shall be delinquent, and may be subject to pay Delinquent Collection Costs, if not paid prior to February 1 of the year following the O&M A&R Service and Assessment Plan levying the O&M Assessment.

SECTION VII: ASSESSMENT ROLL

The list of current Lots within the District, the corresponding O&M Assessment, and total Annual Installment are shown on the Assessment Roll in **Exhibit D**. The Lots shown on the Assessment Rolls will receive the bills for the 2026 Annual Installments which will be delinquent if not paid by January 31, 2027. The Administrator shall prepare and submit to the City Commission for review and approval, updates and proposed revisions to the Assessment Roll and Annual Installments as part of each O&M A&R Service and Assessment Plan.

SECTION VIII: ADDITIONAL PROVISIONS

A. Calculation Errors

If the owner of a Parcel claims that an error has been made in any calculation required by this 2026 O&M Service and Assessment Plan, including, but not limited to, any calculation made as part of any O&M A&R Service and Assessment Plan, the owner's sole and exclusive remedy shall be to submit a written notice of error to the City within 30 days of the mailing of a bill for the

Annual Installment resulting from the O&M A&R Service and Assessment Plan; otherwise, the owner shall be deemed to have unconditionally approved the calculation. Upon receipt of a written notice of error from an owner, the City shall refer the notice to the Administrator who shall provide a written response to the City and the owner within 30 days of such referral. The City Commission shall consider the owner's notice of error and the Administrator's response, and within 30 days the City Commission shall make a final determination as to whether or not an error has been made. If the City Commission determines that an error has been made, the City Commission shall take such corrective action as is authorized by the PID Act, this 2026 O&M Service and Assessment Plan, the applicable O&M Assessment Ordinance levying the O&M Assessment, or as otherwise authorized by the discretionary power of the City Commission. The determination by the City Commission as to whether an error has been made, and any corrective action taken by the City Commission, shall be final and binding on the owner and the Administrator.

B. Amendments

Amendments to this 2026 O&M Service and Assessment Plan must be made by the City Commission in accordance with the PID Act. To the extent permitted by the PID Act, this 2026 O&M Service and Assessment Plan may be amended without notice to property owners of the Assessed Property: (1) to correct mistakes and clerical errors; (2) to clarify ambiguities; and (3) to provide procedures to collect the O&M Assessment, Annual Installments, and other charges imposed by this 2026 O&M Service and Assessment Plan.

C. Administration and Interpretation

The Administrator shall: (1) perform the obligations of the Administrator as set forth in this 2026 O&M Service and Assessment Plan; (2) administer the District for and on behalf of and at the direction of the City Commission; and (3) interpret the provisions of this 2026 O&M Service and Assessment Plan. Interpretations of this 2026 O&M Service and Assessment Plan by the Administrator shall be in writing and shall be appealable to the City Commission by owners or developers adversely affected by the interpretation. Appeals shall be decided by the City Commission after holding a public hearing at which all interested parties have an opportunity to be heard. Decisions by the City Commission shall be final and binding on the property owners and developers and their successors and assigns.

D. Form of Buyer Disclosure/Filing Requirements

Per Section 5.014 of the Texas Property Code, as amended, this 2026 O&M Service and Assessment Plan, and any future O&M A&R Service and Assessment Plans, shall include a form of the buyer disclosures for the District. The buyer disclosure is attached hereto as **Appendix B**. Within seven days of approval by the City Commission, the City shall file and record in the real

property records of the County the executed ordinance of this 2026 O&M Service and Assessment Plan, or any future O&M A&R Service and Assessment Plans. The executed ordinance, including any attachments, approving this 2026 O&M Service and Assessment Plan or any future O&M A&R Service and Assessment Plans shall be filed and recorded in their entirety.

E. Severability

If any provision of this 2026 O&M Service and Assessment Plan is determined by a governmental agency or court of competent jurisdiction to be unenforceable, the unenforceable provision shall be deleted and, to the maximum extent possible, shall be rewritten to be enforceable. Every effort shall be made to enforce the remaining provisions of this 2026 O&M Service and Assessment Plan.

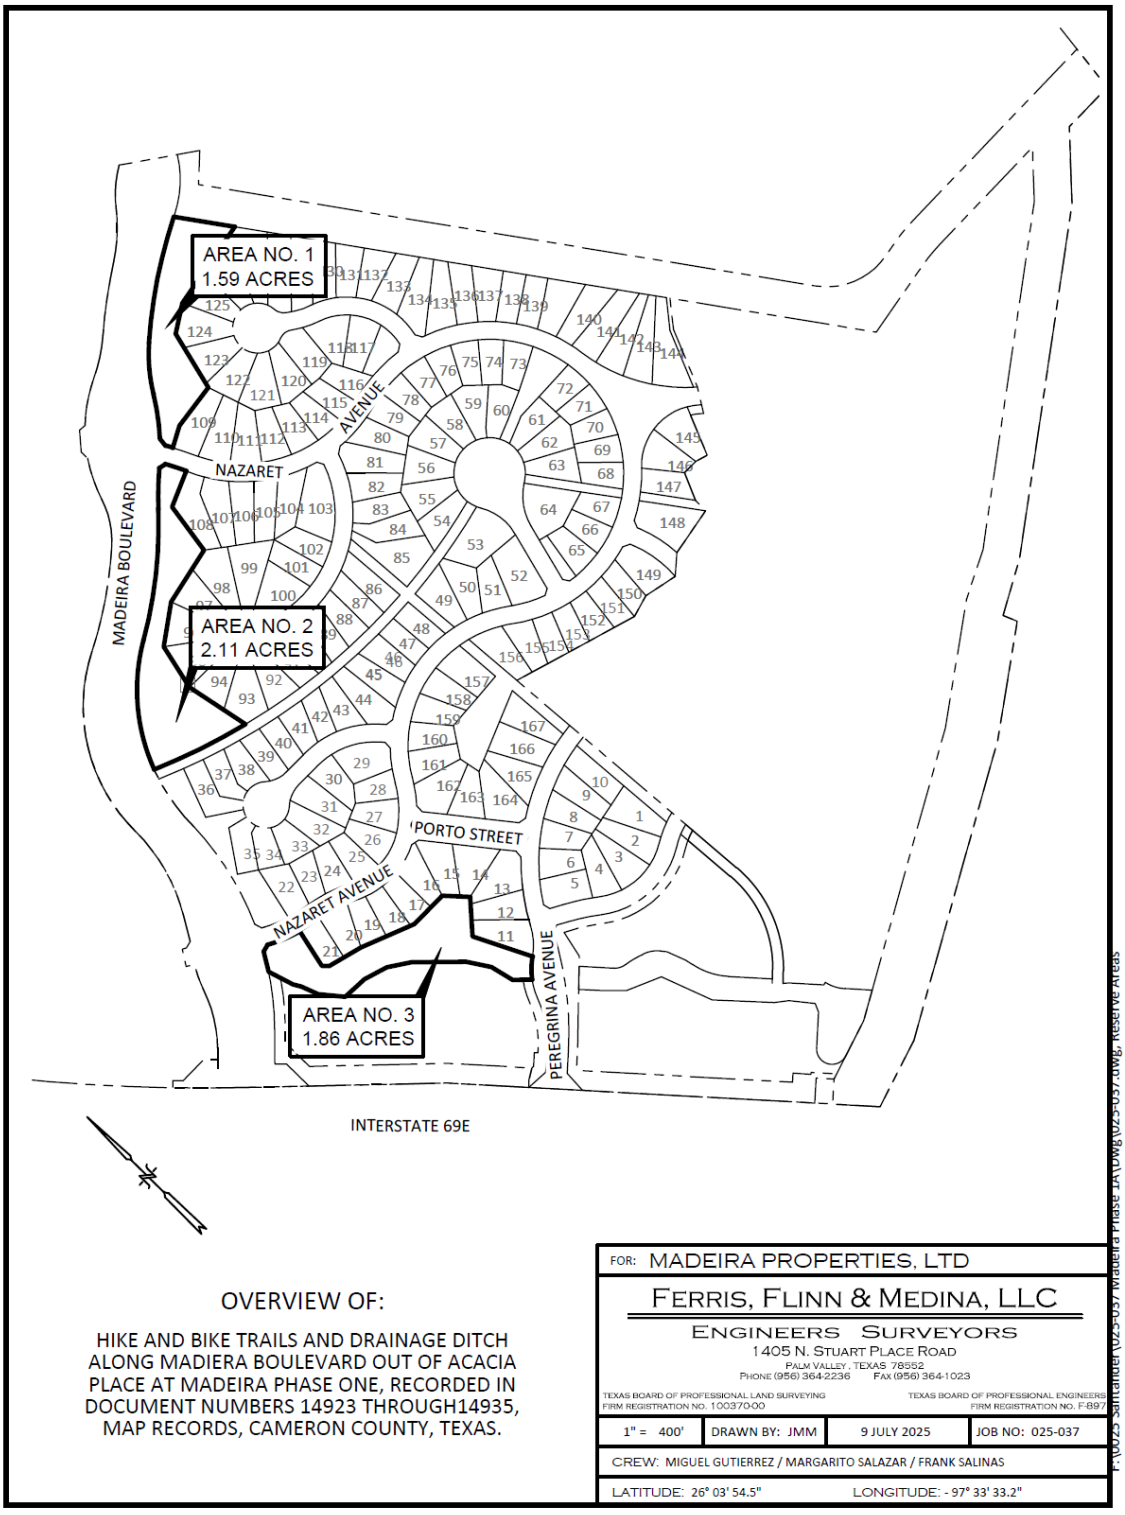
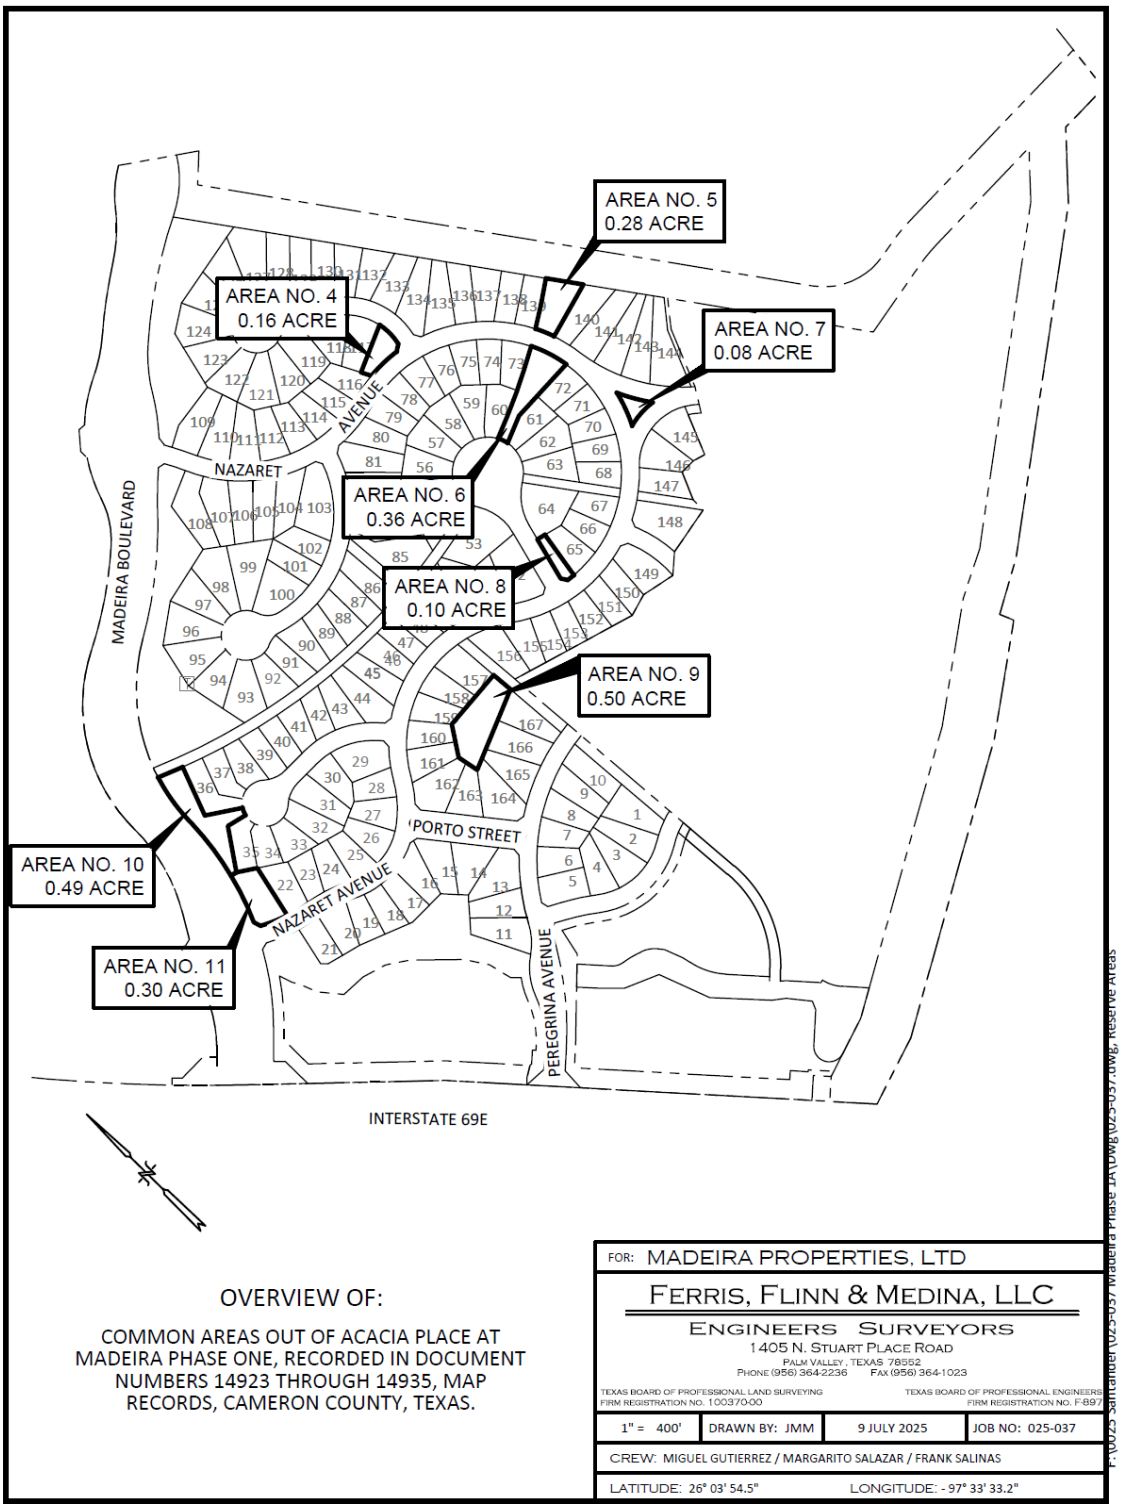
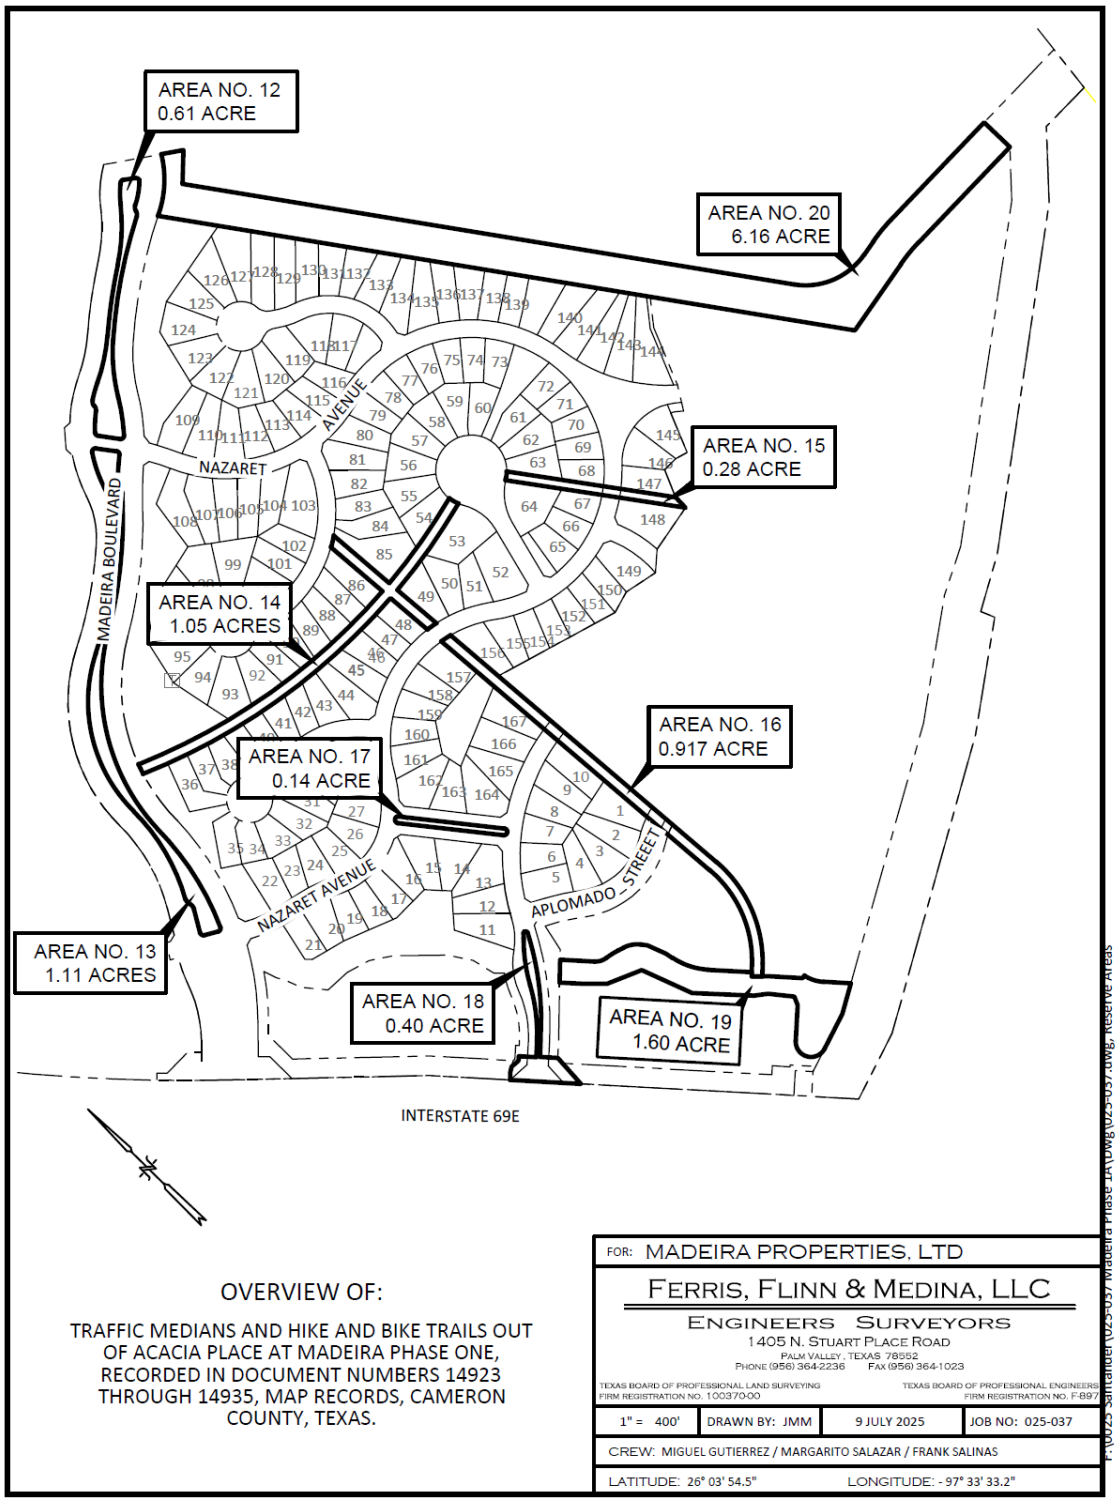
Footnotes



[a] As provided by the Cameron Appraisal District.



[b] For billing purposes, the Annual Collection Costs portion of the Annual Installment due 1/31/2027 shall be allocated to the Property IDs based on the ratio of the O&M Assessment on each Parcel as compared to the total O&M Assessment of the District.



[c] Property located entirely outside of Improvement Area #1 and anticipated to be developed as one or more future improvement areas.

[d] Totals may not sum due to rounding.

METES AND BOUNDS
1330.32 ACRES OUT OF SHARE 1, ESPIRITU SANTO GRANT

BEING A 1330.32 ACRE TRACT of land comprised of the following tracts:
TRACT 1) 1222.09 Acres out of a 1282.657 Acre Tract conveyed to Madeira Properties, Ltd, by deed filed 3 December 2002 and recorded in Volume 8551, Page 124, Official Records of Cameron County, Texas and
TRACT 2) 108.23 Acres conveyed as a 108.45 Acre Tract in Volume 10235, Page 167, Official Records, Cameron County, Texas; being out of Share 1, Espiritu Santo Grant, Cameron County, Texas; said 1330.32 Acres being more particularly described by metes and bounds as follows:

COMMENCING at the intersection of the East boundary of Share 1, being the same East line of what is commonly called the "Noriega Tract" and the South Right of way of State Highway 100 (Having 138 Feet of Right of way) and being on the West boundary of Block 63, San Carlos Estates recorded in Volume 8, Page 37, Map Records of Cameron County, Texas from which a 1/2 inch iron rod found bears South 53 Deg. 19 Min. 05 Sec. West a distance of 1.76 feet, for the Northeast corner and **POINT OF BEGINNING** of the tract herein described; (Having Coordinate values of X = 1296926.3342 Y = 16554676.5889, based on the Texas State Plane Coordinate System, South Zone, NAD 83);

1) **THENCE** leaving the South Right of way of State Highway 100 and along the East boundary of Share 1, being the West boundary of San Carlos Estates, **South 07 Deg. 12 Min. 17 Sec. West** at a distance of 3500.00 feet pass the North corner of the 108.23 Acre Tract, at a distance of 3774.45 feet pass the Southeast corner of the 108.23 Acre Tract, a total distance of **7415.49 feet** (7415.70 feet-deed) to a point, for the Southeast corner of the tract herein described;

2) **THENCE South 89 Deg. 34 Min 17 Sec. West** a distance of **152.67 feet** to a point within the banks of a drain ditch, for a corner of the tract herein described;

3) **THENCE** within the banks of the existing drain ditch, **South 43 Deg. 29 Min. 49 Sec. West** a distance of **215.42 feet** to a point, for a corner of the tract herein described;

4) **THENCE** continuing within the banks of the existing drain ditch, **South 53 Deg. 57 Min. 13 Sec. West** a distance of **1000.60 feet** to a point, for a corner of the tract herein described;

5) **THENCE** continuing within the banks of the existing drain ditch, **South 61 Deg. 28 Min. 34 Sec. West** a distance of **168.16 feet** to a point, for a corner of the tract herein described;

6) **THENCE** continuing within the banks of the existing drain ditch, **South 22 Deg. 47 Min. 53 Sec. East** a distance of **42.18 feet** to a point from which an iron rod found bears North 76 Deg. 40 Min. 02 Sec. West a distance of 1.19 feet and being the North corner of a 43.66 Acre Tract conveyed to the Board of Trustees of the South Texas Independent School District and recorded in /volume 18354, Page 47, Official Records of Cameron County, Texas, for a corner of the tract herein described;

7) **THENCE** along the approximate south bank of the existing drain ditch, **South 54 Deg. 49 Min. 28 Sec. West** a distance of **335.66 feet** to a point from which an iron rod found bears North 71 Deg. 53 Min. 02 Sec. West a distance of 1.17 feet, for a corner of the tract herein described;

8) **THENCE South 61 Deg. 09 Min. 03 Sec. West** a distance of **873.22 feet** to a point from which an iron rod found bears North 82 Deg. 37 Min. 23 Sec. West a distance of 1.08 feet, for a corner of the tract herein described;

9) **THENCE South 72 Deg. 31 Min. 03 Sec. West** a distance of **207.72 feet** to a point from which an iron rod found bears North 6 Deg. 04 Min. 29 Sec. West a distance of 0.40 feet and being on the East Right of way of Interstate 69 (U.S. Expressway 77/83), for the South corner of the tract herein described;

10) **THENCE** along the East Right of way of Interstate 69 (U.S. Expressway 77/83), **North 41 Deg. 19 Min. 56 Sec. West** a distance of **1213.45 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

11) **THENCE** continuing along the East Right of way of Interstate 69 (U.S. Expressway 77/83), **North 45 Deg. 43 Min. 57 Sec. West** a distance of **561.67 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found at the Point of Curvature of a curve to the right, for an angle point of the tract herein described;

12) **THENCE** continuing along the East Right of way of Interstate 69 (U.S. Expressway 77/83) and along said curve to the right, having a Radius of 5280.00 feet, **an Arc Length of 770.48 feet**, through a central angle of 08 Deg. 21 Min. 39 Sec., with a Chord Bearing of North 41 Deg. 33 Min. 09 Sec. West and a Chord Distance of 769.79 feet to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for the Point of Tangency of said curve to the right and an angle point of the tract herein described;

13) **THENCE** continuing along the East Right of way of Interstate 69 (U.S. Expressway 77/83), **North 37 Deg. 22 Min. 17 Sec. West** a distance of **1365.57 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

14) **THENCE** continuing along the East Right of way of Interstate 69 (U.S. Expressway 77/83), **North 32 Deg. 15 Min. 22 Sec. West** a distance of **683.57 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

15) **THENCE** continuing along the East Right of way of Interstate 69 (U.S. Expressway 77/83), **North 27 Deg. 51 Min. 22 Sec. West** a distance of **1303.46 feet** to an iron rod found, for a corner of the tract herein described;

16) **THENCE** continuing along the East Right of way of Interstate 69 (U.S. Expressway 77/83), **North 32 Deg. 15 Min. 22 Sec. West** a distance of **1400.00 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

17) **THENCE** continuing along the East Right of way of Interstate 69 (U.S. Expressway 77/83), **North 36 Deg. 51 Min. 27 Sec. West** a distance of **1246.62 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

18) **THENCE** continuing along the East Right of way of Interstate 69 (U.S. Expressway 77/83), **North 32 Deg. 15 Min. 22 Sec. West** a distance of **2053.37 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

19) **THENCE** continuing along the East Right of way of Interstate 69 (U.S. Expressway 77/83), **North 27 Deg. 26 Min. 42 Sec. West** a distance of **956.68 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

20) **THENCE** continuing along the East Right of way of Interstate 69 (U.S. Expressway 77/83), **North 32 Deg. 14 Min. 52 Sec. West** a distance of **380.82 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

21) **THENCE** along the corner clip of State Highway 100 (Having a Varying Right of way Width), **North 27 Deg. 44 Min. 38 Sec. East** a distance of **184.12 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

22) **THENCE** along the South Right of way of State Highway 100, **North 89 Deg.22 Min. 38 Sec. East** a distance of **93.70 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

23) **THENCE** continuing along the South Right of way of State Highway 100, **South 84 Deg. 00 Min. 11 Sec. East** a distance of **2204.07 feet** to a point, for a corner of the tract herein described;

24) **THENCE** continuing along the South Right of way of State Highway 100, **South 05 Deg. 59 Min. 49 Sec. West** a distance of **10.00 feet** to a bent 1/2 inch iron rod found, for a corner of the tract herein described;

25) **THENCE** continuing along the South Right of way of State Highway 100, **South 84 Deg. 00 Min. 11 Sec. East** a distance of **2200.00 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

26) **THENCE** continuing along the South Right of way of State Highway 100, **North 05 Deg. 59 Min. 49 Sec. East** a distance of **10.00 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

27) **THENCE** continuing along the South Right of way of State Highway 100, **South 84 Deg. 00 Min. 11 Sec. East,** at a distance of 0.43 feet pass a 1/2 inch iron rod found, a total distance of **1799.90 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

28) **THENCE** continuing along the South Right of way of State Highway 100, **South 78 Deg. 17 Min. 33 Sec. East** a distance of **100.50 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

29) **THENCE** continuing along the South Right of way of State Highway 100, **South 84 Deg. 00 Min. 11 Sec. East** a distance of **100.00 feet** to a point, for a corner of the tract herein described;

30) **THENCE** continuing along the South Right of way of State Highway 100, **South 89 Deg. 42 Min. 49 Sec. East** a distance of **100.50 feet** to a point, for a corner of the tract herein described;

31) **THENCE** continuing along the South Right of way of State Highway 100, **South 84 Deg. 00 Min. 11 Sec. East** a distance of **3114.17 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found on the West boundary of a 14.01 Acre Tract recorded in Volume 22427, Page 126, Official Records of Cameron County, Texas, for a corner of the tract herein described;

32) **THENCE** leaving the South Right of way of State Highway 100 and along the West boundary of the 14.01 Acre Tract, **South 07 Deg. 12 Min. 40 Sec. West** a distance of **380.26 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

33) **THENCE** continuing along the boundary of the 14.01 Acre Tract, **North 84 Deg. 00 Min 20 Sec. West** a distance of **243.20 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

34) **THENCE** continuing along the West boundary of the 14.01 Acre Tract, **South 07 Deg. 12 Min. 17 Sec. West** a distance of **1150.36 Feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

35) **THENCE** along the South boundary of the 14.01 Acre Tract, **South 82 Deg. 47 Min. 43 Sec. East** a distance of **511.11 feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 5719 found, for a corner of the tract herein described;

36) **THENCE** along the East boundary of the 14.01 Acre Tract, **North 07 Deg. 12 Min. 17 Sec. East** a distance of **1161.15 Feet** to a 1/2 inch iron rod with plastic cap stamped MEDINA 57119 found on the South boundary of a 3.0 Acre Tract recorded in Volume 303, Page 238, Deed Records, Cameron County, Texas, for a corner of the tract herein described;

37) **THENCE** along the boundary of the 3.0 Acre Tract, **South 84 Deg. 00 Min. 20 Sec. East** a distance of **110.03 Feet** to a point, for a corner of the tract herein described;

38) **THENCE** continuing along the East boundary of the 3.0 Acre Tract, **North 07 Deg. 12 Min. 17 Sec. East** a distance of **380.25 feet** to point on the South Right of way of State Highway 100, for a corner of the tract herein described;

39) **THENCE** along the South Right of way of State Highway 100, **South 84 Deg. 00 Min. 11 Sec. East** a distance of **40.00 feet** to the **POINT OF BEGINNING** and containing 1330.32 Acres of land within these metes and bounds.

Basis of bearings on this metes and bounds are as per the Texas State Plane Coordinate System, South Zone, NAD 83. A plat of survey accompanies this metes and bounds description. All dimensions are in feet and decimals thereof.

DRAINAGE REPORT

ACACIA PLACE AT MADEIRA PHASE ONE IS ON LAND THAT SLOPES TOWARDS THE SOUTH AND EAST TO THE EXISTING C.C.D.D. # 1 DITCH. THE PHASE ONE LOTS WILL BE GRADED SLIGHTLY SO THAT STORM WATER RUNOFF WILL DRAIN TO THE PROPOSED PUBLIC STREETS.

EACH STREET SHALL CAPTURE STORM WATER RUN-OFF FROM THE LOTS AND CARRY IT TOWARDS THE CURB INLETS, THENCE THROUGH THE PROPOSED STORM SEWER SYSTEM. THENCE TO A DRAIN DITCH AND ON TO C.C.D.D. #1 DRAINAGE DITCH.

ACCORDING TO THE FEDERAL EMERGENCY MANAGEMENT AGENCIES FIRM MAP, COMMUNITY PANEL NO. 480103 0445 F (EFFEARUARY 16, 2018), THE PROPOSED SUBDIVISION IS LOCATED WITHIN ZONE X AND ZONE X 0.2 PCT ANNUAL CHANCE.

THIS PLAT CONTAINS A NOTE THAT STATES THAT EACH HOUSE SHALL BE ELEVATED TO ELEVATION 32.00 MSL OR 24 INCHES ABOVE TOP OF CURB AT FRONT AND CENTER OF LOT, WHICHEVER IS GREATER. THE ABOVE MEASURE WILL PROVIDE POSITIVE DRAINAGE AWAY FROM THE PROPOSED HOME SITES, AND ROUTE RUNOFF DRAINAGE TO THE PROPOSED STREETS.

CERTIFICATION

UNDER LOCAL GOVERNMENT CODE 232.0214, FLOOD PLAIN MEANS ANY AREA IN THE 100 YEAR FLOOD PLAIN THAT IS-SUSCEPTIBLE TO BEING INUNDATED BY WATER FROM ANY SOURCE AS IDENTIFIED BY FEMA UNDER THE NATIONAL FLOOD INSURANCE ACT. BY MY SIGNATURE BELOW, I CERTIFY THAT THE 100 YEAR FLOOD PLAIN AS SHOWN IN FIRM COMMUNITY PANEL NO. 480103 0445 F DOES NOT EXIST IN THIS SUBDIVISION AND THAT THE PROPOSED DRAINAGE FACILITIES WILL PROVIDE DRAINAGE ADEQUATE SUCH THAT THE 100 YEAR STORM WILL NOT CAUSE FLOODING OF THE PROPOSED HOMES PROVIDED PERPETUAL AND CONSISTENT MAINTENANCE OF DRAINAGE DITCHES BY THE GOVERNING ENTITIES.

REPORTE DE DRENAJE

EL FRACCIONAMIENTO ACACIA PLACE AT MADEIRA FASE UNO ES UN TERRENO QUE DECLINDE HACIA EL SURESTE A EL DREN EXISTENTE DE C.C.D.D. NO. 1. LOS SOLARES DE LA FASE UNO SERÁN GRADUADOS LIGERAMENTE PARA QUE LA DESCARGUE DE AGUAS PLUVIALES DE DESAGÜE HACIA LAS CALLES PROPUESTAS. CADA CALLE CAPTURARA AGUAS DE DESCARGUE PROCEDENTES DE LOS LOTES Y LLEVARLO A LA ACERA, DONDE SE FLUIRÁ A TRAVÉS DEL ALCANTARILLADO PLUVIAL PROPUESTO A PARTIR DE ASI SERÁ LLEVADO AL DREN DE C.C.D.D. # 1. EL ÁREA DE DRENAJE SE MUESTRA EN EL PLAN DE DESAGUE, QUE ES UNA PARTE DE ESTE PLANO

DE ACUERDO A LA PLANICIE DE INUNDACION DE LA ADMINISTRACION FEDERAL (F.I.A.-POR SUS SIGLAS EN INGLES) LA CUAL ADMINISTRA EL PROGRAMA NACIONAL DE SEGURO POR INUNDACION (NATIONAL FLOOD INSURANCE RATE MAP) CON EL MAPA DE SEGURO POR ESTABLECIDA POR LA AGENCIA FEDERAL DE MANEJO DE EMERGENCIAS (F.E.M.A.-POR SUS SIGLAS EN INGLES) CON EL PANEL NUMERO 480103 0990 F ESTA AREA SE ENCUENTRA EN LA ZONA "X" Y ZONA "X" 0.2% LA CUAL ES DEFINIDA POR F.E.M.A. COMO AREAS DE INUNDACION MINIMA

EL PLANO DE ESTE FRACCIONAMIENTO CONTIENE UNA NOTA LA CUAL REFLEJA QUE CADA VIVIENDA DEBERÁ TENER A UNA ELEVACION DE 29.92' SOBRE EL NIVEL DEL MAR O 24' PULGADAS ARRIBA DEL CORDON CENTRADO AL FRENTE DEL SOLAR, EL CUAL SEA. PROVEERA FLUJO POSITIVO SOBRE LAS VIVIENDAS Y A LA VIA DE DESAGUE A LA CALLES.

CERTIFICACION

BAJO EL CODIGO 232.021 DEL GOBIERNO LOCAL "LA PLANICIE DE INUNDACION" (FLOODPLAIN), SIGNIFICA UNA AREA EN LA ZONA DE INUNDACION DE 100 AÑOS CUAL ES SUJETO A SER INUNDADO POR AGUA DE CUALQUIER FUENTE COMO ES IDENTIFICADO EN LOS IDENTIFICADO POR F.E.M.A. BAJO LA F.I.A. (LA ADMINISTRACION FEDERAL DE SEGURO) CON MI FIRMA YO CERTIFICO QUE ESTE FRACCIONAMIENTO SE ENCUENTRA DENTRO DE LOS DERECHOS DE VIA DESIGNADOS EN EL MAPA Y QUE LAS VIVIENDAS SI CONSTRUIDAS DE ACUERDO A LAS ELEVACIONES MINIMAS AQUI DESCRITAS, ESTARAN FUERA DE LA PLANICIE DE INUNDACION DE 100 AÑOS, CON LA CONEXION QUE LAS ZANJAS Y DRENES MANTENGAN UN MANTENIMIENTO PERPETUO POR LAS ENTIDADES GUBERNAMENTALES CORRESPONDIENTES

ESTE REPORTE FUE PREPARADO POR EL INGENIERO CIVIL DAVID H. FLINN CON EL REGISTRO NUMERO 82637 DE EL ESTADO DE TEXAS

FINAL ENGINEERING REPORT FOR
ACACIA PLACE AT MADEIRA PHASE ONE
PREPARED BY DAVID FLINN, P.E.

WATER SUPPLY DESCRIPTION, COSTS AND OPERABILITY DATE:

EAST RIO HONDO WATER SUPPLY CORPORATION (ERHWSC) CURRENTLY PROVIDES WATER SERVICE TO THE AREA. THE SUBDIVIDER AND ERHWSC HAVE ENTERED INTO A SUBDIVISION AGREEMENT IN WHICH ERHWSC WILL PROVIDE SUFFICIENT WATER TO THIS SUBDIVISION FOR AT LEAST 30 YEARS. THE SUBDIVIDER HAS PROVIDED DOCUMENTATION TO SUFFICIENTLY ESTABLISH A LONG TERM QUANTITY AND QUALITY AVAILABILITY WATER SUPPLY TO SERVE THE FULL DEVELOPMENT OF THE SUBDIVISION.

THERE IS AN EXISTING 12 INCH WATERLINE LOCATED ON THE EAST RIGHT OF WAY OF INTERSTATE 69. A NEW 12 INCH WATERLINE WILL BE CONNECTED TO SAID 12 INCH WATERLINE. A NEW 16 INCH WATERLINE WILL ALSO BE CONNECTED TO THE EXISTING 16 INCH WATERLINE AT THE EXISTING WASTE WATER TREATMENT PLANT.

AN 8 INCH WATERLINE WILL BE CONSTRUCTED THROUGHOUT THE SUBDIVISION AS WELL AS WATER SERVICE LINES TO EACH LOT IN ACCORDANCE WITH ERHWSC STANDARDS.

THE COST OF THE WATER SYSTEM IMPROVEMENTS IS $979,192 OR $5,863.43 PER LOT.

THE SUBDIVIDER HAS ALSO PAID EAST RIO HONDO WATER SUPPLY CORPORATION $488,852.50 OR $2,927.50 PER LOT FOR WATER SERVICE CONNECTION FEES FOR ALL 167 LOTS.

THE WATER SYSTEM WILL BE OPERABLE BY JULY 31, 2024. THE SUBDIVIDER HAS EXECUTED A WATER SERVICE AGREEMENT IN WHICH ERHWSC WILL PROVIDE SUFFICIENT WATER SERVICE TO ACACIA PLACE AT MADEIRA PHASE ONE FOR AT LEAST 30 YEARS).

SEWAGE FACILITIES DESCRIPTION, COSTS AND OPERABILITY DATE:

WASTEWATER SERVICES WILL BE PROVIDED BY EAST RIO HONDO WATER SUPPLY CORPORATION (ERHWSC).

THERE IS AN EXISTING 15 INCH SANITARY SEWER LINES LOCATED AT THE SOUTHWEST CORNER OF THE PROPERTY. SANITARY SEWER FOR THE SUBDIVISION WILL BE CONNECTED TO THE EXISTING 15 INCH SANITARY SEWER A NEW 8 INCH AND 15 INCH SANITARY SEWER SYSTEM WILL BE CONSTRUCTED WITHIN THE SUBDIVISION TO PROVIDE SERVICE.

A 4" SERVICE LINE WILL BE INSTALLED TO EACH OF THE 167 LOTS, IN ACCORDANCE WITH ERHWSC STANDARDS.

THE COSTS OF THE WASTEWATER COLLECTION SYSTEM IS $427,005 OR $2,556.92 PER LOT.

THE SUBDIVIDER WAS ALSO PAID TO ERHWSC $481,531.50 OR $2,783.66 PER LOT FOR SEWAGE CONNECTION FEE

THE WASTEWATER COLLECTION SYSTEM WILL BE OPERABLE JULY 31, 2024. THE SUBDIVIDER HAS EXECUTED AN AGREEMENT IN WHICH ERHWSC WILL PROVIDE SANITARY SEWER SERVICES FOR AT LEAST 30 YEARS.

CERTIFICATION

BY MY SIGNATURE BELOW, I CERTIFY THAT THE WATER AND SEWAGE FACILITIES DESCRIBED ABOVE ARE IN COMPLIANCE WITH THE RULES ADOPTED UNDER 16.343 WATER CODE. I CERTIFY THE ESTIMATED COST TO PROVIDE WATER AND WASTEWATER FACILITIES AS DESCRIBED ABOVE ARE AS FOLLOWS.

WATER FACILITIES - ALL WATER FACILITIES ARE FULLY CONSTRUCTED TO EACH LOT.

THE SUBDIVIDER HAS COVERED THE TOTAL COST OF $979,192 TO SERVE 167 LOTS.

SEWAGE FACILITIES - ALL WASTEWATER FACILITIES ARE FULLY CONSTRUCTED TO EACH LOT

THE DEVELOPER HAS PAID IN THE AMOUNT OF $427,005 TO SERVE 167 LOTS.

REPORTE FINAL DE INGENIERÍA PARA EL FRACCIONAMIENTO
ACACIA PLACE AT MADEIRA FASE UNO

PROVISION DE AGUA
DESCRIPCION, COSTO Y FECHA DE OPERABILIDAD:

EAST RIO HONDO WATER SUPPLY CORPORATION (ERHWSC POR SUS INSIALES EN INGLES) ACTUALMENTE PRESTA SERVICIO DE AGUA POTABLE EN LA ZONA. EL FRACCIONADOR Y ERHWSC HAN FIRMADO UN ACUERDO POR EL CUAL ERHWSC SE COMPROMETE A PROVEER CON SUFICIENTE AGUA POTABLE AL FRACCIONAMIENTO POR LO MENOS DE TREINTA (30) AÑOS. EL ERHWSC INDICA QUE TIENE LA DOCUMENTACION ADECUADA ESTABLECER LA CALIDAD Y CANTIDAD A LARGO PLAZO DE LOS RECURSOS DISPONIBLES DE AGUA POTABLE PARA DAR SERVICIO AL DESARROLLO TOTAL DE ESTE FRACCIONAMIENTO.

HAY UNA LÍNEA EXISTENTE DE DOCE (12) PULGADAS UBICADA EN EL LADO ESTE DE LA CALLE LAREDO. UNA NUEVA LÍNEA DE AGUA POTABLE DE DOCE (12) PULGADAS ESTARA CONECTADA A UNA LINEA DE AGUA POTABLE DE DOCE (12) PULGADAS. LA LÍNEA NUEVA DE AGUA POTABLE DE DIECISEIS (16) PULGADAS TAMBIEN ESTARA CONECTADA A LA LÍNEA EXISTENTE DE AGUA POTABLE DE DIECISEIS (16) PULGADAS EN LA CALLE DE BASQUE.

UNA LÍNEA DE AGUA POTABLE DE OCHO (8) PULGADAS SERÁ CONSTRUIDA EN TODO EL FRACCIONAMIENTO AL IGUAL QUE TODAS LAS LÍNEAS DE SERVISIOS A CADA SOLAR DENTRO DEL FRACCIONAMIENTO DE ACUERDO A(S) NORMAS ESTABLESIDAS POR ERHWSC.

EL COSTO DE LAS MEJORAS AL SISTEMA DE AGUA POTABLE ES: $979,192 O $5,863.43 POR SOLAR.

EL SUBDIVIDOR TAMBIEN HA PAGADO A ERHWSC $488,852.50 O $2,927.50 POR SOLAR POR CUOTAS DE CONEXION AL SERVICIO DE AGUA POTABLE PARA TODOS LOS 167 SOLARES.

EL SISTEMA DE AGUA POTABLE SERÁ OPERABLE EL 31 DE JULIO DE 2024. EL FRACCIONAMIENTO HA EJECUTADO UN ACUERDO DE SERVICIO DE AGUA EN EL QUE ERHWSC PROPORCIONARÁ SERVICIO DE AGUA SUFICIENTE A LA SUBDIVISION LUGAR DE ACACIA EN MADEIRA FASE UNO POR LO MENOS 30 AÑOS.

MEJORAS DE DRENAJE SANITARIO
DESCRIPCION, COSTO Y FECHA DE OPERABILIDAD

LOS SERVICIOS DE AGUAS RESIDUALES SERÁN PROPORCIONADOS POR EAST RIO HONDO WATER SUPPLY CORPORATION (ERHWSC).

EXISTE UNA LÍNEA SANITARIA DE QUINCE (15) PULGADAS UBICADA AL SURESTE. LA LÍNEA SANITARIA CONSTRUIRA UNA LÍNEA DE OCHO (8) PULGADAS QUE SE CONECTARA A UNA LÍNEA DE QUINCE (15) PULGADAS PARA PROPORCIONAR EL SERVICIO AL FRACCIONAMIENTO.

SE INSTALARÁ UNA LÍNEA DE SERVICIO DE CUATRO (4) PULGADAS EN CADA UNO DE LOS 167 SOLARES, DE ACUERDO CON LAS NORMAS DE ERHWSC.

EL COSTO DEL SISTEMA DE RECOLECCIÓN DE AGUAS RESIDUALES SON: $427,005 O $2,556.92 POR SOLAR.

EL FRACCIONADOR TAMBIEN HA PAGADO A ERHWSC $481,531.50 O $2,783.66 POR SOLAR PARA CUBRIR LAS CUOTAS DE CONEXIÓN PARA AGUAS RESIDUALES.

EL SISTEMA DE RECOLECCIÓN DE AGUAS RESIDUALES ESTARÁ OPERABLE PARA EL 31 DE JULIO DEL 2024. EL FRACCIONADOR HA EJECUTADO UN ACUERDO EN EL CUAL BPUB PROVEERÁ SERVICIO DE DRENAJE SANITARIO POR AL MENOS 30 AÑOS.

CERTIFICACION

CON MI FIRMA YO CERTIFICO QUE LOS SERVICIOS Y SISTEMAS DE AGUA POTABLE Y DE DRENAJE SANITARIO ANTERIORMENTE DESCRITOS EN ESTE DOCUMENTO CUMPLEN CON LAS REGLAS MODELO PARA FRACCIONAMIENTOS (MODEL SUBDIVISION RULES), ADOPTADAS EN LA SECCION 16.343 DEL CODIGO DE AGUAS DE TEXAS (TEXAS WATER CODE). CERTIFICO QUE LOS COSTOS ESTIMADOS PARA INSTALAR LAS MEJORAS DE AGUA Y DRENAGE ANTERIORMENTE MENCIONADOS SON

MEJORAS DE AGUA - TODAS LAS INSTALACIONES DE AGUA POTABLE AN SIDO CONSTRUIDAS EN SU TOTALIDAD PARA CADA SOLAR.

EL FRACCIONADOR HA CUBIERTO LA CANTIDAD DE $979,192 DLS. PARA LA PROVISION DE AGUA POTABLE PARA CADA UNO DE LOS 167 SOLARES

DRENAGE SANITARIO - TODAS LAS INSTALACIONES DE DRENAGE SANITARIO AN SIDO CONSTRUIDAS EN SU TOTALIDAD PARA CADA SOLAR.

EL FRACCIONADOR HA CUBIERTO LA CANTIDAD DE $427,005 DLS. A ERHWSC PARA LA PROVISION DE DRENAJE SANITARIO PARA CADA UNO DE LOS 167 SOLARES.

ESTE REPORTE FUE PREPARDO POR EL INGENIERO CIVIL DAVID H. FLINN, NUMERO DE REGISTRO DE TEXAS 82637.

CITY OF BROWNSVILLE

APPENDIX B – BUYER DISCLOSURE

The following buyer disclosures are found in this Appendix:

- Madeira Espiritu Santo Public Improvement District Number One Buyer Disclosure

MADEIRA ESPIRITU SANTO PUBLIC IMPROVEMENT DISTRICT NUMBER ONE
BUYER DISCLOSURE

NOTICE OF OBLIGATIONS RELATED TO PUBLIC IMPROVEMENT DISTRICT

A person who proposes to sell or otherwise convey real property that is located in a public improvement district established under Subchapter A, Chapter 372, Local Government Code (except for public improvement districts described under Section 372.005), or Chapter 382, Local Government Code, shall first give to the purchaser of the property this written notice, signed by the seller.

For the purposes of this notice, a contract for the purchase and sale of real property having a performance period of less than six months is considered a sale requiring the notice set forth below.

This notice requirement does not apply to a transfer:

1) under a court order or foreclosure sale;
2) by a trustee in bankruptcy;
3) to a mortgagee by a mortgagor or successor in interest or to a beneficiary of a deed of trust by a trustor or successor in interest;
4) by a mortgagee or a beneficiary under a deed of trust who has acquired the land at a sale conducted under a power of sale under a deed of trust or a sale under a court-ordered foreclosure or has acquired the land by a deed in lieu of foreclosure;
5) by a fiduciary in the course of the administration of a decedent's estate, guardianship, conservatorship, or trust;
6) from one co-owner to another co-owner of an undivided interest in the real property;
7) to a spouse or a person in the lineal line of consanguinity of the seller;
8) to or from a governmental entity; or
9) of only a mineral interest, leasehold interest, or security interest

The following notice shall be given to a prospective purchaser before the execution of a binding contract of purchase and sale, either separately or as an addendum or paragraph of a purchase contract. In the event a contract of purchase and sale is entered into without the seller having provided the required notice, the purchaser, subject to certain exceptions, is entitled to terminate the contract.

A separate copy of this notice shall be executed by the seller and the purchaser and must be filed in the real property records of the county in which the property is located at the closing of the purchase and sale of the property.

AFTER RECORDING[1] RETURN TO:

_____

NOTICE OF OBLIGATION TO PAY IMPROVEMENT DISTRICT ASSESSMENT TO

CITY OF BROWNSVILLE, TEXAS

CONCERNING THE FOLLOWING PROPERTY

_____

STREET ADDRESS

As the purchaser of the real property described above, you are obligated to pay assessments to City of Brownsville, Texas, for the costs of a portion of a public improvement or services project (the "Supplemental Services") undertaken for the benefit of the property within the ***Madeira Espiritu Santo Public Improvement District Number One*** (the "District") created under Subchapter A, Chapter 372, Local Government Code.

AN ASSESSMENT HAS BEEN LEVIED AGAINST YOUR PROPERTY FOR THE SUPPLEMENTAL SERVICES, WHICH MAY BE PAID IN FULL AT ANY TIME. IF THE ASSESSMENT IS NOT PAID IN FULL, IT WILL BE DUE AND PAYABLE IN ANNUAL INSTALLMENTS THAT WILL VARY FROM YEAR TO YEAR DEPENDING ON THE AMOUNT OF INTEREST PAID, COLLECTION COSTS, ADMINISTRATIVE COSTS, AND DELINQUENCY COSTS.

The exact amount of the assessment may be obtained from City of Brownsville. The exact amount of each annual installment will be approved each year by the Brownsville City Commission in each operations and maintenance service and assessment plan for the District. More information about the assessments, including the amounts and due dates, may be obtained from City of Brownsville.

Your failure to pay any assessment or any annual installment may result in penalties and interest being added to what you owe or in a lien on and the foreclosure of your property.

[1] To be included in separate copy of the notice required by Section 5.0143, Tex. Prop. Code, to be executed at the closing of the purchase and sale and to be recorded in the deed records of Cameron County when updating for the Current Information of Obligation to Pay Improvement District Assessment.

[The undersigned purchaser acknowledges receipt of this notice before the effective date of a binding contract for the purchase of the real property at the address described above.

DATE: DATE:

SIGNATURE OF PURCHASER SIGNATURE OF PURCHASER

The undersigned seller acknowledges providing this notice to the potential purchaser before the effective date of a binding contract for the purchase of the real property at the address described above.

DATE: DATE:

ORDINANCE NUMBER 2025-1781-B

ORDINANCE OF THE CITY COMMISSION OF THE CITY OF BROWNSVILLE, TEXAS AMENDING THE FISCAL YEAR 2025 BUDGET FOR THE FOLLOWING FUNDS: (1) GENERAL FUND, (2) CONVENTION AND TOURISM FUND (3) BRIDGE FUND, (4) LANDFILL FUND, (5) FLEET AND FACILITY SERVICES FUND, AND (6) AIRPORT FUND.

WHEREAS, the City Commission of the City of Brownsville approved the fiscal budget for the year 2026 on September 2, 2025, in Ordinance Number 2025-1781.

WHEREAS, in accordance with the City Charter of the City of Brownsville, Texas and budgetary laws of the State governing home rule cities, the city manager has hereby submitted to the City Commission the attached fiscal year 2026 budget amendments for the following funds: (1) General Fund, (2) Convention and Tourism Fund, (3) Bridge Fund, (4) Landfill Fund, (5) Fleet and Facility Services Fund, (6) Debt Service Fund, (7) Motor Vehicle Parking Fund, (8) Brownsville Golf Center Fund, (9) Employee Benefit, and (10) Information Technology Fund.

WHEREAS, all prerequisites heretofore required by law have been met and the attached fiscal year 2025 budget amendments for the following funds: (1) General Fund, (2) Convention and Tourism Fund, (3) Bridge Fund, (4) Landfill Fund, (5) Fleet and Facility Services Fund, (6) Debt Service Fund, (7) Motor Vehicle Parking Fund, (8) Brownsville Golf Center Fund, (9) Employee Benefit, and (10) Information Technology Fund

NOW, THEREFORE BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF BROWNSVILLE, TEXAS:

Section 1. That the attached budget amendments for the following funds: (1) General Fund, (2) Convention and Tourism Fund, (3) Bridge Fund, (4) Landfill Fund, (5) Fleet and Facility Services Fund, (6) Debt Service Fund, (7) Motor Vehicle Parking Fund, (8) Brownsville Golf Center Fund, (9) Employee Benefit, and (10) Information Technology Fund are emergency expenditures to meet unusual/unforeseen conditions and/or to change the budget for the municipal purposes.

Section 2. That the attached fiscal year 2025 budget amendments for the following funds: (1) General Fund, (2) Convention and Tourism Fund, (3) Bridge Fund, (4) Landfill Fund, (5) Fleet and Facility Services Fund, (6) Debt Service Fund, (7) Motor Vehicle Parking Fund, (8) Brownsville Golf Center Fund, (9) Employee Benefit, and (10) Information Technology Fund are prepared and submitted to the City Commission and are hereby adopted.

WHEREAS, ADOPTED AND APPROVED by the City Commission of the City of Brownsville, Texas at the First Reading and after a Public Hearing at a meeting held on Tuesday, August 18, 2026.

WHEREAS, ADOPTED AND APPROVED by the City Commission of the City of Brownsville, Texas at a meeting thereof held on Tuesday, September 1, 2026.

Agenda #:	Consideration and **APPROVAL** on **SECOND** and **FINAL READING** of **Ordinance Number 2024-223-D**, to amend Chapter 86, "Streets, Sidewalks, and Certain other Public Places," to adopt an encroachment licensing fee and right of way management regulations. (Engineering and Public Works Department)

Summary:
The City does not currently have adequate regulations for the management of its right of way. In order to protect the health, safety, and welfare of the public and to promote safe, orderly, and efficient development within its jurisdiction, City staff recommends adopting the guidelines and procedures herein for the City's public right-of-way. This ordinance is proposed to protect the public during the installation, operation, and maintenance of facilities by public service providers (including utilities, telecommunications companies, and other service entities) or persons. Moreover, the ordinance is prepared to:

1. Oversee the orderly use of the public right-of-way;
2. To provide a permit process for utility construction within the public right-of-way;
3. Provide financial security requirements for construction, maintenance and repair within the public right-of-way;
4. Provide for enforcement and penalties for violations of any provisions of the ordinance;
5. Provide for emergency utility activities within the public right-of-way; and
6. Provide for the coordination with public improvements and regulate the installation of utility structures within the public right-of-way.

CITY OF BROWNSVILLE
ORDINANCE NO. 2024-223-D

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF BROWNSVILLE, TEXAS, AMENDING CHAPTER 86, "STREETS, SIDEWALKS, AND CERTAIN OTHER PUBLIC PLACES," TO ADOPT AN ENCROACHMENT LICENSING FEE AND RIGHT OF WAY MANAGEMENT REGULATIONS; PROVIDING SAVINGS, REPEALING AND SEVERABILITY CLAUSES; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Brownsville, Texas (the "City") is a Home Rule Municipality acting under its Charter adopted by the electorate pursuant to Article XI, Section 5 of the Texas Constitution and Chapter 9 of the Texas Local Government Code; and

WHEREAS, the City is authorized by Texas Local Government Code §51.001 to adopt or amend any ordinance that is for the good government, peace, or order of the municipality or for the trade and commerce of the municipality; and

WHEREAS, Chapter 54 of the Texas Local Government Code authorizes the City to adopt a fine or penalty for the violation of a rule, ordinance, or other police regulation; and

WHEREAS, Section 54.004 allows the City to enforce ordinances necessary to protect health, life, and property and to preserve the good government, order, and security of the municipality and its inhabitants.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF BROWNSVILLE, TEXAS:

Section 1. Incorporation of Premises. The above and foregoing premises are true and correct and are incorporated herein and made a part hereof for all purposes as the legislative findings of the City Commission.

Section 2. Amendments. Chapter 86, "Streets, Sidewalks, and Certain other Public Places" is hereby amended to add the sections contained in Exhibit "A".

Section 3. City Code of Ordinance Revisions. The publisher of the City's Code of Ordinances is hereby authorized to revise the Code of Ordinances to reflect changes provided for in this Ordinance; to correct typographical errors where necessary; and to format and number paragraphs to conform to the existing City's Code of Ordinances.

Section 4. Savings/Repealing Clause. All provisions of any ordinance in conflict with this Ordinance are hereby repealed to the extent they are in conflict; but such repeal shall not abate any pending prosecution for violation of the repealed ordinance, nor shall the repeal prevent a prosecution from being commenced for any violation if occurring prior to the repeal of the ordinance. Any remaining portions of said ordinances shall remain in full force and effect.

Section 5. Severability. Should any section, subsection, sentence, clause, phrase of this Ordinance be declared unconstitutional or invalid by a court of competent jurisdiction, it is expressly

provided that any and all remaining portions of this Ordinance shall remain in full force and effect. Brownsville hereby declares that it would have passed this Ordinance, and each section, subsection, sentence, clause or phrase thereof irrespective of the fact that any one or more sections, subsections, sentences, clauses and phrases be declared unconstitutional or invalid.

Section 6. Effective Date. This ordinance shall be effective upon approval by the City Commission and publication of the caption, and penalty, if any.

Section 7. Open Meetings. That it is hereby found and determined that the meeting at which this Ordinance was passed was open to the public as required by law, and that public notice of the time, place and purpose of said meeting was given, all as required by Article 551.041, Texas Government Code.

INTRODUCED and PASSED at a PUBLIC HEARING and FIRST READING on the the 3rd day of December, 2024.

APPROVED AND PASSED at a PUBLIC HEARING and on the SECOND and FINAL READING on this the 26th day of August, 2026.

DRAFT

Right-of-Way Utility Management

Article A – General and Purpose

To protect the health, safety, and welfare of the public, and to promote safe, orderly, and efficient development within its jurisdiction, the City must establish guidelines and procedures within the City's public right-of-way. This ordinance was established to protect the public during the installation, operation, and maintenance of facilities by public service providers (including utilities, telecommunications companies, and other service entities) or persons. Moreover the ordinance is prepared to:

1. Oversee the orderly use of the public right-of-way;
2. To provide a permit processes for utility construction within the public right-of-way;
3. Provide financial security requirements for construction, maintenance and repair within the public right-of-way;
4. Provide for enforcement and penalties for violations of any provisions of this ordinance;
5. Provide for emergency utility activities within the public right-of-way;
6. Provide for the coordination with public improvements and regulate the installation of utility structures within the public right-of-way.

Article B - Use of Right-of-Way and Permit Submittal.

1. No public service provider or person shall commence with the construction or installation of facilities within the public right-of-way in the city without first obtaining the necessary permits or approvals as required by this or other ordinances. All construction activity in city right-of-way will be in accordance with this Ordinance.
2. All Right-of-Way permits shall be filed using the City's official Online Permit Portal, i.e. City of Brownsville Citizen Portal website at Accela Citizen Access. Applicants will be required to create an account to submit, review and make payments. All permits shall include the following documents and be submitted in digital .pdf format in the order listed below:
    a. City's ROW/easement permit application (Attachment A),
    b. Design plans showing detailed information described in all Articles below,
    c. Traffic control plans (TCP) if traffic lanes are proposed to be closed or if traffic flow will be impacted,
    d. Storm Water Pollution Prevention Plan (including TCEQ registration, approval or waiver) (if applicable),
    e. Trench Safety Plan in accordance with meeting OSHA 29 CFR 1926.651 and 29 – CFR 1926.652 (if applicable),
    f. Opinion of Probable Construction Costs (OPCC)

g. Security documentation (insurance, bonds, etc.),

h. Letter of authorization from public utility provider granting representatives (permittee) to submit said permit on behalf of the public utility provider, and

i. Supplemental information design and calculations.

The permit shall be reviewed in accordance with Article D. Revised plans addressing city review comments shall be resubmitted with a copy of the original permit application and shall clearly be marked as "RESUBMITTAL." All resubmittals are subject to additional review fees until the permit is deemed complete and approved by the city designee (as assigned on the Right-of-Way/Easement Permit Application).

3. Permit review fees are due upon application Citizen Portal submittal or resubmittal. Payments for applicable Utility Usage Fees shall be paid after said permit is approved and the city determines final costs.

4. Variance: Any request in an application for a permit for a variance from the requirements of this ordinance must be approved in advance by the City Engineer. The variance may be granted only if an extreme hardship exists and the public health, safety, welfare, or convenience is not adversely affected by granting the variance. The city may not approve any variance that would give a competitive advantage to one public service provider over another public service provider providing the same or similar service. The city may not grant a variance from the indemnity requirements.

Article C – Authorization, Financial Security and Permit Requirements.

1. Authorization.

   a. Municipal authorization or license agreement shall be required, except when clearly preempted by state law. When any state law authorizing right-of-way use is struck down, pre-empted, declared to be invalid or void, in whole or in part, the user relying upon said law for authorization shall seek separate authorization or shall cease using the right-of-way.

   b. When municipal authorization or agreement is required, permit for construction work may not be submitted until said authorization or agreement is obtained.

   c. Municipal authorization does not extend to the use of any property or facilities other than the right-of-way.

   d. This ordinance does not constitute or create authority to place, reconstruct, or alter facilities in, on, or over the public rights-of-way, and said authority must be obtained by separate instrument in accordance with this ordinance or authorized by of other laws.

2. Right-of-way permit. Only authorized representatives (permittee) of a public service provider may submit a right-of-way permit application on behalf of the public service provider. A public service provider or person shall not perform any construction, except for an emergency activity or for those activities described in Article D and I below,

within a public right-of-way without first obtaining a permit from the city designee prior to the start of construction. A public service provider or person who undertakes any work outside of the public right-of-way that will cut, break, or otherwise damage the public right-of-way shall also obtain a permit.

a. Insurance. Prior to the construction in the public right-of-way, the permittee shall, at no expense to the city, instruct their insurance agent or carrier to furnish a certificate of insurance attesting to the issuance of policies affording coverage as required and listed in this section. Certificates required by this contract shall be submitted with the permit:

i. The permittee shall furnish and keep in full force during the term of this contract the following insurance coverage:

(i) Worker's Compensation Insurance Amount: Statutory

(ii) Comprehensive General Liability Insurance Amount:

1. $1,000,000 Each Occurrence
2. $2,000.000 General Aggregate

(iii) Comprehensive Automobile Liability Insurance (applicable to owned, non-owned and hired vehicles) Amount:

1. $500,000 Combined Single Limit

ii. The premiums to be expended for all of the above-enumerated policies of insurance shall be paid by the contractor. The policies of insurance, certificates of insurance, and the insurance company(s) issuing such certificates or policies of insurance must be acceptable to the city designee.

iii. All policies or certificates of insurance must be issued indicating that such policies or certificates are applicable to work being performed by the permittee.

iv. All of the aforementioned policies and certificates of insurance should be effective immediately after the permittee receives an approved permit. Policies and certificates of insurance must clearly indicate that they will remain in force for a period of at least twelve (12) months from inception date.

v. The city shall be named as an additional insured.

vi. Each policy must include a cancellation provision in which the insurance company is required to notify the city in writing not fewer than thirty (30) days before canceling, failing to renew, or reducing policy limits and ten (10) days' notice of cancellation for nonpayment of premium.

DRAFT

b. Bonds.

i. The permittee shall, without cost to the city, provide performance, payment and maintenance bonds for the construction work anticipated to be performed in the public rights-of-way. Performance, payment and maintenance bonds, in an amount of not less than one hundred percent (100%) of the estimated costs to restore the public rights-of-way for the work anticipated to be done, conditioned upon the faithful performance of the Contract; a Payment Bond, as required by Chapter §2253 of the Texas Government Code, guaranteeing the payment of all persons supplying labor and furnishing materials; and an Extended Warranty Bond, either by separate instrument or incorporated in the foregoing bonds, will be required. Payment, performance and maintenance bonds provided to the City of Brownsville for these purposes are required to conform with Article 7.19-1 of the Texas Insurance Code. To that end, all bonds provided (i) must be executed by a surety company holding a certificate of authority from the United States secretary of the treasury to qualify on obligations permitted or required under federal law–or- (ii) must be provided by a surety company that is covered by reinsurance for any liability in an amount of not less than one hundred percent (100%) of the estimated costs to restore the public rights-of-way for the work anticipated to be done from a reinsurer authorized and admitted as a reinsurer in Texas holding a certificate of authority from the United States secretary of the treasury to qualify on obligations permitted or required under federal law.

ii. The above requirements may be met by utilities with a current franchise or license if their current franchise or license adequately provides for insurance or bonds or provides an indemnity in favor of the city.

c. Liability and Indemnification.

i. Liability: The permittee shall be liable and responsible for any and all property loss, property damage and/or personal injury, including death, to any and all persons, of any kind or character, whether real or asserted, to the extent caused by the negligent act(s) or omission(s), malfeasance or intentional misconduct of seller, its officers, agents, servants or employees.

ii. Indemnification: The permittee shall hereby covenants and agrees to indemnify, hold harmless and defend the city, its officers, agents, servants and employees, from and against any and all claims or lawsuits of any kind or character, whether real or asserted, for wither property damage or loss (including alleged damage or loss to public service provider's business, and any resulting lost profits) personal injury, including death, to any and all persons, and damages for claims of intellectual property infringement, arising out of or in connection with work anticipated to be performed in the public rights-of-way, to the extend caused by the acts or omissions of seller, its officers, agents, subcontractors, servants or employees.

iii. Certificated telecommunications provider as defined in article 283, Texas Local Government Code, as amended, shall give the city the indemnity

DRAFT

provided in section 283.057, Texas Local Government Code, as amended. A permittee who is a network provider as defined in article 284, Texas Local Government Code, as amended, shall give the city the indemnity provided in section 284.302, Texas Local Government Code, as amended.

iv. Indemnity is not applicable to certificated telecommunications providers or network providers under Texas Local Government articles 283 and 284, respectively. Certificated telecommunications providers shall indemnify the city pursuant to article 283 of the Texas Local Government Code, as amended. Network providers shall indemnify the city pursuant to article 284 of the Texas Local Government Code, as amended.

3. Compensation and fees.

   a. Municipal right-of-way use shall be compensated as required by the state constitution, state law, franchise, license or other agreement.

   b. The Permit review fees listed below, as allowed by state law, for work or installations in the public right-of-way, shall be set by the city commission in the City's Master Fee Schedule:

      i. Initial Application Review Fee: Fee shall be per linear foot per infrastructure item (i.e. streets, drainage, water, wastewater, communication, gas, fiberoptic, etc.);

      ii. Permit Resubmittal or Supplemental Review Fee;

      iii. Inspection Fees; and

      iv. Utility Usage Fee.

   c. Failure of utility service provider or permittee to pay applicable permit review, resubmittal, inspection or usage fees at the time specified in this ordinance shall result in the denial or withdrawal of a permit.

4. Right-of-way permit requirements. The following procedures and requirements govern the application for and issuance of a permit to perform construction within the public right-of- way:

   a. A permit application must be made using the form provided by the city. The application must be signed and submitted by the permittee on behalf of the public service provider or the owner of the facility for which the permit is requested. The application for permit must be filled out completely and accurately. Any omissions or inaccuracies on the form may be cause for denial of the permit at the city designee's discretion.

   b. The city designee shall state on the permit any reasonable additional restrictions or requirements determined necessary. These additional restrictions or requirements shall be considered a part of the permitted activity.

   c. The permittee shall comply with all permit requirements, construction standards, city ordinances and state or federal laws or regulations affecting the permitted activity. When required by the Texas Engineering Practice Act, as amended, the plans must be sealed by a professional engineer licensed to

DRAFT

practice in the state.

d. Reimbursement of costs:

i. The permittee shall, as an express condition of the permit, reimburse the city for the actual direct and indirect costs associated with the permit, unless the city code, a franchise ordinance, or agreement with the city provides otherwise. Reimbursement to the city shall be made within thirty (30) calendar days of the receipt of an invoice from the city.

ii. Reimbursement does not apply to a permittee when state law, the city code, a franchise ordinance, or agreement with the city provides that a fee may not be charged for construction within the public right-of-way, establishes the amount of the fee that may be charged, or provides that the city's actual direct and indirect costs may not otherwise be reimbursed, including a permittee that is a certificated telecommunications provider operating under Texas Local Government Code article 283, a network provider operating under Texas Local Government Code article 284, a cable or video service provider operating under Texas Utilities Code article 66, or a gas utility company or electric utility company operating pursuant to a franchise ordinance under the city code or state law.

e. Right-of-way permit expiration: If no construction has commenced under a permit within ninety (90) calendar days after issuance of the permit, the permit becomes canceled, and a new permit is required before construction may be performed in the public right-of-way. An extension to a permit may be granted by the City Engineer or city designee only before the permit expires.

Article D - Construction in the Right-of-Way.

1. No public utility provider shall perform any construction or installation of facilities in the public right-of-way without first obtaining a construction permit, unless determined an emergency repair to an existing utility. Permit applications are required for construction on new, replacement or upgrading of the company's facilities in the public right-of-way either aerial or underground. The permit will be in the name of the public utility provider who will own the facilities to be constructed. The permit must be completed and signed by a representative of the owner of the facilities to be constructed.
2. The failure of a public utility provider to request and obtain a permit from the city prior to performing any of the above listed activities in, or over any public right-of-way, except in an emergency, will subject the public utility provider to a stop-work order from the city designee and enforcement action pursuant to the city code.
3. If state or federal law provides that a permit is not required for certain work to be done, then a public utility provider proposing to do such work shall be required to provide notice twenty (20) working days prior to performing such work. This requirement must be met, even if no permit is required pursuant to state or federal law.
4. Emergency repairs related to existing facilities may be undertaken without first obtaining a permit; however, the city designee should be notified in writing within

two (2) business days of any construction related to an emergency repairs; including a reasonably detailed description of the work performed in the public right-of-way, reasons for emergency condition, and an updated map of any facilities that were relocated, if applicable.

5. The permit shall state to whom it is issued, location of work, location of facilities, dates and times work is to take place, and any other conditions set out by the city.
6. The public utility provider requesting a permit will provide the city with documentation in the format specified by the city describing:
    a. The proposed, location and route of all facilities to be constructed or installed and the utility provider's plan for construction within the public right-of-way should be shown on a set of scaled (at no greater than one (1) inch equals fifty (50) feet unless otherwise approved by the city designee) and dimensioned construction plans, plan/profile sheet, and street view with an aerial map. Plans should indicate the current public right-of-way and easements the public utility provider plans to occupy and any existing city facilities. Said plans shall show any proposed underground conduit, type of casing pipe required, if applicable, overhead lines, network nodes, ancillary equipment, or any other facilities to be installed. The drawings shall show a cross-sectional profile, identify all existing utilities and any existing or potential utility conflicts.
    b. For installation of any proposed pole applicant shall provide sectional detail showing depth of anchor, scaled dimensional drawings of the proposed pole, other proposed equipment associated with the proposed installation, and indicate spacing from existing curb, driveways, sidewalk, light poles, and other poles or appurtenances.
    c. All applications shall include photos of before (less than 45 calendar days prior to the application begin submitted) and after street view image. The after image needs to include any proposed poles and all proposed attachments, and any associated or ancillary equipment, whether attached or standalone.
    d. If the project is within the state right-of-way, the applicant must provide evidence of a permit or permission from the state.
    e. If city poles or light structures will be used or will be in the area of the proposed construction, the pole(s) or light structure(s) shall be identified. No electric meter shall be mounted on a city pole or light structure.
    f. All plans shall reflect that no facilities to be installed will obstruct an existing or planned sidewalk, walkway, bicycle lane or lane of vehicular traffic.
    g. Detail of what applicant proposes to install, such as connection points, poles, pipes, valves, or other facilities.
    h. Detail of plans to remove and replace asphalt or concrete in streets.
    i. Drawings of any bores, trenches, manholes, pull-boxes, junction boxes, switch gear, transformers, pedestals, network nodes, micro-network nodes, or other facilities, including depth located in public right-of-way.

DRAFT

j. Applicable details of the above facilities.

k. Complete legend of drawings submitted by applicant.

l. The name, address and phone numbers of the contractor or subcontractor who will perform the actual construction, including the name and telephone number of an individual with the contractor who will be available at all times during construction.

m. The construction and installation methods to be employed for the protection of existing structures, fixtures, and facilities within or adjacent to the public right-of-way, and the dates and times work will occur, all of which (methods, dates, times, and other applicable information) are subject to approval of the city designee or utility owner.

n. A traffic-control plan approved by the city designee shall be required any time work will require traffic lane closures or sidewalk closures. A trench safety plan, meeting OSHA 29 CFR 1926.651 and 29 – CFR 1926.652, may also be required based on the proposed scope of work.

o. The permittee shall provide a SWPPP (prepared by a State of Texas licensed engineer) and the corresponding Texas Pollutant Discharge Elimination System (TPDES) General Permit Number TXR150000 for discharges of storm water runoff from small construction sites to the city. Permittee shall be responsible for implementing, maintaining and inspecting all storm water pollution prevention control measures and other practices shown on the SWPPP. The permittee shall abide by all requirements set forth in the TCEQ guidelines.

7. A copy of all permits and approved engineering plans shall be maintained at the construction site and made available for inspection by the city at all times when construction or installation work is occurring.

8. All construction or installation work authorized by permit must be completed in the time specified in the construction permit. If the work cannot be completed in the specified time periods, the permittee must request a time extension from the city designee in writing at least 48-hours before the permit expires.

9. A request for a permit must be submitted at least twenty (20) working days before the proposed commencement of work, unless waived by the city designee.

10. Requests for permits will be approved or disapproved by the city within a reasonable time or receiving all the necessary information. The city will use best efforts to approve or disapprove a request for permit within ten (10) working days of receipt of all require permit documentation.

11. The city designee can request a pre-construction meeting with the permittee and their construction contractor.

Article E - Construction and Maintenance Standards.

1. The following shall be required when facilities are constructed in the public right-of-way, regardless of whether a permit is required:

DRAFT

a. The city designee must be notified by the permittee twenty-four (24) hours prior to construction proceeding. The permittee must have previously called for any needed locations for public right-of-way facilities. At the time of notification, the permittee will inform the city designee of the reference number assigned from the one-call system.

b. All construction shall be in conformance with all city codes and applicable local, state and federal laws and must be done in a good, workmanlike manner and in accordance with all applicable sections of this ordinance.

c. Repair of all street and sidewalk damaged or removed during installation of proposed utilities shall city standards or as directed by the city designee. All repairs must be made promptly to avoid safety hazards to vehicle and pedestrian traffic.

d. Installation of facilities must not interfere with city utilities, in particular gravity dependent facilities.

e. New facilities must be installed to a depth approved by the city designee.

f. All directional boring shall have locator place bore marks and depths while bore is in progress. The boring method and bore pit locations shall be identified. Locator shall place mark at each stem with paint dot and depth at least every other stem.

g. The working hours in the public rights-of-way are 8:00 a.m. to 5:00 p.m., Monday through Friday. Work that needs to be performed after 5:00 p.m. Monday through Friday must be approved in advance by the city designee. Any work performed on Saturday must be approved seventy-two (72) hours in advance by the city designee. No work will be done on Sundays or city holidays, except for emergencies.

h. The permittee is responsible for obtaining line locates from all affected utilities or others with facilities in the public right-of-way prior to any excavation. Use of the geographic information system or the plans of records does not satisfy this requirement. When requested by the city designee, permittee shall verify locations by pot holing, hand digging or other method approved by the city designee prior to any excavation or boring with the exception of work involving lane closures, as discussed above.

i. Construction which requires pumping of water or mud shall be contained in accordance with city ordinances, federal and state laws and the directives of the city designee.

j. All facilities installed in the public right-of-way shall be capable of being identified through a digital GIS shape file or other means as acceptable to the city designee. Said identification shall be provided at the time of application and shall be visible on the facilities when installed.

k. The permittee must obtain any needed permits for electrical work and provide sealed engineered drawings for conduit size, circuit size, calculations for amperage, or any other required information. Provider shall be responsible

DRAFT

for obtaining any required electrical power service to any installation.

l. Public right-of-way work shall be completed in the amount of time shown on the permit; but if no completion time is shown on the permit the work shall be complete in not more than one (1) year.

m. The permittee has the exclusive responsibility to coordinate with other public service providers to protect all existing facilities in the public right-of-way in which the construction occurs. Acceptance of the plans and issuance of a permit does not constitute liability on the city's part for any damage to existing facilities.

n. The permittee has the exclusive responsibility to locate the extent of the public right-of-way. Acceptance of the plans and issuance of a permit does not constitute liability on the city's part for any facilities placed on private property. If facilities are placed on private property, it is the public service provider's responsibility to contact property owners and acquire easements or move the facilities.

o. The contractor will maintain at all times on the job site a responsible person authorized and capable to receive and relay instructions from the city designee.

2. Above ground utility structures shall meet the following requirements:

a. Above ground utility structures shall comply with all requirements of other city ordinances, other state and federal laws and regulations. Public service provider shall be responsible for obtaining other permits, as required.

b. Above ground utility structures exceeding two feet in height shall not be placed within any intersection visibility triangle, as defined in the city's or state's design criteria manual.

c. Above ground utility structures, not including poles, less than sixty (60) cubic feet in volume, with no dimension greater than six feet, may be placed within the public right-of-way without screening.

d. Above ground utility structures, not including poles, equal to or greater than sixty (60) cubic feet in volume or more than seven feet in height shall be located in a private utility easement or other private property and shall be screened on all sides except for the sides containing the openings for access to the structure and shall be subject to requirements of the unified development code.

3. Below ground utility structures may be allowed in the public right-of-way if space is available. In reviewing the utility structures the city will consider the following:

a. Size, location, and impact of the proposed structure;

b. The structure's coordination with existing and proposed public facilities; and

c. Availability of remaining public right-of-way.

4. If the city determines that the proposed utility structure cannot be placed within the

DRAFT

public right-of-way without adversely affecting the integrity of an existing or future facility owned by the city, the city shall have the right to deny the location of a new or replacement utility structure within the said public right-of-way.

5. The public service provider shall pay city a use fee for use of the property based upon the reasonable value as determined by the city. In addition to a use fee, the city may request the public service provider to provide network connectivity or conduit to the city.

Article F - Improperly Installed Utilities.

1. Any public utility provider doing work in the public right-of-way shall properly install, repair, upgrade and maintain facilities;
2. Repair or restore any damage to other facilities in the public right-of-way that occurs as a result of improper construction, installation, repair, relocation, or upgrade of the permittee's facilities; and
3. Facilities shall be considered to be improperly installed, repaired, upgraded or maintained if:
    a. The installation, repairs, upgrade or maintenance endangers public health or safety;
    b. The installation, repairs, upgrade or maintenance damages public property or another public service provider's facilities;
    c. The installation, repairs, upgrade or maintenance does not comply with applicable local, state, or federal laws or regulations;
    d. The facilities are not capable of being located using standard practices;
    e. Underground facilities that are installed less than twenty-four (24) inches in depth;
    f. The placement or construction of said facilities remains incomplete or hazardous after construction work is finished or time for completion has passed, including but not limited to holes in paved areas or ground, junction boxes or manholes that are improperly sealed, and broken equipment or any other incomplete or hazardous condition;
    g. The facilities are not located in the proper place at the time of construction in accordance with the design included in the approved permit, including encroachment upon private property, extension outside the public right-of-way location designated in the permit without authorization, or placement in an area that interferes with another public service provider's existing facilities;
    h. Aboveground facilities are placed in an existing or proposed sidewalk, or at-grade facilities placed similarly when they can be placed outside the existing or proposed sidewalk.
    i. The facilities cause any interference with city public safety radio system, traffic signal light system, city traffic observation video cameras or other

communications.

Article G – Record Drawings.

Public utility provider will provide the city with record drawings within sixty (60) days of completion of facilities in the public right-of-way. All the requirements specified for the plans submitted for the initial permit, as set forth in Article C, shall be submitted and updated in the record drawings. The detail and accuracy required includes location, depths, size of facilities, materials used, and any other pertinent information. Submittal of "record drawings" shall be in digital format.

Article H - Conformance with Public Improvements.

Whenever widening or straightening of streets, water or sewer line projects, or any other public works projects, it may be necessary the city to remove, alter, change, adapt, or conform the underground or overhead facilities of a public right-of-way user to another part of the public right-of-way, such alterations shall be made by the owner of the public utility at their expense within the time limits set by the city working in conjunction with the owner of the facilities, or if no time frame can be agreed upon, within ninety (90) days from the day the notice was sent to make the alterations. Facilities not moved after ninety (90) days, or the time set forth in the notice shall be deemed abandoned and may be removed in accordance with Article L "abandoned facilities."

Article I - Restoration of Property.

1. The permittee shall restore property affected by construction of facilities to a condition that is equal to or better than the condition of the property prior to the performance of the work. Restoration must be approved by the city designee.
2. Temporary restoration of the public right-of-way may not remain for more than ten (10) business days after the completion of a repair or installation of an underground structure or facility unless a time extension has been granted by the city. The city may, at the expense of the permittee or the public utility provider, remove any temporary restoration remaining in the public right-of-way beyond the ten-day time limit and make permanent repairs. Any exception to the ten-day time limit, other than a relocation of a facility in advance of a city construction project in the public right-of-way, must be approved by the city prior to expiration of the time limit.
3. Restoration must be to the reasonable satisfaction of the city and the property owner. The restoration shall include, but not be limited to:
    a. Installation of all manholes, junction boxes and pull boxes, as required;
    b. Backfilling and compacting all bore pits, potholes, trenches or any other holes shall be filled in daily, unless other safety requirements are approved by the city designee;

c. Leveling of all trenches and excavations;

d. Restoration of excavation site to city specifications;

e. Replacing all ground cover with the type of ground cover damaged during work or better either by sodding or seeding, as directed by the city; and

f. Restoration of all landscaping, ground cover, and sprinkler systems.

4. Restoration must be made in a timely manner as specified by approved city schedules and to the satisfaction of city. If restoration is not satisfactory and performed in a timely manner all work in progress, except that related to the problem, including all work previously permitted but not complete may be halted and a hold may be placed on any permits not approved until all restoration is complete.

5. Any alteration to landscape material located within any public right-of-way requires prior notification to the adjacent property owner and city. No public utility provider or permittee shall cut, deface or in any way injure any landscape material located within a public median without prior approval from the city designee. Landscape material shall include, but is not limited to, canopy and ornamental trees, shrubs, ground cover, lawn, earthwork, and irrigation systems. Topping/trimming of trees for overhead utility service is excluded from this subsection.

6. The public utility provider and permittee shall provide written notice to the city before trimming or removing any landscape material in the public right-of-way. The city shall not be liable for any damages, injuries, or claims arising from network provider's actions under this section.

7. When landscape material is proposed to be removed from the public right-of-way during construction, the permittee shall restore to a condition that is equal to or better than the pre-construction conditions.

8. If a public utility provider or permittee fails to restore property as set out in this section, the city shall give five (5) days written notice to the public utility provider at the address shown on the permit. If the public utility provider does not initiate repairs during the five (5) day period or fails to complete the repairs within thirty (30) days thereafter the city may elect to repair such portion of the public right-of-way as may have been disturbed by the public utility provider, its contractors, or agents at the cost of the public utility provider. These time periods may be shortened or waived in cases of a threat to public health, safety or welfare. Upon receipt of an invoice from the city, the public utility provider shall reimburse the city for the costs so incurred no later than thirty (30) calendar days from the date of the city invoice.

9. All construction performed under any permit granted to a public utility provider by the city under this ordinance must be maintained to the satisfaction of the city for one year after final acceptance of construction or repair. Should the city determine, within one year from the date of the completion of the repair work, that any of the restoration work failed to meet the existing standards of the city, the public utility provider shall perform such additional restoration work to the satisfaction of the city, subject to all city remedies.

10. Should the city determine, within one year from the date of final acceptance of work,

that additional restoration work is required, the public utility provider shall perform such additional restoration work to the satisfaction of the city within thirty (30) calendar days after the city gives written notice to the public utility provider to correct the damage, defect, or other problem. If the restoration work is not completed within thirty (30) calendar days, the work may be performed by the city at the public service provider's expense. The public utility provider shall notify the city at least 48 hours before commencing any repair operations. If a construction or excavation site is subsequently disturbed by another party, including another public utility provider, permittee or the city, any continuing obligation to maintain the overlapping area shall cease. If the site is disturbed by another public utility provider, then that public utility provider shall be subject to the maintenance period for the overlapping area.

11. The city shall notify the public utility provider in writing if the backfill on a permitted pavement cut or excavation settles at any time during the one-year maintenance period, causing subsidence in the pavement of one-half inch or more, vertically measured in any three-foot horizontal direction. Upon notification, the public utility provider shall commence repair work within ten (10) days and notify the city forty-eight (48) hours in advance of commencement of the repair work. If the repair work is not commenced within ten (10) days, the repair work may be performed by the city at the public service provider's expense.
12. Notwithstanding any of the above sections, if the city determines that the failure of the public utility provider to properly repair or restore the public right-of-way constitutes a threat to the public health, safety or welfare, the city may undertake emergency repairs and restoration efforts. The city may attempt to provide emergency notice to the public utility provider responsible but is not obligated to do so. The public utility provider shall promptly reimburse the city for all costs incurred by the city within thirty (30) calendar days from the date of the city invoice.
13. The decision of the city as to the necessity of correcting any damage, defect or other problem is binding on all parties.
14. All damage caused directly or indirectly to the public right-of-way surface or subsurface outside the construction area will be regarded as part of the construction and must be included in the total area repaired.
15. Upon failure of the public service provider to perform any such repair or restoration work described in this ordinance, the city may repair such portion of the public right-of-way as may be required. The public service provider shall reimburse the city for the actual direct and indirect costs of the repair work.

Article J - Permit Revocation, Denial or Suspension.

1. Permit revocation. A permit may be revoked by the city if any of the provisions of this ordinance are not followed. If a public utility provider or permittee has not followed the terms and conditions of this ordinance in work done pursuant to a prior permit, new permits may be denied or additional terms required. The city may suspend construction or revoke an issued permit on the same grounds on which a permit may be denied if

the permittee:

a. Commences or performs construction in violation of an applicable requirement of this ordinance or the permit;

b. Creates a public health or safety hazard by performance of the construction in question;

c. Fails to comply with an direction order by the city in regard to the construction;

d. Fails to comply with the restrictions or requirements of other city ordinances or state or federal laws or regulations applicable to the construction; or

e. Commences or performs work without having prior knowledge and understanding of the applicable repair standards as city construction standards.

2. Permit denial. If a permit is denied upon initial submission for incompleteness or for an issue which is capable of correction, the applicant may complete or correct the application and resubmit the application, including resubmittal fees. Applications not resubmitted within thirty (30) calendar days shall be considered withdrawn. The city may refuse to issue a permit if:

a. The proposed construction will interfere with vehicles or pedestrians and no procedures, or procedures inconsistent with this ordinance, have been identified to minimize the interference;

b. The proposed construction will interfere with another activity for which a permit has been issued, or will conflict or interfere with existing facilities already in the public right-of-way, or will conflict with proposed public facilities;

c. The proposed barricading, channelizing, signing, warning, or other traffic-control procedures or equipment do not comply with the requirements of the most current edition of the Texas Manual on Uniform Traffic-Control Devices;

d. The proposed construction, incidental traffic control, or other permitted activity, or the manner in which it is to be performed, will violate a city ordinance or regulation or a state or federal statute or regulation; or

e. The permittee:

i. Fails to furnish all the information required by this ordinance;

ii. Knowingly or intentionally furnishes false or incorrect information to the city; or

iii. Is not in compliance with applicable requirements of an existing permit issued under this ordinance.

3. Suspension or revocation notice. The city designee shall provide immediate verbal notice to the permittee of the revocation, denial or suspension of a public right-of-way permit. Written notice of a suspension or revocation, including reasoning, shall be provided within two business days of the verbal notice to the permittee and public service provider. Construction that is suspended may not resume until the city designee

DRAFT

determines that the permittee has corrected the violation, noncompliance, or hazard that caused the suspension. A permit that has been suspended or revoked may be reinstated by the city designee if the city designee determines that:

a. The permittee has corrected the violation, noncompliance, or hazard that caused the suspension or revocation; and

b. The health or safety of the public is not jeopardized by reinstating the permit.

Article K - Inspections and Emergency Repairs during Construction.

1. The city designee may perform inspections of any public right-of-way work, including installations, maintenance, modifications or any other right-of-way work, whether such work is subject to permit requirements or allowed to be done without a permit. The city designee may perform visual inspections of any public right-of-way work located in the right-of-way as the city designee deems appropriate without notice. If the inspection requires physical contact with right-of-way work, the city designee may provide the public utility provider with notice prior to said inspection. Public right-of-way user may have a representative present during such inspection. In the event of an emergency situation, the city may, but is not required to, notify the permittee or public utility provider user prior to the inspection. The city may take any needed action to remediate an emergency. The city shall notify the permittee or public utility provider user as soon as practical after said remediation.
2. If the city designee determines during construction that an emergency repair to a public right-of-way is necessary to correct a situation that is hazardous to the public, the city designee shall immediately notify the permittee and the public utility provider. If the permittee does not commence the emergency repair within twenty- four (24) hours or the city designee determines that repairs are required sooner for the protection of the health, safety, and welfare of the public, the city may, with sole discretion, cause performance of such emergency repair work as is necessary to correct the hazardous situation. The permittee, or public service provider, shall reimburse the city for the actual direct and indirect cost of the work necessary to correct the hazardous situation. The permittee shall maintain the emergency repair until the permittee completes construction and final repairs.

Article L - Abandoned Utilities.

1. Duty to remove. A public utility provider that has placed utilities in the public right-of-way shall remove said utilities and related equipment when such utilities are abandoned regardless of whether or not it receives notice from the city. If in the judgment of the city, removal of underground utilities would cause damage, this requirement may be waived.
2. Time for removal.
    a. The city may notify the public utility provider that said utilities must be removed immediately when necessary to ensure public health, safety, and welfare.

b. If immediate removal is not required, the removal must be completed within the time set forth in the written notice to remove from the city and if no time is set out, then within ninety (90) days for the utilities and related equipment being abandoned.

c. If the utilities are not removed after the ninety (90) day notice to remove, the city may remove the utilities thirty (30) days after notice of a final finding of abandonment.

d. When a public utility provider removes, or abandons permanent structures in the public right-of-way, the public utility provider shall notify the city in writing of such removal or abandonment and shall file with the city the location and description of each utility and ground equipment removed or abandoned.

e. The city may require the public utility provider to complete additional remedial measures necessary for public safety and the integrity of the public right-of-way.

Article M – Utility Location Records.

The public utility provider shall maintain accurate maps and other appropriate records of its facilities and equipment as they are actually constructed in the public rights-of-way, including, upon request, the use of Auto CAD/GIS digital format. User will provide additional maps to the city upon request.

DRAFT

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Stephen Muse, Accountant III
Date:	Tuesday, September 1, 2026
Agenda #:	Consideration and **APPROVAL** on **SECOND** and **FINAL READING** of **Ordinance Number 2026-1820** to adopt the Fiscal Year 2027 Annual Budget. (Financial Services Department)

Summary:
Texas Local Government Code Chapter 102 sets out the process for adopting the annual budget.

The proposed budget for the City of Brownsville was made available for the inspection by any person and posted on the City's website.

Budget workshops were held on June 23rd and August 4th. This public hearing will give interested persons an opportunity to express their opinions on the proposed budget.

After the public hearing, staff requests a record vote by the City Commission to adopt the balanced Fiscal Year 2027 budget on the first reading of Ordinance #2026-1820 on August 18th and the second and final reading on September 1st.

2. PH 2.02 FY 2027 Proposed Budget (Adoption-Exhibit A)

ORDINANCE NUMBER 2026-1820

AN ORDINANCE ADOPTING THE CITY OF BROWNSVILLE BUDGET FOR FISCAL YEAR 2026-2027 BEGINNING ON OCTOBER 1, 2026 AND ENDING ON SEPTEMBER 30, 2027.

WHEREAS, on July 30th, 2026, the Fiscal Year 2027 (FY 2027) Proposed Budget of the City of Brownsville was filed with the City Secretary; and

WHEREAS, the Proposed Budget was made available for the inspection by any person and posted on the City's website in accordance with Section 102.005 of the Texas Local Government Code; and

WHEREAS, a public hearing was held on August 18, 2026, regarding the City of Brownsville's Proposed Budget at which all interested persons were given the right to be present and participate; and

NOW, THEREFORE BE IT ORDAINED BY THE CITY OF BROWNSVILLE, TEXAS:

Section 1. That the proposed budget for the City of Brownsville filed with the City Secretary on July 30th, and as presented during budget hearing and introductory ordinance on August 18, 2026, and as further presented during the final reading on September 1, 2026 is hereby adopted.

Section 2. That the Proposed Budget as shown on Exhibit "A" is hereby approved and adopted by the City Commission as the Annual FY 2027 Budget beginning October 1, 2026 and ending September 30, 2027.

INTRODUCED AND PASSED on the first reading on this the 18th day of August 2026.

Passed on the second and final reading and approved on this the 1st day of September 2026.

_____
John Cowen, Jr.
Mayor, City of Brownsville, TX

ATTEST:

_____
Mayra Rios,
City Secretary

EXHIBIT A

PROPOSED ANNUAL BUDGET

OCTOBER 1, 2026 - SEPTEMBER 30, 2027

City of BROWNSVILLE Texas

On the Border, By the Sea, and Beyond

FISCAL YEAR 2026 27

City of Brownsville, Texas

Proposed Annual Budget

Fiscal Year 2027

Budget Cover Page

This budget will raise more total property taxes than last year's budget by $3,065,500 or 4.30%, and of that amount $1,622,411 is tax revenue to be raised from new property added to the tax roll this year.

Estimated amounts above are based on a tax rate of .603504 per $100 of assessed valuation.

Proposed
Annual Budget

Fiscal Year 2027
(October 1, 2026 - September 30, 2027)

This budget was filed with the City Secretary's Office on July 30, 2026, and it is scheduled for adoption by the Brownsville City Commission on September 1, 2026, with possible revisions.

GENERAL FUND

This is the largest fund within the City. The general fund accounts for the majority of the financial resources of the government. Revenues include property taxes, sales taxes, licenses and permits, services charges, and other types of revenue. This fund includes most of the basic operating functions such as fire and police protection, municipal court, financial services, city manager, city secretary, legal, health, organizational development and human resources, engineering and public works, parks and recreation, emergency medical services, and planning and redevelopment services. The general fund is used to account for resources traditionally associated with government which are not required legally or by sound financial management to be accounted for in another fund.

CONVENTION AND TOURISM FUND

A fund used to account for the promotion of tourism. The primary revenues are provided by the proceeds from the City's hotel occupancy tax. Such occupancy tax is authorized by an Act of the Texas Legislature and approved for levy by the City. The Texas Act provides that the revenues derived from the levy of the tax are to be expended in a manner directly enhancing and promoting tourism and the convention and hotel industry. This fund is classified as a special revenue fund, which is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

AIRPORT AND BUSINESS-INDUSTRIAL PARKS FUND

A fund used to account for the provision of airport facilities to commercial passenger and cargo aircraft, and private aircraft on behalf of the residents of the City and the Rio Grande Valley. Also, to account for the provisions of business and industrial park facilities (including the foreign trade zone) to various businesses for the behalf of the residents of the City and the Rio Grande Valley. This fund is classified as an enterprise fund. An enterprise fund is used to account for operations (a) that are financed and operated in a manner similar to private business enterprises-where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

LANDFILL FUND

A fund used to account for the operations of the City of Brownsville's Landfill. This fund is classified as an enterprise fund. An enterprise fund is used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

EMPLOYEE BENEFIT FUND

An Internal Service fund was established to administer the health and medical insurance program for city employees on a cost-reimbursement basis. On October 1, 2001, the City elected to convert from a fully insured medical insurance plan to a self-funded insured plan to provide medical coverage to City employees. The plan is administered by a service agent.

Agenda #:	Consideration and **APPROVAL** on **SECOND** and **FINAL READING** of **Ordinance Number 2026-1821** to ratify the Fiscal Year 2027 budget that will raise more total property taxes than last year's budget. (Financial Services Department)

Summary:
This Year's property tax levy will raise more revenue from property taxes than in the preceding year. The Local Government Code requires the governing body to hold a separate vote to ratify the property tax increase reflected in the budget or the vote to set the tax rate.

Section 102.007 (c), Texas Local Government Code, requires that the adoption of a budget that will raise more revenue from property taxes than in the previous year requires a separate vote of the governing body to ratify the property tax increase reflected in the budget, and that such vote is in addition to and separate from the vote to adopt the budget or to set the tax rate required by Chapter 26, Tax Code.

To ensure compliance with Texas Local Government Code, staff requests a vote by the City Commission to ratify the tax revenues that are included in the FY 2027 budget, which are more than those included in the FY 2026 budget. The increase in revenue from property tax is based on a tax rate of $0.603504.

1. PH 3.01a Ord 2026-1821 Ratifying Property Taxes

ORDINANCE NUMBER 2026-1821

AN ORDINANCE OF THE CITY OF BROWNSVILLE, TEXAS, RATIFYING THE PROPERTY TAX INCREASE REFLECTED IN THE FISCAL YEAR 2027 BUDGET THAT WILL RAISE MORE TOTAL PROPERTY TAXES THAN THE FISCAL YEAR 2026 BUDGET BY $3,065,500 WHICH IS A 4.30 PERCENT INCREASE FROM LAST YEAR'S BUDGET.

WHEREAS, Section 102.007 (c) Texas Local Government Code provides that upon the adoption of a budget that will raise more revenue from property taxes than in the previous year's budget that a separate vote of the governing body to ratify the property tax increase reflected in the budget, and that such a vote is in addition to and separate from the vote to adopt the budget or to set the tax rate; and

WHEREAS, the City Commission has, prior to its consideration and adoption of this ordinance, adopted by separate ordinance the budget of the City of Brownsville for Fiscal Year 2027; and

WHEREAS, the Fiscal Year 2027 budget of the City of Brownsville, Texas will raise more revenue from property taxes than the Fiscal Year 2026 budget by $3,065,500 which is a 4.30 percent increase from last year's budget. The property tax revenue to be raised from new property added to the tax roll for the Fiscal Year 2027 budget is $1,622,411.

NOW, THEREFORE BE IT ORDAINED BY THE CITY OF BROWNSVILLE, TEXAS:

Section 1. That in compliance with the requirements of Section 102.007 (c) of the Texas Local Government Code, the City of Brownsville, Texas does hereby ratify the property tax increase reflected in the Fiscal Year 2027 budget.

Section 2. A copy of the vote results for this ordinance, reflecting the record vote of the City Commission of Brownsville, Texas shall be attached to this ordinance by the City Secretary and shall constitute a part of this ordinance for all purposes.

INTRODUCED AND PASSED on the first reading on this the 18th day of August 2026.

Passed on the second and final reading and approved on this the 1st day of September 2026.

Agenda #:	Consideration and **APPROVAL** on **SECOND** and **FINAL READING** of **Ordinance Number 2026-1822** levying ad valorem taxes for the Tax Year 2026 for the use and support of the Municipal Government of the City of Brownsville, Texas, for the Fiscal Year 2027, providing for the interest and sinking fund for the Fiscal Year 2027 City of Brownsville, Texas, General Obligation Debt. (Financial Services Department)

Summary:
The governing body of a taxing unit other than a school district may not adopt a tax rate that exceeds the lower of the voter-approval tax rate or the no-new-revenue tax rate until the governing body has held a public hearing on the proposed tax rate. This hearing must:

• have a quorum of the governing body present,
• take place within the boundaries of the taxing unit,
• be conducted on a weekday that is not a public holiday,
• allow taxpayers an opportunity to express their views, and
• take place in a public building or, if a public building isn't available, in a building normally open to the public.

A public hearing may not be held before the fifth day after the date the notice of the public hearing is given. Property Tax Code, chapter 26.06(d), expressly authorizes the governing body to vote on the proposed tax rate at the property tax public hearing.

The proposed tax rate is $0.603504, which is not higher than the current tax rate of $0.603504.

And apportioning each levy the specific purpose; providing for discounts in the payment of said taxes; providing that all receipts of the city not apportioned by this ordinance or general law shall be payable into the general fund and repealing all ordinance or parts or ordinance in conflict herewith.

WHEREAS, Stephen Eliseo Muse, finance director for the City of Brownsville, Texas, has complied with Article 26.04 of the Texas Tax Code in the submission of the tax roll to the City Commission; and

WHEREAS, pursuant to the Texas Tax Code, Stephen Eliseo Muse has calculated the maintenance and operation rate for 2026 to be ($0.353581/100), by using the statutory method so required by the Texas Tax Code; and

WHEREAS, Stephen Eliseo Muse, has calculated the interest and sinking fund rate for 2026 as ($0.249923/$100) using the formula set out by the Texas Tax Code; and

WHEREAS, Stephen Eliseo Muse, as finance director upon complying with the Texas Tax Code has totaled the calculated maintenance and operation rate for 2026 ($0.353581/$100) plus the calculated interest and sinking fund rate for 2026 ($0.249923/$100) to be a total of ($0.603504/$100);

NOW, THEREFORE BE IT ORDAINED BY THE CITY OF BROWNSVILLE, TEXAS:

Section 1. That there is hereby levied for the tax year 2026, and there shall be collected for the use and support of the municipal government of the City of Brownsville, Texas, and provide interest and sinking fund for bonds of the City of Brownsville, Texas, for the fiscal year 2027 upon all property, real, personal and mixed, defined and described in Section 2 of Article III of the Charter of the City of Brownsville, Texas, a tax of $0.603504 on each one hundred ($100.00) dollars assessed valuation of said property, being an increase in total tax revenues of 4.30%, said tax being so levied and apportioned to the support purpose hereinafter set forth, to-wit:

(1) For the maintenance and support for the fiscal year 2027 of the general government (General Fund) of the City of Brownsville, Texas, $0. 353581 on each one hundred ($100.00) dollars assessed valuation of said property.

(2) For the payment of principal and interest to be deposited in the interest and sinking fund for services of the requirements for the fiscal year 2027 of the City of Brownsville, Texas, $0.249923 on each one hundred ($100.00) dollars assessed valuation said property.

Section 2. This year's levy to fund maintenance and operational expenditures increased from last year's M&O tax levy. Also, this year's M&O tax rate is higher than the no-new revenue maintenance and operations tax rate.

THIS TAX RATE WILL RAISE MORE TAXES FOR MAINTENANCE AND OPERATIONS THAN LAST YEAR'S TAX RATE.

THE TAX RATE WILL EFFECTIVELY BE RAISED BY 8.03% AND WILL RAISE TAXES FOR MAINTENANCE AND OPERATIONS ON A $100,000 HOME BY APPROXIMATELY $28.

Section 3. All of said taxes hereby levied shall be payable and become due as provided in the City Charter, provided however, that discounts shall be allowed on the full amount of said taxes hereby levied when paid, if paid as follows:

Three (3%) percent discount during October 2026
Two (2%) percent discount during November 2026
One (1%) percent discount during December 2026

Section 3. That all receipts for the City not specifically apportioned by this Ordinance or the Charter of the City of Brownsville, Texas, or general laws of the State of Texas applicable to home rule cities, are hereby made payable to the General Fund of the City.

Section 4. That all Ordinances or parts of ordinances in any manner in conflict with the Ordinance are hereby repealed.

Section 5. That this Ordinance shall take effect and be in force from and after its passage and publications as provided by the Charter of the City of Brownsville, Texas.

INTRODUCED AND PASSED on the first reading on this the 18th day of August 2026.

Passed on the second and final reading and approved on this the 1st day of September 2026.

John Cowen
Mayor, City of Brownsville, TX

ORDINANCE NUMBER 2026-1761-B

AN ORDINANCE OF THE CITY OF BROWNSVILLE, TEXAS, AMENDING THE CODE OF ORDINANCES OF THE CITY TO ADOPT THE PROPOSED FEES TO THE MASTER FEE SCHEDULE ATTACHED HERETO AS EXHIBIT "A"; PROVIDING THAT OTHER FEES NOT LISTED BUT NOW CHARGED PURSUANT TO OTHER ORDINANCES AND RESOLUTIONS SHALL REMAIN IN EFFECT UNTIL TRANSFERRED TO THE MASTER FEE SCHEDULE BY AMENDMENT; PROVIDING A SEVERABILITY CLAUSE; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City Commission of the City of Brownsville, Texas (the "City Commission") adopted a Master Fee Schedule through Ordinance Nos. 2019-1661, 2020-1673, 2022-1673-A, and as amended by other ordinances and/or resolutions, and codified as Chapter 2, "Administration", Article V, "Finance", Division 2, "Fees", Section 2-434, "Master fee schedule", for the purpose of setting forth the comprehensive fees assessed and collected by the City for a range of applications, permits, licenses, services, and activities; and

WHEREAS, the City staff recommends the proposed charges found in Exhibit "A" and based on the cost of delivering these services (the "Proposed Fees"); and

WHEREAS, the City Commission desires to have these Proposed Fees included in the City's Master Fee Schedule, which is updated during the budget process or from time to time as needed to update or remove existing fees or add new fees; and

WHEREAS, although the purpose of this ordinance is to update the Master Fee Schedule, this ordinance is not intended to amend, abolish, or change any fee heretofore established that is not listed in the Proposed Fees to be added to the Master Fee Schedule.

NOW, THEREFORE BE IT ORDAINED BY THE CITY OF BROWNSVILLE, TEXAS, THAT:

Section 1. That from and after the effective date of this Ordinance the fees and charges set out in the Proposed Fees attached hereto as Exhibit "A" shall be collected on behalf of the City and added to the City's Master Fee Schedule. Other sections, fees, or charges not referenced in Exhibit "A" shall remain unaffected by this Ordinance until added and/or transferred to the City's Master Fee Schedule. All other fees found in the City's Master Fee Schedule are hereby ratified as if approved herein.

Section 2. Should any portion or part of this ordinance be held for any reason invalid or unenforceable by a court of competent jurisdiction, the same shall not be construed to affect any other valid portion hereof, but all valid portions shall remain in full force and effect.

Section 3. This ordinance shall be effective upon the Second and Final reading.

INTRODUCED and **PASSED** on the first reading on this the 1st day of September, 2026.

PASSED and **APPROVED** on the second and final reading on this the 15 day of September, 2026.

1. Resolution 2026-121

RESOLUTION NUMBER 2026-121

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF BROWNSVILLE, TEXAS, DIRECTING THE CITY MANAGER TO INITIATE THE PROCESS TO ADOPT A 90-DAY MORATORIUM ON THE AFOREMENTIONED USES AND RATIFYING DIRECTION TO THE CITY MANAGER TO REACTIVATE THE CITY OF BROWNSVILLE ENVIRONMENTAL AND CONSERVATION TASK FORCE THAT WAS TASKED WITH PROVIDING ADVICE AND RECOMMENDATIONS TO THE CITY COMMISSION REGARDING DATA CENTER POLICIES AND DEVELOPMENT REGULATIONS; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Brownsville, Texas (the "City") is a home rule city acting under its charter adopted by the electorate pursuant to Article XI, Section 5 of the Texas Constitution, and Chapter 9 of the Texas Local Government Code; and

WHEREAS, Chapter 212 of the Texas Local Government Code ("LGC") grants a municipality the authority to adopt a moratorium on property development in certain circumstances; and

WHEREAS, a moratorium adopted under Chapter 212 of the LGC is limited to residential property, commercial property, or both; and

WHEREAS, data centers have been identified as a type of property development upon which the City Commission is authorized under Chapter 212 of the LGC to impose a moratorium; and

WHEREAS, a municipality is prohibited from adopting a moratorium on property development unless the municipality complies with the specific notice and hearing procedures set forth under Chapter 212 of the LGC; and

WHEREAS, before a moratorium may be adopted under Chapter 212 of the LGC, a municipality must hold two public hearings, each held at least 30 days apart, with advance notice published at least 30 days before each hearing, followed by two readings of the proposed ordinance imposing the moratorium; and

WHEREAS, the first reading of the proposed ordinance imposing the moratorium must occur no later than 12 days after the second public hearing, and the second reading of the proposed ordinance must occur not less than 28 days after the first reading; and

WHEREAS, for the moratorium to take effect, the ordinance must receive the affirmative vote of at least three-fourths of the City Commission following the second reading; and

WHEREAS, a moratorium adopted under Chapter 212 of the LGC expires 90 days following adoption, unless the municipality extends the moratorium for an additional 90 days; and

WHEREAS, it is the desire of the City Commission to initiate the process of adopting a 90-day moratorium on the acceptance, processing, and approval of new applications for rezoning or permits for data centers; and

WHEREAS, the City Commission recognizes that data center development is a rapidly evolving and impactful matter for the Country, the State of Texas, and the City due to changing technology and the growth of artificial intelligence (AI); and

WHEREAS, the City Commission values transparency and accountability in decision-making, fostering trust among diverse stakeholders, and finds it necessary to engage academic and industry experts, alongside community representation, to establish evidence-based recommendations regarding data center development; and

WHEREAS, on August 3, 2026, Governor Greg Abbott directed the Public Utility Commission of Texas (PUCT) and the Electric Reliability Council of Texas (ERCOT) to conduct a comprehensive verification and audit of all data centers advancing through ERCOT's interconnection process and directed that the PUCT and ERCOT must complete this audit before any data center project moves forward; and

WHEREAS, the Governor's action effectively establishes a temporary moratorium at the State level on new data center development that will impact new local data center development; and

WHEREAS, the City Commission has determined that, in light of the Governor's letter and community feedback, the reactivation of the City of Brownsville Environmental and Conservation Task Force is in the best interest of the residents and business community of the City; and

WHEREAS, the Environmental and Conservation Task Force will be tasked with conducting a comprehensive, fact-based evaluation of data center development, focusing on the scope as set forth below; and

WHEREAS, the Environmental and Conservation Task Force shall be comprised of experts in various fields such as environmental studies, electricity, water, economic development, and data centers, with neighborhood representation within the City's regulatory authority; and

WHEREAS, the Environmental and Conservation Task Force is tasked with providing advice and recommendations to the City Commission regarding data center policies and development regulations; and

WHEREAS, such advice and recommendations shall be produced in a final report provided to the City Commission by December 15, 2026, or sooner if feasible.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF BROWNSVILLE, TEXAS, THAT:

SECTION 1. Findings Incorporated. The findings and recitations set out in the preamble to this Resolution are found to be true and correct, and they are hereby adopted by the City Commission as its legislative findings and made a part hereof for all purposes.

SECTION 2. Moratorium. The City Manager is directed to initiate the process to adopt a 90-day moratorium, as set forth under Chapter 212 of the LGC, on the acceptance, processing, and approval of new applications for rezoning or permits for data centers. The City Manager is further directed to require staff during the moratorium period to undertake an expedited planning and regulatory review regarding data centers, to include:

a. Evaluation of noise impacts of such facilities;
b. Evaluation of municipal water supply impacts and long-term water availability;
c. Evaluation of land-use compatibility, building scale, and mechanical infrastructure associated with such facilities; and
d. Development of zoning ordinance amendments, City Code amendments, and amendments to the water manual governing such facilities.

SECTION 3. Task Force. The City Manager is directed to reactivate the Environmental and Conservation Task Force. As time is of the essence, the City Manager is further directed to manage and direct the Task Force, including selecting Task Force members for the required positions set forth herein, establishing a meeting schedule and ensuring the orderly conduct of all meetings, and preparing and submitting a report as required herein. Selection of Task Force members shall be made with the input of City Commissioner members, provided that the three community representatives set forth below shall be selected from qualified persons submitted by the City Commission.

The Environmental and Conservation Task Force shall consist of no more than 11 voting members, which shall be Brownsville residents where feasible, and shall include the following:

- Two (2) representatives from the economic development business sector;
- One (1) industry expert in data center operations or technology infrastructure;
- One (1) environmental or natural resource management specialist;
- Two (2) representatives from Brownsville Public Utilities Board;
- Three (3) community representatives with demonstrated knowledge in at least one of the following areas:
    - (i) the City's development, policies, and regulations;
    - (ii) technology infrastructure;
    - (iii) environmental management; or
    - (iv) natural resource management; and
- Two (2) representatives from an environmental advocacy organization

The City Manager shall provide necessary support to the Environmental and Conservation Task Force, including staff assistance and the furnishing of resources, all within the parameters of existing budgeted appropriations. The City Manager, or his designee, shall serve as an ex officio member of the Task Force.

The Environmental and Conservation Task Force is charged with conducting a comprehensive, fact-based evaluation of data center development, focusing on the following:

A. Electricity and Energy
- **a.** Impact of ERCOT-projected large-load growth on reliability and pricing for Brownsville ratepayers
- **b.** Impact of data centers bringing their own generation, co-locating with power, or providing flexible options

B. Water Use and Local Resources
- **a.** Cooling technology and water demand under South Texas climate and drought conditions
- **b.** BPUB capacity considerations

C. Land Use, Siting, and Neighborhood Impacts
- **a.** Setbacks, noise, lighting, and screening standards near residential districts, informed by the concerns raised in neighborhoods
- **b.** Equity considerations, ensuring impacts are not concentrated in historically industrialized or underserved neighborhoods

D. Economic Development and Fiscal Impacts
- **a.** Employment and tax-base benefits, weighed against incentive costs, including transparent criteria

The Environmental and Conservation Task Force shall deliver its final report on its evaluation of data center development to the City Commission by December 15, 2026, except as extended by the City Manager. The report shall include recommendations on policies and regulations within the City's regulatory authority for data center development.

SECTION 4. Sunset Provision. The Environmental and Conservation Task Force shall cease to exist upon the submittal of its final report unless otherwise abolished or continued by a majority vote of the City Commission.

SECTION 5. Effective Date; Authority. This Resolution shall be and become effective immediately upon adoption. The City Manager, or designee, is authorized to take all necessary steps to implement this Resolution.

PASSED and **APPROVED** this 1st day of September, 2026.

John Cowen, Jr., Mayor

Agenda #:	Consideration and **ACTION** to acknowledge the financial statements and cash investment report for the City of Brownsville for the third quarter ended June 30, 2026. (Financial Services Department)

Summary:
This financial report includes all the operating and debt service activity. All funds include unaudited revenues and expenditures through June 30, 2026 (FY2026 Q3). Significant transactions highlighted in the presentation include major revenue sources such as Sales and Ad Valorem Taxes.

Project Scope and Analysis:
The City's investment policy requires quarterly reporting of investments to the City Commission. The cash investments by fund presented in this report comply with the investment strategy statement readopted by resolution 2025-114 by the City Commission on September 16, 2025.

EMAIL: STEPHEN.MUSE@BROWNSVILLETX.GOV
MEMORANDUM

To: **Alan Guard, Interim City Manager**

From: **Stephen E. Muse, Finance Director**

Date: **June 30, 2026**

Subject: **Financial Statements for FY2026 Q3**

Because we want to assist the reader with an understanding of all the City's finances, this financial report includes all the operating, debt service, internal service, and capital projects funds. This report includes six separate sections: the first section includes the finance director's memo; the second section includes information for all governmental funds; the third section includes information for all enterprise funds; the fourth section includes information for all internal service funds; the fifth section includes multi-year information for all capital project funds and the sixth section includes information on the City's cash and investments balances. All funds include current year revenues and expenditures for the fiscal period ending June 30, 2026 (FY2026 Q3). Because our two major revenue sources are sales tax and ad valorem taxes, supplemental information is included in section I. Also included in section I are the BPUB utility services expenses. Our investment policy requires that we present the City's investments to the City Commission on a quarterly basis. The cash investments by fund in this report comply with the investment strategy statement re-adopted by the City Commission on September 16, 2025.

General Fund

Sales tax revenue of $37.2M through quarter ending June 30, 2026 (FY2026 Q3), page 5 indicates an increase of 5.45% or $1.9M compared to same quarter last year (FY2025 Q3). Current year actual sales tax revenue exceeded current year budgeted sales tax revenue by $3.4M or 10.2% through June 30, 2026 (FY2026 Q3),

For the fiscal period ending June 30, 2026 (FY2026 Q3), the City has collected $68.6M or 94.0% of the ad valorem tax levy compared to 94.86% last fiscal year. Page 10 shows this comparison.

The BPUB utility expenditures listed on page 10 show a decrease of $296K in comparison to the same period as last fiscal year. For the fiscal period ending June 30, 2026 (FY2026 Q3) the surplus cash transfer from BPUB totaled approximately $8.7M, an increase of approximately 8.73% or $306K compared to the prior year.

Convention & Tourism Fund

The hotel/motel tax collections for the fiscal period ending June 30, 2026 (FY2026 Q3) were $1.5M, a decrease of $72K from FY2025. Revenues and expenditures on this fund are shown on page 50 of Section II.

Community Development Fund

Funding for this fund is from Community Development Block Grant funds. Revenues and expenditures on this fund are on page 50 of Section II.

American Rescue Plan (Arp) Fund

Funding for this fund is from American Rescue Plan Grant funds. The American Rescue Plan Act of 2021 (Pub. L. No. 117-2), also called the COVID-19 Stimulus Package or American Rescue Plan, is a $1.9 trillion economic stimulus bill passed by the 117th United States Congress and signed into law by President Joe Biden on March 11, 2021, to speed up the United States' recovery from the economic and health effects of the COVID-19 pandemic and the ongoing recession. The City of Brownsville, being placed in the "Metropolitan City" category, is a direct recipient of funding. Treasury guidance and direct allocation amounts were released on May 11, 2021. The City was awarded $65,194,584 of the available funding. During FY 2021 the City received $32,597,427 of the awarded funding. The remainder of the funding was received in June 30th, 2022. Revenues and expenditures on this fund are on page 51 of Section II

BPD Federal Forfeiture Fund

This fund is under the control of the police chief. Revenues are derived from forfeitures awarded by the federal courts from illegal drug seizures. The police chief decides how the money should be spent for police related activities. Revenues and expenditures on this fund are on page 51 of Section II.

BPD Forfeiture Fund

This fund is under the control of the police chief. Revenues are derived from forfeitures awarded by the courts from illegal drug seizures. The police chief decides how the money should be spent for police related activities. Revenues and expenditures on this fund are on page 51 of Section II.

Street & Drainage Maintenance Fund

Revenues and expenditures on this fund are shown on page 51 of Section II.

General Non-Bonded Debt Service Fund

Revenues and expenditures on this fund are shown on page 51 of Section II.

Debt Service Fund

Revenues and expenditures on this fund are shown on page 51 of Section II.

Airport Construction Funds

Revenues and expenditures on these funds are shown on page 56 in Section III of this report. These funds are listed below:

Airport Construction Fund 49
2018 Tax Note Fund 501
Airport Construction III Fund 51
Airport Construction II Fund 53
2008 Airport C.O. (GBIC) Fund 59

Airport Fund

Airport revenues and expenses are shown on page 56 of Section III.

Bridge Fund

This fund is used to account for debt service expenses associated with the retirement of revenue bonds being shared equally between Cameron County and the City for the construction of an international bridge. Any excess funds are transferred primarily to the City's General Fund. Revenues and expenses are shown on page 56 of Section III.

Motor Vehicle Parking System Fund

Revenues and expenses on this fund are shown on page 57 of Section III.

Event Center Fund

Revenues and expenses on this fund are shown on page 57 of Section III.

Public Transit Fund

Revenues and expenses are shown on page 57 of Section III.

Landfill Fund

This fund is used to record landfill fees and garbage collections revenue. This fund also includes the federal unfunded mandate compliance environmental fee (FUMCEF), which became effective on October 1, 1996. This fund pays for the expenses associated with the landfill, waste minimization, hotshot crew, and ecological management. Revenues and expenses on this fund are shown on page 57 of Section III.

Brownsville Golf Center Fund

Revenues and expenses are shown on page 57 of Section III.

Sports Park Fund

Revenues and expenses are shown on page 57 of Section III.

Fiber Broadband Fund

Revenues and expenses are shown on page 57 of Section III.

Employee Health Insurance Fund

Revenues and expenses of this fund are shown on page 59 in section IV of this report.

Fleet & Facility Services Fund

Revenues and expenses of this fund are shown on page 59 in section IV of this report.

Enterprise Applications Fund

Revenues and expenses of this fund are shown on page 59 in section IV of this report.

Sick And Annual Leave Fund

Revenues and expenses of this fund are shown on page 59 in section IV of this report.

Workers' Compensation Insurance Fund

Workers' Compensation expenses under the self-funded program total $1,539.00 for the fiscal period ended June 30, 2026 (FY2026 Q3). This fund will continue to remain open until all outstanding claims are closed. This fund has a liability of $250K in claims payable. Even though the City elected to convert from a self-funded insurance plan to a fully insured workers' compensation plan beginning November 1, 1996, this fund is still listed separately because of prior years' future claims. Revenues and expenses on this fund are shown on page 59 of Section IV.

Capital Project Funds

Revenues and expenditures on these funds are shown on pages 60 through 85 in Section V of this report.

Investments

Currently, the City is investing its idle funds with BBVA Compass, First Community Bank, Lone Star Pool, LOGIC Pool, Texas Term, Texas Class, and Texpool. All investments are within our investment guidelines re-adopted by the City Commission on September 16, 2025. These lists of investments are included on Exhibit A – Deep Blue Investment Advisors Report.

QUARTERLY ECONOMIC UPDATE

DEEP BLUE
INVESTMENT ADVISORS

Executive Summary

Market Update

June marked a shift in what was driving the market narrative. For much of the past few months, markets were focused on the Middle East conflict, restricted transit through the Strait of Hormuz, elevated oil prices, and the risk that higher energy costs would feed through into inflation. Those risks did not disappear in June, but by the end of the month oil had moved meaningfully lower as progress in the region reduced some of the immediate "supply risk" premium that had been built into energy markets.

Since the initial Iran shock, Treasury yields have moved sharply higher as markets priced in the risk that inflation would remain elevated and that the Fed would have little room to cut rates. By late June, that view was being reinforced by a broader set of factors. Stronger economic data, resilient consumer spending, AI-related investment demand, and a more hawkish Fed shifted the market's focus away from the initial energy shock alone and toward the broader higher-for-longer rate environment.

The FOMC met on June 16-17 and, as widely expected, held the Federal Funds target range steady at 3.50%-3.75%. The rate decision itself was not the major story, as consensus was already for a hold. The bigger story was the updated statement, Summary of Economic Projections, dot plot, and Chair Warsh's first post-meeting press conference, which all pointed to a more hawkish policy backdrop.

The biggest takeaway was that the Fed moved away from its prior easing bias. The March SEP showed one expected rate cut in 2026, while the June projections shifted in the opposite direction, with roughly half of Fed officials now penciling in at least one hike by year-end. That was a meaningful change in tone and reflected the same broader set of factors discussed above: inflation remains elevated, recent CPI/PPI data has been firm, the labor market has remained resilient, and consumer spending has held up.

Portfolio Summary

For the quarter, the long-term managed portfolio earned $199,701. The portfolio return of 0.75% outperformed the benchmark return of 0.39% for the quarter. The portfolio had a yield of 4.05% versus the benchmark at 4.16%. The effective duration was 0.83 years versus the benchmark at 1.82 years. The average credit quality was AA+.

Economic Landscape

Q2 2026 Overview – Higher-for-Longer Repricing

- Market Narrative Shift: Early in the quarter, markets focused on Middle East tensions, restricted transit through the Strait of Hormuz, and the risk that higher oil prices would feed through into inflation. By late June, oil had moved lower and some of the immediate supply-risk premium eased, but the broader rates story did not fully reverse.

- Federal Reserve / Rate Expectations: The Fed held the federal funds target range steady at 3.50%–3.75% at its June meeting, but the updated SEP/dot plot moved away from the prior easing bias. Markets shifted decisively away from the 2026 rate-cut narrative and began pricing meaningful odds of a rate hike by September, with additional hike risk around year-end / early 2027.

- Labor Market / Growth: Economic data remained resilient enough to keep the Fed focused on inflation. Consumer spending and income remained firm, Q1 GDP released in Q2 was revised higher to 2.1% annualized, and labor data remained stable overall. The latest payroll report brought the three-month average down to approximately +111,000, while the unemployment rate moved lower to 4.2%, pointing to a labor market that is moderating but not breaking.

- Inflation: Inflation remained above the Fed's 2% target, with CPI, PPI, and PCE all pointing to continued price pressure. Lower oil prices helped ease some energy-driven inflation concern late in the quarter, but sticky inflation, resilient demand, and AI-related investment demand kept the higher-for-longer narrative intact.

- Rate / Market Impact: Front-end yields remained elevated as markets repriced the Fed path. The 2-year Treasury briefly topped 4.20%, reaching its highest level in more than a year, while the 10-year moved less dramatically as lower oil prices reduced some longer-term inflation concern. Volatility is expected to persist as markets balance cooler energy prices against resilient data and a still-cautious Fed.

Interest Rates and Strategy

Rate (%)	Ticker	Q2 26	Q1 26	Q4 25	Q2 25	Historical Trend		Notes
						Short-Term	Long-Term*	
US Treasuries								
3-month	usgg3m index	3.811	3.681	3.626	4.291	Higher	Lower	Treasurybill rates increased quarter-over-quarter as markets repriced near-term Fed policyexpectations awayfrom additional rate cuts. Year-over-year, yields remain lower following the three 25-basis point Fed rate cuts at the end of2025.
6-month	usgg6m index	3.970	3.692	3.602	4.246	Higher	Lower	
1-year	usgg12m index	3.975	3.697	3.470	3.967	Higher	Higher	Short and intermediate Treasury yields moved higher overall as resilient economic data, sticky inflation, and a more hawkish Fed pushed markets toward a higher-for-longer rate environment.
3-year	usgg3yindex	4.181	3.852	3.539	3.689	Higher	Higher	
5-year	usgg5yr index	4.227	3.985	3.725	3.797	Higher	Higher	
10-year	usgg10yindex	4.465	4.348	4.167	4.228	Higher	Higher	Longer-term Treasury yields also moved higher quarter-over-quarter as investors continued to price in elevated inflation risk, stronger economic data, and uncertainty around the path of Fed policy.
30-year	usgg30yindex	4.951	4.911	4.844	4.774	Higher	Higher	
Other Rates								
Fed Funds Eff. Rate	FDFD Index	3.620	3.640	3.640	4.330	Lower	Lower	The Federal Reserve held the target range steady at 3.50%-3.75% throughout the quarter. However, Fed messaging shifted more hawkish, with markets moving away from the 2026 rate-cut narrative and beginning to price the possibilityof renewed tightening.
Fed Funds (upper limit)	FDTR Index	3.750	3.750	3.750	4.500	Unchanged	Lower	
SOFR	SOFRRATE Index	3.600	3.870	3.870	4.450	Lower	Lower	SOFR is the benchmark floating-rate for most bonds and tracks Fed Funds.
O/N Repo	USRG1T ICUS Index	3.680	3.890	3.890	4.490	Lower	Lower	Repo rates are expected to match Fed Funds +/- a few basis points.
30yr Mortgage Rate	ILM3NAVG Index	6.550	6.470	6.250	6.800	Higher	Lower	Mortgage rates moved modestlyhigher quarter-over-quarter alongside longer-term Treasuryyields, but remain below year-ago levels.

** Long-Term is yearover year.*

4 Themes for Q3 2026 and Beyond:

1. Federal Reserve Policy: The Fed has shifted away from the prior rate-cut narrative and remains focused on inflation. While rates were held steady in June, updated projections showed a more hawkish policy path, with markets now watching whether upcoming inflation and labor data support another pause or increase the odds of renewed tightening.
2. Inflation / Oil: Oil prices spiked sharply earlier in Q2 as Middle East tensions escalated, but moved lower toward quarter-end as some supply concerns eased. Developments in the Middle East and energy markets will remain important to watch, as oil is a key input into inflation measures and can quickly influence market expectations for Fed policy.
3. Economic Resilience: The economy continues to hold up better than expected, supported by firm consumer spending, stable income growth, and a labor market that remains resilient despite some moderation. As long as growth and employment remain intact, the Fed has more room to stay focused on inflation rather than moving quickly toward rate cuts.
4. Market Volatility: Volatility is likely to remain elevated as markets react to each new inflation report, labor-market release, Fed communication, and geopolitical headline. Treasury yields may remain sensitive to any data that either reinforces the higher-for-longer narrative or shifts market expectations back toward an easing bias.

GLOSSARY OF TERMS

CITY OF BROWNSVILLE

06/30/2026

DEEP BLUE
INVESTMENT ADVISORS

TERM	DEFINITION
Accretion	The change in the price of a bond bought at a discount to the par (or face) value of the bond
Accrued Interest	Interest that is due on a bond or other fixed income security since the last interest payment was made
Agency Bonds	A bond, issued by a U.S. government-sponsored agency or federal budget agency. The offerings of these agencies are backed but not guaranteed by the U.S. government
Amortization	Charging or writing off an intangible asset's cost as an operational expense over its estimated Useful life
Average Coupon	Generated by weighting the coupon of each bond by its relative size in the portfolio
Average Duration	A time measure of a bond's interest-rate sensitivity, based on the weighted average of the time periods over which a bond's cash flows accrue to the bondholder
Average Share Balance	The average of the beginning and ending balances of a given time period
Average YTM	(Average Yield To Maturity) The total return anticipated on a bond if the bond is held until it matures
Book Value	The value at which the asset is carried on a balance sheet and calculated by taking the cost of an asset minus. the accumulated depreciation
Close Date	The final date of fiscal period
CMO	(Collateralized Mortgage Obligation) A type of mortgage-backed security that contains a pool of mortgages bundled together and sold as an investment.
Commercial Paper	An unsecured obligation issued by a corporation or bank to finance its short-term credit needs, such as accounts receivable and inventory.
Corporate Bonds	A debt security issued by a corporation and sold to investors
Cost Basis	The original value of an asset for tax purposes, usually the purchase price, adjusted for stock splits, dividends and return of capital distributions
CPN	(Coupon) The interest rate on which coupon payments are based
DTM	(Days to Maturity) The amount of days left until maturity
Dur to Worst	A risk metric that measures the sensitivity of a bond's price to changes in market yields
Duration	A measure of a bond's sensitivity to interest rate changes
Earned Income	Net of all income, expenses gains and losses that should be attributed to Net Income
Earned Interest	The income attributed to interest earned
Eff. Mat. Price	The price to which a security is amortizing
Effective Maturity	The weighted average of the maturities of the underlying bonds.
Fair Value	The value of a security based on market prices
Final Maturity	The date upon which all principal and interest must be repaid
Financial Bonds	A bond is a debt security, under which the issuer owes the holders a debt and (depending on the terms of the bond) is obliged to pay them interest (the coupon) or to repay the principal at a later date, termed the maturity date
Fixed Income	A type of investment in which real return rates or periodic income is received at regular intervals and at reasonably predictable levels
Government Bonds - Discount	A bond that is issued for less than its par (or face) value
Government Bonds	A debt security issued by a government to support government spending

GLOSSARY OF TERMS

CITY OF BROWNSVILLE

06/30/2026

DEEP BLUE
INVESTMENT ADVISORS

TERM	DEFINITION
Industrial Bonds	Municipal debt securities issued by a government agency on behalf of a private sector company and intended to build or acquire factories or other heavy equipment and tools
Interest Received	The income attributed to interest earned or equity dividends
Long Term G/L	A gain or loss from a qualifying investment owned for longer than 12 months before it was sold
Market Value	The highest estimated price that a buyer would pay and a seller would accept for an item in an open and competitive market
Maturity Date	The final payment date of a loan or other financial instrument, at which point the principal (and all remaining interest) is due to be paid
MBS	(Mortgage-Backed Security) A type of asset-backed security that is secured by a mortgage or collection of mortgages
Money Market Fund	An investment whose objective is to earn interest for shareholders while maintaining a net asset value (NAV) of $1 per share
Mortgage Backed Bonds	A type of asset-backed security that is secured by a mortgage or collection of mortgages. The mortgages are sold to a group of individuals (a government agency or investment bank) that securitizes, or packages, the loans together into a security that investors can buy
Municipal Bonds	Debt securities issued by states, cities, counties and other governmental entities to fund day-to-day obligations and to finance capital projects such as building schools, highways or sewer systems
Open Date	The first date of fiscal period
Original Cost	The amount originally paid, not including accrued interest
Par Value	The nominal dollar face amount of a security
Proceeds	Cash realized from a sale or received as a loan, after all commissions, expenses, fees, and taxes are deducted
Purchase Interest	The income or expense from the purchase of accrued interest on trades
Settle Date	The date on which the transaction is settled and monies/securities are exchanged. If the settle date of the transaction (i.e., coupon payments and maturity proceeds) occurs on a non-business day, the funds are exchanged on the next business day
Short Term G/L	The gain or loss realized from the sale, transfer, or other disposition of personal or investment property known as capital asset that has been held for a year or less
Sold Interest	The income or expense from the sale of accrued interest on trades
Total Cost	All costs associated with the acquisition and the security including any interest or dividends that have been reinvested
Total Realized G/L	The profits or losses from completed transactions
Total Return	The actual rate of return of an investment or a pool of investments over a given evaluation period
Trade Date	The date on which the transaction occurred; however, the final consummation of the security transaction and payment has not yet taken place
Unit Cost	The total expenditure incurred by a company to produce, store and sell one unit of a particular product or service
Unit Price	The transaction price on a trade
Utility Bonds	A utility bond is a type of financial guarantee ensuring a person or organization will pay for utilities on time.
U.S. Treasury	The department of the U.S. government that issues Treasury securities.
WAL	(Weighted Average Life) The average length of time that each dollar of unpaid principal on a loan, a mortgage or an amortizing bond remains outstanding
Yield	The rate of return based on the current market value, the annual interest receipts, maturity value, and the time period remaining until maturity, stated as a percentage on an annualized basis
YTM	(Yield To Maturity) The yield the investor will receive if the bond is held to maturity

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Eva Garcia, Senior Planner Bicycle & Pedestrian, Joel Garza, Mobility Director
Date:	Tuesday, September 1, 2026
Agenda #:	Consideration and **ACTION** to award contract number 141-26-BMT-IFB to 2GS LLC dba Earthworks Enterprise in the amount of $1,539,579 for the Southmost Nature Trail Phase III, as budgeted. (Multimodal Transportation)

Summary:
The Southmost Nature Trail Phase III (SNT III) project will be approximately 10,138 ft.(1.92 mi.), starting at Manzano Street (Southmost Public Library) continuing to Morningside Road (through Morningside Park).

Project Scope and Analysis:
The scope of work for SNT III (CSJ 0921-06-360) consists of construction of a predominately 8ft- to 12 ft-wide hike and bike trail, solar-powered lighting, and a mid-block pedestrian crossing at Morningside Rd.

Funding:

Source: RGVMPO/TxDOT Grant
C.O. Fund 811-9110-848-092

Amount: $1,231,663
$307,916

Local Contribution if Applicable:
$307,916

Recommendation:
Staff recommends approval.

Commission Pillar:
Infrastructure, Quality of Life & Vibrancy

RE: Southmost Nature Trail Phase III Project
Letter to Award
CSJ# 0921-06-360 / City of Brownsville

Dear Mayor Cowen:

We have completed our review of the bid package and analysis that was included with the City of Brownsville (City) letter dated July 24, 2026, and we do concur with awarding the contract to 2GS LLC dba Earthworks Enterprise with their low bid amount of $1,539,579.07. The City may now award the contract and move forward with construction operations.

Ms. Yahaira Marroquin, out of the San Benito Area Office, will serve as our construction project manager and your point of contact from this point forward. Please work directly with her to ensure all requirements are met for you to receive the federal/state funding participation outlined in the Advance Funding Agreement. Ms. Marroquin can be contacted at (956)-399-5102 or Yahaira.Marroquin@txdot.gov. In addition, and as a reminder, the local government construction procedures that the City of Brownsville will need to follow can be found at http://www.txdot.gov/government/processes-procedures/lgp-toolkit.html.

If you have any questions, feel free to call me or our Design Support Supervisor, Agustin Ramirez, P.E. at (956) 702-6304.

Sincerely,

DocuSigned by:

PROCUREMENT ANALYSIS

Date: Wednesday, August 12, 2026
To: Mr. John Cowen Jr., City Mayor
From: Mr. Alan Guard, Interim City Manager
CC: Mr. Damian Espinoza, Procurement Director
Mr. Joel Garza, Multimodal Transportation Director

Agenda Title:
Agenda Item for the City Commission meeting of Tuesday, September 1, 2026.
"Consideration and Action to Authorize a Contract with 2GS LLC dba Earthworks Enterprises in the amount of $1,539,579.07 for Contract No. 141-26-BMT-IFB, for a term of 98 Calendar Days, Multimodal Transportation Department."

Executive Summary:

- Department: Multimodal Transportation Department
- Procurement Method: (IFB) Invitation For Bids
- Submittals Received: Three (3)
    - Anahuac Infrastructure LLC
    - 2GS LLC dba Earthworks Enterprises
    - Artillery LLC
- Contract Number: 141-26-BMT-IFB
- Vendor: 2GS LLC dba Earthworks Enterprises.
- Contract Amount: $1,539,579.07
- Term: 98 Calendar Days

Background:
The Multimodal Transportation Department requested the procurement of construction services for the Southmost Nature Trail Phase III project. The project will construct shared-use trail improvements and related infrastructure to enhance pedestrian and bicycle connectivity, improve safety, and support the City's transportation network.

Procurement Process:
The Procurement Department issued an Invitation for Bids (IFB) in accordance with Texas Local Government Code Chapter. The solicitation was advertised in the local newspaper and posted on the City's electronic bidding platform. Three (3) bids were received.

This procurement is governed by the following statute:

- **IFB (Competitive Sealed Bidding): Texas Local Government Code Chapter 252, Subchapter C – Competitive Sealed Bidding (§252.041).**

Results
Three (3) bids were received in response to the solicitation. Anahuac Infrastructure LLC, the apparent low bidder, was determined to be nonresponsive in accordance with the solicitation requirements for failing to provide confirmation of TxDOT Confidential Bidder Questionnaire certification. Accordingly, 2GS LLC dba Earthworks Enterprise is the lowest responsive and responsible bidder with a bid amount of **$1,539,579.07** (see Exhibit A – Bid Tabulation).

Vendor Information:
2GS LLC dba Earthworks Enterprises
7100 W Expressway 83, Palmview, Tx 78572
Point of Contact: Humberto Garcia Jr.
Phone/Email: Beto@2gsllc.com

Exhibits & Supporting Documents:

- Exhibit A – Bid Analysis and Recommendation Letter(lowest responsive/responsible bidder).
- Exhibit B – TxDOT Recommendation Letter
- Exhibit C – Form 2 - Statement of Conflict of Interest
- Exhibit D – Form 3 - Texas Ethics Commission Certificate of Interested Parties (1295)

Recommendation:
The Procurement Department recommends that the City Commission authorize a contract with **2GS LLC dba Earthworks Enterprises** under the **Invitation for Bids (IFB)** procurement method in the amount of **$1,539,579.07** for **Contract No. 141-26-BMT-IFB**, with a term of **98 Calendar Days**.

Re: City of Brownsville Southmost Nature Trail Phase III Project Letter of Recommendation/Bid Analysis.
Solicitation Number 141-26-BMT-IFB CSJ:0921-06-360

Dear Mr. Saenz,

City of Brownsville (City) received three (3) bids for the Southmost Nature Trail Phase III project (CSJ 0921-06-360): Anahuac Infrastructure LLC, 2GS LLC dba Earthworks Enterprise, and Artillery LLC. The City has diligently evaluated the submissions for the referenced project and conducted a comprehensive review of all documentation. Subsequently, we collaborated with our engineering consultant, RRP Consulting Engineers, LLC, for a thorough bid analysis.

Based on the City's Invitation to Bid Section 3: Bid Submission Requirements, Anahuac Infrastructure, LLC was determined to be nonresponsive as they did not provide confirmation of TxDOT Confidential Bidder Questionnaire certification. Otherwise, as per the Bid Analysis, it has been determined that the bids are staisfactory and no "unbalance" in te bids were identified.

As stated in the attached Engineer's Letter of Recommendation, it is our recommendation to award the contract to the lowest bidder, 2BS LLC dba Earthworks Enterprise.

If you should have any questions or comments, feel free to contact me.

Respectfully yours,

J. Joel Garza Jr.
City of Brownsville

Re: City of Brownsville Southmost Nature Trail Phase III Project
Letter of Recommendation/Bid Analysis. Solicitation Number 141-26-BMT-IFB

Dear Mrs. Garcia,

RRP Consulting Engineer's LLC has reviewed the bid information provided by three (3) bidders Anahuac Infrastructure LLC, 2GS LLC dba Earthworks Enterprise, and Artillery LLC for the Southmost Nature Trail Phase III Project. During tabulations of bids RRP did encounter differences related to rounding of unit prices to Anahuac Infrastructure, LLC for a total of $14.02 adjustment see Temp Sedmt Cont Fence Items and BIODEG Erosn Cont Logs 506 and 2GS, LLC dba Earthworks Enterprise total of $29.42 adjustment to Item 666-7417, see adjustment details in Schedule "A" attached to Bid Analysis.

Based on the bid tabulation and the findings of Anahuac Infrastructure, LLC as Nonresponsive, RRP Consulting Engineer's LLC did prepare a Bid Analysis with the two (2) remaining responsive bidders 2GS LLC dba Earthworks Enterprise tabulated bid of $1,539,579.07 is the lowest bidder, and Artillery, LLC as the second lowest bidder at $1,621,198.00. The 2GS, LLC dba Earthworks Enterprise bid of $1,539,579.07 is $81,618.93 or 5.30% under Artillery, LLC bid and $343,882.23 or 18.26% under the Engineer's Estimate of $1,883,461.30. We have attached Bid Analysis with respect to the Engineer's Estimate for your reference (is labeled Attachment 1).

We have reviewed the bid forms, bid bond, and other required bid documents as shown in the attached Bid Award Checklist (See Attachment 2). Based on the Bid Analysis it is our recommendation to award the contract to the lowest bidder, **2GS LLC dba Earthworks Enterprise.**

If you have any questions/comments or concerns, please contact me.

Respectfully Yours,

Abel Marroquin III, P.E.
Project Manager

Engineer's Bid Analysis Report

And Tabulation Schedules

CITY OF BROWNSVILLE

SOUTHMOST NATURE TRAIL PHASE III

BID ANALYSIS – BID NO: 141-26-BMT-IFB CSJ NO: 0921-06-360

Schedule "A" – Overall Bid Tabulation all Bidders with Bid Amounts of each Bidder compared to determine Differences and Percentages.

City of Brownsville (City) received Three (3) bids for the Southmost Nature Trail Phase III project, Anahuac Infrastructure, LLC, 2GS, LLC dba Earthworks Enterprise, and Artillery, LLC.

Based on the City of Brownsville's Invitation to Bid Section 3: Bid Submission Requirements, Anahuac Infrastructure, LLC was determined to be **NONRESPONSIVE** as they did not provide confirmation of TxDOT Confidential Bidder Questionnaire certification.

Schedule "A-1" – Overall Bid Tabulation with comparison of all bidders' unit prices and total prices.

- Engineer's Estimate initially at $1,712,237.30.
- Mobilization was not included as a bid item but rather added as a percentage of the Engineer's Estimate at $171,224.00.
- Engineer's Estimate for evaluation at $1, 883,461.30
- 2GS, LLC dba Earthworks Enterprise is the lowest bidder at $1,539,579.07
- 2GS, LLC dba Earthworks Enterprise is $81,618.93 or 5.30% under Artillery, LLC bid and $343,882.23 or 18.26% under the Engineer's Estimate of $1,883,461.30.
- Artillery, LLC is the second lowest bidder at $1,621,198.00.

Bidders Total Bid Amount is compared to Engineer's Total Estimate Cost amount in table below.

ITEMS OF WORK	ENGINEER'S ESTIMATE	2GS, LLC BID AMOUNT	ARTILLERY BID AMOUNT		2GS, LLC COMPARED TO ARTILLERY LLC
EST/BIDS	$1,883,461.30	$1,539,579.07	$1,621,198.00		$81,618.93
ENGINEER'S EST LESS EACH BIDDER BID AMT	% AMT/UNDER ENGINEER'S ESTIMATE	$343,882.23 18.26%	$262,263.30 13.92%		$81,618.93 5.30% AMT 2GS LLC UNDER ARTILLERY LLC

Schedule "B" – Engineer's Estimate unit prices and total cost for each item

The major items were selected based on 5% of total bid or $100,000 as per Item 1L Abbreviation and Definitions of 2024 Specifications.

Below is comparison of the selected major items.

- **Item No. 100-7002 PREPARING ROW**
  Engineer's total estimate cost of **PREPARING ROW**
  work is $715,000.00 or 37.96% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **PREPARING ROW** work is $115,000.00 or 7.47% of their total Bid of $1,539,579.07. In comparison their percentage (7.47% less 37.96%) is 30.49% below the Engineer's percentage.

- Artillery, LLC total bid cost amount of **PREPARING ROW** work is $125,000.00 or 7.71% of their total Bid of $1,621,198.00. In comparison their percentage (7.71% less 37.96%) is 30.25% below the Engineer's percentage.

- **Item No. 110-7001 EXCAV (ROADWAY)**
  Engineer's total estimate cost of **EXCAV (ROADWAY)**
  work is $15,391.20 or 0.82% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **EXCAV (ROADWAY)** work is $65,296.00 or 4.24% of their total Bid of $1,539,579.07. In comparison their percentage (4.24% less 0.82%) is 3.42% above the Engineer's percentage.

- Artillery, LLC total bid cost amount of **EXCAV (ROADWAY)** work is $46,640.00 or 2.88% of their total Bid of $1,621,198.00. In comparison their percentage (2.88% less 0.82%) is 2.06% above the Engineer's percentage.

- **Item No. 164-7042 DRILL SEED (PERM_RURAL_CLAY)**
  Engineer's total estimate cost of **DRILL SEED (PERM_RURAL_CLAY)**
  work is $1,760.00 or 0.09% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **DRILL SEED (PERM_RURAL_CLAY)** work is $4,830.00 or 0.31% of their total Bid of $1,539,579.07. In comparison their percentage (0.31% less 0.09%) is 0.22% above the Engineer's percentage.

- Artillery, LLC total bid cost amount of **DRILL SEED (PERM_RURAL_CLAY)** work is $16,000.00 or 0.99% of their total Bid of $1,621,198.00. In comparison their percentage (0.99% less 0.09%) is 0.89% above the Engineer's percentage.

- **Item No. 164-7045 DRILL SEED (TEMP)(WARM)**
  Engineer's total estimate cost of **DRILL SEED (TEMP)(WARM)**
  work is $1,760.00 or 0.09% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **DRILL SEED (TEMP)(WARM)** work is $4,410.00 or 0.29% of their total Bid of $1,539,579.07. In comparison their percentage (0.29% less 0.09%) is 0.19% above the Engineer's percentage.

- Artillery, LLC total bid cost amount of **DRILL SEED (TEMP)(WARM)** work is $16,000.00 or 0.99% of their total Bid of $1,621,198.00. In comparison their percentage (0.99% less 0.09%) is 0.89% above the Engineer's percentage.

- **Item No. 168-7001 VEGETATIVE WATERING**
  Engineer's total estimate cost of **VEGETATIVE WATERING**
  work is $2,403.50 or 0.13% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **VEGETATIVE WATERING** work is $10,695.00 or 0.69% of their total Bid of $1,539,579.07. In comparison their percentage (0.69% less 0.13%) is 0.57% above the Engineer's percentage.

- Artillery, LLC total bid cost amount of **VEGETATIVE WATERING** work is $2,875.00 or 0.18% of their total Bid of $1,621,198.00. In comparison their percentage (0.18% less 0.13%) is 0.05% above the Engineer's percentage.

- **Item No. 216-7001 PROOF ROLLING**
  Engineer's total estimate cost of **PROOF ROLLING**
  work is $1,292.50 or 0.07% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **PROOF ROLLING** work is $1,625.00 or 0.11% of their total Bid of $1,539,579.07. In comparison their percentage (0.11% less 0.07%) is 0.04% above the Engineer's percentage.

- Artillery, LLC total bid cost amount of **PROOF ROLLING** work is $7,500.00 or 0.46% of their total Bid of $1,621,198.00. In comparison their percentage (0.46% less 0.07%) is 0.39% above the Engineer's percentage.

- **Item No. 247-7259 FL BS (RDWY DEL)(TY A GR 1-2)(FNAL POS)**
  Engineer's total estimate cost of **FL BS (RDWY DEL)(TY A GR 1-2)(FNAL POS)** work is $133,003.20 or 7.06% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **FL BS (RDWY DEL)(TY A GR 1-2)(FNAL POS)** work is $288,540.00 or 18.74% of their total Bid of $1,539,579.07. In comparison their percentage (18.74% less 7.06%) is 11.68% above the Engineer's percentage.

- Artillery, LLC total bid cost amount of **FL BS (RDWY DEL)(TY A GR 1-2)(FNAL POS)** work is $89,310.00 or 5.51% of their total Bid of $1,621,198.00. In comparison their percentage (5.51% less 7.06%) is 1.55% below the Engineer's percentage.

- **Item No. 531-7003 CONC SIDWALKS (6")**
  Engineer's total estimate cost of **CONC SIDWALKS (6")** work is $293,947.50 or 15.61% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **CONC SIDWALKS (6")** work is $256,536.00 or 16.66% of their total Bid of $1,539,579.07. In comparison their percentage (16.66% less 15.61%) is 1.06% above the Engineer's percentage.

- Artillery, LLC total bid cost amount of **CONC SIDWALKS (6")** work is $384,804.00 or 23.74% of their total Bid of $1,621,198.00. In comparison their percentage (23.74% less 15.61%) is 8.13% above the Engineer's percentage.

- **Item No. 6099-7001 PEDESTRIAN ILLUMINATION ASSEMBLY**
  Engineer's total estimate cost of **PEDESTRIAN ILLUMINATION ASSEMBLY** work is $206,250.00 or 10.95% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **PEDESTRIAN ILLUMINATION ASSEMBLY** work is $346,500.00 or 22.51% of their total Bid of $1,539,579.07. In comparison their percentage (22.51% less 10.95%) is 11.56% above the Engineer's percentage.

- Artillery, LLC total bid cost amount of **PEDESTRIAN ILLUMINATION ASSEMPLY** work is $225,000.00 or 13.88% of their total Bid of $1,621,198.00. In comparison their percentage (13.88% less 10.95%) is 2.93% above the Engineer's percentage.

Schedule "C" – Unit Price Analysis with Respect to Engineer's Estimate by Item No.

The bid analysis process undertaken by RRP Consulting Engineer's, LLC did include an examination of the unit prices for reasonable conformance with the estimated prices, (see Schedule "C").

- Unit Prices for work Item No. 100-7002 PREPARING ROW
    - Engineer's Estimate – Qty. 100 STA X Unit Price $7,150.00 = $715,000.00
    - 2GS, LLC Unit Price $1,150.00 = $115,000.00
      Qty. 100 STA X Unit Price difference of $6,000.00 = $600,000.00 under or 83.92% lower than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $1,250.00 = $125,000.00
      Qty. 100 STA X Unit Price difference $5,900.00 = $590,000.00 under or 82.52% lower than Engineer's Estimate Amount.

- Unit Prices for work Item No. 110-7001 EXCAV (ROADWAY)
    - Engineer's Estimate – Qty. 2332 CY X Unit Price $6.60 = $15,391.20
    - 2GS, LLC Unit Price $28.00 = $65,296.00
      Qty. 2332 CY X Unit Price difference of $21.40 = $49,904.80 over or 324.24% higher than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $20.00 = $46,640.00
      Qty. 2332 CY X Unit Price difference $13.40 = $31,248.80 over or 203.03% higher than Engineer's Estimate Amount.

- Unit Prices for work Item No. 164-7042 DRILL SEED (PERM_RURAL_CLAY)
    - Engineer's Estimate – Qty. 2 AC X Unit Price $880.00 = $1,760.00
    - 2GS, LLC Unit Price $2,215.00 = $4,830.00
      Qty. 2 AC X Unit Price difference of $1,535.00 = $3,070.00 over or 174.43% higher than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $8,000.00 = $16,000.00
      Qty. 2 AC X Unit Price difference $7120.00 = $14,240.00 over or 809.09% higher than Engineer's Estimate Amount.

- Unit Prices for work Item No. 164-7045 DRILL SEED (TEMP)(WARM)
    - Engineer's Estimate – Qty. 2 AC X Unit Price $880.00 = $1,760.00
    - 2GS, LLC Unit Price $2,205.00 = $4,410.00
      Qty. 2 AC X Unit Price difference of $1,325.00 = $2,650.00 over or 150.57% higher than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $8,000.00 = $16,000.00
      Qty. 2 AC X Unit Price difference $7120.00 = $14,240.00 over or 809.09% higher than Engineer's Estimate Amount.

- Unit Prices for work Item No. 168-7001 VEGETATIVE WATERING
    - Engineer's Estimate – Qty. 115 TGL X Unit Price $20.90 = $2,403.50
    - 2GS, LLC Unit Price $93.00 = $10,695.00
      Qty. 115 TGL X Unit Price difference of $72.10 = $8,291.50 over or 344.98% higher than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $25.00 = $2,875.00
      Qty. 115 TGL X Unit Price difference $4.10 = $471.50 over or 19.62% higher than Engineer's Estimate Amount.

- Unit Prices for work Item No. 216-7001 PROOF ROLLING
    - Engineer's Estimate – Qty. 25 HR X Unit Price $51.70 = $1,292.50
    - 2GS, LLC Unit Price $65.00 = $1,625.00
      Qty. 25 HR X Unit Price difference of $13.30 = $332.50 over or 25.73% higher than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $300.00 = $7,500.00
      Qty. 25 HR X Unit Price difference $248.30 = $6,207.50 over or 480.27% higher than Engineer's Estimate Amount.

- Unit Prices for work Item No. 247-7259 FL BS (RDWY DEL)(TY A GR 1-2)(FNAL POS)
    - Engineer's Estimate – Qty. 1374 CY X Unit Price $96.80 = $133,003.20
    - 2GS, LLC Unit Price $210.00 = $288,540.00
      Qty. 1374 CY X Unit Price difference of $113.20 = $155,536.80 over or 116.94% higher than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $65.00 = $89,310.00
      Qty. 1374 CY X Unit Price difference $31.80 = $43,693.20 under or 32.85% lower than Engineer's Estimate Amount.

- Unit Prices for work Item No. 531-7003 CONC SIDEWALKS (6")
    - Engineer's Estimate – Qty. 3563 SY X Unit Price $82.50 = $293,947.50
    - 2GS, LLC Unit Price $72.00 = $256,536.00
      Qty. 3563 SY X Unit Price difference of $10.50 = $37,411.50 under or 12.73% lower than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $108.00 = $384,804.00
      Qty. 3563 SY X Unit Price difference $25.50 = $90,856.50 over or 30.91% higher than Engineer's Estimate Amount.

- Unit Prices for work Item No. 6099-7001 PEDESTRIAN ILLUMINATION ASSEMBLY
    - Engineer's Estimate – Qty. 25 EA X Unit Price $8,250.00 = $206,250.00
    - 2GS, LLC Unit Price $13,860.00 = $346,500.00
      Qty. 25 EA X Unit Price difference of $5,610.00 = $140,250.00 over or 68.00% higher than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $9,000.00 = $225,000.00
      Qty. 25 EA X Unit Price difference $750.00 = $18,750.50 over or 9.09% higher than Engineer's Estimate Amount.

Summary of Major Items contributing to Total Over Engineer's Estimate by Item Number as detailed in Schedule "D".

The Engineer's Estimate of $1,883,461.30 when compared 2GS, LLC dba Earthwork Enterprise bid amount of $1,539,579.07 there is a total difference of $343,882,23 under. The list shown are of major items' percentages above or below compared to the Engineer's Estimate for all responsive bidders.

- 2GS, LLC dba Earthwork Enterprise Over / Under when compared to Engineer's Estimate.

Item No. 110-7002 PREPARING ROW	$ 600,000.00	under	83.92%
Item No. 110-7001 EXCAV (ROADWAY)	$ 49,904.80	over	324.24%
Item No. 164-7045 DRILL SEED (PERM_RURAL_CLAY)	$ 3,070.00	over	174.43%
Item No. 164-7045 DRILL SEED (TEMP)(WARM)	$ 2,650.00	over	150.57%
Item No. 168-7001 VEGETATIVE WATERING	$ 8,291.50	over	344.98%
Item No. 216-7001 PROOF ROLLING	$ 332.50	over	25.73%
Item No. 247-7259 FL BS (RDWY DEL)(TY A GR 1-2)(FNAL POS)	$ 155,536.80	over	116.94%
Item No. 531-7003 CONC SIDEWALKS (6")	$ 37,411.50	under	12.73%
Item No. 6099-7001 PEDESTRIAN ILLUMINATION ASSEMBLY	$ 140,250.00	over	68.00%
TOTAL SUMMARY ITEMS OVER ENGINEER'S ESTIMATE	$ 360,035.60		
TOTAL SUMMARY ITEMS UNDER ENGINEERS ESTIMATE	$ 637,411.50		

- Artillery, LLC Over / Under when compared to Engineer's Estimate.

Item No. 110-7002 PREPARING ROW	$ 590,000.00	under	82.52%
Item No. 110-7001 EXCAV (ROADWAY)	$ 31,248.80	over	203.03%
Item No. 164-7045 DRILL SEED (PERM_RURAL_CLAY)	$ 14,240.00	over	809.09%
Item No. 164-7045 DRILL SEED (TEMP)(WARM)	$ 14,240.00	over	809.09%
Item No. 168-7001 VEGETATIVE WATERING	$ 471.50	over	19.62%
Item No. 216-7001 PROOF ROLLING	$ 6,207.50	over	480.27%
Item No. 247-7259 FL BS (RDWY DEL)(TY A GR 1-2)(FNAL POS)	$ 43,693.20	under	32.85%
Item No. 531-7003 CONC SIDEWALKS (6")	$ 90,856.50	over	30.91%
Item No. 6099-7001 PEDESTRIAN ILLUMINATION ASSEMBLY	$ 18,750.00	over	9.09%
TOTAL SUMMARY ITEMS OVER ENGINEER'S ESTIMATE	$ 176,014.30		
TOTAL SUMMARY ITEMS UNDER ENGINEERS ESTIMATE	$ 633,693.20		

Bid Analysis Considerations

Each Bidder's precent to total Bid Amount for each bid item was compared to Engineer's percent to total Estimate cost amount to assist in the determination of potential unbalanced bid items see details in Schedule "B". The examination/comparison of Bidder's unit prices and total bid amounts to the Engineer's Estimate were made in Schedule "C". The analysis performed related to both Schedules B and C did result in identifying a total of nine (9) items as shown in Schedule D titled Major Items.

Of the nine (9) significant items there were six (6) items PREP ROW, EXCAV (ROADWAY), DRILL SEEDING, VEGETATIVE WATERING, AND PROOF ROLLING, required closer review of the engineer's unit cost.

Bid Analysis Summary

As per the Bid Analysis, it has been determined that the bids are satisfactory and no "unbalance" in the bids were identified. It is recommended, based on the Bid Analysis, that the Low Bidder 2GS, LLC dba Earthwork Enterprise be awarded the contract.

Brownsville, Texas 78520

RE: Southmost Nature Trail Phase III Project
Letter to Award
CSJ# 0921-06-360 / City of Brownsville

Dear Mayor Cowen:

We have completed our review of the bid package and analysis that was included with the City of Brownsville (City) letter dated July 24, 2026, and we do concur with awarding the contract to 2GS LLC dba Earthworks Enterprise with their low bid amount of $1,539,579.07. The City may now award the contract and move forward with construction operations.

Ms. Yahaira Marroquin, out of the San Benito Area Office, will serve as our construction project manager and your point of contact from this point forward. Please work directly with her to ensure all requirements are met for you to receive the federal/state funding participation outlined in the Advance Funding Agreement. Ms. Marroquin can be contacted at (956)-399-5102 or Yahaira.Marroquin@txdot.gov. In addition, and as a reminder, the local government construction procedures that the City of Brownsville will need to follow can be found at http://www.txdot.gov/government/processes-procedures/lgp-toolkit.html.

If you have any questions, feel free to call me or our Design Support Supervisor, Agustin Ramirez, P.E. at (956) 702-6304.

Sincerely,

DocuSigned by:
Pedro R. Alvarez

Form 2 - Statement Of Conflicts Of Interest (If Any)

Conflict of Interest Disclosure Instructions

The Respondent must disclose any conflicts of interest related to the goods and/or services associated with this solicitation. A conflict-of-interest statement is required if any conflicts exist, along with a detailed plan for mitigating the conflict(s). The City reserves the sole discretion to determine whether a conflict disqualifies a firm and/or whether a conflict mitigation plan is acceptable.

If a conflict of interest exists, the Respondent must:

- Complete Form CIQ
- File the form with the City Secretary
- Include a copy of the completed Form CIQ with the proposal

If no conflict of interest exists, Form CIQ is not required. Regardless of whether a conflict exists, this Form 2 must be completed and signed.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Chapter 176, Texas Local Government Code, regarding conflict-of-interest disclosures.
2. The Respondent understands that a completed Texas Ethics Commission Form CIQ must be filed with the City Secretary's Office of the City of Brownsville, Texas, within seven (7) business days after the Respondent becomes aware of a conflict.
3. The Respondent acknowledges that the completed Form CIQ is a public record and will be made available by the City Secretary in accordance with state law.
4. The Respondent understands that failure to file a required Form CIQ is a violation of state law and may result in penalties under Texas Local Government Code §176.006 and possible disqualification from consideration for award.
5. The Respondent shall submit this acknowledgment form as part of its solicitation response and attach a copy of the completed TEC Form CIQ, if applicable.

City Secretary Contact Information

City of Brownsville – Office of the City Secretary
1001 East Elizabeth Street, Brownsville, Texas 78520
Email: citysecretary@brownsvilletx.gov
Phone: (956) 548-6000

Certification

By signing below, the Respondent certifies that they have reviewed and understand the requirements of Chapter 176, Texas Local Government Code and have determined whether a conflict of interest exists. The Respondent further certifies that, if a conflict of interest exists, a completed Conflict of Interest Questionnaire (Form CIQ) has been or will be filed with the City Secretary in accordance with state law and that a copy of the completed Form CIQ is included with this submission, if applicable. The Respondent affirms that all information provided is true and correct and that they are authorized to bind the entity.

CONFLICT OF INTEREST QUESTIONNAIRE

FORM CIQ

For vendor doing business with local governmental entity

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY
Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

[redacted]

2 N/A **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

[redacted]

Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

[redacted]

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☒ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☒ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

N/A

6 N/A Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

CONFLICT OF INTEREST QUESTIONNAIRE
For vendor doing business with local governmental entity

A complete copy of Chapter 176 of the Local Government Code may be found at http://www.statutes.legis.state.tx.us/Docs/LG/htm/LG.176.htm. For easy reference, below are some of the sections cited on this form.

Local Government Code § 176.001(1-a): "Business relationship" means a connection between two or more parties based on commercial activity of one of the parties. The term does not include a connection based on:

(A) a transaction that is subject to rate or fee regulation by a federal, state, or local governmental entity or an agency of a federal, state, or local governmental entity;

(B) a transaction conducted at a price and subject to terms available to the public; or

(C) a purchase or lease of goods or services from a person that is chartered by a state or federal agency and that is subject to regular examination by, and reporting to, that agency.

Local Government Code § 176.003(a)(2)(A) and (B):

(a) A local government officer shall file a conflicts disclosure statement with respect to a vendor if:

***

(2) the vendor:

(A) has an employment or other business relationship with the local government officer or a family member of the officer that results in the officer or family member receiving taxable income, other than investment income, that exceeds $2,500 during the 12-month period preceding the date that the officer becomes aware that

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor;

(B) has given to the local government officer or a family member of the officer one or more gifts that have an aggregate value of more than $100 in the 12-month period preceding the date the officer becomes aware that:

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor.

Local Government Code § 176.006(a) and (a-1)

(a) A vendor shall file a completed conflict of interest questionnaire if the vendor has a business relationship with a local governmental entity and:

(1) has an employment or other business relationship with a local government officer of that local governmental entity, or a family member of the officer, described by Section 176.003(a)(2)(A);

(2) has given a local government officer of that local governmental entity, or a family member of the officer, one or more gifts with the aggregate value specified by Section 176.003(a)(2)(B), excluding any gift described by Section 176.003(a-1); or

(3) has a family relationship with a local government officer of that local governmental entity.

(a-1) The completed conflict of interest questionnaire must be filed with the appropriate records administrator not later than the seventh business day after the later of:

(1) the date that the vendor:

(A) begins discussions or negotiations to enter into a contract with the local governmental entity; or

(B) submits to the local governmental entity an application, response to a request for proposals or bids, correspondence, or another writing related to a potential contract with the local governmental entity; or

(2) the date the vendor becomes aware:

(A) of an employment or other business relationship with a local government officer, or a family member of the officer, described by Subsection (a);

(B) that the vendor has given one or more gifts described by Subsection (a); or

(C) of a family relationship with a local government officer.

Form 3 – Texas Ethics Commission Certificate of Interested Parties (Form 1295)

Purpose

This form serves as an acknowledgment of the statutory requirement for certain vendors to file a Certificate of Interested Parties (Form 1295) with the Texas Ethics Commission (TEC) before a contract can be executed with the City of Brownsville.

The requirement applies to any contract that:

- Must be approved by the City Commission or executed by a City official before becoming effective, or
- Otherwise meets the criteria established by the Texas Ethics Commission under Texas Government Code §2252.908 and 1 Texas Administrative Code Chapter 46.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46.
2. When applicable, the Respondent shall complete and file Form 1295 electronically at https://www.ethics.state.tx.us/filinginfo/1295/ to obtain a Certificate Number issued by the TEC.
3. The Respondent shall print and provide a PDF copy to the City of Brownsville Procurement Department **after** notice of intent to award but prior to contract execution.
4. The Respondent understands that the City may not execute a contract until a completed and verified Form 1295 is received.
5. The Respondent acknowledges that the Certificate of Interested Parties will be made publicly accessible on the TEC's website in accordance with state law.

Certification

By signing below, the undersigned Respondent certifies that they have read and understood the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46 and that a completed Form 1295 will be filed and provided to the City prior to contract execution, if applicable.

The Respondent further understands that the Form 1295 itself must be signed in accordance with TEC requirements.

A. AGREEMENT

This Agreement is made by and between:

the Owner ("Owner" or "City"): The City of Brownsville
1001 E. Elizabeth St., P.O. Box 911
Brownsville, Texas 78520

and the Contractor ("Contractor"): 2GS LLC dba Earthworks Enterprise
7100 W Expressway 83
Palmview, Tx 78572

for the following Project ("Project"): IFB #: 141-26-BMT-IFB
755 International Blvd.
Brownsville, Texas 78520

Each individually referred to as a "Party" and collectively referred to as the "Parties". Owner and Contractor, in consideration of the covenants contained herein, and for the mutual benefits to be obtained hereby, the parties hereto agree as follows:

B. CONTRACT DOCUMENTS

The Contractor shall complete the Work described in the Contract Documents for the project. The Contract Documents consist of the following Exhibits:

A. This Agreement;
B. Notice of Award;
C. Invitation For Bids (IFB) # 141-26-BMT-IFB;
D. Addenda, as indicated in the IFB;
E. Original Bid submittal;
F. Official Bid Tabulation, Bid Analysis & Recommendation Letter;
G. Drawings & Specifications;
H. General Conditions & Supplementary Conditions;
I. Special Conditions;
J. Certificates of Insurance;
K. Release of Liens;
L. Payment Bond; *(Upon City Commission Approval)*
M. Performance Bond; *(Upon City Commission Approval)*
N. Maintenance Bond; *(Upon City Commission Approval)*
O. TxDot Standard Specifications and Special Provisions
P. State of Texas Child Support Business Ownership Form
Q. TxDot Concurrence Letter Award
R. Confirmation that vendor is pre-qualified thought TxDot
S. Form 2 - Statement of Conflict of Interest

T. Form 3 - Texas Ethics Commission Certificate of Interested Parties (1295)
U. Verification of Non-Debarment through System for Award Management (SAM.GOV)
V. Davis-Bacon Act WD #: **TX20260051**
W. Written Change Orders issued after execution of this Agreement,

which are attached hereto and incorporated herein, and made a part of this Agreement for all purposes. The Contract Documents represent the entire and integrated agreement between the Owner and the Contractor and supersede all prior negotiations, representations, or agreements, either oral or written. This Agreement may be amended only by written instrument signed by both the Owner and the Contractor. In the event of an inconsistency or conflict in any of the provisions of the Contract Documents, then the inconsistency or conflict shall be resolved by giving precedence first to this Agreement then to the Contract Documents in the order in which they are listed above.

C. WORK

Contractor shall complete all Work as specified or indicated in the Contract Documents for the Project identified herein.

D. PROJECT

The Project is the total construction for which the Work performed under the Contract Documents may be the whole or a part and which may include construction by the Owner and by Separate Contractors, and is generally defined as IFB #: 141-26-BMT-IFB

E. CONTRACT PRICE; PAYMENT TERMS

Owner agrees to pay Contractor for performance of the Work in accordance with the Contract Documents the guaranteed maximum price of **One Million Five Hundred Thirty-Nine Thousand Five Hundred Seventy-Nine Dollars and Seven Cents ($1,539,579.07)** (hereinafter "Guaranteed Maximum Price" or "GMP"). Guaranteed Maximum Price includes all costs incurred by Contractor, including but not limited to Costs of Work (including among others, labor, equipment, materials, fees, inspections, and permits), construction contingency amount, and Contractor's overhead, all bond financing, profit, price escalation and market price variations. Nothing contained in this Agreement shall require the Owner to pay Contractor an aggregate amount that exceeds the Guaranteed Maximum Price or to make any payment if, in the Owner's belief, the cost to complete the Work would exceed the Guaranteed Maximum Price. Change orders may be approved in writing by Owner for increased costs needed for refinement, development and completion of the Project. However, the maximum allowable amount of change orders payable to the Project shall not exceed twenty-five percent (25%) of the Guaranteed Maximum Price for the Project.

The Owner shall pay within ***thirty (30) days*** for completed work in monthly draws, less 10% retainage, upon receipt of an acceptable invoice. Invoices shall be in standard form, Application and Certificate for Payment, and shall be accompanied by signed Conditional Release of Liens forms from each applicable subcontractor and supplier.

Retainage shall be paid within in thirty (30) days of receipt of an acceptable Final Invoice. The final Application for Payment shall be accompanied by signed Final Release and Waiver of Liens forms from all subcontractors and suppliers.

F. **CONTRACT TIME**

The Contract Time will commence to run on the day indicated in the Notice to Proceed. A Notice to Proceed may be given at any time within 14 days after the Effective Date of the Agreement, and shall substantially complete the Work within 98 consecutive calendar days as identified in the Bid package.

G. **LIQUIDATED DAMAGES**

Contractor recognizes that time is of the essence for completion of the Work, and to achieve Final Acceptance of the Work, and City will suffer financial loss if the Work is not completed within the time(s) specified herein. The Contractor also recognizes the delays, expense and difficulties involved in proving in a legal proceeding, the actual loss suffered by the City if the Work is not completed on time. Accordingly, instead of requiring any such proof, Contractor agrees that as liquidated damages for delay (but not as a penalty), Contractor shall pay City **One Thousand Dollars ($1000.00)** for each day that expires after the time specified in Paragraph F above, for Final Acceptance until the City issues the Final Letter of Acceptance.

H. **INSPECTION AND FINAL ACCEPTANCE**

The City's inspection and acceptance of contractual compliance will be accomplished by an engineering Inspector of the engineering Department. The City reserves the right to reject unsatisfactory work within a 24-hour period. Contractors have 48 hours to correct unacceptable work. (To be corrected during regular working days, holidays or weekends.)

Prior to beginning work, the Contractor shall provide to the City a Schedule of Values related to the Work, which shall be used for purposes of periodic payments.

The Contract Sum shall include all materials, supplies, tools, equipment, permits, perimeter fencing, portable restrooms, construction debris container(s), supervision and labor necessary for the proper prosecution and completion of the Work.

The Contractor warrants that the completed Project shall be adequate for the purposes intended.

I. **INDEMNIFICATION**

(a) CONTRACTOR COVENANTS AND AGREES TO FULLY INDEMNIFY, DEFEND AND HOLD HARMLESS, THE CITY AND THE ELECTED OFFICIALS, EMPLOYEES, OFFICERS, DIRECTORS, VOLUNTEERS AND REPRESENTATIVES OF THE CITY, INDIVIDUALLY AND COLLECTIVELY, FROM AND AGAINST ANY AND ALL COSTS, CLAIMS, LIENS, DAMAGES, LOSSES, EXPENSES, FEES, FINES, PENALTIES, PROCEEDINGS, ACTIONS, DEMANDS, CAUSES OF ACTION,

LIABILITY AND SUITS OF ANY KIND AND NATURE, INCLUDING BUT NOT LIMITED TO, PERSONAL OR BODILY INJURY, DEATH AND PROPERTY DAMAGE, MADE UPON THE CITY DIRECTLY OR INDIRECTLY ARISING OUT OF, RESULTING FROM OR RELATED TO CONTRACTOR'S ACTIVITIES UNDER THIS AGREEMENT, INCLUDING ANY ACTS OR OMISSIONS OF CONTRACTOR, ANY AGENT, OFFICER, DIRECTOR, REPRESENTATIVE, EMPLOYEE, CONSULTANT OR SUBCONTRACTOR OF CONTRACTOR, AND THEIR RESPECTIVE OFFICERS, AGENTS EMPLOYEES, DIRECTORS AND REPRESENTATIVES WHILE IN THE EXERCISE OF THE RIGHTS OR PERFORMANCE OF THE DUTIES UNDER THIS AGREEMENT. THIS INDEMNIFICATION PROVISION IS SPECIFICALLY INTENDED TO OPERATE AND BE EFFECTIVE EVEN IF IT IS ALLEGED OR PROVEN THAT ALL OR SOME OF THE DAMAGES BEING SOUGHT WERE CAUSED, IN WHOLE OR IN PART, BY ANY ACT, OMISSION OR NEGLIGENCE OF THE CITY. THIS INDEMNITY PROVISION IS INTENDED TO INCLUDE, WITHOUT LIMITATION, INDEMNITY FOR COSTS, EXPENSES AND LEGAL FEES INCURRED BY THE CITY IN DEFENDING AGAINST SUCH CLAIMS AND CAUSES OF ACTIONS. IN THE EVENT CONTRACTOR AND CITY ARE FOUND JOINTLY LIABLE BY A COURT OF COMPETENT JURISDICTION, LIABILITY SHALL BE APPORTIONED COMPARATIVELY IN ACCORDANCE WITH THE LAWS FOR THE STATE OF TEXAS, WITHOUT, HOWEVER, WAIVING ANY GOVERNMENTAL IMMUNITY AVAILABLE TO THE CITY UNDER TEXAS LAW AND WITHOUT WAIVING ANY DEFENSES OF THE PARTIES UNDER TEXAS LAW.

(b) THE PROVISIONS OF THIS INDEMNITY ARE SOLELY FOR THE BENEFIT OF THE PARTIES HERETO AND NOT INTENDED TO CREATE OR GRANT ANY RIGHTS, CONTRACTUAL OR OTHERWISE, TO ANY OTHER PERSON OR ENTITY. CONTRACTOR SHALL ADVISE THE CITY IN WRITING WITHIN 24 HOURS OF ANY CLAIM OR DEMAND AGAINST THE CITY OR CONTRACTOR KNOWN TO CONTRACTOR RELATED TO OR ARISING OUT OF CONTRACTOR'S ACTIVITIES UNDER THIS AGREEMENT, AND SHALL SEE TO THE INVESTIGATION AND DEFENSE OF SUCH CLAIM OR DEMAND AT CONTRACTOR'S COST. THE CITY SHALL HAVE THE RIGHT, AT ITS OPTION AND AT ITS OWN EXPENSE, TO PARTICIPATE IN SUCH DEFENSE WITHOUT RELIEVING CONTRACTOR OF ANY OF ITS OBLIGATIONS UNDER THIS PARAGRAPH.

(c) This Indemnification provision shall survive termination or expiration of the Agreement.

J. **INDEPENDENT CONTRACTOR; PERSONNEL**

(a) Contractor enters into this Agreement as, and shall continue to be, an independent contractor. All Services shall be performed only by Contractor and Contractor's employees. Specifically, Contractor must perform within its own organization, work equivalent to at least thirty-five (35) percent of the Contract Price, unless otherwise approved by the City. Subject to and in accordance with the conditions and provisions of this Agreement, Contractor shall have the exclusive right to control the details of its operations and activities and be solely responsible for the acts and omissions of its officers, agents, servants, employees, consultants and subcontractors. Under no circumstances shall Contractor, or any of Contractor's employees, look to City as his/her employer,

or as a partner, agent or principal. Neither Contractor, nor any of Contractor's employees, shall be entitled to any benefits accorded to City's employees, including without limitation worker's compensation, disability insurance, vacation or sick pay. Contractor shall be responsible for providing, at Contractor's expense, and in Contractor's name, unemployment, disability, worker's compensation and other insurance, as well as any and all licenses and permits usual or necessary for conducting the Services. Contractor shall be responsible for paying all applicable local, state and federal taxes.

(b) Contractor represents and warrants to City that its employees performing Work hereunder will have sufficient expertise, training, licensure (if applicable) and experience to accomplish the Work for the Project.

(c) Contractor shall not subcontract any portion of the work required by this Agreement, except as provided in the Contract Documents. City may terminate this Agreement, effective immediately, if there is any assignment, or attempted assignment, transfer, or encumbrance, by Contractor of this Agreement or any right or interest herein without City's written consent. In the event Contractor engages any subcontractor in the performance of this Agreement, Contractor shall ensure that all of Contractor's subcontractors perform in accordance with the terms and conditions of this Agreement. Contractor shall be fully responsible for all of Contractor's subcontractors' performance, and liable for any of Contractor's subcontractors' non-performance and all of Contractor's subcontractors' acts and omissions.

K. INSURANCE

(a) The Contractor shall furnish proof of insurance requirements as indicated below. The coverage is to remain in force at all times during the contract period. The following minimum insurance coverage is required. The commercial general liability insurance policy shall name the City of Brownsville, Texas, as an "additional insured." This MUST be written in the description section of the insurance certificate, even if there is a check-off box on the insurance certificate. Any costs for adding the City as "additional insured" shall be at the Contractor's expense.

(b) The City of Brownsville shall be given notice ten (10) days prior to cancellation or modification of any required insurance. The insurance provided shall be endorsed or amended to comply with this notice requirement. In the event that the insurer is unable to accommodate, it shall be the responsibility of the Contractor to provide the proper notice. Such notification will be in writing by registered mail, return receipt requested and addressed to the Purchasing & Contract Services Department located at City Hall, 1001 E. Elizabeth St. 1st Floor Suite 101.

(c) The Contractor's insurance must be provided by an A.M. Best's "A-"rated or better insurance company authorized to issue insurance policies in the State of Texas, subject to approval by the City of Brownsville Department of Safety and Risk Management. Any exclusions or provisions in the insurance maintained by the Contractor that excludes coverage for work contemplated in this solicitation shall be deemed unacceptable, and shall be considered breach of contract.

i. Workers' Compensation and Employers' Liability Insurance

Contractor shall purchase and maintain such insurance coverage with limits consistent with statutory benefits outlined in the Texas Workers' Compensation Act (Texas Labor Code, Ch. 406, as amended), and minimum limits for Employers' Liability as is appropriate for the Work being performed and as will provide protection from claims set forth below which may arise out of or

result from Contractor's performance of the Work and Contractor's other obligations under the Contract Documents, whether it is to be performed by Contractor, any Subcontractor or Supplier, or by anyone directly or indirectly employed by any of them to perform any of the Work, or by anyone for whose acts any of them may be liable:

1. claims under workers' compensation, disability benefits, and other similar employee benefit acts;

2. claims for damages because of bodily injury, occupational sickness or disease, or death of I Contractor' s employees. Any firm performing work for or on behalf of the City of Brownsville must provide Workers' Compensation insurance.

ii. General Liability Insurance

Covering premises-operations, products-completed operations, independent contractors and contractual liability.

Limits: Combined single limit bodily injury/property damage $1,000,000.

This coverage must include, but not limited to:

1. Coverage for the liability assumed by the Contractor under the indemnity provision of the contract.
2. Coverage for Premises/Operations
3. Products/Completed Operations
4. Broad Form Contractual Liability
5. Independent Contractors

iii. Commercial Automobile Liability Insurance

Covering all owned, hired and non-owned automobile equipment.

Limits:	Bodily injury	$250,000 each person, $500,000 each occurrence
	Property damage	$100,000 each occurrence

This insurance shall be kept in force until the work under this Agreement has been completed and accepted by the City. The City shall be listed as Additional Insured under the policy.

L. **TERMINATION**

(a) *Termination for Cause.* The aggrieved party may terminate this Agreement for cause if the party in breach has not corrected the breach within ten (10) days after written notice from the aggrieved party identifying the breach. The City Manager may also terminate this Agreement upon such notice as the City Manager deems appropriate under the circumstances in the event the City Manager determines that termination is necessary to protect the public health or safety. The parties agree that if the City erroneously, improperly or unjustifiably terminates for cause, such termination shall be deemed a termination for convenience, which shall be effective thirty (30) days after such notice of termination for cause is provided.

This Agreement may be terminated for cause for reasons including, but not limited to, Contractor's repeated (whether negligent or intentional) submission for payment of false or incorrect bills or

invoices, failure to perform the Work to the City's satisfaction; or failure to continuously perform the work in a manner calculated to meet or accomplish the objectives as set forth in this Agreement.

(b) *Termination for Convenience.* The City reserves the right, in its best interest as determined by the City, to cancel this Agreement for convenience by giving written notice to the Contractor at least thirty (30) days prior to the effective date of such cancellation. In the event this Agreement is terminated for convenience, Contractor shall be paid for any services performed to the City's satisfaction pursuant to the Agreement through the termination date specified in the written notice of termination. Contractor acknowledges and agrees that he/she/it has received good, valuable and sufficient consideration from City, the receipt and adequacy of which are hereby acknowledged by Contractor, for City's right to terminate this Agreement for convenience.

(c) *Cancellation for Non-appropriated Funds.* The City reserves the right, in its best interest as determined by the City, to cancel this Agreement for non-appropriated funds or unavailability of funds by giving written notice to the Contractor at least thirty (30) days prior to the effective date of such cancellation. The obligation of the City for payment to a Contractor is limited to the availability of funds appropriated in a current fiscal period, and continuation of the contract into a subsequent fiscal period is subject to appropriation of funds, unless otherwise provided by law.

(d) *Force Majeure.* The City and Contractor will be excused from the performance of their respective obligations under this Agreement when and to the extent that their performance is delayed or prevented by any circumstances beyond their control including, fire, flood, explosion, strikes or other labor disputes, act of God or public emergency, war, riot, civil commotion, malicious damage, act or omission of any governmental authority, delay or failure or shortage of any type of transportation, equipment, or service from a public utility needed for their performance, provided that:

i. The non performing party gives the other party prompt written notice describing the particulars of the Force Majeure including, but not limited to, the nature of the occurrence and its expected duration, and continues to furnish timely reports with respect thereto during the period of the Force Majeure;

ii. The excuse of performance is of no greater scope and of no longer duration than is reasonably necessary when considered in light of the Force Majeure;

iii. No obligations of either party that arose before the Force Majeure causing the excuse of performance are excused as a result of the Force Majeure; and

iv. The non-performing party uses its best efforts to remedy its inability to perform.

v. Notwithstanding the above, performance shall not be excused under this Section for a period in excess of sixty (60) days, provided that in extenuating circumstances, the City may excuse performance for a longer term. Economic hardship of the Contractor will not constitute Force Majeure. The term of the agreement shall be extended by a period equal to that during which either party's performance is suspended under this Section.

M. WARRANTIES

The Contractor warrants to the Owner that materials and equipment furnished under the Agreement will be of good quality and new unless the Contract Documents require or permit otherwise. The

Contractor further warrants that the Work will conform to the requirements of the Contract Documents and will be free from defects, except for those inherent in the quality of the Work the Contract Documents require or permit. Work, materials, or equipment not conforming to these requirements may be considered defective. The Contractor's warranty excludes remedy for damage or defect caused by abuse, alterations to the Work not executed by the Contractor, improper or insufficient maintenance, improper operation, or normal wear and tear and normal usage. If required by the Architect, the Contractor shall furnish satisfactory evidence as to the kind and quality of materials and equipment.

N. MISCELLANEOUS PROVISIONS

(a) *Successors and Assigns.* All of the provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto, and their partners, assigns, successors, subcontractors, executors, heirs, officers, agents, employees, representatives, and administrators.

(b) *Choice of Law.* The laws of the state of Texas shall govern the validity of this Agreement, the construction of its terms and the interpretation of the rights and duties of the parties hereto.

(c) *No Waiver of Governmental Immunity.* NOTHING IN THIS AGREEMENT SHALL BE CONSTRUED TO WAIVE CITY'S GOVERNMENTAL IMMUNITY FROM LAWSUIT, WHICH IMMUNITY IS EXPRESSLY RETAINED TO THE EXTENT IT IS NOT CLEARLY AND UNAMBIGUOUSLY WAIVED BY STATE LAW.

(d) *Assignment.* Contractor shall not assign any of Contractor's rights under this Agreement, or delegate the performance of any of Contractor's duties hereunder, without the prior written consent of the City.

(e) *Modification or Amendment.* No amendment, change or modification of this Agreement shall be valid unless in writing signed by the parties hereto.

(f) *Venue.* This Agreement and any and all matters arising directly or indirectly herefrom shall be governed by and construed and enforced in accordance with the Laws of the State of Texas, with the Federal and State Courts of **Cameron County**, Texas having jurisdiction. If at any time there is a dispute between or among the Parties with respect to any matter arising directly or indirectly from this Agreement (an "Agreement Matter"), the Parties agree that, prior to seeking judicial remedy, they will engage in face-to-face negotiations in an attempt to resolve such dispute and shall, upon failing to negotiate a mutually-satisfactory resolution, choose a mutually agreeable neutral third party to mediate such dispute. Mediation shall be non-binding and shall be confidential.

(g) *Execution and Consideration.* This Agreement is executed by the parties hereto without coercion or duress for any substantial consideration, the sufficiency of which is forever confessed

(h) *Notices.* Any and all notices, demands, or other communications required or desired to be given hereunder by any party shall be in writing and shall be validly given or made to another party if personally served, or if deposited in the United States mail, certified or registered, postage prepaid, return receipt requested. If such notice or demand is served personally, notice shall be deemed constructively made at the time of such personal service. If such notice, demand or other communication is given by mail, such notice shall be conclusively deemed given five days after deposit thereof in the United States mail addressed to the party to whom such notice, demand or other communication is to be given as follows:

(i)

If to Contractor:	2GS LLC dba Earthworks Enterprise Attn: Humberto Garcia Jr. 7100 W Expressway 83 Palmview, Tx 78572
If to City:	City of Brownsville Attn: City Manager 1001 E Elizabeth St. Brownsville, TX 78520
With Copy to:	City of Brownsville Attn: City Attorney 1001 E Elizabeth St. Brownsville, TX 78520

Any party hereto may change its address for purposes of this paragraph by written notice given in the manner provided above.

(j) *Cumulative Remedies*. All rights and remedies of the Parties under this Agreement shall be cumulative, and none shall exclude any other right or remedy provided by law, or by any other provisions of the Agreement. All such rights and remedies may be exercised and enforced concurrently and whenever, and as often, as occasion for their exercise arises.

(k) *Waiver of Breach*. A waiver by either Party of a breach of the Agreement by the other Party does not constitute a continuing waiver or a waiver of any subsequent breach of the Agreement.

(l) *No Third Party Beneficiaries*. Nothing in this Agreement shall be construed to create any right in any third party not a signatory to this Agreement, and the Parties do not intend to create any third party beneficiaries by entering into this Agreement.

(m) *Entire Understanding.* This document and any exhibit attached hereto, constitute the entire understanding and agreement of the parties, and any and all prior agreements, understandings, and representations are hereby terminated and canceled in their entirety and are of no further force and effect.

(n) *Counterparts*. This Agreement may be executed in a number of identical counterparts, each of which shall be deemed an original for all purposes. A facsimile signature will also be deemed to constitute an original if properly executed.

(o) *Miscellaneous Drafting Provisions*. This Agreement shall be deemed drafted equally by the Parties hereto. The language of all parts of this Agreement shall be construed as a whole according to its fair meaning, and any presumption or principle that the language herein is to be construed against any Party shall not apply. Headings in this Agreement are for the convenience of the Parties and

are not intended to be used in construing this document.

(p) *Authority to Execute*. The individuals executing this Agreement on behalf of the respective Parties below represent to each other and to others that all appropriate and necessary action has been taken to authorize the individual who is executing this Agreement to do so for and on behalf of the Party for which his or her signature appears, that there are no other parties or entities required to execute this Agreement in order for the same to be an authorized and binding agreement on the Party for whom the individual is signing this Agreement and that each individual affixing his or her signature hereto is authorized to do so, and such authorization is valid and effective on the date hereof.

(q) *Savings/Severability*. In case any one or more of the provisions contained in this Agreement shall for any reason be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other provision hereof, and this Agreement shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

(r) *Prohibition On Contracts With Companies Boycotting Israel*. Contractor acknowledges that in accordance with Chapter 2270 of the Texas Government Code, the City is prohibited from entering into a contract with a company for goods or services unless the contract contains a written verification from the company that it: (1) does not boycott Israel; and (2) will not boycott Israel during the term of the contract.

The terms " boycott Israel" and" company" shall have the meanings ascribed to those terms in Section 808.001 of the Texas Government Code. ***By signing this* Agreement, *Contractor certifies that Contractor' s signature provides written verification to the City that Contractor: (1) does not boycott Israel, and (2) will not boycott Israel during the term of the Agreement.***

(s) Immigration Nationality Act. As required by law, Contractor shall verify the identify and employment eligibility of its employees who perform work under this Agreement, including completing the Employment Eligibility Verification Form (I-9). Upon request by the City, Contractor shall provide City with copies of all I-9 forms and supporting eligibility documentation for each employee who performs work under this Agreement. Contractor shall adhere to all Federal and State laws as well as establish appropriate procedures and controls so that no services will be performed by any Contractor employee who is not legally eligible to perform such services. **CONTRACTOR SHALL INDEMNIFY CITY AND HOLD CITY HARMLESS FROM ANY PENALTIES, LIABILITIES, OR LOSSES DUE TO VIOLATIONS OF THIS PARAGRAPH BY CONTRACTOR, CONTRACTOR'S EMPLOYEES, SUBCONTRACTORS, AGENTS, OR LICENSEES**. City, upon written notice to Contractor, shall have the right to immediately terminate this Agreement for violation of this provision by Contractor.

(t) *Representations*. Each signatory represents this Agreement has been read by the Party for which this Agreement is executed and that such Party has had an opportunity to confer with its legal counsel.

IN WITNESS WHEREOF the undersigned have executed this Agreement as of the day and year first written above.

NO OFFICIAL, EMPLOYEE, AGENT, OR REPRESENTATIVE OF THE OWNER HAS ANY AUTHORITY, EITHER EXPRESSED OR IMPLIED, TO AMEND THIS AGREEMENT, EXCEPT SUCH EXPRESS AUTHORITY AS MAY BE GRANTED BY THE CITY COMMISION OF THE CITY OF BROWNSVILLE.

NOTIFICATION OF INTENT TO AWARD

To:	2GS LLC dba Earthworks Enterprise 7100 W Expressway 83 Palmview, Tx 78572
Date:	August 5, 2026
Attn:	**Humberto Garcia Jr.**
Project Title	Southmost Nature Trail Phase III (SNT III)
Project Number	141-26-BMT-IFB

Dear Mr. Garcia,

On behalf of the City of Brownsville, I am pleased to announce that your company, 2GS LLC dba Earthworks Enterprise, will be submitted for approval to City Commission for the above referenced project on August 18, 2026.

This Notice of Intent to Award is subject to execution of a written contract and, as a result, this Notice does NOT constitute the formation of a contract between the City of Brownsville and 2GS LLC dba Earthworks Enterprise. 2GS LLC dba Earthworks Enterprise shall not acquire any legal or equitable rights relative to the contract services until a contract containing terms and conditions acceptable to the City of Brownsville is executed.

The City of Brownsville further reserves the right to cancel this Notice of Intent to Award at any time, with or without cause, prior to the execution of a written contract.

Congratulations and we look forward to working with your company on this project.

Thank you,

Damian Espinoza

ADDENDUM #1

Invitation For Bids For: Southmost Nature Trail Phase III

IFB #: 141-26-BMT-IFB

ADDENDUM NOTICE
This Addendum modifies the original solicitation documents. Respondents are responsible for reviewing all changes, clarifications, and revisions contained herein.

ACTION REQUIRED:
Addendum acknowledgment shall be completed in Form 1 – Proposal Acknowledgment & Authorized Contact.

Separate signatures, email confirmations, or individual acknowledgments for each addendum are not required unless explicitly stated in this Addendum.

CONTACT INFORMATION:

Alondra Palacios
City of Brownsville – Procurement Department
City Hall 1001 E. Elizabeth St. 1ST FLOOR Suite No. 101 Brownsville, Texas 78520
Phone: (956) 548-6087
Email: purchasing@brownsvilletx.gov

Clarifications/Additional Information/Changes to the Original Solicitation Package:

- **Answers to the questions – Attachment "A"**

Public Q&A

Cost Range?

Vendor, Apr 21, 2026 10:28 AM CDT, Not Public - Pending

Is there an estimated cost range?

- As stated in Section 1.9 of the solicitation package, the City of Brownsville will not be disclosing budget information for this project.

Pre-bid meeting attendees list

Vendor, Apr 30, 2026 9:53 AM CDT, Not Public - Pending

Would you please post the pre-bid meeting attendees list?

1. Summary

Form 1 – Proposal Acknowledgment & Authorized Contact

Purpose

This form officially acknowledges the Respondent's intention to submit a response to this solicitation. It also identifies the authorized contact who is empowered to act on behalf of the Respondent and will serve as the primary point of contact throughout the project. By submitting this form, the Respondent acknowledges and accepts all terms, conditions, and requirements stated in the solicitation.

Solicitation No. 141-26-BMT-IFB

Respondent Information

Legal Entity Name: 2GS LLC dba Earthworks Enterprise

Primary Contact Name: Humberto Garcia Jr.

Title: Member

Telephone: (956)424-3414 Email: Beto@2gsllc.com

Acknowledgment of Solicitation Requirements

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has examined the solicitation documents, including all addenda issued, and is familiar with all conditions affecting the response.
2. The Respondent understands that submission of this acknowledgment constitutes a binding offer subject to the terms, conditions, and validity period stated in the solicitation package issued by the City of Brownsville.
3. The Respondent certifies that they possess full authority to bind the entity and to enter into an agreement with the City of Brownsville if selected.
4. The Respondent acknowledges that failure to submit this completed form or to sign below may result in rejection of the response as nonresponsive.
5. The Respondent acknowledges receipt of all addenda issued and confirms that all changes, clarifications, and revisions have been incorporated into this submission.

☐ No Addenda Issued Out

☐ Addendum No. 1 Date: 5/11/26

☐ Addendum No. ____ Date: _____

☐ Addendum No. ____ Date: _____

☐ Addendum No. ____ Date: _____

☐ Addendum No. ____ Date: _____

☐ Addendum No. ____ Date: _____

(Attach additional sheet if necessary)

Note: This acknowledgment applies to all addenda issued, regardless of whether each addendum is individually listed above.

Certification

By signing below, the undersigned Respondent certifies that all statements made herein are true and correct and that they are duly authorized to sign this form and bind the Respondent to its contents.

Exhibit "E"

BASE BID (SOUTHMOST NATURE TRAIL PHASE III)

Note: The blank spaces for each item as required in the proposal shall be fill in by writing in ink except as provide below. The bidder shall submit a unit price for each item for which a bid is requested (including a zero if appropriate), except in the case of an alternate. In such case, prices must be submitted for the base bid or with the items of one or more of the alternates. A bid item left blank, except in the case of an alternate item, will be considered an incomplete bid.

Re: City of Brownsville Southmost Nature Trail Phase III Project Letter of Recommendation/Bid Analysis.
Solicitation Number 141-26-BMT-IFB CSJ:0921-06-360

Dear Mr. Saenz,

City of Brownsville (City) received three (3) bids for the Southmost Nature Trail Phase III project (CSJ 0921-06-360): Anahuac Infrastructure LLC, 2GS LLC dba Earthworks Enterprise, and Artillery LLC. The City has diligently evaluated the submissions for the referenced project and conducted a comprehensive review of all documentation. Subsequently, we collaborated with our engineering consultant, RRP Consulting Engineers, LLC, for a thorough bid analysis.

Based on the City's Invitation to Bid Section 3: Bid Submission Requirements, Anahuac Infrastructure, LLC was determined to be nonresponsive as they did not provide confirmation of TxDOT Confidential Bidder Questionnaire certification. Otherwise, as per the Bid Analysis, it has been determined that the bids are staisfactory and no "unbalance" in te bids were identified.

As stated in the attached Engineer's Letter of Recommendation, it is our recommendation to award the contract to the lowest bidder, 2BS LLC dba Earthworks Enterprise.

If you should have any questions or comments, feel free to contact me.

Respectfully yours,

J. Joel Garza Jr.
City of Brownsville

Re: City of Brownsville Southmost Nature Trail Phase III Project
Letter of Recommendation/Bid Analysis. Solicitation Number 141-26-BMT-IFB

Dear Mrs. Garcia,

RRP Consulting Engineer's LLC has reviewed the bid information provided by three (3) bidders Anahuac Infrastructure LLC, 2GS LLC dba Earthworks Enterprise, and Artillery LLC for the Southmost Nature Trail Phase III Project. During tabulations of bids RRP did encounter differences related to rounding of unit prices to Anahuac Infrastructure, LLC for a total of $14.02 adjustment see Temp Sedmt Cont Fence Items and BIODEG Erosn Cont Logs 506 and 2GS, LLC dba Earthworks Enterprise total of $29.42 adjustment to Item 666-7417, see adjustment details in Schedule "A" attached to Bid Analysis.

Based on the bid tabulation and the findings of Anahuac Infrastructure, LLC as Nonresponsive, RRP Consulting Engineer's LLC did prepare a Bid Analysis with the two (2) remaining responsive bidders 2GS LLC dba Earthworks Enterprise tabulated bid of $1,539,579.07 is the lowest bidder, and Artillery, LLC as the second lowest bidder at $1,621,198.00. The 2GS, LLC dba Earthworks Enterprise bid of $1,539,579.07 is $81,618.93 or 5.30% under Artillery, LLC bid and $343,882.23 or 18.26% under the Engineer's Estimate of $1,883,461.30. We have attached Bid Analysis with respect to the Engineer's Estimate for your reference (is labeled Attachment 1).

We have reviewed the bid forms, bid bond, and other required bid documents as shown in the attached Bid Award Checklist (See Attachment 2). Based on the Bid Analysis it is our recommendation to award the contract to the lowest bidder, **2GS LLC dba Earthworks Enterprise.**

If you have any questions/comments or concerns, please contact me.

Respectfully Yours,

Abel Marroquin III, P.E.
Project Manager

Engineer's Bid Analysis Report

And Tabulation Schedules

CITY OF BROWNSVILLE

SOUTHMOST NATURE TRAIL PHASE III

BID ANALYSIS – BID NO: 141-26-BMT-IFB CSJ NO: 0921-06-360

Schedule "A" – Overall Bid Tabulation all Bidders with Bid Amounts of each Bidder compared to determine Differences and Percentages.

City of Brownsville (City) received Three (3) bids for the Southmost Nature Trail Phase III project, Anahuac Infrastructure, LLC, 2GS, LLC dba Earthworks Enterprise, and Artillery, LLC.

Based on the City of Brownsville's Invitation to Bid Section 3: Bid Submission Requirements, Anahuac Infrastructure, LLC was determined to be **NONRESPONSIVE** as they did not provide confirmation of TxDOT Confidential Bidder Questionnaire certification.

Schedule "A-1" – Overall Bid Tabulation with comparison of all bidders' unit prices and total prices.

- Engineer's Estimate initially at $1,712,237.30.
- Mobilization was not included as a bid item but rather added as a percentage of the Engineer's Estimate at $171,224.00.
- Engineer's Estimate for evaluation at $1, 883,461.30
- 2GS, LLC dba Earthworks Enterprise is the lowest bidder at $1,539,579.07
- 2GS, LLC dba Earthworks Enterprise is $81,618.93 or 5.30% under Artillery, LLC bid and $343,882.23 or 18.26% under the Engineer's Estimate of $1,883,461.30.
- Artillery, LLC is the second lowest bidder at $1,621,198.00.

Bidders Total Bid Amount is compared to Engineer's Total Estimate Cost amount in table below.

ITEMS OF WORK	ENGINEER'S ESTIMATE	2GS, LLC BID AMOUNT	ARTILLERY BID AMOUNT		2GS, LLC COMPARED TO ARTILLERY LLC
EST/BIDS	$1,883,461.30	$1,539,579.07	$1,621,198.00		$81,618.93
ENGINEER'S EST LESS EACH BIDDER BID AMT	% AMT/UNDER ENGINEER'S ESTIMATE	$343,882.23 18.26%	$262,263.30 13.92%		$81,618.93 5.30% AMT 2GS LLC UNDER ARTILLERY LLC

Schedule "B" – Engineer's Estimate unit prices and total cost for each item

The major items were selected based on 5% of total bid or $100,000 as per Item 1L Abbreviation and Definitions of 2024 Specifications.

Below is comparison of the selected major items.

- **Item No. 100-7002 PREPARING ROW**
  Engineer's total estimate cost of **PREPARING ROW**
  work is $715,000.00 or 37.96% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **PREPARING ROW** work is $115,000.00 or 7.47% of their total Bid of $1,539,579.07. In comparison their percentage (7.47% less 37.96%) is 30.49% below the Engineer's percentage.

- Artillery, LLC total bid cost amount of **PREPARING ROW** work is $125,000.00 or 7.71% of their total Bid of $1,621,198.00. In comparison their percentage (7.71% less 37.96%) is 30.25% below the Engineer's percentage.

- **Item No. 110-7001 EXCAV (ROADWAY)**
  Engineer's total estimate cost of **EXCAV (ROADWAY)**
  work is $15,391.20 or 0.82% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **EXCAV (ROADWAY)** work is $65,296.00 or 4.24% of their total Bid of $1,539,579.07. In comparison their percentage (4.24% less 0.82%) is 3.42% above the Engineer's percentage.

- Artillery, LLC total bid cost amount of **EXCAV (ROADWAY)** work is $46,640.00 or 2.88% of their total Bid of $1,621,198.00. In comparison their percentage (2.88% less 0.82%) is 2.06% above the Engineer's percentage.

- **Item No. 164-7042 DRILL SEED (PERM_RURAL_CLAY)**
  Engineer's total estimate cost of **DRILL SEED (PERM_RURAL_CLAY)**
  work is $1,760.00 or 0.09% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **DRILL SEED (PERM_RURAL_CLAY)** work is $4,830.00 or 0.31% of their total Bid of $1,539,579.07. In comparison their percentage (0.31% less 0.09%) is 0.22% above the Engineer's percentage.

- Artillery, LLC total bid cost amount of **DRILL SEED (PERM_RURAL_CLAY)** work is $16,000.00 or 0.99% of their total Bid of $1,621,198.00. In comparison their percentage (0.99% less 0.09%) is 0.89% above the Engineer's percentage.

- **Item No. 164-7045 DRILL SEED (TEMP)(WARM)**
  Engineer's total estimate cost of **DRILL SEED (TEMP)(WARM)** work is $1,760.00 or 0.09% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **DRILL SEED (TEMP)(WARM)** work is $4,410.00 or 0.29% of their total Bid of $1,539,579.07. In comparison their percentage (0.29% less 0.09%) is 0.19% above the Engineer's percentage.

- Artillery, LLC total bid cost amount of **DRILL SEED (TEMP)(WARM)** work is $16,000.00 or 0.99% of their total Bid of $1,621,198.00. In comparison their percentage (0.99% less 0.09%) is 0.89% above the Engineer's percentage.

- **Item No. 168-7001 VEGETATIVE WATERING**
  Engineer's total estimate cost of **VEGETATIVE WATERING** work is $2,403.50 or 0.13% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **VEGETATIVE WATERING** work is $10,695.00 or 0.69% of their total Bid of $1,539,579.07. In comparison their percentage (0.69% less 0.13%) is 0.57% above the Engineer's percentage.

- Artillery, LLC total bid cost amount of **VEGETATIVE WATERING** work is $2,875.00 or 0.18% of their total Bid of $1,621,198.00. In comparison their percentage (0.18% less 0.13%) is 0.05% above the Engineer's percentage.

- **Item No. 216-7001 PROOF ROLLING**
  Engineer's total estimate cost of **PROOF ROLLING** work is $1,292.50 or 0.07% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **PROOF ROLLING** work is $1,625.00 or 0.11% of their total Bid of $1,539,579.07. In comparison their percentage (0.11% less 0.07%) is 0.04% above the Engineer's percentage.

- Artillery, LLC total bid cost amount of **PROOF ROLLING** work is $7,500.00 or 0.46% of their total Bid of $1,621,198.00. In comparison their percentage (0.46% less 0.07%) is 0.39% above the Engineer's percentage.

- **Item No. 247-7259 FL BS (RDWY DEL)(TY A GR 1-2)(FNAL POS)**
  Engineer's total estimate cost of **FL BS (RDWY DEL)(TY A GR 1-2)(FNAL POS)** work is $133,003.20 or 7.06% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **FL BS (RDWY DEL)(TY A GR 1-2)(FNAL POS)** work is $288,540.00 or 18.74% of their total Bid of $1,539,579.07. In comparison their percentage (18.74% less 7.06%) is 11.68% above the Engineer's percentage.

- Artillery, LLC total bid cost amount of **FL BS (RDWY DEL)(TY A GR 1-2)(FNAL POS)** work is $89,310.00 or 5.51% of their total Bid of $1,621,198.00. In comparison their percentage (5.51% less 7.06%) is 1.55% below the Engineer's percentage.

- **Item No. 531-7003 CONC SIDWALKS (6")**
  Engineer's total estimate cost of **CONC SIDWALKS (6")** work is $293,947.50 or 15.61% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **CONC SIDWALKS (6")** work is $256,536.00 or 16.66% of their total Bid of $1,539,579.07. In comparison their percentage (16.66% less 15.61%) is 1.06% above the Engineer's percentage.

- Artillery, LLC total bid cost amount of **CONC SIDWALKS (6")** work is $384,804.00 or 23.74% of their total Bid of $1,621,198.00. In comparison their percentage (23.74% less 15.61%) is 8.13% above the Engineer's percentage.

- **Item No. 6099-7001 PEDESTRIAN ILLUMINATION ASSEMBLY**
  Engineer's total estimate cost of **PEDESTRIAN ILLUMINATION ASSEMBLY** work is $206,250.00 or 10.95% of the Engineer's Estimate cost amount $1,883,461.30.

- 2GS, LLC total bid cost amount of **PEDESTRIAN ILLUMINATION ASSEMBLY** work is $346,500.00 or 22.51% of their total Bid of $1,539,579.07. In comparison their percentage (22.51% less 10.95%) is 11.56% above the Engineer's percentage.

- Artillery, LLC total bid cost amount of **PEDESTRIAN ILLUMINATION ASSEMPLY** work is $225,000.00 or 13.88% of their total Bid of $1,621,198.00. In comparison their percentage (13.88% less 10.95%) is 2.93% above the Engineer's percentage.

Schedule "C" – Unit Price Analysis with Respect to Engineer's Estimate by Item No.

The bid analysis process undertaken by RRP Consulting Engineer's, LLC did include an examination of the unit prices for reasonable conformance with the estimated prices, (see Schedule "C").

- Unit Prices for work Item No. 100-7002 PREPARING ROW
    - Engineer's Estimate – Qty. 100 STA X Unit Price $7,150.00 = $715,000.00
    - 2GS, LLC Unit Price $1,150.00 = $115,000.00
      Qty. 100 STA X Unit Price difference of $6,000.00 = $600,000.00 under or 83.92% lower than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $1,250.00 = $125,000.00
      Qty. 100 STA X Unit Price difference $5,900.00 = $590,000.00 under or 82.52% lower than Engineer's Estimate Amount.

- Unit Prices for work Item No. 110-7001 EXCAV (ROADWAY)
    - Engineer's Estimate – Qty. 2332 CY X Unit Price $6.60 = $15,391.20
    - 2GS, LLC Unit Price $28.00 = $65,296.00
      Qty. 2332 CY X Unit Price difference of $21.40 = $49,904.80 over or 324.24% higher than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $20.00 = $46,640.00
      Qty. 2332 CY X Unit Price difference $13.40 = $31,248.80 over or 203.03% higher than Engineer's Estimate Amount.

- Unit Prices for work Item No. 164-7042 DRILL SEED (PERM_RURAL_CLAY)
    - Engineer's Estimate – Qty. 2 AC X Unit Price $880.00 = $1,760.00
    - 2GS, LLC Unit Price $2,215.00 = $4,830.00
      Qty. 2 AC X Unit Price difference of $1,535.00 = $3,070.00 over or 174.43% higher than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $8,000.00 = $16,000.00
      Qty. 2 AC X Unit Price difference $7120.00 = $14,240.00 over or 809.09% higher than Engineer's Estimate Amount.

- Unit Prices for work Item No. 164-7045 DRILL SEED (TEMP)(WARM)
    - Engineer's Estimate – Qty. 2 AC X Unit Price $880.00 = $1,760.00
    - 2GS, LLC Unit Price $2,205.00 = $4,410.00
      Qty. 2 AC X Unit Price difference of $1,325.00 = $2,650.00 over or 150.57% higher than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $8,000.00 = $16,000.00
      Qty. 2 AC X Unit Price difference $7120.00 = $14,240.00 over or 809.09% higher than Engineer's Estimate Amount.

- Unit Prices for work Item No. 168-7001 VEGETATIVE WATERING
    - Engineer's Estimate – Qty. 115 TGL X Unit Price $20.90 = $2,403.50
    - 2GS, LLC Unit Price $93.00 = $10,695.00
      Qty. 115 TGL X Unit Price difference of $72.10 = $8,291.50 over or 344.98% higher than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $25.00 = $2,875.00
      Qty. 115 TGL X Unit Price difference $4.10 = $471.50 over or 19.62% higher than Engineer's Estimate Amount.

- Unit Prices for work Item No. 216-7001 PROOF ROLLING
    - Engineer's Estimate – Qty. 25 HR X Unit Price $51.70 = $1,292.50
    - 2GS, LLC Unit Price $65.00 = $1,625.00
      Qty. 25 HR X Unit Price difference of $13.30 = $332.50 over or 25.73% higher than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $300.00 = $7,500.00
      Qty. 25 HR X Unit Price difference $248.30 = $6,207.50 over or 480.27% higher than Engineer's Estimate Amount.

- Unit Prices for work Item No. 247-7259 FL BS (RDWY DEL)(TY A GR 1-2)(FNAL POS)
    - Engineer's Estimate – Qty. 1374 CY X Unit Price $96.80 = $133,003.20
    - 2GS, LLC Unit Price $210.00 = $288,540.00
      Qty. 1374 CY X Unit Price difference of $113.20 = $155,536.80 over or 116.94% higher than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $65.00 = $89,310.00
      Qty. 1374 CY X Unit Price difference $31.80 = $43,693.20 under or 32.85% lower than Engineer's Estimate Amount.

- Unit Prices for work Item No. 531-7003 CONC SIDEWALKS (6")
    - Engineer's Estimate – Qty. 3563 SY X Unit Price $82.50 = $293,947.50
    - 2GS, LLC Unit Price $72.00 = $256,536.00
      Qty. 3563 SY X Unit Price difference of $10.50 = $37,411.50 under or 12.73% lower than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $108.00 = $384,804.00
      Qty. 3563 SY X Unit Price difference $25.50 = $90,856.50 over or 30.91% higher than Engineer's Estimate Amount.

- Unit Prices for work Item No. 6099-7001 PEDESTRIAN ILLUMINATION ASSEMBLY
    - Engineer's Estimate – Qty. 25 EA X Unit Price $8,250.00 = $206,250.00
    - 2GS, LLC Unit Price $13,860.00 = $346,500.00
      Qty. 25 EA X Unit Price difference of $5,610.00 = $140,250.00 over or 68.00% higher than Engineer's Estimate Amount.
    - Artillery, LLC Unit Price $9,000.00 = $225,000.00
      Qty. 25 EA X Unit Price difference $750.00 = $18,750.50 over or 9.09% higher than Engineer's Estimate Amount.

Summary of Major Items contributing to Total Over Engineer's Estimate by Item Number as detailed in Schedule "D".

The Engineer's Estimate of $1,883,461.30 when compared 2GS, LLC dba Earthwork Enterprise bid amount of $1,539,579.07 there is a total difference of $343,882,23 under. The list shown are of major items' percentages above or below compared to the Engineer's Estimate for all responsive bidders.

- 2GS, LLC dba Earthwork Enterprise Over / Under when compared to Engineer's Estimate.

Item No. 110-7002 PREPARING ROW	$ 600,000.00	under	83.92%
Item No. 110-7001 EXCAV (ROADWAY)	$ 49,904.80	over	324.24%
Item No. 164-7045 DRILL SEED (PERM_RURAL_CLAY)	$ 3,070.00	over	174.43%
Item No. 164-7045 DRILL SEED (TEMP)(WARM)	$ 2,650.00	over	150.57%
Item No. 168-7001 VEGETATIVE WATERING	$ 8,291.50	over	344.98%
Item No. 216-7001 PROOF ROLLING	$ 332.50	over	25.73%
Item No. 247-7259 FL BS (RDWY DEL)(TY A GR 1-2)(FNAL POS)	$ 155,536.80	over	116.94%
Item No. 531-7003 CONC SIDEWALKS (6")	$ 37,411.50	under	12.73%
Item No. 6099-7001 PEDESTRIAN ILLUMINATION ASSEMBLY	$ 140,250.00	over	68.00%
TOTAL SUMMARY ITEMS OVER ENGINEER'S ESTIMATE	$ 360,035.60		
TOTAL SUMMARY ITEMS UNDER ENGINEERS ESTIMATE	$ 637,411.50		

- Artillery, LLC Over / Under when compared to Engineer's Estimate.

Item No. 110-7002 PREPARING ROW	$ 590,000.00	under	82.52%
Item No. 110-7001 EXCAV (ROADWAY)	$ 31,248.80	over	203.03%
Item No. 164-7045 DRILL SEED (PERM_RURAL_CLAY)	$ 14,240.00	over	809.09%
Item No. 164-7045 DRILL SEED (TEMP)(WARM)	$ 14,240.00	over	809.09%
Item No. 168-7001 VEGETATIVE WATERING	$ 471.50	over	19.62%
Item No. 216-7001 PROOF ROLLING	$ 6,207.50	over	480.27%

Item No. 531-7003 CONC SIDEWALKS (6")	$ 90,856.50	over	30.91%
Item No. 6099-7001 PEDESTRIAN ILLUMINATION ASSEMBLY	$ 18,750.00	over	9.09%
TOTAL SUMMARY ITEMS OVER ENGINEER'S ESTIMATE	$ 176,014.30		
TOTAL SUMMARY ITEMS UNDER ENGINEERS ESTIMATE	$ 633,693.20		

Bid Analysis Considerations

Each Bidder's precent to total Bid Amount for each bid item was compared to Engineer's percent to total Estimate cost amount to assist in the determination of potential unbalanced bid items see details in Schedule "B". The examination/comparison of Bidder's unit prices and total bid amounts to the Engineer's Estimate were made in Schedule "C". The analysis performed related to both Schedules B and C did result in identifying a total of nine (9) items as shown in Schedule D titled Major Items.

Of the nine (9) significant items there were six (6) items PREP ROW, EXCAV (ROADWAY), DRILL SEEDING, VEGETATIVE WATERING, AND PROOF ROLLING, required closer review of the engineer's unit cost.

Bid Analysis Summary

As per the Bid Analysis, it has been determined that the bids are satisfactory and no "unbalance" in the bids were identified. It is recommended, based on the Bid Analysis, that the Low Bidder 2GS, LLC dba Earthwork Enterprise be awarded the contract.

2024 SPECS GENERAL NOTES:

****

General Requirements and Covenants to ITEMS 1L thru 9L:

For all pits or quarries, comply with the "Texas Aggregate Quarry and Pit Safety Act."

Provide on a weekly basis a list of equipment, including idle equipment, utilized on the project that week.

The 1-800 call services for utility locations do not include TxDOT facilities. Contact the Pharr District Signal Section (956-702-6225) for coordination regarding TxDOT underground lines.

ITEM 2L: Instructions to Bidders

Contractor questions on this project are to be addressed to the following individual(s):

Project Engineer to be determined.

Contractor questions will be accepted through email, phone, and in person by the above individual,

All Contractor question will be reviewed by the Engineer. Once a response is developed it will be posted to CivCast at the following address:

https://www.civcastusa.com/

All questions submitted that generates a response will be posted through this site.

100% SUBMITTAL

ITEM 5L: Control of the Work

The responsibility for the construction surveying on this contract will be in accordance with Article 5.9.1., "Method A."

Prior to contract letting, bidders may obtain a free computerized transfer of files (from the Engineer's office) that contains the earthwork information. If copies of the actual cross-sections in additional to, or instead of the electronic files are requested, they will be available at the Engineer's office for borrowing by copying companies for the purpose of making copies for the bidder at the bidder's expense.

ITEM 7L: Legal Relations and Responsibilities

No significant traffic generator events identified.

ITEM 8L: Prosecution and Progress

Where road closures or detours around structures are necessary to accomplish proposed work, the removal of existing structures and/or cutting of existing pavement will not be permitted until all precast members for the proposed structure have been cast, tested, and approved for use.

Prepare progress schedules as a Bar Chart.

ITEM 100: Preparing Right of Way

Clearing & grubbing shall be executed in accordance with the District Clearing and Grubbing detail sheets.

Preparation of right of way will be done in accordance with the construction phasing shown on the Traffic Control Plans. Performance of this item will not be allowed outside of the project's current construction phase without prior approval by the Engineer.

Removal of all existing vegetation and trees within the ROW will be subsidiary to prep ROW.

ITEM 132: Embankment

Embankment (DENS CONT) shall be Type C with a max. PI of 40. Material used as embankment material in the top two feet below the bottom of Flexible Base shall meet the following requirements based on preliminary tests and such other tests found necessary by the Engineer.

1. The material shall be such as to produce a well-bonded embankment and shall have a minimum PI of 8 and a maximum PI of 30.
2. The material's sulfate content, tested under TEX-145-E, shall not exceed 3,000 ppm.

It is the Contractor's responsibility to advise the Engineer of the location of the source sufficiently in advance to avoid delay.

ITEM 160: Topsoil

Use topsoil as needed and directed by the Project Engineer for select problem areas. Unless otherwise approved by the Project Engineer, use topsoil from approved sources outside the right of way as per standard specifications. Existing topsoil is to be salvaged and retained for re-use on the project as topsoil.

ITEM 164: Seeding for Erosion Control

During drill seeding operations, application methods shall be in accordance with the method shown in the Standard Specification Book.

SS-1 Tacking Agent shall be a ratio of 2:1, two (Emulsion) to one (water) and applied at a rate of 0.05 gallons per square yard. The SS-1 Tacking Agent required for Drill Seed operations, will not be paid for directly, but will be subsidiary to Item 164 "Drill Seeding." Watering shall not be used with the Drill Seed Method. A biodegradable tacking agent may be used in lieu of the SS-1 tacking agent in accordance with the manufacturer's recommendations when approved by the Engineer.

Cool Season or Warm Season Grasses shall be included as part of Item 164 (See Table 3 and/or Table 4 in the Standard Specification Book or dates and seed type).

Seed mixture shall be as specified under Item 164.

ITEM 166: Fertilizer

Fertilizer rate is based on a rate of 100 Lbs. of Nitrogen per acre. The Nitrogen-Phosphorous Potassium (NPK) ratio shall include a minimum of 5% Phosphorous and 5% Potassium.

Fertilizer shall be homogenized.

ITEM 247: Flexible Base

Flexible Base Type E will be composed of caliche (argillaceous Limestone, calcareous or calcareous clay particles) and may contain stone, conglomerate, gravel, sand, or granular materials when these materials are in situ with the caliche.

Flexible Base (TY E GR 4) caliche shall conform to the following requirements:

Table 1: Gradation Requirements for Flexible Base

Retained on Sq. Sieve:	Percent Retained
2"	0
½"	20-60
No. 4	40-75

No. 40	70-90
Max. PI	15
Max. Wet Ball PI	15
Wet Ball Mill Max. Amount	50
Min. Comp. Strength PSI	150 at 15 PSI lateral pressure
Triaxial Test	Tex-117-E

The Wet Ball Test (Tex-116-E) shall be run and the Plasticity Index of the material passing the No.40 sieve shall be determined (Wet Ball PI).

Flexible Base (TY E GR 4) caliche shall meet minimum compressive strength specified on Table 1 Gradation Requirements for Flexible Base above.

The percent of density as determined by Compaction Ratio (Tex-113-E) for the new Flexible Base shall be a minimum of 98%.

The Contractor's attention is called to the fact that certain existing and/or proposed structures may be within the limits of the Flexible Base. It shall be the Contractor's responsibility to perform construction operations without damage to these structures.

For water added under Item 247, the sulfate content will not exceed 3000-ppm and the chloride content will not exceed 3000-ppm.

ITEM 260: Lime Treatment (Road-Mixed)

The Contractor's attention is called to the fact that certain existing and/or proposed structures are within the limits of the lime-treated Subgrade. Unless otherwise directed by the Engineer, these structures shall be installed before the final rolling of this Subgrade. It shall be the Contractor's responsibility to perform the proper lime treating operation without damage to these structures.

The slurry method of applying lime will be required, except when the lime is to be added to naturally wet materials as directed by the Engineer.

For this project, the Engineer will direct a random number of lime trucks to be check weighed.

The percent of density as determined by Tex-121-E for the new and salvage Flexible Base shall be a minimum of 98% for all courses.

Proof roll all constructed lime treated subgrade and bases courses in accordance with Item 216, "Proof Rolling." Correct soft spots as directed. Correction of soft spots in the subgrade or base courses will be at the Contractor's expense.

100% SUBMITTAL

Contractor is to place an underseal and/or pavement course as indicated on plans within 14 calendar days of initial prime coat application. Otherwise, reapply prime coat as directed by the Engineer. Reapplication of the prime coat will be at the Contractor's expense.

Allow the mixture to mellow for a minimum period of 48 hours for all types of lime utilized. Additional time might be required due to sulfate and organic testing requirements, as directed by Engineer.

ITEM 300: Asphalts, Oils, and Emulsions

Temporary ramps/detours and driveways may use Performance Grade Binder 64-22.

ITEM 310: Prime Coat

The Contractor shall exercise diligence in the application of asphalt by the use of flagging and rolling procedures to keep from spraying or splattering the traveling public with asphaltic material.

All existing Flexible Base, which may become exposed by the milling operation, shall be primed at the rate of 0.2 Gal/SY.

Do not apply subsequent courses over the initial prime coat no earlier than 12 hours after the prime coat was applied, unless otherwise authorized or directed by the Engineer.

ITEM 416: Drilled Shaft Foundations

Payment for furnishing and installing anchor bolts mounted in drill shafts will be included in the unit price bid for the various diameter drill shafts.
The Contractor shall coordinate with the utility companies to verify utility locations before drilling foundations.

The Contractor shall form, or provide a smooth finish, the portions of drilled shaft that project above the ground line. Place a ¾ inch chamfer on the top edge of each pole foundation. This work will not be paid for directly but will be considered subsidiary to this bid Item.

All drilled shaft foundations will be based on the lengths shown on the plans or those established in writing. Adequate calculations for measurements of foundations have been made in accordance with Article 9.1. of the Standard Specifications. Increases or decreases in the quantities required by change in design will be measured as specified and the revised quantities will be the basis for payment.

100% SUBMITTAL

In the presence of excess ground water and/or unstable conditions in sub-grade soils prevents excavation to the line and depths indicated on the plans for "Drilled Shaft Foundation", other proposed methods of foundation installation such as casing, etc. shall be submitted for review and approved by the Engineer.

ITEM 420: Concrete Substructures

Pay bent concrete as plan quantity.

ITEM 421: Hydraulic Cement Concrete

Provide Sulfate Resistant Concrete for all concrete piling and drilled shafts.

Provide equipment at the batch plant for determining the free moisture and/or absorption of aggregates in accordance with applicable TXDOT Test.

Provide the following items for concrete batch inspection in accordance with specifications outlined in DMS-10101, "Computer Equipment":

(1) One Desktop Microcomputer or One Laptop Microcomputer
(2) One Integrated Printer/Scanner/Copier/Fax Unit
(3) Contractor-Furnished Software
(4) Hardware

Submit to the Engineer for approval the project locations for all Portland Cement concrete washout areas prior to starting any concrete work.
Fiber Reinforced Concrete is not permitted.

ITEM 502: Barricades, Signs, and Traffic Handling

Shadow vehicles equipped with Truck-Mounted Attenuators are required for traffic handling. See notes for Item 505: Truck Mounted Attenuator (TMA) and Trailer Attenuator (TA), for additional references pertaining to the TMAs.

A pilot car and radio equipped flaggers shall be required for all undivided roadway locations as directed by the Engineer. The pilot car with necessary flaggers and/or radio equipped flaggers and all signs, equipment, labor, and incidentals required for this method of traffic control will not be paid for directly but shall be considered subsidiary to Item 502.

Replace/relocate all regulatory signs removed due to construction operations with the same sign on fixed support(s) immediately upon its removal. First obtain Project Engineer approval before removing any regulatory roadway sign. Required flaggers are to be available to direct traffic during sign intermediate down time.

Relocate any Directional Sign Assemblies removed during construction operations immediately upon their removal.

These signs shall be relocated to a location in accordance with the Latest Version of the "Texas Manual on Uniform Traffic Control Devices". In no case will a sign be removed without a replacement sign and support(s) being readily available and a location established. Removal and relocation of these signs required for traffic control will not be paid for directly but shall be considered subsidiary to Item 502.

From the beginning to the end of the project, all traffic control devices need to be in acceptable condition as per the Texas Quality Guidelines for Work Zone Traffic Control Devices.

The Contractor Force Account "Safety Contingency" that has been established for this project is intended to be utilized for work zone enhancements, to improve the effectiveness of the Traffic Control Plan, that could not be foreseen in the project planning and design stage. These enhancements will be mutually agreed upon by the Engineer and the Contractor's Responsible Person based on weekly or more frequent traffic management reviews on the project. The "Safety Contingency" is not intended to be used in lieu of bid Items established by the contract.

Remove and dispose of all litter, debris, objectionable material, excess materials that accumulate at the base of all traffic control devices as directed by the Engineer.

ITEM 504: Field Office and Laboratory

For this project a field office will not be required at the project site.

ITEM 505: Truck Mounted Attenuator (TMA) and Trailer Attenuator (TA)

In addition to the shadow vehicles with truck mounted attenuator (TMA) that are specified as being required on the traffic control plan for the project, provide 2 additional shadow vehicle(s) with TMA as per TCP (1-1) -18 as detailed on General Note 5 of this standard sheet;
or as per TCP(1-2) -18 as detailed on General Note 6 of this standard sheet;

Therefore, 3 total shadow vehicles with TMA will be required on this project for the type of work as shown on the plans. The Contractor will be responsible for determining if one or more of his construction operations will be ongoing at the same time and thus determine the total number of TMAs needed for the project.

100% SUBMITTAL

ITEM 506: Temporary Erosion, Sedimentation, and Environmental Controls

Before starting each phase of construction, review with the Engineer the SWP3 used for temporary erosion control as outlined on the plans. Before construction, place the temporary erosion and sedimentation control features as shown on the SWP3. Location of construction exits are to be approved by the Engineer. After completing earthwork operations reseed and restore the disturbed areas with the Department's specifications for temporary or permanent erosion control (for stabilization or finished work). Before starting grading operations and during the project duration, place the temporary or permanent erosion control measures to prevent sediment from leaving the right of way.

The Contractor Force Account "Erosion Control Maintenance" that has been established for this project is intended to be utilized for work zone Best Management Practice (BMP) maintenance, to improve the effectiveness of the Environmental Controls that may need maintenance attention and/or require replacement while the project is still under the construction stage. These procedures will be mutually agreed upon by the Engineer and the Contractor's Responsible Person based on weekly or more frequent BMP management reviews on the project. The "Erosion Control Maintenance" is not intended to be used in lieu of bid Items established by the contract.

ITEM 529: Concrete Curb, Gutter, and Combined Curb and Gutter

Before final acceptance of the project, remove discoloration caused by tire marks, mud, asphalt, paint, or other similar material by any method satisfactory to the Engineer to achieve a uniform color and texture of the finished surface exposed to view.

Curb attached to the MBGF thrie-beam transition section will be subsidiary to the MBGF transition.

ITEM 531: Sidewalks

Construct ¼-inch thick score joints at a maximum 6-foot spacing and expansion joints at a maximum 18 foot spacing. Construct a joint in the center of the sidewalk if it is over 15-feet wide. For steel reinforcement, use 6x6-inch spacing with #3 bars or 6x6 – D6 welded wire fabric.

ITEMS 636: Signs

Complete sign blanks and panels shall be handled and stored at the job site in such a manner that corners, edges and faces are not damaged. Finished sign blanks shall be stored in either a

weatherproof warehouse or outside and off the ground in a vertical position. All paper, cardboard and chemically treated separators and packaging shall be removed prior to outside storage.

ITEM 644: Small Roadside Sign Assemblies

All signs shall be installed as shown in the plans and in accordance with the current edition of the "Texas Manual on Uniform Traffic Control Devices" and the "Sign Crew Field Book" (SCFB).

All signs shall be erected according to the locations shown on the signing layout sheets except that a sign may be shifted in order to secure a more desirable location. All sign locations will be staked as shown in the plans and as approved. It is the intent of the plans to erect all roadside traffic signs with the sign edge a minimum of 6 feet from the edge of the shoulder, or if none, 12 feet from the edge of the travel lane. In curb and gutter sections, the sign edge shall be a minimum of 2 feet from the face of the curb.

For this project, aluminum type sign blanks as provided for under Item 636 will be required for all proposed signing installed under Item 644. Aluminum sign blanks less than 7.5 square feet shall be 0.08-inch-thick, sign blanks 7.5 to 15 square feet shall be 0.100-inch-thick and sign blanks greater than 15 square feet shall be 0.125 inch thick.

All excess excavation shall be spread uniformly inside the right of way as directed and shall be included in the price of these Items.

Sign types which design details are not shown on the plans shall conform with the latest edition of the Department's "Standard Highway Sign Design for Texas" Manual.

Signs shown to be removed shall include the complete sign installation and separate the sign post at the concrete foundation. The concrete foundation shall be disposed in accordance with this bid Item. Except for concrete foundations, all removed sign panels, sign posts, and hardware shall remain then property of the Department. All removed sign installations shall be completely disassembled. All salvageable sections of sign panels shall be recycled by TxDOT. The removed sign material will be required to be hauled to the maintenance yard closest to the project. No signs shall be removed without prior approval.

ITEMS 662 and 666: Work Zone Pavement Markings and Retroreflectorized Pavement Markings

All permanent pavement markings for this project under this item shall be 0.100 inches (100 mil) thick thermoplastic.

100% SUBMITTAL

Any permanent pavement markings or non-removal work zone pavement markings lacking reflectivity in accordance with the requirements of Tex 828-B, or that fail to meet minimum retro reflectivity requirements for longitudinal pavement markings when required, will be addressed per the requirements of the specification. The roadway will be re-striped at no additional compensation.

Before the roadways are overlaid, the location and configuration of all existing pavement markings shall be recorded for use in installing the final permanent pavement marking. All roadways shall be striped as existing, unless otherwise noted in the plans.

The beads used on this project shall meet the requirements of Departmental Materials Specification DMS-8290, Glass Traffic Beads Texas Type II & III. Use a 50% Type II/ 50% Type III mix utilizing a double drop system with Type III beads dropped first.

All permanent pavement markings and work zone pavement markings for this project under these Items shall be 0.100 inches (100 mil) thick thermoplastic.

Any permanent pavement markings or non-removal work zone pavement markings lacking reflectivity in accordance with the requirements of Tex 828-B, or that fail to meet minimum retro reflectivity requirements for longitudinal pavement markings when required, will be addressed per the requirements of the specification. The roadway will be re-striped at no additional compensation.

Pavement surface preparation for markings and markers will not be paid for directly but shall be considered subsidiary to Item 666.

Prior to any striping operations, an on-site coordination meeting between all the parties involved will be required to review striping details and requirements to ensure quality work.

The beads used on this project shall meet the requirements of Departmental Materials Specification DMS-8290, Glass Traffic Beads Texas Type II & III. Use a 50% Type II/ 50% Type III mix utilizing a double drop system with Type III beads dropped first.

ITEM 677: Eliminating Existing Pavement Markings and Markers

Asphalt and aggregate types and grades shall be as approved in writing when a surface treatment is used to eliminate existing pavement markings.

On existing pavement that will remain in place, utilize either the blasting method, surface treat method, or flail milling in order to remove existing striping. Utilize high-pressure water blasting for removal of existing striping on concrete surfaces, as required by Item 677.

TCP - GENERAL NOTES

GENERAL NOTES AND SPECIFICATIONS DATA:

USE A POWER-BROOM WHEN CLEANING THE ROADWAY AS NEEDED.

REMOVE & DISPOSE ALL MATERIAL NOT DEEMED SALVAGEABLE BY THE ENGINEER, UNLESS OTHERWISE SHOWN ON THE PLANS.

ON EXISTING PAVEMENT THAT WILL REMAIN IN PLACE, SAND BLAST OR SURFACE TREAT IN ORDER TO REMOVE EXISTING STRIPING.

DO NOT BLOCK DRAINAGE WHEN HANDLING & STOCKPILING EXCAVATED MATERIAL.

MAINTAIN ACCESS TO DRIVEWAYS AND INTERSECTIONS THROUGH ALL PHASES OF CONSTRUCTION.

MAINTAIN POSITIVE DRAINAGE DURING ALL PHASES OF CONSTRUCTION.

ALWAYS COMPLETE THE PROPOSED DRIVEWAYS DURING THEIR TCP PHASE BEFORE SWITCHING TRAFFIC TO A NEW PHASE UNLESS DIRECTED BY THE ENGINEER.

TRAFFIC CONTROL DEVICES:

AT THE COMMENCEMENT OF THE PROJECT, ALL TRAFFIC CONTROL DEVICES SHALL BE IN ACCEPTABLE CONDITION, AND MAINTAINED THROUGHOUT THE DURATION OF THE PROJECT, AS PER GUIDELINES FOR TEMPORARY TRAFFIC CONTROL DEVICES AND FEATURES.

NOTIFY CITY OF BROWNSVILLE IN WRITING(E-MAIL IS ACCEPTABLE) ONCE THE TRAFFIC CONTROL PLAN(TCP) AND ALL TRAFFIC CONTROL DEVICES HAVE BEEN INSTALLED AS PER PLANS ON THE PROJECT SO THAT THE CITY RESPONSIBLE PERSON ACCOMPANIED BY THE CONTRACTOR'S RESPONSIBLE PERSON CAN CONDUCT A NIGHT INSPECTION ON THE SAID TCP AND TRAFFIC CONTROL DEVICES. COMMENCEMENT OF WORK WILL NOT BE AUTHORIZED NOR ALLOWED UNTIL THE ENGINEER NOTIFIES THE CONTRACTOR IN WRITING(E-MAIL IS ACCEPTABLE) TO PROCEED WITH THE WORK.

CONTRACTOR SHALL HAVE A SUFFICIENT AMOUNT OF TRAFFIC CONTROL DEVICES IN ACCEPTABLE CONDITION TO REPLACE ANY DAMAGED TRAFFIC CONTROL DEVICE WITHIN 24 HOURS OF NOTIFICATION.

PROVIDE ADDITIONAL SIGNS AND BARRICADES AS NECESSARY TO ADDRESS FIELD CONSTRUCTABILITY & VISIBILITY. THESE ADDITIONAL SIGNS WILL BE CONSIDERED SUBSIDIARY TO ITEM 502.

REMOVE OR COMPLETELY COVER ALL EXISTING SIGNS WHICH ARE IN CONFLICT WITH THE TRAFFIC CONTROL PLAN.

ADJUST STOP SIGNS AS NEEDED ON INTERSECTING STREETS DURING THE VARIOUS CONSTRUCTION PHASES. DO NOT REMOVE ANY EXISTING STOP SIGNS UNTIL TEMPORARY SIGNS ARE IN PLACE.

COORDINATE THE TRAFFIC CONTROL PLAN AND THE VARIOUS SEQUENCES OF CONSTRUCTION WITH ADJACENT CONSTRUCTION PROJECTS IF APPLICABLE, TO ENSURE THE UNINTERRUPTED AND SAFE FLOW OF TRAFFIC.

NOTIFY THE ENGINEER IN WRITING WHEN MAJOR TRAFFIC CHANGES ARE TO BE MADE. NOTIFICATIONS MUST BE GIVEN A MINIMUM OF THREE WORKING DAYS PRIOR TO THE CHANGE.

ALL WORK ZONE PAVEMENT MARKINGS FOR THIS PROJECT SHALL BE 0.100 INCHES (100 MIL) THICK THERMOPLASTIC.

SAFETY:

PROTECT EXPOSED PITS THAT MUST REMAIN OPEN DURING NON-WORKING HOURS AS PER OSHA REQUIREMENTS.

GENERAL NOTES AND SPECIFICATIONS DATA:

THE TRAFFIC CONTROL PLAN, VARIOUS PHASES, AND SEQUENCES OF CONSTRUCTION SERVE AS A GUIDE FOR THE SAFE HANDLING OF TRAFFIC DURING CONSTRUCTION OF THE PROJECT ROADWAYS, UTILITIES, AND OTHER RELATED ITEMS. THE TCP DOES NOT ATTEMPT TO ADDRESS EVERY ASPECT OF CONSTRUCTION THAT IS REQUIRED DURING EACH PHASE OF CONSTRUCTION. THE TCP DOES NOT RELIEVE THE CONTRACTOR OF THE RESPONSIBILITY OF CONSTRUCTING THE COMPLETE ROADWAYS, UTILITIES AND OTHER RELATED ITEMS, AS NOTED ON THE PLANS AND SPECIFICATIONS.

THE CONTRACTOR SHALL NOTIFY THE PROPER CITY, COUNTY, E.M.S., FIRE DEPARTMENT, POLICE DEPARTMENT, TEXAS DEP'T. OF PUBLIC SAFETY AND TEXAS DEPARTMENT OF TRANSPORTATION OFFICIALS WHEN MAJOR TRAFFIC CHANGES ARE TO BE MADE. THE NOTIFICATION MUST BE MADE THREE DAYS PRIOR TO THE CHANGE.

THE CONTRACTOR SHALL PROTECT THE PAVEMENT FROM ALL DAMAGE AS DIRECTED BY THE ENGINEER WHEN MOVING ANY EQUIPMENT, NOT LICENSED FOR OPERATION ON PUBLIC HIGHWAYS, ON OR ACROSS ANY PAVEMENT.

THE CONTRACTOR SHALL KEEP TRAVEL SURFACES USED IN HAULING OPERATIONS CLEAR AND FREE OF DIRT AND OTHER MATERIALS.

THE CONTRACTOR SHALL INSTALL ONLY THE LENGTH OF LATERALS (RCP) THAT IS UNDER THE PHASE HE IS WORKING ON. IF HE CHOOSES TO INSTALL ENTIRE LENGTH OF LATERAL, IT WILL BE THEIR RESPONSIBILITY TO USE CUT AND RESTORE PAVEMENT AT THEIR OWN EXPENSE AND SUBMIT AN ALTERNATE TCP FOR APPROVAL FROM THE ENGINEER.

PROJECT SPECIFIC NOTES:

THE CONTRACTOR SHALL KEEP TRAVELED SURFACES USED IN HAULING OPERATIONS CLEAR AND FREE OF DIRT, DEBRIS, AND OTHER MATERIAL. THIS SURFACE CLEARING AND CLEANING OPERATIONS WILL BE PERFORMED IMMEDIATELY UPON OCCURRENCE OF DEBRIS ON THE TRAVEL LANES. FAILURE TO COMPLY CAN RESULT IN THE CONTRACTOR BEING PENALIZED BY ENGINEER FOR NEGLIGENCE.

CONTRACTOR SHALL BE RESPONSIBLE FOR MANAGING AND DIRECTING LOCAL TRAFFIC LANES FOR CONSTRUCTION PURPOSES. WHEN HEAVY MACHINERY MUST ENCROACH THE ONE-WAY TRAVEL.

THE PORTION OF THIS PROJECT WHICH COINCIDES WITH EXISTING ROADS AND/OR PRIVATE DRIVES SHALL BE KEPT OPEN TO TRAFFIC AT ALL TIMES, UNLESS OTHERWISE PROVIDED FOR OR APPROVED BY THE ENGINEER.

FOR THE PURPOSES OF THIS TRAFFIC CONTROL PLAN, THE FOLLOWING DEFINITIONS SHALL APPLY:

PEAK HOURS
MON. -FRI. 6:00 A.M. TO 8:30 A.M.
MON. -FRI. 4:00 P.M. TO 7:00 P.M.

OFF-PEAK HOURS
MON. -FRI. 9:00 A.M. TO 4:00 P.M.

NIGHTTIME HOURS
MON. -FRI. 7:00 P.M. TO 6:00 A.M.

WEEKEND HOURS
FRI. 9:00 A.M. TO MON. 6:00 A.M.

SEQUENCE OF CONSTRUCTION

PHASE I:

LIMITS OF CONSTRUCTION WITHIN BROWNSVILLE PUBLIC LIBRARY.

1. PLACE ADVANCED WARNING SIGNS AS SHOWN IN THE STANDARDS AND AS DIRECTED BY THE ENGINEER.
2. PLACE TEMPORARY EROSION CONTROL DEVICES AS SHOWN IN THE STANDARDS AND AS DIRECTED BY THE ENGINEER.
3. LOCATE AND ADJUST AS NEEDED ANY CONFLICTING EXISTING UTILITIES.
4. CONTRACTOR SHALL CONSTRUCT SIDEWALK AND CURBRAMPS AS SHOWN IN THE PLANS AND ENSURE DRIVEWAY CONNECTIVITY.
5. CONTRACTOR SHALL GRADE TO EXISTING GROUND WHILE ENSURING NO CHANGE TO EXISTING DRAINAGE PATTERNS.
6. AFTER CONSTRUCTION OF ALL PROPOSED ELEMENTS IS COMPLETE, PLACE FINAL STRIPING AS SHOWN IN THE PLANS. INCLUDING ANY STRIPING THAT WAS REMOVED DURING CONSTRUCTION.

PHASE II:

LIMITS OF CONSTRUCTION BETWEEN SOUTHMOST RD. AND MORNINGSIDE PARK (MORNINGSIDE RD.)
AND STRIPING ALONG MANZANO ST. & ESPERANZA RD.

1. PLACE ADVANCED WARNING SIGNS AS SHOWN IN THE STANDARDS AND AS DIRECTED BY THE ENGINEER.
2. PLACE TEMPORARY EROSION CONSTOL DEVICES AS SHOWN IN THE STANDARDS AND AS DIRECTED BY THE ENGINEER.
3. LOCATE AND ADJUST AS NEEDED ANY CONFLICTING EXISTING UTILITIES.
4. CONTRACTOR SHALL CONSTRUCT SIDEWALK AND CURBRAMPS AS SHOWN IN THE PLANS AND ENSURE DRIVEWAY CONNECTIVITY.
5. CONTRACTOR SHALL GRADE TO EXISTING GROUND WHILE ENSURING NO CHANGE TO EXISTING DRAINAGE PATTERNS.
6. AFTER CONSTRUCTION OF ALL PROPOSED ELEMENTS IS COMPLETE, PLACE FINAL STRIPING AS SHOWN IN THE PLANS. INCLUDING ANY STRIPING THAT WAS REMOVED DURING CONSTRUCTION.

PHASE III:

LIMITS OF CONSTRUCTION BETWEEN MORNINGSIDE PARK AND MORNINGSIDE RD. (GARCIA LN.).

1. PLACE ADVANCED WARNING SIGNS AS SHOWN IN THE STANDARDS AND AS DIRECTED BY THE ENGINEER.
2. PLACE TEMPORARY EROSION CONSTOL DEVICES AS SHOWN IN THE STANDARDS AND AS DIRECTED BY THE ENGINEER.
3. LOCATE AND ADJUST AS NEEDED ANY CONFLICTING EXISTING UTILITIES.
4. CONTRACTOR SHALL CONSTRUCT SIDEWALK AND CURBRAMPS AS SHOWN IN THE PLANS AND ENSURE DRIVEWAY CONNECTIVITY.
5. CONTRACTOR SHALL GRADE TO EXISTING GROUND WHILE ENSURING NO CHANGE TO EXISTING DRAINAGE PATTERNS.
6. AFTER CONSTRUCTION OF ALL PROPOSED ELEMENTS IS COMPLETE, PLACE FINAL STRIPING AS SHOWN IN THE PLANS. INCLUDING ANY STRIPING THAT WAS REMOVED DURING CONSTRUCTION.

PHASE IV:

LIMITS OF CONSTRUCTION AROUND MORNINGSIDE PARK.

1. PLACE ADVANCED WARNING SIGNS AS SHOWN IN THE STANDARDS AND AS DIRECTED BY THE ENGINEER.
2. PLACE TEMPORARY EROSION CONSTOL DEVICES AS SHOWN IN THE STANDARDS AND AS DIRECTED BY THE ENGINEER.
3. LOCATE AND ADJUST AS NEEDED ANY CONFLICTING EXISTING UTILITIES.
4. CONTRACTOR SHALL CONSTRUCT AND INSTALL SHARED USE PATH AND CURB RAMPS AS SHOWN IN THE PLANS.
5. CONTRACTOR SHALL GRADE TO EXISTING GROUND WHILE ENSURING NO CHANGE TO EXISTING DRAINAGE PATTERNS.
6. AFTER CONSTRUCTION OF ALL PROPOSED ELEMENTS IS COMPLETE, PLACE FINAL STRIPING AS SHOWN IN THE PLANS. INCLUDING ANY STRIPING THAT WAS REMOVED DURING CONSTRUCTION.

BARRICADE AND CONSTRUCTION (BC) STANDARD SHEETS GENERAL NOTES:

1. The Barricade and Construction Standard Sheets (BC sheets) are intended to show typical examples for placement of temporary traffic control devices, construction pavement markings, and typical work zone signs. The information contained in these sheets meet or exceed the requirements shown in the "Texas Manual on Uniform Traffic Control Devices" (TMUTCD).

2. The development and design of the Traffic Control Plan (TCP)is the responsibility of the Engineer.

3. The Contractor may propose changes to the TCP that are signed and sealed by a licensed professional engineer for approval. The Engineer may develop, sign and seal Contractor proposed changes.

4. The Contractor is responsible for installing and maintaining the traffic control devices as shown in the plans. The Contractor may not move or change the approximate location of any device without the approval of the Engineer.

5. Geometric design of lane shifts and detours should, when possible, meet the applicable design criteria contained in manuals such as the American Association of State Highway and Transportation Officials (AASHTO), "A Policy on Geometric Design of Highways and Streets," the TxDOT "Roadway Design Manual" or engineering judgment.

6. When projects abut, the Engineer(s) may omit the END ROAD WORK, TRAFFIC FINES DOUBLE, and other advance warning signs if the signing would be redundant and the work areas appear continuous to the motorists. If the adjacent project is completed first, the Contractor shall erect the necessary warning signs as shown on these sheets, the TCP sheets or as directed by the Engineer. The BEGIN ROAD WORK NEXT X MILES sign shall be revised to show appropriate work zone distance.

7. The Engineer may require duplicate warning signs on the median side of divided highways where median width will permit and traffic volumes justify the signing.

8. All signs shall be constructed in accordance with the details found in the "Standard Highway Sign Designs for Texas," latest edition. Sign details not shown in this manual shall be shown in the plans or the Engineer shall provide a detail to the Contractor before the sign is manufactured.

9. The temporary traffic control devices shown in the illustrations of the BC sheets are examples. As necessary, the Engineer will determine the most appropriate traffic control devices to be used.

10. Where highway construction or maintenance work is being undertaken, other than mobile operations as defined by the Texas Manual on Uniform Traffic Control Devices, CSJ limit signs are required. CSJ limit signs are shown on BC(2). The OBEY WARNING SIGNS STATE LAW sign, STAY ALERT TALK OR TEXT LATER and the WORK ZONE TRAFFIC FINES DOUBLE sign with plaque shall be erected in advance of the CSJ limits. The BEGIN ROAD WORK NEXT X MILES, CONTRACTOR and END ROAD WORK signs shall be erected at or near the CSJ limits. For mobile operations, CSJ limit signs are not required.

11. Traffic control devices should be in place only while work is actually in progress or a definite need exists.

12. The Engineer has the final decision on the location of all traffic control devices.

13. Inactive equipment and work vehicles, including workers' private vehicles must be parked away from travel lanes. They should be as close to the right-of-way line as possible, or located behind a barrier or guardrail, or as approved by the Engineer.

WORKER SAFETY NOTES:

1. Workers on foot who are exposed to traffic or to construction equipment within the right-of-way shall wear high-visibility safety apparel meeting the requirements of ISEA "American National Standard for High-Visibility Apparel," or equivalent revisions, and labeled as ANSI 107-2004 standard performance for Class 2 or 3 risk exposure. Class 3 garments should be considered for high traffic volume work areas or night time work.

2. Except in emergency situations, flagger stations shall be illuminated when flagging is used at night.

COMPLIANT WORKZONE TRAFFIC CONTROL DEVICES

1. Only pre-qualified products shall be used. The "Compliant Work Zone Traffic Control Devices List" (CWZTCD) describes pre-qualified products and their sources.

2. Work zone traffic control devices shall be compliant with the Manual for Assessing safety Hardware (MASH).

TYPICAL LOCATION OF CROSSROAD SIGNS

May be mounted on back of "ROAD WORK AHEAD"(CW20-1D) sign with approval of Engineer. (See note 2 below)

1. The typical minimum signing on a crossroad approach should be a "ROAD WORK AHEAD" (CW20-1D)sign and a (G20-2) "END ROAD WORK" sign, unless noted otherwise in plans.
2. The Engineer may use the reduced size 36" x 36" ROAD WORK AHEAD (CW20-1D) sign mounted back to back with the reduced size 36" x 18" "END ROAD WORK"(G20-2) sign on low volume crossroads (see Note 4 under "Typical Construction Warning Sign Size and Spacing"). See the "Standard Highway Sign Designs for Texas" manual for sign details. The Engineer may omit the advance warning signs on low volume crossroads. The Engineer will determine whether a road is low volume as per TMUTCD Part 5. This information shall be shown in the plans.
3. Based on existing field conditions, the Engineer/Inspector may require additional signs such as FLAGGER AHEAD, LOOSE GRAVEL, or other appropriate signs. When additional signs are required, these signs will be considered part of the minimum requirements. The Engineer/Inspector will determine the proper location and spacing of any sign not shown on the BC sheets, Traffic Control Plan sheets or the Work Zone Standard Sheets.
4. The "ROAD WORK NEXT X MILES"(G20-1aT)sign shall be required at high volume crossroads to advise motorists of the length of construction in either direction from the intersection. The Engineer will determine whether a roadway is considered high volume.
5. Additional traffic control devices may be shown elsewhere in the plans for higher volume crossroads.
6. When work occurs in the intersection area, appropriate traffic control devices, as shown elsewhere in the plans or as determined by the Engineer/Inspector, shall be in place.

T-INTERSECTION

CSJ LIMITS AT T-INTERSECTION

1. The Engineer will determine the types and location of any additional traffic control devices, such as a flagger and accompanying signs, or other signs, that should be used when work is being performed at or near an intersection.
2. If construction closes the road at a T-intersection, the Contractor shall place the "CONTRACTOR NAME"(G20-6T) sign behind the Type 3 Barricades for the road closure (see BC(10) also). The "ROAD WORK NEXT X MILES" left arrow(G20-1bTL) and "ROAD WORK NEXT X MILES" right arrow (G20-1bTR)" signs shall be replaced by the detour signing called for in the plans.

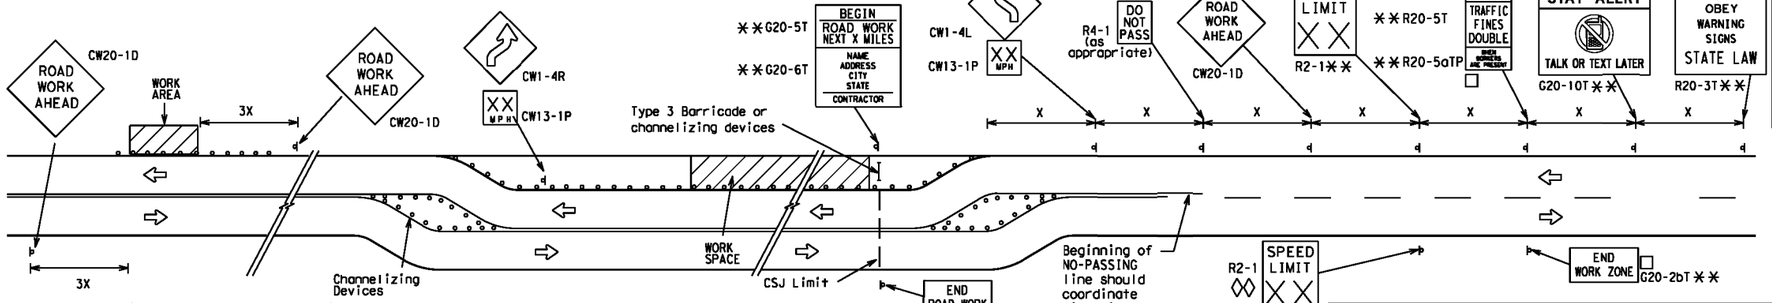
TYPICAL CONSTRUCTION WARNING SIGN SIZE AND SPACING[1,5,6]

SIZE

Sign Number or Series	Conventional Road	Expressway/ Freeway
CW20[4] CW21 CW22 CW23 CW25	48" x 48"	48" x 48"
CW1, CW2, CW7, CW8, CW9, CW11, CW14	36" x 36"	48" x 48"
CW3, CW4, CW5, CW6, CW8-3, CW10, CW12	48" x 48"	48" x 48"

SPACING

Posted Speed	Sign △ Spacing "X"
MPH	Feet (Apprx.)
30	120
35	160
40	240
45	320
50	400
55	500[2]
60	600[2]
65	700[2]
70	800[2]
75	900[2]
80	1000[2]
*	*[3]

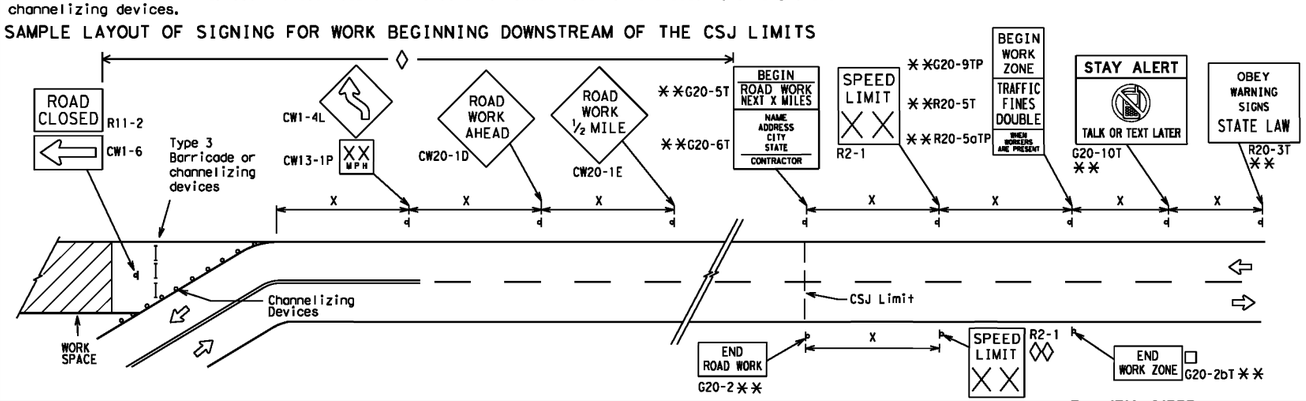


* For typical sign spacings on divided highways, expressways and freeways, see Part 6 of the "Texas Manual on Uniform Traffic Control Devices" (TMUTCD) typical application diagrams or TCP Standard Sheets.

△ Minimum distance from work area to first Advance Warning sign nearest the work area and/or distance between each additional sign.

GENERAL NOTES

1. Special or larger size signs may be used as necessary.
2. Distance between signs should be increased as required to have 1500 feet advance warning.
3. Distance between signs should be increased as required to have 1/2 mile or more advance warning.
4. 36" x 36" "ROAD WORK AHEAD" (CW20-1D)signs may be used on low volume crossroads at the discretion of the Engineer as per TMUTCD Part 5. See Note 2 under "Typical Location of Crossroad Signs".
5. Only diamond shaped warning sign sizes are indicated.
6. See sign size listing in "TMUTCD", Sign Appendix or the "Standard Highway Sign Designs for Texas" manual for complete list of available sign design sizes.



WORK AREAS IN MULTIPLE LOCATIONS WITHIN CSJ LIMITS

When extended distances occur between minimal work spaces, the Engineer/Inspector should ensure additional "ROAD WORK AHEAD"(CW20-1D)signs are placed in advance of these work areas to remind drivers they are still within the project limits. See the applicable TCP sheets for exact location and spacing of signs and channelizing devices.

SAMPLE LAYOUT OF SIGNING FOR WORK BEGINNING AT THE CSJ LIMITS

SAMPLE LAYOUT OF SIGNING FOR WORK BEGINNING DOWNSTREAM OF THE CSJ LIMITS

NOTES

The Contractor shall determine the appropriate distance to be placed on the G20-1 series signs and "BEGIN ROAD WORK NEXT X MILES"(G20-5T)sign for each specific project. This distance shall replace the "X" and shall be rounded to the nearest whole mile with the approval of the Engineer. No decimals shall be used.

□ The "BEGIN WORK ZONE"(G20-9TP) and "END WORK ZONE" (G20-2bT) shall be used as shown on the sample layout when advance signs are required outside the CSJ Limits. They inform the motorist of entering or leaving a part of the work zone lying outside the CSJ Limits where traffic fines may double if workers are present.

** CSJ limit signing is required for highway construction and maintenance work, with the exception of mobile operations.

◊ Area for placement of "ROAD WORK AHEAD" (CW20-1D)sign and other signs or devices as called for on the Traffic Control Plan.

◊◊ Contractor will install a regulatory speed limit sign at the end of the work zone.

TYPICAL APPLICATION OF WORK ZONE SPEED LIMIT SIGNS

Work zone speed limits shall be regulatory, established in accordance with the "Procedures for Establishing Speed Zones," and approved by the Texas Transportation Commission, or by City Ordinance when within Incorporated City Limits.

Reduced speeds should only be posted in the vicinity of work activity and not throughout the entire project.

Regulatory work zone speed signs (R2-1) shall be removed or covered during periods when they are not needed.

GUIDANCE FOR USE:

LONG/INTERMEDIATE TERM WORK ZONE SPEED LIMITS

This type of work zone speed limit should be included on the design of the traffic control plans when restricted geometrics with a lower design speed are present in the work zone and modification of the geometrics to a higher design speed is not feasible.

Long/Intermediate Term Work Zone Speed Limit signs, when approved as described above, should be posted and visible to the motorist when work activity is present. Work activity may also be defined as a change in the roadway that requires a reduced speed for motorists to safely negotiate the work area, including:

a) rough road or damaged pavement surface
b) substantial alteration of roadway geometrics (diversions)
c) construction detours
d) grade
e) width
f) other conditions readily apparent to the driver

As long as any of these conditions exist, the work zone speed limit signs should remain in place.

SHORT TERM WORK ZONE SPEED LIMITS

This type of work zone speed limit may be included on the design of the traffic control plans when workers or equipment are not behind concrete barrier, when work activity is within 10 feet of the traveled way or actually in the traveled way.

Short Term Work Zone Speed Limit signs should be posted and visible to the motorists only when work activity is present. When work activity is not present, signs shall be removed or covered.
(See Removing or Covering on BC(4)).

GENERAL NOTES

1. Regulatory work zone speed limits should be used only for sections of construction projects where speed control is of major importance.
2. Regulatory work zone speed limit signs shall be placed on supports at a 7 foot minimum mounting height.
3. Speed zone signs are illustrated for one direction of travel and are normally posted for each direction of travel.
4. Frequency of work zone speed limit signs should be:
   40 mph and greater 0.2 to 2 miles
   35 mph and less 0.2 to 1 mile
5. Regulatory speed limit signs shall have black legend and border on a white reflective background (See "Reflective Sheeting" on BC(4)).
6. Fabrication, erection and maintenance of the"ADVANCE SPEED LIMIT"(CW3-5)sign, "WORK ZONE"(G20-5aP) plaque and the "SPEED LIMIT"(R2-1)signs shall not be paid for directly, but shall be considered subsidiary to Item 502.
7. Turning signs from view, laying signs over or down will not be allowed, unless as otherwise noted under "REMOVING OR COVERING" on BC(4).
8. Techniques that may help reduce traffic speeds include but are not limited to:
   A. Law enforcement.
   B. Flagger stationed next to sign.
   C. Portable changeable message sign (PCMS).
   D. Low-power (drone) radar transmitter.
   E. Speed monitor trailers or signs.
9. Speeds shown on details above are for illustration only. Work Zone Speed Limits should only be posted as approved for each project.
10. For more specific guidance concerning the type of work, work zone conditions and factors impacting allowable regulatory construction speed zone reduction see TxDOT form #1204 in the TxDOT e-form system.

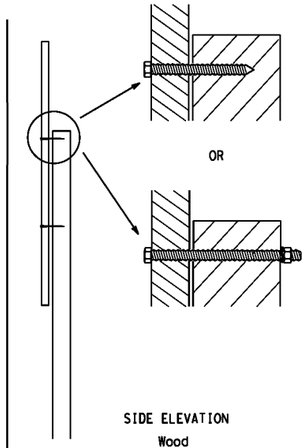
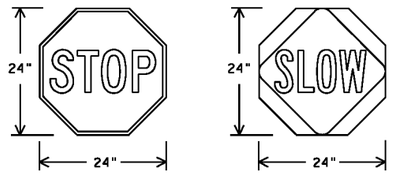
TYPICAL MINIMUM CLEARANCES FOR LONG TERM AND INTERMEDIATE TERM SIGNS



* When placing skid supports on unlevel ground, the leg post lengths must be adjusted so the sign appears straight and plumb. Objects shall NOT be placed under skids as a means of leveling.

** When plaques are placed on dual-leg supports, they should be attached to the upright nearest the travel lane. Supplemental plaques (advisory or distance) should not cover the surface of the parent sign.

ATTACHMENT FOR SIGN SUPPORTS



Attachment to wooden supports will be by bolts and nuts or screws. Use TxDOT's or manufacturer's recommended procedures for attaching sign substrates to other types of sign supports

Nails shall NOT be allowed. Each sign shall be attached directly to the sign support. Multiple signs shall not be joined or spliced by any means. Wood supports shall not be extended or repaired by splicing or other means.

Splicing embedded perforated square metal tubing in order to extend post height will only be allowed when the splice is made using four bolts, two above and two below the spice point. Splice must be located entirely behind the sign substrate, not near the base of the support. Splice insert lengths should be at least 5 times nominal post size, centered on the splice and of at least the same gauge material.

STOP/SLOW PADDLES

1. STOP/SLOW paddles are the primary method to control traffic by flaggers. The STOP/SLOW paddle size should be 24" x 24".
2. STOP/SLOW paddles shall be retroreflectorized when used at night.
3. STOP/SLOW paddles may be attached to a staff with a minimum length of 6' to the bottom of the sign.
4. Any lights incorporated into the STOP or SLOW paddle faces shall only be as specifically described in Section 6E.03 Hand Signaling Devices in the TMUTCD.

LEGEND & BORDER	WHITE	TYPE B OR C SHEETING
LEGEND & BORDER	BLACK	ACRYLIC NON-REFLECTIVE FILM

CONTRACTOR REQUIREMENTS FOR MAINTAINING PERMANENT SIGNS WITHIN THE PROJECT LIMITS

1. Permanent signs are used to give notice of traffic laws or regulations, call attention to conditions that are potentially hazardous to traffic operations, show route designations, destinations, directions, distances, services, points of interest, and other geographical, recreational, specific service (LOGO), or cultural information. Drivers proceeding through a work zone need the same, if not better route guidance as normally installed on a roadway without construction.
2. When permanent regulatory or warning signs conflict with work zone conditions, remove or cover the permanent signs until the permanent sign message matches the roadway condition. For details for covering large guide signs see the TS-CD standard.
3. When existing permanent signs are moved and relocated due to construction purposes, they shall be visible to motorists at all times.
4. If existing signs are to be relocated on their original supports, they shall be installed on crashworthy bases as shown on the SMD Standard sheets. The signs shall meet the required mounting heights shown on the BC Sheets or the SMD Standards. This work should be paid for under the appropriate pay item for relocating existing signs.
5. If permanent signs are to be removed and relocated using temporary supports, the Contractor shall use crashworthy supports as shown on the BC standard sheets, TLRS standard sheets or the CWZTCD list. The signs shall meet the required mounting heights shown on the BC, or the SMD standard sheets during construction. This work should be paid for under the appropriate pay item for relocating existing signs.
6. Any sign or traffic control device that is struck or damaged by the Contractor or his/her construction equipment shall be replaced as soon as possible by the Contractor to ensure proper guidance for the motorists. This will be subsidiary to Item 502.

GENERAL NOTES FOR WORK ZONE SIGNS

1. Contractor shall install and maintain signs in a straight and plumb condition and/or as directed by the Engineer.
2. Wooden sign posts shall be painted white.
3. Barricades shall NOT be used as sign supports.
4. All signs shall be installed in accordance with the plans or as directed by the Engineer. Signs shall be used to regulate, warn, and guide the traveling public safely through the work zone.
5. The Contractor may furnish either the sign design shown in the plans or in the "Standard Highway Sign Designs for Texas" (SHSD). The Engineer/Inspector may require the Contractor to furnish other work zone signs that are shown in the TMUTCD but may have been omitted from the plans. Any variation in the plans shall be documented by written agreement between the Engineer and the Contractor's Responsible Person. All changes must be documented in writing before being implemented. This can include documenting the changes in the Inspector's TxDOT diary and having both the Inspector and Contractor initial and date the agreed upon changes.
6. The Contractor shall furnish sign supports listed in the "Compliant Work Zone Traffic Control Device List" (CWZTCD) for small roadside signs. Supports for temporary large roadside signs shall meet the requirements detailed on the Temporary Large Roadside Signs (TLRS) standard sheets. The Contractor shall install the sign support in accordance with the manufacturer's recommendations. If there is a question regarding installation procedures, the Contractor shall furnish the Engineer a copy of the manufacturer's installation recommendations so the Engineer can verify the correct procedures are being followed.
7. The Contractor is responsible for installing signs on approved supports and replacing signs with damaged or cracked substrates and/or damaged or marred reflective sheeting as directed by the Engineer/Inspector.
8. Identification markings may be shown only on the back of the sign substrate. The maximum height of letters and/or company logos used for identification shall be 1 inch.
9. The Contractor shall replace damaged wood posts. New or damaged wood sign posts shall not be spliced.

DURATION OF WORK (as defined by the "Texas Manual on Uniform Traffic Control Devices" Part 6)

1. The types of sign supports, sign mounting height, the size of signs, and the type of sign substrates can vary based on the type of work being performed. The Engineer is responsible for selecting the appropriate size sign for the type of work being performed. The Contractor is responsible for ensuring the sign support, sign mounting height and substrate meets manufacturer's recommendations in regard to crashworthiness and duration of work requirements.
   a. Long-term stationary - work that occupies a location more than 3 days.
   b. Intermediate-term stationary - work that occupies a location more than one daylight period up to 3 days, or nighttime work lasting more than one hour.
   c. Short-term stationary - daytime work that occupies a location for more than 1 hour in a single daylight period.
   d. Short, duration - work that occupies a location up to 1 hour.
   e. Mobile - work that moves continuously or intermittently (stopping for up to approximately 15 minutes.)

SIGN MOUNTING HEIGHT

1. The bottom of Long-term/Intermediate-term signs shall be at least 7 feet, but not more than 9 feet, above the paved surface, except as shown for supplemental plaques mounted below other signs.
2. The bottom of Short-term/Short Duration signs shall be a minimum of 1 foot above the pavement surface but no more than 2 feet above the ground.
3. Long-term/Intermediate-term Signs may be used in lieu of Short-term/Short Duration signing.
4. Short-term/Short Duration signs shall be used only during daylight and shall be removed at the end of the workday or raised to appropriate Long-term/Intermediate sign height.
5. Regulatory signs shall be mounted at least 7 feet, but not more than 9 feet, above the paved surface regardless of work duration.

SIZE OF SIGNS

1. The Contractor shall furnish the sign sizes shown on BC (2) unless otherwise shown in the plans or as directed by the Engineer.

SIGN SUBSTRATES

1. The Contractor shall ensure the sign substrate is installed in accordance with the manufacturer's recommendations for the type of sign support that is being used. The CWZTCD lists each substrate that can be used on the different types and models of sign supports.
2. "Mesh" type materials are NOT an approved sign substrate, regardless of the tightness of the weave.
3. All wooden individual sign panels fabricated from 2 or more pieces shall have one or more plywood cleat, 1/2" thick by 6" wide, fastened to the back of the sign and extending fully across the sign. The cleat shall be attached to the back of the sign using wood screws that do not penetrate the face of the sign panel. The screws shall be placed on both sides of the splice and spaced at 6" centers. The Engineer may approve other methods of splicing the sign face.

REFLECTIVE SHEETING

1. All signs shall be retroreflective and constructed of sheeting meeting the color and retro-reflectivity requirements of DMS-8300 for rigid signs or DMS-8310 for roll-up signs. The web address for DMS specifications is shown on BC(1).
2. White sheeting, meeting the requirements of DMS-8300 Type A, shall be used for signs with a white background.
3. Orange sheeting, meeting the requirements of DMS-8300 Type B_{FL} or Type C_{FL}, shall be used for rigid signs with orange backgrounds.

SIGN LETTERS

1. All sign letters and numbers shall be clear, and open rounded type uppercase alphabet letters as approved by the Federal Highway Administration (FHWA) and as published in the "Standard Highway Sign Design for Texas" manual. Signs, letters and numbers shall be of first class workmanship in accordance with Department Standards and Specifications.

REMOVING OR COVERING

1. When sign messages may be confusing or do not apply, the signs shall be removed or completely covered.
2. Long-term stationary or intermediate stationary signs installed on square metal tubing may be turned away from traffic 90 degrees when the sign message is not applicable. This technique may not be used for signs installed in the median of divided highways or near any intersections where the sign may be seen from approaching traffic.
3. Signs installed on wooden skids shall not be turned at 90 degree angles to the roadway. These signs should be removed or completely covered when not required.
4. When signs are covered, the material used shall be opaque, such as heavy mil black plastic, or other materials which will cover the entire sign face and maintain their opaque properties under automobile headlights at night, without damaging the sign sheeting.
5. Burlap shall NOT be used to cover signs.
6. Duct tape or other adhesive material shall NOT be affixed to a sign face.
7. Signs and anchor stubs shall be removed and holes backfilled upon completion of work.

SIGN SUPPORT WEIGHTS

1. Where sign supports require the use of weights to keep from turning over, the use of sandbags with dry, cohesionless sand should be used.
2. The sandbags will be tied shut to keep the sand from spilling and to maintain a constant weight.
3. Rock, concrete, iron, steel or other solid objects shall not be permitted for use as sign support weights.
4. Sandbags should weigh a minimum of 35 lbs and a maximum of 50 lbs.
5. Sandbags shall be made of a durable material that tears upon vehicular impact. Rubber (such as tire inner tubes) shall NOT be used.
6. Rubber ballasts designed for channelizing devices should not be used for ballast on portable sign supports. Sign supports designed and manufactured with rubber bases may be used when shown on the CWZTCD list.
7. Sandbags shall only be placed along or laid over the base supports of the traffic control device and shall not be suspended above ground level or hung with rope, wire, chains or other fasteners. Sandbags shall be placed along the length of the skids to weigh down the sign support.
8. Sandbags shall NOT be placed under the skid and shall not be used to level sign supports placed on slopes.

FLAGS ON SIGNS

1. Flags may be used to draw attention to warning signs. When used, the flag shall be 16 inches square or larger and shall be orange or fluorescent red-orange in color. Flags shall not be allowed to cover any portion of the sign face.

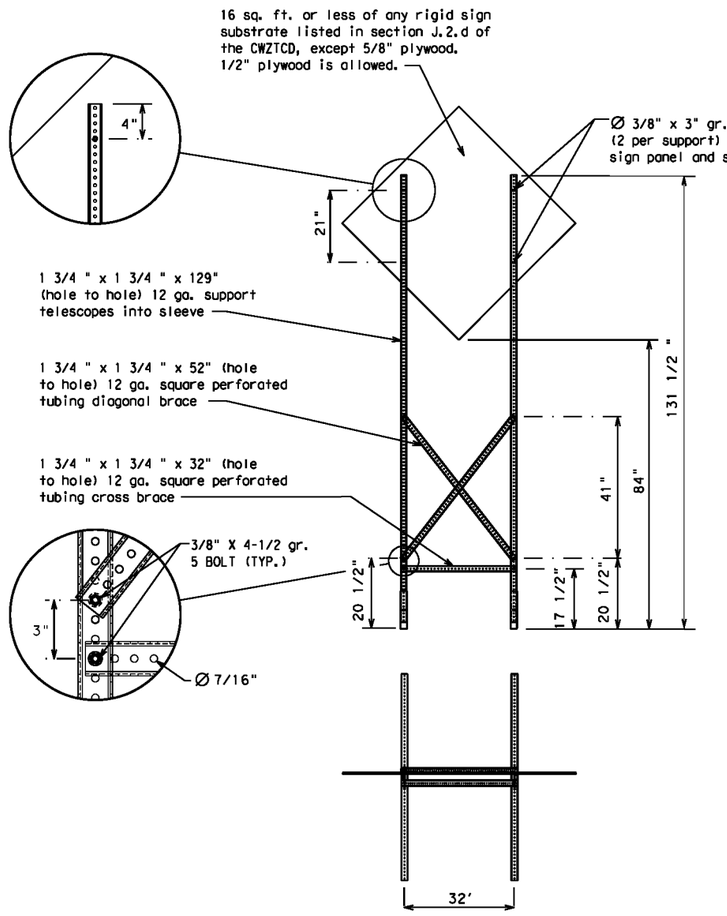
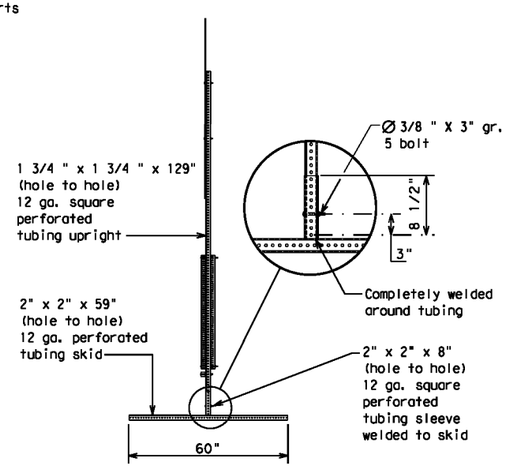
SKID MOUNTED WOOD SIGN SUPPORTS



* LONG/INTERMEDIATE TERM STATIONARY - PORTABLE SKID MOUNTED SIGN SUPPORTS



GROUND MOUNTED SIGN SUPPORTS

Refer to the CWZTCD and the manufacturer's installation procedure for each type sign support.
The maximum sign square footage shall adhere to the manufacturer's recommendation.
Two post installations can be used for larger signs.

SKID MOUNTED PERFORATED SQUARE STEEL TUBING SIGN SUPPORTS

* LONG/INTERMEDIATE TERM STATIONARY - PORTABLE SKID MOUNTED SIGN SUPPORTS

WEDGE ANCHORS

Both steel and plastic Wedge Anchor Systems as shown on the SMD Standard Sheets may be used as temporary sign supports for signs up to 10 square feet of sign face. They may be set in concrete or in sturdy soils if approved by the Engineer. (See web address for "Traffic Engineering Standard Sheets" on BC(1)).

OTHER DESIGNS

MORE DETAILS OF APPROVED LONG/INTERMEDIATE AND SHORT TERM SUPPORTS CAN BE FOUND ON THE CWZTCD LIST. SEE BC(1) FOR WEBSITE LOCATION.

GENERAL NOTES

1. Nails may be used in the assembly of wooden sign supports, but 3/8" bolts with nuts or 3/8" x 3 1/2" lag screws must be used on every joint for final connection.
2. No more than 2 sign posts shall be placed within a 7 ft. circle, except for specific materials noted on the CWZTCD List.
3. When project is completed, all sign supports and foundations shall be removed from the project site. This will be considered subsidiary to Item 502.

* See BC(4) for definition of "Work Duration."

** Wood sign posts MUST be one piece. Splicing will NOT be allowed. Posts shall be painted white.

□ See the CWZTCD for the type of sign substrate that can be used for each approved sign support.

WHEN NOT IN USE, REMOVE THE PCMS FROM THE RIGHT-OF-WAY OR PLACE THE PCMS BEHIND BARRIER OR GUARDRAIL WITH SIGN PANEL TURNED PARALLEL TO TRAFFIC

PORTABLE CHANGEABLE MESSAGE SIGNS

1. The Engineer/Inspector shall approve all messages used on portable changeable message signs (PCMS).
2. Messages on PCMS should contain no more than 8 words (about four to eight characters per word), not including simple words such as "TO," "FOR," "AT," etc.
3. Messages should consist of a single phase, or two phases that alternate. Three-phase messages are not allowed. Each phase of the message should convey a single thought, and must be understood by itself.
4. Use the word "EXIT" to refer to an exit ramp on a freeway; i.e., "EXIT CLOSED." Do not use the term "RAMP."
5. Always use the route or interstate designation (IH, US, SH, FM) along with the number when referring to a roadway.
6. When in use, the bottom of a stationary PCMS message panel should be a minimum 7 feet above the roadway, where possible.
7. The message term "WEEKEND" should be used only if the work is to start on Saturday morning and end by Sunday evening at midnight. Actual days and hours of work should be displayed on the PCMS if work is to begin on Friday evening and/or continue into Monday morning.
8. The Engineer/Inspector may select one of two options which are available for displaying a two-phase message on a PCMS. Each phase may be displayed for either four seconds each or for three seconds each.
9. Do not "flash" messages or words included in a message. The message should be steady burn or continuous while displayed.
10. Do not present redundant information on a two-phase message; i.e., keeping two lines of the message the same and changing the third line.
11. Do not use the word "Danger" in message.
12. Do not display the message "LANES SHIFT LEFT" or "LANES SHIFT RIGHT" on a PCMS. Drivers do not understand the message.
13. Do not display messages that scroll horizontally or vertically across the face of the sign.
14. The following table lists abbreviated words and two-word phrases that are acceptable for use on a PCMS. Both words in a phrase must be displayed together. Words or phrases not on this list should not be abbreviated, unless shown in the TMUTCD.
15. PCMS character height should be at least 18 inches for trailer mounted units. They should be visible from at least 1/2 (.5) mile and the text should be legible from at least 600 feet at night and 800 feet in daylight. Truck mounted units must have a character height of 10 inches and must be legible from at least 400 feet.
16. Each line of text should be centered on the message board rather than left or right justified.
17. If disabled, the PCMS should default to an illegible display that will not alarm motorists and will only be used to alert workers that the PCMS has malfunctioned. A pattern such as a series of horizontal solid bars is appropriate.

- NEXT FRI-SUN
- XX AM TO XX PM
- NEXT TUE AUG XX
- TONIGHT XX PM- XX AM

* LANES SHIFT in Phase 1 must be used with STAY IN LANE in Phase 2.

** See Application Guidelines Note 6.

APPLICATION GUIDELINES

1. Only 1 or 2 phases are to be used on a PCMS.
2. The 1st phase (or both) should be selected from the "Road/Lane/Ramp Closure List" and the "Other Condition List".
3. A 2nd phase can be selected from the "Action to Take/Effect on Travel, Location, General Warning, or Advance Notice Phase Lists".
4. A Location Phase is necessary only if a distance or location is not included in the first phase selected.
5. If two PCMS are used in sequence, they must be separated by a minimum of 1000 ft. Each PCMS shall be limited to two phases, and should be understandable by themselves.
6. For advance notice, when the current date is within seven days of the actual work date, calendar days should be replaced with days of the week. Advance notification should typically be for no more than one week prior to the work.

WORDING ALTERNATIVES

1. The words RIGHT, LEFT and ALL can be interchanged as appropriate.
2. Roadway designations IH, US, SH, FM and LP can be interchanged as appropriate.
3. EAST, WEST, NORTH and SOUTH (or abbreviations E, W, N and S) can be interchanged as appropriate.
4. Highway names and numbers replaced as appropriate.
5. ROAD, HIGHWAY and FREEWAY can be interchanged as needed.
6. AHEAD may be used instead of distances if necessary.
7. FT and MI, MILE and MILES interchanged as appropriate.
8. AT, BEFORE and PAST interchanged as needed.
9. Distances or AHEAD can be eliminated from the message if a location phase is used.

PCMS SIGNS WITHIN THE R.O.W. SHALL BE BEHIND GUARDRAIL OR CONCRETE BARRIER OR SHALL HAVE A MINIMUM OF FOUR (4) PLASTIC DRUMS PLACED PERPENDICULAR TO TRAFFIC ON THE UPSTREAM SIDE OF THE PCMS, WHEN EXPOSED TO ONE DIRECTION OF TRAFFIC. WHEN EXPOSED TO TWO WAY TRAFFIC, THE FOUR DRUMS SHOULD BE PLACED WITH ONE DRUM AT EACH OF THE FOUR CORNERS OF THE UNIT.

FULL MATRIX PCMS SIGNS

1. When Full Matrix PCMS signs are used, the character height and legibility/visibility requirements shall be maintained as listed in Note 15 under "PORTABLE CHANGEABLE MESSAGE SIGNS" above.
2. When symbol signs, such as the "Flagger Symbol"(CW20-7) are represented graphically on the Full Matrix PCMS sign and, with the approval of the Engineer, it shall maintain the legibility/visibility requirement listed above.
3. When symbol signs are represented graphically on the Full Matrix PCMS, they shall only supplement the use of the static sign represented, and shall not substitute for, or replace that sign.
4. A full matrix PCMS may be used to simulate a flashing arrow board provided it meets the visibility, flash rate and dimming requirements on BC(7), for the same size arrow.

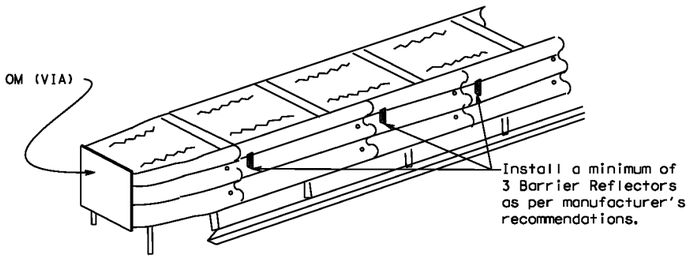
FILE:

1. Barrier Reflectors shall be pre-qualified, and conform to the color and reflectivity requirements of DMS-8600. A list of prequalified Barrier Reflectors can be found at the Material Producer List web address shown on BC(1).
2. Color of Barrier Reflectors shall be as specified in the TMUTCD. The cost of the reflectors shall be considered subsidiory to Item 512.



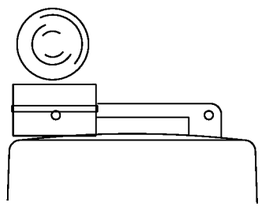
CONCRETE TRAFFIC BARRIER (CTB)

3. Where traffic is on one side of the CTB, two (2) Barrier Reflectors shall be mounted in approximately the midsection of each section of CTB. An alternate mounting location is uniformly spaced at one end of each CTB. This will allow for attachment of a barrier grapple without damaging the reflector. The Barrier Reflector mounted on the side of the CTB shall be located directly below the reflector mounted on top of the barrier, as shown in the detail above.
4. Where CTB separates two-way traffic, three barrier reflectors shall be mounted on each section of CTB. The reflector unit on top shall have two yellow reflective faces (Bi-Directional)while the reflectors on each side of the barrier shall have one yellow reflective face, as shown in the detail above.
5. When CTB separates traffic traveling in the same direction, no barrier reflectors will be required on top of the CTB.
6. Barrier Reflector units shall be yellow or white in color to match the edgeline being supplemented.
7. Maximum spacing of Barrier Reflectors is forty (40) feet.
8. Pavement markers or temporary flexible-reflective roadway marker tabs shall NOT be used as CTB delineation.
9. Attachment of Barrier Reflectors to CTB shall be per manufacturer's recommendations.
10. Missing or damaged Barrier Reflectors shall be replaced as directed by the Engineer.
11. Single slope barriers shall be delineated as shown on the above detail.

Max. spacing of barrier reflectors is 20 feet. Attach the delineators as per manufacturer's recommendations.

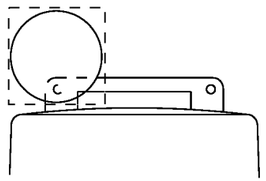
LOW PROFILE CONCRETE BARRIER (LPCB)

DELINEATION OF END TREATMENTS



LOW PROFILE CONCRETE BARRIER (LPCB) USED IN WORK ZONES

LPCB is approved for use in work zone locations, where the posted speed is 45mph, or less. See Roadway Standard Sheet LPCB.



END TREATMENTS FOR CTB'S USED IN WORK ZONES

End treatments used on CTB's in work zones shall meet the apppropriate crashworthy standards as defined in the Manual for Assessing Safety Hardware (MASH). Refer to the CWZTCD List for approved end treatments and manufacturers.

BARRIER REFLECTORS FOR CONCRETE TRAFFIC BARRIER AND ATTENUATORS

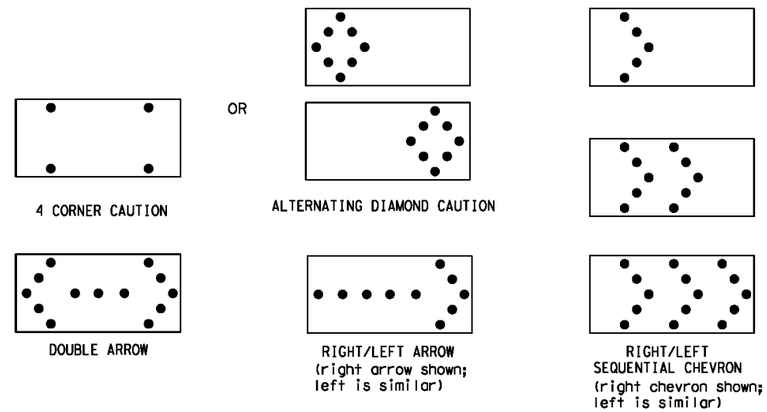
Type C Warning Light or approved substitute mounted on a drum adjacent to the travel way.

Warning reflector may be round or square. Must have a yellow reflective surface area of at least 30 square inches

WARNING LIGHTS

1. Warning lights shall meet the requirements of the TMUTCD.
2. Warning lights shall NOT be installed on barricades.
3. Type A-Low Intensity Flashing Warning Lights are commonly used with drums. They are intended to warn of or mark a potentially hazardous area. Their use shall be as indicated on this sheet and/or other sheets of the plans by the designation "FL". The Type A Warning Lights shall not be used with signs manufactured with Type B_{FL} or C_{FL} Sheeting meeting the requirements of Departmental Material Specification DMS-8300.
4. Type-C and Type D 360 degree Steady Burn Lights are intended to be used in a series for delineation to supplement other traffic control devices. Their use shall be as indicated on this sheet and/or other sheets of the plans by the designation "SB".
5. The Engineer/Inspector or the plans shall specify the location and type of warning lights to be installed on the traffic control devices.
6. When required by the Engineer, the Contractor shall furnish a copy of the warning lights certification. The warning light manufacturer will certify the warning lights meet the requirements of the latest ITE Purchase Specifications for Flashing and Steady-Burn Warning Lights.
7. When used to delineate curves, Type-C and Type D Steady Burn Lights should only be placed on the outside of the curve, not the inside.
8. The location of warning lights and warning reflectors on drums shall be as shown elsewhere in the plans.

WARNING LIGHTS MOUNTED ON PLASTIC DRUMS



1. Type A flashing warning lights are intended to warn drivers that they are approaching or are in a potentially hazardous area.
2. Type A random flashing warning lights are not intended for delineation and shall not be used in a series.
3. A series of sequential flashing warning lights placed on channelizing devices to form a merging taper may be used for delineation. If used, the successive flashing of the sequential warning lights should occur from the beginning of the taper to the end of the merging taper in order to identify the desired vehicle path. The rate of flashing for each light shall be 65 flashes per minute, plus or minus 10 flashes.
4. Type C and D steady-burn warning lights are intended to be used in a series to delineate the edge of the travel lane on detours, on lane changes, on lane closures, and on other similar conditions.
5. Type A, Type C and Type D warning lights shall be installed at locations as detailed on other sheets in the plans.
6. Warning lights shall not be installed on a drum that has a sign, chevron or vertical panel.
7. The maximum spacing for warning lights on drums should be identical to the channelizing device spacing.

WARNING REFLECTORS MOUNTED ON PLASTIC DRUMS AS A SUBSTITUTE FOR TYPE C (STEADY BURN) WARNING LIGHTS

1. A warning reflector or approved substitute may be mounted on a plastic drum as a substitute for a Type C, steady burn warning light at the discretion of the Contractor unless otherwise noted in the plans.
2. The warning reflector shall be yellow in color and shall be manufactured using a sign substrate approved for use with plastic drums listed on the CWZTCD.
3. The warning reflector shall have a minimum retroreflective surface area (one-side) of 30 square inches.
4. Round reflectors shall be fully reflectorized, including the area where attached to the drum.
5. Square substrates must have a minimum of 30 square inches of reflectorized sheeting. They do not have to be reflectorized where it attaches to the drum.
6. The side of the warning reflector facing approaching traffic shall have sheeting meeting the color and retroreflectivity requirements for DMS 8300-Type B or Type C.
7. When used near two-way traffic, both sides of the warning reflector shall be reflectorized.
8. The warning reflector should be mounted on the side of the handle nearest approaching traffic.
9. The maximum spacing for warning reflectors should be identical to the channelizing device spacing requirements.

Arrow Boards may be located behind channelizing devices in place for a shoulder taper or merging taper, otherwise they shall be delineated with four (4) channelizing devices placed perpendicular to traffic on the upstream side of traffic.

1. The Flashing Arrow Board should be used for all lane closures on multi-lane roadways, or slow moving maintenance or construction activities on the travel lanes.
2. Flashing Arrow Boards should not be used on two-lane, two-way roadways, detours, diversions or work on shoulders unless the "CAUTION" display (see detail below) is used.
3. The Engineer/Inspector shall choose all appropriate signs, barricades and/or other traffic control devices that should be used in conjunction with the Flashing Arrow Board.
4. The Flashing Arrow Board should be able to display the following symbols:

5. The "CAUTION" display consists of four corner lamps flashing simultaneously, or the Alternating Diamond Caution mode as shown.
6. The straight line caution display is NOT ALLOWED.
7. The Flashing Arrow Board shall be capable of minimum 50 percent dimming from rated lamp voltage. The flashing rate of the lamps shall not be less than 25 nor more than 40 flashes per minute.
8. Minimum lamp "on time" shall be approximately 50 percent for the flashing arrow and equal intervals of 25 percent for each sequential phase of the flashing chevron.
9. The sequential arrow display is NOT ALLOWED.
10. The flashing arrow display is the TxDOT standard; however, the sequential chevron display may be used during daylight operations.
11. The Flashing Arrow Board shall be mounted on a vehicle, trailer or other suitable support.
12. A Flashing Arrow Board SHALL NOT BE USED to laterally shift traffic.
13. A full matrix PCMS may be used to simulate a Flashing Arrow Board provided it meets visibility, flash rate and dimming requirements on this sheet for the same size arrow.
14. Minimum mounting height of trailer mounted Arrow Boards should be 7 feet from roadway to bottom of panel.

REQUIREMENTS			
TYPE	MINIMUM SIZE	MINIMUM NUMBER OF PANEL LAMPS	MINIMUM VISIBILITY DISTANCE
B	30 x 60	13	3/4 mile
C	48 x 96	15	1 mile

ATTENTION

Flashing Arrow Boards shall be equipped with automatic dimming devices.

WHEN NOT IN USE, REMOVE THE ARROW BOARD FROM THE RIGHT-OF-WAY OR PLACE THE ARROW BOARD BEHIND CONCRETE TRAFFIC BARRIER OR GUARDRAIL.

FLASHING ARROW BOARDS

SHEET 7 OF 12

TRUCK-MOUNTED ATTENUATORS

1. Truck-mounted attenuators (TMA) used on TxDOT facilities must meet the requirements outlined in the Manual for Assessing Safety Hardware (MASH).
2. Refer to the CWZTCD for the requirements of Level 2 or Level 3 TMAs.
3. Refer to the CWZTCD for a list of approved TMAs.
4. TMAs are required on freeways unless otherwise noted in the plans.
5. A TMA should be used anytime that it can be positioned 30 to 100 feet in advance of the area of crew exposure without adversely affecting the work performance.
6. The only reason a TMA should not be required is when a work area is spread down the roadway and the work crew is an extended distance from the TMA.

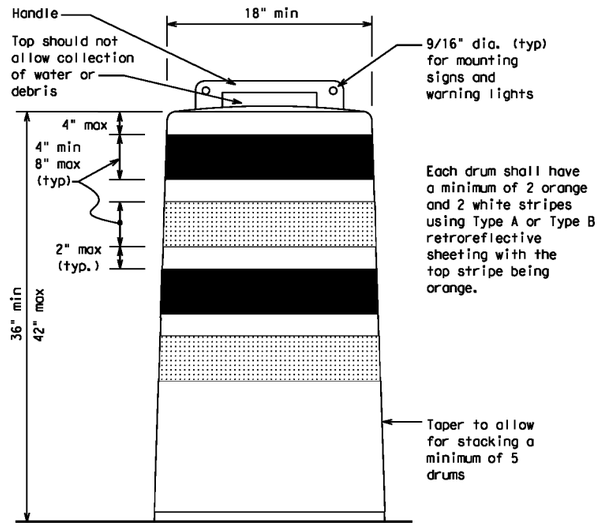
FILE:

GENERAL NOTES

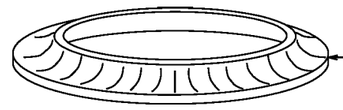
1. For long term stationary work zones on freeways, drums shall be used as the primary channelizing device.
2. For intermediate term stationary work zones on freeways, drums should be used as the primary channelizing device but may be replaced in tangent sections by vertical panels, or 42" two-piece cones. In tangent sections, one-piece cones may be used with the approval of the Engineer but only if personnel are present on the project at all times to maintain the cones in proper position and location.
3. For short term stationary work zones on freeways, drums are the preferred channelizing device but may be replaced in tapers, transitions and tangent sections by vertical panels, two-piece cones or one-piece cones as approved by the Engineer.
4. Drums and all related items shall comply with the requirements of the current version of the "Texas Manual on Uniform Traffic Control Devices" (TMUTCD) and the "Compliant Work Zone Traffic Control Devices List" (CWZTCD).
5. Drums, bases, and related materials shall exhibit good workmanship and shall be free from objectionable marks or defects that would adversely affect their appearance or serviceability.
6. The Contractor shall have a maximum of 24 hours to replace any plastic drums identified for replacement by the Engineer/Inspector. The replacement device must be an approved device.

GENERAL DESIGN REQUIREMENTS

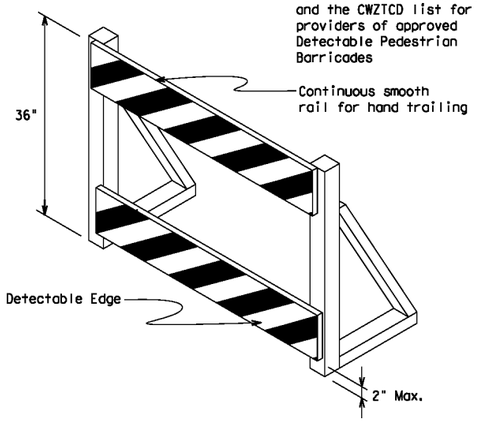
Pre-qualified plastic drums shall meet the following requirements:



1. Plastic drums shall be a two-piece design; the "body" of the drum shall be the top portion and the "base" shall be the bottom.
2. The body and base shall lock together in such a manner that the body separates from the base when impacted by a vehicle traveling at a speed of 20 MPH or greater but prevents accidental separation due to normal handling and/or air turbulence created by passing vehicles.
3. Plastic drums shall be constructed of lightweight flexible, and deformable materials. The Contractor shall NOT use metal drums or single piece plastic drums as channelization devices or sign supports.
4. Drums shall present a profile that is a minimum of 18 inches in width at the 36 inch height when viewed from any direction. The height of drum unit (body installed on base) shall be a minimum of 36 inches and a maximum of 42 inches.
5. The top of the drum shall have a built-in handle for easy pickup and shall be designed to drain water and not collect debris. The handle shall have a minimum of two widely spaced 9/16 inch diameter holes to allow attachment of a warning light, warning reflector unit or approved compliant sign.
6. The exterior of the drum body shall have a minimum of four alternating orange and white retroreflective circumferential stripes not less than 4 inches nor greater than 8 inches in width. Any non-reflectorized space between any two adjacent stripes shall not exceed 2 inches in width.
7. Bases shall have a maximum width of 36 inches, a maximum height of 4 inches, and a minimum of two footholds of sufficient size to allow base to be held down while separating the drum body from the base.
8. Plastic drums shall be constructed of ultra-violet stabilized, orange, high-density polyethylene (HDPE) or other approved material.
9. Drum body shall have a maximum unballasted weight of 11 lbs.
10. Drum and base shall be marked with manufacturer's name and model number.



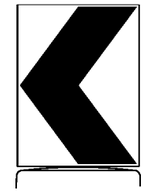
RETROREFLECTIVE SHEETING

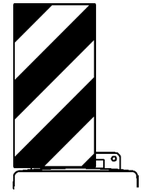


1. The stripes used on drums shall be constructed of sheeting meeting the color and retroreflectivity requirements of Departmental Materials Specification DMS-8300, "Sign Face Materials." Type A or Type B reflective sheeting shall be supplied unless otherwise specified in the plans.
2. The sheeting shall be suitable for use on and shall adhere to the drum surface such that, upon vehicular impact, the sheeting shall remain adhered in-place and exhibit no delaminating, cracking, or loss of retroreflectivity other than that loss due to abrasion of the sheeting surface.

BALLAST

1. Unballasted bases shall be large enough to hold up to 50 lbs. of sand. This base, when filled with the ballast material, should weigh between 35 lbs (minimum) and 50 lbs (maximum). The ballast may be sand in one to three sandbags separate from the base, sand in a sand-filled plastic base, or other ballasting devices as approved by the Engineer. Stacking of sandbags will be allowed, however height of sandbags above pavement surface may not exceed 12 inches.
2. Bases with built-in ballast shall weigh between 40 lbs. and 50 lbs. Built-in ballast can be constructed of an integral crumb rubber base or a solid rubber base.
3. Recycled truck tire sidewalls may be used for ballast on drums approved for this type of ballast on the CWZTCD list.
4. The ballast shall not be heavy objects, water, or any material that would become hazardous to motorists, pedestrians, or workers when the drum is struck by a vehicle.
5. When used in regions susceptible to freezing, drums shall have drainage holes in the bottoms so that water will not collect and freeze becoming a hazard when struck by a vehicle.
6. Ballast shall not be placed on top of drums.
7. Adhesives may be used to secure base of drums to pavement.





DETECTABLE PEDESTRIAN BARRICADES

1. When existing pedestrian facilities are disrupted, closed, or relocated in a TTC zone, the temporary facilities shall be detectable and include accessibility features consistent with the features present in the existing pedestrian facility. Refer to WZ(BTS-2) for Pedestrian Control requirements for Sidewalk Diversions, Sidewalk Detours and Crosswalk Closures.
2. Where pedestrians with visual disabilities normally use the closed sidewalk, a Detectable Pedestrian Barricade shall be placed across the full width of the closed sidewalk instead of a Type 3 Barricade.
3. Detectable pedestrian barricades similar to the one pictured above, longitudinal channelizing devices, some concrete barriers, and wood or chain link fencing with a continuous detectable edging can satisfactorily delineate a pedestrian path.
4. Tape, rope, or plastic chain strung between devices are not detectable, do not comply with the design standards in the "Americans with Disabilities Act Accessibility Guidelines (ADAAG)" and should not be used as a control for pedestrian movements.
5. Warning lights shall not be attached to detectable pedestrian barricades.
6. Detectable pedestrian barricades should use 8" nominal barricade rails as shown on BC(10) provided that the top rail provides a smooth continuous rail suitable for hand trailing with no splinters, burrs, or sharp edges.

18" x 24" Sign
(Maximum Sign Dimension)
Chevron CW1-8, Opposing Traffic Lane Divider, Driveway sign D70a, Keep Right R4 series or other signs as approved by Engineer

12" x 24"
Vertical Panel
mount with diagonals sloping down towards travel way

Plywood, Aluminum or Metal sign substrates shall NOT be used on plastic drums

SIGNS, CHEVRONS, AND VERTICAL PANELS MOUNTED ON PLASTIC DRUMS

1. Signs used on plastic drums shall be manufactured using substrates listed on the CWZTCD.
2. Chevrons and other work zone signs with an orange background shall be manufactured with Type B_{FL} or Type C_{FL} Orange sheeting meeting the color and retroreflectivity requirements of DMS-8300, "Sign Face Material," unless otherwise specified in the plans.
3. Vertical Panels shall be manufactured with orange and white sheeting meeting the requirements of DMS-8300 Type A or Type B. Diagonal stripes on Vertical Panels shall slope down toward the intended traveled lane.
4. Other sign messages (text or symbolic) may be used as approved by the Engineer. Sign dimensions shall not exceed 18 inches in width or 24 inches in height, except for the R9 series signs discussed in note 8 below.
5. Signs shall be installed using a 1/2 inch bolt (nominal) and nut, two washers, and one locking washer for each connection.
6. Mounting bolts and nuts shall be fully engaged and adequately torqued. Bolts should not extend more than 1/2 inch beyond nuts.
7. Chevrons may be placed on drums on the outside of curves, on merging tapers or on shifting tapers. When used in these locations, they may be placed on every drum or spaced not more than on every third drum. A minimum of three (3) should be used at each location called for in the plans.
8. R9-9, R9-10, R9-11 and R9-11a Sidewalk Closed signs which are 24 inches wide may be mounted on plastic drums, with approval of the Engineer.

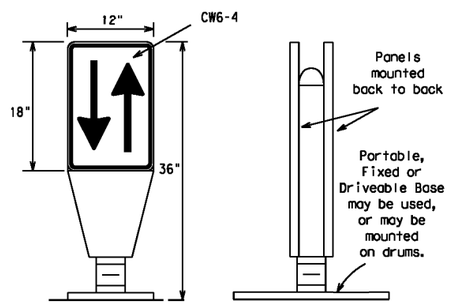
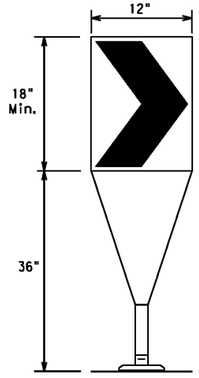
FIXED
(Rigid or self-righting)

DRIVEABLE



(Rigid or self-righting)

PORTABLE

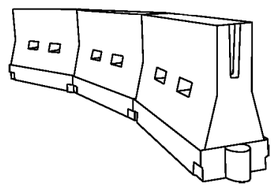


1. Vertical Panels (VP's) are normally used to channelize traffic or divide opposing lanes of traffic.
2. VP's may be used in daytime or nighttime situations. They may be used at the edge of shoulder drop-offs and other areas such as lane transitions where positive daytime and nighttime delineation is required. The Engineer/Inspector shall refer to the Roadway Design Manual for additional requirements on the use VP's for drop-offs.
3. VP's should be mounted back to back if used at the edge of cuts adjacent to two-way two lane roadways. Stripes are to be reflective orange and reflective white and should always slope downward toward the travel lane.
4. VP's used on expressways and freeways or other high speed roadways, may have more than 270 square inches of retroreflective area facing traffic.
5. Self-righting supports are available with portable base. See "Compliant Work Zone Traffic Control Devices List" (CWZTCD).
6. Sheeting for the VP's shall be retroreflective Type A or Type B conforming to Departmental Material Specification DMS-8300, unless noted otherwise.
7. Where the height of reflective material on the vertical panel is 36 inches or greater, a panel stripe of 6 inches shall be used.

VERTICAL PANELS (VPs)

1. Opposing Traffic Lane Dividers (OTLD) are delineation devices designed to convert a normal one-way roadway section to two-way operation. OTLD's are used on temporary centerlines. The upward and downward arrows on the sign's face indicate the direction of traffic on either side of the divider. The base is secured to the pavement with an adhesive or rubber weight to minimize movement caused by a vehicle impact or wind gust.
2. The OTLD may be used in combination with 42" cones or VPs.
3. Spacing between the OTLD shall not exceed 500 feet. 42" cones or VPs placed between the OTLD's should not exceed 100 foot spacing.
4. The OTLD shall be orange with a black non-reflective legend. Sheeting for the OTLD shall be retroreflective Type B_{FL} or Type C_{FL} conforming to Departmental Material Specification DMS-8300, unless noted otherwise. The legend shall meet the requirements of DMS-8300.

OPPOSING TRAFFIC LANE DIVIDERS (OTLD)



Fixed Base w/ Approved Adhesive (Driveable Base, or Flexible Support can be used)

1. The chevron shall be a vertical rectangle with a minimum size of 12 by 18 inches.
2. Chevrons are intended to give notice of a sharp change of alignment with the direction of travel and provide additional emphasis and guidance for vehicle operators with regard to changes in horizontal alignment of the roadway.
3. Chevrons, when used, shall be erected on the outside of a sharp curve or turn, or on the far side of an intersection. They shall be in line with and at right angles to approaching traffic. Spacing should be such that the motorist always has three in view, until the change in alignment eliminates its need.
4. To be effective, the chevron should be visible for at least 500 feet.
5. Chevrons shall be orange with a black nonreflective legend. Sheeting for the chevron shall be retroreflective Type B_{FL} or Type C_{FL} conforming to Departmental Material Specification DMS-8300, unless noted otherwise. The legend shall meet the requirements of DMS-8300.
6. For Long Term Stationary use on tapers or transitions on freeways and divided highways, self-righting chevrons may be used to supplement plastic drums but not to replace plastic drums.

CHEVRONS

GENERAL NOTES

1. Work Zone channelizing devices illustrated on this sheet may be installed in close proximity to traffic and are suitable for use on high or low speed roadways. The Engineer/Inspector shall ensure that spacing and placement is uniform and in accordance with the "Texas Manual on Uniform Traffic Control Devices" (TMUTCD).
2. Channelizing devices shown on this sheet may have a driveable, fixed or portable base. The requirement for self-righting channelizing devices must be specified in the General Notes or other plan sheets.
3. Channelizing devices on self-righting supports should be used in work zone areas where channelizing devices are frequently impacted by errant vehicles or vehicle related wind gusts making alignment of the channelizing devices difficult to maintain. Locations of these devices shall be detailed elsewhere in the plans. These devices shall conform to the TMUTCD and the "Compliant Work Zone Traffic Control Devices List" (CWZTCD).
4. The Contractor shall maintain devices in a clean condition and replace damaged, nonreflective, faded, or broken devices and bases as required by the Engineer/Inspector. The Contractor shall be required to maintain proper device spacing and alignment.
5. Portable bases shall be fabricated from virgin and/or recycled rubber. The portable bases shall weigh a minimum of 30 lbs.
6. Pavement surfaces shall be prepared in a manner that ensures proper bonding between the adhesives, the fixed mount bases and the pavement surface. Adhesives shall be prepared and applied according to the manufacturer's recommendations.
7. The installation and removal of channelizing devices shall not cause detrimental effects to the final pavement surfaces, including pavement surface discoloration or surface integrity. Driveable bases shall not be permitted on final pavement surfaces. The Engineer/Inspector shall approve all application and removal procedures of fixed bases.

LONGITUDINAL CHANNELIZING DEVICES (LCD)

1. LCDs are crashworthy, lightweight, deformable devices that are highly visible, have good target value and can be connected together. They are not designed to contain or redirect a vehicle on impact.
2. LCDs may be used instead of a line of cones or drums.
3. LCDs shall be placed in accordance to application and installation requirements specific to the device, and used only when shown on the CWZTCD list.
4. LCDs should not be used to provide positive protection for obstacles, pedestrians or workers.
5. LCDs shall be supplemented with retroreflective delineation as required for temporary barriers on BC(7) when placed roughly parallel to the travel lanes.
6. LCDs used as barricades placed perpendicular to traffic should have at least one row of reflective sheeting meeting the requirements for barricade rails as shown on BC(10). Place reflective sheeting near the top of the LCD along the full length of the device.

WATER BALLASTED SYSTEMS USED AS BARRIERS

1. Water ballasted systems used as barriers shall not be used solely to channelize road users, but also to protect the work space per the appropriate Manual for Assessing Safety Hardware (MASH) crashworthiness requirements based on roadway speed and barrier application.
2. Water ballasted systems used to channelize vehicular traffic shall be supplemented with retroreflective delineation or channelizing devices to improve daytime/nighttime visibility. They may also be supplemented with pavement markings.
3. Water ballasted systems used as barriers shall be placed in accordance to application and installation requirements specific to the device, and used only when shown on the CWZTCD list.
4. Water ballasted systems used as barriers should not be used for a merging taper except in low speed (less than 45 MPH) urban areas. When used on a taper in a low speed urban area, the taper shall be delineated and the taper length should be designed to optimize road user operations considering the available geometric conditions.
5. When water ballasted systems used as barriers have blunt ends exposed to traffic, they should be attenuated as per manufacturer recommendations or flared to a point outside the clear zone.

If used to channelize pedestrians, longitudinal channelizing devices or water ballasted systems must have a continuous detectable bottom for users of long canes and the top of the unit shall not be less than 32 inches in height.

HOLLOW OR WATER BALLASTED SYSTEMS USED AS LONGITUDINAL CHANNELIZING DEVICES OR BARRIERS

Posted Speed	Formula	Minimum Desirable Taper Lengths ** 10' Offset	11' Offset	12' Offset	Suggested Maximum Spacing of Channelizing Devices On a Taper	On a Tangent

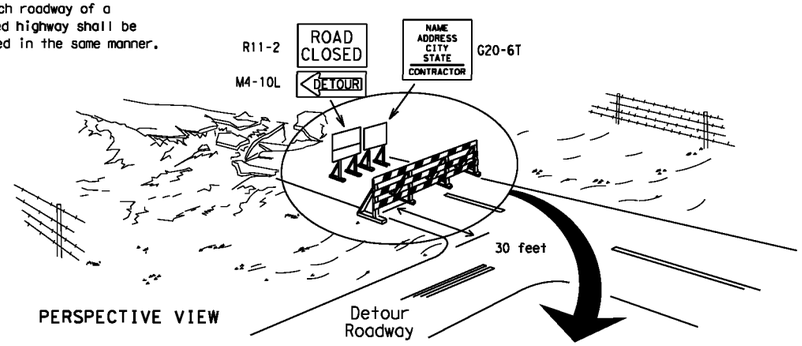
TYPE 3 BARRICADES

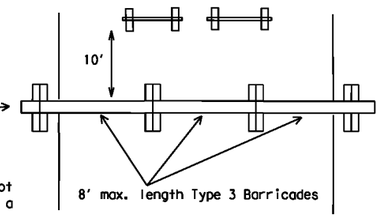
1. Refer to the Compliant Work Zone Traffic Control Devices List (CWZTCD) for details of the Type 3 Barricades and a list of all materials used in the construction of Type 3 Barricades.
2. Type 3 Barricades shall be used at each end of construction projects closed to all traffic.
3. Barricades extending across a roadway should have stripes that slope downward in the direction toward which traffic must turn in detouring. When both right and left turns are provided, the chevron striping may slope downward in both directions from the center of the barricade. Where no turns are provided at a closed road, striping should slope downward in both directions toward the center of roadway.
4. Striping of rails, for the right side of the roadway, should slope downward to the left. For the left side of the roadway, striping should slope downward to the right.
5. Identification markings may be shown only on the back of the barricade rails. The maximum height of letters and/or company logos used for identification shall be 1".
6. Barricades shall not be placed parallel to traffic unless an adequate clear zone is provided.
7. Warning lights shall NOT be installed on barricades.
8. Where barricades require the use of weights to keep from turning over, the use of sandbags with dry, cohesionless sand is recommended. The sandbags will be tied shut to keep the sand from spilling and to maintain a constant weight. Sand bags shall not be stacked in a manner that covers any portion of a barricade rails reflective sheeting. Rock, concrete, iron, steel or other solid objects will NOT be permitted. Sandbags should weigh a minimum of 35 lbs and a maximum of 50 lbs. Sandbags shall be made of a durable material that tears upon vehicular impact. Rubber (such as tire inner tubes) shall not be used for sandbags. Sandbags shall only be placed along or upon the base supports of the device and shall not be suspended above ground level or hung with rope, wire, chains or other fasteners.
9. Sheeting for barricades shall be retroreflective Type A or Type B conforming to Departmental Material Specification DMS-8300 unless otherwise noted.

Barricades shall NOT be used as a sign support.



TYPICAL STRIPING DETAIL FOR BARRICADE RAIL

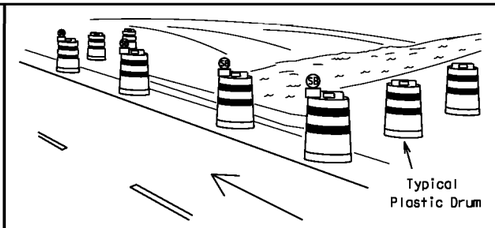
Stiffener may be inside or outside of support, but no more than 2 stiffeners shall be allowed on one barricade.



TYPICAL PANEL DETAIL
FOR SKID OR POST TYPE BARRICADES

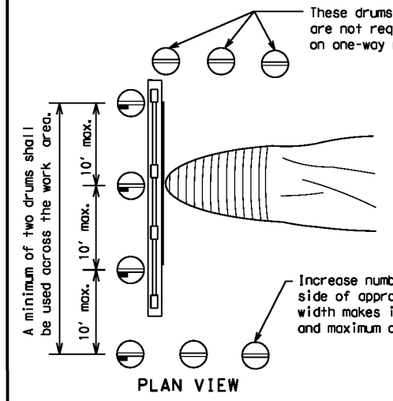
Each roadway of a divided highway shall be barricaded in the same manner.

PERSPECTIVE VIEW



The three rails on Type 3 barricades shall be reflectorized orange and reflective white stripes on one side facing one-way traffic and both sides for two-way traffic.
Barricade striping should slant downward in the direction of detour.

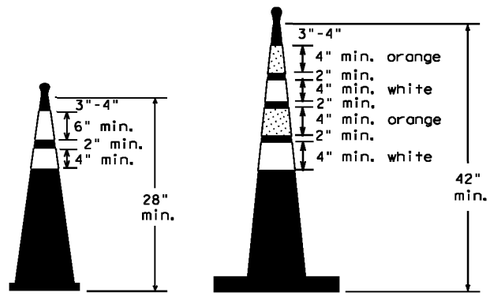
PLAN VIEW



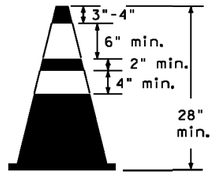
1. Signs should be mounted on independent supports at a 7 foot mounting height in center of roadway. The signs should be a minimum of 10 feet behind Type 3 Barricades.
2. Advance signing shall be as specified elsewhere in the plans.

TYPE 3 BARRICADE (POST AND SKID) TYPICAL APPLICATION

PERSPECTIVE VIEW

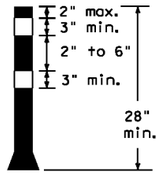


1. Where positive redirectional capability is provided, drums may be omitted.
2. Plastic construction fencing may be used with drums for safety as required in the plans.
3. Vertical Panels on flexible support may be substituted for drums when the shoulder width is less than 4 feet.
4. When the shoulder width is greater than 12 feet, steady-burn lights may be omitted if drums are used.
5. Drums must extend the length of the culvert widening.



LEGEND	
	Plastic drum
	Plastic drum with steady burn light or yellow warning reflector
SB	Steady burn warning light or yellow warning reflector

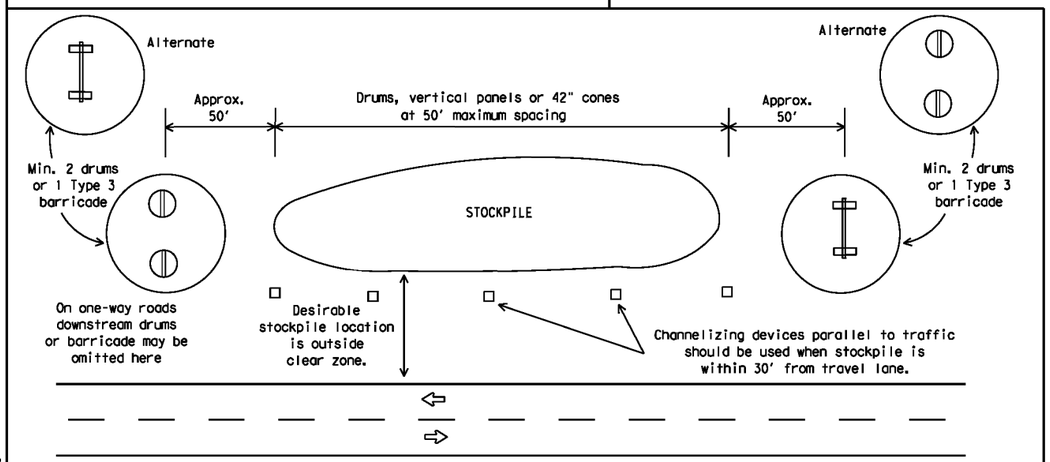
PLAN VIEW



CULVERT WIDENING OR OTHER ISOLATED WORK WITHIN THE PROJECT LIMITS

Two-Piece cones

One-Piece cones



Tubular Marker

28" Cones shall have a minimum weight of 9 1/2 lbs.

42" 2-piece cones shall have a minimum weight of 30 lbs. including base.

1. Traffic cones and tubular markers shall be predominantly orange, and meet the height and weight requirements shown above.
2. One-piece cones have the body and base of the cone molded in one consolidated unit. Two-piece cones have a cone shaped body and a separate rubber base, or ballast, that is added to keep the device upright and in place.
3. Two-piece cones may have a handle or loop extending up to 8" above the minimum height shown, in order to aid in retrieving the device.
4. Cones or tubular markers shall have white or white and orange reflective bands as shown above. The reflective bands shall have a smooth, sealed outer surface and meet the requirements of Departmental Material Specification DMS-8300 Type A or Type B.
5. 28" cones and tubular markers are generally suitable for short duration and short-term stationary work as defined on BC(4). These should not be used for intermediate-term or long-term stationary work unless personnel is on-site to maintain them in their proper upright position.
6. 42" two-piece cones, vertical panels or drums are suitable for all work zone durations.
7. Cones or tubular markers used on each project should be of the same size and shape.

WORK ZONE PAVEMENT MARKINGS

GENERAL

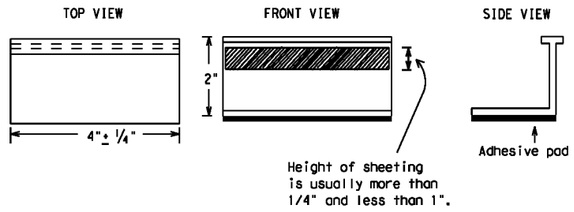
1. The Contractor shall be responsible for maintaining work zone and existing pavement markings, in accordance with the standard specifications and special provisions, on all roadways open to traffic within the CSJ limits unless otherwise stated in the plans.
2. Color, patterns and dimensions shall be in conformance with the "Texas Manual on Uniform Traffic Control Devices" (TMUTCD).
3. Additional supplemental pavement marking details may be found in the plans or specifications.
4. Pavement markings shall be installed in accordance with the TMUTCD and as shown on the plans.
5. When short term markings are required on the plans, short term markings shall conform with the TMUTCD, the plans and details as shown on the Standard Plan Sheet WZ(STPM).
6. When standard pavement markings are not in place and the roadway is opened to traffic, DO NOT PASS signs shall be erected to mark the beginning of the sections where passing is prohibited and PASS WITH CARE signs at the beginning of sections where passing is permitted.
7. All work zone pavement markings shall be installed in accordance with Item 662, "Work Zone Pavement Markings."

RAISED PAVEMENT MARKERS

1. Raised pavement markers are to be placed according to the patterns on BC(12).
2. All raised pavement markers used for work zone markings shall meet the requirements of Item 672, "RAISED PAVEMENT MARKERS" and Departmental Material Specification DMS-4200 or DMS-4300.

PREFABRICATED PAVEMENT MARKINGS

1. Removable prefabricated pavement markings shall meet the requirements of DMS-8241.
2. Non-removable prefabricated pavement markings (foil back) shall meet the requirements of DMS-8240.



MAINTAINING WORK ZONE PAVEMENT MARKINGS

1. The Contractor will be responsible for maintaining work zone pavement markings within the work limits.
2. Work zone pavement markings shall be inspected in accordance with the frequency and reporting requirements of work zone traffic control device inspections as required by Form 599.
3. The markings should provide a visible reference for a minimum distance of 300 feet during normal daylight hours and 160 feet when illuminated by automobile low-beam headlights at night, unless sight distance is restricted by roadway geometrics.
4. Markings failing to meet this criteria within the first 30 days after placement shall be replaced at the expense of the Contractor as per Specification Item 662.

REMOVAL OF PAVEMENT MARKINGS

1. Pavement markings that are no longer applicable, could create confusion or direct a motorist toward or into the closed portion of the roadway shall be removed or obliterated before the roadway is opened to traffic.
2. The above shall not apply to detours in place for less than three days, where flaggers and/or sufficient channelizing devices are used in lieu of markings to outline the detour route.
3. Pavement markings shall be removed to the fullest extent possible, so as not to leave a discernable marking. This shall be by any method approved by TxDOT Specification Item 677 for "Eliminating Existing Pavement Markings and Markers".
4. The removal of pavement markings may require resurfacing or seal coating portions of the roadway as described in Item 677.
5. Subject to the approval of the Engineer, any method that proves to be successful on a particular type pavement may be used.
6. Blast cleaning may be used but will not be required unless specifically shown in the plans.
7. Over-painting of the markings SHALL NOT BE permitted.
8. Removal of raised pavement markers shall be as directed by the Engineer.
9. Removal of existing pavement markings and markers will be paid for directly in accordance with Item 677, "ELIMINATING EXISTING PAVEMENT MARKINGS AND MARKERS," unless otherwise stated in the plans.
10. Black-out marking tape may be used to cover conflicting existing markings for periods less than two weeks when approved by the Engineer.

Temporary Flexible-Reflective Roadway Marker Tabs

STAPLES OR NAILS SHALL NOT BE USED TO SECURE TEMPORARY FLEXIBLE-REFLECTIVE ROADWAY MARKER TABS TO THE PAVEMENT SURFACE

1. Temporary flexible-reflective roadway marker tabs used as guidemarks shall meet the requirements of DMS-8242.
2. Tabs detailed on this sheet are to be inspected and accepted by the Engineer or designated representative. Sampling and testing is not normally required, however at the option of the Engineer, either "A" or "B" below may be imposed to assure quality before placement on the roadway.
   A. Select five (5) or more tabs at random from each lot or shipment and submit to the Construction Division, Materials and Pavement Section to determine specification compliance.
   B. Select five (5) tabs and perform the following test. Affix five (5) tabs at 24 inch intervals on an asphaltic pavement in a straight line. Using a medium size passenger vehicle or pickup, run over the markers with the front and rear tires at a speed of 35 to 40 miles per hour, four (4) times in each direction. No more than one (1) out of the five (5) reflective surfaces shall be lost or displaced as a result of this test.
3. Small design variances may be noted between tab manufacturers.
4. See Standard Sheet WZ(STPM) for tab placement on new pavements. See Standard Sheet TCP(7-1) for tab placement on seal coat work.

RAISED PAVEMENT MARKERS USED AS GUIDEMARKS

1. Raised pavement markers used as guidemarks shall be from the approved product list, and meet the requirements of DMS-4200.
2. All temporary construction raised pavement markers provided on a project shall be of the same manufacturer.
3. Adhesive for guidemarks shall be bituminous material hot applied or butyl rubber pad for all surfaces, or thermoplastic for concrete surfaces.

Guidemarks shall be designated as:
YELLOW - (two amber reflective surfaces with yellow body).
WHITE - (one silver reflective surface with white body).

DEPARTMENTAL MATERIAL SPECIFICATIONS	
PAVEMENT MARKERS (REFLECTORIZED)	DMS-4200

	✓	✓		

GENERAL NOTES

1. Flags attached to signs where shown are REQUIRED.
2. All traffic control devices illustrated are REQUIRED, except those denoted with the triangle symbol may be omitted when stated elsewhere in the plans, or for routine maintenance work, when approved by the Engineer.
3. The CW3-4 "BE PREPARED TO STOP" sign may be installed after the CW20-4D "ONE LANE ROAD AHEAD" sign, but proper sign spacing shall be maintained.
4. Sign spacing may be increased or an additional CW20-1D "ROAD WORK AHEAD" sign may be used if advance warning ahead of the flagger or R1-2 "YIELD" sign is less than 1500 feet.
5. A Shadow Vehicle with a TMA should be used anytime it can be positioned 30 to 100 feet in advance of the area of crew exposure without adversely affecting the performance or quality of the work. If workers are no longer present but road or work conditions require the traffic control to remain in place, Type 3 Barricades or other channelizing devices may be substituted for the Shadow Vehicle and TMA.
6. Additional Shadow Vehicles with TMAs may be positioned off the paved surface, next to those shown in order to protect wider work spaces.

TCP (1-2a)

7. R1-2 "YIELD" sign traffic control may be used on projects with approaches that have adequate sight distance. For projects in urban areas, work spaces should be no longer than one half city block. In rural areas on roadways with less than 2000 ADT, work spaces should be no longer than 400 feet.
8. R1-2 "YIELD" sign with R1-2aP "TO ONCOMING TRAFFIC" plaque shall be placed on a support at a 7 foot minimum mounting height.

TCP (1-2b)

9. Flaggers should use two-way radios or other methods of communication to control traffic.
10. Length of work space should be based on the ability of flaggers to communicate.
11. If the work space is located near a horizontal or vertical curve, the buffer distances should be increased in order to maintain adequate stopping sight distance to the flagger and a queue of stopped vehicles (see table above).
12. Channelizing devices on the center-line may be omitted when a pilot car is leading traffic and approved by the Engineer.
13. Flaggers should use 24" STOP/SLOW paddles to control traffic. Flags should be limited to emergency situations.

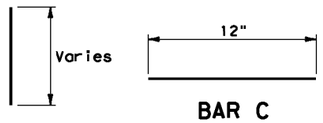
EXPANSION JOINT DETAIL



CURB TRANSITION NOTE:
Field conditions may require a longer or shorter transition, and shall be shown elsewhere in the plans, or as directed by the Engineer.

CURB TRANSITION
Note: To be paid for as Highest Curb

GENERAL NOTES

1. All materials and construction shall be in accordance with Item 529, "Concrete Curb, Gutter, and Combined Curb and Gutter."
2. Concrete shall be Class A.
3. When reinforcing bars are used, they shall be No.4 unless otherwise shown. The use of fiber reinforced concrete in lieu of reinforcing steel is acceptable. Use fibers meeting the requirements of DMS 4550, "Fibers for Concrete," and dose fibers in accordance with Material Producers List (MPL) "Fibers for Class A and B Concrete Applications."
4. Round exposed sharp edges with a rounding tool, to a minimum radius of ¼ inch.
5. All existing curbs and driveways to be removed shall be sawed or removed at existing joints.
6. Where concrete curb is to be placed on existing concrete pavement, Bar B may be drilled and grouted in place, or may be inserted into fresh concrete.
7. Expansion and contraction joints shall be constructed to match pavement joints in all curbs and curb and gutter adjacent to jointed concrete pavement. Where placement of curb or curb and gutter is not adjacent to concrete pavement, expansion joints shall be provided at structures, curb returns at streets, and at locations directed by The Engineer.
8. Vertical and horizontal dowel bars and transverse reinforcing bars shall be placed at four feet C-C.
9. Dimension 'T' shown is the thickness of concrete pavement. When curb is installed adjacent to flexible pavement dimension 'T' is 8" maximum.
10. Usual profile grade line. Refer to typical sections and plan-profile sheets for exact locations.
11. One-half inch expansion joint material shall be provided where curb or curb and gutter is adjacent to sidewalk or riprap.
12. When horizontal permissible construction joints are used, the longitudinal pavement steel shall be placed in accordance with pavement details shown elsewhere in the plans. Reinforcing steel for curb section shall then conform to that required for concrete curb.
13. Bar B placement as needed (typically at four ft. C-C) to support curb reinforcing steel during concrete placement.

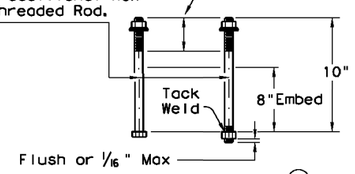
HANDRAIL FABRICATION DETAILS

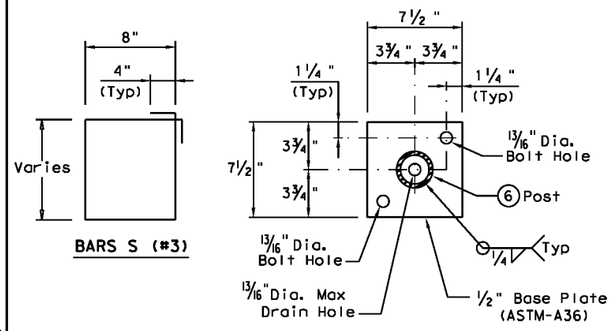
TYPICAL WALL MOUNT DETAILS

(5) 1 ½" Dia. Standard Pipe (1.900" O.D., 0.145" wall thickness). Parallel to ramp/sidewalk. Provide holes as needed in 1 ½" Dia. pipe for galvanizing drainage and venting.

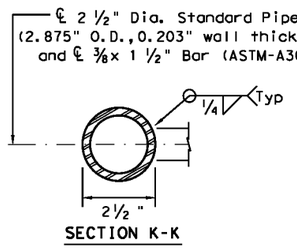


(6) 2 ½" Dia. Standard Pipe (2.875" O.D., 0.203" wall thickness). Plumb all posts. See "Post Mount Detail" for crimping and trimming post to fit the diamenter of top rail. Provide holes as needed in post for galvanizing drainage and venting.

(11) See "General Notes" for anchor bolt information.

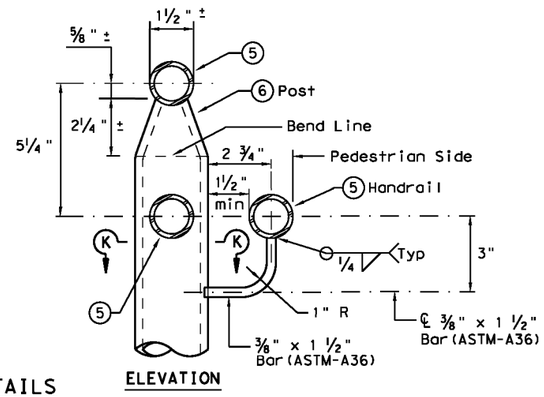


(12) Bars S(#3) spaced at 12" Max (Spaced 3" from outside edge of overall length of Ramp/Sidewalk).



(13) Provide 1 ½" end cover to Bars D(#4) from outside edge of overall length of Ramp/Sidewalk.

℄ ⅝" Dia. Hex Head Anchor Bolt (ASTM-A307) or Threaded Rod (ASTM-A36) with one Hardened Steel Washer placed under Hex Nut. One additional Hex Nut will be furnished for each Threaded Rod.



CAST-IN-PLACE ANCHOR BOLT OPTIONS
(Used for Post Base Plate only)

POST MOUNT DETAILS

GENERAL NOTES

Designed according to ADAAG, Texas Accessibility Standards, Uniform Building Code, and AASHTO LRFD Specifications.

Handrail anchorage details shown on this standard may require modification for select structure types. See appropriate details elsewhere in plans for these modifications.

Pipe will conform to ASTM-A53 Grade B or A500 Grade B. Steel plates and steel bars will conform to ASTM-A36. Mechanical tubing (MT) will conform to ASTM A513 Grade 1015 or higher. Galvanize all steel components except reinforcing steel unless noted otherwise.

Concrete for foundations will be in accordance with Item 531 "Sidewalks". All reinforcing steel must be Grade 60. Bar laps, where required, will be as follows: Uncoated ~ #4 = 1'-5" Epoxy coated ~ #4 = 2'-1"

When the plans require painted steel, follow the requirements for painting galvanized steel in Item 446, "Cleaning and Painting Steel". Sleeve Members will receive galvanization and only get field painted after installation unless directed otherwise by Engineer.

Epoxy Anchor bolts for wall mount and post base plate will be ⅝" Dia. ASTM A36 threaded rods with one hex nut and one hardened steel washer at each bolt. ⅝" Dia. threaded rod embedment depth for wall mounts is 3 ½" and embedment depth for post base plate is 5".

Embed threaded rods into concrete with a Type III (Class C) epoxy meeting the requirements of DMS-6100, "Epoxies and Adhesives". Mix and dispense adhesive with the manufacturer's static mixing nozzle/dual cartridge system. Core drill holes (percussion drilling not permitted).

At the contractor's option the post base plate anchor bolts may be cast with the Ramp/Sidewalk (See Cast-in-Place Anchor Bolt Options).

Optional cast-in-place anchor bolts will be ⅝" Dia ASTM A307 Grade A bolts (or A36 threaded rods with one tack welded hex nut each) with one hex nut and one hardened steel washer at each bolt. Embedment depth of cast-in-place bolt will be 8" for post base plate.

Handrails and any wall or other surface adjacent to them will be free of any sharp or abrasive elements.

Submit shop drawings to the Engineer unless otherwise noted. For curved handrail applications, fabricate the handrail to the curve if radius is less than 600 ft. Shop drawings are required when rail is fabricated to the curve.

For all handrails, erection drawings will be submitted to the Engineer for approval to ensure proper installation.

Drawings will show handrail mount locations with bolts setting, spacing, ramp slope, and/or splice joint locations, and handrail lengths with identification showing where each handrail goes on the layout.

Payment for concrete sidewalks or curb ramps will be paid for in accordance with Item 531 "Sidewalks".

Payment for all items shown is to be included in unit price bid in accordance with Item 450 "Railing" of the type specified.

All exposed edges will be rounded or chamfered to approximately ⅛" by grinding.

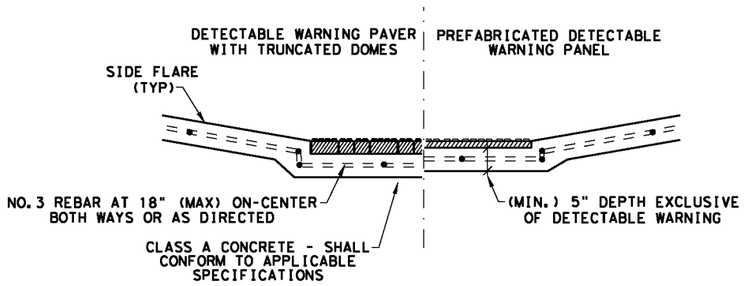
GENERAL NOTES

CURB RAMPS

1. Install a curb ramp or blended transition at each pedestrian street crossing.
2. All slopes shown are maximum allowable. Cross slopes of 1.5% and lesser running should be used. Adjust curb ramp length or grade of approach sidewalks as directed.
3. Maximum allowable cross slope on sidewalk and curb ramp surfaces is 2%.
4. The minimum sidewalk width is 5'. Where the sidewalk is adjacent to the back of curb, a 6' sidewalk width is desirable. Where a 5' sidewalk cannot be provided due to site constraints, sidewalk width may be reduced to 4' for short distances. 5'x 5' passing areas at intervals not to exceed 200' are required.
5. Turning Spaces shall be 5'x 5' minimum. Cross slope shall be maximum 2%.
6. Clear space at the bottom of curb ramps shall be a minimum of 4'x 4' wholly contained within the crosswalk and wholly outside the parallel vehicular travel path.
7. Provide flared sides where the pedestrian circulation path crosses the curb ramp. Flared sides shall be sloped at 10% maximum, measured parallel to the curb. Returned curbs may be used only where pedestrians would not normally walk across the ramp, either because the adjacent surface is planted, substantially obstructed, or otherwise protected.
8. Additional information on curb ramp location, design, light reflective value and texture may be found in the latest draft of the Proposed Guidelines for Pedestrian Facilities in the Public Right of Way (PROWAG) as published by the U.S. Architectural and Transportation Barriers Compliance Board (Access Board).
9. To serve as a pedestrian refuge area, the median should be a minimum of 6' wide, measured from back of curbs. Medians should be designed to provide accessible passage over or through them.
10. Small channelization islands, which do not provide a minimum 5'x 5' landing at the top of curb ramps, shall be cut through level with the surface of the street.
11. Crosswalk dimensions, crosswalk markings and stop bar locations shall be as shown elsewhere in the plans. At intersections where crosswalk markings are not required, curb ramps shall align with theoretical crosswalks unless otherwise directed.
12. Provide curb ramps to connect the pedestrian access route at each pedestrian street crossing. Handrails are not required on curb ramps.
13. Curb ramps and landings shall be constructed and paid for in accordance with Item 531 "Sidewalks".
14. Place concrete at a minimum depth of 5" for ramps, flares and landings, unless otherwise directed.
15. Furnish and install No. 3 reinforcing steel bars at 18" o.c. both ways, unless otherwise directed.
16. Provide a smooth transition where the curb ramps connect to the street.
17. Curbs shown on sheet 1 within the limits of payment are considered part of the curb ramp for payment, whether it is concrete curb, gutter, or combined curb and gutter.
18. Existing features that comply with applicable standards may remain in place unless otherwise shown on the plans.

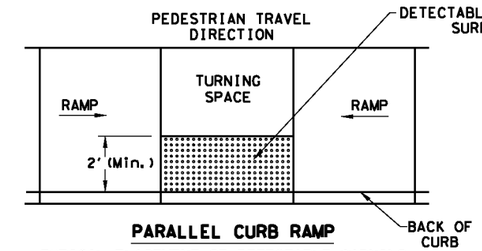
DETECTABLE WARNING MATERIAL



19. Curb ramps must contain a detectable warning surface that consists of raised truncated domes complying with PROWAG. The surface must contrast visually with adjoining surfaces, including side flares. Furnish and install an approved cast-in-place dark brown or dark red detectable warning surface material adjacent to uncolored concrete, unless specified elsewhere in the plans.
20. Detectable Warning Materials must meet TxDOT Departmental Materials Specification DMS 4350 and be listed on the Material Producer List. Install products in accordance with manufacturer's specifications.
21. Detectable warning surfaces must be firm, stable and slip resistant.
22. Detectable warning surfaces shall be a minimum of 24 inches in depth in the direction of pedestrian travel, and extend the full width of the curb ramp or landing where the pedestrian access route enters the street.
23. Detectable warning surfaces shall be located so that the edge nearest the curb line is at the back of curb and neither end of that edge is greater than 5 feet from the back of curb. Detectable warning surfaces may be curved along the corner radius.
24. Shaded areas on Sheet 1 of 4 indicate the approximate location for the detectable warning surface for each curb ramp type.

DETECTABLE WARNING PAVERS (IF USED)

25. Furnish detectable warning paver units meeting all requirements of ASTM C-936, C-33. Lay in a two by two unit basket weave pattern or as directed.
26. Lay full-size units first followed by closure units consisting of at least 25 percent (25%) of a full unit. Cut detectable warning paver units using a power saw.



SIDEWALKS

27. Provide clear ground space at operable parts, including pedestrian push buttons. Operable parts shall be placed within unobstructed reach range specified in PROWAG section R406.
28. Place traffic signal or illumination poles, ground boxes, controller boxes, signs, drainage facilities and other items so as not to obstruct the pedestrian access route or clear ground space.
29. Street grades and cross slopes shall be as shown elsewhere in the plans.
30. Changes in level greater than 1/4 inch are not permitted.
31. The least possible grade should be used to maximize accessibility. The running slope of sidewalks and crosswalks within the public right of way may follow the grade of the parallel roadway. Where a continuous grade greater than five percent (5%) must be provided, handrails may be desirable to improve accessibility. Handrails may also be needed to protect pedestrians from potentially hazardous conditions. If provided, handrails shall comply with PROWAG R409.
32. Handrail extensions shall not protrude into the usable landing area or into intersecting pedestrian routes.
33. Driveways and turnouts shall be constructed and paid for in accordance with Item "Intersections, Driveways and Turnouts". Sidewalks shall be constructed and paid for in accordance with Item, "Sidewalks".
34. Sidewalk details are shown elsewhere in the plans.

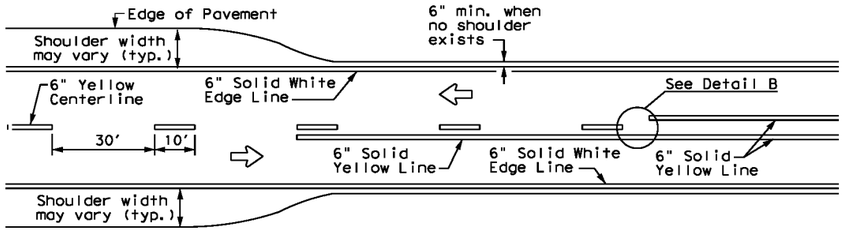
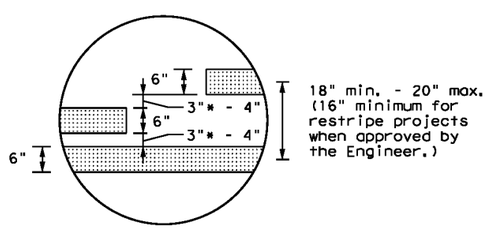
(18" max. for traveled way greater than 48' only)



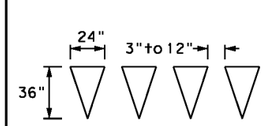
CENTERLINE AND LANE LINES
FOUR LANE TWO-WAY ROADWAY
WITH OR WITHOUT SHOULDERS

* 2" minimum for restripe projects when approved by the Engineer.

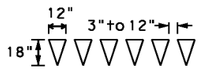


** 8" minimum for restripe projects when approved by the Engineer.

TYPICAL MULTI-LANE, TWO-WAY PAVEMENT
MARKINGS THROUGH INTERSECTIONS

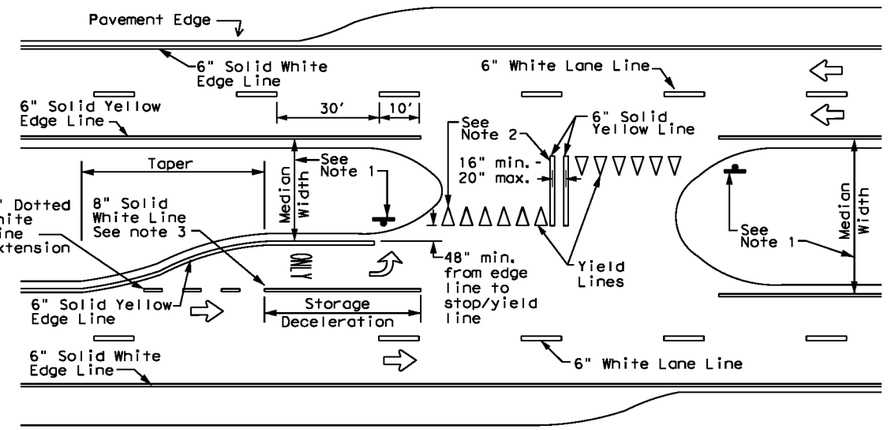


TWO LANE TWO-WAY ROADWAY
WITH OR WITHOUT SHOULDERS



DETAIL "B"

* 2" minimum for restripe projects when approved by the Engineer.



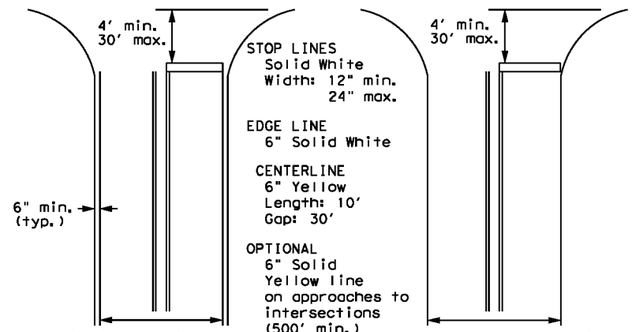
For posted speed on road being marked equal to or greater than 45 MPH.

YIELD LINES

For posted speed on road being marked equal to or less than 40 MPH.

FOUR LANE DIVIDED ROADWAY CROSSOVERS

NOTES



1. Where divided highways are separated by median widths at the median opening itself of 30 feet or more, median openings shall be signed as two separate intersections.
   Each median opening has two width measurements, with one measurement for each approach. The narrow median width will be the controlling width to determine if signs are required. Yield signs are the typical intersection control. Stop signs and stop bars are optional as determined by the Engineer.
2. Install median striping (double yellow centerlines and stop lines/yield lines) when a 50' or greater median centerline can be placed. Stop lines shall only be used with stop signs. Yield lines shall only be used with yield signs.
3. Length of turn bays, including taper, deceleration, and storage lengths shall be as shown on the plans or as directed by the Engineer.

GENERAL NOTES

1. Edge line striping shall be as shown in the plans or as directed by the Engineer. The edge line should not be placed less than 6 inches from the edge of pavement. This distance may vary due to pavement raveling or other conditions. Edge lines are not required in curb and gutter sections of roadways.
2. The traveled way includes only that portion of the roadway used for vehicular travel. It does not include the parking lanes, sidewalks, berms and shoulders. The traveled ways shall be measured from the center of edge line to the center of edge line of a two lane roadway.

MATERIAL SPECIFICATIONS	
PAVEMENT MARKERS (REFLECTORIZED)	DMS-4200
EPOXY AND ADHESIVES	DMS-6100

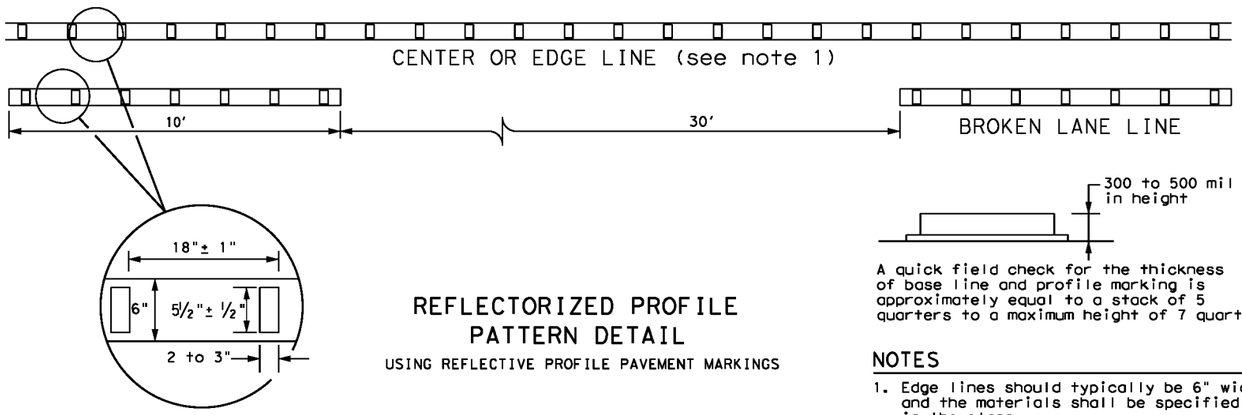
Type I (Top View)



Type II (Top View)

SECTION A

RAISED PAVEMENT MARKERS

6" EDGE LINE, 6" CENTERLINE OR 6" LANE LINE

REFLECTORIZED PROFILE PATTERN DETAIL

USING REFLECTIVE PROFILE PAVEMENT MARKINGS

A quick field check for the thickness of base line and profile marking is approximately equal to a stack of 5 quarters to a maximum height of 7 quarters.

NOTES

1. Edge lines should typically be 6" wide and the materials shall be specified in the plans.
2. Profile markings shall not be placed on roadways with a posted speed limit of 45 MPH or less.

GENERAL NOTES

1. All raised pavement markers placed along broken lines shall be placed in line with and midway between the stripes.
2. On concrete pavements, the raised pavement markers should be placed to one side of the longitudinal joints.
3. Use raised pavement marker Type I-C with undivided roadways, flush medians, and two way left turn lanes. Use raised pavement marker Type II-C-R with divided highways and raised medians.

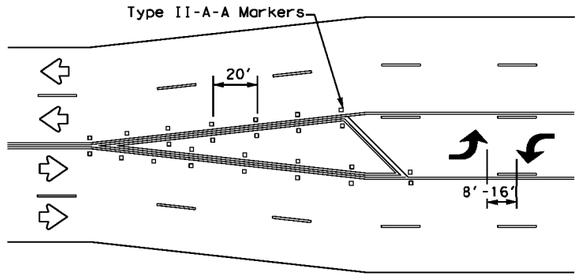
LANE REDUCTION



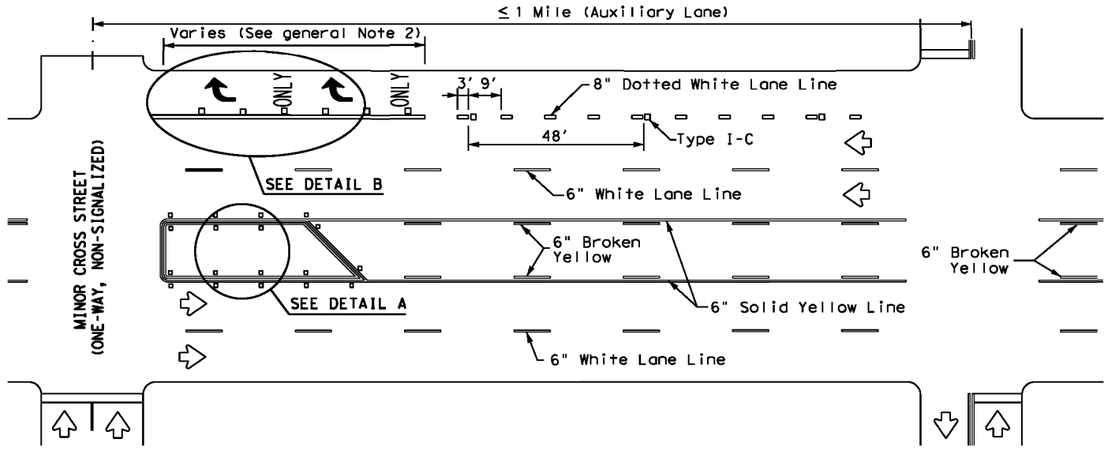
NOTES

1. Lane reduction pavement markings are used where the number of through lanes is reduced because of narrowing of the roadway or because of a section of on-street parking in what would otherwise be a through lane. For Texas Super 2 Passing Lanes, see TS2(PL) standard sheets.
2. On divided highways, an additional RIGHT LANE ENDS (W9-1R) sign may be installed in the median aligned with the W9-1R sign on the right side of the highway.
3. Lane reduction arrows are required for speeds of 45 mph or greater. An optional third lane reduction arrow may be added based on engineering judgement. If used, the optional third lane reduction arrow should be centered between the first and last lane reduction arrows.
4. For lane reductions on Freeways and Expressways, signing shall conform to the TxDOT Freeway Signing Handbook.

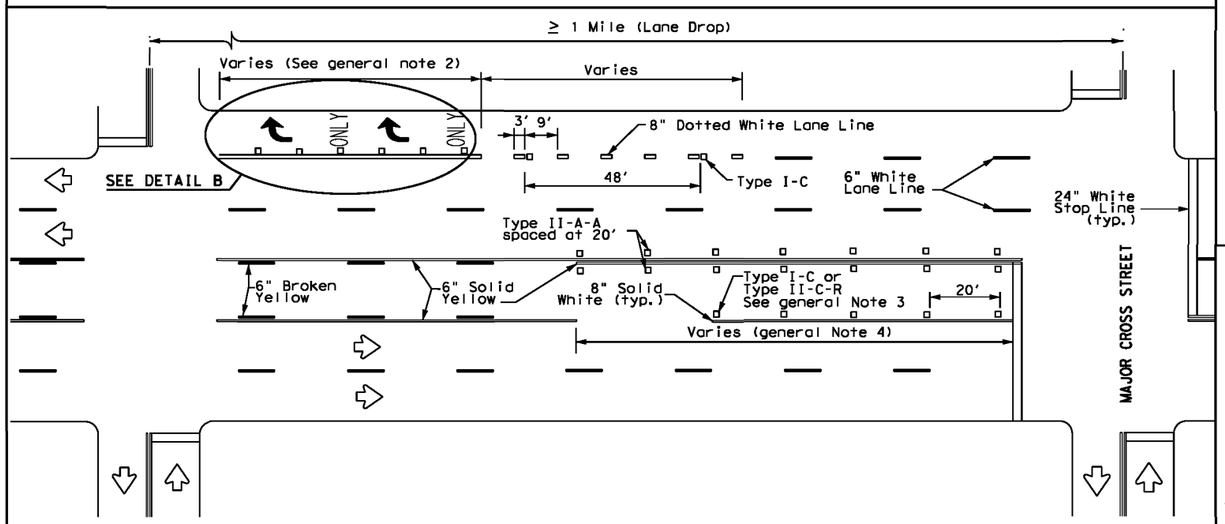
ADVANCED WARNING SIGN DISTANCE (D)		
Posted Speed	D (ft)	L (ft)
30 MPH	460	$L=\frac{WS^2}{60}$
35 MPH	565	
40 MPH	670	
45 MPH	775	L=WS
50 MPH	885	
55 MPH	990	
60 MPH	1,100	
65 MPH	1,200	
70 MPH	1,250	
75 MPH	1,350	

GENERAL NOTES

1. Lane use word and arrow markings shall be used where through lanes approaching an intersection become mandatory turn lanes. Lane use word and arrow markings should be used in auxiliary lanes of substantial length. Lane use arrow markings or word and arrow markings may be used in other lanes and turn bays for emphasis. Details for words and arrows are as shown in the Standard Highway Sign Designs for Texas.
2. When lane-use words and arrow markings are used, two sets of arrows should be used if the length of the bay is greater than 180 feet. When a single lane use arrow or word and arrow marking is used for a short turn lane, it should be located at or near the upstream end of the full-width turn lane.
3. Use raised pavement marker Type I-C with undivided highways, flush medians and two way left turn lanes. Use raised pavement marker Type II-C-R with divided highways and raised medians.
4. Length of turn bays, including taper, deceleration, and storage lengths shall be as shown on the plans or as directed by the Engineer. See Chapter 3 of the Roadway Design Manual for additional information on turning lanes or storage lengths.



A two-way left-turn (TWLT) lane-use arrow pavement marking should be used at or just downstream from the beginning of a two-way left-turn lane within a corridor. Repeating the marking after each intersection or dedicated turn bay is not required unless stated elsewhere in the plans.



TYPICAL TRANSITION FOR TWLTL AND DIVIDED HIGHWAY

HIGH-VISIBILITY LONGITUDINAL CROSSWALK
AT CONTROLLED APPROACH

GENERAL NOTES

1. Longitudinal crosswalk lines should not be placed in the wheel path of vehicles. Center the crosswalk lines on travel lanes, lane lines, and shoulder lines (if present).
2. A minimum 6" clear distance shall be provided to the curb face. If the last crosswalk line falls into this distance it must be omitted.
3. For divided roadways, adjustments in spacing of the crosswalk lines should be made in the median so that the crosswalk lines are maintained in their proper location across the travel portion of the roadway.
4. At skewed crosswalks, the crosswalk lines are to remain parallel to the lane lines.
5. Each crosswalk shall be a minimum of 6' wide.
6. The High-Visibility Longitudinal Crosswalk is the preferred crosswalk pattern on State Highways. Other crosswalk patterns as shown in the "Texas Manual on Uniform Traffic Control Devices" may be used. All crosswalk designs and dimension shall comply with the "Texas Manual on Uniform Traffic Control Devices."
7. Final placement of Stop Bar and Crosswalk shall be approved by the Engineer in the field.

MATERIAL SPECIFICATIONS	
PAVEMENT MARKERS (REFLECTORIZED)	DMS-4200

PERMANENT PREFABRICATED PAVEMENT MARKINGS	DMS-8240

All pavement marking materials shall meet the required Departmental Material Specifications as specified by the plans.

UNSIGNALIZED MIDBLOCK HIGH-VISIBILITY
LONGITUDINAL CROSSWALK

NOTES:

1. Use stop bars with Stop Here For Pedestrians (R1-5b) signs at unsignalized midblock cross walks.
2. Use stop bars with STOP HERE ON RED (R10-6 or R10-6a) signs at mid block crosswalks controlled by traffic signals or pedestrian hybrid beacons.

GUIDELINES FOR PRUNING TREES

UPRIGHT GROWTH IN STATE ROW

UPRIGHT GROWTH AT ROW LINE

NON-TYPICAL GROWTH PATTERN AT ROW LINE

THOSE EXISTING TREES, SHRUBS OR OTHER LANDSCAPE FEATURES DESIGNATED BY THE ENGINEER FOR PRESERVATION AND PRUNING INDICATED IN THE PLANS AND/OR AS DIRECTED BY THE ENGINEER SHALL BE PROTECTED AND PRUNED. THIS PROTECTION WORK SHALL BE CONSIDERED SUBSIDIARY TO THIS ITEM. ACCEPTABLE FENCING MATERIAL FOR TREE PROTECTION SHALL BE "FENCE IT PLUS", 46" H X 150' L, NEW ORANGE COLOR, AS MANUFACTURED BY WEATHERSHADE, 3000 W. ORANGE AVE., APOPKA, FLORIDA, 32703, (407) 889-3692, OR APPROVED EQUAL. ALL TREES TO BE PRESERVED ARE NOT NECESSARILY SHOWN ON THE PLANS. AS DETAILED ON THIS SHEET AND TO THE SATISFACTION OF THE ENGINEER, IN THE EVENT OF OVERHANGING LIMBS ONTO TRAVEL LANES AND/OR IN CONFLICT WITH CONSTRUCTION, THE FOLLOWING PRUNING GUIDELINES SHALL BE UTILIZED.

(ATTENTION CONTRACTORS AND TXDOT ENGINEERS)

NOTE: TREE LIMBS SHALL NOT BE BROKEN FROM THE TREES BY EARTHWORK EQUIPMENT UNDER ANY CIRCUMSTANCES.

THE FOLLOWING GENERAL SPECIFICATIONS APPLY TO CLASS 111. HAZARD PRUNING:

1. ALL CUTS SHALL BE MADE AS CLOSE AS POSSIBLE TO THE TRUNK OR PARENT LIMB WITHOUT CUTTING INTO THE BRANCH COLLAR AND LEAVING A PROTRUDING STUB (SEE DIAGRAM A). BARK AT THE EDGE OF ALL PRUNING CUTS SHOULD REMAIN FIRMLY ATTACHED.

2. ALL BRANCHES TOO LARGE TO SUPPORT WITH ONE HAND SHALL BE PRECUT (SEE DIAGRAM B) TO AVOID SPLITTING OR TEARING OF THE BARK. WHERE NECESSARY, ROPES OR OTHER EQUIPMENT SHOULD BE USED TO LOWER LARGE BRANCHES OR STUBS TO THE GROUND. CUT "A" SHOULD BE DONE TO HALF OF BRANCH DIAMETER TO AVOID THE UNDESIRED TEARING OF BARK TO MAIN TRUNK WHEN CUTTING LARGE BRANCHES.

3. TREATMENT OF CUTS AND WOUNDS WITH WOUND DRESSING OR PAINTS HAS NOT SHOWN TO BE EFFECTIVE IN PREVENTING OR REDUCING DECAY AND IS NOT GENERALLY RECOMMENDED FOR THAT REASON. WOUND DRESSING OVER INFECTED WOUND MAY STIMULATE THE DECAY PROCESS. IF WOUNDS ARE PAINTED FOR COSMETIC OR OTHER REASONS, THEN MATERIALS NON-TOXIC TO THE CAMBIUM LAYER MERISTIMATIC TISSUE MUST BE USED. CARE MUST BE TAKEN TO APPLY A THIN COATING OF THE MATERIAL ONLY TO THE EXPOSED WOOD.

4. EQUIPMENT THAT WOULD DAMAGE THE BARK AND CADMIUM LAYER SHALL NOT BE USED ON OR IN THE TREE. FOR EXAMPLE, THE USE OF CLIMBING SPURS (HOOKS, IRONS) IS NOT AN ACCEPTABLE WORK PRACTICE FOR PRUNING OPERATIONS ON LIVE TREES. SHARP TOOLS SHALL BE USED SO THAT CLEAN CUTS SHALL BE MADE AT ALL TIMES.

5. ALL CUT LIMBS SHALL BE REMOVED FROM THE CROWN UPON COMPLETION OF THE PRUNING.

6. TREES SUSCEPTIBLE TO SERIOUS INFECTIOUS DISEASES SHOULD NOT BE PRUNED AT THE TIME OF YEAR DURING WHICH THE PATHOGENS CAUSING THE DISEASE OR THE INSECT INFESTATION IS MOST ACTIVE. SIMILARLY, IF PRUNING WOUNDS MAY ATTRACT HARMFUL INSECTS, PRUNING SHOULD BE TIMED SO AS TO AVOID INSECT INFESTATION.

7. THE PRESENCE OF ANY DISEASE CONDITION, FUNGUS FRUIT BODIES, DECAYED TRUNK OR BRANCHES, SPLIT CROTCHES OR BRANCHES, CRACKS, OR OTHER STRUCTURAL WEAKNESS SHOULD BE REPORTED IN WRITING TO THE ENGINEER FOR CORRECTIVE MEASURES.

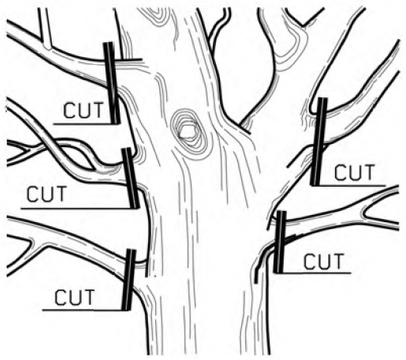

DIAGRAM A

NOTE: IF PRUNING OF MAJOR LIMBS WILL CAUSE THE TREE TO LOOSE PROPER OR FUNCTIONAL FORM, THE CONTRACTOR SHALL CONTACT THE ENGINEER FOR APPROVAL BEFORE FURTHER PRUNING CAN BE ACCOMPLISHED.

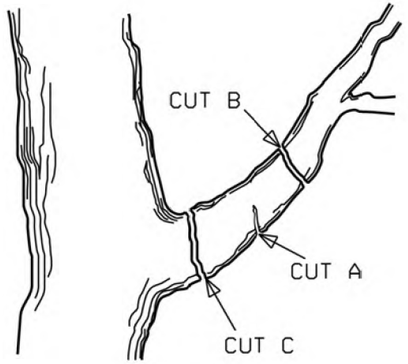

DIAGRAM B

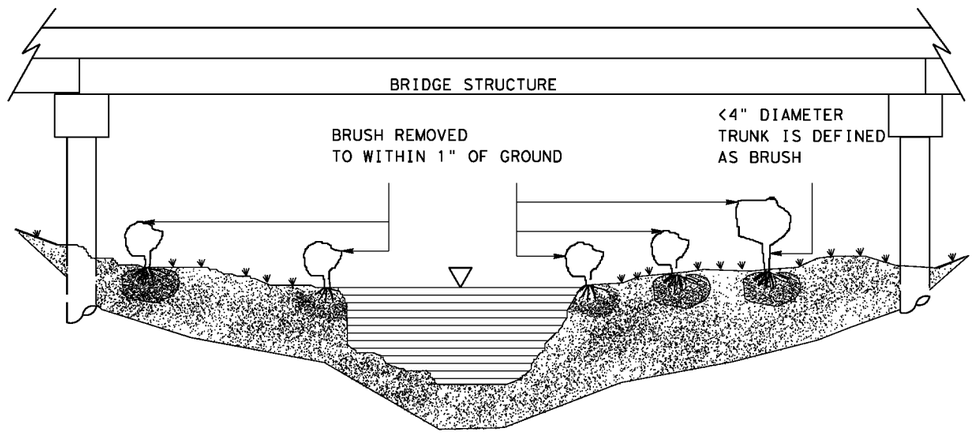
TREE REMOVAL



TREE TRIMMING

STEPS 1, 2 AND 3 APPLY WHEN REMOVING LIMBS 2" IN DIAMETER OR LARGER.

BRUSH REMOVAL

BRUSH REMOVAL UNDER BRIDGE AND IN CHANNEL

GENERAL NOTES:

TREE TRIMMING

1. TRIM AND REMOVE ALL TREE LIMBS ON THE PAVEMENT SIDE OF THE TRUNK 18' ABOVE THE PAVEMENT OR BRIDGE DECK ELEVATION, UNLESS OTHERWISE SHOWN ON THE PLANS.

2. TRIM AND REMOVE ALL TREE LIMBS BETWEEN THE TRUNK AND R.O.W. LINE 10' ABOVE NATURAL GROUND, TERRAIN OR OTHER STRUCTURE ELEVATION, UNLESS OTHERWISE SHOWN ON THE PLANS.

TREE REMOVAL

3. FOR TREES MARKED FOR REMOVAL, THE DIAMETER OF TREES ARE DETERMINED BY MEASUREMENT OF THE TRUNK CIRCUMFERENCE 3' ABOVE THE GROUND. TREES WITH TRUNKS OF LESS THAN 4" DIAMETER ARE CONSIDERED TO BE BRUSH. TREES WITH MULTIPLE TRUNKS AT THE POINT OF MEASUREMENT ARE MEASURED AND PAID FOR SEPARATELY.

4. MEASUREMENTS FOR PAYMENT OF TREE DIAMETERS ARE DIVIDED INTO THE RANGES SHOWN IN TABLE 1.

TABLE 1
TREE TRUNK SIZE FOR TREE REMOVAL PAYMENT

DISCLAIMER
The use of this standard is governed by the "Texas Engineering Practice Act". No warranty of any kind is made by TxDOT for any purpose whatsoever. TxDOT assumes no responsibility for the conversion of this standard to other formats or for incorrect results or damages resulting from its use.

BRUSH REMOVED TO
WITHIN 1" OF GROUND
<4" DIAMETER TRUNK
IS DEFINED AS BRUSH
UNLESS OTHERWISE DIRECTED

EXAMPLE: UNDIVIDED HIGHWAY

BRUSH REMOVED TO
WITHIN 1" OF GROUND
<4" DIAMETER TRUNK
IS DEFINED AS BRUSH
UNLESS OTHERWISE DIRECTED

EXAMPLE: DIVIDED HIGHWAY WITH FRONTAGE ROADS

GENERAL NOTES:

TREE TRIMMING AND BRUSH REMOVAL

1. PAYMENT BY THE CENTERLINE MILE IS MADE TO THE NEAREST 1/100 (0.01) MILE.
2. LIMITS OF WORK ARE SHOWN AS DISTANCES FROM REFERENCE MARKERS (RM).
3. PAY ITEMS BY THE CENTERLINE MILE INCLUDE ALL TREE TRIMMING OR BRUSH REMOVAL IN THE RIGHT OF WAY ON BOTH SIDES OF THE HIGHWAY. FOR DIVIDED HIGHWAYS, THE MEDIAN IS INCLUDED. FOR HIGHWAYS WITH FRONTAGE ROADS, THE AREAS BETWEEN THE FRONTAGE ROADS AND MAIN LANES, AND THE AREAS OUTSIDE OF THE FRONTAGE ROADS ARE INCLUDED.
4. BRUSH REMOVAL AND TREE TRIMMING UNDER BRIDGES, IN AND ALONG CHANNELS AND EASEMENTS ARE PAID FOR BY THE ACRE FOR AREAS DESIGNATED ON THE PLANS.

SIGN SUPPORT DESCRIPTIVE CODES

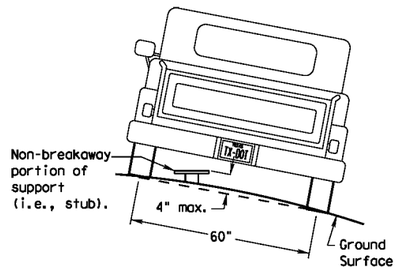
(Descriptive Codes correspond to project estimate and quantities sheets)

SM RD SGN ASSM TY XXXXX(X)XX(X-XXXX)

Post Type

FRP = Fiberglass Reinforced Plastic Pipe (see SMD(FRP))
TWT = Thin-Walled Tubing (see SMD(TWT))
10BWG = 10 BWG Tubing (see SMD(SLIP-1) to (SLIP-3))
S80 = Schedule 80 Pipe (see SMD(SLIP-1) to (SLIP-3))

Number of Posts (1 or 2)

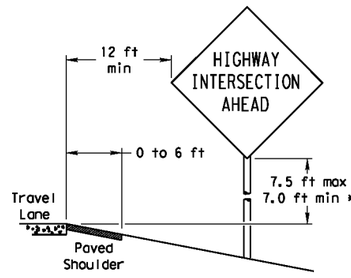


Anchor Type

UA = Universal Anchor - Concreted (see SMD(FRP) and (TWT))
UB = Universal Anchor - Bolted down (see SMD(FRP) and (TWT))
WS = Wedge Anchor Steel - (see SMD(TWT))
WP = Wedge Anchor Plastic (see SMD(TWT))
SA = Slipbase - Concreted (see SMD(SLIP-1) to (SLIP-3))
SB = Slipbase - Bolted Down (see SMD(SLIP-1) to (SLIP-3))

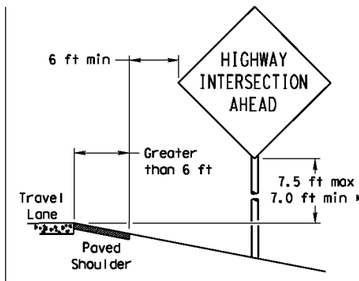
Sign Mounting Designation

P = Prefab. "Plain" (see SMD(SLIP-1) to (SLIP-3), (TWT), (FRP))
T = Prefab. "T" (see SMD(SLIP-1) to (SLIP-3), (TWT))
U = Prefab. "U" (see SMD(SLIP-1) to (SLIP-3))
IF REQUIRED
1EXT or 2EXT = Number of Extensions (see SMD(SLIP-1) to (SLIP-3), (TWT))
BM = Extruded Wind Beam (see SMD(SLIP-1) to (SLIP-3))
WC = 1.12 #/ft Wing Channel (see SMD(SLIP-1) to (SLIP-3))
EXAL = Extruded Aluminum Sign Panels (see SMD(SLIP-1))



REQUIRED CLEARANCE FOR BREAKAWAY SUPPORT

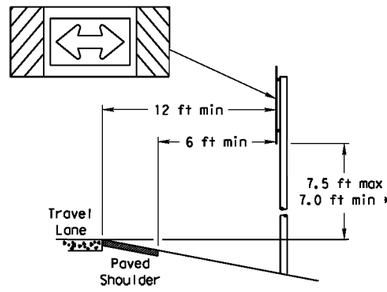
To avoid vehicle undercarriage snagging, any substantial remains of a breakaway support, when it is broken away, should not project more than 4 inches above a 60-inch chord (i.e., typical space between wheel paths).



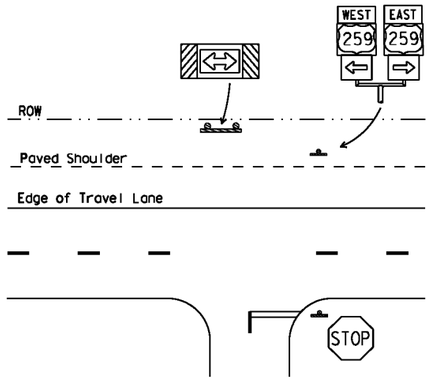
SIGN LOCATION

PAVED SHOULDERS

LESS THAN 6 FT. WIDE

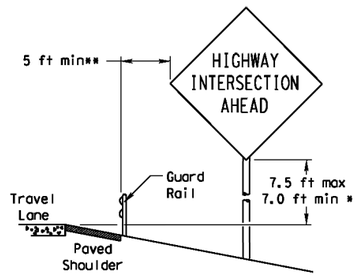


When the shoulder is 6 ft. or less in width, the sign must be placed at least 12 ft. from the edge of the travel lane.

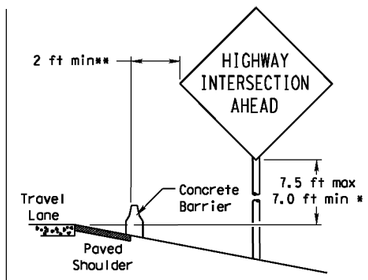


GREATER THAN 6 FT. WIDE

When the shoulder is greater than 6 ft in width, the sign must be placed at least 6 ft. from the edge of the shoulder.

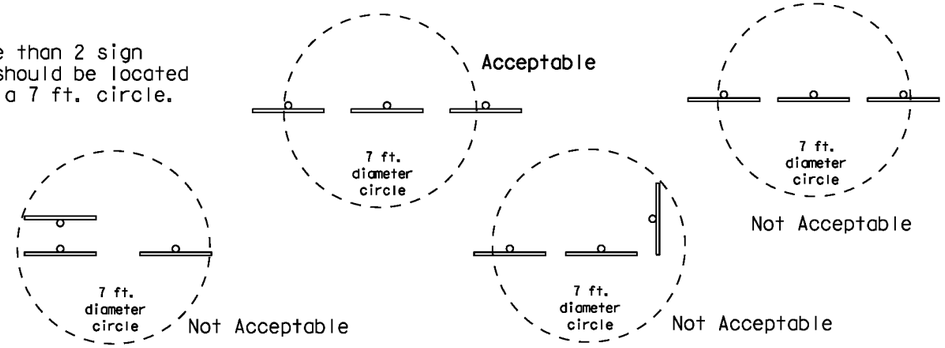


T-INTERSECTION



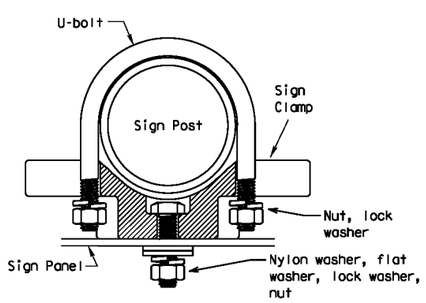
When this sign is needed at the end of a two-lane, two way roadway, the right edge of the sign should be in line with the centerline of the roadway. Place as close to ROW as practical.

BEHIND BARRIER



BEHIND GUARDRAIL

BEHIND CONCRETE BARRIER

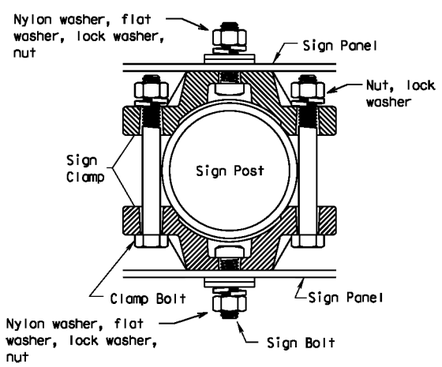


**Sign clearance based on distance required for proper guard rail or concrete barrier performance.

No more than 2 sign posts should be located within a 7 ft. circle.

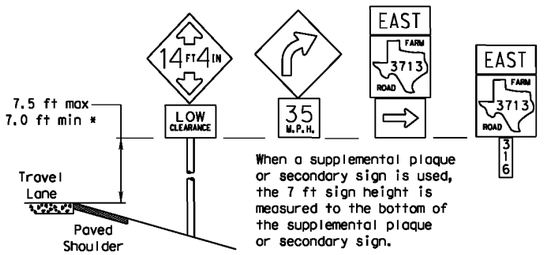
TYPICAL SIGN ATTACHMENT DETAIL

Single Signs



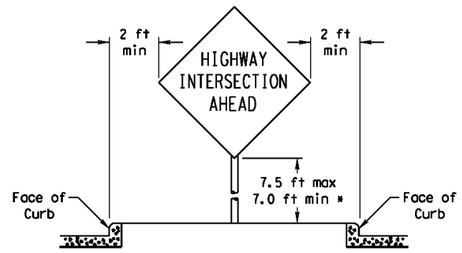
Bolts used to mount sign panels to the clamp are 5/16-18 UNC galvanized square head with nut, nylon washer, flat washer and lock washer. The bolt length is 1 inch for aluminum.

When two sign clamps are used to mount signs back-to-back, use a 5/16-18 UNC galvanized hex head per ASTM A307 with nut and helical-spring lock washer. The approximate bolt lengths for various post sizes and sign clamp types are given in the table at right. The bolt length may need to be adjusted depending upon field conditions.



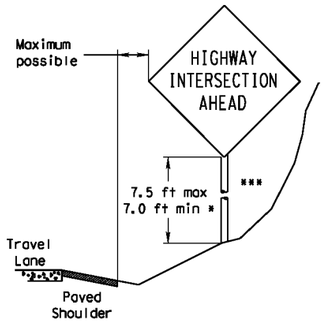
Sign clamps may be either the specific size clamp or the universal clamp.

Back-to-Back Signs



Pipe Diameter	Approximate Bolt Length	
	Specific Clamp	Universal Clamp
2" nominal	3"	3 or 3 1/2"
2 1/2" nominal	3 or 3 1/2"	3 1/2 or 4"
3" nominal	3 1/2 or 4"	4 1/2"

SIGNS WITH PLAQUES



When a supplemental plaque or secondary sign is used, the 7 ft sign height is measured to the bottom of the supplemental plaque or secondary sign.

CURB & GUTTER OR RAISED ISLAND

RESTRICTED RIGHT-OF-WAY

(When 6 ft min. is not possible.)

Right-of-way restrictions may be created by rocks, water, vegetation, forest, buildings, o narrow island, or other factors.

In situations where a lateral restriction prevents the minimum horizontal clearance from the edge of the travel lane, signs should be placed as far from the travel lane as practical.

*** Post may be shorter if protected by guardrail or if Engineer determines the post could not be hit due to extreme slope.

* Signs shall be mounted using the following condition that results in the greatest sign elevation:

(1) a minimum of 7 to a maximum of 7.5 feet above the edge of the travel lane or

(2) a minimum of 7 to a maximum of 7.5 feet above the grade at the base of the support when sign is installed on the backslope.

The maximum values may be increased when directed by the Engineer.

See the Traffic Operations Division website for detailed drawings of sign clamps, Triangular Slipbase System components and Wedge Anchor System components.

PHR	CAMERON		99

DISCLAIMER:
The use of this standard is governed by the "Texas Engineering Practice Act". No warranty of any kind is made by TxDOT for any purpose whatsoever. TxDOT assumes no responsibility for the conversion of this standard to other formats or for incorrect results or damages resulting from its use.

I. STORMWATER POLLUTION PREVENTION-CLEAN WATER ACT SECTION 402

1. ☐ It is not anticipated that any erosion, sedimentation, or environmental control devices will be needed on this project. The Contractor must still implement appropriate practices to prevent pollution from construction activities from reaching waters of the state. If it becomes necessary to implement control devices, payment for that work must be in accordance with Item 506 Article 4.4, "Change in the Work".

2. ☐ The project will disturb less than 1 acre of soil and has EPICs that require the implementation of erosion, sedimentation, or environmental control devices. The SWP3 summary sheet and associated plan information has been developed and included in the plans. Additional documentation must be maintained during construction in accordance with Department policy.

3. ☒ The project will disturb 1 acres or more of soil therefore requires the implementation of erosion, sedimentation, or environmental control devices. The SWP3 summary sheet and associated plan information has been developed and included in the plans. Additional documentation must be maintained during construction in accordance with Department policy and Texas Commission on Environmental Quality Construction General Permit (TXR150000) requirements.

II. WORK IN OR NEAR STREAMS, WATERBODIES AND WETLANDS CLEAN WATER ACT SECTIONS 401 AND 404

1. ☒ No Permit Required

2. ☐ USACE Permit required for filling, dredging, excavating or other work in any water bodies, rivers, creeks, streams, wetlands or wet areas. The Contractor must adhere to all of the terms and conditions associated with the following permit(s):

   ☐ Nationwide Permit 14 - PCN not Required (less than 1/10th acre waters or wetlands affected)

   ☐ Nationwide Permit 14 - PCN Required (1/10 to <1/2 acre, 1/3 in tidal waters)

   ☐ Other Nationwide Permit Required: NWP#

   ☐ Individual Standard Permit Required

The SWP3 describes the BMPs planned to control erosion, sedimentation and post-project TSS.

The following lists the impacted water, its stationing, planned disturbed acreage, and additional notes:

1.
2.
3.
4.
5.
6.
7.
8.
9.

III. CULTURAL RESOURCES

Refer to TxDOT Standard Specifications in the event historical issues or archeological artifacts are found during construction. Upon discovery of archeological artifacts (bones, burnt rock, flint, pottery, etc.) cease work in the immediate area and contact the Engineer immediately.

☐ Additional Required Actions:

1.
2.
3.
4.

IV. VEGETATION RESOURCES

The Contractor must preserve native vegetation to the extent practical. Follow vegetative buffers defined in the SWP3 for work adjacent to water bodies. Contractor must adhere to Construction Specification Requirements Specs 162, 164, 192, 193, 506, 730, 751, 752 in order to comply with requirements for invasive species, beneficial landscaping, and tree/brush removal commitments.

☒ Additional Required Actions:

1. Refer to supplemental sheet for TPWD Vegetation BMPs to be implemented during construction.
2.
3.

V. PROTECTED SPECIES AND MIGRATORY BIRDS

The work must not remove active nests from bridges and other structures during nesting season of the birds associated with the nests. If caves or sinkholes are discovered, cease work in the immediate area, and contact the Engineer immediately. Do not disturb or handle bats found under bridges and other structures. Do not harm or kill wildlife that enters the project area, including rattlesnakes. Implement measures to avoid infesting water bodies with zebra mussels, including inspecting equipment prior to placing in water and clean, drain, dry practices.

If any listed species are observed, cease work in the immediate area, do not disturb the species or habitat, and contact the Engineer immediately.

☒ Additional Required Actions:

1. Refer to supplemental sheet for TPWD BMPs to be implemented during construction for Birds, Insect Pollinators, Small Mammals, Bat, Aquatic Aphibians and Reptiles, and Terrestrial Amphibians and Reptiles.
2.

DISCLAIMER:
The use of this standard is governed by the "Texas Engineering Practice Act". No warranty of any kind is made by TxDOT for any purpose whatsoever. TxDOT assumes no responsibility for the conversion of this standard to other formats or for incorrect results or damages resulting from its use.

VI. HAZARDOUS MATERIALS OR CONTAMINATION ISSUES

For all projects the Contractor will comply with the OSHA Hazard Communication Standard (29 CFR 1910.1200) for personnel who will be working with hazardous materials by conducting safety meetings prior to beginning construction and making workers aware of potential hazards in the workplace. Ensure that all workers are provided with personal protective equipment appropriate for any hazardous materials used.

Obtain and keep on-site Safety Data Sheets (SDS) for all hazardous products used on the project, which may include, but are not limited to the following categories: paints, acids, solvents, asphalt products, chemical additives, fuels and concrete curing compounds or additives. Provide protected storage, off bareground and covered, for products which may be hazardous. Maintain product labelling as required by the Act. Pollutant housekeeping is also required in accordance with items listed in Section I of this EPIC sheet.

Maintain an adequate supply of on-site spill response materials, as indicated in the SDS. In the event of a spill, take actions to mitigate the spill as indicated in the MSDS, in accordance with safe work practices, and contact the District Spill Coordinator immediately. The Contractor shall be responsible for the proper containment and cleanup of all product spills.

Responsibility for Hazardous Materials: Except in cases where the generation of hazardous materials are introduced by the Contractor on any work done by the Contractor on State-owned or controlled sites, the Contractor is not the generator of hazardous materials indentified in the ROW as shown in the plans or as discovered during construction.

Contact the Engineer if any of the following are detected:

* Dead or distressed vegetation (not identified as normal)
* Trash piles, drums, canister, barrels, etc.
* Undesirable smells or odors
* Evidence of leaching or seepage of substances

The following list identifies non-asbestos/lead contamination or waste issues (location, contamination/waste type, if a soil and groundwater management plan applies, and any additional notes)

1. None observed
2.
3.

Demolition Activities - Does the project involve the demolition of any bridge class structure (not including buried culverts) for the purpose of replacement or permanent removal?

1. ☒ No - no further action required for demolition activities
2. ☐ Yes - the Contractor must provide the dates for demolition to the Engineer at least 30 days in advance, to allow the Department sufficient time to prepare and submit the pre-demolition notification to the DSHS at least 10 working days prior to the scheduled demolition.

Asbestos Concerns:

1. ☒ The project does not involve any bridge rehabilitation or replacements. No further action required for bridge asbestos concerns.
2. ☐ The project involves bridge rehabilitation or replacements. The asbestos inspection results are negative. No abatement action is required.
3. ☐ The project involves bridge rehabilitation or replacements. The asbestos inspection results are positive and asbestos abatement is required.
   The asbestos is located at the following (structure ID and station):

   Location 1.

   Location 2.

   Location 3.

   For positive asbestos results, the following action will apply:

   ☐ The Department has retained a DSHS licensed asbestos abatement contractor under a separate contract to perform the abatement, provide DSHS abatement notification, and perform asbestos management activities. This work must occur prior to the Contractor commencing any work that might disturb asbestos.

   ☐ The Department has included the work to perform the abatement, provide DSHS abatement notification, and perform asbestos management activities in this contract under Item 6.10 and related Special Provision and Special Specification. The Contractor must perform abatement work prior to commencing any work that might disturb asbestos.

Lead Paint Concerns - The project involves demolition or repair work that could require cutting, torch cutting, welding, or abrasive blasting of painted steel.

1. ☒ No - no further action required for lead paint concerns
2. ☐ Yes - the lead paint inspection results are negative. No action required for lead paint concerns.
3. ☐ Yes - the lead paint inspection results are positive. Lead is at the following locations and concentrations:

   Location (location/structure ID) Concentration (ppm)

   Location 1.

   Location 2.

   Location 3.

For positive lead results, the following action will apply:

☐ The work is under Item 446 (Field Cleaning & Painting Steel), management of hazardous materials is addressed in the specification and additional mitigation is not required.

☐ The lead concentration of the coating is known to be less than 90 ppm (Consumer Product Safety Commission threshold for paint to be designated as lead-containing), additional mitigation is not required.

☐ Mitigation for lead hazards is required in accordance with OSHA. The Contractor must provide mitigation as part of this contract. Mitigation may include stripping back of paint from steel at cut points or other areas where paint will be disturbed. The Contractor may select other OSHA-compliant controls or work practices instead of paint stripping to mitigate lead hazards. Manage painted steel in accordance with Standard Specification Item 6.10, Painted Steel Requirements.

☐ Mitigation for lead hazards is required in accordance with OSHA. The Department will provide lead paint removal. The Contractor must notify the Engineer of locations where paint-disturbing activities will occur at least 90 days prior to the work, to allow sufficient time for the Department to remove the paint. Manage painted steel in accordance with Standard Specification Item 6.10, Painted Steel Requirements.

VII. OTHER ENVIRONMENTAL ISSUES

(includes program areas such as Air, Noise, Edwards Aquifer Protection Program, etc.)

☒ Additional Required Actions:

1. Refer to supplemental sheet for TPWD General Design and Construction BMPs to be implemented during construction.
2.
3.

STORMWATER POLLUTION PREVENTION PLAN (SWP3):

This SWP3 has been developed in accordance with the TPDES Construction General Permit TXR150000 (CGP). The Texas Department of Transportation (TxDOT) ensures that project specifications include adequate best management practices (BMPs) for this project.

For all projects with soil disturbing activity and for projects that have Environmental, Permits, Issues, and Commitments (EPICs) dependent on stormwater controls and water quality measures TxDOT will maintain a SWP3 with all pertinent records, correspondence, environmental documents, etc. at the project field office, Area Office, or electronically.

This SWP3 is consistent with requirements specified in applicable stormwater plans and the projects environmental permits, issues, and commitments (EPICs). A copy of the CGP is included in Attachment 2.12 of the SWP3 binder.

1.0 SITE/PROJECT DESCRIPTION

1.1 PROJECT CONTROL SECTION JOB (CSJ):
0921-06-360

1.2 PROJECT LIMITS:
From: Brownsville Public Library

To: Morningside Rd.

1.3 PROJECT COORDINATES:
BEGIN: (Lat) 25°53'38.03"N ,(Long) 97°27'7.75"W

END: (Lat) 25°54'11.68"N ,(Long) 97°26'39.57"W

1.4 TOTAL PROJECT AREA (Acres): 1.9

1.5 TOTAL AREA TO BE DISTURBED (Acres): 2.3

1.6 NATURE OF CONSTRUCTION ACTIVITY:
Construction consisting of grading, concrete & asphalt pavement, signing, delineation, pavement markings, illumination, and curb ramps.

1.7 MAJOR SOIL TYPES:

Soil Type	Description
HA	Harlingen Clay
LAA	Laredo Silty Clay Loam

1.8 PROJECT SPECIFIC LOCATIONS (PSLs):
PSLs must be depicted on the Environmental Layout Sheets in Attachment 1.2 of this SWP3. PSLs may be identified during preconstruction meetings or during the construction process. Please choose from the options below:

☐ PSLs determined during preconstruction meeting
☐ PSLs determined during construction
☐ No PSLs planned for construction

Type	Sheet #s
N/A	

All off-ROW PSLs required by the Contractor are the Contractor's responsibility. The Contractor shall secure all permits required by local, state, federal laws for off-ROW PSLs. The contractor shall provide diagrams, areas of disturbance, acreage, and BMPs for all off-ROW PSLs within one mile of the project.

1.9 CONSTRUCTION ACTIVITIES:
(Use the following list as a starting point when developing the Construction Activity Schedule and Ceasing Record in Attachment 2.5.)

☒ Mobilization
☒ Install sediment and erosion controls
☒ Blade existing topsoil into windrows, prep ROW, clear and grub
☐ Remove existing pavement
☒ Grading operations, excavation, and embankment
☒ Excavate and prepare subgrade for proposed pavement widening
☐ Remove existing culverts, safety end treatments (SETs)
☐ Remove existing metal beam guard fence (MBGF), bridge rail
☒ Install proposed pavement per plans
☐ Install culverts, culvert extensions, SETs
☐ Install mow strip, MBGF, bridge rail
☐ Place flex base
☐ Rework slopes, grade ditches
☐ Blade windrowed material back across slopes
☒ Revegetation of unpaved areas
☒ Achieve site stabilization and remove sediment and erosion control measures
☐ Other: _____
☐ Other: _____
☐ Other: _____

1.10 POTENTIAL POLLUTANTS AND SOURCES:

☒ Sediment laden stormwater from stormwater conveyance over disturbed area
☒ Fuels, oils, and lubricants from construction vehicles, equipment, and storage
☐ Solvents, paints, adhesives, etc. from various construction activities
☒ Transported soils from offsite vehicle tracking
☒ Construction debris and waste from various construction activities
☐ Contaminated water from excavation or dewatering pump-out water
☐ Sanitary waste from onsite restroom facilities
☒ Trash from various construction activities/receptacles
☐ Long-term stockpiles of material and waste
☐
☐ Other: _____
☐ Other: _____
☐ Other: _____

1.11 RECEIVING WATERS:
Receiving waters must be depicted on the Environmental Layout Sheets in Attachment 1.2 of this SWP3. Include Segment # for receiving waters.

Tributaries	Classified Waterbody
N/A	

* Add (*) for impaired waterbodies with pollutant in ().

1.12 ROLES AND RESPONSIBILITIES: TxDOT

☒ Development of plans and specifications
☒ Submit Notice of Intent (NOI) to TCEQ (≥5 acres)
☒ Post Construction Site Notice
☒ Submit NOI/CSN to local MS4
☒ Perform SWP3 inspections
☒ Maintain SWP3 records and update to reflect daily operations
☒ Complete and submit Notice of Termination to TCEQ
☒ Maintain SWP3 records for 3 years
☐ Other: _____
☐ Other: _____
☐ Other: _____

1.13 ROLES AND RESPONSIBILITIES: CONTRACTOR

☒ Day To Day Operational Control
☒ Submit Notice of Intent (NOI) to TCEQ (≥5 acres)
☒ Post Construction Site Notice
☒ Submit NOI/CSN to local MS4
☒ Maintain schedule of major construction activities
☒ Install, maintain and modify BMPs
☒ Complete and submit Notice of Termination to TCEQ
☒ Maintain SWP3 records for 3 years
☐ Other: _____
☐ Other: _____
☐ Other: _____

STORMWATER POLLUTION PREVENTION PLAN (SWP3):

2.0 BEST MANAGEMENT PRACTICES (BMPs) AND CONTROLS, INSPECTION, AND MAINTENANCE

The Contractor shall be the responsible party for implementing the BMPs described herein and for complying with the SWP3 for control of erosion and sedimentation during day-to-day operations. The Contractor shall implement changes to this SWP3 approved by TxDOT within the times specified in this SWP3 or the CGP.

2.1 EROSION CONTROL AND SOIL STABILIZATION BMPs:

T / P

- ☐ ☐ Protection of Existing Vegetation
- ☐ ☐ Vegetated Buffer Zones
- ☐ ☐ Soil Retention Blankets
- ☐ ☐ Geotextiles
- ☐ ☐ Mulching/ Hydromulching
- ☐ ☐ Soil Surface Treatments
- ☒ ☐ Temporary Seeding
- ☐ ☒ Permanent Planting, Sodding or Seeding
- ☐ ☐ Biodegradable Erosion Control Logs
- ☐ ☐ Rock Filter Dams/ Rock Check Dams
- ☐ ☐ Vertical Tracking
- ☐ ☐ Interceptor Swale
- ☐ ☐ Riprap
- ☐ ☐ Diversion Dike
- ☐ ☐ Temporary Pipe Slope Drain
- ☐ ☐ Embankment for Erosion Control
- ☐ ☐ Paved Flumes
- ☐ ☐ Other: _____
- ☐ ☐ Other: _____
- ☐ ☐ Other: _____
- ☐ ☐ Other: _____

2.2 SEDIMENT CONTROL BMPs:

T / P

- ☒ ☐ Biodegradable Erosion Control Logs
- ☐ ☐ Dewatering Controls
- ☒ ☐ Inlet Protection
- ☐ ☐ Rock Filter Dams/ Rock Check Dams
- ☐ ☐ Sandbag Berms
- ☒ ☐ Sediment Control Fence
- ☒ ☐ Stabilized Construction Exit
- ☐ ☐ Floating Turbidity Barrier
- ☐ ☐ Vegetated Buffer Zones
- ☐ ☐ Vegetated Filter Strips
- ☐ ☐ Other: _____
- ☐ ☐ Other: _____
- ☐ ☐ Other: _____
- ☐ ☐ Other: _____

Refer to the Environmental Layout Sheets/ SWP3 Layout Sheets located in Attachment 1.2 of this SWP3

Sediment control BMPs requiring design capacity calculations (See SWP3 Attachment 1.3.):

T / P

- ☐ ☐ Sediment Trap
  - ☐ Calculated volume runoff from 2-year, 24-hour storm for each acre of disturbed area
  - ☐ 3,600 cubic feet of storage per acre drained
- ☐ ☐ Sedimentation Basin
  - ☐ Not required (<10 acres disturbed)
  - ☐ Required (>10 acres) and implemented.
    - ☐ Calculated volume runoff from 2-year, 24-hour storm for each acre of disturbed area
    - ☐ 3,600 cubic feet of storage per acre drained
  - ☐ Required (>10 acres), but not feasible due to:
    - ☐ Available area/Site geometry
    - ☐ Site slope/Drainage patterns
    - ☐ Site soils/Geotechnical factors
    - ☐ Public safety
    - ☐ Other: _____

2.3 PERMANENT CONTROLS:

(Coordinate post-construction BMPs with appropriate TxDOT maintenance sections.)

BMPs To Be Left In Place Post Construction:

Type	Stationing	
	From	To
N/A		

Refer to the Environmental Layout Sheets/ SWP3 Layout Sheets located in Attachment 1.2 of this SWP3

2.4 OFFSITE VEHICLE TRACKING CONTROLS:

- ☒ Excess dirt/mud on road removed daily
- ☒ Haul roads dampened for dust control
- ☐ Loaded haul trucks to be covered with tarpaulin
- ☒ Stabilized construction exit
- ☐ Daily street sweeping
- ☐ Other: _____
- ☐ Other: _____
- ☐ Other: _____
- ☐ Other: _____

2.5 POLLUTION PREVENTION MEASURES:

- ☐ Chemical Management
- ☒ Concrete and Materials Waste Management
- ☒ Debris and Trash Management
- ☐ Dust Control
- ☒ Sanitary Facilities
- ☐ Other: _____
- ☐ Other: _____
- ☐ Other: _____
- ☐ Other: _____
- ☐ Other: _____

2.6 VEGETATED BUFFER ZONES:

Natural vegetated buffers shall be maintained as feasible to protect adjacent surface waters. If vegetated natural buffer zones are not feasible due to site geometry, the appropriate additional sediment control measures have been incorporated into this SWP3.

Type	Stationing	
	From	To
N/A		

Refer to the Environmental Layout Sheets/ SWP3 Layout Sheets located in Attachment 1.2 of this SWP3

2.7 ALLOWABLE NON-STORMWATER DISCHARGES:

- ☒ Fire hydrant flushings
- ☒ Irrigation drainage
- ☒ Pavement washwater (where spills or leaks have not occurred, and detergents are not used)
- ☒ Potable water sources
- ☒ Springs
- ☒ Uncontaminated groundwater
- ☒ Water used to wash vehicles or control dust
- ☒ Other allowable non-stormwater discharges as allowed by TPDES GP TXR150000.

2.8 DEWATERING:

Dewatering discharges of accumulated stormwater, groundwater, and surface water including discharges from dewatering of trenches, excavations, foundations, vaults, and other points of accumulation are prohibited unless managed by appropriate controls to prevent and minimize the offsite discharge of sediment and other pollutants.

2.9 INSPECTIONS:

All disturbed areas and erosion and sediment control devices shall be inspected at least once every seven (7) days. Inspections shall be performed by TxDOT as indicated on the Field Inspection and Maintenance Report Form 2118 and retained in Attachment 2.5 of this SWP3.

When dewatering activities are present, a daily inspection will be conducted once per day during those activities and documented in accordance with CGP and TxDOT requirements.

2.10 MAINTENANCE:

Control measures shall be properly installed according to specifications. If it is determined that a BMP or control measure is not operating effectively, maintenance must be accomplished as soon as possible and before the next anticipated rain event, but in no case later than 7 calendar days after being able to access the site. Maintenance shall be performed by the Contractor as indicated on the Field Inspection and Maintenance Report Form 2118 and retained in Attachment 2.5 of this SWP3.

TEMPORARY SEDIMENT CONTROL FENCE

SCF

SECTION A-A

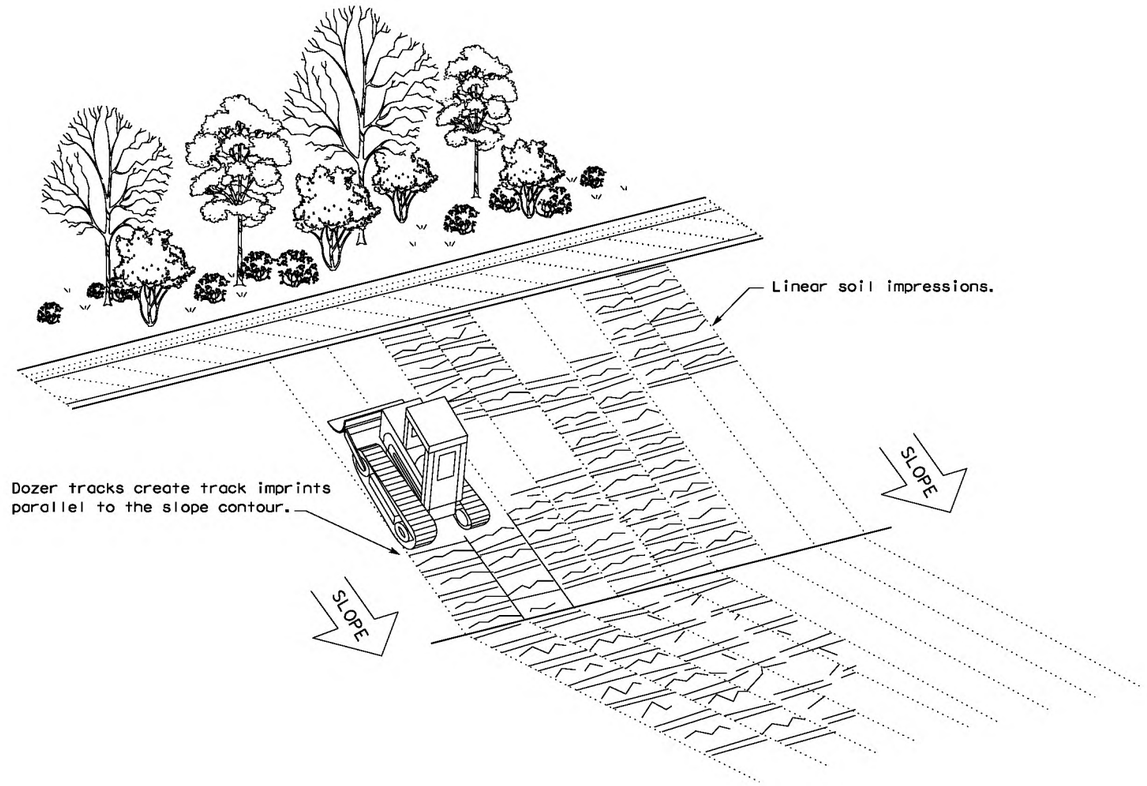
HINGE JOINT KNOT WOVEN MESH (OPTION) DETAIL

Galvanized hinge joint knot woven mesh (12.5 GA.SWG Min.) requires a minimum of five horizontal wires spaced at a maximum of 12 inches apart and all vertical wires spaced at a maximum of 12 inches apart.

SEDIMENT CONTROL FENCE USAGE GUIDELINES

A sediment control fence may be constructed near the downstream perimeter of a disturbed area along a contour to intercept sediment from overland runoff. A 2 year storm frequency may be used to calculate the flow rate to be filtered.

Sediment control fence should be sized to filter a maximum flow through rate of 100 GPM/FT^2. Sediment control fence is not recommended to control erosion from a drainage area larger than 2 acres.



LEGEND

Sediment Control Fence

SCF

GENERAL NOTES

1. Vertical tracking is required on projects where soil distributing activities have occurred unless otherwise approved.
2. Perform vertical tracking on slopes to temporarily stabilize soil.
3. Provide equipment with a track undercarriage capable of producing linear soil impressions measuring a minimum of 12" in length by 2" to 4" in width by 1/2" to 2" in depth.
4. Do not exceed 12" between track impressions.
5. Install continous linear track impressions where the minimum 12" length impressions are perpendicular to the slope or direction of water flow.

CONSTRUCTION EXIT (TYPE 2)

TIMBER CONSTRUCTION (LONG TERM)

GENERAL NOTES (TYPE 1)

1. The length of the type 1 construction exit shall be os indicated on the plans, but not less than 50'.
2. The coarse aggregate should be open graded with a size of 4" to 8".
3. The approach transitions should be no steeper than 6:1 and constructed as directed by the Engineer.
4. The construction exit foundation course shall be flexible base, bituminous concrete, portland cement concrete or other materialas approved by the Engineer.
5. The construction exit shall be graded to allow drainage to a sediment trapping device.
6. The guidelines shown hereon are suggestions only and may be modified by the Engineer.
7. Construct exits with a width of at least 14 ft. for one-way and 20 ft. for two-way traffic for the full width of the exit, or as directed by the engineer.

GENERAL NOTES (TYPE 2)

1. The length of the type 2 construction exit shall be as indicated on the plans, but not less than 50'.
2. The treated timber planks shall be attached to the railroad ties with ½"x 6" min. lag bolts. Other fasteners may be used as approved by the Engineer.
3. The treated timber planks shall be #2 grade min., and should be free from large and loose knots.
4. The approach transitions shall be no steeper than 6:1 and constructed as directed by the Engineer.
5. The construction exit foundation course shall be flexible base, bituminous concrete, portland cement concrete or other material as approved by the Engineer.
6. The construction exit should be graded to allow drainage to a sediment trapping device.
7. The guidelines shown hereon are suggestions only and may be modified by the Engineer.
8. Construct exits with a width of at least 14 ft. for one-way and 20 ft. for two-way traffic for the full width of the exit, or as directed by the engineer.

GENERAL NOTES (TYPE 3)

1. The length of the type 3 construction exit shall be as shown on the plans, or as directed by the Engineer.
2. The type 3 construction exit may be constructed from open graded crushed stone with o size of two to four inches spread a min. of 4" thick to the limits shown on the plans.
3. The treated timber planks shall be #2 grade min., and should be free from large and loose knots.
4. The guidelines shown hereon are suggestions only and may be modified by the Engineer.

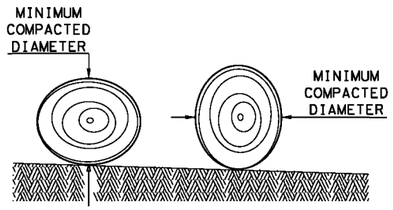
REBAR STAKE DETAIL

GENERAL NOTES:

1. EROSION CONTROL LOGS SHALL BE INSTALLED IN ACCORDANCE WITH MANFACTURER'S RECOMMENDATIONS, OR AS DIRECTED BY THE ENGINEER.
2. LENGTHS OF EROSION CONTROL LOGS SHALL BE IN ACCORDANCE WITH MANUFACTURER'S RECOMMENDATIONS AND AS REQUIRED FOR THE PURPOSE INTENDED.
3. UNLESS OTHERWISE DIRECTED, USE BIODEGRADABLE OR PHOTODEGRADABLE CONTAINMENT MESH ONLY WHERE LOG WILL REMAIN IN PLACE AS PART OF A VEGETATIVE SYSTEM. FOR TEMPORARY INSTALLATIONS, USE RECYCLABLE CONTAINMENT MESH.
4. FILL LOGS WITH SUFFICIENT FILTER MATERIAL TO ACHIEVE THE MINIMUM COMPACTED DIAMETER SPECIFIED IN THE PLANS WITHOUT EXCESSIVE DEFORMATION.
5. STAKES SHALL BE 2" X 2" WOOD OR #3 REBAR, 2'-4' LONG, EMBEDDED SUCH THAT 2" PROTRUDES ABOVE LOG, OR AS DIRECTED BY THE ENGINEER.
6. DO NOT PLACE STAKES THROUGH CONTAINMENT MESH.
7. COMPOST CRADLE MATERIAL IS INCIDENTAL & WILL NOT BE PAID FOR SEPARATELY.
8. SANDBAGS USED AS ANCHORS SHALL BE PLACED ON TOP OF LOGS & SHALL BE OF SUFFICIENT SIZE TO HOLD LOGS IN PLACE.
9. TURN THE ENDS OF EACH ROW OF LOGS UPSLOPE TO PREVENT RUNOFF FROM FLOWING AROUND THE LOG.
10. FOR HEAVY RUNOFF EVENTS, ADDITIONAL UPSTREAM STAKES MAY BE NECESSARY TO KEEP LOG FROM FOLDING IN ON ITSELF.

SEDIMENT BASIN & TRAP USAGE GUIDELINES

An erosion control log sediment trap may be used to filter sediment out of runoff draining from an unstabilized area.



Log Traps: The drainage area for a sediment trap should not exceed 5 acres. The trap capacity should be 1800 CF/Acre (0.5" over the drainage area).

Control logs should be placed in the following locations:

1. Within drainage ditches spaced as needed or min. 500' on center
2. Immediately preceding ditch inlets or drain inlets
3. Just before the drainage enters a water course
4. Just before the drainage leaves the right of way
5. Just before the drainage leaves the construction limits where drainage flows away from the project.

The logs should be cleaned when the sediment has accumulated to a depth of 1/2 the log diameter.

Cleaning and removal of accumulated sediment depasits is incidental and will nat be paid far separately.

GENERAL CONDITIONS

ARTICLE 1- DEFINITIONS
Wherever used in these General Conditions or in the other CONTRACT DOCUMENTS the following terms have the meanings indicated which are applicable to both the singular and plural thereof:

ADDENDA- Written or graphic instruments issued prior to the opening of Bids which clarify, correct or change the bidding documents or the CONTRACT DOCUMENTS.

AGREEMENT- The written Agreement between OWNER and CONTRACTOR covering the Work to be performed; other CONTRACT DOCUMENTS are attached to the Agreement and made a part thereof as provided therein.

APPLICATION FOR PAYMENT- The form accepted by the ENGINEER which is to be used by CONTRACTOR in requesting progress or final payments and which is to include such supporting documentation as is required by the CONTRACT DOCUMENTS.

BID- The offer or proposal of the bidder submitted on the prescribed form setting forth the prices for the Work to be performed.

BONDS- Bid, performance and payment bonds and other instruments of security.

CHANGE ORDER- A document recommended by ENGINEER, which is signed by CONTRACTOR and OWNER and authorizes an addition, deletion or revisions in the Work, or an adjustment in the Contract Price or the Contract Time, issued on or after the Effective Date of the Agreement.

CONTRACT DOCUMENTS- The Agreement, Addenda (which pertain to the CONTRACT DOCUMENTS), CONTRACTOR'S Bid (including documentation accompanying the Bid and any post-Bid documentation submitted prior to the Notice of Award) when attached as an exhibit to the Agreement, the Bonds, these General Conditions, the Supplementary Conditions, the Specifications and the Drawings as the same are more specifically identified in the Agreement, together with all amendments, modifications and supplements issued pursuant to paragraphs 3.4 and 3.5 on or after the Effective Date of the Agreement.

CONTRACT PRICE- The moneys payable by OWNER to CONTRACTOR under the CONTRACT DOCUMENTS as stated in the Agreement.

CONTRACT TIME- The number of days (computed as provided in paragraph 17.2) or the date

stated in the Agreement for the completion of the Work.
CONTRACTOR- The person, firm or corporation with whom OWNER has entered into the Agreement.

DEFECTIVE- An adjective which when modifying the word Work refers to work that is unsatisfactory,

faulty or deficient, or does not conform to the CONTRACT DOCUMENTS, or does not meet the requirements of any inspection, reference standard, test or approval referred to in the CONTRACT DOCUMENTS, or has been damaged prior to ENGINEER'S recommendation of final payment (unless responsibility for the protection thereof has been assumed by OWNER at Substantial Completion in accordance with paragraph 14.8 or 14.10).

DRAWING- The drawings which show the character and Scope of Work to be performed and which have been prepared or approved by ENGINEER and are referred to in the CONTRACT DOCUMENTS.

EFFECTIVE DATE OF THE AGREEMENT- The date indicated in the Agreement on which it becomes effective, but if no such date is indicated it means the date on which the Agreement is signed and delivered by the last of the two parties to sign and deliver.

ENGINEER- The person, firm or corporation named as such in the Agreement.

FIELD ORDER- A written order issued by ENGINEER which orders minor changes in the Work in accordance with paragraph 9.5 but which does not involve a change in the Contract Price or the Contract Time.

GENERAL REQUIREMENTS- Those described in Pages TS-1 through TS-7 of the Specifications.

LAW AND REGULATIONS; LAW OR REGULATIONS- Laws, rules, regulations, ordinances, codes and/or orders.

NOTICE OF AWARD- The written notice by OWNER or ENGINEER to the apparent successful bidder stating that upon compliance by the apparent successful bidder with the conditions precedent enumerated therein, within the time specified, OWNER will sign and deliver the Agreement.

NOTICE TO PROCEED- A written notice given by OWNER or ENGINEER to CONTRACTOR fixing the date on which the Contract Time will commence to run and on which the CONTRACTOR shall start to perform CONTRACTOR'S obligations under the CONTRACT DOCUMENTS.

OWNER- The public body or authority, corporation, association, firm or person with whom CONTRACTOR has entered into the Agreement and for whom the Work is to be provided.
PARTIAL UTILIZATION- Placing a portion of the Work in service for the purpose for which it is intended (or a related purpose) before reaching Substantial Completion for all the Work.

PROJECT- The total construction of which the Work to be provided under the CONTRACT DOCUMENTS may be the whole, or a part as indicated elsewhere in the CONTRACT DOCUMENTS.

RESIDENT PROJECT REPRESENTATIVE- The authorized representative of ENGINEER, who is assigned to the site or any part thereof.

SHOP DRAWINGS- All drawings, diagrams, illustrations, schedules and other date which are specifically prepared by or for CONTRACTOR to illustrate some portion of the Work and all

illustrations, brochures, standard schedules, performance charts, instructions, diagrams and other information prepared by Supplier and submitted by CONTRACTOR to illustrate material or equipment for some portion of the Work.

SPECIFICATIONS- The portions of the CONTRACT DOCUMENTS consisting of written technical description of materials, equipment, construction systems, standards and workmanship as applied to the Work and certain administrative details applicable thereto.

SUB-CONTRACTOR- An individual, firm or corporation having a direct contract with CONTRACTOR or with any other Sub-Contractor for the performance of a part of the Work at the site.

SUBSTANTIAL COMPLETION- The Work (or a specified part thereof) which has progressed to the point where, in the opinion of ENGINEER as evidence by ENGINEER'S definitive certificate of Substantial Completion, it is sufficiently complete, in accordance with the CONTRACT DOCUMENTS, so that the Work, (or specified part) can be utilized for the purpose for which it is intended; or if there by no such certificate issued, when final payment is due in accordance with paragraph 14.13. The terms "substantially complete" and "substantially completed" as applied to any Work refer to Substantial Completion thereof.

SUPPLEMENTAL GENERAL CONDITIONS- The part of the CONTRACT DOCUMENTS which amends or supplements these General Conditions.

SUPPLIER- A manufacturer, fabricator, supplier, distributor, material-man or vendor.

UNDERGROUND FACILITIES- All pipelines, conduits, ducts, cables, wires, manholes, vaults, tanks, tunnels or other such facilities or attachments, and any encasements containing

such facilities which have been installed underground to furnish any of the following service or materials: electricity, gases, steam, liquid petroleum products, telephone or other communications, cable television, sewage and drainage removal, traffic or other control systems or water.

UNIT PRICE WORK- Work to be paid for on the basis of unit prices.

WORK- The entire completed construction or the various separately identifiable parts thereof required to be furnished under the CONTRACT DOCUMENTS. Work is the result of performing services, furnishing labor and furnishing and incorporating materials and equipment into the construction, all as required by the CONTRACT DOCUMENTS.

WORK DIRECTIVE CHANGE- A written directive to CONTRACTOR, issued on or after the Effective Date of the Agreement and signed by OWNER and recommended by ENGINEER, ordering an addition, deletion or revision in the Work, or responding to differing or unforeseen physical conditions under which the Work is to be performed as provided in paragraphs 4.2 and 4.3 or to emergencies under paragraph 6.22. A Work Directive Change may not change the Contract Price or the Contract Time, but is evidence that the parties expect that the change directed or documented by a Work Directive Change will be incorporated in a subsequently issued Change Order following negotiations by the parties as to

its effect, if any, on the Contract Price or Contract Time as provided in paragraph 10.2.

WRITTEN AMENDMENT- A written amendment of the CONTRACT DOCUMENTS, signed by OWNER and CONTRACTOR on or after the Effective Date of the Agreement and normally dealing with the non-engineering or non-technical rather than strictly Work-related aspects of the CONTRACT DOCUMENTS.

ARTICLE 2- PRELIMINARY MATTERS DELIVERY OF BONDS:
2.1. When CONTRACTOR delivers the executed Agreements to OWNER, CONTRACTOR shall also deliver to OWNER such Bonds as Contract may be required to furnish in accordance with paragraph 5.1.

COPIES OF DOCUMENTS:

2.2. OWNER shall furnish to CONTRACTOR up to five copies (unless otherwise specified in the Supplementary Conditions) of the CONTRACT DOCUMENTS as are reasonably necessary for the execution of the Work. Additional copies will be furnished, upon request, at the cost of reproduction.

COMMENCEMENT OF CONTRACT TIME; NOTICE TO PROCEED:
2.3. The Contract Time will commence to run on the thirtieth day after the Effective Date of the Agreement, or if a Notice to Proceed is given, on the day indicated in the Notice to Proceed. A Notice to Proceed may be given at any time within thirty days after the Effective Day of the Agreement. In no event will the Contract Time commence to run later than the seventy-fifth day after the day of Bid Opening or the thirtieth day after the Effective Date of the Agreement, whichever date is earlier.

STARTING THE PROJECT:

2.4 CONTRACTOR shall start to perform the Work on the date when the Contract Time commences to run, but no Work shall be done at the site prior to the date on which the Contract Time commences to run.

BEFORE STARTING CONSTRUCTION:

2.5 Before undertaking each part of the Work, CONTRACTOR shall carefully study and compare the Contract Documents and check and verify pertinent figures shown thereon and all applicable field measurements. CONTRACTOR shall promptly report in writing to ENGINEER any conflict, error or discrepancy which CONTRACTOR shall not be liable to OWNER or ENGINEER for failure to report any conflict, error or discrepancy in the CONTRACT DOCUMENTS, unless CONTRACTOR has actual knowledge thereof or should reasonably have known thereof.

2.6 Within ten days after the Effective Date of the Agreement (unless otherwise specified in the General Requirements), CONTRACTOR shall submit to ENGINEER FOR review:

2.6.1 An estimated progress schedule indicating the starting and completion dates of the various stages of the Work;

2.6.2 A preliminary schedule of Shop Drawings submissions; and

2.6.3 A preliminary schedule of values for all of the Work which will include quantities and prices of items aggregating the Contract Price and will subdivide the Work into component parts in sufficient detail to serve as the basis of progress payments during construction. Such prices will include an appropriate amount of overhead and profit applicable to each item of Work which will be confirmed in writing by CONTRACTOR at the time of submission.

2.7 Before any Work at the site is started, CONTRACTOR shall deliver to OWNER, with a copy to ENGINEER, certificates (and other evidence of insurance requested by OWNER) which CONTRACTOR is required to purchase and maintain in accordance with paragraphs 5.3 and 5.4.

PRE-CONSTRUCTION CONFERENCE:

2.8 Within twenty days after the Effective Date of the Agreement, but before CONTRACTOR starts the Work at the site, a conference attended by CONTRACTOR, ENGINEER and others as appropriate will be held to discuss the schedules referred to in paragraph 2.6, to discuss procedures for handling Shop Drawings and other submittals and for processing Applications for Payment, and to establish a working understanding among the parties as to the Work.

FINALIZING SCHEDULES:

2.9 At least ten days before submission of the First Application for Payment a conference attended by CONTRACTOR, ENGINEER and others as appropriate will be held to finalize the schedules submitted in accordance with paragraph 2.6. The finalized progress schedule will be acceptable to ENGINEER as providing an orderly progression of the Work to completion within the Contract Time, but such acceptance will neither impose on ENGINEER responsibility for the progress or scheduling of the Work nor relieve CONTRACTOR from full responsibility therefore. The finalized schedule of Shop Drawing submissions will be acceptable to ENGINEER as providing a workable arrangement for processing the submissions. The finalized schedule of values will be acceptable to ENGINEER as to form and substance.

ARTICLE 3 - CONTRACT DOCUMENTS: INTENT, AMENDING, REUSE INTENT:
3.1. The CONTRACT DOCUMENTS comprise the entire Agreement between OWNER and CONTRACTOR concerning the WORK. The CONTRACT DOCUMENTS are complementary; what is called for by one is as binding as if called for by all. The CONTRACT DOCUMENTS will be construed in accordance with the law of the place of the Project.

3.2 It is the intent of the CONTRACT DOCUMENTS to describe a functionally complete Project (or part thereof) to be constructed in accordance with the CONTRACT DOCUMENTS. Any Work, materials or equipment that may reasonably be inferred from the CONTRACT DOCUMENTS as being required to produce the intended result will be supplied whether or not specifically called for. When words which have a well-known technical or trade meaning are used to describe Work, materials or equipment such works shall be interpreted in accordance with that meaning. Reference to standard specifications, manuals or codes of any technical society, organization or association, or to the Laws or

Regulations in effect at the time of opening of Bids (or, on the Effective Date of the Agreement if there were no Bids), except as may be otherwise specifically stated. However, no provision of any referenced standard specifications, manual or code (whether or not specifically incorporated by reference in the CONTRACT DOCUMENTS) shall be effective to change the duties and responsibilities of OWNER, CONTRACTOR or ENGINEER, or any of their consultants, agents or employees from those set forth in the CONTRACT DOCUMENTS, nor shall it be effective to assign to ENGINEER, or any of ENGINEER'S consultants, agents or employees, any duty or authority to supervise or direct the furnishing or performance of the Work or any duty or authority to undertake responsibility contrary to the provisions of paragraphs 9.15 or 9.16. Clarifications and interpretations of the CONTRACT DOCUMENTS shall be issued by ENGINEER as provided in paragraph 9.4.

3.3 If, during the performance of the Work, CONTRACTOR finds a conflict, error or discrepancy in the CONTRACT DOCUMENTS, CONTRACTOR shall so report to ENGINEER in writing at once and before proceeding with the Work affected thereby shall obtain a written interpretation or clarification from ENGINEER; however, CONTRACTOR shall not be liable to OWNER or ENGINEER for failure to report any conflict, error or discrepancy on the CONTRACT DOCUMENTS unless CONTRACTOR had actual knowledge thereof or should reasonably have known thereof.

AMENDING AND SUPPLEMENTING CONTRACT DOCUMENTS:

3.4 The CONTRACT DOCUMENTS may be amended to provide for additions, deletions and revisions in the Work or to modify the terms and conditions thereof in one or more of the following ways:

3.4.1. A formal Written Amendment,

3.4.2. A Change Order (Pursuant to paragraph 10.4), or

3.4.3. A Work Directive Change (Pursuant to paragraph 10.1).

As indicated in paragraphs 11.2 and 12.1, Contract Price and Contract Time may only be changed by a Change Order or Written Amendment.

3.5. In addition, the requirements of the CONTRACT DOCUMENTS may be supplemented, and minor variations and deviations in the Work may be authorized, in one or more of the following ways:

3.5.1. A Field Order (Pursuant to paragraph 9.5),

3.5.2. ENGINEER'S approval of a Shop Drawing or sample (pursuant to paragraphs 6.26 and 6.27), or

3.5.3. ENGINEER'S written interpretation or clarification (pursuant to paragraph 9.4).

REUSE OF DOCUMENTS:

3.6 Neither CONTRACTOR nor any Sub-Contractor or Supplier or other person or organization

performing or furnishing any of the Work under a direct or indirect contract with OWNER shall have or acquire any title to or ownership rights in any of the Drawings, Specifications or other documents (or copies of any thereof) prepared by or bearing the seal of ENGINEER; and they shall not reuse any of them on extensions of the Project of any other project without written consent of the OWNER.

ARTICLE 4 - AVAILABILITY OF LANDS; PHYSICAL CONDITIONS; REFERENCE POINTS

AVAILABILITY OF LANDS:

4.1 OWNER shall furnish, as indicated in the CONTRACT DOCUMENTS, the lands upon which the Work is to be performed, Rights-of-Way and easements for access thereto, and such other lands which are designated for the use of CONTRACTOR. Easements for permanent structures or permanent changes in existing facilities will be obtained and paid for by OWNER, unless otherwise provided in the CONTRACT DOCUMENTS. If CONTRACTOR believes that any delay in OWNER'S furnishing these lands, Rights-of-Way or easements entitles CONTRACTOR to an extension of the Contract Time, CONTRACTOR may make a claim therefore as provided in Article 12. CONTRACTOR shall provide for all additional lands and access thereto that may be required for temporary construction facilities or storage of materials and equipment.
PHYSICAL CONDITIONS:

4.2.1. Explorations and Reports: Reference is made to the Supplementary conditions for identification of those reports of explorations and tests of sub-surface conditions at the site that have been utilized by ENGINEER in preparation of the CONTRACT DOCUMENTS. CONTRACTOR may rely upon the accuracy of the technical data contained in such reports, but not upon non-technical data, interpretations for opinions contained therein or for the completeness thereof for CONTRACTOR'S purposes. Except as indicated in the immediately preceding sentence and in paragraph 4.2.6, CONTRACTOR shall have full responsibility with respect to sub-surface conditions at the site.

4.2.2. Existing Structures: Reference is made to the Supplementary Conditions for identification of those drawings of physical conditions in or relating to existing surface and sub- surface structures (except Underground Facilities referred to in paragraph 4.3) which are at or contiguous to the site that have been utilized by ENGINEER in preparation of the CONTRACT DOCUMENTS. CONTRACTOR may rely upon the accuracy of the technical data contained in such drawings, but not for the completeness thereof for CONTRACTOR'S purposes. Except as indicated in the immediately preceding sentence and in paragraph 4.2.6, CONTRACTOR shall have full responsibility with respect to physical conditions in or relating to such structures.
4.2.3. Report to Differing Conditions: If CONTRACTOR believes that:

4.2.3.1 Any technical data on which CONTRACTOR is entitled to rely as provided in paragraphs 4.2.1 and 4.2.2 is inaccurate, or

4.2.3.2. Any physical condition uncovered or revealed at the site differ materially from that indicated, reflected or referred to in the CONTRACT DOCUMENTS,

CONTRACTOR shall, promptly after becoming aware thereof and before performing any Work in connection therewith (except in an emergency as permitted by paragraph 6.22), notify OWNER and

ENGINEER in writing about the inaccuracy or difference.

4.2.4. ENGINEER'S Review: ENGINEER will promptly review the pertinent conditions, determine the necessity of obtaining additional explorations or tests with respect thereto and advise OWNER in writing (with a copy to CONTRACTOR) of ENGINEER'S findings and conclusions.

4.2.5. Possible Document Change: If ENGINEER concludes that there is a material error in the CONTRACT DOCUMENTS or that because of newly discovered conditions a change in the CONTRACT DOCUMENTS is required, a Work directive Change or a Change Order will be issued as provided in Article 10 to reflect and document the consequences of the inaccuracy or difference.

4.2.6. Possible Price and Time Adjustments: In each such case, an increase or decrease in the Contract Price or an extension or shortening of the Contract Time, or any combination thereof, will be allowable to the extend that they are attributable to any such inaccuracy or difference.

If OWNER and CONTRACTOR are unable to agree as to the amount or length thereof, a claim may be made thereof, as provided in Articles 11 and 12.

PHYSICAL CONDITIONS - UNDERGROUND FACILITIES:

4.3.1. Shown or Indicated: The information and data shown or indicated in the CONTRACT DOCUMENTS with respect to existing Underground Facilities at or contiguous to the site is based on information and data furnished to OWNER or ENGINEER by the owners of such Underground Facilities or by others. Unless it is otherwise expressly provided in the Supplementary Conditions:

4.3.1.1. OWNER and ENGINEER shall not be responsible for the accuracy or completeness of any such information or data; and,

4.3.1.2. CONTRACTOR shall have full responsibility for reviewing and checking all such information and data, for locating all Underground Facilities shown or indicated in the CONTRACT DOCUMENTS, for coordination of the Work with the owners of such Underground Facilities during construction, for safety and protection thereof as provided in paragraph 6.20 and repairing any damage thereto resulting from the Work, the cost of all of which will be considered as having been included in the Contract Price.

4.3.2. Not Shown or Indicated: If an Underground Facility is uncovered or revealed at or contiguous to the site which was not shown or indicated in the CONTRACT DOCUMENTS and which CONTRACTOR could not reasonable have been expected to be aware of, CONTRACTOR shall, promptly after becoming aware thereof and before performing and Work affected thereby (except in an emergency as permitted by paragraph 6.22), identify the owner of such Underground Facility and give written notice thereof to that owner and to OWNER and ENGINEER. ENGINEER will promptly review the Underground Facility to determine the extent to which the CONTRACT DOCUMENTS should be modified to reflect and document the consequences of the existence of the Underground Facility, and the CONTRACT DOCUMENTS will be amended or supplemented to the extent necessary. During such time, CONTRACTOR shall be responsible for the safety and protection of such Underground Facility as provided in paragraph 6.20. CONTRACTOR shall be allowed an increase in the Contract Price or an

extension of the Contract Time, or both, to the extent that they are attributable to the existence of any Underground Facility that was not shown or indicated in the CONTRACT DOCUMENTS and which CONTRACTOR could not reasonably have been expected to be aware of. If the parties are unable to agree as to the amount or length thereof, CONTRACTOR may make a claim thereof as provided in Articles 11 and 12.

REFERENCE POINTS:

4.4. OWNER shall provide engineering surveys to establish reference points for construction which in ENGINEER'S judgement are necessary to enable CONTRACTOR to proceed with the Work. CONTRACTOR shall be responsible for laying out the Work (unless otherwise specified in the General Requirements), shall protect and preserve the established reference points and shall make no changes or relocations without written approval of OWNER.

CONTRACTOR shall report to ENGINEER whenever any reference point is lost or destroyed or requires relocation because of necessary changes in grades or locations, and shall be responsible for the accurate replacement or relocation of such reference points by professionally qualified personnel.

ARTICLE 5 - BOND AND INSURANCE PERFORMANCE AND OTHER BONDS:
5.1. CONTRACTOR shall furnish performance and payment Bonds, each in an amount at least equal to Contract Price as security for the faithful performance and payment of all CONTRACTOR'S obligations under the CONTRACT DOCUMENTS. These Bonds shall remain in effect at least until one year after the date when final payment becomes due, except as otherwise provided by Law or Regulations or by the CONTRACT DOCUMENTS. CONTRACTOR shall also furnish such other Bond as are required by the Supplementary Conditions. All Bonds shall be in the forms prescribed by law or Regulation or by the Contract Documents and be executed by such sureties as are named in the current list of "Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies" as published in Circular 570 (amended) by the Audit Staff Bureau of Accounts, U.S. Treasury Department. All Bonds signed by an agent must be accompanied by a certified copy of the authority to act.

5.2 If the surety on any Bond furnished CONTRACTOR is declared a bankrupt or becomes insolvent or its right to do business is terminated in any state where any part of the Project is located or it ceases to meet the requirements of paragraph 5.1, CONTRACTOR shall within five days thereafter substitute another Bond and Surety, both of which must be acceptable to OWNER.

CONTRACTOR'S LIABILITY INSURANCE:

5.3. CONTRACTOR shall purchase and maintain such comprehensive general liability and other insurance as is appropriate for the Work being performed and furnished and as will provide protection from claims set forth below which may arise out of or result form CONTRACTOR'S performance and furnishing of the Work and CONTRACTOR'S other obligations under the CONTRACT DOCUMENTS, whether it is to be performed or furnished by CONTRACTOR, by any Sub-Contractor, by anyone directly or indirectly employed by any of them to perform or furnish any of the Work, or by anyone for whose acts any of them may be liable:
5.3.1. Claims under worker's or workmen's compensation, disability benefits and other similar

employee benefit acts;

5.3.2. Claims for damages because of bodily injury, occupational sickness or disease, or death of CONTRACTOR'S employees;

5.3.3. Claims for damages because of bodily injury, sickness or disease, or death of any person other than CONTRACTOR'S employees;

5.3.4. Claims for damages insured by personal injury liability coverage which are sustained (a) by any person as a result of an offense directly or indirectly related to the employment of such person by CONTRACTOR, (b) by any other person for any other reason;

5.3.5. Claims for damages, other than to the Work itself, because of injury to or destruction of tangible property wherever located, including loss of use resulting there from;
5.3.6. Claims arising out of operation of Laws or Regulations for damages because of bodily injury or death of any person or for damage to property; and

5.3.7. Claims for damages because of bodily injury or death of any person or property damage arising out of the ownership, maintenance or use of motor vehicle.

The insurance required by this paragraph 5.3 shall include the specific coverages and be written for not less than the limits of liability and coverages provided in the Supplemental General Conditions, or required by law, whichever is greater. The comprehensive general liability insurance shall include completed operations insurance. All of the policies of insurance so required to be purchased and maintained (or the certificates or other evidence thereof) shall contain a provision or endorsement that the coverage afforded will not be canceled, materially changed or renewal refused until at least thirty days' prior to a written notice been given to OWNER and ENGINEER by certified mail. All such insurance shall remain in effect until final payment and at all times thereafter when CONTRACTOR may be correcting, removing or replacing defective work in accordance with paragraph 13.12. In addition, CONTRACTOR shall maintain such completed operations insurance for at least two years after final payment and furnish OWNER with evidence of continuation of such insurance at final payment and one year thereafter.

CONTRACTUAL LIABILITY INSURANCE:

5.4. The comprehensive general liability insurance required by paragraph 5.3 will include contractual liability insurance applicable to CONTRACTOR'S obligations under paragraphs
6.30 and 6.31.

OWNER'S LIABILITY INSURANCE:

5.5. (Deleted) PROPERTY INSURANCE:
5.6. – 5.10 (Deleted)

WAIVER OF RIGHTS:
5.11.1. CONTRACTOR waives all rights against OWNER for all losses and damages caused by any of

the perils covered by the policies of insurance provided under the Supplemental General Conditions and any other property insurance applicable to the Work, and also waives all such rights against the Sub-Contractors, ENGINEER, ENGINEER'S Consultants and all other parties named as insured in such policies for losses and damages so caused. As required by paragraph 6.11, each sub-contract between CONTRACTOR, and a Sub-Contractor will
contain similar waiver provisions by the Sub-Contractor in favor of OWNER, CONTRACTOR, ENGINEER, ENGINEER'S Consultants and all other parties named as insured. None of the above waivers shall extend to the rights that any of the insured parties may have to the proceeds of insurance held by OWNER as trustee or otherwise payable under any policy so issued.

5.11.2. CONTRACTOR intends that any policies provided under the Supplemental General Conditions shall protect all of the parties insured and provide primary coverage for all losses and damages caused by the perils covered thereby. Accordingly, all such policies shall contain provisions to the effect that in the event of payment of any loss or damage the insurer will have no rights or recovery against any of the parties named as insured or additional insured and if the insurers require separate waiver forms to be signed by ENGINEER or ENGINEER'S consultant or any Sub- Contractor, CONTRACTOR will obtain the same.

RECEIPT AND APPLICATION OF PROCEEDS:

5.12. (Delete)

5.13. (Delete)

ACCEPTANCE OF INSURANCE:

5.14. If OWNER has any objection to the coverage afforded by or other provisions of the insurance required to be purchased and maintained by CONTRACTOR in accordance with paragraphs 5.3 and 5.4 on the basis of its not complying with the CONTRACT DOCUMENTS, OWNER shall notify CONTRACTOR in writing thereof within ten days of the date or delivery of such certificates to OWNER in accordance with paragraph 2.7. CONTRACTOR shall each provide to OWNER, such additional information in respect of insurance provided by each as the OWNER may reasonably request. Failure by OWNER to give such notice of objection within the time provided shall constitute acceptance of such insurance purchased by the CONTRACTOR as complying with the CONTRACT DOCUMENTS.

PARTIAL UTILIZATION- PROPERTY INSURANCE:

5.15 If OWNER finds it necessary to occupy or use a portion or portions of the Work prior to Substantial Completion of all the Work, such use or occupancy may be accomplished in accordance with paragraph 14.10. The insurers of CONTRACTORS providing the property insurance shall consent to such use or occupancy by endorsement on the policy or policies, but the property insurance shall not be canceled or lapse on account of any such partial use or occupancy.

ARTICLE 6- CONTRACTOR'S RESPONSIBILITIES SUPERVISION AND SUPERINTENDENCE:

6.1. CONTRACTOR shall supervise and direct the Work competently and efficiently, devoting such attention thereto and applying such skill and expertise as may be necessary to perform the Work in accordance with the CONTRACT DOCUMENTS. CONTRACTOR shall be solely responsible for the means, methods, techniques, sequences and procedures of construction, but CONTRACTOR shall not be responsible for the negligence of others in the design or selection or a specific means, method, technique, sequence or procedure or construction which is indicated in and required by the CONTRACT DOCUMENTS. CONTRACTOR shall be responsible to see that the finished Work complies accurately with the CONTRACT DOCUMENTS.

6.2. CONTRACTOR shall keep on the Work at all times during its progress a competent resident superintendent, who shall not be replaced without written notice to OWNER and ENGINEER except under extraordinary circumstances. The superintendent will be CONTRACTOR'S representative at the site and shall have authority to act on behalf of CONTRACTOR. All communications given to the superintendent shall be as binding as if given to CONTRACTOR.

LABOR, MATERIALS AND EQUIPMENT:

6.3. CONTRACTOR shall provide competent, suitably qualified personnel to survey and lay out the Work and perform construction as required by the CONTRACT DOCUMENTS. CONTRACTOR shall at all times maintain good discipline and order at the site. Except in connection with the safety or protection of persons of the Work or property at the site or adjacent thereto, and except as otherwise indicated in the CONTRACT DOCUMENTS, all Work at the site shall be performed during regular working hours, and CONTRACTOR will not permit overtime work or the performance of Work on Saturday, Sunday or any legal holiday without OWNER'S written consent after prior written notice to ENGINEER.

6.4. Unless otherwise specified in the General Requirements, CONTRACTOR shall furnish and assume full responsibility for all materials, equipment, labor, transportation, construction equipment and machinery, tools, appliances, fuel, power, light, telephone, water, sanitary facilities, temporary facilities and all other facilities and incidentals necessary for the furnishing, performance, testing start-up, and completion of Work.

6.5. All materials and equipment shall be of good quality and new, except, as otherwise provided in the CONTRACT DOCUMENTS. If required by ENGINEER, CONTRACTOR shall furnish satisfactory evidence (including reports of required tests) as to the kind and quality of materials and equipment. All materials and equipment shall be applied, installed, connected, erected, used, cleaned and conditioned in accordance with the instructions of the applicable
Supplier, except as otherwise provided in the CONTRACT DOCUMENTS; but no provision of any such instructions will be effective to assign to ENGINEER, or any of ENGINEER'S consultants, agents or employees, any duty or authority to supervise or direct the furnishing or performance of the Work or any duty or authority to undertake responsibility contrary to the provisions of paragraph 9.15 or 6.16.

ADJUSTING PROGRESS SCHEDULE:

6.6 CONTRACTOR shall submit to ENGINEER for acceptance (to the extent indicated in paragraph 2.9) adjustments in the progress schedule to reflect the impact thereon of new developments; these will

conform generally to the progress schedule then in effect and additionally will comply with any provisions of the General Requirements applicable thereto.

SUBSTITUTES OR "OR-EQUAL" ITEMS:

6.7.1. Whenever materials or equipment are specified or described in the CONTRACT DOCUMENTS by using the name of a proprietary item or the name of a particular Supplier the naming of the item is intended to establish the type, function and quality required. Unless the name is followed by words indicating that no substitution is permitted, materials or equipment of other Suppliers may be accepted by ENGINEER if sufficient information is submitted by CONTRACTOR to allow ENGINEER to determine that the material or equipment proposed is equivalent or equal to that named. The procedure for review by ENGINEER will include the following as supplemented in the General Requirements. Requests for review of substitute items of material and equipment will not be accepted by ENGINEER from anyone other than CONTRACTOR. If CONTRACTOR wishes to furnish or use a substitute item of material or equipment, CONTRACTOR shall make written application to ENGINEER for acceptance thereof, certifying that the proposed substitute will perform adequately the functions and achieve the results called for by the general design, be similar and of equal substance to that specified and be suited to the same use as that specified. The application will state that the evaluation and acceptance of the proposed substitute will not prejudice CONTRACTOR'S achievement of Substantial Completion on time, whether or not acceptance of the substitutes for use in the Work will require a change in any of the CONTRACT DOCUMENTS (or in the provisions of any other direct contract with OWNER for Work on the Project) to adapt the design to the proposed substitute and whether or not incorporation or use of the substitute in connection with the Work is subject to payment or any license fee of royalty. All variations of the proposed substitute from that specified will be identified in the application and available maintenance, repair and replacement service will be indicated. The application will also contain an itemized estimate of all costs that will result directly or indirectly from acceptance of such substitute, including cost of redesign and claims or other contractors affected by the resulting change, all of which shall be considered by ENGINEER in evaluating the proposed substitute. ENGINEER may require CONTRACTOR to furnish at CONTRACTOR'S expense additional data about the proposed substitute.

6.7.2. If a specific means, method, technique, sequence or procedure of construction is indicated in or required by the CONTRACT DOCUMENTS, CONTRACTOR may furnish or utilize a substitute means, method, sequence, technique or procedure of construction acceptable to ENGINEER, if CONTRACTOR submits sufficient information to allow ENGINEER to determine that the substitute proposed is equivalent to that indicated or required by the CONTRACT DOCUMENTS. The procedure for review by ENGINEER will be similar to that provided in paragraph 6.7.1, as applied by ENGINEER and as may be supplemented in the General Requirements.

6.7.3. ENGINEER will be allowed a reasonable time within which to evaluate each proposed substitute. ENGINEER will be sole judge of acceptability, and no substitute will be ordered, installed or utilized without ENGINEER'S prior written acceptance which will be evidenced by either a Change Order or an approved Shop Drawing. OWNER may require CONTRACTOR to furnish at CONTRACTOR'S expense a special performance guarantee or other surety with respect to any substitute. ENGINEER will record time required by ENGINEER and ENGINEER'S consultants in

evaluating substitutions proposed by CONTRACTOR and in making changes in the CONTRACT DOCUMENTS occasioned thereby. Whether or not ENGINEER accepts a proposed substitute, CONTRACTOR shall reimburse OWNER for the charges of ENGINEER and ENGINEER'S consultants for evaluating each proposed substitute.

CONCERNING SUB-CONTRACTORS, SUPPLIERS AND OTHER:

6.8.1. CONTRACTOR shall not employ any Sub-Contractor, Supplier or other person or organization (including those acceptable to OWNER and ENGINEER as indicated in paragraph 6.8.2), whether initially or as a substitute, against whom OWNER or ENGINEER may have reasonable objection. CONTRACTOR shall not be required to employ any Sub- Contractor, Supplier or other person or organization to furnish or perform any of the Work against whom CONTRACTOR has reasonable objection.

If the Supplementary Conditions require the identity of certain Sub-Contractors, Suppliers or other persons or organizations (including those who are to furnish the principal items or materials and equipment) to be submitted to OWNER in advance of the specified date prior to the Effective Date of the Agreement for acceptance by OWNER and ENGINEER and if CONTRACTOR has submitted a list thereof in accordance with the Supplementary Conditions, OWNER'S or ENGINEER'S acceptance either in writing or by failing to make written objection thereto by the date indicated for acceptance or objection in bidding documents or the CONTRACT DOCUMENTS) of any such Sub-Contractor, Supplier or other person or organization so identified may be revoked on the basis of reasonable objection after due investigation, in which case CONTRACTOR shall submit an acceptable substitute, the Contract Price will be increased by the difference in the cost occasioned by such substitution and an appropriate Change Order will be issued or Written Amendment signed. No acceptance by OWNER or ENGINEER of any such Sub-Contractor, Supplier or other person or organization shall constitute a waiver of any right of OWNER or ENGINEER to reject
defective Work.

6.9. CONTRACTOR shall be fully responsible to OWNER and ENGINEER for all acts and omissions of the Sub-Contractor's, Suppliers and other persons and organizations performing or furnishing any of the Work under a direct and indirect contract with CONTRACTOR just as CONTRACTOR is responsible for CONTRACTOR'S own acts and omissions. Nothing in the CONTRACT DOCUMENT shall create any contractual relationship between OWNER or ENGINEER and any such Sub-Contractor, Supplier or other person or organization, nor shall it create any obligation on the part of OWNER or ENGINEER to pay or to see to the payment of any moneys due any such Sub-Contractor, Supplier or other person or organization except as may otherwise be required by Laws and Regulations.

6.10. The divisions and sections of the Specifications and the identifications of any Drawings shall not control CONTRACTOR in dividing the Work among Sub-Contractors or Suppliers or delineating the Work to be performed by any specified trade.

6.11 All Work performed for CONTRACTOR by a Sub-Contractor will be pursuant to an appropriate agreement between CONTRACTOR and Sub-Contractor which specifically binds the Sub-Contractor to the applicable terms and conditions of the CONTRACT DOCUMENTS for the benefit of OWNER and

ENGINEER and contains waiver provisions as required by paragraph 5.11.

PATENT FEES AND ROYALTIES:

6.12. CONTRACTOR shall pay all license fees and royalties and assume all costs incident to the use in the performance of the Work or the incorporation in the Work of any invention, design, process, product or device which is the subject of patent rights or copyrights held by others. If a particular invention, design, process, product or device is specified in the CONTRACT DOCUMENTS for use in the performance of the Work and if to the actual knowledge of OWNER and ENGINEER its use is subject to patent rights or copyrights calling for the payment of any license fee or royalty to others, the existence of such rights shall be disclosed by OWNER in the CONTRACT DOCUMENTS. CONTRACTOR shall indemnify, hold harmless and defend at its cost, OWNER and ENGINEER and anyone directly or indirectly employed by either of them from and against all claims, damages, losses and expenses (including attorneys' fees and court and arbitration costs) arising out of any infringement of patent rights or copyrights incident to the use in the performance of the Work or resulting from the incorporation in the Work of any invention, design, process, product, or device not specified in the CONTRACT DOCUMENTS, and shall defend all such claims in connection with any alleged infringement of such rights.

6.13. Unless otherwise provided in the Supplemental General Conditions, CONTRACTOR shall obtain and pay for all construction permits and licenses. OWNER shall assist CONTRACTOR, when necessary, in obtaining such permits and licenses. CONTRACTOR
shall pay all governmental charges and inspection fees necessary for the prosecution of the Work, which are applicable at the time of opening of Bids, or if there are not Bids on the Effective Date of the Agreement. CONTRACTOR shall pay all charges of utility owners for connections to the Work, and OWNER shall pay all charges of such utility owners for capital costs related thereto such as plant investment fees.

LAWS AND REGULATIONS:

6.14.1. CONTRACTOR shall give all notices and comply with all laws and Regulations applicable to furnishing and performing of the Work. Except where otherwise expressly required by applicable Laws and Regulations, neither OWNER nor ENGINEER shall be responsible for monitoring CONTRACTOR'S compliance with any Law or Regulations.

6.14.2 If CONTRACTOR observes that the Specification of Drawings are at variance with any Laws or Regulations, CONTRACTOR shall give ENGINEER prompt written notice thereof, any necessary changes will be authorized by one of the methods indicated in paragraph 3.4.

If CONTRACTOR performs any Work knowing or having reason to know that it is contrary to such Laws or Regulations, and without such notice to ENGINEER, CONTRACTOR shall bear all costs arising therefrom; however, it shall not be CONTRACTOR'S primary responsibility to made certain that the Specifications and Drawings are in accordance with such Laws and Regulations.

6.15. CONTRACTOR shall pay all sales, consumer use and other similar taxes required to be paid by CONTRACTOR in accordance with the Laws and Regulations of the place of the Project which are

applicable during the performance of the Work.

USE OF PREMISES:

6.16. CONTRACTOR shall confine construction equipment, the storage of materials and equipment and the operations of workers to the Project site and land and areas identified in and permitted by the CONTRACT DOCUMENTS and other land and areas permitted by Laws and Regulations, rights-of-way, permits and easements, and shall not unreasonably encumber the premises with construction equipment or equipment. CONTRACTOR shall assume full responsibility for any damage to any such land or area, or to the owner or occupant thereof or of any land or areas contiguous thereto, resulting from the performance of the Work. Should any claim be made against OWNER or ENGINEER by any such owner or occupant because of the performance of the Work, CONTRACTOR shall promptly attempt to settle with such other party by agreement or otherwise resolve the claim by at law. CONTRACTOR shall, to the fullest extend permitted by Law and Regulations, indemnify and hold OWNER and ENGINEER harmless from and against all claims, damages, losses and expenses (including, but not limited to, fees of Engineers, Architects, Attorneys and other professional and court and arbitration costs) arising directly, indirectly or consequently out of any action, legal or equitable, brought by any such other party against OWNER or ENGINEER to the extent based on a claim arising out of work done by CONTRACTOR under the CONTRACT DOCUMENTS. It is the expressed intention of the parties hereto, both OWNER and CONTRACTOR, that the indemnity provided for in this paragraph is indemnity by CONTRACTOR to indemnify and protect OWNER from the consequences of OWNER'S own negligence, whether that negligence is the sole or a concurring cause of the injury, death or damage.

6.17. During the progress of the Work, CONTRACTOR shall keep the premises free from such accumulations of waste materials, rubbish and other debris resulting from the Work. At the completion of the Work CONTRACTOR shall remove all waste materials, rubbish and debris from and about the premises as well as all tools, appliances, construction equipment and machinery and surplus materials, and shall leave the site clean and ready for occupancy by OWNER. CONTRACTOR shall restore to original condition all property not designated for alteration by the CONTRACT DOCUMENTS.

6.18. CONTRACTOR shall not load nor permit any part of any structure to be loaded in any manner that will endanger the structure, nor shall CONTRACTOR subject any part of the Work or adjacent property to stresses or pressures that will endanger it.

DOCUMENTS:

6.19. CONTRACTOR shall maintain in a safe place at the site one record copy of all Drawings, Specifications, Addenda, Written Amendments, Change Orders, Work Directive Changes, Field Orders and Written Interpretations and Clarifications (issued pursuant to paragraph 9.4) in good order and annotated to show all changes made during construction. These record documents together with all approved samples and a counterpart of all approved Shop Drawings will be available to ENGINEER for reference. Upon completion of the Work, these Record Documents, Samples and Shop Drawings will be delivered to ENGINEER for OWNER.

SAFETY AND PROTECTION:

6.20. CONTRACTOR shall be responsible for initiation, maintaining and supervising all safety precautions and programs in connection with the Work. CONTRACTOR shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury or loss to:

6.20.1. All employees on the Work and other persons and organizations who may be affected thereby;

6.20.2 All the Work and materials and equipment to be incorporated therein, whether in storage on or off the site.

6.20.3. Other property at the site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, utilities and Underground Facilities not designated for removal, relocation or replacement in the course of construction.

CONTRACTOR shall comply with all applicable Laws and Regulations of any public body having jurisdiction for the safety of persons or property or to protect them from damage, injury or loss; and shall erect and maintain all necessary safeguards for such safety and protection. CONTRACTOR shall notify owners of adjacent property and of Underground Facilities and utility owners when prosecution of the Work may affect them, and shall cooperate with them in the protection, removal, relocation and replacement of their property. All damages, injury or loss to any property referred to in paragraphs 6.20.2 or 6.20.3 caused, directly or indirectly, in whole or in part, by CONTRACTOR, and Sub-Contractor, Supplier or any other person or organization directly or indirectly employed by any of them to perform or furnish any of the Work or anyone for whose acts any of them may be liable, shall be remedied by CONTRACTOR (except damage or loss attributable to the fault of Drawings or Specifications or to the acts or omission of OWNER or ENGINEER or anyone employed by either of them or anyone for whose acts either of them may be liable, and not attributable, directly or indirectly, in whole or in part, to the fault or negligence of CONTRACTOR). CONTRACTOR'S duties and responsibilities for the safety and protection of the Work shall continue until such time as all the Work is completed and ENGINEER has issued a notice to OWNER and CONTRACTOR in accordance with paragraph 14.13 that the Work is acceptable (except as otherwise expressly provided in connection with Substantial Completion.

6.21. CONTRACTOR shall designate a responsible representative at the site whose duty shall be the prevention of accidents. This person shall be CONTRACTOR'S superintendent unless otherwise designated in writing by CONTRACTOR to OWNER.

EMERGENCIES:

6.22. In emergencies affecting the safety or protection of persons or the Work or property at the site or adjacent thereto, CONTRACTOR, without special instruction or authorization from ENGINEER or OWNER, is obligated to act to prevent threatened damage, injury or loss. CONTRACTOR shall give ENGINEER prompt written notice if CONTRACTOR believes that any significant changes in the Work or variations from the CONTRACT DOCUMENTS have been caused thereby. If ENGINEER determines that a change in the CONTRACT DOCUMENTS is required because of the action taken in

response to any emergency, a Work Directive Change or Change Order will be issued to document the consequences of the changes or variations.

SHOP DRAWINGS AND SAMPLES:

6.23. After checking and verifying all field measurements and complying with applicable procedures specified in the General Requirements, CONTRACTOR shall submit to ENGINEER for review an approval in accordance with the accepted schedule of Shop Drawing submissions (see paragraph 2.9), or for other appropriate action if so indicated in the Supplementary Conditions, five copies (unless otherwise specified in General Requirements) of all Shop Drawings, which bear a stamp written indication that CONTRACTOR has satisfied CONTRACTOR'S responsibilities under the CONTRACT DOCUMENTS with respect to the review of the submission. All submissions will be identified as ENGINEER may require. The data shown on the Shop Drawings will be completed with respect to quantities, dimensions, specified performance and design criteria, materials, and similar data to enable ENGINEER to review the information as required.

6.24. CONTRACTOR shall also submit to ENGINEER for review and approval with such promptness as to cause no delay in Work, all samples required by the CONTRACT DOCUMENTS. All samples will have been checked by and accompanied by a specific written indication that CONTRACTOR has satisfied CONTRACTOR'S responsibilities under the CONTRACT DOCUMENTS with respect to the review of the submission and will be identified clearly as to material, Supplier, pertinent data such as catalog numbers and the use for which intended.

6.25.1. Before submission of each Shop Drawing or sample CONTRACTOR shall have determined and verified all quantities, dimensions, specified performance criteria, installation requirements, materials, catalog numbers and similar data with respect thereto and reviewed or coordinated each Shop Drawing or sample with other Shop Drawings and samples and with the requirements of the Work and the CONTRACT DOCUMENTS.

6.25.2. At the time of each submission, CONTRACTOR shall give ENGINEER specific written notice of each variation that the Shop Drawings or samples may have from the requirements of the CONTRACT DOCUMENTS, and in addition, shall cause a specific notation to be made on each Shop Drawing submitted to ENGINEER for review and approval of each such variation.

ENGINEER will review and approve with reasonable promptness Shop Drawings and samples, ENGINEER'S review and approval will be only for conformance with the design concept of the Project and for compliance with the information given in the CONTRACT DOCUMENTS and shall not extend to means, methods, techniques, sequences or procedures of construction (except where a specific means, method, technique, sequence or procedure of construction is indicated in or required by the CONTRACT DOCUMENTS) or to safety precautions or programs incident thereto. The review and approval of a separate item as such will not indicate approval of the assembly in which the item functions. CONTRACTOR shall make corrections required by ENGINEER, and shall return the required number of corrected copies of Shop Drawings and submit as required new samples for review and approval. CONTRACTOR shall direct specific attention in writing to revisions other than the corrections called by ENGINEER or previous submittals.

6.27. ENGINEER'S review and approval of Shop Drawings or samples shall not relieve CONTRACTOR from responsibility for any variation from the requirements of the CONTRACT DOCUMENTS unless CONTRACTOR has in writing called ENGINEER'S attention to each such variation at the time of submission as required by paragraph 6.25.2 and ENGINEER has given written approval of each such variation by a specific written notation thereof incorporated in or accompanying the Shop Drawing or sample approval; nor will any approval by ENGINEER relieve CONTRACTOR from responsibility for errors or omissions in the Shop Drawings or from responsibility for having complied with the provisions of paragraph 6.25.1.

6.28. Where a Shop Drawing or sample is required by the Specifications, any related Work performed prior to ENGINEER'S review and approval of the pertinent submission will be the sole expense and responsibility of CONTRACTOR.

CONTINUING THE WORK:

CONTRACTOR shall carry on the Work and adhere to the progress schedule during all disputes or disagreements with OWNER. No Work shall be delayed or postponed pending resolution of any disputes or disagreements, except as permitted by paragraph 15.5 or as CONTRACTOR and OWNER may otherwise agree in writing.

INDEMNIFICATION:

6.30. To the fullest extent permitted by Laws and Regulations CONTRACTOR shall indemnify and hold harmless OWNER and ENGINEER and their consultants, agents and employees from and against all claims, damages, losses and expense, direct, indirect or consequential (including but not limited to fees and charges of Engineers, Architects, Attorneys and other professional and court and arbitration costs) arising out of or resulting from the performance of the Work, provided that any such claim, damage, loss or expense (a) is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself) including the loss of use resulting there from and (b) is caused in whole or in part by any negligent act or omission of OWNER, CONTRACTOR, and Sub-Contractor, any person or organization directly or indirectly employed by any of them to perform or furnish any of the Work or anyone for whose acts any of them may be liable, regardless of whether or not it is caused in part by a partly indemnified hereunder or arises by or is imposed by Law and Regulations regardless of the negligence of any such party. It is the expressed intention of the parties hereto, both OWNER and CONTRACTOR, that the indemnity provided for in this paragraph is indemnity by CONTRACTOR to indemnify and protect OWNER from the consequences of OWNER'S own negligence, whether that negligence is the sole or concurring cause of the injury, death or damage.

6.31. In any and all claims against OWNER or ENGINEER or any of their consultants, agents or employees by any employee or Contractor, any Sub-Contractor, and person or organization directly or indirectly employed by any of them to perform or furnish any of the Work or anyone for whose acts any of them may be liable, the indemnification obligation under paragraph 6.30 shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefits payable by or for CONTRACTOR or any Sub-Contractor or other person or organization under workers' or workmen's compensation acts, disability benefit acts or other employee benefit acts.

6.32. The obligations of CONTRACTOR under paragraph 6.30 shall not exceed to the liability of ENGINEER, ENGINEER'S consultants, agents or employees arising out of the preparation or approval or maps, drawings, opinions, reports, surveys, Change Orders, designs or Specifications.

ARTICLE 7-OTHER WORK RELATED WORK AT SITE:

7.1. OWNER may perform other work related to the Project at the site by OWNER'S own forces, have other work performed by utility owners or let other direct contracts therefore which shall contain General Conditions similar to these. If the fact that such other work is to be performed was not noted in the CONTRACT DOCUMENTS, written notice thereof will be given to CONTRACTOR prior to starting any such other work; and if CONTRACTOR believes that such performance will involve additional expense to CONTRACTOR or requires additional time and the parties are unable to agree as to the extent thereof, CONTRACTOR may make a claim therefore as provided in Articles 11 and 12.

7.2. CONTRACTOR shall afford each utility owner and other contractor who is a party to such a direct contract (or OWNER, if OWNER is performing the additional work with OWNER'S employees) proper and safe access to the site and a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such work, and shall properly connect and coordinate the Work with theirs. CONTRACTOR shall do all cutting, fitting and patching of the Work that may be required to make its several parts come together properly and integrate with such other work. CONTRACTOR shall not endanger any work of others by cutting, excavating or otherwise altering their work and will only cut or alter their work with the written consent of ENGINEER and the others whose work will be affected. The duties and responsibilities of CONTRACTOR under this paragraph are for the benefit of such utility owners and other contractors to the extent that there are comparable provisions for the benefit of CONTRACTOR in said direct contracts between OWNER and such utility owners and other contractors.

7.3. If any part of CONTRACTOR'S Work depends for proper execution or results upon the work of any such other contractor or utility owner (or OWNER), CONTRACTOR shall inspect and promptly report to ENGINEER in writing any delays, defects or deficiencies in such work that render it unavailable or unsuitable for such proper execution and results. CONTRACTOR'S failure to report will constitute and acceptance of the other work as fit and
proper for integration with CONTRACTOR'S work except for latent or non-apparent defects in the other work.

COORDINATION:

7.4. If OWNER contracts with others for the performance of other work on the Project at the site, the person or organization who will have authority and responsibility for coordination of the activities among the various prime contractors will be identified in the Supplementary Conditions, and the specific matters to be covered by such authority and responsibility will be itemized, and the extent of such authority and responsibilities will be provided, in the Supplementary Conditions. Unless otherwise provided in the Supplementary Conditions, neither OWNER nor ENGINEER shall have any authority or responsibility in respect of such coordination.

ARTICLE 8-OWNER'S RESPONSIBILITIES

8.1. OWNER shall issue all communications to CONTRACTOR through ENGINEER.

8.2. In case of termination of the employment or ENGINEER, OWNER shall appoint an engineer against whom CONTRACTOR makes no reasonable objection, whose status under the CONTRACT DOCUMENTS shall be that of the former ENGINEER. Any dispute in connection with such appointment shall be subject to arbitration.

OWNER shall furnish the data required of OWNER under the CONTRACT DOCUMENTS promptly and shall make payments to CONTRACTOR promptly after they are due as provided in paragraphs 14.4 and 14.14.

8.4. OWNER'S duties in respect of providing lands and easements and providing engineering surveys to establish reference points are set forth in paragraphs 4.1 and 4.4. Paragraph 4.2 refers to OWNER'S identifying and making available to CONTRACTOR copies of reports of explorations and tests of sub-surface conditions at the site and existing structures which have been utilized by ENGINEER in preparing the Drawings and Specifications.

8.5. (Delete)

8.6 OWNER is obliged to execute Change Orders as indicated in paragraph 10.4.

8.7. OWNER'S responsibility in respect of certain inspections, tests and approvals is set forth in paragraph 13.4.

8.8. In connection with OWNER'S right to stop Work or suspend Work, see paragraph 13.10 and 15.1. Paragraph 15.2 deals with OWNER'S right to terminate services on CONTRACTOR under certain circumstances

ARTICLE 9-ENGINEER'S STATUS DURING CONSTRUCTION OWNER'S REPRESENTATIVE:
9.1. ENGINEER will be OWNER'S representative during the construction period. The duties and responsibilities and the limitations of authority of ENGINEER as OWNER'S representative during construction are set forth in the CONTRACT DOCUMENTS and shall not be extended without written consent of OWNER and ENGINEER.

VISITS TO SITE:

9.2. ENGINEER will make visits to the site at intervals appropriate to the various stages of construction to observe the progress and quality of the executed Work and to determine, in general, if the Work is proceeding in accordance with the CONTRACT DOCUMENTS. ENGINEER will not be required to made exhaustive or continuous on-site inspections to check the quality or quantity of the Work. ENGINEER'S efforts will be directed toward providing for OWNER a greater degree of confidence that the complete Work will conform to the CONTRACT DOCUMENTS. On the basis of such visits and on-site observations as an experienced and qualified design professional, ENGINEER will keep OWNER informed of the progress of the Work and will endeavor to guard OWNER against

defects and deficiencies in the Work.

PROJECT REPRESENTATION:

9.3. If OWNER and ENGINEER agree, ENGINEER will furnish a Resident Project Representative to assist ENGINEER in observing the performance of the Work. The duties, responsibilities and limitations of authority of any such Resident Project Representative and assistants will be as provided in the Supplemental Conditions. If OWNER designates another agent to represent OWNER at the site who is not the ENGINEER'S agent or employee, the duties, responsibilities and limitations of authority of such other person will be provided in Supplemental Conditions.

CLARIFICATIONS AND INTERPRETATIONS:

9.4. ENGINEER will issue with reasonable promptness such written clarifications or interpretations of the requirements of the CONTRACT DOCUMENTS (in the form of Drawings or otherwise) as ENGINEER may determine necessary, which shall be consistent with or reasonably inferable from the overall intent of the CONTRACT DOCUMENTS. If CONTRACTOR believes that a written clarification or interpretation justifies an increase in the Contract Price or an extension of the Contract Time and the parties are unable to agree to the
amount or extent thereof, CONTRACTOR may make a claim therefore as provided in Article 11 or Article 12.

AUTHORIZED VARIATIONS IN WORK:

9.5. ENGINEER may authorize minor variations in the Work from the requirements of the CONTRACT DOCUMENTS which do not involve an adjustment in the Contract Price of the Contract Time and are consistent with the overall intent of the CONTRACT DOCUMENTS. These may be accomplished by a Field Order and will be binding on OWNER, and also on CONTRACTOR who shall perform the Work involved promptly. If CONTRACTOR believes that a Field Order justifies an increase in the Contract Price or an extension of the Contract Time and the parties are unable to agree as to the amount thereof, CONTRACTOR may make a claim therefor as provided in Article 11 or 12.

REJECTING DEFECTIVE WORK:

9.6. ENGINEER will have authority to disapprove or reject Work which ENGINEER believes to be defective, and will also have authority to require special inspection or testing of the Work as provided in paragraph 13.9, whether or not the Work is fabricated, installed or complete.

SHOP DRAWINGS, CHANGE ORDERS AND PAYMENTS:

9.7. In connection with ENGINEER'S responsibility for Shop Drawings and samples, see paragraphs 6.23 through 6.29 inclusive.

9.8. In connection with ENGINEER'S responsibility as to Change Orders, see Articles 10,11, and 12.

9.9. In connection with ENGINEER'S responsibility in respect of Applications for Payment, etc, see

Article 14.

DETERMINATIONS FOR UNIT PRICES:

9.10. (Delete)

DECISIONS ON DISPUTES:

9.11. ENGINEER will be the initial interpreter of the requirements of the CONTRACT DOCUMENTS and judge of the acceptability of the Work thereunder. Claims, disputes and other matters relating to the acceptability of the Work or the interpretation of the requirements of the CONTRACT DOCUMENTS pertaining to the performance and furnishing of the Work and claims under Articles 11 and 12 in respect of changes in the Contract Price or Contract Time will be referred initially to ENGINEER in writing with a request for a formal decision in accordance with this paragraph, which ENGINEER will render in writing within a reasonable time. Written notice of each such claim, dispute and other matter will be delivered by the claimant to ENGINEER and the other party to the Agreement promptly (but in no event later than thirty days) after the occurrence of the event giving rise thereto, and written supporting data will be submitted to ENGINEER and the other party within sixty days after such occurrence unless ENGINEER allows and additional period of time to ascertain more accurate data in support of the claim.

9.12. When functioning as interpreter and judge under paragraphs 9.10 and 9.11, ENGINEER will not show partiality to OWNER or CONTRACTOR and will not be liable in connection with any interpretation or decision rendered in good faith in such capacity. Then rendering of a decision by ENGINEER pursuant to paragraphs 9.10 and 9.11 with respect to any such claim, dispute or other matter (except and which have been waived by the making or acceptance of final payments as provided in paragraph 14.16) will be a condition precedent to any exercise by OWNER or CONTRACTOR or such rights or remedies as either may otherwise have under the CONTRACT DOCUMENTS or by Laws or Regulations in respect of any such claim, dispute or other matter.

LIMITATIONS ON ENGINEER'S RESPONSIBILITIES:

9.13 Neither ENGINEER'S authority to act under this Article 9 or elsewhere in the CONTRACT DOCUMENTS nor any decision made by ENGINEER in good faith either to exercise or not exercise such authority shall give rise to any duty or responsibility of ENGINEER to CONTRACTOR, any Sub-Contractor, any Supplier, or any other person or organization performing any of the Work, or to any surety for any of them.

9.14. Whenever in the CONTRACT DOCUMENTS the terms "as ordered", "as directed", "as required", "as allowed", "as approved" or terms of like effect or import are used, or the adjectives "reasonable", "suitable", "acceptable", "proper", or "satisfactory" or adjectives of the effect or import are used to describe a requirement, direction, review or judgment of ENGINEER as to the Work, it is intended that such requirement, direction review or judgment will be solely to evaluate the Work for compliance with the CONTRACT DOCUMENTS (unless there is a specific statement indicating otherwise). The use of any such term or adjective shall not be effective to assign to ENGINEER any duty or authority to supervise or direct the furnishing or performance of the Work or any duty or

authority to undertake responsibility contrary to the provisions of paragraphs 9.15 and 6.16.

9.15. ENGINEER will not be responsible for CONTRACTOR'S means, methods, technique, sequences or procedures of construction, or the safety precautions and programs incident thereto, and ENGINEER will not be responsible for CONTRACTOR'S failure to perform or furnish the Work in accordance with the CONTRACT DOCUMENTS.

9.16. ENGINEER will not be responsible for the acts or omissions of the CONTRACTOR or of any Sub-Contractor, any Supplier or any other person or organization performing or furnishing any of the Work.

ARTICLE 10-CHANGES IN THE WORK

Without invalidating the Agreement and without notice to any surety, OWNER may, at any time or from time to time, order additions, deletions or revisions in the Work; these will be authorized, be a written amendment, a Change Order or a Work Directive Change. Upon receipt of any such document, CONTRACTOR shall promptly proceed with the Work involved which will be performed under the applicable conditions of the CONTRACT DOCUMENTS (except as otherwise specifically indicated).

10.2. If OWNER and CONTRACTOR are unable to agree as to the extent if any of an increase or decrease in the Contract Price or an extension of shortening of the Contract Time that should be allowed as a result of a work directive change, a claim may be made therefore as provided in Article 11 or Article 12.

10.3. CONTRACTOR shall not be entitled to any increase in the Contract Price or an extension of the Contract Time with respect to any Work performed that is not required by the CONTRACT DOCUMENTS as amended modified and supplemented as provided in paragraphs 3.4 and 3.5, except in the case of any emergency as provided in paragraph 6.22 and except in the case of uncovering Work as provided in paragraph 13.9.

10.4. OWNER and CONTRACTOR shall execute appropriate Change Orders (or Written Amendments) covering:

10.4.1. Changes in the Work that are ordered by OWNER pursuant to paragraph 10.1, are required because of acceptance of defective Work under paragraph 13.13 or correcting defective Work under paragraph 13.14, or are agreed to by the parties;

10.4.2. Changes in the Contract Price or Contract Time which are agreed to by the parties; and

10.4.3. Changes in the Contract Price or Contract Time which embody the substance of any written decision rendered by ENGINEER pursuant to paragraph 9.11, provided that, in lieu of executing any such Change Order, an appeal may be taken from any such decision in accordance with the provisions of the CONTRACT DOCUMENTS and applicable laws and regulations, but during any such appeal, CONTRACTOR shall carry on the Work and adhere to the progress schedule as provided in paragraph 6.29.

10.5. If notice of any change affecting the general scope of the Work of the provisions of the CONTRACT DOCUMENTS (including, but not limited to, Contract Price or Contract Time) is required by the provisions of any Bond to be given to a surety, the giving of any such notice will be CONTRACTOR'S responsibility, and the amount of each applicable Bond will be adjusted accordingly.

ARTICLE 11-CHANGE OR CONTRACT PRICE

11.1. The Contract Price constitutes the total compensation (subject to authorized adjustments) payable to CONTRACTOR for performing the Work. All duties, responsibilities and obligations assigned to or undertaken by CONTRACTOR shall be at his expense without change in the Contract Price.

11.2. The Contract Price may only be changed by a Change Order or by a Written Amendment. Any claim for an increase or decrease in the Contract Price shall be based on written notice delivered by the party making the claim to the other party and to ENGINEER promptly (but in no event later than thirty days) after the occurrence of the event giving rise to the claim and stating the general nature of the claim. Notice of the amount of the claim with supporting data shall be delivered within sixty days after such occurrence (unless ENGINEER allows an additional period of time to ascertain more accurate data in support of the claim) and shall be accompanied by claimant's written statement that the amount claimed covers all known amounts (direct, indirect and consequential) to which the claimant is entitled as a result of the occurrence of said event. All claims for adjustment in the Contract Price shall be determined by ENGINEER in accordance with paragraph 9.11 if OWNER and CONTRACTOR cannot otherwise agree on the amount involved. No claim for an adjustment in the Contract Price will be valid if not submitted in accordance with this paragraph 11.2.

11.3. The value of any Work covered by a Change Order of any claim for an increase or decrease in the Contract Price shall be determined in of the following ways:

11.3.1. (Delete)

11.3.2. By mutual acceptance of a lump sum, which at the discretion of OWNER may be based in whole or in part on the same unit costs outlined in the Bid included in the CONTRACT DOCUMENTS which may include an allowance for overhead and profit.

ARTICLE 12-CHANGE OF CONTRACT TIME

12.1. The Contract Time may only be changed by a Change Order or a Written Amendment. Any Claim for an extension or shortening of the Contract Time shall be based on written notice delivered by the party making the claim to the other party and to ENGINEER promptly (but in no event later than thirty days) after the occurrence of the event giving rise to the claim and stating the general nature of the claim. Notice of the extent of the claim with supporting data shall be delivered within sixty days after such occurrence (unless ENGINEER allows an additional period of time to ascertain more accurate data in support of the claim) and shall be accompanied by the claimant's written statement that the adjustment claimed is the entire

adjustment to which the claimant has reason to believe it is entitled as a result of the occurrence of said event.

All claims for adjustment in the Contract Time shall be determined by ENGINEER in accordance with paragraph 9.11 if OWNER and CONTRACTOR cannot otherwise agree. No claim for an adjustment in the Contract Time will be valid if not submitted in accordance with the requirements of this paragraph 12.1.

12.2. The Contract Time will be extended in an amount to time lost due to delays beyond the control of CONTRACTOR if a claim is made therefore as provided in paragraph 1.1. Such delays shall include, but not be limited to, acts or neglect by OWNER or others performing additional work as contemplated by Article 7, or to fires, floods, labor disputes, epidemics, abnormal weather conditions or acts of God.

12.3. All time limits stated in the CONTRACT DOCUMENTS are of the essence of the Agreement. The provisions of this Article 12 shall not exclude recovery for damages (including but not limited to fees and charges of engineers, architects, attorneys and other professionals and court and arbitration costs) for delay by either party.

ARTICLE 13 - WARRANTY AND GUARANTEE; TESTS AND INSPECTIONS; CORRECTIONS, REMOVAL OR ACCEPTANCE OF DEFECTIVE WORK

WARRANTY AND GUARANTEE:

13.1. CONTRACTOR warrants and guarantees to OWNER and ENGINEER that all Work will be in accordance with the CONTRACT DOCUMENTS and will not be defective. Prompt notice of all defects shall be given to CONTRACTOR. All defective Work, whether or not in place, may be rejected, corrected or accepted as provided in this Article 13.

ACCESS TO WORK:

13.2. ENGINEER and ENGINEER'S representatives, other representatives of OWNER, testing agencies an governmental agencies with jurisdictional interests will have access to the work at reasonable times for their observation, inspecting and testing. CONTRACTOR shall provide proper and safe conditions for such access.

TESTS AND INSPECTION:

13.3. CONTRACTOR shall give ENGINEER timely notice of readiness of the Work for all required inspections, tests or approvals.

13.4. If laws and Regulations of any public body having jurisdiction require any Work (or part thereof) to specifically be inspected, tested or approved, CONTRACTOR shall assume full responsibility therefore, pay all costs in connection therewith and furnish ENGINEER the required certificates of inspection, testing or approval.

CONTRACTOR shall also be responsible for and shall pay all costs in connection with any inspection

or testing required in connection with OWNER'S or ENGINEER'S acceptance of a supplier or materials or equipment proposed to be incorporated in the Work, or of materials or equipment submitted for approval prior to CONTRACTOR'S purchase thereof for incorporation in the Work. The cost of all inspections, tests and approvals other than those which are required by the CONTRACT DOCUMENTS shall be paid by OWNER (unless otherwise specified).

13.5. All inspections, tests or approvals other than those required by Laws or regulations of any public body having jurisdiction shall be performed by organizations acceptable to OWNER and CONTRACTOR (or by ENGINEER if so specified).

13.6. If any Work (including the work of others) that is to be inspected, tested or approved is covered without written concurrence of ENGINEER, it must, if requested by ENGINEER, be uncovered for observation. Such uncovering shall be at CONTRACTOR'S expense unless CONTRACTOR has given ENGINEER timely notice of CONTRACTOR'S intention to cover the same and ENGINEER has not acted with reasonable promptness in response to such notice.

13.7. Neither observations by ENGINEER nor inspections, tests or approvals by others shall relieve CONTRACTOR from CONTRACTOR'S obligations to perform the Work in accordance with the CONTRACT DOCUMENTS.

UNCOVERING WORK:

13.8. If any Work is covered contrary to the written request of ENGINEER, it must, if requested by ENGINEER, be uncovered for ENGINEER'S observation and replaced at CONTRACTOR'S EXPENSE.

13.9. If ENGINEER considers it necessary or advisable that covered Work be observed by ENGINEER or inspected or tested by others, CONTRACTOR, a ENGINEER'S request, shall uncover, expose or otherwise make available for observation, inspection or testing as ENGINEER may require, that portion of the Work in question, furnishing all necessary labor, material and equipment. If it is found that such Work is defective, CONTRACTOR shall bear all direct, indirect and consequential costs of such uncovering, exposure, observation, inspection and testing and of satisfactory reconstruction, (including but not limited to fees and charges of engineers, architects, attorneys and other professionals), and OWNER shall be entitled to an appropriate decrease in the Contract Price, and, if the parties are unable to agree as to the amount thereof, may make a claim thereof, may make a claim therefore as provided in Article
11. If, however, such work is not found to be defective, CONTRACTOR shall be allowed to increase in the Contract Price or an extension of the contract time, or both, directly attributable to such uncovering, exposure, observation, inspection, testing and reconstruction; and, if the parties are unable to agree as to the amount or extent thereof, CONTRACTOR may make a claim therefore as provided in Articles 11 and 12.

OWNER MAY STOP THE WORK:

13.10. If the Work is defective, or CONTRACTOR fails to supply sufficient skilled workers or suitable materials or equipment, or fails to furnish or perform the Work in such a way that the completed Work

will conform to the CONTRACT DOCUMENTS, OWNER may order CONTRACTOR to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, this right of OWNER to stop the Work shall not give rise to any duty on the part of OWNER to exercise this rights for the benefit of CONTRACTOR or any other party.

CORRECTION OR REMOVAL OF DEFECTIVE WORK:

13.11. If required by ENGINEER, CONTRACTOR shall promptly, as directed, either correct al defective Work, whether or not fabricated, installed or completed, or, if the Work has been rejected by Engineer, remove it from the site and replace it with non-defective Work. CONTRACTOR shall bear all direct, indirect and consequential costs of such correction or removal (including but not limited to fees and charges of engineers, architects, attorneys and other professionals) made necessary thereby.

ONE-YEAR CORRECTION PERIOD:

13.12. If within one year after the date of issue of the Certificate of Acceptance or such longer period of time as may be prescribed by Laws or Regulations or by the terms of any applicable special guarantee required by the CONTRACT DOCUMENTS or by any specific provision of the CONTRACT DOCUMENTS, any Work is found to be defective, CONTRACTOR shall promptly, without cost to OWNER and in accordance with OWNER'S written instructions, either correct such defective Work, or, if it has been rejected by OWNER, remove it from the site and replace it with non-defective work. If CONTRACTOR does not promptly comply with the terms of such instructions, or in an emergency where delay would cause serious risk of loss or damage, OWNER may have the defective Work corrected pr the rejected work removed and replaced, and all direct, indirect and consequential costs and replacement (including but not limited to fees and charges of engineers, architect, attorneys, and other professionals) will be paid by CONTRACTOR.

ACCEPTANCE OF DEFECTIVE WORK:

13.13. If, instead of requiring correction of removal and replacement of defective Work, OWNER (and, prior to ENGINEER'S recommendation of final payment, also ENGINEER) prefers to accept it, OWNER may do so. CONTRACTOR shall bear all direct, indirect and consequential costs attributable to OWNER's evaluation of and determination to accept such defective Work (such cost to be approved by ENGINEER as to reasonableness and to include but not be limited to fees and charges of engineers, architects, attorneys and other professionals).

If any such acceptance occurs prior to ENGINEER'S recommendation of final payment, a Change Order will be issued incorporating the necessary revisions in the CONTRACT DOCUMENTS with respect to the Work; and OWNER shall be entitled to an appropriate decrease in the Contract Price, and, if the parties are unable to agree as to the amount thereof, OWNER may make a claim therefore as provided in Article 11. If the acceptance occurs after such recommendation, an appropriate amount will be paid by CONTRACTOR to OWNER.

OWNER MAY CORRECT DEFECTIVE WORK:

13.14. If COCNTRACTOR fails within a reasonable time after written notice of ENGINEER to

proceed to correct and to correct defective Work or to remove and replace rejected Work as required by ENGINEER in accordance with paragraph 13.11, or if CONTRACTOR fails to perform the Work in accordance with the CONTRACT DOCUMENTS, or if CONTRACTOR fails to comply with any other provision of the CONTRACT DOCUMENTS, OWNER may, after seven days' written notice to CONTRACTOR, correct and remedy any such deficiency. In exercising the rights and remedies under this paragraph OWNER shall proceed expeditiously. To the extent necessary to complete corrective and remedial action, OWNER may exclude CONTRACTOR from all or part of the site, take possession of all or part of the Work, and suspend CONTRACTOR'S services related thereto, take possession of CONTRACTOR'S tools, appliances, construction equipment and machinery at the site and incorporate in the Work all materials and equipment stored at the site or for which OWNER has paid CONTRACTOR but which are stored elsewhere. CONTRACTOR shall allow OWNER, OWNER'S representatives, agents and employees such access to the site as may be necessary to enable OWNER to exercise the rights and remedies under this paragraph. All direct, indirect and consequential costs of OWNER in Exercising such rights and remedies will be charged against CONTRACTOR in an amount approved as to reasonableness by ENGINEER, and charged against CONTRACTOR in an amount approved as to reasonableness by ENGINEER, and a Change Order will be issued incorporating the necessary revisions in the CONTRACT DOCUMENTS with respect to the Work; and OWNER shall be entitled to an appropriate decrease in the Contract Price, and, if the parties are unable to agree as to the amount thereof, OWNER may make a claim therefore as provided in Article 11. Such direct, indirect and OWNER consequential costs will include but not be limited to fees and charges of engineers, architects, and other professionals, all court and arbitration costs and all costs of repair and replacement of work of others destroyed or damaged by correction, removal or replacement of CONTRACTOR'S defective Work. CONTRACTOR shall not be allowed an extension of the Contract Time because of any delay in performance of the Work attributable to the exercise by OWNER of OWNER'S rights and remedies hereunder.

ARTICLE 14 - PAYMENTS TO CONTRACTOR AND COMPLETION SCHEDULE OF VALUES:

14.1 The schedule of values established as provided in paragraph 2.9 will serve as the basis for progress payments and will be incorporated into a form of Application of Payment acceptable to ENGINEER. Progress payments on account of Unit Price Work will be based on the number of units completed.

APPLICATION FOR PROGRESS PAYMENT:

14.2 At least twenty days before each progress payment is scheduled (but not more often than once a month), CONTRACTOR shall submit to ENGINEER for review an Application for Payment filled out and signed by CONTRACTOR covering the Work completed as of the date of the Application and accompanied by such supporting documentation as is required by the CONTRACT DOCUMENTS. If Payment is requested on the basis of materials and equipment not incorporated in the Work but delivered and suitably stored at the site or at another location agreed to in writing, the Application for Payment shall also be accompanied by a bill of sale, invoice or other documentation warranting that OWNER has received the materials and equipment free and clear of all liens, charges, security interests and encumbrances (which are hereinafter in these General Conditions referred to as "Liens") and evidence that the materials and equipment are covered by appropriate property insurance and other arrangements to protect OWNER'S interest therein, all of which will be satisfactory to OWNER. The amount of retainage with respect to progress payments will be 10% (ten percent). The retainage shall be held by the owner until all the work has been satisfactorily completed and accepted in writing. At that time the

retainage may be released and included in the Final Payment.

CONTRACTOR'S WARRANTY OF TITLE:

14.3. CONTRACTOR warrants and guarantees that title to all Work, materials and equipment covered by any Application for Payment, whether incorporated in the Project or not, will pass to OWNER no later than the time of payment free and clear of all Liens.

REVIEW OF APPLICATIONS FOR PROGRESS PAYMENT:

14.4 ENGINEER will, within ten days after receipt of each Application for Payment, either indicate in writing a recommendation of payment and present the Application to Owner, or return the Application to Contractor indicating in writing ENGINEER'S reasons for refusing to recommend payment. In the latter case, CONTRACTOR may make the necessary corrections and re-submit the Application twenty (20) days after the presentation of the Application for Payment with ENGINEER'S recommendation, the amount recommended will (subject to the provisions of the last sentence of paragraph 14.7) become due and when due will be paid by
OWNER to CONTRACTOR.

14.5 ENGINEER'S recommendation of any payment requested in an application for Payment will constitute a representation by ENGINEER to OWNER, based on ENGINEER'S on-site observations of the Work in progress as an experienced and qualified design professional and on ENGINEER'S review of the Application for Payment and the accompanying data and schedules that the work has progressed to the point indicated that to the best of the ENGINEER'S knowledge, information and belief, the quality of the Work is in accordance with the CONTRACT DOCUMENTS (subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, to the results of any subsequent test called for in the CONTRACT DOCUMENTS, to a final determination of quantities and classifications for Unit Price Work under paragraph 9.10, and to any other qualifications stated the recommendation); and that CONTRACTOR is entitled to payment of the amount recommended.

However, by recommending any such payment ENGINEER will not thereby be deemed to have represented that exhaustive or continuous on-site inspection have been made to check the quality or the quantity of the Work beyond the responsibilities specifically assigned to ENGINEER in the CONTRACT DOCUMENTS or that there may be other matters or issues between the parties that might entitle CONTRACTOR to be paid additionally by OWNER or OWNER to withhold payment to CONTRACTOR.

14.6 ENGINEER'S recommendation of final payment will constitute an additional representation by ENGINEER to OWNER that the conditions precedent to CONTRACTOR'S being entitled to final payment as set forth in paragraph 14.13 have been fulfilled.

14.7. ENGINEER may refuse to recommend the whole or any part of any payment if, in ENGINEER'S opinion, it would be incorrect to make such representation to OWNER. ENGINEER may also refuse to recommend any such payment, or because of tests, nullify any such payments previously recommended, to such extent as may be necessary in ENGINEER'S opinion to protect OWNER from loss because:

14.7.1 The Work is defective, or completed Work has been damaged requiring correction or replacement;

14.7.2. The Contract Price has been reduced by Written Amendment or Change Order,

14.7.3. OWNER has been required to correct defective Work or complete Work in accordance with paragraph 13.14.

14.7.4. ENGINEER'S actual knowledge of the occurrence of any of the events enumerated in paragraphs 15.2.1 through 15.2.9 inclusive.

OWNER may refuse to make payment of the full amount recommended by ENGINEER because claims have been made against OWNER on account of CONTRACTOR'S performance of furnishing of the Work or Liens have been filed in connection with the Work or there are other items entitling OWNER to a set-off against the amount recommended, but OWNER must give CONTRACTOR immediate written Notice (with a copy to ENGINEER) stating the reasons for such action.

SUBSTANTIAL COMPLETION:

14.8 When CONTRACTOR considers the entire Work ready for its intended use CONTRACTOR shall notify OWNER and ENGINEER in writing that the entire Work is substantially complete (except for items specifically listed by CONTRACTOR as incomplete) and request that ENGINEER issue a certificate of Substantial Completion. Within a reasonable time thereafter, OWNER, CONTRACTOR and ENGINEER shall make an inspection of the Work to determine the status of completion. If ENGINEER considers The Work substantially complete, ENGINEER will prepare and deliver to OWNER a tentative certificate of Substantial Completion which shall fix the date of Substantial Completion.

There shall be attached to the certificate a tentative list of items to be completed or corrected before final payment. OWNER shall have seven days after receipt of the tentative certificate during which to make written objection to ENGINEER as to any provisions of the certificate or attached list. If, after considering such objections, ENGINEER concludes that the Work is not substantially complete, ENGINEER will within fourteen days after submission of the tentative certificate to OWNER notify CONTRACTOR in writing, stating the reasons therefore. If, after consideration of OWNER'S objections, ENGINEER considers the Work substantially complete, ENGINEER will within said fourteen days execute and deliver to OWNER and CONTRACTOR a definitive certificate of Substantial Completion (with a revised tentative list of items to be completed or corrected) reflecting such changes from the tentative certificate as ENGINEER believes justified after consideration of any objections from OWNER. At the time of delivery of the tentative certificate of Substantial completion (with a revised tentative list of items to be completed or corrected) reflecting such changes from the tentative certificate as ENGINEER of delivery of the tentative certificate of Substantial Completion ENGINEER will deliver to OWNER and CONTRACTOR a written recommendation as to division of responsibilities pending final payment between OWNER and CONTRACTOR with respect to security, operation, safety, maintenance, heat, utilities, insurance and warranties. Unless OWNER and CONTRACTOR

agree otherwise in writing and to inform ENGINEER prior to ENGINEER'S issuing the definitive certificate of Substantial completion, ENGINEER'S aforesaid recommendation will be binding on OWNER and CONTRACTOR until final payment.

14.9. OWNER shall have the right to exclude CONTRACTOR from the Work after the date of Substantial Completion, but OWNER shall allow CONTRACTOR reasonable access to complete or correct items on the tentative list.

PARTIAL UTILIZATION:

14.10. Use by OWNER of any finished part of the Work, which has specifically been identified in the CONTRACT DOCUMENTS, or which OWNER, ENGINEER and CONTRACTOR agree constitutes a separately functioning and usable part of the Work that can be used by OWNER without significant interference with CONTRACTOR'S performance of the remainder of the Work, may be accomplished prior to Substantial Completion of all the Work subject to the following:

14.10.1. OWNER at any time may request CONTRACTOR in writing to permit OWNER to use any such part of the Work which OWNER believes to be ready for its intended use and substantially complete. If CONTRACTOR agrees, CONTRACTOR will certify to OWNER and ENGINEER that said part of the Work is substantially complete and request ENGINEER to issue a certificate of Substantial Completion for that part of the Work. CONTRACTOR at any time may notify OWNER and ENGINEER in writing that CONTRACTOR considers any such part of the Work ready for its intended use and substantially complete and request ENGINEER to issue a certificate of Substantial Completion for that part of the Work. Within a reasonable time after either such request, OWNER, CONTRACTOR and ENGINEER shall make an inspection of that part of the Work to determine its status of completion. If ENGINEER does not consider that part of the Work to be substantially complete, the provisions of paragraphs 14.8 and 14.9 will apply with respect to certification of Substantial Completion of that part of the Work and the division of responsibility in respect thereof and access thereto.

14.10.2 OWNER at any time may request CONTRACTOR in writing to permit OWNER to take over operation of any such part of the Work although it is not substantially complete. A copy of such request will be sent to ENGINEER and within a reasonable time thereafter OWNER, CONTRACTOR and ENGINEER shall make an inspection of that part of the Work to determine its status of completion and will prepare a list of the items remaining to be completed or corrected thereon before final payment. If CONTRACTOR does not object in writing to OWNER and ENGINEER that such part of the Work is not ready for separate operation by OWNER, ENGINEER will finalize the list of items to be completed or corrected and will deliver such list to OWNER and CONTRACTOR together with written recommendation as to the division of responsibilities pending final payment between OWNER and CONTRACTOR with respect to security, operation, safety, maintenance, utilities, insurance, warranties and guarantees for that part of the Work which will become binding upon OWNER and CONTRACTOR at the time when OWNER takes over such operation (unless they shall have otherwise agreed in writing and so informed ENGINEER). During such operation and prior to Substantial Completion of such part of the Work, OWNER shall allow CONTRACTOR reasonable access to complete or correct items on said list and to complete other related Work.

14.10.3 No occupancy or separate operation of part of the Work will be accomplished prior to compliance with the requirements of paragraph 5.15 in respect of property insurance. FINAL INSPECTION:

14.11 Upon written notice from CONTRACTOR that the entire Work or an agreed portion thereof is complete, ENGINEER will make a final inspection with OWNER and CONTRACTOR and will notify CONTRACTOR in writing of all particulars in which this inspection reveals that the Work is incomplete or defective. CONTRACTOR shall immediately take such measures as are necessary to remedy such deficiencies.

FINAL APPLICATION FOR PAYMENT:

14.12 After CONTRACTOR has completed all such corrections to the satisfaction of ENGINEER and delivered all maintenance and operating instructions, schedules, guarantees, Bonds certificates of inspection, marked-up record documents (as provided in paragraph 6.19) and other documents-all as required by the CONTRACT DOCUMENTS, and after ENGINEER has indicated that the Work is acceptable (subject to the provisions of paragraph 14.16), CONTRACTOR may make application for final payment following the procedure for progress payments. The final Application for Payment shall be accompanied by all documentation called for in the CONTRACT DOCUMENTS, together with complete and legally effective releases or waivers (satisfactory to OWNER) of all Liens arising out of or filed in connection with the Work. In lieu thereof and as approved by OWNER, CONTRACTOR may furnish receipts or releases in full; an affidavit of CONTRACTOR that the releases and receipts include all labor, services, material and equipment for which a Lien could be filed, and that all payrolls, material and equipment bills, and other indebtedness connected with the Work for which OWNER or OWNER'S property might in any way be responsible, have been paid or otherwise satisfied; and consent of the surety, if any, to final payment. If any Sub-Contractor or Supplier fails to furnish a release or receipt in full, CONTRACTOR may furnish a Bond or other collateral satisfactory to OWNER to indemnify OWNER against any Lien.

FINAL PAYMENT AND ACCEPTANCE:

If, on the basis of ENGINEER'S observation of the Work during construction and final inspection, and ENGINEER'S review of the final Application for Payment and accompanying documentation, all required by the CONTRACT DOCUMENTS, ENGINEER is satisfied that the Work has been completed and CONTRACTOR'S other obligations under the CONTRACT DOCUMENTS have been fulfilled, ENGINEER will, within ten days after receipt of final Application for Payment, indicate in writing ENGINEER'S recommendation of payment and present the Application to OWNER for payment.

Thereupon ENGINEER will give written notice to OWNER and CONTRACTOR that the Work is acceptable subject to the provisions of paragraph 14.16. otherwise, the ENGINEER will return the Application to CONTRACTOR, indicating in writing the reasons for refusing to recommend final payment, in which case CONTRACTOR shall make the necessary corrections and re-submit the Application. Thirty days after presentation to OWNER of the Application and accompanying documentation, in appropriate form and substance, and with ENGINEER'S recommendation and notice of acceptability the amount recommended by ENGINEER will become due and will be paid by OWNER to CONTRACTOR.

14.14 If, through no fault of CONTRACTOR, final completion of the Work is significantly delayed and if ENGINEER so confirms, OWNER shall, upon receipt of CONTRACTOR'S final Application for payment and recommendation of ENGINEER, and without terminating the Agreement, make payment of the balance due for that portion of the Work fully completed and accepted. If the remaining balance to be held by OWNER for Work not fully completed or corrected is less than the retainage stipulated in the Agreement, and if bonds have been furnished as required in paragraph 5.1, the written consent of the surety to the payment of the balance due for that portion of the Work fully completed and accepted shall be submitted by CONTRACTOR to ENGINEER with the Application for such payment. Such payment shall be made under the terms and conditions governing final payment, except that it shall not constitute a waiver of claims.

CONTRACTOR'S CONTINUING OBLIGATION:

14.15. CONTRACTOR'S obligation to perform and complete the Work in accordance with the CONTRACT DOCUMENTS shall be absolute. Neither recommendation of any progress or final payment by ENGINEER, nor the issuance of a certificate of Substantial Completion, nor any payment by OWNER to CONTRACTOR under the CONTRACT DOCUMENTS, nor any use or occupancy of the Work or any part thereof by OWNER, nor any act of acceptance by OWNER nor any failure to do so, nor any review and approval of a Shop Drawing or sample submission, nor the issuance of a notice of acceptability by ENGINEER pursuant to paragraph 14.13, nor any correction of defective Work by OWNER will constitute an acceptance of Work not in accordance with the CONTRACT DOCUMENTS or release of CONTRACTOR'S obligation to perform the Work in accordance with the CONTRACT DOCUMENTS.

WAIVER OF CLAIMS:

14.16. The making and acceptance of final payment will constitute:

14.16.1 A waiver of all claims by OWNER against CONTRACTOR, except claims arising from unsettled Liens, from defective Work appearing after final inspection pursuant to paragraph 14.11 or from failure to comply with the CONTRACT DOCUMENTS or the terms of any special guarantees specified therein; however it will constitute a waiver by OWNER of any rights in respect of CONTRACTOR'S continuing obligations under the CONTRACT DOCUMENTS; and

14.16.2 A waiver of all claims by CONTRACTOR against OWNER other than those previously made in writing and still unsettled.

ARTICLE 15- SUSPENSION OF WORK AND TERMINATION OWNER MAY SUSPEND WORK:
15.1 OWNER may at any time and without cause, suspend the Work or any portion thereof for a period of not more than ninety days by notice in writing to CONTRACTOR and ENGINEER which will fix the date on which Work will be resumed. CONTRACTOR shall resume Work on the date so fixed. CONTRACTOR shall be allowed an increase in the Contract Price or an extension of the Contract Time, or both, directly attributable to any suspension if CONTRACTOR makes an approved claim therefore as provided in Articles 11 and 12.

OWNER MAY TERMINATE:

15.2 Upon the occurrence of any one or more of the following events:

15.2.1. If CONTRACTOR commences a voluntary case under any chapter of the Bankruptcy Code as now or hereafter in effect at the time of filling, or if a petition is filed seeking any such equivalent or similar relief against CONTRACTOR under any other Federal or State law in effect at the time relating to bankruptcy or insolvency;

15.2.2. If a petition is filed against CONTRACTOR under any chapter of the Bankruptcy Code as now or hereafter in effect at the time of filing, or if a petition is filed seeking any such equivalent or similar relief against CONTRACTOR under any other Federal or State law in effect at the time relating to bankruptcy or insolvency;

15.2.3. If CONTRACTOR makes a general assignment for the benefit of creditors;

15.2.4. If a trustee, receiver, custodian or agent of CONTRACTOR is appointed under applicable law or under contract, whose appointment or authority to take charge of property of CONTRACTOR is for the purpose or enforcing a Lien against such property or for the purpose of general administration of such property for the benefit of CONTRACTOR'S creditors;

15.2.5. If CONTRACTOR admits in writing as inability to pay its debts generally as they become due;

15.2.6. If CONTRACTOR persistently fails to perform the work in accordance with the CONTRACT DOCUMENTS (including, but not limited to, failure to supply sufficient skilled workers or suitable materials or equipment of failure to supply sufficient skilled workers or suitable materials or equipment of failure to adhere to the progress schedule established under
paragraph 2.9 as revised from time to time);

15.2.7. If CONTRACTOR disregards Law or Regulations of any public body having jurisdiction;

15.2.8. If CONTRACTOR disregards the authority of ENGINEER; or

15.2.9. If CONTRACTOR otherwise violates in any substantial way any provisions of the CONTRACT DOCUMENTS; OWNER (and the surety, if there be one) seven days written the extent notice and to permitted by Laws and Regulations, terminate the CONTRACTOR, exclude CONTRACTOR from the site and take possession of the Work and of all CONTRACTOR'S tools, appliances, construction equipment and machinery at the site and use the same to the full extent they could be used by CONTRACTOR (without liability to CONTRACTOR for trespass or conversion) incorporated in the Work all materials and equipment stored elsewhere and finish the Work as Owner may deem expedient. In such case CONTRACTOR shall not be entitled to receive any further payment until the Work is finished. If the unpaid balance of the Contract Price exceeds the direct, indirect and consequential costs of completing the Work (including but not limited to fees and charges of engineers, architects, attorneys and other professionals and court and arbitration costs), such excess will be paid to CONTRACTOR. If such costs exceed such unpaid balance, CONTRACTOR shall pay the difference to OWNER. Such

costs incurred by OWNER will be approved as to reasonableness by ENGINEER and incorporated in a Change Order, but when exercising any rights to remedies under this paragraph OWNER shall not be required to obtain the lowest price for the Work performed.

15.3 Where CONTRACTOR'S services have been so terminated by OWNER, the termination will not affect any rights or remedies of OWNER against CONTRACTOR then existing or which may thereafter occur. Any retention or payment of moneys due CONTRACTOR by OWNER will not release CONTRACTOR from liability.

15.4. Upon seven days' written notice to CONTRACTOR and ENGINEER, OWNER may, without cause and without prejudice to any other right or remedy, elect to abandon the Work and terminate the Agreement. In such case, CONTRACTOR shall be paid for all Work executed and any expense sustained plus reasonable termination expense, which will include, but not be limited to, direct, indirect and consequential costs (including, but not limited to, fees and charges of engineers, architects, attorneys and other professionals and court and arbitration costs.

CONTRACTOR MAY STOP WORK OR TERMINATE:

15.5. If, through no act or fault of CONTRACTOR, the Work is suspended for a period or more than ninety days by OWNER or under an order of court or other public authority, or ENGINEER fails to act on any Application for Payment within thirty days after it is submitted,
or OWNER fails for thirty days to pay CONTRACTOR any sum finally determined to be due, then CONTRACTOR may, upon seven days written notice to OWNER and ENGINEER, terminate the Agreement and recover from OWNER payment for all Work executed and any expense sustained plus reasonable termination expenses. In addition and in lieu of terminating the Agreement, if ENGINEER has failed to act on an Application for Payment or OWNER has failed to make any payment as aforesaid, CONTRACTOR may upon seven days' written notice to OWNER and ENGINEER stop the Work until payment of all amounts then due. The provisions of this paragraph shall not relieve CONTRACTOR of the obligations under paragraph 6.29 to carry on the Work in accordance with the progress schedule and without delay during disputes and disagreements with OWNER.

ARTICLE 16 - ARBITRATION
Deleted

ARTICLE 17 - MISCELLANEOUS GIVING NOTICE:
17.1 Whenever any provision of the CONTRACT DOCUMENTS requires the giving of written notice, it will be deemed to have been validly given if delivered in person to the individual or to a member of the firm or to an officer of the corporation for whom it is intended, or if delivered at or sent by registered or certified mail, postage prepaid, to the last business address know to the giver of the notice.

17.2.1. When any period of time is referred to in the CONTRACT DOCUMENTS by days, it will be computed to exclude the first and include the last day of such period. If the last day of any such period falls on a Saturday or on a day made a legal holiday by the law of the applicable jurisdiction, such day will be omitted from the computation.

17.2.2. A calendar day of twenty-four hours measured from midnight to the next midnight shall

constitute a day.

GENERAL:

17.3. Should OWNER or CONTRACTOR suffer injury or damage to person or property because of any error, omission or act of the other party or of any of the other party's employees or agents or others for whose acts the other party is legally liable, claim will be made in writing to the other party within a reasonable time of the first observance of such injury or damage. The provision of this paragraph 17.3 shall not be construed as a substitute for or a waiver of the provisions of any applicable statute of limitations or repose.

17.4. The duties and obligations imposed by these General Conditions and the rights and remedies available hereunder to the parties hereto, and, in particular but without limitation, the warranties, guarantees and obligation imposed upon CONTRACTOR by paragraphs 6.30, 13.1, 13.12, 13.14, 14.3 and 15.2 and all of the rights and remedies available to OWNER and ENGINEER thereunder, are in addition to, and are not to be construed in any way as a limitation of, any rights and remedies available to any or all of them which are otherwise imposed or available by Laws and Regulations, by special warranty or guarantee or by other provisions of the CONTRACT DOCUMENTS, and the provisions of this paragraph will be as effective as if repeated specifically in the CONTRACT DOCUMENTS in connection with each particular duty, obligation, right and remedy to which they apply. All representations, warranties and guarantees made in the CONTRACT DOCUMENTS will survive final payment and termination or completion of the Agreement.

17.5 STANDARD WORK HOURS: The standard work hours for the OWNER is 8:00 am to 5:00 pm, Monday through Friday. Should the Contractor elect to work on Saturday, Sundays or holidays, he shall be responsible for paying overtime charges for the OWNERS personnel involved. These charges will be at cost and will be calculated either at time and a half or double time, as applicable to the particular day being worked. Pre-approval shall be obtained from the Engineer or Engineer's representative by completing and signing a OWNER'S Form entitled "CONSTRUCTION INSPECTORS OVERTIME COMPENSATION AUTHORIZATION", prior to commencing any overtime work.

Any work done outside the standard workday, without prior authorization, shall be considered under unauthorized work. The Contractor is required to pay the overtime wages of the OWNER Inspectors that work overtime Mondays through Fridays at time in a half. The Contractor is responsible for the overtime wages of the ONWER inspectors that work Holidays at double time. Minimum hours will be billed to contractor for callouts or for insufficient notice of two (2) hours.

17.6 INDEMNIFICATION

TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAWS AND REGULATIONS, CONTRACTOR SHALL INDEMNIFY AND HOLD HARMLESS OWNER, ENGINEER, ENGINEER'S SUBCONSULTANTS AND THE OFFICERS, DIRECTORS, EMPLOYEES, AGENTS, AND OTHER CONSULTANTS OF EACH AND ANY OF THEM FROM AND AGAINST ALL CLAIMS, COSTS, LOSSES, AND DAMAGES (INCLUDING BUT NOT LIMITED TO ALL FEES AND CHARGES OR ENGINEERS, ARCHITECTS, ATTORNEYS, AND OTHER PROFESSIONALS AND ALL COURT OR ARBITRATION OR OTHER DISPUTE RESOLUTION COSTS) CAUSED BY, ARISING OUT OF, OR RESULTING FROM, THE PERFORMANCE OF

THE WORK, PROVIDED THAT ANY SUCH CLAIM, COST, LOSS OR DAMAGE: (i) IS ATTRIBUTABLE TO BODILY INJURY, SICKNESS, DISEASE, OR DEATH, OR TO INJURY TO OR DESTRUCTION OF TANGIBLE PROPERTY (OTHER THAN THE WORK ITSELF), INCLUDING THE LOSS OF USE RESULTING THEREFROM, AND
(ii) IS CAUSED IN WHOLE OR IN PART BY ANY NEGLIGENT ACT OR OMISSION OF CONTRACTOR, ANY SUBCONTRACTOR, ANY SUPPLIER, ANY PERSON, OR ORGANIZATION DIRECTLY OR INDIRECTLY EMPLOYED BY ANY OF THEM TO PERFORM OR FURNISH ANY OF THE WORK, OR ANYONE FOR WHOSE ACTS ANY OF THEM MAY BE LIABLE, REGARDLESS OF WHETHER OR NOT CAUSED IN PART BY ANY NEGLIGENCE OR OMISSION OF A PERSON OR ENTITY INDEMNIFIED HEREUNDER OR WHETHER LIABILITY IS IMPOSED UPON SUCH INDEMNIFIED PARTY BY LAWS AND REGULATIONS REGARDLESS OF THE NEGLIGENCE OF ANY SUCH PERSON OR ENTITY. CLAIMS, COSTS, LOSSES, DAMAGES, SUITS AND CAUSES OF ACTION, AND ANY AND ALL LIABILITY, COSTS, EXPENSES, SETTLEMENTS, DAMAGES, AND JUDGEMENTS INCURRED IN CONNECTION THEREWITH (INCLUDING BUT NOT LIMITED TO ALL FEES AND CHARGES OF ENGINEERS, ARCHITECTS, ATTORNEYS, AND OTHER PROFESSIONALS, AND ALL COURT OR ARBITRATION OR OTHER DISPUTES RESOLUTION COSTS) WHETHER ARISING IN EQUITY, AT COMMON LAW, OR BY STATUTE, INCLUDING THE TEXAS DECEPTIVE TRADE PRACTICES ACTOR SIMILAR STATUTE OF OTHER JURISDICTIONS, OR UNDER THE LAW OF CONTRACTS, TORTS (INCLUDING WITHOUT LIMITATION, NEGLIGENCE AND STRICT LIABILITY WITHOUT REGARD TO FAULT) OR PROPERTY, OF EVERY KIND OR CHARACTER… (iii) IS CAUSED IN WHOLE OR IN PART BY ANY NEGLIGENT ACT OR OMISSION, OTHER FAULT, BREACH OF CONTRACT OR WARRANTY, VIOLATION OF THE TEXAS DECEPTIVE TRADE PRACTICES ACT, OR STRICT LIABILITY WITHOUT REGARD TO FAULT OF CONTRACTOR…. REGARDLESS OF WHETHER OR NOT CAUSED IN PART BY ANY NEGLIGENCE OR OMISSION, OTHER FAULT, BREACH OF CONTRACT OR WARRANTY, VIOLATION OF THE TEXAS DECEPTIVE TRADE PRACTICES ACT, OR STRICT LIABILITY WITHOUT REGARD TO FAULT OF A PERSON OR ENTITY INDEMNIFIED HEREUNDER…. CONTRACTOR'S OBLIGATIONS OF INDEMNIFICATION UNDER THIS PARAGRAPH 6.20.1 SHALL NOT BE LIMITED BY THE AMOUNT OF ANY INSURANCE.
VIDEOTAPING: The Contractor shall videotape the entire job site, including access to the job site, prior to commencing work. A copy of the videotape shall be provided to the City at the Pre-Construction Conference. The videotape will be held for historical purposes and for resolving complaints/claims from affected property owners. Failure to provide such a tape shall render the contractor liable for claims. Acceptable format is standard VHS tape. Beta format is not acceptable.
Monthly videotaping by the contractor during construction is recommended to protect the contractor's interest against claims and as a basis for extras.

Exhibit "I"

SPECIAL CONDITIONS

1. COMPLETION TIME AND LIQUIDATED DAMAGES

The project as indicated in the Plans and Specifications shall be completed within the number of consecutive calendar days stated in the Contract beginning the date of the notice to commence work. Contractors shall submit a monthly request for time extensions, and such requests shall include justification in conformance with the Contract. The time set forth in the Proposal for the completion of the work is an essential element of the contract. The Contractor and Owner understand and agree that a breach of this Contract as to completion on time will cause damage to the Owner. The parties agree that for each and every calendar day the work or an portion thereof shall remain uncompleted after the expiration of the time limits, the amount per day given in the following schedule will be deducted from the money due or to become due the Contractor, not as penalty, but as liquidated damages and added expense of engineering and overhead.

The Contractor shall within the (10) days from the beginning of any delay notify the Engineer, in writing, of the causes of delay. The Engineer shall ascertain the facts, and the extent of delay and his findings of the facts thereon shall be final and conclusive.

2. CONTRACT DRAWINGS

The Contractor will be furnished three (3) complete sets of drawings by the Engineer for use during construction of the project. Only Plans and Specifications marked "Approved for Construction" and bearing signature of the Engineer on said mark shall be used as construction drawings. Any additional set of construction plans can be provided to contractor upon payment of $100.00.

3. DISPOSAL OF RUBBISH

It shall be the responsibility of the Contractor to dispose of all rubbish, brush, fencing, trees or other objectionable materials by burning, removal form the site or whatever means necessary to effect such disposal.

4. UTILITY SERVICES FOR CONSTRUCTION

Contractor will be responsible for furnishing water or any other utility services required for construction of project.

5. TESTING, INSPECTION AND CONTROL

Testing and inspection of materials required by these specifications shall be by a commercial testing laboratory. The laboratory shall be selected by the Owner and laboratory services and field testing required by the Technical Specifications for control of work, such as testing of concrete cylinders made

on the job shall be paid for by the Contractor. Additional laboratory services as dictated below shall be paid for y the Contractor:

A. The cost of laboratory services required to establish mix design for Portland Cement Concrete and Asphaltic concrete mixture, testing of aggregates, fixing gradations, the preparations and testing of design cylinders or specimens and other such services required to establish mix design, or to redesign the mix when required due to change in source of materials.

B. The Contractor shall furnish all materials and test specifications for testing as selected by the Testing Agency.

C. Mills test will be required for reinforcing steel, and cement, and mill certificates will be acceptable when it is definite that the test sheets apply to the material being supplied.

D. Any tests or inspections performed exclusively for the Contractor's convenience and for retests caused by initial nonconformance of the materials with the Contract Documents.

The testing mentioned in this section will be performed at a frequency required by the specification or at a frequency determined by the Engineer or the Engineer's representative. The Engineer shall require sufficient testing to ensure that the requirements of the specifications are met by the Contractor.

6. LICENSE, FEES AND PERMITS

It shall be the Contractor's responsibility to make necessary applications and obtain all permits required by all agencies, including, but not limited to, the City, County, State, and Federal government for this project.

7. TRAFFIC

It shall be the responsibility of the Contractor to provide for the safety and convenience of traffic so as to comply with all existing traffic regulations and ordinances as may apply.

8. UNDERGROUND OBSTACLES

Pipelines and other existing underground installations and structures in the vicinity of the work are shown on the drawings according o the best information available to the Owner. The Owner does not guarantee the accuracy of such information. The Contractor shall make every effort to locate all underground pipelines, conduits and structures by contacting owners of underground utilities an by prospecting in advance of trench excavation. The repair of existing utilities cut by the Contractor shall be made at the expense of the Contractor, and shall be scheduled so as to cause the least possible inconvenience to the public. Any delay or extra cost to the Contractor caused by pipelines or other underground structures or obstructions not shown by the Plans, or found in location of different from those indicated, shall not constitute a claim for extra work, additional payment or damages.

9. RECORD DRAWINGS

Upon completion of the project and before final payment is made to the Contractor, the Contractor shall deliver one (1) complete set of record drawings and said drawings shall be neat, accurate and orderly and produced to the satisfaction of the Engineer.

10. OTHER CONTRACTS

Other contracts may be underway concurrently in this area. Contractor shall afford other contractors and utility companies reasonable opportunity for the introduction and storage of their materials and the execution of their work and shall properly connect and coordinate his work with theirs.

11. MATERIALS AND WORKSHIP

When materials are specified by a trade or brand name, it is not the intention of the Owner to discriminate against an equal product of another manufacturer, but to set a definite standard of quality or performance and to establish an equal basis for the evaluation of bids.

12. REPAIR TO ROADS

The Contractor shall be responsible for repairing any damage to City or County Roads and road owned by the Owner which are used by the Contractor in connection with operations under this Contract. Said repair work shall be at the Contractor's expense. Any debris, mud and related sources caused by contractor will need to be hauled off and cleaned.

13. PUBLIC UTILITIES

A. All poles, wires, cables, conduits, pipelines, or other structures within the work area, belonging to municipalities or public utility corporations, shall be protected by the Contractor.
B. The Contractor will conduct the work along any section of this project which is crossed by, or adjacent to, a public utility such as high lines, sewer lines, etc., in a manner so that no damages result to these utilities. The Contractor will be held solely responsible for damages to such utilities as a result of careless or negligent operations.

14. PRE-CONSTRUCTION CONFERENCE

Upon award of a Contract to the successful bidder, the Contractor shall meet with the Engineer at a designated location and at a time set by the Engineer. A schedule of procedure for a sequence of construction shall be agreed upon at this conference.

15. LINES AND GRADES

Special attention is directed to Part 2, Paragraph 2.6, Page GC-5, of the General Conditions of Agreement. Special care should be taken by the Contractor to avoid disturbance of Engineer's horizontal and vertical control points. The protection of construction stakes (horizontal and vertical control points), is the Contractor's responsibility and re-staking or re-establishment of these points or stakes will be

done by the Engineer at the Contractor's expense. Survey Party time for re-staking will be charged at hourly rates in accordance with the Engineer's schedule of hourly rates which is in effect at the time of the re-staking. (Refer to SG5 Notification)

16. STAKING FOR CONSTRUCTION General

The staking services that the Engineer will furnish and the responsibility of the Contractor respecting the uses of and maintenance of all stakes is outlined under this section. (Refer to Notification section on this document)

No stakes will be furnished until the right-of-way or easements are acceptable condition other than clearing stakes.

Notification

The Contractor shall notify the Engineer, in writing, at least three (3) full working days in advance of the date when specific staking services are desired, giving the specific location and/or limiting stations. The Contractor shall notify the Engineer five (5) days prior to start-up so as to allow the Engineer to set his control. The Engineer shall be notified of any change of sequence which is established at pre-construction conferences. Construction stakeout is the Contractor's responsibility. (non-pay item).

Control Stakes

Stakes which constitute reference points for all construction work will be conspicuously marked with flagging tape in accordance with the code in these Specifications. It will be the responsibility of the Contractor to inform his employees and his subcontractors of their importance, and the necessity for their preservation. The cost of replacing such controls, should it become necessary for any reason whatsoever, shall be at the Contractor's expense. If the removal of a control stake is required by the construction operations of the Contractor or his subcontractors, advance notice in writing, of at least three (3) full working days shall be given to the Engineer, who will reference and remove said stake or stakes at no cost to the Contractor.

The Contractor shall employ competent grade setters to control the grading operations from the information provided on the reference stakes.

No additional stakes will be furnished, except as requested in writing by the Contractor and paid for by him. This applies to all re-staking for whatever reason, as well as for additional staking which the Contractor may request. Charges for the additional staking will be deducted from next progress payment that is issued to the Owner by the Engineer.

17. INSURANCE REQUIREMENTS

The Contractor, at his expense, shall take out and keep in force throughout the term of this Contract, the following insurance coverage in the amounts specified below to cover all of his operations in connection with the work to be performed under the Technical Specifications. The insurance certificates shall be submitted to the Owner for acceptance prior to move-in and beginning work

MINIMUM INSURANCE REQUIRMENTS

INSURANCE TYPE
Workman's Compensation General Liability
Comprehensive Form
Premises-Operations Products/Completed Operations Hazard Contractual Insurance Independent Contractors Personal Injury

Automobile Liability Comprehensive Owned
Hired
Non-owned

Excess Liability
Umbrella Form

LIMITS OF LIABILITY

As provided by Texas Workman's Compensation Act.

Bodily Injury
$300,000/Person
$500,000/Occurance Property Damage
$100,000/Occurance
$300,00/Aggregate Personal Injury
$500,000

Bodily Injury
$300,000/Person
$500,000/Occurance Property Damage
$300,000/Occurance

$100,000

The remaining term of all policies shall extend at least to the least to the completion date of this Contract; if the expiration date shall occur prior to final completion of all operations hereunder, Contractor shall, not less than fifteen (15) days prior to expiration date, furnish evidence of renewal of or extension of such insurance. All such evidence of insurance shall provide for ten (10) days prior notice to be given to Owner in the event of cancellations.

The Contractor agrees to indemnify and to hold the Owner and the Engineer harmless from and against any and all damages, claims, demands, suits, judgments and costs including attorney's fees and expenses for or on account of damage to property of any person, firm corporation, or Government agency, or

death of or injury to any person or persons (including property and employees of the Owner, the Contractor, and employees of the Contractor) directly or indirectly arising out of, or caused by or in connection with the performance of or failure to perform any work provided for hereunder by the Contractor, his subcontractors, or their or the Contractor's agents, servants, or employees.
The Contractor will be held accountable for all insurance coverage's including those of sub- contractors, and provide that all the above mentioned policies will be with insurance carriers.

18. UNBALINCING OF BIDS AND USAGE OF SPECIAL ITEMS

The Contractor's attention is directed to the fact that unbalancing of unit bid prices for any reason shall be considered justification for rejection of the bid. The Contractor may not decrease these bid prices, however, he may increase the bid prices as he may see fit. In instances where subsurface seepage of water above trench bottom requires the drying up of trench bottom, the use of washed gravelor shell in trench bottom will be permitted.

19. ARBITRATION

Arbitration under this agreement shall be subject to the provisions of the Texas General Arbitration Act, Articles 224 to 238-6, V.A.C.S. To any extend that the provisions of Section 16 of the General Conditions are in conflict with or inconsistent with any provision of such Act, the provisions of such Act shall control. Both the Owner and Contractor shall concur on Arbitration as a method of settling any particular dispute.

20. PARTIAL PAYMENTS

Article 14.2 APPLICATION FOR PROGRESS PAYMENT (Standard General Conditions of the Construction Contract) is hereby supplemented with the following:
On or before the last Monday of each month, the CONTRACTOR shall prepare and submit to the Engineer for approval or modification a statement showing as completely as practicable the total value of the work done by the Contractor up to and including the last day of the preceding month; said statement shall also include the value of all sound materials delivered on the site of the work that are to be fabricated into the work.
The OWNER shall then pay the CONTRACTOR on or before the 2nd Monday of the following month the total amount of the approved statement, less 10 percent of the amount thereof, which 10 percent shall be retained until final payment, and further less all previous payments and all further sums that may be retained by the OWNER under the terms of this Agreement. It is understood, however, that in case the whole work be near the completion and some unexpected and unusual delay occurs due to not fault or neglect on the part of the CONTRACTOR, the OWNER may-upon written recommendation of the ENGINEER- pay a reasonable and equitable portion of the retained percentage to the CONTRACTOR, or the CONTRACTOR at the OWNER'S option, may be relieved of the obligation to fully complete the work and, thereupon, the CONTRACTOR shall receive payment of the balance due him under the contract subject only to the conditions stated under "Final Payment".

EXHIBIT "G"

CONDITIONAL RELEASE OF LIENS

STATE OF TEXAS
COUNTY OF CAMERON

OWNER: The City of Brownsville
CONTRACTOR: _____
UBCONTRACTOR/SUPPLIER: _____
PROPERTY: _____

I, _____, hold the office of _____ of the Subcontractor/Supplier identified above (hereinafter "Subcontractor/Supplier").

In consideration of the sum of $_____ and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Subcontractor/Supplier hereby releases and waives any right to file a petition to establish a Mechanics Lien or other lien, or any claim to a Mechanics Lien or other lien which the Subcontractor/Supplier may now have, for such property through the date hereof, and agrees to indemnify and hold harmless Owner/Contractor and its agents and representatives from any and all claims, damages, losses, costs, expenses or liabilities, including the not limited to attorney's fees, incurred by the Owner/Contractor, its agents or representatives arising out of or resulting from the Subcontractor/Supplier's failure to pay or cause to be paid any persons or entities who may be entitled to claim a Mechanics Lien or other lien on the property by virtue of any agreement with or obligation of the Subcontractor/Supplier through the date hereof. Nothing herein contained shall in any way be deemed to restrict, modify, or waive the Subcontractor/Supplier's right to claim or assert any claim against the property for materials or labor or services hereafter furnished or performed on or about the property.

This lien release and waiver is given to secure payment in the amount of $_____ for a portion of the work under the contract and will be fully effective upon the receipt of said payment.

DATE: _____ BY: _____

WITNESS: _____

I hereby certify that on this _____ day of _____, 20__, before me, a Notary Public for the state and county aforesaid, personally appeared _____, known to me or satisfactorily proven to be the person whose name is subscribed to the foregoing instrument, who acknowledged that he/she has executed the same for the purposes herein set forth, and that the same is his act and deed. In witness hereof, I have set my hand and Notarial Seal the date and year first above written.

NOTARY PUBLIC: _____

My Commission expires on: _____

SAFETY RECORD QUESTIONNAIRE
(Must be submitted with bid form)

The City may at its discretion disqualify any bidder which has had final orders entered by the Occupational Safety and Health Review Commission (OSHRC) against the bidder, or any firm or individual acting on its behalf, for serious violations of OSHA regulations within the past three years; and/or which has been, or has had any firm or individual acting on its behalf, convicted of a criminal offense within the past ten years which resulted in serious bodily injury or death.

QUESTION ONE

Has the bidder, or any firm or individual acting on behalf of the bidder, received citations for violations of OSHA within the past three years?

YES _____ NO _____

If the bidder has indicated YES for question number one above, the bidder shall provide to the Owner, with its bid submission, complete information regarding the date of citation, location of establishment inspected, category of citation, final disposition of citation, and penalty assessed.

QUESTION TWO

Has the bidder, or any firm or individual acting on behalf of the bidder, ever been convicted of a criminal offense which resulted in serious bodily injury or death?

YES _____ NO _____

If the bidder has indicated YES for question number two above, the bidder shall provide to the Owner, with its bid submission, complete information regarding the date of offense, County where offense occurred, type of offense, final disposition of offense, and penalty assessed.

I certify that I have made no willful misrepresentations in this Questionnaire, nor have I withheld information in my statements and answers to questions. I am aware that the information given by me in this questionnaire will be investigated, with my full permission, and that any misrepresentations or omissions may cause my bid to be rejected.

Foreword

OUTLINE OF SPECIFICATIONS

Each specification is outlined by articles and sections. The basic articles required for a specification are:

1. **DESCRIPTION**
2. **MATERIALS**
3. **EQUIPMENT**
4. **CONSTRUCTION OR WORK METHODS**
5. **MEASUREMENT**
6. **PAYMENT**

Some articles are not used in every item. Measurement and Payment articles are combined when the work described is subsidiary to bid items of the Contract.

HIERARCHY OF ORGANIZATIONAL ELEMENTS

Here "XXX" represents the item number. The hierarchy of organizational elements available below the item level is as follows:

XXX.1., Article
XXX.1.1., Section
XXX.1.1.1., Section
XXX.1.1.1.1., Section
XXX.1.1.1.1.1., Section
XXX.1.1.1.1.1.1., Section

The term section is used for all breaks below the article.

Items 1L–9L

Local Government General Requirements and Covenants

Item 1L
Abbreviations and Definitions

1. APPLICABILITY

Wherever the following terms are used in these specifications or other Contract documents, the intent and meaning will be interpreted as shown below.

2. ABBREVIATIONS

AAR	Association of American Railroads

3. DEFINITIONS

3.1. **Abrasive Blasting**. Spraying blasts of pressurized air combined with abrasive media.

3.2. **Actual Cost**. Contractor's actual cost to provide labor, material, equipment, and project overhead necessary for the work.

3.3. **Addendum**. Change in proposal forms developed between advertising and bid submittal deadline.

3.4. **Additive Alternate**. A bid item contained in a proposal that is not a regular item or a replacement alternate bid item. The additive alternate item(s) include work that may be added to the base bid at the time of letting.

3.5. **Advertisement**. The public announcement required by law inviting bids for work to be performed or materials to be furnished.

3.6. **Affiliates**. Two or more Bidders are affiliated if they share common officers, directors, or stockholders; a family member of an officer, director, or stockholder of one Bidder serves in a similar capacity in another of the Bidders; an individual who has an interest in, or controls a part of, one Bidder either directly or indirectly also has an interest in, or controls a part of, another of the Bidders; the Bidders are so closely connected or associated that one of the Bidders, either directly or indirectly, controls or has the power to control another Bidder; one Bidder controls or has the power to control another Bidder; or the Bidders are closely allied through an established course of dealings, including, but not limited to, the lending of financial assistance. Refer to 43 TAC § 9.12(g), "Affiliated Entities."

3.7. **Air Blasting**. Spraying blasts of pressurized air free of oil and moisture.

3.8. **Air Temperature**. The temperature measured in degrees Fahrenheit (°F) in the shade, not in the direct rays of the sun, and away from artificial heat.

3.9. **Anticipated Profit**. Profit for work not performed.

3.10. **Apparent Low Bidder**. The Bidder determined to have the numerically lowest total bid as a result of the tabulation of bids by the Owner.

3.11. **Architect of Record**. A person registered as an architect or licensed as a landscape architect, in conformance with State law, exercising overall responsibility for the design or a significant portion of the design and performing certain Contract administration responsibilities as described in the Contract; or a firm employed by the Owner to provide professional architectural services.

3.12. **Arterial Highway**. A highway used primarily for through traffic and usually on a continuous route.

3.13. **Available Bidding Capacity**. Not applicable to Locally Let projects.

3.14. **Award**. The Owner's acceptance of a Contractor's bid for a proposed Contract that authorizes the Owner to enter into a Contract.

3.15. **Bid**. The offer from the Bidder for performing the work described in the proposal.

3.16. **Bid Bond**. The security executed by the Contractor and the Surety furnished to the Owner to guarantee payment of liquidated damages if the Contractor fails to enter into an awarded Contract.

3.17. **Bid Error**. A mathematical mistake made by a Bidder in the unit price entered into the proposal.

3.18. **Bidder**. An individual, partnership, limited liability company, corporation, or joint venture submitting a bid for a proposed Contract.

3.19. **Bidders Questionnaire**. A prequalification form that reflects detailed equipment and experience data but waives audited financial data.

3.20. **Bidding Capacity**. Not applicable to Locally Let projects.

3.21. **Blast Cleaning**. Using one of the blasting methods including, but not limited to water blasting, low-pressure water blasting, high-pressure water blasting, abrasive blasting, water-abrasive blasting, shot blasting, slurry blasting, water -injected abrasive blasting, and brush blasting.

3.22. **Bridge**. A structure, including supports, erected over a depression or an obstruction (e.g., water, a highway, or a railway) with a roadway or track for carrying traffic or other moving loads, and having an opening measured along the center of the roadway of more than 20 ft. between faces of abutments, spring lines of arches, or extreme ends of the openings for multiple box culverts.

3.23. **Brush Blasting**. Sweeping lightly with an abrasive blast to remove loose material.

3.24. **Building Contract**. Not applicable to Locally Let projects.

3.25. **Callout Work**. Contracts, or work items in Contracts, that require a Contractor's response on an as-needed basis (e.g., see Item 351, "Flexible Pavement Structure Repair").

3.26. **Certificate of Insurance**. A form approved by the Owner covering insurance requirements stated in the Contract.

3.27. **Change Order**. Written order to the Contractor detailing changes to the specified work, item quantities, or any other modification to the Contract.

3.28. **Commission**. The Texas Transportation Commission or authorized representative.

3.29. **Concrete Construction Joint**. A joint formed by placing plastic concrete in direct contact with concrete that has attained its initial set.

3.30. **Concrete Repair Manual**. TxDOT manual specifying methods and procedures for concrete repair as an extension of the standard specifications.

3.31. **ConcreteWorks©**. TxDOT-owned software for concrete heat analysis. Software is available on the TxDOT's website.

3.32. **Confidential Questionnaire**. A prequalification form that reflects detailed financial and experience data.

3.33. **Construction Contract**. A Contract entered under state law for the construction, reconstruction, repair, or maintenance of a segment of the Owner's or State transportation highway system.

3.34. **Consultant**. The licensed professional engineer or engineering firm, or the architect or architectural firm, registered in the State of Texas and under Contract to the Owner to perform professional services. The consultant may be the Engineer or architect of record or may provide services through and be subcontracted to the Engineer or architect of record.

3.35. **Contract**. The agreement between the Owner and the Contractor establishing the obligations of the parties for furnishing of materials and performance of the work prescribed in the Contract documents.

3.36. **Contract Documents**. Elements of the Contract including, but not limited to, the plans, specifications incorporated by reference, special provisions, special specifications, Contract bonds, change orders, and supplemental agreements.

3.37. **Contract Time**. The number of working days specified for completion of the work, including authorized additional working days.

3.38. **Contractor**. The individual, partnership, limited liability company, corporation, or joint venture and all principals and representatives with which the Contract is made by the Owner.

3.39. **Control of Access**. The condition in which the right to access of owners or occupants of abutting land or other persons in connection with a highway is fully or partially controlled by public authority.

3.40. **Control Point**. An established point shown on the plans to provide vertical and horizontal references for geometric control for construction.

3.41. **Controlled Access Highway**. Any highway to or from which access is denied or controlled, in whole or in part, from or to abutting land or intersecting streets, roads, highways, alleys, or other public or private ways.

3.42. **Cross-Sections**. Graphic representations of the original ground and the proposed facility, at right angles to the centerline or base line.

3.43. **Culvert**. Any buried structure providing an opening under a roadway for drainage or other purposes. Culverts may also be classified as bridges. (See Section 1.3.22., "Bridge.")

3.44. **Cycle**. The activity necessary for performing the specified work within the right of way project limits once.

3.45. **Daily Road-User Cost**. Damages based on the estimated daily cost of inconvenience to the traveling public resulting from the work.

3.46. **Debar (Debarment)**. Disqualification of an entity from bidding on or entering into a Contract with the Owner, from participating as a subcontractor under a Contract with the Owner, and from participating as a supplier of materials or equipment to be used under a Contract with the Owner.

3.47. **Department**. The Texas Department of Transportation (TxDOT).

3.48. **Departmental Materials Specifications**. Reference specifications for various materials published by the Materials and Tests Division.

3.49. **Detour**. A temporary traffic route around a closed portion of a road.

3.50. **Direct Traffic Culvert**. Concrete box culvert whose top slab is used as the final riding surface or is to have an overlay or other riding surface treatment.

3.51. **Disadvantaged Business Enterprise**. A for-profit small business certified through the Texas Unified Certification Program in accordance with 49 CFR Part 26, that is at least 51% owned by one or more socially and economically disadvantaged individuals, or in the case of a publicly owned business, in which at least 51% of the stock is owned by one or more socially and economically disadvantaged individuals, and whose management and daily business operations are controlled by one or more of the individuals who own it.

3.52. **Divided Highway**. A highway with separate roadways intended to move traffic in opposite directions.

3.53. **Easement**. A real property right acquired by one party to use land belonging to another party for a specified purpose.

3.54. **Electronic Vault**. The Owner's bidding system where electronic bids are stored before bid opening.

3.55. **Engineer**. The Chief Engineer of the Owner or the authorized representative of the Chief Engineer.

3.56. **Equipment Watch**. Publication containing equipment rental rates.

3.57. **Escalation Ladder**. A process to determine issue resolution during the course of the Contract.

3.58. **Expressway**. A divided arterial highway for through traffic with full or partial control of access and generally with grade separations at intersections.

3.59. **Family Member**. A family member of an individual is the individual's parent, parent's spouse, stepparent, stepparent's spouse, sibling, sibling's spouse, spouse, child, child's spouse, spouse's child, spouse's child's

spouse, grandchild, grandparent, uncle, uncle's spouse, aunt, aunt's spouse, first cousin, or first cousin's spouse. Refer to 43 TAC § 9.12(g), "Affiliated Entities."

3.60. **Force Account**. Payment for directed work based on the actual cost of labor, equipment, and materials furnished with markups for project overhead and profit.

3.61. **Freeway**. An expressway with full control of access.

3.62. **Frontage Road**. A local street or road auxiliary to and located along an arterial highway for service to abutting property and adjacent areas and for control of access (sometimes known as a service road, access road, or insulator road).

3.63. **Hazardous Materials or Waste**. Hazardous materials or waste include, but are not limited to, explosives, compressed gas, flammable liquids, flammable solids, combustible liquids, oxidizers, poisons, radioactive materials, corrosives, etiologic agents, and other material classified as hazardous by 40 CFR 261, or applicable state and federal regulations.

3.64. **High-Pressure Water Blasting**. Water blasting with pressures between 5,000 and 10,000 psi.

3.65. **Highway, Street, or Road**. General terms denoting a public way for purposes of and related to vehicular, pedestrian, and bicycle travel, including the entire area within the right of way including Intersections and Easements; all related structures, improvements, and appurtenances, including but not limited to the roadside and roadside facilities, drainage systems, signal systems, and other traffic in formation and control systems; or other structures or improvements that directly or indirectly serve public travel. Recommended usage in urban areas is highway or street, and in rural areas, highway or road.

3.66. **Historically Underutilized Business (HUB)**. A corporation, sole proprietorship, partnership, or joint venture formed for the purpose of making a profit certified by the Texas Building and Procurement Commission, and 51% owned by one or more persons who are economically disadvantaged because of their identification as members of certain groups, including African Americans, Hispanic Americans, Asian-Pacific Americans, Native Americans, or women, and have a proportionate interest and demonstrate active participation in the control, operation, and management of the business' affairs. Individuals meeting the HUB definition are required to be residents of the State of Texas. Businesses that do not have their primary headquarters in the State of Texas are not eligible for HUB certification.

3.67. **In Writing**. Communication memorialized, including written or electronic documentation by email or letter only.

3.68. **Incentive and Disincentive Provisions**. An adjustment to the Contract price of a predetermined amount for each day the work is completed ahead of or behind the specified milestone, phase, or Contract completion dates. The amount of the incentive and disincentive is determined based on estimated costs for engineering, traffic control, delays to the motorists, and other items involved in the Contract.

3.69. **Independent Assurance Tests**. Tests used to evaluate the sampling and testing techniques and equipment used in the acceptance program. The tests are performed by the Owner and are not used for acceptance purposes.

3.70. **Inspector**. The person assigned by the Engineer to inspect for compliance with the Contract any or all parts of the work and the materials used.

3.71. **Intelligent Transportation System**. An integrated system that uses video and other electronic detection devices to monitor traffic flows.

3.72. **Intersection**. The general area where two or more highways, streets, or roads join or cross, including the roadway and roadside facilities for vehicular, pedestrian, and bicycle traffic movements within it.

3.73. **Island**. An area within a roadway from which vehicular traffic is intended to be excluded, together with any area at the approach occupied by protective deflecting or warning devices.

3.74. **Joint Venture**. Any combination of individuals, partnerships, limited liability companies, or corporations submitting a single bid proposal.

3.75. **Lane Rental**. A method to assess the Contractor daily or hourly rental fees for each lane, shoulder, or combination of lanes and shoulders taken out of service.

3.76. **Letting**. The receipt, opening, tabulation, and determination of the apparent low Bidder.

3.77. **Letting Official**. The employee empowered by the Owner to officially receive bids and close the receipt of bids at a letting.

3.78. **Licensed Professional Engineer**. A person who has been duly licensed by the Texas Board of Professional Engineers to engage in the practice of engineering in the State of Texas; also referred to as a Professional Engineer.

3.79. **Limits of Construction**. An area with established boundaries, identified within the highway right of way and easements, where the Contractor is permitted to perform the work.

3.80. **Local Street or Road**. A street or road primarily for access to residence, business, or other abutting property.

3.81. **Low-Pressure Water Blasting**. Water blasting with pressures between 3,000 and 5,000 psi.

3.82. **Major Item**. An item of work included in the Contract that has a total cost equal to or greater than 5% of the original Contract or $100,000 whichever is less. A major item at the time of bid will remain a major item. An item not originally a major item does not become one through the course of the Contract.

3.83. **Material Producer List**. TxDOT-maintained list of approved products, materials, laboratories, service providers, manufacturers, and producers.

3.84. **Materially Unbalanced Bid**. A bid that generates a reasonable doubt that award to the Bidder submitting a mathematically unbalanced bid will result in the lowest ultimate cost to the Owner.

3.85. **Materials Contract**. Not applicable to Locally Let projects.

3.86. **Materials Supplier's Questionnaire**. A prequalification form that reflects basic information, such as company contact, signature authority, and other requirements, but waives financial, equipment, and experience data.

3.87. **Mathematically Unbalanced Bid**. A bid containing bid prices that do not reflect reasonable actual costs plus a reasonable proportionate share of the Bidder's anticipated profit, overhead costs, and other indirect costs.

3.88. **Median**. The portion of a divided highway separating the traffic lanes in opposite directions.

3.89. **Milestone Date**. The date that a specific portion of the work is to be completed before the completion date for all work under the Contract.

3.90. **Monolithic Concrete Placement**. The placement of plastic concrete in such manner and sequence to prevent a construction joint.

3.91. **National Holidays**. January 1, the last Monday in May, July 4, the first Monday in September, the fourth Thursday in November, December 24, and December 25.

3.92. **Nonhazardous Recyclable Material**. A material recovered or diverted from the nonhazardous waste stream for the purposes of reuse or recycling in the manufacture of products that may otherwise be produced using raw or virgin materials.

3.93. **Nonresident Bidder**. A Bidder whose principal place of business is not in Texas. This includes a Bidder whose ultimate parent company or majority owner does not have its principal place of business in Texas.

3.94. **Nonresponsive Proposal**. A proposal that does not meet the criteria for acceptance contained in the proposal form.

3.95. **Non-Site-Specific Contracts**. Contracts where a geographic region is specified for the work and work orders, with or without plans, detail the limits and work to be performed.

3.96. **Notification**. Either written or oral instruction to the Contractor. Voice mail is oral notification.

3.97. **Pavement**. That part of the roadway with a constructed surface for the use of vehicular traffic.

3.98. **Pavement Structure**. Combination of surface course and base course placed on a subgrade to support the traffic load and distribute it to the roadbed.

3.98.1. **Base Course**. One or more layers of specified material thickness placed on a subgrade to support a surface course.

3.98.2. **Subgrade**. The top surface of a roadbed upon which the pavement structure, shoulders, and curbs are constructed.

3.98.3. **Subgrade Treatment**. Modifying or stabilizing material in the subgrade.

3.98.4. **Surface Course**. Pavement structure layers designed to accommodate the traffic load. The top layer resists skidding, traffic abrasion, and the disintegrating effects of climate and is sometimes called the wearing course.

3.99. **Payment Bond**. The security executed by the Contractor and the Surety, furnished to the Owner to guarantee payment of all legal debts of the Contractor pertaining to the Contract.

3.100. **Performance Bond**. The security executed by the Contractor and the Surety, furnished to the Owner to guarantee the completion of the work in accordance with the terms of the Contract.

3.101. **Plans**. The drawings approved by the Engineer, including true reproductions of the drawings that may show the location, character, dimensions, and details of the work and are a part of the Contract. Documents may include drawings or digital files.

3.102. **Power of Attorney for Surety Bonds**. An instrument under corporate seal appointing an attorney-in-fact to act on behalf of a Surety in signing bonds.

3.103. **Prequalification**. The process for determining a Contractor's eligibility to bid work.

3.104. **Prequalification Statement**. The forms on which required information is furnished concerning the Contractor's ability to perform and finance the work.

3.105. **Project-Specific Location**. A material source, plant, waste site, parking area, storage area, field office, staging area, haul road, or other similar location either outside the project limits or within the project limits but not specifically addressed in the Contract.

3.106. **Proposal**. The offer from the Bidder submitted on the prescribed form, including addenda issued, giving unit bid prices for performing the work described in the plans and specifications.

3.107. **Proposal Form**. The form printed and sent to the Bidder by the Owner or printed by the Bidder from the Owner's bidding system.

3.108. **Proposal Guaranty**. The security furnished by the Bidder as a guarantee that the Bidder will enter into a Contract if awarded the work.

3.109. **Quality Assurance (QA)**. Sampling, testing, inspection, and other activities conducted by the Engineer to determine payment and make acceptance decisions.

3.110. **Quality Control (QC)**. Sampling, testing, and other process control activities conducted by the Contractor to monitor production and placement operations.

3.111. **Ramp**. A section of highway for the primary purpose of making connections with other highways.

3.112. **Recurring Maintenance Work Contracts**. Contracts or work for which maintenance is needed at the same location on more than one occasion (e.g., mowing Contracts for which mowing cycles are requested on multiple occasions).

3.113. **Referee Tests**. Tests requested to resolve differences between Contractor and Engineer test results.

3.114. **Regular Item**. A bid item contained in a proposal and not designated as an additive alternate or replacement alternate bid item.

3.115. **Rental Rate Blue Book for Construction Equipment**. Publication containing equipment rental rates.

3.116. **Repair**. Performed under Transportation Code §223, Subchapter A for Highway Improvement Contracts and includes restoration of a Highway, Street, or Road by replacing or putting together, in whole or in part, what is torn, broken, or otherwise damaged. Repair denotes the process of restoring all or part of a Highway, Street, or Road that has been subjected to decay, waste, injury, partial destruction, erosion, dilapidation, degradation, etc.

3.117. **Replacement Alternate**. A bid item identified the proposal form that a Bidder may substitute for a specific regular item of work.

3.118. **Responsive Bid**. A proposal that meets all requirements of the proposal form for acceptance.

3.119. **Right of Way**. A general term denoting land or property devoted to transportation purposes.

3.120. **Roadbed**. The graded portion of a highway prepared as foundation for the pavement structure and shoulders. On divided highways, the depressed median type and the raised median type highways are considered to have two roadbeds. Highways with a flush median are considered to have one roadbed. Frontage roads are considered separate roadbeds.

3.121. **Road Master**. A railroad maintenance official in charge of a division of railway.

3.122. **Roadside**. The areas between the outside edges of the shoulders and the right of way boundaries. Unpaved median areas between inside shoulders of divided highways and areas within interchanges are included.

3.123. **Roadway**. The portion of the highway (including shoulders) used by the traveling public.

3.124. **Routine Maintenance Contract**. Not applicable to Locally Let projects.

3.125. **Sandblasting, Dry**. Spraying blasts of pressurized air combined with sand.

3.126. **Sandblasting, Wet**. Spraying blasts of pressurized water combined with sand.

3.127. **Shot Blasting**. Spraying blasts of pressurized air combined with metal shot.

3.128. **Shoulder**. That portion of the roadway contiguous with the traffic lanes for accommodation of stopped vehicles for emergency use or for lateral support of base and surface courses.

3.129. **Sidewalk**. Portion of the right of way constructed exclusively for pedestrian use.

3.130. **Slurry Blasting**. Spraying blasts of pressurized air combined with a mixture of water and abrasive media.

3.131. **Small Business Enterprise**. A firm (including affiliates) whose annual gross receipts do not exceed the U.S. Small Business Administration's size standards for 4 consecutive yr.

3.132. **Special Provisions**. Additions or revisions to these standard specifications or special specifications.

3.133. **Special Specifications**. Supplemental specifications applicable to the Contract not covered by these standard specifications.

3.134. **Specifications**. Directives or requirements issued or made pertaining to the method and manner of performing the work or to quantities and qualities of materials to be furnished under the Contract. References to DMSs, ASTM or AASHTO specifications imply the latest standard or tentative standard in effect on the date of the proposal. The Engineer will consider incorporation of subsequent changes to these documents in accordance with Item 4, "Scope of Work."

3.135. **State**. The State of Texas.

3.136. **State Holiday**. A holiday authorized by the State Legislature excluding optional State holidays and not listed in Section 1.3.91., "National Holidays." A list of State holidays can be found on the TxDOT's website.

3.137. **Station**. A unit of measurement consisting of 100 horizontal ft.

3.138. **Subcontract**. The agreement between the Contractor and subcontractor establishing the obligations of the parties for furnishing of materials and performance of the work prescribed in the Contract documents.

3.139. **Subcontractor**. An individual, partnership, limited liability company, corporation, or any combination thereof that the Contractor sublets, or proposes to sublet, any portion of a Contract, excluding a material supplier, a hauling firm hauling only from a commercial source to the project, a truck owner-operator, a wholly owned subsidiary, or specialty-type businesses such as security companies and rental companies.

3.140. **Subsidiary**. Materials, labor, or other elements that because of their nature or quantity have not been identified as a separate item and are included within the items on which they necessarily depend.

3.141. **Substantial Completion of Work**. The date (day) when all project work requiring lane or shoulder closures or obstructions is completed, and traffic is following the lane arrangement as shown on the plans for the finished roadway; all pavement construction and surfacing are complete; and traffic control devices and pavement markings are in their final position, unless otherwise shown on the plans. The Engineer may make an exception for permanent pavement markings provided the lack of markings does not cause a disruption to traffic flow or an unsafe condition for the traveling public, and work zone pavement markings are in place.

3.142. **Substructure**. The part of the structure below the bridge seats but not including bearings, drilled shafts, or piling. Parapets, back walls, wing walls of the abutments, and drainage structures are considered parts of the substructure.

3.143. **Superintendent**. The representative of the Contractor who is available at all times and able to receive instructions from the Engineer or authorized Owner representatives and to act for the Contractor.

3.144. **Superstructure**. The part of the structure above the bridge seats or above the springing lines of arches and including the bearings. Flatwork construction may be considered superstructure.

3.145. **Supplemental Agreement**. Written agreement entered into between the Contractor and the Owner and approved by the Surety, covering alterations and changes in the Contract. A supplemental agreement is used by the Owner whenever the modifications include assignment of the Contract from one entity to another or other cases as desired by the Owner.

3.146. **Surety**. The corporate body or bodies authorized to do business in Texas bound with and for the Contractor for the faithful performance of the work covered by the Contract and for the payment for all labor and material supplied in the prosecution of the work.

3.147. **Surplus Materials**. Any debris or material related to the Contract not incorporated into the work.

3.148. **Suspension**. Action taken by the Owner or federal government pursuant to regulation that prohibits a person or company from entering into a Contract, or from participating as a subcontractor, or supplier of materials or equipment used in a highway improvement Contract as defined in Transportation Code, Chapter 223, Subchapter A.

3.149. **Traffic Lane**. The strip of roadway intended to accommodate the forward movement of a single line of vehicles.

3.150. **Traveled Way**. The portion of the roadway for the movement of vehicles, exclusive of shoulders and auxiliary lanes.

3.151. **Truck Owner-Operator**. An individual who owns and operates one truck for hire.

3.152. **UT-Bridge**. TxDOT-owned software for steel girder erection. Software is available on the TxDOT's website.

3.153. **UT-Lift**. TxDOT-owned software for steel girder erection. Software is available on the TxDOT's website.

3.154. **Utility**. Privately, publicly, or cooperatively owned lines, facilities, and systems for producing, transmitting, or distributing communications, power, heat, gas, oil, water, waste, or stormwater that are not connected with the highway drainage, signal systems, or other products that directly or indirectly serve the public; the utility company.

3.155. **Verification Tests**. Tests used to verify accuracy of QC and QA and mixture design testing.

3.156. **Water-Abrasive Blasting**. Spraying blasts of pressurized water combined with abrasive media.

3.157. **Water Blasting**. Spraying blasts of pressurized water of at least 3,000 psi.

3.158. **Water-Injected Abrasive Blasting**. Abrasive blasting with water injected into the abrasive and air stream at the nozzle.

3.159. **Wholly Owned Subsidiary**. A legal entity owned entirely by the Contractor or subcontractor.

3.160. **Work**. The furnishing of all labor, materials, equipment, and incidentals necessary for the successful completion of the Contract.

3.161. **Work Order**. Written notice to the Contractor to begin the work. The work order may include the date when work and time charges will begin, the allowable number of working days, and plan sheets providing details specific to a location or to an item of work for non-site-specific work. A work order is part of the Contract.

3.162. **Written Notice**. Written notice is considered to have been duly given if delivered in person to the individual or member to whom it is intended or if sent by regular, registered, or certified mail and delivered to the last

known business address; sent by facsimile to the last known phone number; or sent by email to the last known address. The date of the letter will serve as the beginning day of notice. Unclaimed mail or failure to provide current contact information will not be considered a failure to provide written notice.

Item 2L
Instructions to Bidders

1. INTRODUCTION

Instructions to the Contractor in these specifications are generally written in active voice, imperative mood. The subject of imperative sentences is understood to be "the Contractor." The Owner's responsibilities are generally written in passive voice, indicative mood. Phrases such as "as approved," "unless otherwise approved," "upon approval," "as directed," "as verified," "as ordered," and "as determined" refer to actions of the Engineer unless otherwise stated, and it is understood that the directions, orders, or instructions to which they relate are within the limitations of and authorized by the Contract.

2. ELIGIBILITY OF BIDDERS

Obtain a prequalification form from the Department's website. A Bidder must be prequalified by Confidential Questionnaire at the time of bid opening. Comply with all technical prequalification requirements in the proposal.

2.1. **Confidential Questionnaire (CQ)**. Submit a CQ and an audited financial statement for approval. Once prequalified, a Bidder's eligibility is valid for a period of 1 yr. from the balance sheet statement date.

2.2. **Bidder's Questionnaire (BQ)**. Bidders prequalified with a BQ are only eligible to bid on projects identified as being waived from the requirements of Section 2L.2.1., "Confidential Questionnaire (CQ)." These projects are designated with a "W" on the Proposal Request Form. Submit a BQ for approval. Once prequalified, a Bidder's eligibility is valid for a period of 1 yr. from the date the BQ was received by the Department.

3. ISSUING PROPOSAL FORMS

The Owner will issue a proposal form to a prequalified Bidder if the Engineer's estimate is within that Bidder's available bidding capacity. Request a proposal form electronically from the Owner's website. A proposal form printed directly from the Owner's website is for informational purposes only and will not be accepted as an official proposal form. In the case of a joint venture (JV), all JV participants must be prequalified. An equally divided portion of the Engineer's estimate must be within each participant's available bidding capacity.

The Owner will not issue a proposal form if one or more of the following apply:

- the Bidder is suspended or debarred by the Commission or TxDOT,
- the Bidder has not fulfilled the requirements for prequalification,
- the Bidder does not have the available bidding capacity,
- the Bidder is prohibited from rebidding a specific proposal form due to a bid error on the original proposal form,
- the Bidder failed to enter into a Contract on the original award,
- the Bidder was defaulted or terminated on the original Contract, unless the Owner terminated in the best interest of the State or the public,
- the Bidder or a subsidiary or affiliate of the Bidder has received compensation from the Owner to participate in the preparation of the plans or specifications on which the bid or Contract is based,
- the Bidder is ineligible to bid on any proposed Contract in accordance with Article 7L.15., "Responsibility for Damage Claims,"
- the Bidder failed to attend a mandatory pre-bid conference,

- the Bidder or affiliate of the Bidder that was originally determined as the apparent low Bidder on a project but was deemed nonresponsive for failure to submit a DBE commitment as specified in Article 2L.14., "Disadvantaged Business Enterprise (DBE)," is prohibited from rebidding that specific project, or
- the Bidder or affiliate of the Bidder that was originally determined as the apparent low Bidder on a project but was deemed nonresponsive for failure to register or participate in the Department of Homeland Security (DHS) E-Verify system as specified in Article 2.15., "Department of Homeland Security (DHS) E-Verify System," is prohibited from rebidding that specific project.

4. INTERPRETING ESTIMATED QUANTITIES

The quantities listed on the proposal form are approximate and will be used for the comparison of bids. Payments will be made for the work performed in accordance with the Contract.

5. EXAMINING DOCUMENTS AND WORK LOCATIONS

Examine the proposal form, plans, specifications, and specified work locations before submitting a bid for the work. Submitting a bid will be considered evidence that the Bidder has performed this examination. Borings, soil profiles, water elevations, and underground utilities shown on the plans were obtained for the Owner's use in the preparation of the plans. This information is provided for the Bidder's information only, and the Owner makes no representation as to the accuracy of the data. Be aware of the difficulty of accurately classifying all material encountered in making foundation investigations, the possible erosion of stream channels and banks after survey data have been obtained, and the unreliability of water elevations other than for the date recorded.

Oral explanations, instructions, or consideration for Contractor-proposed changes on the proposal form given during the bidding process are not binding. Only requirements included on the proposal form, associated specifications, plans, and Owner-issued addenda are binding. Request explanations of documents in adequate time to allow the Owner to reply before the bid opening.

Immediately notify the Owner of any error, omission, or ambiguity discovered in any part of the proposal form and Contract documents. The Owner will issue addenda when appropriate.

6. PREPARING THE BID

Prepare the bid on the proposal form furnished by the Owner. Informational proposal forms printed from the Owner's website will not be accepted.

Specify a unit price in dollars and cents for each regular item and additive alternate item, or replacement alternate item for which an estimated quantity is given.

When "Working Days" is an item, submit the number of working days to be used to complete the Contract or phases of the Contract shown on the plans.

The Owner will not accept an incomplete bid. A bid that has one or more of the deficiencies listed below is considered incomplete:

- certifications were not acknowledged,
- a regular item or the additive alternate item is left blank,
- a regular item and the corresponding replacement alternate item are left blank,
- the proposal form submitted had the incorrect number of items,
- the Bidder did not acknowledge all addenda, or
- additionally, for printed bids:

- the blank spaces for each item as required on the bid form are not filled in by writing in words in ink,
- the bid was not signed in ink in the complete and correct name of the bidder making the bid, and signed by the person or persons authorized to bind the bidder, or
- unit prices were not stated in dollars and cents for each bid item listed on the bid form, except in the case of a regular bid item that has an alternate bid item.

7. NONRESPONSIVE BID

The Owner will not accept a nonresponsive bid. A bid that has one or more of the deficiencies listed below is considered nonresponsive:

- the Bidder failed to acknowledge receipt of all addenda issued,
- the proposal form was signed by a person who was not authorized to bind the Bidder or Bidders,
- the proposal guaranty did not comply with the requirements contained in this Item,
- the bid was in a form other than the official proposal form issued by the Owner,
- the Bidder modified the bid in a manner that altered the conditions or requirements for work as stated in the proposal form,
- the Bidder bid more than the maximum or less than the minimum number of allowable working days shown on the plans when working days was an item,
- a typed proposal form does not contain the information in the format shown on the "Example of Bid Prices Submitted by Computer Printout" on the proposal form,
- the Bidder did not meet the requirements of the technical qualification,
- The bidder is not prequalified by TxDOT

8. ELECTRONIC BID

The Bidder is responsible for taking the appropriate measures to submit a bid. These measures include, but are not limited to acquiring hardware, software, and Internet connectivity needed for submitting a bid via the Owner's bidding system.

8.1. **Proposal Form**. Use the electronic proposal form in the Owner's bidding system. When regular bid items have corresponding replacement alternate items, select the bid item or group of items to be used for the bid tabulation. Acknowledge all addenda listed in the Owner's bidding system.

The electronic proposal form does not contain the special provisions, special specifications, general notes, and other Contract documents. These documents are included by reference.

8.2. **Proposal Guaranty**. Provide a proposal guaranty in the amount indicated on the proposal form. Use an electronic bid bond. Guaranty checks or printed bid bonds will not be accepted.

For a JV, the bond must be in the name of all JV participants. Enter the bond authorization code into the Owner's bidding system.

It is the Bidder's responsibility to ensure the electronic bid bond is issued in the name or Owner vendor identification numbers of the Bidder or Bidders.

8.3. **Submittal of Bid**. Submit the bid to the vault using the Owner's bidding system.

8.4. **Revising the Proposal Form**. Make desired changes in the Owner's bidding system up until the time and date set for the opening of bids. The last bid submitted to the vault will be used for tabulation purposes.

8.5. **Withdrawing a Bid**. Submit an electronic or written request to withdraw a bid before the time and date set for the opening. The Owner will not accept oral requests. An electronic request must be made using the Owner's bidding system.

If a bidder is unable to withdraw an electronic bid using the Owner's bidding system, a written request may be submitted. A written request must be signed and submitted to the Letting Official conducting the letting, with proof of identification. The request must be made by a person authorized to bind the Bidder or Bidders. In the case of a JV, the Owner will accept a request from any person authorized to bind a party to the JV. The Owner may require written delegation of authority to withdraw a bid when the individual sent to withdraw the bid is not authorized to bind the Bidder or Bidders.

9. PRINTED BID

9.1. **Proposal Form**. Mark all entries in ink. As an alternative to hand writing the unit prices on the proposal form, submit a typed proposal form. A typed proposal form must contain the information in the format shown on the "Example of Bid Prices Submitted by Computer Printout" on the proposal form.

When regular bid items have corresponding replacement alternate items, select the bid item or group of items to be used for the bid tabulation. Acknowledge all addenda by checking the appropriate box on the addendum acknowledgement page. Provide the complete and correct name of the Bidder submitting the bid. A person authorized to bind the Bidder must sign the proposal form. In the case of a JV, provide the complete and correct name of all Bidders submitting the bid. In the case of a JV, the person signing the proposal form must be authorized to bind all JV participants.

9.2. **Proposal Guaranty**. Provide a proposal guaranty in the amount indicated on the proposal form. Use either a guaranty check or a printed bid bond. An electronic bid bond may be used as the guaranty. Ensure the electronic bid bond meets the requirements of Section 2L.8.2., "Proposal Guaranty," and submit the electronic bid bond with the printed bid.

9.2.1. **Guaranty Check**. When used, make the check payable to the Owner. The check must be a cashier's check, money order, or teller's check drawn by or on a state or national bank, or a state or federally chartered credit union (collectively referred to as "bank"). The check must be dated on or before the date of the bid opening. Postdated checks will not be accepted. The type of check or money order must be indicated on the face of the instrument, except in the case of a teller's check, and the instrument must be no more than 90 days old. A check must be made payable at or through the institution issuing the instrument, be drawn by a bank and on a bank, or be payable at or through a bank. The Owner will not accept personal checks, certified checks, or other types of money orders.

9.2.2. **Bid Bond**. When a bond is used, use the bid bond form provided by the Owner. Submit the bid bond in the amount specified with the powers of attorney dated and attached. The bond must be dated on or before the date of the bid opening, bear the impressed seal of the Surety, and be signed by the Bidder or Bidders and an authorized individual of the Surety. As an alternative for JV Bidders, each Bidder may submit a separate bid bond completed as outlined in this Section. Bid bonds will only be accepted from Sureties authorized to execute a bond under and in accordance with state law.

9.3. **Submittal of Bid**. Place the completed proposal form and the proposal guaranty in a sealed envelope marked to indicate the contents.

When submitting by mail or delivery service, place the envelope in another sealed envelope and address as indicated in the official advertisement. It is the Bidder's responsibility to ensure that the sealed bid arrives at the location described on or before the time and date set for the bid opening. To be accepted, the bid must be in the hands of the Letting Official by that time of opening regardless of the method chosen for delivery.

9.4. **Revising the Proposal Form**. Make desired changes to the proposal form in ink, initial each change made, and submit the proposal to the Letting Official. Correction fluid or tape will be considered a change to the bid and requires the initials of the Bidder. The Owner will not revise a bid on behalf of a Bidder.

9.5. **Withdrawing a Bid**. Submit to the Letting Official conducting the letting a written request to withdraw a bid before the time and date set for the opening. The Owner will not accept oral requests. A written request must be signed and submitted to the Letting Official conducting the letting, with proof of identification. The request must be made by a person authorized to bind the Bidder or Bidders. In the case of a JV, the Owner will accept a request from any person authorized to bind a party to the JV. The Owner may require written delegation of authority to withdraw a bid when the individual sent to withdraw the bid is not authorized to bind the Bidder or Bidders.

10. OPENING AND READING OF BIDS

At the time, date, and location specified in the official advertisement, the Letting Official will publicly open and read bids.

11. TABULATING BIDS

11.1. **Official Total Bid Amount**. The Owner will sum the products of the quantities and the unit prices bid on the proposal form to determine the official total bid amount, except as provided in Section 2L.11.5., "Consideration of Unit Prices." The official total bid amount is the basis for determining the apparent low Bidder. The total bid amounts will be compared and the results made public.

11.2. **Consideration of Bid Format**. When a Bidder submits both an electronic bid and a printed bid that are responsive, the unit bid prices in the electronic bid will be used to determine the total bid amount. If the electronic bid is incomplete or nonresponsive, the printed bid will be used in the tabulation of the total bid amount.

If a Bidder submits two or more printed bids, all responsive bids will be tabulated. The bid with the lowest tabulation will be used to determine the total bid amount.

11.3. **Rounding of Unit Prices**. The Owner will round off all unit bids involving fractional parts of a cent to the nearest one-tenth cent ($0.001) in determining the amount of the bid as well as computing the amount due for payment of each item under the Contract. For rounding purposes, entries that contain five-hundredths of a cent ($0.0005) or more will be rounded up to the next highest tenth of a cent, while entries that contain less than five-hundredths of a cent will be rounded down to the next lowest tenth of a cent and in accordance with Section 2L.11.5., "Consideration of Unit Prices." Bids less than one-tenth of a cent ($0.001) will be rounded to one-tenth of a cent ($0.001). When credit items are included (negative unit prices), rounding is performed on the absolute value.

11.4. **Interpretation of Unit Prices**. The Owner will make a documented determination of the unit bid price if a unit bid price is illegible or conflicting in the case of replacement alternate items. The Owner's determination will be final.

11.5. **Consideration of Unit Prices**. Unit bid price entries such as no dollars and no cents, zero dollars and zero cents, or numerical entries of less than $0.001 will be tabulated as one-tenth of a cent ($0.001). Proposals in which unit bid prices have been left blank are incomplete and nonresponsive.

11.5.1. **Alternate Items**. If a proposal has a regular and corresponding alternate item or group of items, the proposal will be considered complete if:

- the regular item or group of regular items has unit prices entered,
- the alternate item or group of alternate items has unit prices entered, or
- both regular item or group of regular items and alternate item or group of alternate items have unit prices entered. The Owner will use the price bid for the regular or the alternate item, or group of items, that will result in the lowest cost to the State.

The bid will be considered incomplete and nonresponsive if:

- a regular item or group of regular items is left blank, or
- a corresponding alternate item or group of alternate items is left blank.

11.5.2. **Additive Alternate Items**. The Owner will sum the products of the quantities and the unit prices bid for the regular items on the proposal form to determine the total bid amount for the base bid. The official total bid amount will be determined by the summation of the base bid plus a predetermined order of additive alternate items, not to exceed the Owner's budgeted amount for the Contract. An estimate of the budgeted amount may be shown on the plans.

The Contract will identify the base bid work and additive alternate work to be performed. The Owner makes no guarantee that the additive alternate work will be required.

11.5.3. **A + B Bidding**. The official total bid amount will be determined by the summation of the Contract amount and the time element. The Owner will use the following formula to make the calculation:

A + B1 + B2 + BX + … + BT

The Contract amount, equal to A in the formula, is determined by the summation of the products of the approximate quantities shown in the proposal and the unit bid prices bid, and the time element, equal to B1, B2, BX (when phases are included as bid components), and BT (substantial completion of the project when included as a bid component), of the bid is determined by multiplying the number of working days bid to substantially complete the project, or phases, by the daily road-user cost (RUC) shown on the plans. When partial days are bid, they will be rounded up to the nearest whole day.

The formula above determines the low Bidder and establishes the Contract time or time for specific phases of the Contract.

11.5.4. **Rubber Additives**. For proposed Contracts without federal funds, if an alternate item for "Hot Asphalt-Rubber Surface Treatments" or "Hot-Mix Asphalt Concrete Pavement" that contains ground tire rubber is shown on the proposal form and the Bidder bids that alternate item, the amounts bid for "Hot Asphalt-Rubber" and "Aggregate" or "Hot-Mix Asphalt Concrete" will be reduced to 85% of the amounts actually bid. This reduction will only be used for the purposes of determining the lowest Bidder. To qualify, the ground tire rubber used must be produced from scrap tire ground in a facility in Texas. Payment for "Hot Asphalt-Rubber" and "Aggregate" or "Hot-Mix Asphalt Concrete" will be at the actual unit prices bid.

11.5.5. **Home State Bidding Preference**. For the purpose of determining the apparent low Bidder on proposed Contracts without federal funds, the Owner will select the option that results in the greatest bidding preference to the resident Bidder.

11.5.5.1. **Reverse Application of Non-Resident Bidder's Home State Bidding Preference**. The total bid amount will be based upon the reverse application of the non-resident Bidder's home state bidding preference, if any. This will also apply to another state's preference for a Bidder that offers materials grown, produced, processed, or manufactured in that state.

Any reverse application of the home state bidding preference will be the greater of the following:

- the amount by which a resident Bidder would be required to underbid the non-resident Bidder to obtain a comparable contract in the state in which the non-resident's principal place of business is located; or

- the amount by which a resident Bidder would be required to underbid the non-resident Bidder to obtain a comparable contract in the state in which a majority of the manufacturing relating to the Contract will be performed.

11.5.5.2. **Texas Home State Bidding Preference**. A Bidder will be considered the apparent low Bidder if the Bidder's home office is located in this state and their bid does not exceed an amount equal to 105% of the apparent low bid received from a Bidder whose home office is not located in this state. This will not apply to a Bidder from a bordering state whose state does not give a preference to a Bidder in a manner similar to this Section.

12. CONSIDERATION OF BID ERRORS

The Owner will consider a claim of a bid error by the apparent low Bidder if the following requirements have been met:

- a written notification is submitted to the Owner within 5 business days after the date the bid is opened and
- the submittal identifies the items of work involved and includes bidding documentation. The Owner may request clarification of submitted documentation.

The Owner will evaluate the claim of a bid error by the apparent low Bidder by considering the following:

- the bid error relates to a material item of work,
- the bid error amount is a significant portion of the total bid,
- the bid error occurred despite the exercise of ordinary care, and
- the delay of the proposed work will not impact cost and safety to the public.

Acceptance of the bid error claim by the Owner will result in the rejection of all bids. The erring Contractor will not be allowed to bid the project when it is re-let. Rejection of bids due to the Contractor's bid error may result in the application of remedial actions by the Owner.

13. TIE BIDS

If the official total bid amount for two or more Bidders is equal and those bids are the lowest submitted, each tie Bidder will be given an opportunity to withdraw their bid. If two or more tie Bidders do not withdraw their bids, the low Bidder will be determined by a coin toss or a series of coin tosses when there are more than two Bidders. If all tie Bidders request to withdraw their bids, no withdrawals will be allowed and the low Bidder will be determined by a coin toss or a series of coin tosses when there are more than two Bidders. The Letting Official will preside over the proceedings.

14. DISADVANTAGED BUSINESS ENTERPRISE (DBE)

The apparent low bidder must submit DBE commitment information on federally funded projects with DBE goals within 5 calendar days (as defined in 49 CFR Part 26, Subpart A) of bid opening. For a submission that meets the 5-day requirement, administrative corrections will be allowed.

If the apparent low Bidder fails to submit their DBE information within the specified timeframe, they will be deemed nonresponsive. The Bidder forfeiting the proposal guaranty will not be considered in future proposals for the same work unless there has been a substantial change in the design of the work. The Owner may recommend that the Commission:

- reject all bids, or
- award the Contract to the new apparent low Bidder, if the new apparent low Bidder has already submitted DBE information to the Owner.

If the new apparent low Bidder did not submit the required DBE information:

- the new apparent low Bidder will not be deemed nonresponsive,
- the new apparent low Bidder's guaranty will not be forfeited,
- the Owner will reject all bids,
- the new apparent low Bidder will remain eligible to receive future proposals for the same project, and
- the proposal guaranty of the original apparent low bidder will become the property of the Owner, not as a penalty, but as liquidated damages.

15. DEPARTMENT OF HOMELAND SECURITY (DHS) E-VERIFY SYSTEM

The Owner will not award a Contract to a Contractor that is not registered in the DHS E-Verify system. Remain active in E-Verify throughout the life of the Contract. In addition, in accordance with Article 8L.2., "Subcontracting," sixth paragraph, include this requirement in all subcontracts and require that subcontractors remain active in E-Verify until their work is completed.

If the apparent low Bidder does not appear in the DHS E-Verify system before award, the Contractor must submit documentation showing that they are compliant within 5 calendar days after bid opening. A Contractor that fails to comply or respond within the deadline will be declared nonresponsive. The Bidder forfeiting the proposal guaranty will not be considered in future proposals for the same work unless there has been a substantial change in the scope of the work.

The Owner may recommend to:

- reject all bids or
- award the Contract to the new apparent low Bidder, if the Owner is able to verify the Bidder's participation in the DHS E-Verify system.

If the Owner is unable to verify the new apparent low Bidder's participation in the DHS E-Verify system:

- the new apparent low Bidder will not be deemed nonresponsive,
- the new apparent low Bidder's guaranty will not be forfeited,
- the Owner will reject all bids,
- the new apparent low Bidder will remain eligible to receive future proposals for the same project, and
- the proposal guaranty of the original low bidder will become the property of the Owner, not as a penalty, but as liquidated damages.

Item 3L
Award and Execution of Contract

1. AWARD OF CONTRACT

The Owner or original award authority will award, reject, or defer the Contract within 90 days after the opening of the proposal. The Owner reserves the right to reject any or all proposals and to waive technicalities in the best interest of the Owner.

1.1. **Award**. The Owner or original award authority will award the Contract to the low Bidder as determined in accordance with Article 2L.11., "Tabulating Bids." The Owner may award a Contract to the second lowest Bidder when the following requirements have been met:

- the low Bidder withdraws their bid or fails to enter into Contract,
- the second lowest Bidder agrees to perform the work at the unit bid prices of the low Bidder,
- the Owner recommends in writing the award of the Contract to the second lowest Bidder, and
- the Owner's governing body agrees with the Owner recommendation for award to the second lowest Bidder.

1.2. **Rejection**. The Owner or original award authority will reject the Contract if:

- collusion may have existed among the Bidders. Collusion participants will not be allowed to bid future proposals for the same Contract,
- the low bid is mathematically and materially unbalanced. The Bidder will not be allowed to bid future proposals for the same Contract,
- the lowest bid is higher than the Owner's estimate, and re-advertising for bids may result in a lower bid,
- the low bid contains a bid error that satisfies the requirements and criteria in Article 2L.12., "Consideration of Bid Errors," or
- rejection of the Contract is in the best interest of the Owner.

1.3. **Deferral**. The Owner may defer the award or rejection of the Contract when deferral is in the best interest of the Owner.

2. RESCINDING OF AWARD

The Owner or original award authority reserves the right to cancel the award of any Contract before Contract execution with no compensation due when the cancellation is in the best interest of the Owner. The Owner will return the proposal guaranty to the Contractor.

3. DISADVANTAGED BUSINESS ENTERPRISE (DBE) AND SMALL BUSINESS ENTERPRISE (SBE)

Submit all DBE and SBE information in the timeframe specified when required by the proposal.

4. EXECUTION OF CONTRACT

Provide the following within 15 days after written notification of award of the Contract.

4.1. **Contract**. Execute the Contract as prescribed by the Owner.

4.2. **Bonds**. Execute and date the performance and payment bond in the full amount of the Contract with the powers of attorney. Provide bonds in accordance with Table 1. Furnish the payment and performance bonds as a guaranty for the protection of the claimants and the Owner for labor and materials and the faithful performance of the work.

Table 1
Bonding Requirements

Contract Amount	Required Bonds
Less than $25,000	None
$25,000–$100,000	Payment
More than $100,000	Performance and payment

4.3. **Insurance**. For construction and building Contracts, submit a certificate of insurance showing coverages in accordance with the Contract requirements.

Insurances must cover the work for the duration of the Contract and must remain in effect until final acceptance. Provide project-specific insurance, not listed in Table 2, until acceptance of the work covered by the project-specific insurance or as approved by the Engineer. Failure to obtain and maintain insurance for the contracted work may result in suspension of work or default of the Contract. If the insurance expires and coverage lapses for any reason, stop all work until the Owner receives an acceptable certificate of insurance.

Provide the Owner with a certificate of insurance verifying the types and amounts of coverage shown in Table 2. The certificate of insurance must be in a form approved by the Texas Department of Insurance. Certificates of insurance for commercial general liability, auto liability, and workers' compensation must include the Contractor's prequalified name in the "Insured" field. Any certificate of insurance provided must be available for public inspection.

Table 2
Insurance Requirements

Type of Insurance	Amount of Coverage
Commercial general liability insurance	Not less than: $1,000,000 each occurrence
Business automobile policy	Not less than: $1,000,000combined single limit
Workers' compensation	Not less than: Statutory
All risk builder's risk insurance (for building-facilities contracts only)	100% of Contract price

By signing the Contract, the Contractor certifies compliance with all applicable laws, rules, and regulations pertaining to workers' compensation insurance. This certification includes all subcontractors. Pay all deductibles stated in the policy. Subcontractors must meet the requirements shown in Table 2, either through their own coverage or through the Contractor's coverage.

The workers' compensation policy must include a waiver of subrogation endorsement in favor of the Owner.

For building-facilities contracts, provide all risk builder's risk insurance to protect the Owner against loss by storm, fire, or extended coverage perils on work and materials intended for use on the project, including the adjacent structure. Name the Owner under the Lost Payable clause.

For contracts with railroad requirements, see project-specific details for additional insurance requirements.

Provide a substitute Surety on the Contract bonds in the original full Contract amount within 15 days of notification if the Surety is declared bankrupt or insolvent, the Surety's underwriting limitation drops below the Contract amount or the Surety's right to do business is terminated by the Owner. The substitute Surety must be authorized by the laws of the Owner and acceptable to the Owner. Work will be suspended until a substitute Surety is provided. Working day charges will be suspended for 15 days or until an acceptable Surety is provided, whichever is sooner.

The work performed under this Section will not be measured or paid for directly, but will be subsidiary to pertinent Items.

4.4. **Business Ownership Information**. Submit the names and Social Security numbers of all individuals owning 25% or more of the firm, or firms in the case of a joint venture, on the Owner's form.

4.5. **Railroad Documents**. Provide all required documents for satisfaction of railroad requirements for projects that have work involving railroad right of way. Comply with the requirements of Article 5L.8., "Cooperation with Railroads."

5. FAILURE TO ENTER CONTRACT

If the Contractor fails to comply with all the requirements in Article 3L.4., "Execution of Contract," the proposal guaranty will become the property of the Owner, not as a penalty, but as liquidated damages. The Contractor forfeiting the proposal guaranty will not be considered in future proposals for the same work unless there has been a substantial change in design of the work.

6. APPROVAL AND EXECUTION OF CONTRACT

The Contract will be approved and signed under authority of the Owner.

7. RETURN OF PROPOSAL GUARANTY

The proposal guaranty check of the low Bidder will be retained until after the Contract has been rejected or awarded and executed. Bid bonds will not be returned.

8. BEGINNING OF WORK

Do not begin work until authorized in writing by the Owner.

Verify all quantities of materials shown on the plans before ordering.

9. ASSIGNMENT OF CONTRACT

Do not assign, sell, transfer, or otherwise dispose of the Contract or any portion of the rights, title, or interest (including claims) without the approval of the Owner or original award authority. The Owner must deem any proposed assignment justified and legally acceptable before the assignment can take place.

10. EXCLUDED PARTIES

The Contractor certifies by signing the Contract that the Contractor will not enter into any subcontract with a subcontractor that is debarred or suspended by the Owner or any federal agency.

Item 4L
Scope of Work

1. CONTRACT INTENT

The intent of the Contract is to describe the completed work to be performed. Furnish materials, supplies, tools, equipment, labor, and other incidentals necessary for the proper prosecution and completion of the work in accordance with Contract documents.

2. PRECONSTRUCTION CONFERENCE

Before starting work, schedule and attend a preconstruction conference with the Engineer. Failure to schedule and attend a preconstruction conference is not grounds for delaying the beginning of working day charges. The preconstruction conference may be scheduled with the safety preconstruction meeting described in Section 7L 2.2., "Safety Preconstruction Meeting" and the railroad coordination meeting described in Article 5L 8., "Cooperation with Railroads." Work with the Engineer to resolve or escalate all issues. Execute the project pledge and establish an issue escalation ladder.

2.1. **Project Pledge**. Contractor representatives at the level of foreman and above will certify in writing they will approach the construction of this project in a manner consistent with delivering a high-quality project in a safe, cost-effective, and timely manner, and they will be committed to not allowing personality conflicts or personal interests to interfere with providing the public with a quality project. Failure to uphold this commitment may result in grounds for removal from the project.

2.2. **Issue Resolution Process**. An issue is any aspect of the Contract where parties of the Contract do not agree. The individuals identified at the lowest level of the issue escalation ladder will initiate the issue resolution process by escalating any issue that remains unresolved within the timeframe outlined in the issue escalation ladder.

Work with the Engineer to resolve all issues during the course of the Contract. Refer to Article 4L 7., "Dispute or Claims Procedure," for all unresolved issues.

3. PARTNERING – NOT APPLICABLE

The intent of this Article is to promote an environment of trust, mutual respect, integrity, and fair dealing between the Owner and the Contractor.

Informal partnering does not make use of a facilitator and is led by the Engineer in charge of the work and the Contractor's counterpart, while formal partnering uses the services of a facilitator (internal or external).

3.1. **Procedures for Partnering Meetings and Format**. Informal partnering is required, unless formal partnering is mutually agreed upon instead of the informal partnering.

3.2. **Facilitators**. The facilitator is to act as a neutral party seeking to initiate cooperative working relationships. This individual must have the technical knowledge and ability to lead and guide discussions. Choose either an internal or external facilitator. The facilitator must be acceptable to the Engineer.

3.2.1. **Internal Facilitators**. An Owner or Contractor staff member may be selected as the facilitator at no additional cost to either party.

3.2.2. **External Facilitators**. A private firm or individual that is independent of the Contractor and the Owner may be selected as the facilitator. Submit the facilitator's name and estimated fees for approval before contracting with the facilitator.

3.3. **Meetings and Arrangements**. Coordinate with the Engineer for meeting dates and times, locations including third party facilities, and other needs and appurtenances including but not limited to audio or visual equipment. Make all meeting arrangements for formal partnering. Use Owner facilities or facilities in the vicinity of the project if available. Submit the estimated meeting costs for approval before finalizing arrangements.

Coordinate facilitator discussions before the partnering meeting to allow the facilitator time to prepare an appropriate agenda. Prepare a list of attendees with job titles and include critical Contractor, subcontractor, and supplier staff on the list. Provide the facilitator with the list of attendees and invite the attendees listed.

The Owner will invite and provide a list of attendees that includes, but is not limited to Owner, TxDOT, other local governments, law enforcement, railroad, and utility representatives.

Participate in additional partnering meetings as mutually agreed upon.

3.4. **Payment**. Expenses for labor, Contractor equipment, or overhead will not be allowed. Markups as prescribed in Article 9L 7., "Payment for Extra Work and Force Account Method," will not be allowed.

Informal partnering will be conducted with each party responsible for their own costs.

For formal partnering using internal facilitators, the Contractor will be responsible for arrangements and for expenses incurred by their internal facilitator, including but not limited to meals, travel, and lodging. Owner facilitators may be used at no additional cost.

For formal partnering using external facilitators, submit an invoice to the Engineer for reimbursement. The Owner will reimburse the Contractor for half of the eligible expenses as approved. For external facilitators not approved by the Owner but used at the Contractor's option, the Contractor will be responsible for all costs of the external facilitator.

For meeting facilities and appurtenances, submit an invoice to the Engineer for reimbursement. The Owner will reimburse the Contractor for half of the eligible expenses as approved.

4. CHANGES IN THE WORK

The Engineer reserves the right to make changes in the work, including addition, reduction, or elimination of quantities and alterations needed to complete the Contract. Perform the work as altered. These changes will not invalidate the Contract nor release the Surety. The Contractor is responsible for notifying the sureties of any changes to the Contract.

If the changes in quantities or the alterations do not significantly change the character of the work under the Contract, the altered work will be paid for at the Contract unit price. If the changes in quantities or the alterations significantly change the character of the work, the Contract will be amended by a change order. If no unit prices exist, this will be considered extra work and the Contract will be amended by a change order. Provide cost justification as requested, in an acceptable format.

Payment will not be made for anticipated profits on work that is eliminated.

Agree on the scope of work and the basis of payment for the change order before beginning the work. If there is no agreement, the Engineer may order the work to proceed under Article 9L 7., "Payment for Extra Work and Force Account Method," or by making an interim adjustment to the Contract. In the case of an adjustment, the Engineer will consider modifying the compensation after the work is performed.

A significant change in the character of the work occurs when:

- the character of the work for any item as altered differs materially in kind or nature from that in the Contract, or
- a major item of work varies by more than 25% from the original Contract quantity,

When the quantity of work to be done under any major item of the Contract is more than 125% of the original quantity stated in the Contract, then either party to the Contract may request an adjustment to the unit price on the portion of the work that is above 125%.

When the quantity of work to be done under any major item of the Contract is less than 75% of the original quantity stated in the Contract, then either party to the Contract may request an adjustment to the unit price.

If the changes require additional working days to complete the Contract, Contract working days will be adjusted in accordance with Item 8L, "Prosecution and Progress."

5. DIFFERING SITE CONDITIONS

During the progress of the work, differing subsurface or latent physical conditions may be encountered at the site. The two types of differing site conditions are defined as:

- those that differ materially from those indicated in the Contract, and
- unknown physical conditions of an unusual nature differing materially from those ordinarily encountered and generally recognized as inherent in the work provided for in the Contract.

Notify the Engineer in writing when differing site conditions are encountered. The Engineer will notify the Contractor in writing when the Owner discovers differing site conditions. Unless directed otherwise, suspend work on the affected items and leave the site undisturbed. The Engineer will investigate the conditions and determine whether differing site conditions exist. The Engineer will provide written notification of the determination whether or not an adjustment of the Contract is warranted. If the differing site conditions cause an increase or decrease in the cost or number of working days specified for the performance of the Contract, the Engineer will make adjustments, excluding the loss of anticipated profits, in accordance with the Contract. Additional compensation will be made only if the required written notice has been provided by either the Contractor or the Engineer.

6. REQUESTS FOR ADDITIONAL COMPENSATION AND DAMAGES

Notify the Engineer in writing of any intent to request additional compensation once there is knowledge of the basis for the request. An assessment of damages is not required to be part of this notice but is desirable. The intent of the written notice requirement is to provide the Engineer an opportunity to evaluate the request and to keep an accurate account of the actual costs that may arise. Minimize impacts and costs.

If written notice is not given, the Contractor waives the right to additional compensation unless the circumstances could have reasonably prevented the Contractor from knowing the cost impact before performing the work. Notice of the request and the documentation of the costs will not be construed as proof or substantiation of the validity of the request. Submit the request in enough detail to enable the Engineer to determine the basis for entitlement, adjustment in the number of working days specified in the Contract, and compensation.

Compensable damages occur when impacts that are the responsibility of the Owner result in additional costs to the Contractor that could not have been reasonably anticipated at the time of letting. Costs of performing additional work are not considered damages. Notify the Engineer in writing as soon as possible for Contractor damages. The intent is to reimburse the Contractor for actual expenses arising from a compensable impact. No profit or markups, other than labor burden, will be allowed. For damages, labor burden will be reimbursed at 35% unless the Contractor can justify higher actual cost. Justification for a higher percentage must be in conformance with the methodology provided by the Owner, submitted

separately for project overhead labor and direct labor, and determined and submitted by a Certified Public Accountant (CPA). Submit CPA-prepared labor burden rates directly to the Owner for approval.

The Owner will not consider fees and interest on requests for additional compensation and damages. Fees include, but are not limited to preparation, attorney, printing, shipping, and various other fees.

If the Contractor requests compensation for damages and the damages are determined to be compensable, then standby equipment costs and project overhead compensation will be based on the duration of the compensable damage and will be limited as follows.

6.1. **Standby Equipment Costs**. Payment will be made in accordance with Section 9L 7.1.4.3., "Standby Equipment Costs."

6.2. **Project Overhead**. Project overhead is defined as the administrative and supervisory expenses incurred at the work locations. When delay to project completion occurs, reimbursement for project overhead for the Contractor will be made using the following options at the Contractor's discretion:

- reimbursed at 6% (computed as daily cost by dividing 6% of the original Contract amount by the number of original Contract work days), or
- actual documented costs for the impacted period.

Project overhead for delays impacting subcontractors will be determined from actual documented costs submitted by the Contractor.

Time extensions and suspensions alone will not be justification for reimbursement for project overhead.

6.3. **Home Office Overhead**. The Owner will not compensate the Contractor for home office overhead.

7. DISPUTE OR CLAIMS PROCEDURE

The dispute resolution policy promotes a cooperative attitude between the Engineer, Contractor, and Contractor's subcontractors working through the Contractor. Emphasis is placed on resolving issues while they are still current, at the Owner's office, and in an informal manner. Open sharing of information is encouraged by all parties involved so the information provided completely and accurately reflects the issues and facts. If information is not shared, decisions may be limited to relying on the documentation that is available for review.

The Owner's goal is to have a dispute settled by the Engineer before elevating it as a claim to the Owner.

If a dispute cannot be resolved, initiate the Contract claim procedure by submitting a claim to the Owner.

The Contractor, or subcontractor through the Contractor, will file a Contract claim request and a detailed report that provides the basis for the claim. The detailed report will include relevant facts of the claim, cost or other data supporting the claim, a description of any additional compensation requested, and documents supporting the claim.

The claim must include the following certification: "I certify that the claim is made in good faith; that the supporting data are accurate and complete to the best of my knowledge and belief; that the amount requested accurately reflects the contract adjustment for which the Contractor believes the Owner is liable; and that I am duly authorized to certify the claim on behalf of the Contractor."

File a claim after completion of the Contract or when required for orderly performance of the Contract. For a claim resulting from enforcement of a warranty period, file the claim no later than 1 yr. after expiration of the warranty period. For all other claims, file the claim no later than 1 yr. after the date the Owner issues notice to the Contractor that they are in default, the date the Owner terminates the Contract, or the date of final acceptance of the Contract. It is the Contractor's responsibility to submit requests in a timely manner.

Item 5L
Control of the Work

1. AUTHORITY OF ENGINEER

The Engineer has the authority to observe, test, inspect, approve, and accept the work (either in writing or orally). The Engineer decides all questions about the quality and acceptability of materials, work performed, work progress, Contract interpretations, applicability of standard details, and acceptable Contract fulfillment. The Engineer has the authority to enforce and make effective these decisions.

- Unless noted elsewhere in the Contract or by the Engineer, payment for Contractor work is in accordance with the Contract requirements at that time. This payment does not eliminate the Contractor's responsibilities for the work as defined in Article 7L.17., "Contractor's Responsibility for Work," or Article 5L.12., "Final Acceptance."
- The Engineer acts as a referee in all questions arising under the terms of the Contract.
- The Engineer's decisions are final and binding.

The Engineer will pursue and document actions against the Contractor as warranted to address Contract performance issues. Contract remedies include, but are not limited to, the following:

- requiring the Contractor to remove and replace defective work, or reducing payment for defective work,
- removing an individual from the project,
- suspending the work without suspending working day charges,
- assessing standard liquidated damages to recover the Owner's administrative costs, including additional project-specific liquidated damages when specified in the Contract withholding estimates, and
- declaring the Contractor to be in default of the Contract

The Engineer will consider and document any events outside the Contractor's control that contributed to the failure to meet performance standards, including consideration of sufficient time.

Follow the issue escalation ladder if there is disagreement regarding the application of Contract remedies.

2. PLANS AND WORKING DRAWINGS

When required, provide working drawings to supplement the plans with all necessary details not included on the Contract plans. Prepare and furnish working drawings in a timely manner and obtain approval, if required, before the beginning of the associated work. For all working drawing submittal requirements, the Engineer may allow electronic and other alternative submission procedures. Have a licensed professional engineer sign, seal, and date the working drawings as shown in Table 1.

Prepare working drawings using United States standard measures in the English language. The routing of submittals for review and approval will be established at the preconstruction conference. The Contractor is responsible for the accuracy, coordination, and conformity of the various components and details of the working drawings. Owner approval of the Contractor's working drawings will not relieve the Contractor of any responsibility under the Contract. The work performed in accordance with this Article will not be measured or paid for directly, but will be subsidiary to pertinent Items.

Table 1
Signature and Approval Requirements for Working Drawings

Working Drawings For		Requires Licensed Professional Engineer's Signature, Seal, and Date	Requires Owner Approval
1. Alternate or optional designs submitted by Contractor		Yes	Yes
2. Supplementary shop and fabrication drawings for structural Items		No unless required on the plans	See applicable Item
3. Contractor-proposed temporary facilities that affect the public safety, not included on the plans		Yes	Yes
4. Form and falsework details	Bridges, retaining walls, and other major structures	Yes unless otherwise shown on the plans	No[1]
	Minor structures	No unless otherwise shown on the plans	No
5. Erection drawings		Yes	No[1,2]
6. Contractor-proposed major modifications to traffic control plan		Yes	Yes

1. The Engineer may require that the Contractor have a licensed professional engineer certify that the temporary works are constructed according to the sealed drawings.
2. Approval is required for items spanning over live traffic or where safety of the traveling public is affected, as determined by the Engineer.

Submit shop drawings electronically for the fabrication of structural items in accordance with the Owner's procedures and as directed for other items required by the Contract. References to 11 × 17-in. sheets in individual specifications for structural items imply electronic computer-aided design sheets.

3. CONFORMITY WITH PLANS, SPECIFICATIONS, AND SPECIAL PROVISIONS

Furnish materials and perform work in reasonably close conformity with the lines, grades, cross-sections, dimensions, details, gradations, physical and chemical characteristics of materials, and other requirements shown in the Contract. Reasonably close conformity limits are defined in the respective Items of the Contract or, if not defined, as determined by the Engineer. Obtain approval before deviating from the plans and approved working drawings. Do not perform work beyond the lines and grades shown on the plans or any extra work without the Engineer's authority. Work performed beyond the lines and grades shown on the plans or any extra work performed without authority is considered unauthorized and excluded from pay consideration. The Owner will not pay for material rejected due to improper fabrication, excess quantity, or any other reasons within the Contractor's control.

3.1. **Acceptance of Defective or Unauthorized Work**. When work fails to meet Contract requirements, but is adequate to serve the design purpose, the Engineer will decide the extent to which the work will be accepted and remain in place. The Engineer will document the basis of acceptance by letter and may adjust the Contract price.

3.2. **Correction of Defective or Unauthorized Work**. When work fails to meet Contract requirements and is inadequate to serve the design purpose, it will be considered defective. Correct, or remove and replace, the work at the Contractor's expense, as directed.

The Owner has the authority to correct or to remove and replace defective or unauthorized work. The cost may be deducted from any money due or to become due to the Contractor.

4. COORDINATION OF PLANS, SPECIFICATIONS, AND SPECIAL PROVISIONS

The specifications, accompanying plans, special provisions, change orders, and supplemental agreements are intended to work together and be interpreted as a whole.

Numerical dimensions govern over scaled dimensions. Special provisions govern over plans (including general notes), which govern over standard specifications and special specifications. Job-specific plan sheets govern over standard plan sheets.

However, in the case of conflict between plans (including general notes) and specifications regarding responsibilities for hazardous materials and traffic control in Items 1L–10L, "Local Government General Requirements and Covenants," and Item 502, "Barricades, Signs, and Traffic Handling," special provisions govern over standard specifications and special specifications, which govern over the plans.

Notify the Engineer promptly of any omissions, errors, or discrepancies upon discovery so necessary corrections and interpretations can be made. Failure to promptly notify the Engineer of discovered omissions, errors, or discrepancies will constitute a waiver of all Contract claims against the Owner for misunderstandings or ambiguities that result from the errors, omissions, or discrepancies.

5. COOPERATION OF CONTRACTOR

Cooperate with the Engineer. Respond promptly to instructions from the Engineer. Provide all information necessary for the successful completion of the Contract.

Designate in writing a competent, English-speaking Superintendent employed by the Contractor. The Superintendent must be experienced in the work being performed and capable of reading and understanding the Contract. Ensure the Superintendent is available at all times and able to receive instructions from the Engineer or authorized Owner representatives and to act for the Contractor. The Engineer may suspend work without suspending working day charges if a Superintendent is not available or does not meet the above criteria.

At the written request of the Engineer, immediately remove from the project any employee or representative of the Contractor or a subcontractor who, in the opinion of the Engineer, does not perform work in a proper and skillful manner or who is disrespectful, intemperate, disorderly, uncooperative, or otherwise objectionable. Do not reinstate these individuals without the written consent of the Engineer.

Furnish suitable machinery, equipment, and construction forces for the proper prosecution of the work.

Provide adequate lighting to address quality requirements and inspection of nighttime work.

6. COOPERATING WITH UTILITIES

Use established safety practices when working near utilities. Consult with the appropriate utilities before beginning work. Notify the Engineer immediately of utility conflicts. The Engineer will decide whether to adjust utilities or adjust the work to eliminate or lessen the conflict. Unless otherwise shown on the plans, the Engineer will make necessary arrangements with the utility owner when utility adjustments are required.

Use work procedures that protect utilities or appurtenances that remain in place during construction. Cooperate with utility companies to remove and rearrange utilities to avoid service interruption or duplicate work by the utility companies. Allow utilities access to the right of way.

Immediately notify the appropriate utility of service interruptions resulting from damage due to construction activities. Cooperate with utilities until service is restored. Maintain access to fire hydrants when necessary.

7. COOPERATION BETWEEN CONTRACTORS

Cooperate and coordinate with other Contractors working within the limits or adjacent to the limits.

8. COOPERATION WITH RAILROADS

Plan and prosecute portions of the work involving a railway to avoid interference with or hindrance to the railroad company.

If the work is on railroad right of way, do not interfere with the operation of the railroad company's trains or other property.

8.1. **Railroad Coordination Meeting**. When shown on the plans or directed by the Engineer, schedule and attend a railroad coordination meeting with the Engineer before beginning work or as agreed upon (may be a part of the preconstruction conference described in Article 4L.2., "Preconstruction Conference"). Prepare a list of attendees and invite personnel, including, but not limited to Owner, Contractor, subcontractor, and railroad representatives.

Provide the invitation to the railroad representatives at least 21 calendar days before the railroad coordination meeting.

8.2. **Project-Specific Information**. Refer to project-specific plan sheets in the Contract for specific information concerning the work to be completed by the Contractor and the railroad within railroad right of way; railroad right of way locations impacted by construction; percentage of Contract work at each location; train movements at each location; and requirements for railroad insurance, flagging, and Right of Entry (ROE) Agreements.

8.3. **Right of Entry Agreement by the Owner**. When shown on the plans, the process for obtaining a fully executed ROE Agreement is as follows.

- The Owner will send the unexecuted ROE Agreement to the Contractor with the unexecuted Contract.
- Partially execute the ROE Agreement and return it to the Owner with the partially executed Contract and required insurance.
- The Owner will coordinate with the railroad company regarding the further execution of the ROE Agreement and associated fees. The Owner will pay any ROE Agreement fees directly to the railroad company.
- Once the Owner has received the fully executed ROE Agreement from the railroad company, the Owner will forward the fully executed ROE Agreement to the Contractor.

8.4. **Right of Entry Agreement by the Contractor**. When shown on the plans, contact the railroad company to obtain the ROE Agreement before beginning work on the Contract.

Provide the required insurance to the Owner before beginning work on the Contract.

Execute the ROE Agreement and pay any associated fees to the railroad company. Provide a copy of the fully executed ROE Agreement to the Owner.

9. CONSTRUCTION SURVEYING

Use Method C unless otherwise specified in the Contract. Upon request, the Engineer will allow the Contractor to copy available earthwork cross-sections, computer printouts or data files, and other information necessary to establish and control work. Preserve all control points, stakes, marks, and right of way markers. Assume cost and responsibility of replacing disturbed control points, stakes, marks, and right of way markers damaged by the Contractor's or its subcontractor's operations. If the Owner repairs disturbed control points, stakes, marks, or right of way markers, the cost of repair may be deducted from money due or to become

due to the Contractor. Replace right of way markers under the direction of an RPLS. This work performed under this Article will not be measured or paid for directly, but will be subsidiary to pertinent Items.

The Engineer reserves the right to make measurements and surveys to determine the accuracy of the work and determine pay quantities. The Engineer's measurements and surveys do not relieve the Contractor's responsibility for accuracy of work. Allow the Engineer adequate time to verify the surveying.

9.1. **Method A**. The Engineer will set control points for establishing lines, slopes, grades, and centerlines and for providing both vertical and horizontal control.

At minimum, provide a controlling pair of monument points at both the beginning and end of construction project for projects less than 2 mi. in length. For projects greater than 2 mi. in length, monuments will be set in pairs at a minimum of 2 mi. based on the overall length of the project. Use these control points as reference to perform the work.

Furnish materials, equipment, and qualified workforce necessary for the construction survey work. Place construction points, stakes, and marks at intervals sufficient to control work to established tolerances. Place construction stakes at intervals of no more than 100 ft., or as directed. Place stakes and marks so as not to interfere with normal maintenance operations.

9.2. **Method B**. The Engineer will set adequate control points, stakes, stationing, and marks to establish lines, slopes, grades, and centerlines. Furnish additional work, stakes, materials, and templates necessary for marking and maintaining points and lines.

9.3. **Method C**. Set adequate control points, stakes, and marks to establish lines, slopes, grades, and centerlines. Place construction points, stakes, and marks at intervals sufficient to control work to established tolerances. Place construction stakes at intervals of no more than 100 ft., or as directed. Place stakes and marks so as not to interfere with normal maintenance operations.

10. INSPECTION

Inspectors are authorized representatives of the Engineer. Inspectors are authorized to examine all work performed and materials furnished, including preparation, fabrication, and material manufacture. Inspectors inform the Contractor of failures to meet Contract requirements. Inspectors may reject work or materials and may suspend work until any issues can be referred to and decided by the Engineer. The Engineer may authorize Inspectors to adjust the traffic control. Inspectors cannot alter, add, or waive Contract provisions, issue instructions contrary to the Contract, act as foremen for the Contractor, or interfere with the management of the work. Inspection or lack of inspection will not relieve the Contractor from obligation to provide materials or perform the work in accordance with the Contract.

Provide safe access to all parts of the work and provide information and assistance to the Engineer to allow a complete and detailed inspection. Give the Engineer sufficient notice to inspect the work. Work performed without suitable inspection, as determined by the Engineer, may be ordered removed and replaced at Contractor's expense. Remove or uncover portions of finished work as directed. Once inspected, restore work to Contract requirements. If the uncovered work is acceptable, the costs to uncover, remove, and replace or make good the parts removed will be paid for in accordance with Article 4L.4., "Changes in the Work." If the work is unacceptable, assume all costs associated with repair or replacement, including the costs to uncover, remove, and replace or make good the parts removed.

When a government entity, utility, railroad company, or other entity accepts or pays a portion of the Contract, that organization's representatives may inspect the work but cannot direct the Contractor. The right of inspection does not make that entity a party to the Contract and does not interfere with the rights of the parties to the Contract.

11. FINAL CLEANUP

Upon completion of the work, remove construction project litter, debris, objectionable material, temporary structures, excess materials, and equipment from the work locations. Clean and restore property damaged by the Contractor's operations during the prosecution of the work. Leave the work locations in a neat and presentable condition.

Remove from the right of way cofferdams, construction buildings, material and fabrication plants, temporary structures, excess materials, and debris resulting from construction. Where work is in a stream, remove debris to the ground line of the bed of the stream. Leave stream channels and rights of way in a neat and presentable condition. Clean structures to the flow line or the elevation of the outfall channel, whichever is higher. Dispose of all excess material in accordance with federal, state, and local regulations.

The work performed under this Article will not be paid for directly, but will be subsidiary to Items of the Contract.

12. FINAL ACCEPTANCE

12.1. **Routine Maintenance Contracts**. Not applicable to Locally Let projects.

12.2. **Construction Contracts**. Final acceptance is made when all work is complete and the Engineer, in writing, accepts all work for the work locations in the Contract. Final acceptance relieves the Contractor from further Contract responsibilities.

12.2.1. **Work Completed**. Work completed must include work for vegetative establishment and maintenance, test and performance periods, and work to meet the requirements of Article 5L.11., "Final Cleanup."

12.2.2. **Final Inspection**. After all work is complete, the Engineer in charge of the work will request a final inspection by the Engineer authorized to accept the work.

The final inspection will be made as soon as possible and not later than 10 calendar days after the request. No working day charges will be made between the date of request and final inspection.

After the final inspection, if the work is satisfactory, the Engineer will notify the Contractor in writing of the final acceptance of the work. If the final inspection finds any work to be unsatisfactory, the Engineer will identify in writing all deficiencies in the work requiring correction. Correct the deficiencies identified. Working day charges will resume if these deficiencies are not corrected within 7 calendar days, unless otherwise authorized by the Engineer. Upon correction, the Engineer will inspect to verify that all deficiencies were corrected satisfactorily. The Engineer will provide written notice of the final acceptance.

12.2.3. **Final Measurement**. Final measurements and pay quantity adjustments may be made after final acceptance. Final acceptance will not be held for final measurements or pay quantity adjustments.

12.2.4. **Removal of Traffic Control Devices**. Remove any remaining construction traffic control devices and advance warning signs upon final acceptance or as directed.

12.3. **Multiple Work Orders**. Not applicable to Locally Let projects.

Item 6L
Control of Materials

1. SOURCE CONTROL

Use only materials that meet Contract requirements. Unless otherwise specified or approved, use new materials for the Work. Secure the Engineer's approval of the proposed source of materials to be used before their delivery. Materials can be approved at a supply source or staging area but may be inspected in accordance with Article 6L.4., "Sampling, Testing, and Inspection."

1.1. **Buy America**. Comply with the latest provisions of Buy America pertaining to steel and iron in accordance with 23 CFR § 635.410. Use steel or iron materials manufactured in the United States except when waived in accordance with Section 6L 1.2., "Buy America Exceptions."

Submit a notarized original of the TxDOT FORM D-9-USA-1 (Department Form 1818 or equivalent) with the proper attachments for verification of compliance.

Manufacturing includes any process that modifies the chemical content, physical shape or size, or final finish of a product. The manufacturing process begins with initial melting and mixing and continues through fabrication (e.g., cutting, drilling, welding, and bending) and coating (e.g., paint, galvanizing, and epoxy).

1.2. **Buy America Exceptions**. Use of iron and steel manufactured in the United States is required unless the material meets an exception below.

- A waiver exists exempting the material from Buy America compliance.
- The total value of foreign iron and steel products, including delivery, does not exceed 0.1% of the total Contract cost or $2,500, whichever is greater. The Contractor must provide documentation showing under threshold in advance for the Engineer's consideration.
- Foreign iron or steel may be allowed when the Contract contains an alternate item for a foreign source iron or steel product and the Contract is awarded based on the alternate item.
- The materials are temporarily installed or are supplies, tools, and equipment not incorporated into the project. Temporarily installed means the materials and products must be removed at the end of the project or may be removed at the Contractor's convenience with the Engineer's approval.

1.3. **Buy Texas**. For construction or maintenance Contracts without federal funds, buy materials produced in Texas when the materials are available at a comparable price and in a comparable period of time. Provide documentation of purchases or a description of good-faith efforts on request.

2. MATERIAL QUALITY

Correct or remove materials that fail to meet Contract requirements or that do not produce satisfactory results. Reimburse the Owner for cost incurred if additional sampling and testing are required by a change of source.

Materials not meeting Contract requirements will be rejected unless the Engineer approves corrective actions. Upon rejection, immediately remove and replace rejected materials.

If the Contractor does not comply with this Article, the Owner may remove and replace defective material. The cost of testing, removal, and replacement will be deducted from the payments due to the Contractor.

3. MANUFACTURER WARRANTIES

Transfer to the Owner warranties and guarantees required by the Contract or received as part of normal trade practice.

4. SAMPLING, TESTING, AND INSPECTION

Incorporate into the work only material that has been inspected, tested, and accepted by the Engineer. Remove, at the Contractor's expense, materials from the work locations that are used without prior testing and approval or written permission of the Engineer.

The material requirements and standard test methods in effect at the time the proposed Contract is advertised govern. Unless otherwise specified, the Engineer will perform testing at Owner's expense. In addition to facilities and equipment required by the Contract, furnish facilities and calibrated equipment required for tests to control the manufacture of construction items. If requested, provide a complete written statement of the origin, composition, and manufacture of materials.

All materials used are subject to inspection or testing at any time during preparation or use. Material that has been tested and approved at a supply source or staging area may be inspected or tested before or during incorporation into the work and rejected if it does not meet Contract requirements. Copies of test results are available upon request. Do not use material that, after approval, becomes unfit for use.

Unless otherwise specified in the Contract, all testing must be performed within the United States and witnessed by the Engineer. If materials or processes require testing outside the contiguous 48 United States, reimburse the Owner for inspection expenses.

5. PLANT INSPECTION AND TESTING

The Engineer may but is not obligated to inspect materials at the acquisition or manufacturing source. Material samples will be obtained and tested for compliance with quality requirements.

If inspection is at the plant, meet the following conditions unless otherwise specified:

- cooperate fully and assist the Engineer during the inspection,
- ensure the Engineer has full access to all parts of the plant used to manufacture or produce materials,
- in accordance with pertinent items and the Contract provide a facility at the plant for use by the Engineer as an office or laboratory
- provide and maintain adequate safety measures and restroom facilities, and
- furnish and calibrate scales, measuring devices, and other necessary equipment in accordance with the Contract.

The Engineer may provide inspection for periods other than daylight hours if:

- continuous production of materials for Owner's use is necessary due to the production volume being handled at the plant, and
- the lighting is adequate to allow satisfactory inspection.

6. STORAGE OF MATERIALS

Store and handle materials to preserve their quality and fitness for the work. Store materials so that they can be easily inspected and retested. Place materials under cover, on wooden platforms, or on other hard, clean surfaces as necessary or when directed.

Obtain approval to store materials on the right of way. Storage space off the right of way is at the Contractor's expense.

7. OWNER-FURNISHED MATERIAL

The Owner will supply materials as shown on the plans. The cost of handling and placing materials supplied by the Owner will not be paid for directly, but will be subsidiary to the Item in which they are used. Assume responsibility for materials upon receipt.

8. USE OF MATERIALS FOUND ON THE RIGHT OF WAY

Material found in the excavation areas and meeting the Owner's specifications may be used in the work. This material will be paid for at the Contract bid price for excavation and under the Item for which the material is used.

Do not excavate or remove any material from within the right of way that is not within the limits of the excavation without written permission. If excavation is allowed within a right of way project-specific location, replace the removed material with suitable material at no cost to the Owner as directed.

9. RECYCLED MATERIALS

The Owner will not allow hazardous wastes, as defined in 30 TAC § 335, proposed for recycling to be used on the project. Use nonhazardous recyclable materials (NRMs) only if the specification for the Item does not disallow or restrict use. Determine whether NRMs are regulated under 30 TAC §§ 312, 330, 332, 334, or 335, and comply with all general prohibitions and requirements. Use NRMs in accordance with DMS-11000, "Evaluating and Using Nonhazardous Recyclable Materials Guidelines," and furnish all documentation in the manner prescribed by the Owner.

10. HAZARDOUS MATERIALS

Comply with the requirements of Article 7L.12., "Responsibility for Hazardous Materials."

Notify the Engineer immediately when a visual observation or odor indicates that materials on sites owned or controlled by the Owner may contain hazardous materials. Except when the contract includes bid items for the Contractor to remove hazardous materials, the Owner is responsible for testing, removing, and disposing of hazardous materials not introduced by the Contractor. The Engineer may suspend work wholly or in part during the testing, removing, or disposing of hazardous materials, except in the case where hazardous materials are introduced by the Contractor.

Use materials that are free of hazardous materials. Notify the Engineer immediately if materials are suspected to contain hazardous materials. If materials delivered to the project by the Contractor are suspected to contain hazardous materials, have an approved commercial laboratory test the materials for the presence of hazardous materials as approved. Remove, remediate, and dispose of any of these materials found to contain hazardous materials. The work required to comply with this Section will be at the Contractor's expense if materials are found to contain hazardous materials. Working day charges will not be suspended and extensions of working days will not be granted for activities related to handling hazardous material introduced by the Contractor. If suspected materials are not found to contain hazardous materials, the Owner will reimburse the Contractor for hazardous materials testing and will adjust working day charges if the Contractor can show that this work impacted the critical path.

10.1. **Painted Steel Requirements**. Coatings on existing steel contain hazardous materials unless otherwise shown on the plans. Remove paint and dispose of steel coated with paint containing hazardous materials in accordance with the following.

Removing Paint from Steel. For contracts that are specifically for painting steel, include the cleaning and painting of steel under Item 446, "Field Cleaning and Painting Steel," as a pay item. Perform work in accordance with that Item.

For projects where paint must be removed to allow for the dismantling of steel or to perform other work, the Owner will provide for a separate contractor (third party) to remove paint containing hazardous materials before or during the Contract. Remove paint covering existing steel shown not to contain hazardous materials in accordance with Item 446.

10.1.1. **Removal and Disposal of Painted Steel**. For steel able to be dismantled by unbolting, paint removal will not be performed by the Owner. The Owner will remove paint, at locations shown on the plans or as agreed, for the Contractor's cutting and dismantling purposes. Use Owner-cleaned locations for dismantling when provided or provide own means of dismantling at other locations.

Painted steel to be retained by the Owner will be shown on the plans. For painted steel that contains hazardous materials, dispose of the painted steel at a steel recycling or smelting facility unless otherwise shown on the plans. Maintain and make available to the Engineer invoices and other records obtained from the facility showing the received weight of the steel and the facility name. Dispose of steel that does not contain hazardous material coatings in conformance with federal, state, and local regulations.

10.2. **Asbestos Requirements**. The plans will indicate locations or elements where asbestos-containing materials (ACMs) are known to be present. Where ACMs are known to exist or where previously unknown ACM has been found, the Owner will arrange for abatement by a separate contractor before or during the Contract. Notify the Engineer of proposed dates of demolition or removal of structural elements with ACM at least 60 days before beginning work to allow the Owner sufficient time for abatement.

The Texas Department of State Health Services (DSHS), Asbestos Programs Branch, is responsible for administering the requirements of the National Emissions Standards for Hazardous Air Pollutants, (NESHAP), in accordance with 40 CFR Part 61, Subpart M, and the Texas Asbestos Health Protection Rules (TAHPR). Based on EPA guidance and regulatory background information, bridges are considered to be a regulated "facility" under NESHAP; therefore, federal standards for demolition and renovation apply.

The Owner is required to notify DSHS at least 10 working days (by postmarked date) before initiating demolition or renovation of each structure shown on the plans. If the actual demolition, renovation, or removal date is changed or delayed, notify the Engineer in writing of the revised dates in sufficient time to allow for the Owner's notification to DSHS to be postmarked at least 10 days in advance of the actual work.

The Owner retains the right to determine the actual advance notice needed for the change in date to address post office business days and staff availability.

10.3. **Asbestos or Lead Abatement**. Provide traffic control as shown on the plans, and coordinate and cooperate with the third party and the Owner for managing or removing hazardous materials. Work for the traffic control shown on the plans and coordination work will not be paid for directly, but will be subsidiary to pertinent Items.

11. SURPLUS MATERIALS

Take ownership of surplus materials unless otherwise shown on the plans or directed. Remove and dispose of materials in conformance with federal, state, and local regulations. If requested, provide an appropriate level of documentation to verify proper disposal. When materials are disposed of on private property, provide written authorization from the property owner for the use of the property for this purpose upon request.

Item 7L
Legal Relations and Responsibilities

1. ETHICS – NOT APPLICABLE TO LOCALLY LET PROJECTS

2. SAFETY

2.1. **Safety Point of Contact**. Designate, in writing, a Contractor Safety Point of Contact (CSPOC). The Owner will assign an employee for their point of contact designated as Owner's Safety Point of Contact OSPOC. The Contract requires that the Contractor's and subcontractor's employees use the appropriate personal protective equipment (PPE) (e.g., hardhats, safety vests, and protective toe footwear) to meet regulations.

The Contractor will require that crew leaders and foremen (including subcontractors) have attended the required training.

2.2. **Safety Preconstruction Meeting**. In cooperation with the Engineer, schedule and attend a safety preconstruction meeting (may be a part of the preconstruction conference in accordance with Article 4L.2., "Preconstruction Conference"). Attendees for this safety preconstruction meeting will be:

- the Contractor,
- subcontractors,
- the Owner,
- local law enforcement, and
- other personnel who play an active role on the project.

2.3. **Safety Contingency**. To improve the effectiveness of traffic handling and enhance safety during the course of this project, a safety contingency fund may have been included in the project budget for traffic control plan adjustments and other safety-related improvements.

Costs associated with the adjustments or improvements will be paid for in accordance with Article 9L.7., "Payment for Extra Work and Force Account Method." Article 9L.7., "Payment for Extra Work and Force Account Method," is not intended to be used in lieu of bid items established by the Contract.

2.4. **Public Safety and Convenience**. In accordance with the Contract and as directed, provide for the safety and convenience of the public and property. Keep existing roadways open to traffic or construct and maintain detours and temporary structures for safe public travel. Manage construction to minimize disruption to traffic. Maintain the roadway in a good and passable condition, including proper drainage, and provide for ingress and egress to adjacent property.

If the construction of the project requires the closing of a roadway, as directed, coordinate the closure with the Engineer and work to ensure all lanes and ramps possible are available during peak traffic periods before, during, and after significant traffic generator events to avoid any adverse economic impact on the municipalities during:

- dates or events as shown on the plans, and
- other dates as directed.

Store all equipment not in use in a manner and at locations that will not interfere with the safe passage of traffic.

If the Engineer determines that any of the requirements of this Article have not been met, the Engineer may take corrective action. This will not change the legal responsibilities set forth in the Contract. The cost to the Owner for this work will be deducted from any money due or to become due to the Contractor.

2.5. **Use of Blue Warning Lights**. Texas Transportation Code § 547.105 authorizes the use of warning lights to promote safety and provides an effective means of gaining the traveling public's attention as they drive in areas where construction crews are present. To influence the public to move over when high-risk construction activities are taking place, minimize the use of blue warning lights. These lights must be used only while performing work on or near the travel lanes or shoulder where the traveling public encounters construction crews that are not protected by a standard work zone setup, such as a lane closure, a shoulder closure, or one-way traffic control. Refrain from leaving the warning lights engaged while traveling from one work location to another or while parked on the right of way away from the pavement or a work zone.

2.6. **Barricades, Signs, and Traffic Handling**. Comply with the requirements of Item 502 "Barricades, Signs, and Traffic Handling," and as directed. Provide traffic control devices as shown on the plans and in accordance with the TMUTCD. When authorized or directed, provide additional signs or traffic control devices not required by the plans.

If an unexpected situation arises that causes the Contractor to believe that the traffic control should be changed, make all reasonable efforts to promptly contact the Engineer. Take prudent actions until the Engineer can be contacted.

The Engineer will inspect the traffic control devices. Comply with the results of the inspection in the prescribed timeframe.

The work performed and materials furnished in accordance with this Section and Item 502 have no bearing on the prosecution of Items 1L–10L, "General Requirements and Covenants," of the Contract. This includes, but is not limited to installing, relocating, and removing project limit advance warning signs.

2.6.1. **Contractor Responsible Person and Alternate**. Designate in writing a Contractor's Responsible Person (CRP) and an alternate to be the representative of the Contractor who is responsible for taking or directing corrective measures regarding the traffic control. The CRP or alternate must be accessible by telephone 24 hr. per day and able to respond when notified. The CRP and alternate must comply with the requirements of Section 7L.2.6.5., "Training."

2.6.2. **Flaggers**. Designate, in writing, a flagger instructor who will serve as a flagging supervisor and is responsible for training and assuring that all flaggers are qualified to perform flagging duties. Certify to the Engineer that all flaggers will be trained and make available upon request a list of flaggers trained to perform flagging duties.

Provide flaggers as directed. Flaggers must be courteous and able to effectively communicate with the public. When directing traffic, flaggers must dress appropriately; wear high-visibility safety apparel; use flags, signs, stop-slow paddles, and other hand-signaling devices; and follow the flagging procedures in the TMUTCD. Comply with the requirements of Section 7L.2.6.5., "Training."

2.6.3. **Law Enforcement Personnel**. Provide uniformed law enforcement personnel with patrol vehicles as directed. Document the work zone traffic services provided in the manner prescribed by the Owner. Law enforcement personnel providing work zone traffic services must be trained for the service they perform. Comply with Section 7L.2.6.5., "Training."

2.6.4. **Other Work Zone Personnel**. Workers involved with traffic control, including the maintenance of the traffic control, must comply with the requirements of Section 7L.2.6.5., "Training."

2.6.5. **Training.** Train workers involved with the traffic control using Department-approved training as shown on the "Traffic Control Training" MPL.

Coordinate enrollment, pay associated fees, and successfully complete Department-approved training or Contractor-developed training. Training is valid for the period prescribed by the provider. Except for law enforcement personnel training, refresher training is required every 4 yr. from the date of completion unless otherwise specified by the course provider. The Engineer may require training at a specified frequency instead of the period prescribed based on the Owner's needs. Training and associated fees will not be measured or paid for directly, but will be subsidiary to pertinent Items.

Certify to the Engineer that workers involved in traffic control and other work zone personnel have been trained and make available upon request a copy of the certification of completion to the Engineer. The certification of completion includes:

- name of provider and course title,
- name of participant,
- date of completion, and
- date of expiration.

Where Contractor-developed training or a TxDOT-approved training course does not produce a certification, maintain a log of attendees. Make the log available upon request. Provide a log that is legible and includes:

- printed name and signature of participant,
- name and title of trainer, and
- date of training.

2.6.5.1. **Contractor-Developed Training**. Develop and deliver Contractor-developed training meeting the minimum requirements established by the Owner. The outline for this training must be submitted to the Engineer for approval at the preconstruction meeting. The CRP or designated alternate may deliver the training instead of the TxDOT-approved training. The work performed and materials furnished to develop and deliver the training will not be measured or paid for directly, but will be subsidiary to pertinent Items.

2.6.5.1.1. **Flagger Training Minimum Requirements**. A Contractor's certified flagging instructor is permitted to train other flaggers.

2.6.5.1.2. **Other Contractor-Developed Training for Other Work Zone Personnel**. For other work zone personnel, the Contractor may provide training meeting the curriculum described below instead of TxDOT-approved training.

Minimum curriculum for Contractor-provided training is as follows.

Contractor-developed training must provide information on the use of PPE, occupational hazards and health risks, and other pertinent topics related to traffic management. The type and amount of training will depend on the job duties and responsibilities. Develop training applicable to the work being performed. Develop training to include the following topics.

- Adopt a company safety motto: "The Life You Save May Be Your Own," or similar.
- Purpose of the training includes the following.
  - "It's the Law."
  - Make work zones safer for workers and motorists.
  - Understand what is needed for traffic control.
  - Save lives including your own.
- Personal and co-worker safety includes the following.
  - **High-Visibility Safety Apparel**. Discuss compliant requirements; inspect regularly for fading and reduced reflective properties; if night operations are required, discuss the additional and appropriate required apparel in addition to special night work risks; and if moving operations are underway, discuss appropriate safety measures specific to the situation and traffic control plan.

- **Blind Areas**. A blind area is the area around a vehicle or piece of construction equipment not visible to the operators, either by line of sight or indirectly by mirrors. Discuss the "Circle of Safety" around equipment and vehicles; use of spotters; maintaining eye contact with equipment operators; and use of hand signals.
- **Runovers and Backovers**. Remain alert at all times; keep a safe distance from traffic; avoid turning your back to traffic, and if you must, then use a spotter; and stay behind protective barriers, whenever possible. It is not safe to sit on or lean against a concrete barrier; these barriers can deflect 4 ft. or more when struck by a vehicle.
- Look out for each other and warn co-workers.
- Be courteous to motorists.
- Do not run across active roadways.
- Workers must obey traffic laws and drive courteously while operating vehicles in the work zones.
- Workers must be made aware of company distracted driving policies.

■ **Nighttime Operations**. Focus on projects with a nighttime element.

■ **Traffic Control Training**. Basics of traffic control include the following.

- Identify work zone traffic control supervisor and other appropriate persons to report issues to when they arise.
- Emphasize that work zone traffic control devices must be in clean and undamaged condition. If devices have been hit but not damaged, return them to their correct place and report to the traffic control supervisor. If devices have been damaged, replace with new devices and report to the traffic control supervisor. If devices are dirty, faded, or have missing or damaged reflective tape, clean or replace them and report to the traffic control supervisor. Show examples of unacceptable device conditions. Discuss various types of traffic control devices to be used and where spacing requirements can be found.
- **Channelizing Devices and Barricades with Slanted Stripes**. Stripes must slant in the direction in which you want traffic to stay or move; demonstrate this with a device.
- **Traffic Queuing**. Workers must be made aware of traffic queuing and the dangers created by it. Workers must be instructed to immediately notify the traffic control supervisor and other supervisory personnel if traffic is queuing beyond advance warning sign and devices or construction limits.
- **Signs**. Signs must be straight and not leaning. Report problems to the traffic control supervisor or other as designated for immediate repair. Covered signs must be fully covered. If covers are damaged or out of place, report to the traffic control supervisor or other as designated.

3. LAWS TO BE OBSERVED

Comply with all federal, state, and local laws, ordinances, and regulations that affect the performance of the work. The Contractor is not required to comply with city electrical ordinances not included in this Contract. Indemnify and save harmless the Owner and its representatives against any claim arising from violation by the Contractor of any law, ordinance, or regulation.

This Contract is between the Owner and the Contractor only. No person or entity may claim third-party beneficiary status under this Contract or any of its provisions, nor may any non-party sue for personal injuries or property damage under this Contract.

4. PERMITS, LICENSES, AND TAXES

Procure all permits and licenses; pay all charges, fees, and taxes; and give all notices necessary and incidental to the due and lawful prosecution of work, except for permits provided by the Owner and as specified in Article 7L.7., "Preservation of Cultural and Natural Resources and the Environment."

5. PATENTED DEVICES, MATERIAL, AND PROCESSES

Indemnify and save harmless the Owner from any claims for infringement from the Contractor's use of any patented design, device, material, process, trademark, or copyright selected by the Contractor and used in connection with the work. Indemnify and save harmless the Owner against any costs, expenses, or damages that it may be obliged to pay, by reason of this infringement, at any time during the prosecution or after the completion of the work.

6. PERSONAL LIABILITY OF PUBLIC OFFICIALS

Owner employees are agents and representatives of the Owner and will incur no liability, personal or otherwise, in carrying out the provisions of the Contract or in exercising any power or authority granted under the Contract.

7. PRESERVATION OF CULTURAL AND NATURAL RESOURCES AND THE ENVIRONMENT

Project-specific information pertinent to cultural and natural resources is included in the plan set in the General Notes and on the Environmental Permits, Issues, and Commitments (EPIC) sheet. Adhere to all guidance, Best Management Practices (BMPs), and permits shown on the plans. Signing the Contract certifies compliance with all applicable laws, rules, and regulations pertaining to the preservation of cultural resources, natural resources, and the environment as issued by the following or other agencies.

- OSHA
- TCEQ
- Texas Department of Transportation
- Texas Historical Commission
- Texas Parks and Wildlife Department
- Texas Railroad Commission
- U.S. Army Corps of Engineers (USACE)
- U.S. Department of Energy
- U.S. Department of Transportation
- EPA
- Federal Emergency Management Agency
- U.S. Fish and Wildlife Service

All subcontractors must also comply with applicable environmental laws, rules, regulations, and requirements in the Contract.

7.1. **Cultural Resources**. Cease all work immediately if a site, building, or location of historical, archeological, educational, or scientific interest is discovered within the right of way. The site, building, or location will be investigated and evaluated by the Owner.

7.2. **Protected and Imperiled Species and Wildlife**. Cease all work immediately and within 50 ft. if a protected or imperiled species, or any species assumed to be protected or imperiled, or wildlife is encountered onsite. Allow any animals to leave the area. Do not kill any wildlife. Contact Owner's environmental staff to investigate and evaluate any species or wildlife issues.

7.3. **Migratory Birds**. Bird and nest removal must not occur during vegetation clearing, construction, or maintenance activities on structures where birds or nests are present during the nesting season, as shown on the plans. If work will occur during the nesting season, measures to prevent nest establishment must be used before the start of nesting season or any activity. Contact Owner's environmental staff for assistance with birds and nests.

7.4. **Texas Pollutant Discharge Elimination System (TPDES) Permits and Stormwater Pollution Prevention Plans (SWP3s).**

7.4.1. Projects with Less than 1 Acre of Soil Disturbance Including Required Associated Project Specific Locations (PSLs) in Accordance with TPDES Construction General Permit (CGP) No. TXR150000. No construction site notice (CSN) posting will be required for soil disturbances within the right of way. Adhere to the requirements of the SWP3 and environmental layout as shown on the plans.

7.4.2. Projects with 1 Acre but Less than 5 Acres of Soil Disturbance Including Required Associated PSLs in Accordance with TPDES CGP No. TXR150000. The Owner and the Contractor will operate under a shared SWP3 for portions of the project in the right of way.

The Owner will be considered the primary operator with operational control over plans and specifications as defined in TPDES CGP No. TXR150000 for construction activity in the right of way. The Owner will post a small CSN and follow other requirements as defined in TPDES CGP No. TXR150000 as the entity having operational control over plans and specifications for work shown on the plans in the right of way.

The Contractor will be considered the primary operator with day-to-day operational control as defined in TPDES CGP No. TXR150000 for construction activity in the right of way. In addition to the Owner's actions, the Contractor will post a small CSN and follow other requirements as defined in TPDES CGP No. TXR150000 as the entity having day-to-day operational control of the work shown on the plans in the right of way. This is in addition to the Contractor being responsible for TPDES CGP No. TXR150000 requirements for on-right-of-way and off-right-of-way PSLs. The Contractor will adhere to all requirements of the SWP3 and environmental layout as shown on the plans. The Contractor will be responsible for implementing the SWP3 for the project site as shown on the plans, in conformance with specifications, in accordance with TPDES CGP No. TXR150000, and as directed. Notification to Municipal Separate Storm Sewer System (MS4) operators (when applicable) upon project initiation and completion must be provided in accordance with TPDES CGP No. TXR150000 requirements. A signed copy of the small CSN will be provided to MS4 operators (where applicable) at least 2 days before commencing construction.

With the Engineer's concurrence upon the completion of soil disturbing activities and achieving permanent stabilization of 70% native background vegetation cover, the CSN may be removed.

7.4.3. **Projects with 5 Acres or More of Soil Disturbance Including Required Associated PSLs in Accordance with TPDES CGP No. TXR150000**. The Owner and the Contractor will operate under a shared SWP3 for portions of the project in the right of way. The Owner will be considered the primary operator with operational control over plans and specifications as defined in TPDES CGP No. TXR150000 for construction activities in the right of way. The Owner will post a large CSN and file a Notice of Intent (NOI); Notice of Change (NOC), if applicable; and Notice of Termination (NOT), along with other requirements in accordance with TPDES CGP No. TXR150000, as the entity having operational control over plans and specifications for work shown on the plans in the right of way.

The Contractor will be considered the primary operator for day-to-day operational control as defined in TPDES CGP No. TXR150000 for construction activities in the right of way. In addition to the Owner's actions, the Contractor will file an NOI; NOC, if applicable; and NOT and post a large CSN along with other requirements as the entity having day-to-day operational control of the work shown on the plans in the right of way. This is in addition to the Contractor being responsible for TPDES CGP No. TXR150000 requirements for on-right-of-way and off-right-of way PSLs. Adhere to all requirements of the SWP3 and environmental layout as shown on the plans.

7.4.3.1. **Notice of Intent (NOI)**. Contractor will submit an NOI to TCEQ in accordance with TPDES CGP No. TXR150000 requirements. NOI must be submitted at least 7 days before commencement of construction activities at the project site. Contractor must file NOI under the same Regulated Entity Number (RN) as the Owner. Provide a signed copy to the Engineer and any other MS4 operators (where applicable) at the time of submittal. The Owner will submit their NOI before Contractor submission and will provide a copy for Contractor's use in completing the Contractor's NOI form.

7.4.3.2. **Notice of Change (NOC)**. Upon concurrence of the Engineer, submit an NOC to TCEQ within 14 days of discovery of a change or revision to the NOI as required by the CGP. Provide a signed copy of the NOC to the Engineer and any other MS4 operators (where applicable) at the time of submittal.

7.4.3.3. **Notice of Termination (NOT)**. Upon concurrence of the Engineer, submit an NOT to TCEQ within 30 days of the Engineer's approval that 70% native background vegetative cover is met or equivalent permanent stabilization has been employed in accordance with TPDES CGP No. TXR150000. Provide a signed copy of the NOT to the Engineer and any other MS4 operators (where applicable) at the time of submittal.

7.4.4. **Training**. Not applicable to Locally Let Projects.

7.5. **Work in Waters of the United States**. For work in the right of way, the Owner will obtain any required Section 404 permits from U.S. Army Corps of Engineers USACE before work begins. Adhere to all agreements, mitigation plans, and standard BMPs required by the permit. When Contractor-initiated changes in the construction method change the impacts on Waters of the United States, obtain new or revised Section 404 permits.

7.6. **Work in Navigable Waters of the United States**. For work in the right of way, the Owner will obtain any required Section 9 permits from the U.S. Coast Guard before work begins. Adhere to the stipulations of the permits and associated BMPs. When Contractor-initiated changes in the construction method change the impacts on Navigable Waters of the United States, obtain new or revised Section 9 permits.

7.7. **Work over Recharge or Contributing Zone of Protected Aquifers**. Make every reasonable effort to minimize the degradation of water quality resulting from impacts relating to work over the recharge or contributing zones of protected aquifers, as defined and delineated by TCEQ. Use BMPs and perform work in accordance with the Contract requirements.

7.8. **Project Specific Locations**. For all PSLs on or off the right of way (e.g., material sources, waste sites, parking areas, storage areas, field offices, staging areas, and haul roads), comply with all applicable laws, rules, and regulations pertaining to the preservation of cultural resources, natural resources, and the environment in accordance with Section 7L 7.1., "Cultural Resources." All subcontractors must also comply with applicable environmental laws, rules, regulations, and requirements in the Contract. Maintain documentation of environmental compliance activities, including environmental consultant reports and correspondence with the resource agencies. Provide documentation upon request. Obtain written approval from the Engineer for all PSLs in the right of way not specifically addressed on the plans. Prepare an SWP3 for all Contractor facilities, such as asphalt or concrete plants located within right of way. Comply with all TCEQ permit requirements for portable facilities, such as concrete batch plants, rock crushers, and asphalt plants. Ensure compliance with all environmental issues, such as Section 404 permits, wetland delineation, endangered species consultation requirements, or archeological and historic site impacts. Obtain all permits and clearances in advance.

7.9. **Contractor Responsibility**. If the Contractor initiates changes to the Contract and the Owner approves the changes, the Contractor is responsible for obtaining clearances and coordinating with the appropriate regulatory agencies.

8. AGRICULTURAL IRRIGATION

Regulate the sequence of work and make provisions as necessary to provide for agricultural irrigation or drainage during the work. Meet with the service provider or landowner to determine the proper time and sequence when irrigation demands will permit shutting off water flows to perform work.

Unless otherwise shown on the plans, the work performed in accordance with this Article will not be measured or paid for directly, but will be subsidiary to pertinent Items.

9. SANITARY PROVISIONS

Provide and maintain adequate, neat, and sanitary toilet accommodations for employees, including State employees, in compliance with the requirements and regulations of the Texas Department of State Health Services or other authorities having jurisdiction.

10. ABATEMENT AND MITIGATION OF EXCESSIVE OR UNNECESSARY NOISE

Minimize noise throughout all phases of the Contract. Exercise particular and special efforts to avoid the creation of unnecessary noise impact on adjacent noise-sensitive receptors in the placement of non-mobile equipment, such as air compressors, generators, and pumps. Place mobile and stationary equipment to cause the least disruption to normal adjacent activities.

All equipment associated with the work must be equipped with components to suppress excessive noise, and these components must be maintained in their original operating condition considering normal depreciation. Noise attenuation devices installed by the manufacturer, such as mufflers, engine covers, and insulation, must not be removed or rendered ineffectual, or be permitted to remain off the equipment while the equipment is in use.

11. USING EXPLOSIVES

Do not endanger life or property. When required by the plans or requested, provide a written blasting plan. The Owner retains the right to reject the blasting plan. Store all explosives securely, and clearly mark all storage places with "DANGER—EXPLOSIVES." Store, handle, and use explosives and highly flammable material in compliance with federal, state, and local laws, ordinances, and regulations. Assume liability for property damage, injury, or death resulting from the use of explosives.

Give at least 48-hr. advance notice to the appropriate railroad representative before doing any blasting work involving the use of electric blasting caps within 200 ft. of any railroad track.

12. RESPONSIBILITY FOR HAZARDOUS MATERIALS

Comply with the requirements of Article 6L.10., "Hazardous Materials." Indemnify and save harmless the Owner and its agents and employees from all suits, actions, or claims and from all liability and damages for any injury or damage to any person or property arising from the generation or disposition of hazardous materials introduced by the Contractor on any work done by the Contractor on Owner-owned or controlled sites. Indemnify and save harmless the Owner and its representatives from any liability or responsibility arising out of the Contractor's generation or disposition of any hazardous materials obtained, processed, stored, or shipped, on sites not owned or controlled by the Owner. Reimburse the Owner for all payments, fees, or restitution the Owner is required to make as a result of the Contractor's actions.

13. RESTORING SURFACES OPENED BY PERMISSION

Do not authorize anyone to make an opening in the highway for utilities, drainage, or any other reason without written permission from the Engineer. Repair all openings as directed. Payment for repair of surfaces opened by permission will be made in conformance with pertinent Items or in accordance with Article 4L.4., "Changes in the Work." Costs associated with openings made with Contractor authorization but without Owner approval will not be paid.

14. PROTECTING ADJACENT PROPERTY

Protect adjacent property from damage. If any damage results from an act or omission on the part of or on behalf of the Contractor, take corrective action to restore the damaged property to a condition similar or equal to that existing before the damage was done.

15. RESPONSIBILITY FOR DAMAGE CLAIMS

Indemnify and save harmless the Owner and its agents and employees from all suits, actions, or claims and from all liability and damages for any injury or damage to any person or property due to the Contractor's negligence in the performance of the work and from any claims arising or amounts recovered under any laws, including workers' compensation and the Texas Tort Claims Act. Indemnify and save harmless the Owner and assume responsibility for all damages and injury to property of any character occurring during the prosecution of the work resulting from any act, omission, neglect, or misconduct on the Contractor's part in the manner or method of executing the work; from failure to properly execute the work; or from defective work or material.

Pipelines and other underground installations that may or may not be shown on the plans may be located within the right of way. Indemnify and save harmless the Owner from any suits or claims resulting from damage by the Contractor's operations to any pipeline or underground installation. Make available the scheduled sequence of work to the respective utility owners so that they may coordinate and schedule adjustments of their utilities that conflict with the proposed work.

16. HAULING AND LOADS ON ROADWAYS AND STRUCTURES

Comply with federal and state laws concerning legal gross and axle weights. Except for the designated Interstate system, vehicles with a valid yearly overweight tolerance permit may haul materials to the work locations at the permitted load. Provide copies of the yearly overweight tolerance permits to the Engineer upon request. Construction equipment is not exempt from oversize or overweight permitting requirements on roadways open to the traveling public.

Protect existing bridges and other structures that will remain in use by the traveling public during and after the completion of the Contract. Construction traffic on roadways, bridges, and culverts within the limits of the work, including any structures under construction that will remain in service during and after completion of the Contract, is subject to legal size and weight limitations.

Additional temporary fill may be required by the Engineer for hauling purposes for the protection of certain structures. This additional fill will not be paid for directly, but will be subsidiary to pertinent Items.

Replace or restore to original condition any structure damaged by the Contractor's operations.

The Engineer may allow equipment with oversize or non-divisible overweight loads to operate without a permit within the work locations on pavement structures not open to the traveling public. Submit Contractor-proposed changes to traffic control plans for approval, in accordance with Item 502. The following Sections further address overweight allowances. The Owner will make available to the Contractor any available plans and material reports for existing structures.

16.1. **Overweight Construction Traffic Crossing Structures**. The Engineer may allow crossing of a structure not open to the public within the work locations when divisible or non-divisible loads exceed legal weight limitations, including limits for load-posted bridges. Obtain written permission to make these crossings. Submit for approval a structural analysis by a licensed professional engineer indicating that the excessive loads should be allowed. Provide a manufacturer's certificate of equipment weight that includes the weight distribution on the various axles and any additional parts, such as counterweights, the configuration of the axles, or other information necessary for the analysis. Submit the structural analysis and supporting documentation sufficiently in advance of the move to allow for review by the Engineer. Permission may be granted if the Engineer finds that no damage or overstresses exceeding those normally allowed for occasional overweight loads will result to structures that will remain in use after Contract completion. Provide temporary matting or other protective measures as directed.

Schedule loads so that only one vehicle is on any span or continuous unit at any time. Use barricades, fences, or other positive methods to prevent other vehicular access to structures at any time the overweight load is on any span or continuous unit.

16.2. **Construction Equipment Operating on Structures**. Cranes and other construction equipment used to perform construction operations that exceed legal weight limits may be allowed on structures. Before any operation that may require placement of equipment on a structure, submit for approval a detailed structural analysis prepared by a licensed professional engineer.

Submit the structural analysis and supporting documentation sufficiently in advance of the use to allow for review by the Engineer. Include all axle loads and configurations, spacing of tracks or wheels, tire loads, outrigger placements, center of gravity, equipment weight, and predicted loads on tires and outriggers for all planned movements, swings, or boom reaches. The analysis must demonstrate that no overstresses exceeding those normally allowed for occasional overweight loads will occur.

16.3. **Loads on Structures**. Do not store or stockpile material on bridge structures without written permission. If required, submit a structural analysis and supporting documentation by a licensed professional engineer for review by the Engineer. Permission may be granted if the Engineer finds that no damage or overstresses exceeding those normally allowed for occasional overweight loads will result to structures that will remain in use after Contract completion. Provide temporary matting or other protective measures as directed.

16.4. **Hauling Divisible Overweight Loads on Pavement Within Work Locations**. The Engineer may allow divisible overweight loads on pavement structures within the work locations not open to the traveling public. Obtain written approval before hauling the overweight loads. Include calculations to demonstrate that there will be no damage or overstress to the pavement structure.

17. CONTRACTOR'S RESPONSIBILITY FOR WORK

Until final acceptance of the Contract, take every precaution against injury or damage to any part of the work by the action of the elements or by any other cause, whether arising from the execution or from the non-execution of the work. Protect all materials to be used in the work at all times, including periods of suspension.

When any roadway or portion of the roadway is in suitable condition for travel, it may be opened to traffic as directed. Opening of the roadway to traffic does not constitute final acceptance.

Repair damage to all work until final acceptance. Repair damage to existing facilities in accordance with the Contract or as directed by the Engineer. Repair damage to existing facilities or work caused by Contractor operations at the Contractor's expense. Repair work for damage that was not due to the Contractor's operations will not be paid for except as provided below.

17.1. **Reimbursable Repair**. Except for damage to appurtenances listed in Section 7L.17.2.1., "Unreimbursed Repair," the Contractor will be reimbursed for repair of damage caused by:

- motor vehicle, watercraft, aircraft, or railroad-train incident;
- vandalism; or
- Acts of God, such as earthquake, tidal wave, tornado, hurricane, or other cataclysmic phenomena of nature.

17.2. **Appurtenances**.

17.2.1. **Unreimbursed Repair**. Except for destruction (not reusable) due to Acts of God, reimbursement will not be made for repair of damage to the following temporary appurtenances, regardless of cause:

- signs,
- barricades, and
- other work zone traffic control devices.

Crash cushion attenuators and guardrail end treatments are reimbursed in accordance with Section 7L.17.2.2., "Reimbursed Repair." Truck-mounted attenuators, trailer attenuators, and portable changeable message signs are eligible for reimbursed repair in accordance with Section 7L.17.2.2.,

"Reimbursed Repair." Reimbursement will only be made when the Engineer directs the placement of the device in a location other than what is depicted in the Contract and the Contractor is unable to seek reimbursement from third-party insurance.

Where the Contractor retains replaced appurtenances after completion of the project, the Owner will limit the reimbursement to the cost that is above the salvage value at the end of the project.

17.2.2. **Reimbursed Repair**. Reimbursement will be made for repair of damage due to the causes listed in Section 7L.17.1, "Reimbursable Repair."

17.3. **Roadways and Structures**. Until final acceptance, the Contractor is responsible for all work constructed under the Contract. The Owner will not reimburse the Contractor for repair work to new construction, unless the failure or damage is due to one of the causes listed in Section 7L.17.1., "Reimbursable Repair."

The Owner will be responsible for the cost for repair of damage to existing roadways and structures not caused by the Contractor's operations.

17.4. **Detours**. The Contractor will be responsible for the cost of maintenance of detours constructed under the Contract, unless the failure or damage is due to one of the causes listed in Section 7L.17.1., "Reimbursable Repair." In addition, the Engineer will reimburse the Contractor for repairs to detours when failures occur for reasons beyond the Contractor's control. Reimbursement will be made for repairs to detours constructed unless the failure was due to materials and workmanship. The Owner will be responsible for the cost of maintenance of existing streets and roadways used for detours or handling traffic.

17.5. **Relief from Maintenance**. The Engineer may relieve the Contractor from responsibility of maintenance in accordance with this Section. This relief does not release the Contractor from responsibility for defective materials or work or constitute final acceptance. The Engineer will direct the Contractor to remove advance warning signs upon issuance of relief from maintenance.

17.5.1. **Isolated Work Locations**. For isolated work locations, when all work is completed, including work in accordance with Article 5L.11., "Final Cleanup," the Engineer may relieve the Contractor from responsibility for maintenance.

17.5.2. **Work Except for Vegetative Establishment and Test Periods**. When all work for all or isolated work locations has been completed, including work in accordance with Article 5L.11., "Final Cleanup," with the exception of vegetative establishment and maintenance periods and test and performance periods, the Engineer may relieve the Contractor from responsibility for maintenance of completed portions of work.

17.5.3. **Work Suspension**. When all work is suspended for an extended period of time, the Engineer may relieve the Contractor from responsibility for maintenance of completed portions of work during the period of suspension.

17.5.4. **When Directed by the Engineer**. The Engineer may relieve the Contractor from the responsibility for maintenance when directed.

17.6. **Basis of Payment**. When reimbursement for repair work is allowed and performed, payment will be made in conformance with pertinent Items or in accordance with Article 4L.4., "Changes in the Work."

18. ELECTRICAL REQUIREMENTS

18.1. **Definitions**.

18.1.1. **Electrical Work**. Electrical work is work performed for:

- Item 610, "Roadway Illumination Assemblies,"
- Item 614, "High Mast Illumination Assemblies,"
- Item 616, "Performance Testing of Lighting Systems,"

- Item 617, "Temporary Roadway Illumination,"
- Item 618, "Conduit,"
- Item 620, "Electrical Conductors,"
- Item 621, "Tray Cable,"
- Item 622, "Duct Cable,"
- Item 628, "Electrical Services,"
- Item 680, "Highway Traffic Signals,"
- Item 681, "Temporary Traffic Signals,"
- Item 684, "Traffic Signal Cables,"
- Item 685, "Roadside Flashing Beacon Assemblies,"
- other Items that involve either the distribution of electrical power greater than 50 volts or the installation of conduit and duct banks,
- the installation of conduit and wiring associated with Item 624, "Ground Boxes" and Item 656, "Foundations for Traffic Control Devices," and
- the installation of the conduit system for communication and fiber optic cable.

Electrical work does not include the installation of communications or fiber optic cable, or the connections for low-voltage and inherently power-limited circuits, such as electronic or communications equipment. Assembly and placement of poles, structures, cabinets, enclosures, manholes, or other hardware will not be considered electrical work if no wiring, wiring connection, or conduit work is done at the time of assembly and placement.

18.1.2. **Specialized Electrical Work**. Specialized electrical work is work that includes the electrical service and feeders, sub-feeders, branch circuits, controls, raceways, and enclosures for the following:

- pump stations,
- moveable bridges,
- ferry slips,
- motor control centers,
- facilities required in accordance with Item 504, "Field Office and Laboratory,"
- rest area or other public buildings,
- weigh-in-motion stations,
- electrical services larger than 200 amps,
- electrical services with main or branch circuit breaker sizes not shown in the Contract, and
- any three-phase electrical power.

18.1.3. **Certified Person**. A certified person is a person who has passed the test from TxDOT's course TRF450, "TxDOT Roadway Illuminations and Electrical Installations," or other courses as approved by the Traffic Safety Division. Submit a current and valid TRF certification upon request. Texas A&M Engineering Extension Service (TEEX) certifications for "TxDOT Electrical Systems" course will not be accepted.

18.1.4. **Licensed Electrician**. A licensed electrician is a person with a current and valid unrestricted master electrical license, or unrestricted journeyman electrical license, who is supervised or directed by an unrestricted master electrician. An unrestricted master electrician need not be on the work locations at all times while electrical work is being done, but the unrestricted master electrician must approve work performed by the unrestricted journeyman. Licensed electrician requirements by city ordinances do not apply to on State system work.

The unrestricted journeyman and unrestricted master electrician licenses must be issued by the Texas Department of Licensing and Regulation or by a city in Texas with a population of 50,000 or greater that issues licenses based on passing a written test and demonstrating experience.

The Engineer may accept other states' electrical licenses. Submit documentation of the requirements for obtaining that license. Acceptance of the license will be based on sufficient evidence that the license was issued based on:

- passing a test based on the NEC like that used by Texas licensing officials, and
- sufficient electrical experience commensurate with general standards for an unrestricted master and unrestricted journeyman electrician in the State of Texas.

18.2. **Work Requirements**. The qualifications required to perform electrical work and specialized electrical work are shown in Table 1.

Table 1
Work Requirements

Type of Work	Qualifications to Perform Work
Electrical work with plans	Licensed electrician, certified person, or workers directly supervised by a licensed electrician or certified person
Electrical work without plans	Licensed electrician or workers directly supervised by a licensed electrician
Specialized electrical work	Licensed electrician or workers directly supervised by a licensed electrician
Replace lamps, starting aids, and changing fixtures	Licensed electrician, certified person, or workers directly supervised by a licensed electrician or certified person
Conduit in precast section with approved working drawings	Inspection by licensed electrician or certified person
Conduit in cast-in-place section	Inspection by licensed electrician or certified person
All other electrical work (e.g., troubleshooting, repairs, and component replacement)	Licensed electrician or workers directly supervised by a licensed electrician

"Directly supervised by a licensed electrician" means that a licensed electrician is physically present during all electrical work. "Directly supervised by a licensed electrician or certified person" means that a licensed electrician or certified person is physically present during all electrical work.

A non-certified person may install conduit in cast-in-place concrete sections if the work is verified by a certified person before concrete placement.

When IMSA certification is specified on the plans, the requirements shown in Table 1 will still apply to the installation of the conduit, ground boxes, electrical services, pole grounding, and electrical conductors installed in accordance with Item 620.

19. PAYROLLS

Pay employees and contract labor no less than the predetermined wage rates shown in the Contract. Require that subcontractors pay no less than the predetermined wage rates shown in the Contract.

Payroll records must contain the information required by law. As an option, Form WH-347, "Payroll," is provided by the U.S. Department of Labor.

Maintain payroll and related records during the course of the Contract and preserve these records for 3 yr. following the completion of the Contract or as required by law.

19.1. **Minimum Wage Requirements for Federally Funded Contracts**. Comply with the requirements of FHWA-1273, "Required Contract Provisions Federal-Aid Construction Contracts."

For construction contracts, submit payroll records to the Engineer using the manner prescribed by the Owner.

19.2. **Minimum Wage Requirements for State-Funded Contracts**. Comply with the requirements of 29 USC § 206 unless otherwise shown in the Contract.

For construction contracts, submit payroll records to the Engineer in the manner prescribed.

20. SECURITY INCIDENTS – NOT APPLICABLE TO LOCALLY LET PROJECTS

Item 8L
Prosecution and Progress

1. PROSECUTION OF WORK

Begin work within 30 calendar days after the authorization date to begin work. Prosecute the work continuously to completion within the working days specified. Unless otherwise shown on the plans, work may be prosecuted in concurrent phases if no changes are required to the traffic control plan or if a revised traffic control plan is approved. Notify the Engineer at least 24 hr. before beginning work or before beginning any new operation. Do not start new operations to the detriment of work already begun. Minimize interference to traffic.

2. SUBCONTRACTING

Do not sublet any portion of a construction Contract without the Engineer's written approval. A subcontract does not relieve any responsibility under the Contract and bonds. Ensure that all subcontracted work complies with all governing labor provisions.

The Contractor certifies by signing the Contract that the Contractor will not enter into any subcontract with a subcontractor that is debarred or suspended by the Commission, Owner, or any federal agency.

For federally funded contracts, ensure the required federal documents are physically attached to each subcontract agreement, including all tiered subcontract agreements.

For all DBE subcontracts, including all tiered DBE subcontracts, submit a copy of the executed subcontract agreement.

Upon request, submit a copy of the executed non-DBE subcontracts, including all tiered non-DBE subcontracts.

2.1. **Construction Contracts and Federally Funded Maintenance Contracts**. Perform work with own organization on at least 30% of the total original Contract cost (25% if the Contractor is an SBE on a wholly State- or local-funded Contract), excluding any specialty items as determined by the Engineer. Specialty items are those that require highly specialized knowledge, abilities, or equipment not usually available in the contracting firm expected to bid on the proposed Contract as a whole.

Specialty items will be shown on the plans or as determined by the Engineer. Bid cost of specialty items performed by subcontractors will be deducted from the total original Contract cost before computing the required amount of work to be performed by the Contractor's own organization.

The term "perform work with own organization" includes only:

- workers employed and paid directly by the Contractor or wholly owned subsidiary;
- equipment owned by the Contractor or wholly owned subsidiary;
- rented or leased equipment operated by the Contractor's employees or wholly owned subsidiary's employees;
- materials incorporated into the work if the majority of the value of the work involved in incorporating the material is performed by the Contractor's own organization, including a wholly owned subsidiary's organization; and

- labor provided by staff leasing firms licensed under Chapter 91 of the Texas Labor Code for nonsupervisory personnel if the Contractor or wholly owned subsidiary maintains direct control over the activities of the leased employees and includes them in the weekly payrolls.

Mobilization is not included in calculation of 30%.

When staff leasing firms provide materials or equipment, they are considered subcontractors. In these instances, submit staff leasing firms for approval as a subcontractor.

Copies of canceled checks and certified statements may be required to verify compliance with the requirements of this Section.

2.2. **State-Funded Maintenance Contracts**. Not applicable to locally let projects.

2.3. **Payments to Subcontractors**. Report payments for DBE subcontracts, including tiered DBE subcontracts, in the manner as prescribed by the Owner by the 20th day of each month.

2.3.1. **Payment Records**. Make payment and related records, including but not limited to copies of canceled checks, available for inspection by the Owner. Retain payment records for a period of 3 yr. following the completion of the Contract.

2.4. **Payrolls**. Comply with Article 7L.19., "Payrolls."

3. COMPUTATION OF CONTRACT TIME FOR COMPLETION

The number of working days is established by the Contract. For Contracts with work orders, the number of working days is established in each work order. Working day charges will begin when work begins as prescribed in Article 8L.1., "Prosecution of Work." Working day charges will continue in accordance with the Contract.

The development of the conceptual time determination is intended to establish the number of working days on the Contract. Upon request, the Engineer will provide the conceptual time determination schedule to the Contractor for informational purposes only. The schedule assumes generic resources, production rates, sequences of construction and average weather conditions based on historic data. Schedule labor, equipment, procurement of materials, subcontractor work, and all other necessary means to prosecute the work within the number of working days specified by the Contract.

3.1. **Working Day Charges**. Working days will be charged in accordance with Section 8L.3.1.4., "Standard Workweek," unless otherwise shown on the plans. Working days will be computed and charged in accordance with one of the following:

3.1.1. **Five-Day Workweek**. Working days will be charged Monday–Friday, excluding national holidays, regardless of weather conditions or material availability. The Contractor has the option of working on Saturdays. Provide sufficient advance notice to the Engineer when scheduling work on Saturdays. Work on Sundays and national holidays will not be permitted without written permission of the Engineer. If work requiring an Inspector to be present or if critical path activities are performed on a Saturday, Sunday, or national holiday, and weather and other conditions permit the performance of work for 7 hr. between 7 A.M. and 6 P.M., a working day will be charged.

3.1.2. **Six-Day Workweek**. Working days will be charged Monday–Saturday, excluding national holidays, regardless of weather conditions or material availability. Work on Sundays and national holidays will not be permitted without written permission of the Engineer. If work requiring an Inspector to be present or if critical path activities are performed on a Sunday or a national holiday, and weather or other conditions permit the performance of work for 7 hr. between 7 A.M. and 6 P.M., a working day will be charged.

3.1.3. **Seven-Day Workweek**. Working days will be charged Monday–Sunday, excluding national holidays, regardless of weather conditions or material availability. Work on national holidays will not be permitted without written permission of the Engineer. If work or critical path activities requiring an Inspector to be present are performed on any of these holidays, and weather or other conditions permit the performance of work for 7 hr. between 7 A.M. and 6 P.M., a working day will be charged.

3.1.4. **Standard Workweek**. Working days will be charged Monday–Friday, excluding national or State holidays, if weather or other conditions permit the performance of the principal unit of work underway, as determined by the Engineer, for a continuous period of at least 7 hr. between 7:00 A.M. and 6:00 P.M., unless otherwise shown in the Contract. The Contractor has the option of working on Saturdays or State holidays. Provide sufficient advance notice to the Engineer when scheduling work on Saturdays. Work on Sundays and national holidays will not be permitted without written permission of the Engineer. If work requiring an Inspector to be present or critical path activities are performed on a Saturday, Sunday, or holiday, and weather or other conditions permit the performance of work for 7 hr. between 7 A.M. and 6 P.M., a working day will be charged.

3.1.5. **Calendar Day**. Working days will be charged Sunday–Saturday, including all holidays, regardless of weather conditions, material availability, or other conditions not under the control of the Contractor.

3.1.6. **Other**. Working days will be charged as shown on the plans.

3.2. **Restricted Work Hours**. Restrictions on Contractor work hours and the related definition for working day charges are as prescribed in this Article unless otherwise shown on the plans.

3.3. **Nighttime Work**. Nighttime work is allowed only when shown on the plans or directed or allowed by the Engineer. Nighttime work is defined as work performed from 30 min. after sunset to 30 min. before sunrise.

3.3.1. **Five-, Six-, and Seven-Day Workweeks**. Nighttime work that extends past midnight will be assigned to the following day for the purposes of approval for allowing work on Sundays or national holidays.

3.3.2. **Standard Workweek**.

3.3.2.1. **Nighttime Work Only**. When nighttime work is allowed or required and daytime work is not allowed, working day charges will be made when weather and other conditions permit the performance of the principal unit of work underway, as determined by the Engineer, for a continuous period of at least 7 hr. for the nighttime period, as defined in Section 8L.3.3., "Nighttime Work," unless otherwise shown in the Contract.

3.3.2.2. **Nighttime Work and Daytime Work Requiring Inspector**. When nighttime work is performed or required and daytime work is allowed, working day charges will be made when weather and other conditions permit the performance of the principal unit of work underway, as determined by the Engineer, for a continuous period of at least 7 hr. for the nighttime period, as defined in Section 8L.3.3., "Nighttime Work," or for a continuous period of at least 7 hr. for the alternative daytime period unless otherwise shown in the Contract. Only one day will be charged for each 24hr. period. When the Engineer agrees to restrict work hours to the nighttime period only, working day charges will be in accordance with Section 8L.3.3.2.1., "Nighttime Work Only."

3.4. **Time Statements**. The Engineer will furnish the Contractor a monthly time statement. Review the monthly time statement for correctness. Report protests in writing, no later than 30 calendar days after receipt of the time statement, providing a detailed explanation for each day protested. Not filing a protest within 30 calendar days will indicate acceptance of the working day charges, and future consideration of that statement will not be permitted.

4. TEMPORARY SUSPENSION OF WORK OR WORKING DAY CHARGES

The Engineer may suspend the work, wholly or in part, and will provide notice and reasons for the suspension in writing. Suspend and resume work only as directed in writing.

When part of the work is suspended, the Engineer may suspend working day charges only when conditions not under the control of the Contractor prohibit the performance of critical path activities. When all of the work is suspended for reasons not under the control of the Contractor, the Engineer will suspend working day charges.

5. PROJECT SCHEDULES

Prepare, maintain, and submit project schedules for the work to be performed under this Contract. Project schedules are used to convey the Contractor's intended work plan to the Owner.

The work performed under this Article will not be measured or paid for directly, but will be subsidiary to pertinent Items.

5.1. **Project Scheduler**. Designate an individual who will develop and maintain the progress schedule. The project scheduler will be prepared to discuss, in detail, the proposed sequence of work and methods of operation, and how that information will be communicated through the progress schedule at the preconstruction meeting. This individual will also attend the project meetings and make site visits to prepare, develop, and maintain the progress schedules.

5.2. **Progress Schedule**. Before starting work, prepare and submit a progress schedule based on the sequence of work and traffic control plan shown in the Contract. Prepare the progress schedule as a bar chart or critical path method (CPM) as shown on the plans. Include all planned work activities and sequences and show Contract completion within the number of working days specified. Incorporate major material procurements, known utility relocations, and other activities that may affect the completion of the Contract in the progress schedule. Show a beginning date, ending date, and duration in whole working days for each activity. Do not use activities exceeding 20 working days, unless agreed upon with the Engineer. Show an estimated production rate per working day for each work activity, unless otherwise agreed upon with the Engineer.

5.3. **Schedule Format**. Format all project schedules in accordance with the following.

- Begin the project schedule on the date of the start of Contract time or start of activities affecting work on the project.
- Show the sequence and interdependence of activities required for complete performance of the work. If using a CPM schedule, show a predecessor and a successor for each activity.
- Ensure all work sequences are logical and show a coordinated plan of the work.

CPM schedules must also:

- clearly and accurately identify the critical path as the longest continuous path;
- provide a legend for all abbreviations, run date, data date, project start date, and project completion date in the title block of each schedule submittal; and
- using calendars, incorporate seasonal weather conditions into the schedule for work (e.g., earthwork, concrete paving, structures, asphalt, and drainage) that may be influenced by temperature or precipitation. Also, incorporate non-work periods such as holidays, weekends, or other non-work days as identified in the Contract.

5.4. **Activity Format**. For each activity on the project schedule, provide:

- a concise description of the work represented by the activity,
- an activity duration in whole working days, and
- code activities so that organized plots of the schedule may be produced.

CPM schedules must also include the quantity of work and estimated production rate for major items of work. Provide enough information for review of the work being performed.

Total float is defined as the amount of time (in whole days) that an activity can be delayed before impacting the project's completion date. Total float is a shared commodity between the Owner and the Contractor.

5.5. **Schedule Types and Schedule Impacts**.

5.5.1. **Bar Chart**. Seven calendar days before the preconstruction meeting, prepare and submit a hard or electronic copy of the schedule using the bar chart method.

5.5.1.1. **Progress Schedule Reviews**. Update the project schedule and submit a hard or electronic copy when changes to the schedule occur or when requested.

5.5.2. **Critical Path Method**. Prepare and submit the schedule using the CPM. Submit an electronic copy to the Engineer within the timeframes specified. An electronic copy is defined as the scheduling software's native file, saved in a format acceptable to the Engineer. In all cases, an electronic format (.xer) of Primavera Project Planner and Enterprise Project Portfolio Management (P6) will be acceptable.

5.5.2.1. **Preliminary Schedule**. Unless otherwise agreed for a later submission, 7 calendar days before the preconstruction meeting, submit an electronic copy of the project schedule showing activities beginning with the authorization date to begin work and including activities to be performed within the first 90 calendar days from the work start date.

5.5.2.2. **Baseline Schedule**. The baseline schedule will be considered the Contractor's plan to successfully construct the project within the timeframe and construction sequencing indicated in the Contract. Submit electronic copies of the baseline schedule. When requested, submit two plots of the schedule: one organized with the activities logically grouped using the activity coding, and the other plot showing only the critical path determined by the longest path, not based on critical float.

Develop and submit the baseline schedule for review within the first 45 calendar days from the work start date unless the time for submission is extended by the Engineer.

5.5.2.2.1. **Review**. Within 15 calendar days of receipt of the schedule, the Engineer will evaluate and inform the Contractor if the schedule has been accepted. If the schedule is not accepted, the Engineer will provide comments to the Contractor for incorporation. Provide a revised schedule based on the Engineer's comments, or reasons for not doing so, within 10 calendar days. The Engineer's review and acceptance of the project schedule is for conformance to the requirements of the Contract documents only and does not relieve the Contractor of any responsibility for meeting the interim milestone dates (if specified) or the Contract completion date. Review and acceptance does not expressly or by implication warrant, acknowledge, or admit the reasonableness of the logic or durations of the project schedule. If the Contractor fails to define any element of work, activity, or logic and the Engineer's review does not detect this omission or error, the Contractor is responsible for correcting the error or omission.

Submit an acceptable baseline schedule before the 90th calendar day from the work start date unless the time for submission is extended by the Engineer.

5.5.2.3. **Progress Schedule**. Maintain and submit the progress schedule monthly for use by the Contractor and the Engineer. Submit an electronic copy as it will become an as-built record of the daily progress achieved on the project. If continuous progress of an activity is interrupted for any reason except non-work periods (e.g., holidays, weekend, or interference from temperature or precipitation), then the activity will show the actual finish date as that date of the start of the interruption and the activity will be broken into a subsequent activity (or activities, based on the number of interruptions) similarly numbered with successive alpha character as necessary. The original duration of the subsequent activity will be that of the remaining duration of the original activity. Relationships of the subsequent activity will match those of the original activity so that the integrity of the project schedule logic is maintained. Once established, the original durations and actual dates of all activities must remain unchanged. Revisions to the schedule may be made as necessary.

The project schedule must be revised when changes in construction phasing and sequencing occur or other changes that cause deviation from the original project schedule occur. Any revisions to the schedule must be

listed in the monthly update narrative with the purpose of the revision and description of the impact on the project schedule's critical path and project completion date. Create the schedule revision using the latest update before the start of the revision.

Monthly updating of the project schedule will include updating of:

- the actual start dates for activities started,
- the actual finish dates for activities completed,
- the percentage of work completed and remaining duration for each activity started but not yet completed, and
- the calendars to show days actual work was performed on the various work activities.

The cutoff day for recording monthly progress will be the last day of each month. Submit the updated project schedule no later than the 20th calendar day of the following month. The Engineer will evaluate the updated schedule within 5 calendar days of receipt and inform the Contractor if it has or has not been accepted. If the schedule is not accepted, the Engineer will provide comments to the Contractor for incorporation. Provide a revised schedule based on the Engineer's comments, or reasons for not doing so, within 5 calendar days.

Provide a brief narrative in a bulleted statement format for major items that have impacted the schedule. Notify the Engineer if resource-leveling is being used.

5.5.2.3.1. **Project Schedule Summary Report (PSSR)**. When shown on the plans, provide the PSSR instead of the narrative required in Section 8L.5.5.2.3., "Progress Schedule." The PSSR includes a listing of major items that have impacted the schedule and a summary of progress in days ahead or behind schedule. Include an explanation of the project progress for the period represented on the form provided by the Owner.

5.5.3. **Notice of Potential Time Impact**. Submit a notice of potential time impact when a Contract time extension or adjustment of milestone dates may be justified or when directed.

Failure to provide this notice in the timeframes specified above will compromise the Owner's ability to mitigate the impacts, and the Contractor forfeits the right to request a time extension or adjustment of milestone dates unless the circumstances are such that the Contractor could not reasonably have had knowledge of the impact at the time.

5.5.4. **Time Impact Analysis**. When directed, provide a time impact analysis. A time impact analysis is an evaluation of the effects of impacts on the project. A time impact analysis consists of the following steps.

- **Step 1**. Establish the status of the project immediately before the impact.
- **Step 2**. Predict the effect of the impact on the schedule update used in Step 1.
- **Step 3**. Track the effects of the impact on the schedule during its occurrence.
- **Step 4**. Establish the status of the project after the impact's effect has ended and provide details identifying any mitigating actions or circumstances used to keep the project ongoing during the impact period.

Determine the time impact by comparing the status of the work before the impact (Step 1) to the prediction of the effect of the impact (Step 2), if requested, and to actual effects of the impact once it is complete (Step 4). Unless otherwise approved by the Engineer, Steps 1, 3, and 4 must be completed before consideration of a Contract time extension or adjustment of a milestone date will be provided. Time extensions will be considered only when delays that affect milestone dates or the Contract completion date are beyond the Contractor's control. Submit Step 4 no later than 15 calendar days after the impact's effects have ended or when all the information on the effect has been realized.

Submit one electronic backup copy of the complete time impact analysis and a copy of the full project schedule incorporating the time impact analysis. If the project schedule is revised after the submittal of a time impact analysis, but before its approval, indicate in writing the need for any modification to the time impact analysis.

The Engineer will review the time impact analysis upon completion of Step 4. If this review detects revisions or changes to the schedule that had not been performed and identified in a narrative, the Engineer may reject the time impact analysis. If the Engineer is in agreement with the time impact analysis, a change order may be issued to grant additional working days, or to adjust interim milestones. Once a change order has been executed, incorporate the time impact analysis into the project schedule. The time impact analysis may also be used to support the settlement of disputes and claims. Compensation related to the time impact analysis may be provided at the completion of the analysis or the completion of the project to determine the true role the impact played on the final completion.

6. FAILURE TO COMPLETE WORK ON TIME

The time established for the completion of the work is an essential element of the Contract. If the Contractor fails to complete the work within the number of working days specified, working days will continue to be charged. Failure to complete the Contract, callout work, or a work order within the number of working days specified, including any approved additional working days, will result in liquidated damages for each working day charged over the number of working days specified. The dollar amount specified in the Contract will be deducted from any money due or to become due the Contractor for each working day the Contract, callout work, or work order remains incomplete. This amount will be assessed not as a penalty but as liquidated damages. The amount assessed for non-site-specific Contracts will be based on the estimated amount for each work order unless otherwise shown in the Contract. The amount assessed for each callout will be as specified in the Contract.

7. DEFAULT OF CONTRACT

7.1. **Declaration of Default**. The Engineer may declare the Contractor to be in default of the Contract if the Contractor:

- fails to begin the work within the number of days specified;
- fails to prosecute the work to assure completion within the number of days specified;
- is uncooperative, disruptive, or threatening;
- fails to perform the work in accordance with the Contract requirements;
- neglects or refuses to remove and replace rejected materials or unacceptable work;
- discontinues the prosecution of the work without the Engineer's approval;
- makes an unauthorized assignment;
- fails to resume work that has been discontinued within a reasonable number of days after notice to do so;
- fails to conduct the work in an acceptable manner; or
- commits fraud or other unfixable conduct as determined by the Owner.

If any of these conditions occur, the Engineer will give notice in writing to the Contractor and the Surety of the intent to declare the Contractor in default. If the Contractor does not proceed as directed within 10 days after the notice, the Owner will provide written notice to the Contractor and the Surety to declare the Contractor to be in default of the Contract. If the Contractor provides the Owner written notice of voluntary default of the Contract, the Owner may waive the 10-day notice of intent to declare the Contractor in default and immediately provide written notice of default to the Contractor and the Surety. Calendar day charges will continue until completion of the Contract. The Owner may suspend work in accordance with Article 8L.4., "Temporary Suspension of Work or Working Day Charges," to investigate apparent fraud or other unfixable conduct before defaulting the Contractor. The Contractor may be subject to sanctions under the state and/or federal laws and regulations. A default may result in the application of remedial action by the Owner.

The Owner will determine the method used for the completion of the remaining work as follows.

- For Contracts without performance bonds, the Owner will determine the most expeditious and efficient way to complete the work and recover damages from the Contractor.
- For Contracts with performance bonds, the Owner will require the Contractor's Surety to complete the remaining work in accordance with the terms of the original Contract. A completing Contractor will be

considered a subcontractor of the Surety. The Owner reserves the right to approve or reject proposed subcontractors. Work may resume after the Owner receives and approves Certificates of Insurance as required in Section 3.4.3., "Insurance." Certificates of Insurance may be issued in the name of the completing Contractor. The Surety is responsible for making every effort to expedite the resumption of work and completion of the Contract. The Owner may complete the work using any or all materials at the work locations that it deems suitable and acceptable. Any costs incurred by the Owner for the completion of the work under the Contract will be the responsibility of the Surety.

From the time of notification of the default until work resumes (either by the Surety or the Owner), the Owner will maintain traffic control devices and will do any other work it deems necessary, unless otherwise agreed upon by the Owner and the Surety. All costs associated with this work will be deducted from money due to the Surety.

The Owner will hold all money earned but not disbursed by the date of default. Upon resumption of the work after the default, all payments will be made to the Surety. All costs and charges incurred by the Owner resulting from the default, including the cost of completing the work under the Contract, costs of maintaining traffic control devices, costs for other work deemed necessary, and any applicable liquidated damages or disincentives will be deducted from money due the Contractor for completed work. If these costs exceed the sum that would have been payable under the Contract, the Surety will be liable and pay the Owner the balance of these costs in excess of the Contract price. In case the costs incurred by the Owner are less than the amount that would have been payable under the Contract if the work had been completed by the Contractor, the Owner will be entitled to retain the difference.

Comply with Article 8L.2., "Subcontracting," and abide by the DBE commitments previously approved by the Owner. Section 8L.2.1., "Construction Contracts and Federally Funded Maintenance Contracts," is waived.

No markups as defined in Article 9L.7., "Payment for Extra Work and Force Account Method," will be allowed for the Surety.

7.2. **Wrongful Default**. If it is determined after the Contractor is declared in default, that the Contractor was not in default, the rights and obligations of all parties will be the same as if termination had been issued for the convenience of the public as provided in Article 8L.8., "Termination of Contract."

8. TERMINATION OF CONTRACT

The Owner may terminate the Contract in whole or in part whenever:

- the Contractor is prevented from proceeding with the work as a direct result of an executive order of the President of the United States or the Governor of the State;
- the Contractor is prevented from proceeding with the work due to a national emergency, or when the work to be performed under the Contract is stopped, directly or indirectly, because of the freezing or diversion of materials, equipment, or labor as the result of an order or a proclamation of the President of the United States;
- the Contractor is prevented from proceeding with the work due to an order of any federal authority;
- the Contractor is prevented from proceeding with the work by reason of a preliminary, special, or permanent restraining court order where the issuance of the restraining order is primarily caused by acts or omissions of persons or agencies other than the Contractor; or
- the Owner determines that termination of the Contract is in the best interest of the State or the public. This includes, but is not limited to, the discovery of significant hazardous material problems, right of way acquisition problems, or utility conflicts that would cause substantial delays or expense to the Contract.

8.1. **Procedures and Submittals**. The Owner will provide written notice to the Contractor of termination specifying the extent of the termination and the effective date. Upon notice, immediately proceed in accordance with the following:

- stop work as specified in the notice,
- place no further subcontracts or orders for materials, services, or facilities, except as necessary to complete a critical portion of the Contract, as approved by the Engineer,
- terminate all subcontracts to the extent they relate to the work terminated,
- complete performance of the work not terminated,
- settle all outstanding liabilities and termination settlement proposals resulting from the termination of the Contract,
- create an inventory report, including all acceptable materials and products obtained for the Contract that have not been incorporated in the work that was terminated (include in the inventory report a description, quantity, location, source, cost, and payment status for each of the acceptable materials and products), and
- take any action necessary, or that the Engineer may direct, for the protection and preservation of the materials and products related to the Contract that are in the possession of the Contractor and in which the Owner has or may acquire an interest.

8.2. **Settlement Provisions**. Within 60 calendar days of the date of the notice of termination, submit a final termination settlement proposal, unless otherwise approved. The Engineer will prepare a change order that reduces the affected quantities of work and adds acceptable costs for termination. No claim for loss of anticipated profits will be considered. The Owner will pay reasonable and verifiable termination costs, including:

- all work completed at the unit bid price and partial payment for incomplete work,
- the percentage of Item 500, "Mobilization," equivalent to the percentage of work complete or actual cost that can be supported by cost records, whichever is greater,
- expenses necessary for the preparation of termination settlement proposals and support data;
- the termination and settlement of subcontracts,
- storage, transportation, restocking, and other costs incurred necessary for the preservation, protection, or disposition of the termination inventory, and
- other expenses acceptable to the Owner.

Item 9L
Measurement and Payment

1. MEASUREMENT OF QUANTITIES

The Engineer will measure all completed work using United States standard measures, unless otherwise specified.

1.1. **Linear Measurement**. Unless otherwise specified, all longitudinal measurements for surface areas will be made along the actual surface of the roadway and not horizontally. No deduction will be made for structures in the roadway with an area of 9 sq. ft. or less. For all transverse measurements for areas of base courses, surface courses, and pavements, the dimensions to be used in calculating the pay areas will be the neat dimensions and will not exceed those shown on the plans, unless otherwise directed.

1.2. **Volume Measurement**. Transport materials measured for payment by volume in approved hauling vehicles. Display a unique identification mark on each vehicle. Furnish information necessary to calculate the volume capacity of each vehicle. The Engineer may require verification of volume through weight measurement. Use body shapes that allow the capacity to be verified. Load and level the load to the equipment's approved capacity. Loads not hauled in approved vehicles may be rejected.

1.3. **Weight Measurement**. Transport materials measured for payment by weight or truck measure in approved hauling vehicles. Furnish certified measurements, tare weights, and legal gross weight calculations for all haul units. Affix a permanent, legible number on the truck and on the trailer to correspond with the certified information. Furnish certified weights of loaded haul units transporting material if requested.

The material will be measured at the point of delivery. The cost of supplying these volume and weight capacities is subsidiary to the pertinent Item. For measurement by the ton, in the field, provide measurements in accordance with Item 520, "Weighing and Measuring Equipment," except for Items where ton measurements are measured by standard tables.

The Engineer may reject loads and suspend hauling operations for overloading.

1.3.1. **Hauling on Routes Accessible to the Traveling Public**. For payment purposes on haul routes accessible to the traveling public:

- If the gross vehicle weight is less than the maximum allowed by state law, including applicable yearly weight tolerance permit, the net weight of the load will be determined by deducting the tare weight of the vehicle from the gross weight.
- If the gross vehicle weight is more than the maximum allowed by state law, including applicable yearly weight tolerance permit, the net weight of the load will be determined by deducting the tare weight of the vehicle from the maximum gross weight allowed.

1.3.2. **Hauling on Routes Not Accessible to the Traveling Public**. For payment purposes on haul routes that are not accessible to the traveling public where advance permission is obtained in writing from the Engineer:

- If the gross vehicle weight is less than the maximum allowed by the Engineer, including applicable yearly weight tolerance permit, the net weight of the load will be determined by deducting the tare weight of the vehicle from the gross weight.
- If the gross vehicle weight is more than the maximum allowed by the Engineer, the net weight of the load will be determined by deducting the tare weight of the vehicle from the maximum gross weight allowed.

2. PLANS QUANTITY MEASUREMENT

Plans quantities may or may not represent the exact quantity of work performed or material moved, handled, or placed during the execution of the Contract. The estimated bid quantities are designated as final payment quantities, unless revised by the governing specifications or this Article.

If the quantity measured as outlined under "Measurement" varies by more than 5% (or as stipulated under "Measurement" for specific Items) from the total estimated quantity for an individual Item originally shown in the Contract, an adjustment may be made to the quantity of authorized work done for payment purposes.

When quantities are revised by a change in design approved by the Owner, by change order, or to correct an error on the plans, the plans quantity will be increased or decreased by the amount involved in the change, and the 5% variance will apply to the new plans quantity.

If the total Contract quantity multiplied by the unit bid price for an individual Item is less than $250 and the Item is not originally a plans quantity Item, then the Item may be paid as a plans quantity Item if the Engineer and Contractor agree in writing to fix the final quantity as a plans quantity.

For Contracts with callout work and work orders, plans quantity measurement requirements are not applicable.

3. ADJUSTMENT OF QUANTITIES

The party to the Contract requesting the adjustment will provide field measurements and calculations showing the revised quantity. When approved, this revised quantity will constitute the final quantity for which payment will be made. Payment for revised quantity will be made at the unit price bid for that Item, except as provided for in Article 4L.4., "Changes in the Work."

4. SCOPE OF PAYMENT

Payment of the Contract unit price is full compensation for all materials, equipment, labor, tools, and supplies necessary to complete the Item of work under the Contract. Until final acceptance in accordance with Article 5L.12., "Final Acceptance," assume liability for completing the work according to the plans and specifications and any loss or damage arising from the performance of the work or from the action of the elements, infringement of patent, trademark, or copyright, except as provided elsewhere in the Contract.

The Owner will only pay for material incorporated into the work in accordance with the Contract. Payment of progress estimates will in no way affect the Contractor's obligation under the Contract to repair or replace any defective parts in the construction or to replace any defective materials used in the construction and to be responsible for all damages due to defects if the defects and damages are discovered on or before final inspection and acceptance of the work.

5. PROGRESS PAYMENTS

The Engineer will prepare a monthly estimate of the amount of work performed, including materials in place. Incomplete items of work may be paid at an agreed upon percentage approved by the Engineer. Payment of the monthly estimate is determined at the Contract item prices less any withholdings or deductions in accordance with the Contract. Progress payments may be withheld for failure to comply with the Contract.

It is the Owner's intent to pay a Contractor for work through the last working day of the month; however, the use of early cut-off dates for monthly estimates and MOH is a project management practice to manage workload at the local level. Approval for using early cut-off dates is at the Owner's discretion. The earliest cut-off date for pay applications is the 25th of the month.

6. PAYMENT FOR MATERIAL ON HAND (MOH)

If payment for MOH is desired, request compensation for the invoice cost of acceptable nonperishable materials that have not been used in the work before the request, and that have been delivered to the work location or are in acceptable storage places. Nonperishable materials are those that do not have a shelf life or whose characteristics do not materially change when exposed to the elements. Include only materials that have been sampled, tested, approved, or certified, and are ready for incorporation into the work. Only materials that are completely constructed or fabricated on the Contractor's order for a specific Contract and are so marked and on which an approved test report has been issued are eligible. Payment for MOH may include the following types of items: concrete traffic barrier, precast concrete box culverts, concrete piling, reinforced concrete pipe, and illumination poles. Any repairs required after fabricated materials have been approved for storage will require the Engineer's approval before being made and will be made at the Contractor's expense. Include only those materials and products, when cumulated under an individual item or similar bid items, that have an invoice cost of at least $1,000 in the request for MOH payment. (E.g., for MOH eligibility, various sizes of conductor are considered similar bid items and may be cumulated to meet the threshold; for small roadside signs, the sign supports, mounting bolts, and the sign face are considered one bid item or similar bid items for more than one pay item for sign supports.) Requests for MOH are to be submitted at least 2 days before but not later than the estimate cut-off date unless otherwise agreed. If there is a need to request MOH after the established cut-off date, the Owner can make accommodation as the need arises. This needed accommodation is to be the exception, though, and not the rule.

For Contracts with callout work and work orders, payment for MOH will only be made for materials authorized for purchase by the work order or by written approval of the Engineer.

If the request is acceptable, the Engineer will include payment for MOH in a progress payment. Payment for MOH does not constitute acceptance of the materials. Payment will not exceed the actual cost of the material as established by invoice, or the total cost for the associated item less reasonable placement costs, whichever is less. Materials for which the Contractor does not have a paid invoice within 60 days will not be eligible for payment and will be removed from the estimate. Payment may be limited to a portion of the invoice cost or unit price if shown elsewhere in the Contract. Payment for precast products fabricated or constructed by the Contractor for which invoices or freight bills are not available may be made based on statements of actual cost.

Submit the request on forms provided by the Owner. These forms may be electronically reproduced, provided they are in the same format and contain all the required information and certifications. Continue to submit monthly MOH forms until the total value of MOH is $0.

By submitting a request for MOH payment, the Contractor expressly authorizes the Owner to audit MOH records and to perform process reviews of the record-keeping system. If the Owner determines noncompliance with any of the requirements of this provision, the Owner may exclude payment for any or all MOH for the duration of the Contract.

Maintain all records relating to MOH payment until final acceptance. Provide these records to the Engineer upon request.

7. PAYMENT FOR EXTRA WORK AND FORCE ACCOUNT METHOD

Payment for extra work directed, performed, and accepted will be made in accordance with Article 4L.4., "Changes in the Work." Payment for extra work may be established by agreed unit prices or by Force Account Method.

Agreed unit prices are unit prices that include markups and are comparable to recent bid prices for the same character of work. These unit prices may be established without additional breakdown justification.

When using Force Account Method, determine an estimated cost for the proposed work and establish labor and equipment rates and material costs. Maintain daily records of extra work and provide copies of these

records daily, signed by the Contractor's representative, for the Owner's verification. Request payment for the extra work no later than the 10th day of the month following the month in which the work was performed. Include copies of all applicable invoices. If the extra work to be performed has an estimated cost of less than $10,000, submit for approval and payment an invoice of actual cost for materials, equipment, labor, tools, and incidentals necessary to complete the extra work. When added work requires mobilization that is exclusive to the added work, mobilization may be added to the force account invoice for payment.

7.1. **Markups**. Payment for extra work may include markups as compensation for the use of small tools, overhead expense, and profit.

7.1.1. **Labor**. Compensation will be made for payroll rates for each hour that the labor and foremen or others approved by the Engineer are actually engaged in the work. In no case will the rate of wages be less than the minimum shown in the Contract for a particular category. An additional 25% of this sum will be paid as compensation for overhead, superintendence, profit, and small tools.

7.1.2. **Insurance and Taxes**. An additional 55% of the labor cost, excluding the 25% compensation provided in Section 9L.7.1.1., "Labor," will be paid as compensation for labor insurance and labor taxes including the cost of premiums on non-project-specific liability (excluding vehicular) insurance, workers compensation insurance, Social Security, unemployment insurance taxes, and fringe benefits.

7.1.3. **Materials**. Compensation will be made for materials associated with the work based on actual delivered invoice costs, less any discount. An additional 25% of this sum will be paid as compensation for overhead and profit.

7.1.4. **Equipment**. Payment will be made for the established equipment hourly rates for each hour that the equipment is involved in the work. An additional 15% of this sum will be paid as compensation for overhead and profit not included in the rates.

Transportation cost for mobilizing equipment will be included if the equipment is mobilized from an offsite location.

7.1.4.1. **Contractor-Owned Equipment**. For Contractor-owned machinery, trucks, power tools, or other equipment, use the FHWA rental rates found in Equipment Watch multiplied by the regional adjustment factor and the rate adjustment factor to establish hourly rates. Use the rates in effect for each section of Equipment Watch at the time of use.

If a rate has not been established for a particular piece of equipment in Equipment Watch, the Engineer will allow a reasonable hourly rate. This price will include operating costs.

Payment for equipment will be made for the actual hours used in the work. The Owner reserves the right to withhold payment for low production or lack of progress. Payment will not be made for time lost for equipment breakdowns, time spent to repair equipment, or time after equipment is no longer needed.

If equipment is used intermittently while dedicated solely to the work, payment will be made for the duration the equipment is assigned to the work but no more than 8 hr. will be paid during a 24-hr. day, nor more than 40 hr. per week, nor more than 176 hr. per month, except when time is computed using a 6-day or 7-day workweek. When using a 6-day workweek, no more than 8 hr. will be paid during a 24-hr. day, nor more than 48 hr. per week, nor more than 211 hr. per month. When using a 7-day workweek, no more than 8 hr. will be paid during a 24-hr. day, nor more than 56 hr. per week, nor more than 246 hr. per month.

7.1.4.2. **Equipment Not Owned by the Contractor**. For equipment rented from a third party not owned by the Contractor, payment will be made at the invoice daily rental rate for each day the equipment is needed for the work. The Owner reserves the right to limit the daily rate to comparable FHWA rental rates found in Equipment Watch multiplied by the regional adjustment factor and the rate adjustment factor. When the invoice specifies that the rental rate does not include fuel, lubricants, repairs, and servicing, the Equipment Watch hourly operating cost for each hour the equipment is operated will be added.

When the invoice specifies equipment operators as a component of the equipment rental, payment will be made at the invoice rate for each operator for each day the equipment is needed for the work.

7.1.4.3. **Standby Equipment Costs**. Payment for standby equipment will be made in accordance with Section 9L.7.1.4., "Equipment." The 15% markup will be paid when standby is associated with extra work but will not be paid when standby is associated with damages.

7.1.4.3.1. **Contractor-Owned Equipment**. For Contractor-owned equipment:

- Standby will be paid at 50% of the monthly Equipment Watch rate after the regional and age adjustment factors have been applied. Operating costs will not be allowed. Calculate the standby rate as follows.

  Standby rate = (FHWA hourly rate - operating costs) × 50%

- If an hourly rate is needed, divide the monthly Equipment Watch rate by 176.
- No more than 8 hr. of standby will be paid during a 24-hr. day period, nor more than 40 hr. per week.
- Standby costs will not be allowed during periods when the equipment would have otherwise been idle.

7.1.4.3.2. **Equipment Not Owned by the Contractor**. For equipment rented from a third party not owned by the Contractor:

- Standby will be paid at the invoice daily rental rate, excluding operating cost, which includes fuel, lubricants, repairs, and servicing. The Owner reserves the right to limit the daily standby rate to comparable FHWA rental rates found in Equipment Watch multiplied by the regional adjustment factor and the rate adjustment factor.
- Standby will be paid for equipment operators when included on the invoice and equipment operators are actually on standby.
- Standby costs will not be allowed during periods when the equipment would have otherwise been idle.

7.1.5. **Subcontracting**. An additional 5% of the actual invoice cost will be paid to the Contractor as compensation for administrative cost and profit.

7.1.6. **Law Enforcement Personnel**. An additional 5% of the actual invoice cost will be paid as compensation for administrative costs and profit.

7.1.7. **Railroad Flaggers**. An additional 5% of the actual invoice cost will be paid as compensation for administrative cost and profit.

7.1.8. **Bond Cost**. An additional 1% of the total compensation provided in Article 9.7., "Payment for Extra Work and Force Account Method," will be paid for the increase in bond.

8. RETAINAGE

The Owner may withhold retainage on the Contractor.The Contractor may withhold retainage from subcontractors in accordance with applicable state and federal laws and regulations..

9. PAYMENT PROVISIONS FOR SUBCONTRACTORS

For the purposes of this Article only, the term subcontractor includes suppliers, and the term work includes materials provided by suppliers at a location approved by the Engineer.

These requirements apply to all tiers of subcontractors. Incorporate the provisions of this Article into all subcontract or material purchase agreements.

Pay subcontractors for work performed withi 10 days after receiving payment from the Owner.

Pay any retainage on a subcontractor's work within 10 days after satisfactory completion of all the subcontractor's work. Completed subcontractor work includes vegetative establishment, test, maintenance, performance, and other similar periods that are the responsibility of the subcontractor.

For the purpose of this Section, satisfactory completion is accomplished when:

- the subcontractor has fulfilled the Contract requirements of both the Owner and the subcontract for the subcontracted work, including the submittal of all information required by the Contract and the Owner, and
- the work done by the subcontractor has been inspected, approved, and paid by the Owner.

Provide a certification of prompt payment to certify that all subcontractors and suppliers were paid from the previous month's payments and retainage was released for those whose work is complete. Submit the certification in the manner prescribed by the Owner each month and the month following the month when final acceptance occurred.

The inspection and approval of a subcontractor's work does not eliminate the Contractor's responsibilities for the work as defined in Article 7L.17., "Contractor's Responsibility for Work."

10. FINAL PAYMENT

When the Contract has been completed, all work has been approved, final acceptance has been made in accordance with Article 5L.12., "Final Acceptance," and Contractor submittals have been received, the Engineer will prepare a final estimate for payment showing the total quantity of work completed and the money owed the Contractor. The final payment will reflect the entire sum due, less any sums previously paid.

REQUIRED CONTRACT PROVISIONS
FEDERAL-AID CONSTRUCTION CONTRACTS

I. General
II. Nondiscrimination
III. Non-segregated Facilities
IV. Davis-Bacon and Related Act Provisions
V. Contract Work Hours and Safety Standards Act Provisions
VI. Subletting or Assigning the Contract
VII. Safety: Accident Prevention
VIII. False Statements Concerning Highway Projects
IX. Implementation of Clean Air Act and Federal Water Pollution Control Act
X. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion
XI. Certification Regarding Use of Contract Funds for Lobbying
XII. Use of United States-Flag Vessels:

ATTACHMENTS

A. Employment and Materials Preference for Appalachian Development Highway System or Appalachian Local Access Road Contracts (included in Appalachian contracts only)

I. GENERAL

1. Form FHWA-1273 must be physically incorporated in each construction contract funded under title 23, United States Code, as required in 23 CFR 633.102(b) (excluding emergency contracts solely intended for debris removal). The contractor (or subcontractor) must insert this form in each subcontract and further require its inclusion in all lower tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services). 23 CFR 633.102(e).

The applicable requirements of Form FHWA-1273 are incorporated by reference for work done under any purchase order, rental agreement or agreement for other services. The prime contractor shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider. 23 CFR 633.102(e).

Form FHWA-1273 must be included in all Federal-aid design-build contracts, in all subcontracts and in lower tier subcontracts (excluding subcontracts for design services, purchase orders, rental agreements and other agreements for supplies or services) in accordance with 23 CFR 633.102. The design-builder shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider.

Contracting agencies may reference Form FHWA-1273 in solicitation-for-bids or request-for-proposals documents, however, the Form FHWA-1273 must be physically incorporated (not referenced) in all contracts, subcontracts and lower-tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services related to a construction contract). 23 CFR 633.102(b).

2. Subject to the applicability criteria noted in the following sections, these contract provisions shall apply to all work performed on the contract by the contractor's own organization and with the assistance of workers under the contractor's immediate superintendence and to all work performed on the contract by piecework, station work, or by subcontract. 23 CFR 633.102(d).

3. A breach of any of the stipulations contained in these Required Contract Provisions may be sufficient grounds for withholding of progress payments, withholding of final payment, termination of the contract, suspension / debarment or any other action determined to be appropriate by the contracting agency and FHWA.

4. Selection of Labor: During the performance of this contract, the contractor shall not use convict labor for any purpose within the limits of a construction project on a Federal-aid highway unless it is labor performed by convicts who are on parole, supervised release, or probation. 23 U.S.C. 114(b). The term Federal-aid highway does not include roadways functionally classified as local roads or rural minor collectors. 23 U.S.C. 101(a).

II. NONDISCRIMINATION (23 CFR 230.107(a); 23 CFR Part 230, Subpart A, Appendix A; EO 11246)

The provisions of this section related to 23 CFR Part 230, Subpart A, Appendix A are applicable to all Federal-aid construction contracts and to all related construction subcontracts of $10,000 or more. The provisions of 23 CFR Part 230 are not applicable to material supply, engineering, or architectural service contracts.

In addition, the contractor and all subcontractors must comply with the following policies: Executive Order 11246, 41 CFR Part 60, 29 CFR Parts 1625-1627, 23 U.S.C. 140, Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d et seq.), and related regulations including 49 CFR Parts 21, 26, and 27; and 23 CFR Parts 200, 230, and 633.

The contractor and all subcontractors must comply with: the requirements of the Equal Opportunity Clause in 41 CFR 60-1.4(b) and, for all construction contracts exceeding $10,000, the Standard Federal Equal Employment Opportunity Construction Contract Specifications in 41 CFR 60-4.3.

Note: The U.S. Department of Labor has exclusive authority to determine compliance with Executive Order 11246 and the policies of the Secretary of Labor including 41 CFR Part 60, and 29 CFR Parts 1625-1627. The contracting agency and the FHWA have the authority and the responsibility to ensure compliance with 23 U.S.C. 140, Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), and Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d et seq.), and related regulations including 49 CFR Parts 21, 26, and 27; and 23 CFR Parts 200, 230, and 633.

The following provision is adopted from 23 CFR Part 230, Subpart A, Appendix A, with appropriate revisions to conform to the U.S. Department of Labor (US DOL) and FHWA requirements.

1. Equal Employment Opportunity: Equal Employment Opportunity (EEO) requirements not to discriminate and to take affirmative action to assure equal opportunity as set forth under laws, executive orders, rules, regulations (*see* 28 CFR Part 35, 29 CFR Part 1630, 29 CFR Parts 1625-1627, 41 CFR Part 60 and 49 CFR Part 27) and orders of the Secretary of Labor as modified by the provisions prescribed herein, and imposed pursuant to 23 U.S.C. 140, shall constitute the EEO and specific affirmative action standards for the contractor's project activities under this contract. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) set forth under 28 CFR Part 35 and 29 CFR Part 1630 are incorporated by reference in this contract. In the execution of this contract, the contractor agrees to comply with the following minimum specific requirement activities of EEO:

a. The contractor will work with the contracting agency and the Federal Government to ensure that it has made every good faith effort to provide equal opportunity with respect to all of its terms and conditions of employment and in their review of activities under the contract. 23 CFR 230.409 (g)(4) & (5).

b. The contractor will accept as its operating policy the following statement:

"It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, sexual orientation, gender identity, color, national origin, age or disability. Such action shall include: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job training."

2. EEO Officer: The contractor will designate and make known to the contracting officers an EEO Officer who will have the responsibility for and must be capable of effectively administering and promoting an active EEO program and who must be assigned adequate authority and responsibility to do so.

3. Dissemination of Policy: All members of the contractor's staff who are authorized to hire, supervise, promote, and discharge employees, or who recommend such action or are substantially involved in such action, will be made fully cognizant of and will implement the contractor's EEO policy and contractual responsibilities to provide EEO in each grade and classification of employment. To ensure that the above agreement will be met, the following actions will be taken as a minimum:

a. Periodic meetings of supervisory and personnel office employees will be conducted before the start of work and then not less often than once every six months, at which time the contractor's EEO policy and its implementation will be reviewed and explained. The meetings will be conducted by the EEO Officer or other knowledgeable company official.

b. All new supervisory or personnel office employees will be given a thorough indoctrination by the EEO Officer, covering all major aspects of the contractor's EEO obligations within thirty days following their reporting for duty with the contractor.

c. All personnel who are engaged in direct recruitment for the project will be instructed by the EEO Officer in the contractor's procedures for locating and hiring minorities and women.

d. Notices and posters setting forth the contractor's EEO policy will be placed in areas readily accessible to employees, applicants for employment and potential employees.

e. The contractor's EEO policy and the procedures to implement such policy will be brought to the attention of employees by means of meetings, employee handbooks, or other appropriate means.

4. Recruitment: When advertising for employees, the contractor will include in all advertisements for employees the notation: "An Equal Opportunity Employer." All such advertisements will be placed in publications having a large circulation among minorities and women in the area from which the project work force would normally be derived.

a. The contractor will, unless precluded by a valid bargaining agreement, conduct systematic and direct recruitment through public and private employee referral sources likely to yield qualified minorities and women. To meet this requirement, the contractor will identify sources of potential minority group employees and establish with such identified sources procedures whereby minority and women applicants may be referred to the contractor for employment consideration.

b. In the event the contractor has a valid bargaining agreement providing for exclusive hiring hall referrals, the contractor is expected to observe the provisions of that agreement to the extent that the system meets the contractor's compliance with EEO contract provisions. Where implementation of such an agreement has the effect of discriminating against minorities or women, or obligates the contractor to do the same, such implementation violates Federal nondiscrimination provisions.

c. The contractor will encourage its present employees to refer minorities and women as applicants for employment. Information and procedures with regard to referring such applicants will be discussed with employees.

5. Personnel Actions: Wages, working conditions, and employee benefits shall be established and administered, and personnel actions of every type, including hiring, upgrading, promotion, transfer, demotion, layoff, and termination, shall be taken without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age or disability. The following procedures shall be followed:

a. The contractor will conduct periodic inspections of project sites to ensure that working conditions and employee facilities do not indicate discriminatory treatment of project site personnel.

b. The contractor will periodically evaluate the spread of wages paid within each classification to determine any evidence of discriminatory wage practices.

c. The contractor will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the contractor will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.

d. The contractor will promptly investigate all complaints of alleged discrimination made to the contractor in connection with its obligations under this contract, will attempt to resolve such complaints, and will take appropriate corrective action

within a reasonable time. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons. Upon completion of each investigation, the contractor will inform every complainant of all of their avenues of appeal.

6. Training and Promotion:

a. The contractor will assist in locating, qualifying, and increasing the skills of minorities and women who are applicants for employment or current employees. Such efforts should be aimed at developing full journey level status employees in the type of trade or job classification involved.

b. Consistent with the contractor's work force requirements and as permissible under Federal and State regulations, the contractor shall make full use of training programs (i.e., apprenticeship and on-the-job training programs for the geographical area of contract performance). In the event a special provision for training is provided under this contract, this subparagraph will be superseded as indicated in the special provision. The contracting agency may reserve training positions for persons who receive welfare assistance in accordance with 23 U.S.C. 140(a).

c. The contractor will advise employees and applicants for employment of available training programs and entrance requirements for each.

d. The contractor will periodically review the training and promotion potential of employees who are minorities and women and will encourage eligible employees to apply for such training and promotion.

7. Unions: If the contractor relies in whole or in part upon unions as a source of employees, the contractor will use good faith efforts to obtain the cooperation of such unions to increase opportunities for minorities and women. 23 CFR 230.409. Actions by the contractor, either directly or through a contractor's association acting as agent, will include the procedures set forth below:

a. The contractor will use good faith efforts to develop, in cooperation with the unions, joint training programs aimed toward qualifying more minorities and women for membership in the unions and increasing the skills of minorities and women so that they may qualify for higher paying employment.

b. The contractor will use good faith efforts to incorporate an EEO clause into each union agreement to the end that such union will be contractually bound to refer applicants without regard to their race, color, religion, sex, sexual orientation, gender identity, national origin, age, or disability.

c. The contractor is to obtain information as to the referral practices and policies of the labor union except that to the extent such information is within the exclusive possession of the labor union and such labor union refuses to furnish such information to the contractor, the contractor shall so certify to the contracting agency and shall set forth what efforts have been made to obtain such information.

d. In the event the union is unable to provide the contractor with a reasonable flow of referrals within the time limit set forth in the collective bargaining agreement, the contractor will, through independent recruitment efforts, fill the employment vacancies without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, or disability; making full efforts to obtain qualified and/or qualifiable minorities and women. The failure of a union to provide sufficient referrals (even though it is obligated to provide exclusive referrals under the terms of a collective bargaining agreement) does not relieve the contractor from the requirements of this paragraph. In the event the union referral practice prevents the contractor from meeting the obligations pursuant to Executive Order 11246, as amended, and these special provisions, such contractor shall immediately notify the contracting agency.

8. Reasonable Accommodation for Applicants / Employees with Disabilities: The contractor must be familiar with the requirements for and comply with the Americans with Disabilities Act and all rules and regulations established thereunder. Employers must provide reasonable accommodation in all employment activities unless to do so would cause an undue hardship.

9. Selection of Subcontractors, Procurement of Materials and Leasing of Equipment: The contractor shall not discriminate on the grounds of race, color, religion, sex, sexual orientation, gender identity, national origin, age, or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The contractor shall take all necessary and reasonable steps to ensure nondiscrimination in the administration of this contract.

a. The contractor shall notify all potential subcontractors, suppliers, and lessors of their EEO obligations under this contract.

b. The contractor will use good faith efforts to ensure subcontractor compliance with their EEO obligations.

10. Assurances Required:

a. The requirements of 49 CFR Part 26 and the State DOT's FHWA-approved Disadvantaged Business Enterprise (DBE) program are incorporated by reference.

b. The contractor, subrecipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate, which may include, but is not limited to:
(1) Withholding monthly progress payments;
(2) Assessing sanctions;
(3) Liquidated damages; and/or
(4) Disqualifying the contractor from future bidding as non-responsible.

c. The Title VI and nondiscrimination provisions of U.S. DOT Order 1050.2A at Appendixes A and E are incorporated by reference. 49 CFR Part 21.

11. Records and Reports: The contractor shall keep such records as necessary to document compliance with the EEO requirements. Such records shall be retained for a period of three years following the date of the final payment to the contractor for all contract work and shall be available at reasonable times and places for inspection by authorized representatives of the contracting agency and the FHWA.

a. The records kept by the contractor shall document the following:

(1) The number and work hours of minority and non-minority group members and women employed in each work classification on the project;

(2) The progress and efforts being made in cooperation with unions, when applicable, to increase employment opportunities for minorities and women; and

(3) The progress and efforts being made in locating, hiring, training, qualifying, and upgrading minorities and women.

b. The contractors and subcontractors will submit an annual report to the contracting agency each July for the duration of the project indicating the number of minority, women, and non-minority group employees currently engaged in each work classification required by the contract work. This information is to be reported on Form FHWA-1391. The staffing data should represent the project work force on board in all or any part of the last payroll period preceding the end of July. If on-the-job training is being required by special provision, the contractor will be required to collect and report training data. The employment data should reflect the work force on board during all or any part of the last payroll period preceding the end of July.

III. NONSEGREGATED FACILITIES

This provision is applicable to all Federal-aid construction contracts and to all related construction subcontracts of more than $10,000. 41 CFR 60-1.5.

As prescribed by 41 CFR 60-1.8, the contractor must ensure that facilities provided for employees are provided in such a manner that segregation on the basis of race, color, religion, sex, sexual orientation, gender identity, or national origin cannot result. The contractor may neither require such segregated use by written or oral policies nor tolerate such use by employee custom. The contractor's obligation extends further to ensure that its employees are not assigned to perform their services at any location under the contractor's control where the facilities are segregated. The term "facilities" includes waiting rooms, work areas, restaurants and other eating areas, time clocks, restrooms, washrooms, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing provided for employees. The contractor shall provide separate or single-user restrooms and necessary dressing or sleeping areas to assure privacy between sexes.

IV. DAVIS-BACON AND RELATED ACT PROVISIONS

This section is applicable to all Federal-aid construction projects exceeding $2,000 and to all related subcontracts and lower-tier subcontracts (regardless of subcontract size), in accordance with 29 CFR 5.5. The requirements apply to all projects located within the right-of-way of a roadway that is functionally classified as Federal-aid highway. 23 U.S.C. 113. This excludes roadways functionally classified as local roads or rural minor collectors, which are exempt. 23 U.S.C. 101. Where applicable law requires that projects be treated as a project on a Federal-aid highway, the provisions of this subpart will apply regardless of the location of the project. Examples include: Surface Transportation Block Grant Program projects funded under 23 U.S.C. 133 [excluding recreational trails projects], the Nationally Significant Freight and Highway Projects funded under 23 U.S.C. 117, and National Highway Freight Program projects funded under 23 U.S.C. 167.

The following provisions are from the U.S. Department of Labor regulations in 29 CFR 5.5 "Contract provisions and related matters" with minor revisions to conform to the FHWA-1273 format and FHWA program requirements.

1. Minimum wages (29 CFR 5.5)

a. *Wage rates and fringe benefits.* All laborers and mechanics employed or working upon the site of the work (or otherwise working in construction or development of the project under a development statute), will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of basic hourly wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics. As provided in paragraphs (d) and (e) of 29 CFR 5.5, the appropriate wage determinations are effective by operation of law even if they have not been attached to the contract. Contributions made or costs reasonably anticipated for bona fide fringe benefits under the Davis-Bacon Act (40 U.S.C. 3141(2)(B)) on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph 1.e. of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics must be paid the appropriate wage rate and fringe benefits on the wage determination for the classification(s) of work actually performed, without regard to skill, except as provided in paragraph 4. of this section. Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: *Provided*, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classifications and wage rates conformed under paragraph 1.c. of this section) and the Davis-Bacon poster (WH–1321) must be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

b. *Frequently recurring classifications.* (1) In addition to wage and fringe benefit rates that have been determined to be prevailing under the procedures set forth in 29 CFR part 1, a wage determination may contain, pursuant to § 1.3(f), wage and fringe benefit rates for classifications of laborers and mechanics for which conformance requests are regularly submitted pursuant to paragraph 1.c. of this section, provided that:

(i) The work performed by the classification is not performed by a classification in the wage determination for which a prevailing wage rate has been determined;

(ii) The classification is used in the area by the construction industry; and

(iii) The wage rate for the classification bears a reasonable relationship to the prevailing wage rates contained in the wage determination.

(2) The Administrator will establish wage rates for such classifications in accordance with paragraph 1.c.(1)(iii) of this section. Work performed in such a classification must be paid at no less than the wage and fringe benefit rate listed on the wage determination for such classification.

c. *Conformance.* (1) The contracting officer must require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract be classified in conformance with the wage determination. Conformance of an additional classification and wage rate and fringe benefits is appropriate only when the following criteria have been met:

(i) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(ii) The classification is used in the area by the construction industry; and

(iii) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(2) The conformance process may not be used to split, subdivide, or otherwise avoid application of classifications listed in the wage determination.

(3) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken will be sent by the contracting officer by email to DBAconformance@dol.gov. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30–day period that additional time is necessary.

(4) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer will, by email to DBAconformance@dol.gov, refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30–day period that additional time is necessary.

(5) The contracting officer must promptly notify the contractor of the action taken by the Wage and Hour Division under paragraphs 1.c.(3) and (4) of this section. The contractor must furnish a written copy of such determination to each affected worker or it must be posted as a part of the wage determination. The wage rate (including fringe benefits where appropriate) determined pursuant to paragraph 1.c.(3) or (4) of this section must be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

d. *Fringe benefits not expressed as an hourly rate.* Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor may either pay the benefit as stated in the wage determination or may pay another bona fide fringe benefit or an hourly cash equivalent thereof.

e. *Unfunded plans.* If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, *Provided,* That the Secretary of Labor has found, upon the written request of the contractor, in accordance with the criteria set forth in § 5.28, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

f. *Interest.* In the event of a failure to pay all or part of the wages required by the contract, the contractor will be required to pay interest on any underpayment of wages.

2. Withholding (29 CFR 5.5)

a. *Withholding requirements.* The contracting agency may, upon its own action, or must, upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor so much of the accrued payments or advances as may be considered necessary to satisfy the liabilities of the prime contractor or any subcontractor for the full amount of wages and monetary relief, including interest, required by the clauses set forth in this section for violations of this contract, or to satisfy any such liabilities required by any other Federal contract, or federally assisted contract subject to Davis-Bacon labor standards, that is held by the same prime contractor (as defined in § 5.2). The necessary funds may be withheld from the contractor under this contract, any other Federal contract with the same prime contractor, or any other federally assisted contract that is subject to Davis-Bacon labor standards requirements and is held by the same prime contractor, regardless of whether the other contract was awarded or assisted by the same agency, and such funds may be used to satisfy the contractor liability for which the funds were withheld. In the event of a contractor's failure to pay any laborer or mechanic, including any apprentice or helper working on the site of the work all or part of the wages required by the contract, or upon the contractor's failure to submit the required records as discussed in paragraph 3.d. of this section, the contracting agency may on its own initiative and after written notice to the contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

b. *Priority to withheld funds.* The Department has priority to funds withheld or to be withheld in accordance with paragraph

2.a. of this section or Section V, paragraph 3.a., or both, over claims to those funds by:

(1) A contractor's surety(ies), including without limitation performance bond sureties and payment bond sureties;

(2) A contracting agency for its reprocurement costs;

(3) A trustee(s) (either a court-appointed trustee or a U.S. trustee, or both) in bankruptcy of a contractor, or a contractor's bankruptcy estate;

(4) A contractor's assignee(s);

(5) A contractor's successor(s); or

(6) A claim asserted under the Prompt Payment Act, 31 U.S.C. 3901–3907.

3. Records and certified payrolls (29 CFR 5.5)

a. *Basic record requirements* (1) *Length of record retention.* All regular payrolls and other basic records must be maintained by the contractor and any subcontractor during the course of the work and preserved for all laborers and mechanics working at the site of the work (or otherwise working in construction or development of the project under a development statute) for a period of at least 3 years after all the work on the prime contract is completed.

(2) *Information required.* Such records must contain the name; Social Security number; last known address, telephone number, and email address of each such worker; each worker's correct classification(s) of work actually performed; hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in 40 U.S.C. 3141(2)(B) of the Davis-Bacon Act); daily and weekly number of hours actually worked in total and on each covered contract; deductions made; and actual wages paid.

(3) *Additional records relating to fringe benefits.* Whenever the Secretary of Labor has found under paragraph 1.e. of this section that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in 40 U.S.C. 3141(2)(B) of the Davis-Bacon Act, the contractor must maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits.

(4) *Additional records relating to apprenticeship.* Contractors with apprentices working under approved programs must maintain written evidence of the registration of apprenticeship programs, the registration of the apprentices, and the ratios and wage rates prescribed in the applicable programs.

b. *Certified payroll requirements* (1) *Frequency and method of submission.* The contractor or subcontractor must submit weekly, for each week in which any DBA- or Related Acts-covered work is performed, certified payrolls to the contracting agency. The prime contractor is responsible for the submission of all certified payrolls by all subcontractors. A contracting agency or prime contractor may permit or require contractors to submit certified payrolls through an electronic system, as long as the electronic system requires a legally valid electronic signature; the system allows the contractor, the contracting agency, and the Department of Labor to access the certified payrolls upon request for at least 3 years after the work on the prime contract has been completed; and the contracting agency or prime contractor permits other methods of submission in situations where the contractor is unable or limited in its ability to use or access the electronic system.

(2) *Information required.* The certified payrolls submitted must set out accurately and completely all of the information required to be maintained under paragraph 3.a.(2) of this section, except that full Social Security numbers and last known addresses, telephone numbers, and email addresses must not be included on weekly transmittals. Instead, the certified payrolls need only include an individually identifying number for each worker (*e.g.*, the last four digits of the worker's Social Security number). The required weekly certified payroll information may be submitted using Optional Form WH–347 or in any other format desired. Optional Form WH–347 is available for this purpose from the Wage and Hour Division website at *https://www.dol.gov/sites/dolgov/files/WHD/legacy/files/wh347/.pdf* or its successor website. It is not a violation of this section for a prime contractor to require a subcontractor to provide full Social Security numbers and last known addresses, telephone numbers, and email addresses to the prime contractor for its own records, without weekly submission by the subcontractor to the contracting agency.

(3) *Statement of Compliance.* Each certified payroll submitted must be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor, or the contractor's or subcontractor's agent who pays or supervises the payment of the persons working on the contract, and must certify the following:

(i) That the certified payroll for the payroll period contains the information required to be provided under paragraph 3.b. of this section, the appropriate information and basic records are being maintained under paragraph 3.a. of this section, and such information and records are correct and complete;

(ii) That each laborer or mechanic (including each helper and apprentice) working on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in 29 CFR part 3; and

(iii) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification(s) of work actually performed, as specified in the applicable wage determination incorporated into the contract.

(4) *Use of Optional Form WH–347.* The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH–347 will satisfy the requirement for submission of the "Statement of Compliance" required by paragraph 3.b.(3) of this section.

(5) *Signature.* The signature by the contractor, subcontractor, or the contractor's or subcontractor's agent must be an original handwritten signature or a legally valid electronic signature.

(6) *Falsification.* The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under 18 U.S.C. 1001 and 31 U.S.C. 3729.

(7) *Length of certified payroll retention.* The contractor or subcontractor must preserve all certified payrolls during the course of the work and for a period of 3 years after all the work on the prime contract is completed.

c. *Contracts, subcontracts, and related documents.* The contractor or subcontractor must maintain this contract or subcontract and related documents including, without limitation, bids, proposals, amendments, modifications, and extensions. The contractor or subcontractor must preserve these contracts, subcontracts, and related documents during the course of the work and for a period of 3 years after all the work on the prime contract is completed.

d. *Required disclosures and access* (1) *Required record disclosures and access to workers.* The contractor or subcontractor must make the records required under paragraphs 3.a. through 3.c. of this section, and any other documents that the contracting agency, the State DOT, the FHWA, or the Department of Labor deems necessary to determine compliance with the labor standards provisions of any of the applicable statutes referenced by § 5.1, available for inspection, copying, or transcription by authorized representatives of the contracting agency, the State DOT, the FHWA, or the Department of Labor, and must permit such representatives to interview workers during working hours on the job.

(2) *Sanctions for non-compliance with records and worker access requirements.* If the contractor or subcontractor fails to submit the required records or to make them available, or refuses to permit worker interviews during working hours on the job, the Federal agency may, after written notice to the contractor, sponsor, applicant, owner, or other entity, as the case may be, that maintains such records or that employs such workers, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available, or to permit worker interviews during working hours on the job, may be grounds for debarment action pursuant to § 5.12. In addition, any contractor or other person that fails to submit the required records or make those records available to WHD within the time WHD requests that the records be produced will be precluded from introducing as evidence in an administrative proceeding under 29 CFR part 6 any of the required records that were not provided or made available to WHD. WHD will take into consideration a reasonable request from the contractor or person for an extension of the time for submission of records. WHD will determine the reasonableness of the request and may consider, among other things, the location of the records and the volume of production.

(3) *Required information disclosures.* Contractors and subcontractors must maintain the full Social Security number and last known address, telephone number, and email address of each covered worker, and must provide them upon request to the contracting agency, the State DOT, the FHWA, the contractor, or the Wage and Hour Division of the Department of Labor for purposes of an investigation or other compliance action.

4. Apprentices and equal employment opportunity (29 CFR 5.5)

a. *Apprentices* (1) *Rate of pay.* Apprentices will be permitted to work at less than the predetermined rate for the work they perform when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship (OA), or with a State Apprenticeship Agency recognized by the OA. A person who is not individually registered in the program, but who has been certified by the OA or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice, will be permitted to work at less than the predetermined rate for the work they perform in the first 90 days of probationary employment as an apprentice in such a program. In the event the OA or a State Apprenticeship Agency recognized by the OA withdraws approval of an apprenticeship program, the contractor will no longer be permitted to use apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(2) *Fringe benefits.* Apprentices must be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringe benefits must be paid in accordance with that determination.

(3) *Apprenticeship ratio.* The allowable ratio of apprentices to journeyworkers on the job site in any craft classification must not be greater than the ratio permitted to the contractor as to the entire work force under the registered program or the ratio applicable to the locality of the project pursuant to paragraph 4.a.(4) of this section. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated in paragraph 4.a.(1) of this section, must be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under this section must be paid not less than the applicable wage rate on the wage determination for the work actually performed.

(4) *Reciprocity of ratios and wage rates.* Where a contractor is performing construction on a project in a locality other than the locality in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyworker's hourly rate) applicable within the locality in which the construction is being performed must be observed. If there is no applicable ratio or wage rate for the locality of the project, the ratio and wage rate specified in the contractor's registered program must be observed.

b. *Equal employment opportunity.* The use of apprentices and journeyworkers under this part must be in conformity with

the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

c. Apprentices and Trainees (programs of the U.S. DOT).

Apprentices and trainees working under apprenticeship and skill training programs which have been certified by the Secretary of Transportation as promoting EEO in connection with Federal-aid highway construction programs are not subject to the requirements of paragraph 4 of this Section IV. 23 CFR 230.111(e)(2). The straight time hourly wage rates for apprentices and trainees under such programs will be established by the particular programs. The ratio of apprentices and trainees to journeyworkers shall not be greater than permitted by the terms of the particular program.

5. Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract as provided in 29 CFR 5.5.

6. Subcontracts. The contractor or subcontractor must insert FHWA-1273 in any subcontracts, along with the applicable wage determination(s) and such other clauses or contract modifications as the contracting agency may by appropriate instructions require, and a clause requiring the subcontractors to include these clauses and wage determination(s) in any lower tier subcontracts. The prime contractor is responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in this section. In the event of any violations of these clauses, the prime contractor and any subcontractor(s) responsible will be liable for any unpaid wages and monetary relief, including interest from the date of the underpayment or loss, due to any workers of lower-tier subcontractors, and may be subject to debarment, as appropriate. 29 CFR 5.5.

7. Contract termination: debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

8. Compliance with Davis-Bacon and Related Act requirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract as provided in 29 CFR 5.5.

9. Disputes concerning labor standards. As provided in 29 CFR 5.5, disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

10. Certification of eligibility. a. By entering into this contract, the contractor certifies that neither it nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of 40 U.S.C. 3144(b) or § 5.12(a).

b. No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of 40 U.S.C. 3144(b) or § 5.12(a).

c. The penalty for making false statements is prescribed in the U.S. Code, Title 18 Crimes and Criminal Procedure, 18 U.S.C. 1001.

11. Anti-retaliation. It is unlawful for any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, or to cause any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, any worker or job applicant for:

a. Notifying any contractor of any conduct which the worker reasonably believes constitutes a violation of the DBA, Related Acts, this part, or 29 CFR part 1 or 3;

b. Filing any complaint, initiating or causing to be initiated any proceeding, or otherwise asserting or seeking to assert on behalf of themselves or others any right or protection under the DBA, Related Acts, this part, or 29 CFR part 1 or 3;

c. Cooperating in any investigation or other compliance action, or testifying in any proceeding under the DBA, Related Acts, this part, or 29 CFR part 1 or 3; or

d. Informing any other person about their rights under the DBA, Related Acts, this part, or 29 CFR part 1 or 3.

V. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

Pursuant to 29 CFR 5.5(b), the following clauses apply to any Federal-aid construction contract in an amount in excess of $100,000 and subject to the overtime provisions of the Contract Work Hours and Safety Standards Act. These clauses shall be inserted in addition to the clauses required by 29 CFR 5.5(a) or 29 CFR 4.6. As used in this paragraph, the terms laborers and mechanics include watchpersons and guards.

1. Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek. 29 CFR 5.5.

2. Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph 1. of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages and interest from the date of the underpayment. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or

mechanic, including watchpersons and guards, employed in violation of the clause set forth in paragraph 1. of this section, in the sum currently provided in 29 CFR 5.5(b)(2)* for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph 1. of this section.

* $31 as of January 15, 2023 (See 88 FR 88 FR 2210) as may be adjusted annually by the Department of Labor, pursuant to the Federal Civil Penalties Inflation Adjustment Act of 1990.

3. Withholding for unpaid wages and liquidated damages

a. *Withholding process.* The FHWA or the contracting agency may, upon its own action, or must, upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor so much of the accrued payments or advances as may be considered necessary to satisfy the liabilities of the prime contractor or any subcontractor for any unpaid wages; monetary relief, including interest; and liquidated damages required by the clauses set forth in this section on this contract, any other Federal contract with the same prime contractor, or any other federally assisted contract subject to the Contract Work Hours and Safety Standards Act that is held by the same prime contractor (as defined in § 5.2). The necessary funds may be withheld from the contractor under this contract, any other Federal contract with the same prime contractor, or any other federally assisted contract that is subject to the Contract Work Hours and Safety Standards Act and is held by the same prime contractor, regardless of whether the other contract was awarded or assisted by the same agency, and such funds may be used to satisfy the contractor liability for which the funds were withheld.

b. *Priority to withheld funds.* The Department has priority to funds withheld or to be withheld in accordance with Section IV paragraph 2.a. or paragraph 3.a. of this section, or both, over claims to those funds by:

(1) A contractor's surety(ies), including without limitation performance bond sureties and payment bond sureties;

(2) A contracting agency for its reprocurement costs;

(3) A trustee(s) (either a court-appointed trustee or a U.S. trustee, or both) in bankruptcy of a contractor, or a contractor's bankruptcy estate;

(4) A contractor's assignee(s);

(5) A contractor's successor(s); or

(6) A claim asserted under the Prompt Payment Act, 31 U.S.C. 3901–3907.

4. Subcontracts. The contractor or subcontractor must insert in any subcontracts the clauses set forth in paragraphs 1. through 5. of this section and a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor is responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs 1. through 5. In the event of any violations of these clauses, the prime contractor and any subcontractor(s) responsible will be liable for any unpaid wages and monetary relief, including interest from the date of the underpayment or loss, due to any workers of lower-tier subcontractors, and associated liquidated damages and may be subject to debarment, as appropriate.

5. Anti-retaliation. It is unlawful for any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, or to cause any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, any worker or job applicant for:

a. Notifying any contractor of any conduct which the worker reasonably believes constitutes a violation of the Contract Work Hours and Safety Standards Act (CWHSSA) or its implementing regulations in this part;

b. Filing any complaint, initiating or causing to be initiated any proceeding, or otherwise asserting or seeking to assert on behalf of themselves or others any right or protection under CWHSSA or this part;

c. Cooperating in any investigation or other compliance action, or testifying in any proceeding under CWHSSA or this part; or

d. Informing any other person about their rights under CWHSSA or this part.

VI. SUBLETTING OR ASSIGNING THE CONTRACT

This provision is applicable to all Federal-aid construction contracts on the National Highway System pursuant to 23 CFR 635.116.

1. The contractor shall perform with its own organization contract work amounting to not less than 30 percent (or a greater percentage if specified elsewhere in the contract) of the total original contract price, excluding any specialty items designated by the contracting agency. Specialty items may be performed by subcontract and the amount of any such specialty items performed may be deducted from the total original contract price before computing the amount of work required to be performed by the contractor's own organization (23 CFR 635.116).

a. The term “perform work with its own organization” in paragraph 1 of Section VI refers to workers employed or leased by the prime contractor, and equipment owned or rented by the prime contractor, with or without operators. Such term does not include employees or equipment of a subcontractor or lower tier subcontractor, agents of the prime contractor, or any other assignees. The term may include payments for the costs of hiring leased employees from an employee leasing firm meeting all relevant Federal and State regulatory requirements. Leased employees may only be included in this term if the prime contractor meets all of the following conditions: (based on longstanding interpretation)

(1) the prime contractor maintains control over the supervision of the day-to-day activities of the leased employees;
(2) the prime contractor remains responsible for the quality of the work of the leased employees;

(3) the prime contractor retains all power to accept or exclude individual employees from work on the project; and

(4) the prime contractor remains ultimately responsible for the payment of predetermined minimum wages, the submission of payrolls, statements of compliance and all other Federal regulatory requirements.

b. "Specialty Items" shall be construed to be limited to work that requires highly specialized knowledge, abilities, or equipment not ordinarily available in the type of contracting organizations qualified and expected to bid or propose on the contract as a whole and in general are to be limited to minor components of the overall contract. 23 CFR 635.102.

2. Pursuant to 23 CFR 635.116(a), the contract amount upon which the requirements set forth in paragraph (1) of Section VI is computed includes the cost of material and manufactured products which are to be purchased or produced by the contractor under the contract provisions.

3. Pursuant to 23 CFR 635.116(c), the contractor shall furnish (a) a competent superintendent or supervisor who is employed by the firm, has full authority to direct performance of the work in accordance with the contract requirements, and is in charge of all construction operations (regardless of who performs the work) and (b) such other of its own organizational resources (supervision, management, and engineering services) as the contracting officer determines is necessary to assure the performance of the contract.

4. No portion of the contract shall be sublet, assigned or otherwise disposed of except with the written consent of the contracting officer, or authorized representative, and such consent when given shall not be construed to relieve the contractor of any responsibility for the fulfillment of the contract. Written consent will be given only after the contracting agency has assured that each subcontract is evidenced in writing and that it contains all pertinent provisions and requirements of the prime contract. (based on long-standing interpretation of 23 CFR 635.116).

5. The 30-percent self-performance requirement of paragraph (1) is not applicable to design-build contracts; however, contracting agencies may establish their own self-performance requirements. 23 CFR 635.116(d).

VII. SAFETY: ACCIDENT PREVENTION

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

1. In the performance of this contract the contractor shall comply with all applicable Federal, State, and local laws governing safety, health, and sanitation (23 CFR Part 635). The contractor shall provide all safeguards, safety devices and protective equipment and take any other needed actions as it determines, or as the contracting officer may determine, to be reasonably necessary to protect the life and health of employees on the job and the safety of the public and to protect property in connection with the performance of the work covered by the contract. 23 CFR 635.108.

2. It is a condition of this contract, and shall be made a condition of each subcontract, which the contractor enters into pursuant to this contract, that the contractor and any subcontractor shall not permit any employee, in performance of the contract, to work in surroundings or under conditions which are unsanitary, hazardous or dangerous to his/her health or safety, as determined under construction safety and health standards (29 CFR Part 1926) promulgated by the Secretary of Labor, in accordance with Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 3704). 29 CFR 1926.10.

3. Pursuant to 29 CFR 1926.3, it is a condition of this contract that the Secretary of Labor or authorized representative thereof, shall have right of entry to any site of contract performance to inspect or investigate the matter of compliance with the construction safety and health standards and to carry out the duties of the Secretary under Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 3704).

VIII. FALSE STATEMENTS CONCERNING HIGHWAY PROJECTS

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

In order to assure high quality and durable construction in conformity with approved plans and specifications and a high degree of reliability on statements and representations made by engineers, contractors, suppliers, and workers on Federal-aid highway projects, it is essential that all persons concerned with the project perform their functions as carefully, thoroughly, and honestly as possible. Willful falsification, distortion, or misrepresentation with respect to any facts related to the project is a violation of Federal law. To prevent any misunderstanding regarding the seriousness of these and similar acts, Form FHWA-1022 shall be posted on each Federal-aid highway project (23 CFR Part 635) in one or more places where it is readily available to all persons concerned with the project:

18 U.S.C. 1020 reads as follows:

"Whoever, being an officer, agent, or employee of the United States, or of any State or Territory, or whoever, whether a person, association, firm, or corporation, knowingly makes any false statement, false representation, or false report as to the character, quality, quantity, or cost of the material used or to be used, or the quantity or quality of the work performed or to be performed, or the cost thereof in connection with the submission of plans, maps, specifications, contracts, or costs of construction on any highway or related project submitted for approval to the Secretary of Transportation; or

Whoever knowingly makes any false statement, false representation, false report or false claim with respect to the character, quality, quantity, or cost of any work performed or to be performed, or materials furnished or to be furnished, in connection with the construction of any highway or related project approved by the Secretary of Transportation; or

Whoever knowingly makes any false statement or false representation as to material fact in any statement, certificate, or report submitted pursuant to provisions of the Federal-aid Roads Act approved July 11, 1916, (39 Stat. 355), as amended and supplemented;

Shall be fined under this title or imprisoned not more than 5 years or both."

IX. IMPLEMENTATION OF CLEAN AIR ACT AND FEDERAL WATER POLLUTION CONTROL ACT (42 U.S.C. 7606; 2 CFR 200.88; EO 11738)

This provision is applicable to all Federal-aid construction contracts in excess of $150,000 and to all related subcontracts. 48 CFR 2.101; 2 CFR 200.327.

By submission of this bid/proposal or the execution of this contract or subcontract, as appropriate, the bidder, proposer, Federal-aid construction contractor, subcontractor, supplier, or vendor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal Highway Administration and the Regional Office of the Environmental Protection Agency. 2 CFR Part 200, Appendix II.

The contractor agrees to include or cause to be included the requirements of this Section in every subcontract, and further agrees to take such action as the contracting agency may direct as a means of enforcing such requirements. 2 CFR 200.327.

X. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION

This provision is applicable to all Federal-aid construction contracts, design-build contracts, subcontracts, lower-tier subcontracts, purchase orders, lease agreements, consultant contracts or any other covered transaction requiring FHWA approval or that is estimated to cost $25,000 or more – as defined in 2 CFR Parts 180 and 1200. 2 CFR 180.220 and 1200.220.

1**. Instructions for Certification – First Tier Participants:**

a. By signing and submitting this proposal, the prospective first tier participant is providing the certification set out below.

b. The inability of a person to provide the certification set out below will not necessarily result in denial of participation in this covered transaction. The prospective first tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective first tier participant to furnish a certification or an explanation shall disqualify such a person from participation in this transaction. 2 CFR 180.320.

c. The certification in this clause is a material representation of fact upon which reliance was placed when the contracting agency determined to enter into this transaction. If it is later determined that the prospective participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the contracting agency may terminate this transaction for cause of default. 2 CFR 180.325.

d. The prospective first tier participant shall provide immediate written notice to the contracting agency to whom this proposal is submitted if any time the prospective first tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances. 2 CFR 180.345 and 180.350.

e. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180, Subpart I, 180.900-180.1020, and 1200. “First Tier Covered Transactions” refers to any covered transaction between a recipient or subrecipient of Federal funds and a participant (such as the prime or general contract). “Lower Tier Covered Transactions” refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). “First Tier Participant” refers to the participant who has entered into a covered transaction with a recipient or subrecipient of Federal funds (such as the prime or general contractor). “Lower Tier Participant” refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).

f. The prospective first tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction. 2 CFR 180.330.

g. The prospective first tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transactions," provided by the department or contracting agency, entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the $25,000 threshold. 2 CFR 180.220 and 180.300.

h. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. 2 CFR 180.300; 180.320, and 180.325. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. 2 CFR 180.335. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the System for Award Management website (https://www.sam.gov/). 2 CFR 180.300, 180.320, and 180.325.

i. Nothing contained in the foregoing shall be construed to require the establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of the prospective participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

j. Except for transactions authorized under paragraph (f) of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default. 2 CFR 180.325.

* * * * *

2. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – First Tier Participants:

a. The prospective first tier participant certifies to the best of its knowledge and belief, that it and its principals:

(1) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency, 2 CFR 180.335;.

(2) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property, 2 CFR 180.800;

(3) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (a)(2) of this certification, 2 CFR 180.700 and 180.800; and

(4) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default. 2 CFR 180.335(d).

(5) Are not a corporation that has been convicted of a felony violation under any Federal law within the two-year period preceding this proposal (USDOT Order 4200.6 implementing appropriations act requirements); and

(6) Are not a corporation with any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted, or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability (USDOT Order 4200.6 implementing appropriations act requirements).

b. Where the prospective participant is unable to certify to any of the statements in this certification, such prospective participant should attach an explanation to this proposal. 2 CFR 180.335 and 180.340.

* * * * *

3. **Instructions for Certification - Lower Tier Participants:**

(Applicable to all subcontracts, purchase orders, and other lower tier transactions requiring prior FHWA approval or estimated to cost $25,000 or more - 2 CFR Parts 180 and 1200). 2 CFR 180.220 and 1200.220.

a. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.

b. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department, or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

c. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous by reason of changed circumstances. 2 CFR 180.365.

d. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180, Subpart I, 180.900 – 180.1020, and 1200. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations. "First Tier Covered Transactions" refers to any covered transaction between a recipient or subrecipient of Federal funds and a participant (such as the prime or general contract). "Lower Tier Covered Transactions" refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). "First Tier Participant" refers to the participant who has entered into a covered transaction with a recipient or subrecipient of Federal funds (such as the prime or general contractor). "Lower Tier Participant" refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).

e. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated. 2 CFR 1200.220 and 1200.332.

f. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the $25,000 threshold. 2 CFR 180.220 and 1200.220.

g. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the System for Award Management website (https://www.sam.gov/), which is compiled by the General Services Administration. 2 CFR 180.300, 180.320, 180.330, and 180.335.

h. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

i. Except for transactions authorized under paragraph e of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily

excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment. 2 CFR 180.325.

* * * * *

4. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion--Lower Tier Participants:

a. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals:

(1) is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency, 2 CFR 180.355;

(2) is a corporation that has been convicted of a felony violation under any Federal law within the two-year period preceding this proposal (USDOT Order 4200.6 implementing appropriations act requirements); and

(3) is a corporation with any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted, or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability. (USDOT Order 4200.6 implementing appropriations act requirements)

b. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant should attach an explanation to this proposal.

* * * * *

XI. CERTIFICATION REGARDING USE OF CONTRACT FUNDS FOR LOBBYING

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts which exceed $100,000. 49 CFR Part 20, App. A.

1. The prospective participant certifies, by signing and submitting this bid or proposal, to the best of his or her knowledge and belief, that:

a. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

b. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

2. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

3. The prospective participant also agrees by submitting its bid or proposal that the participant shall require that the language of this certification be included in all lower tier subcontracts, which exceed $100,000 and that all such recipients shall certify and disclose accordingly.

XII. USE OF UNITED STATES-FLAG VESSELS:

This provision is applicable to all Federal-aid construction contracts, design-build contracts, subcontracts, lower-tier subcontracts, purchase orders, lease agreements, or any other covered transaction. 46 CFR Part 381.

This requirement applies to material or equipment that is acquired for a specific Federal-aid highway project. 46 CFR 381.7. It is not applicable to goods or materials that come into inventories independent of an FHWA funded-contract.

When oceanic shipments (or shipments across the Great Lakes) are necessary for materials or equipment acquired for a specific Federal-aid construction project, the bidder, proposer, contractor, subcontractor, or vendor agrees:

1. To utilize privately owned United States-flag commercial vessels to ship at least 50 percent of the gross tonnage (computed separately for dry bulk carriers, dry cargo liners, and tankers) involved, whenever shipping any equipment, material, or commodities pursuant to this contract, to the extent such vessels are available at fair and reasonable rates for United States-flag commercial vessels. 46 CFR 381.7.

2. To furnish within 20 days following the date of loading for shipments originating within the United States or within 30 working days following the date of loading for shipments originating outside the United States, a legible copy of a rated, 'on-board' commercial ocean bill-of-lading in English for each shipment of cargo described in paragraph (b)(1) of this section to both the Contracting Officer (through the prime contractor in the case of subcontractor bills-of-lading) and to the Office of Cargo and Commercial Sealift (MAR-620), Maritime Administration, Washington, DC 20590. (MARAD requires copies of the ocean carrier's (master) bills of lading, certified onboard, dated, with rates and charges. These bills of lading may contain business sensitive information and therefore may be submitted directly to MARAD by the Ocean Transportation Intermediary on behalf of the contractor). 46 CFR 381.7.

ATTACHMENT A - EMPLOYMENT AND MATERIALS PREFERENCE FOR APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM OR APPALACHIAN LOCAL ACCESS ROAD CONTRACTS (23 CFR 633, Subpart B, Appendix B) This provision is applicable to all Federal-aid projects funded under the Appalachian Regional Development Act of 1965.

1. During the performance of this contract, the contractor undertaking to do work which is, or reasonably may be, done as on-site work, shall give preference to qualified persons who regularly reside in the labor area as designated by the DOL wherein the contract work is situated, or the subregion, or the Appalachian counties of the State wherein the contract work is situated, except:

a. To the extent that qualified persons regularly residing in the area are not available.

b. For the reasonable needs of the contractor to employ supervisory or specially experienced personnel necessary to assure an efficient execution of the contract work.

c. For the obligation of the contractor to offer employment to present or former employees as the result of a lawful collective bargaining contract, provided that the number of nonresident persons employed under this subparagraph (1c) shall not exceed 20 percent of the total number of employees employed by the contractor on the contract work, except as provided in subparagraph (4) below.

2. The contractor shall place a job order with the State Employment Service indicating (a) the classifications of the laborers, mechanics and other employees required to perform the contract work, (b) the number of employees required in each classification, (c) the date on which the participant estimates such employees will be required, and (d) any other pertinent information required by the State Employment Service to complete the job order form. The job order may be placed with the State Employment Service in writing or by telephone. If during the course of the contract work, the information submitted by the contractor in the original job order is substantially modified, the participant shall promptly notify the State Employment Service.

3. The contractor shall give full consideration to all qualified job applicants referred to him by the State Employment Service. The contractor is not required to grant employment to any job applicants who, in his opinion, are not qualified to perform the classification of work required.

4. If, within one week following the placing of a job order by the contractor with the State Employment Service, the State Employment Service is unable to refer any qualified job applicants to the contractor, or less than the number requested, the State Employment Service will forward a certificate to the contractor indicating the unavailability of applicants. Such certificate shall be made a part of the contractor's permanent project records. Upon receipt of this certificate, the contractor may employ persons who do not normally reside in the labor area to fill positions covered by the certificate, notwithstanding the provisions of subparagraph (1c) above.

5. The provisions of 23 CFR 633.207(e) allow the contracting agency to provide a contractual preference for the use of mineral resource materials native to the Appalachian region.

6. The contractor shall include the provisions of Sections 1 through 4 of this Attachment A in every subcontract for work which is, or reasonably may be, done as on-site work.

CONTRACTOR'S ASSURANCE

(Subcontracts-Federal Aid Projects)

By signing this proposal, the contractor is giving assurances that all subcontract agreements will incorporate the Standard Specification and Special Provisions to Section 9.9., Payment Provisions for Subcontractors, all subcontract agreements exceeding $2,000 will incorporate the applicable Wage Determination Decision, and all subcontract agreements will incorporate the following:

Special Provision	Certification of Nondiscrimination in Employment
Special Provision	Standard Federal Equal Employment Opportunity
Form FHWA 1273	Required Contract Provisions Federal-aid Construction Contracts (Form FHWA 1273 must also be physically attached to subcontracts and all lower-tier subcontracts)
Special Provision	Nondiscrimination (Include provisions of Sections 3.1 – 3.6 in all subcontracts and agreements for materials)
Special Provision	Cargo Preference Act Requirements in Federal-Aid Contracts

CERTIFICATION TO NOT BOYCOTT ENERGY COMPANIES

Pursuant to Texas Government Code §809.051, the Department must include a provision requiring a written verification affirming that the Contractor does not boycott energy companies, as defined in Government Code §809.001, and will not boycott energy companies during the term of the contract. This provision applies to a contract that:

1) is with a Contractor that is not a sole proprietorship,
2) is with a Contractor with 10 or more full-time employees, and
3) has a value of $100,000 or more.

By signing the contract, the Contractor certifies that it does not boycott energy companies and will not boycott energy companies during the term of this contract. “Boycott” means taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations with a company because the company: (1) engages in the exploration, production, utilization, transportation, sale, or manufacturing of fossil fuel-based energy and does not commit or pledge to meet environmental standards beyond applicable federal and state law; or (2) does business with a company described by (1).

Violation of this certification may result in action by the Department.

CERTIFICATION TO NOT BOYCOTT ISRAEL

Pursuant to Texas Government Code §2271.002, the Department must include a provision requiring a written verification affirming that the Contractor does not boycott Israel, as defined in Government Code §808.001, and will not boycott Israel during the term of the contract. This provision applies to a contract that:

1) is with a Contractor that is not a sole proprietorship,
2) is with a Contractor with 10 or more full-time employees, and
3) has a value of $100,000 or more.

By signing the contract, the Contractor certifies that it does not boycott Israel and will not boycott Israel during the term of this contract. “Boycott” means refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations specifically with Israel, or with a person or entity doing business in Israel or in an Israeli-controlled territory, but does not include an action made for ordinary business purposes.

Violation of this certification may result in action by the Department.

CERTIFICATION REGARDING DISCLOSURE OF PUBLIC INFORMATION

Pursuant to Subchapter J, Chapter 552, Texas Government Code, contractors executing a contract with a governmental body that results in the expenditure of at least $1 million in public funds must:

1) preserve all contracting information* as provided by the records retention requirements applicable to Texas Department of Transportation (TxDOT) for the duration of the contract,
2) on request of TxDOT, promptly provide any contracting information related to the contract that is in the custody or possession of the entity, and
3) on completion of the contract, either:
    a. provide, at no cost to TxDOT, all contracting information related to the contract that is in the custody or possession of the entity, or
    b. preserve the contracting information related to the contract as provided by the records retention requirements applicable to TxDOT

The requirements of Subchapter J, Chapter 552, Government Code, may apply to this contract, and the contractor or vendor agrees that the contract can be terminated if the contractor or vendor knowingly or intentionally fails to comply with a requirement of that subchapter.

By entering into Contract, the Contractor agrees to:

- provide, or make available, to TxDOT and any authorized governmental investigating or auditing agency all records, including electronic and payment records related to the contract, for the same period provided by the records retention schedule applicable to TxDOT, and
- ensure that all subcontracts include a clause requiring the same.

* As defined in Government Code §552.003, "Contracting information" means the following information maintained by a governmental body or sent between a governmental body and a vendor, contractor, potential vendor, or potential contractor:

1) information in a voucher or contract relating to the receipt or expenditure of public funds by a governmental body;
2) solicitation or bid documents relating to a contract with a governmental body;
3) communications sent between a governmental body and a vendor, contractor, potential vendor, or potential contractor during the solicitation, evaluation, or negotiation of a contract;
4) documents, including bid tabulations, showing the criteria by which a governmental body evaluates each vendor, contractor, potential vendor, or potential contractor responding to a solicitation and, if applicable, an explanation of why the vendor or contractor was selected; and
5) communications and other information sent between a governmental body and a vendor or contractor related to the performance of a final contract with the governmental body or work performed on behalf of the governmental body.

CERTIFICATION TO NOT DISCRIMINATE AGAINST FIREARM ENTITIES OR FIREARM TRADE ASSOCIATIONS

Pursuant to Texas Government Code §2274.002, the Department must include a provision requiring a written verification affirming that the Contractor:

1) does not have a practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association, as defined in Government Code §2274.001, and
2) will not discriminate against a firearm entity or firearm trade association during the term of the contract.

This provision applies to a contract that:

1) is with a Contractor that is not a sole proprietorship,
2) is with a Contractor with 10 or more full-time employees, and
3) has a value of $100,000 or more.

By signing the contract, the Contractor certifies that it does not discriminate against a firearm entity or firearm trade association as described and will not do so during the term of this contract. "Discriminate against a firearm entity or firearm trade association" means, with respect to the entity or association, to: (1) refuse to engage in the trade of any goods or services with the entity or association based solely on its status as a firearm entity or firearm trade association; (2) refrain from continuing an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; or (3) terminate an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association. "Discriminate against a firearm entity or firearm trade association" does not include: (1) the established policies of a merchant, retail seller, or platform that restrict or prohibit the listing or selling of ammunition, firearms, or firearm accessories; (2) a company's refusal to engage in the trade of any goods or services, decision to refrain from continuing an existing business relationship, or decision to terminate an existing business relationship to comply with federal, state, or local law, policy, or regulations or a directive by a regulatory agency, or for any traditional business reason that is specific to the customer or potential customer and not based solely on an entity's or association's status as a firearm entity or firearm trade association.

Violation of this certification may result in action by the Department.

Texas Department of Transportation

Wages by Classification for Proposal

The wage rates listed herein are those predetermined by the Secretary of Labor and State Statute and listed in the United States Department of Labor's (USDOL) General Decisions dated 01-02-2026 and are the minimum wages to be paid accordingly for each specified classification. To determine the applicable wage rate zone, a list entitled "TEXAS COUNTIES IDENTIFIED BY WAGE RATE ZONES" is provided in the contract. Any wage rate that is not listed in the USDOL's general decision, must be requested by the contractor through the completion of an Additional Classification and Wage Rate Request and be submitted for approval. A blank cell indicates that the classification and wage rate are not listed on the USDOL's general decision and therefore must be requested by the contractor through the completion of an Additional Classification and Wage Rate Request. IMPORTANT NOTICE FOR STATE PROJECTS: only the controlling wage rate zone applies to the contract. Effective 01-02-2026.

Table 1 - Wage Rates.

CLASS. #	CLASSIFICATION DESCRIPTION	ZONE TX46 *(TX20250046)	ZONE TX51 *(TX20250051)	ZONE TX55 *(TX20250055)	ZONE TX291 *(TX20250291)	ZONE TX292 *(TX20250292)	ZONE TX293 *(TX20250293)	ZONE TX294 *(TX20250294)	ZONE TX295 *(TX20250295)	ZONE TX296 *(TX20250296)	ZONE TX297 *(TX20250297)	ZONE TX298 *(TX20250298)	ZONE TX299 *(TX20250299)	ZONE TX300 *(TX20250300)

CHILD SUPPORT STATEMENT

Under Section 231.006, Family Code, the vendor or applicant certifies that the individual or business entity named in this contract, bid, or application is not ineligible to receive the specified grant, loan, or payment and acknowledges that this contract may be terminated and payment may be withheld if this certification is inaccurate.

State of Texas Child Support Business Ownership Form

County: _____ Project Name: _____

TxDOT CSJ: _____ LG Project Number: _____

Business Entity Submitting Bid:_____

Section 231.006, Family Code, requires a bid for a contract paid from state funds to include the names and social security number of individuals owning 25% or more of the business entity submitting the bid.

1. In the spaces below please provide the names and social security number of individuals owning 25% or more of the business.

Name	Social Security Number
_____	_____
_____	_____
_____	_____
_____	_____

2. Please check the box below if no individual owns 25% or more of the business.

( ) No individual own 25% or more of the business.

Except as provided by Section 231.302(d), Family Code, a social security number is confidential and may be disclosed only for the purpose of responding to a request for information from an agency operating under the provisions of Part A and D to Title IV of the Federal Social Security Act (42 USC Section 601-617 and 651-699).

Under Section 231.006, Family Code, the vendor or applicant certifies that the individual or business entity named in this contract, bid, or application is not ineligible to receive the specified grant, loan, or payment and acknowledges that this contract may be terminated and payment may be withheld if this certification is inaccurate.

The information collected on this form will be maintained by Enter Local Government Name. With few exceptions, you are entitled on request to be informed about the information collected about you. Under Sections 552.021 and 552.023 of the Texas Government Code, you also are entitled to receive and review the information. Under Section 559.004 of the Government Code, you are also entitled to have information about you corrected that you believe is incorrect.

IF THIS PROJECT IS A JOINT VENTURE,

ALL PARTIES TO THE JOINT VENTURE MUST PROVIDE A COMPLETED FORM.

Prohibition on Certain Telecommunications Equipment or Services

The Federal Register Notice issued the Final Rule and states that the amendment to 2 CFR 200.216 is effective on August 13, 2020. The new 2 CFR 200.471 regulation provides clarity that the telecommunications and video surveillance costs associated with 2 CFR 200.216 are unallowable for services and equipment from these specific providers. OMB's Federal Register Notice includes the new 2 CFR 200.216 and 2 CFR 200.471 regulations.

Per the Federal Law referenced above, use of services, systems, or services or systems that contain components produced by any of the following manufacturers is strictly prohibited for use on this project. Therefore, for any telecommunications, CCTV, or video surveillance equipment, services or systems cannot be manufactured by, or have components manufactured by:

- Huawei Technologies Company,
- ZTE Corporation (any subsidiary and affiliate of such entities),
- Hyatera Communications Corporation,
- Hangzhou Hikvision Digital Technology Company,
- Dahua Technology Company (any subsidiary and affiliate of such entities).

Violation of this requirement will require replacement of the equipment at the contractor's expense.

Special Provision to Item 000
Nondiscrimination

1. DESCRIPTION

All recipients of federal financial assistance are required to comply with various nondiscrimination laws, including Title VI of the Civil Rights Act of 1964, as amended (Title VI). Title VI forbids discrimination against anyone in the United States on the grounds of race, color, or national origin by any agency receiving federal funds.

The Owner, as a recipient of federal financial assistance, and under Title VI and related statutes, ensures that no person will on the grounds of race, religion (where the primary objective of the financial assistance is to provide employment in accordance with 42 USC 2000d-3), color, national origin, sex, age, or disability be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any of Owner's programs or activities.

2. DEFINITION OF TERMS

Where the term "Contractor" appears in the following six nondiscrimination clauses, the term "Contractor" is understood to include all parties to Contracts or agreements with the Owner.

3. NONDISCRIMINATION PROVISIONS

During the performance of this Contract, the Contractor agrees as follows.

3.1. **Compliance with Regulations**. The Contractor must comply with the Regulations pertinent to nondiscrimination in federally assisted programs of the United States Department of Transportation 49 CFR 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this Contract.

3.2. **Nondiscrimination**. The Contractor, regarding the work performed during the Contract, must not discriminate on the grounds of race, color, or national origin in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The Contractor must not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the Contract covers a program set forth in Appendix B of the Regulations.

3.3. **Solicitations for Subcontracts, Including Procurements of Materials and Equipment**. In all solicitations either by competitive bidding or negotiation made by the Contractor for work to be performed under a subcontract, including procurements of materials or leases of equipment, the Contractor must notify each potential subcontractor or supplier of the Contractor's obligations under this Contract and the Regulations relative to nondiscrimination on the grounds of race, color, or national origin.

3.4. **Information and Reports**. The Contractor must provide all information and reports required by the Regulations or directives issued pursuant thereto, and must permit access to its books, records, accounts, other sources of information, and facilities as may be determined by the Recipient or the Owner to be pertinent to ascertain compliance with such Regulations, orders, and instructions. Where any information required of a Contractor is in the exclusive possession of another who fails or refuses to furnish this information, the Contractor must so certify to the Owner, or the Texas Department of Transportation as appropriate, and must set forth what efforts it has made to obtain the information.

3.5. **Sanctions for Noncompliance**. In the event of the Contractor's noncompliance with the nondiscrimination provisions of this Contract, the Owner must impose such Contract sanctions as it or the Owner may

determine to be appropriate, including, but not limited to actions defined in Article 5.1., "Authority of Engineer."

3.6. **Incorporation of Provisions**. The Contractor must include the provisions of Sections 3.1–3.6 in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations or directives issued pursuant thereto. The Contractor must take such action with respect to any subcontract or procurement as the Owner may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, that, in the event a Contractor becomes involved in, or is threatened with, litigation with a subcontractor or supplier as a result of such direction, the Contractor may request the Owner to enter into such litigation to protect the interests of the Owner, and, in addition, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.

Special Provision to Item 000
Certification of Nondiscrimination in Employment

1. GENERAL

By signing this proposal, the Bidder certifies that it has participated in a previous Contract or subcontract subject to the equal opportunity clause, as required by Executive Order (EO) 10925, 11114, or 11246, or if it has not participated in a previous Contract of this type, or if it has had previous Contracts or subcontracts and has not filed, it will file with the Joint Reporting Committee, the Director of the Office of Federal Contract Compliance, a Federal Government contracting or administering agency, or the former President's Committee on Equal Employment Opportunity (EEO), all reports due under the applicable filing requirements.

Note—The above certification is required by the EEO Regulations of the Secretary of Labor [41 CFR 60-1.7(b)(1)], and must be submitted by Bidders and proposed subcontractors only in connection with Contracts and subcontracts that are subject to the equal opportunity clause. Contracts and subcontracts that are exempt from the equal opportunity clause are set forth in 41 CFR 60-1.5. (Generally only Contracts or subcontracts of $10,000 or less are exempt.)

Currently, Standard Form 100 (EEO-1) is the only report required by the EOs or their implementing regulations.

Proposed prime Contractors and subcontractors that have participated in a previous Contract or subcontract subject to the EO and have not filed the required reports should note that 41 CFR 60-1.7(b)(1) prevents the award of Contracts and subcontracts unless such Contractor submits a report covering the delinquent period or such other period specified by FHWA or by the Director, Office of Federal Contract Compliance, U.S. Department of Labor.

Special Provision 000

Cargo Preference Act Requirements in Federal Aid Contracts

1. DESCRIPTION

All recipients of federal financial assistance are required to comply with the U.S. Department of Transportation's Cargo Preference Act requirements, 46 CFR 381, "Use of United States-Flag Vessels."

This requirement applies to material or equipment that is acquired specifically for a federal-aid highway project. It is not applicable to goods or materials that come into inventories independent of an FHWA-funded Contract.

When oceanic shipments are necessary for materials or equipment acquired for a specific federal-aid construction project, the Contractor agrees to:

- use privately owned United States-flag commercial vessels to ship at least 50% of the gross tonnage (computed separately for dry bulk carriers, dry cargo liners, and tankers) involved, whenever shipping any equipment, material, or commodities pursuant to this Contract, to the extent such vessels are available at fair and reasonable rates for United States-flag commercial vessels;

- furnish a legible copy of a rated, onboard commercial ocean bill of lading in English for each shipment of cargo described in Paragraph (b)(1) of 46 CFR 381, Section 7, "Federal Grant, Guaranty, Loan and Advance of Funds Agreements," within 20 days following the date of loading for shipments originating within the United States or within 30 working days following the date of loading for shipments originating outside the United States, to both the Engineer (through the prime Contractor in the case of subcontractor bills of lading) and to the Division of National Cargo, Office of Market Development, Maritime Administration, Washington, DC 20590; and

- insert the substance of the provisions of this clause in all subcontracts issued pursuant to this Contract.

Special Provision to Item 000
Schedule of Liquidated Damages

The dollar amount of daily contract administration Liquidated Damages per Working Day is $1000

In addition to the amount shown above, the Liquidated Damages will be increased by the amount shown in Item 8 of the General Notes for Road User Cost (RUC), when applicable.

Special Provision to Item 2L
Instructions to Bidders

Item 2, "Instructions to Bidders" of the Standard Specifications is amended with respect to the clauses cited below. No other clauses or requirements of this Item are waived or changed.

Article 7., "Nonresponsive Bid," is voided and replaced by the following.

The Owner will not accept a nonresponsive bid. A bid that has one or more of the deficiencies listed below is considered nonresponsive:

- the bid was not in the hands of the Letting Official at the time and location specified in the advertisement,
- a proposal form was submitted for the same project by a Bidder or Bidders and one or more of its partners or affiliates
- the Bidder was not authorized to receive a proposal form under Article 2.3., "Issuing Proposal Forms,"
- the Bidder failed to acknowledge receipt of all addenda issued,
- the proposal form was signed by a person who was not authorized to bind the Bidder or Bidders,
- the proposal guaranty did not comply with the requirements contained in this Item,
- the bid was in a form other than the official proposal form issued by the Owner,
- the Bidder modified the bid in a manner that altered the conditions or requirements for work as stated in the proposal form,
- the Bidder bid more than the maximum or less than the minimum number of allowable working days shown on the plans when working days was an item,
- a typed proposal form does not contain the information in the format shown on the "Example of Bid Prices Submitted by Computer Printout" on the proposal form,
- the Bidder did not meet the requirements of the technical qualification,
- the Bidder failed to submit a DBE commitment as specified in Article 2.14., "Disadvantaged Business Enterprise (DBE),"
- the Bidder failed to participate in the DHS E-Verify system as specified in Article 2.15., "Department of Homeland Security (DHS) E-Verify System," or
- the apparent low bid is mathematically and materially unbalanced.
- The bidder is not prequalified by TxDOT

Special Provision to Item 3L
Award and Execution of Contract

Item 3L, "Award and Execution of Contract," of the Standard Specifications is amended with respect to the clauses cited below. No other clauses or requirements of this Item are waived or changed.

Section 1.2., "Rejection," is voided and replaced by the following.

1.2. **Rejection**. The Owner will reject the Contract if:

- collusion may have existed among the Bidders. Collusion participants will not be allowed to bid future proposals for the same Contract,
- the lowest bid is higher than the Owner's estimate, and re-advertising for bids may result in a lower bid,
- the low bid contains a bid error that satisfies the requirements and criteria in Article 2.12., "Consideration of Bid Errors," or
- rejection of the Contract is in the best interest of the Owner.

Special Provision to Item 6L
Control of Materials

Item 6L, "Control of Materials" of the Standard Specifications is amended with respect to the clauses cited below. No other clauses or requirements of this Item are waived or changed.

Section 1.1. "Buy America," and Section 1.2., "Buy America Exceptions," are voided and replaced by the following.

1.1. **Buy America**. Comply with the latest provisions of Build America, Buy America Act (BABA Act) and applicable CFR, which restrict funds being made available from Federal financial assistance programs unless all the iron products, steel products, manufactured products, and construction materials used in the project are manufactured in the United States. Use iron or steel products, manufactured products, or construction materials manufactured in the United States for all permanently installed materials and products except when defined in Section 1.1.5., "Buy America Exceptions."

A material is solely classified based on its status at the time it is brought to the work site as either an iron or steel product, construction material, manufactured product, or excluded material. Refer to the Buy America Material Classification Sheet found at https://www.txdot.gov/business/resources/materials/buy-america/buy-america-material-classification-sheet.html for additional clarification on material classification.

Texas Department of Transportation's MPLs include Gold Star listings for certain manufacturers, construction materials, or products. Gold Star items are manufacturers, materials, or products that have submitted a Buy America certification (as listed on an MPL) to be in compliance with the Buy America requirements. For items identified as a Gold Star manufacturer, material, or product; the only Material Sourcing documentation as stated in Table 1 BABA Submissions is required.

Table1
BABA Submission Requirements

Classification	Form 1818 [2 & 3] (notarized original Form D-9 USA-1)	Material Sourcing Documentation [4]	Form 2806 [5 & 6]	De Minimis Tracking Log [7]
Iron or Steel Products	✓	✓		✓
Construction Material		✓	✓	✓
Manufactured Product [1]		✓	✓	✓

1. For ITS enclosures and precast concrete products as stated under Manufactured Products, submission requirements for Iron and Steel Products and Manufactured Products apply. Reinforcing Steel or items covered by TxDOT's Gold Star Program do not require a Form 1818 submission.
2. For miscellaneous steel exceptions may be allowed to submit a notarized certification letter in lieu of submitting Form 1818, as approved by the Owner. There are no exceptions for iron or steel products required to be furnished in accordance with item 441, "Steel Structures", or requested otherwise. Items covered by TxDOT's Gold Star Program do not require a Form 1818.
3. Item 450 aluminum metal railing and Item 610 aluminum roadway illumination poles, will require Form 1818 to be submitted when requested by the Owner.
4. For materials that are BABA compliant and are on TxDOT's Material Producer List (MPL). Material Sourcing Documentation is documentation, along with any necessary attachments, that connects the Material's source to project. Provide additional documentation at the request of the Owner.
5. Form 2806 is required to be submitted for products and materials to certify BABA compliance when an MPL does not exist for the corresponding material.
6. Form 2806 is required for materials that are not listed as BABA compliant on the associated MPL.
7. De Minimis Tracking Log is required for materials that are not BABA compliant and must be submitted in advance when de minimis waiver is being pursued. De Minimis Tracking Log must track non-compliant iron or steel products separately from non-compliant construction materials and manufactured products. Contact the Owner when either thresholds in 6.1.1.5, "Buy America Exceptions" is reached. Non-compliant items above the de minimis threshold will require removal and replacement with BABA compliant item, or not paid for as determined by the Engineer.

1.1.1. **Materials Excluded from Buy America.** Excluded Materials mean cement and cementitious material; aggregates such as stone, sand, or gravel; or aggregate binding agents or additives. Excluded Materials do not require domestic sourcing or Buy America certification.

Materials combined as an unsettled mixture delivered to a work site without final form, for incorporation into a project, such as hot mix asphalt, or wet concrete mixtures, are not a manufactured product and are considered excluded from Buy America.

1.1.2. **Iron or Steel Product**. Iron or steel products means articles, materials, or supplies that consist wholly or predominantly of iron or steel or a combination of both.

Predominantly of iron or steel or a combination of both means the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components.

For iron or steel products, manufacturing includes any process that modifies the chemical content, physical shape or size, or final finish of a product. The manufacturing process begins with initial melting and mixing and continues through fabrication (e.g., cutting, drilling, welding, bending.) and coating (e.g., paint, galvanizing, epoxy).

1.1.3. **Construction Materials**. Construction materials are classified as articles, materials, or supplies that consist of only one of the items listed in bullets below. Minor additions of articles, materials, supplies, or binding agents (as determined by the plans or the Engineer) to any of the items listed does not change the classification of a construction material.

- non-ferrous metals,
- plastic and polymer-based products (including polyvinyl chloride, composite building materials, and polymers used in fiber optic cables),
- glass (including optic glass),
- fiber optic cable (including drop cable),
- optical fiber,
- lumber,
- engineered wood, or
- drywall.

Each construction material has specific certification requirements stated below which constitute Buy America Compliance. Provide additional documentation as requested.

For non-ferrous metals, certification requires all manufacturing processes, from initial smelting or melting through final shaping, coating, and assembly, occurred in the United States.

For plastic and polymer-based products (including polyvinyl chloride, composite building materials, and polymers used in fiber optic cables), certification requires all manufacturing processes, from initial combination of constituent plastic or polymer-based inputs, or, where applicable, constituent composite materials, until the item is in its final form, occurred in the United States.

For glass (including optic glass), certification requires all manufacturing processes, from initial batching and melting of raw materials through annealing, cooling, and cutting, occurred in the United States.

For fiber optic cable (including drop cable), certification requires all manufacturing processes, from the initial ribboning (if applicable), through buffering, fiber stranding and jacketing, occurred in the United States. All manufacturing processes also include the standards for glass and optical fiber, but not for non-ferrous metals, plastic and polymer-based products, or any others.

For optical fiber, certification requires all manufacturing processes, from the initial preform fabrication stage through the completion of the draw, occurred in the United States.

For lumber, certification requires all manufacturing processes, from initial debarking through treatment and planing, occurred in the United States.

For engineered wood, certification requires all manufacturing processes from the initial combination of constituent materials until the wood product is in its final form, occurred in the United States.

For drywall, certification requires all manufacturing processes, from initial blending of mined or synthetic gypsum plaster and additives through cutting and drying of sandwiched panels, occurred in the United States.

1.1.4. **Manufactured Product** means articles, materials, or supplies that have been processed into a specific form and shape, or combined with other articles, materials, or supplies to create a product with different properties than the individual articles, materials, or supplies. Manufactured products may include components that are iron or steel products, excluded materials, or construction materials. Any product classified as an iron or steel product, excluded material, or construction material is not a manufactured product. In addition, mixtures of excluded materials, such as asphalt or concrete mixtures, delivered to a work site without final form for incorporation into a project are not a manufactured product and are considered excluded.

Manufactured products are required to be Manufactured in the United States. For manufactured products, submit per submission table above.

Manufactured in the United States (for Manufactured Products) means the final assembly occurred in the United States of America.

Precast Concrete products classified as a manufactured product (not predominantly of iron and steel) are to be Manufactured in the United States and require iron or steel components to comply with manufacturing requirements for Iron or Steel Products stated in Section 6.1.1.2.

Intelligent Transportation Systems and other electronic hardware systems classified as a manufactured product are to be Manufactured in the United States and must require iron or steel cabinets or other enclosures of such systems to comply with manufacturing requirements for Iron or Steel Products stated in Section 6.1.1.2

Component means an article, material, or supply, whether manufactured or unmanufactured, incorporated directly into a manufactured product or where applicable, an iron or steel product.

1.1.5. **Buy America Exceptions**. Use of iron or steel products, construction materials, and manufactured products manufactured in the United States is required unless the material meets an exception below.

- A waiver exists exempting the material from Buy America compliance.
- The total value of the non-compliant products (other than iron or steel products) is no more than the lesser of $1,000,000 or 5% of Total Applicable Costs for the project. Total Applicable Cost means the actual cost of all materials requiring Buy America compliance including iron, steel, or other materials that are within the scope of existing waivers. Contractor must provide documentation showing under threshold in advance for Engineer's consideration.
- The total value of foreign iron or steel products, including delivery, does not exceed 0.1% of the total Contract cost or $2,500, whichever is greater. The Contractor must provide documentation showing under threshold in advance for the Engineer's consideration.
- Foreign iron or steel products may be allowed when the Contract contains an alternate item for a foreign source iron or steel product and the Contract is awarded based on the alternate item.
- The materials are temporarily installed or are supplies, tools, and equipment not incorporated into the project. Temporarily installed means the materials and products must be removed at the end of the project or may be removed at the Contractor's convenience with the Engineer's approval.

Special Provision to Item 506

Temporary Erosion, Sedimentation, and Environmental Controls

For this project, item 506, "Temporary Erosion, Sedimentation, and Environmental Controls," of the standard specifications, is hereby voided and replaced with the following.

1. DESCRIPTION

Install, maintain, and remove erosion, sedimentation, and environmental control measures to prevent or reduce the discharge of pollutants in accordance with the Storm Water Pollution Prevention Plan (SWP3) in the plans and the Texas Pollutant Discharge Elimination System (TPDES) General Permit TXR150000.

2. MATERIALS

Furnish materials in accordance with the following:

- Item 161, "Compost"
- Item 432, "Riprap"
- Item 556, "Pipe Underdrains"

2.1. **Rock Filter Dams**.

2.1.1. **Aggregate**. Furnish aggregate with hardness, durability, cleanliness, and resistance to crumbling, flaking, and eroding acceptable to the Owner. Provide the following:

- Types 1, 2, and 4 Rock Filter Dams. Use 3 to 6 in. aggregate.
- Type 3 Rock Filter Dams. Use 4 to 8 in. aggregate.

2.1.2. **Wire**. Provide minimum 20 gauge galvanized wire for the steel wire mesh and tie wires for Types 2 and 3 rock filter dams. Type 4 dams require:

- a double-twisted, hexagonal weave with a nominal mesh opening of 2-1/2 in. × 3-1/4 in.;
- minimum 0.0866 in. steel wire for netting;
- minimum 0.1063 in. steel wire for selvages and corners; and
- minimum 0.0866 in. for binding or tie wire.

2.1.3. **Sandbag Material**. Furnish sandbags meeting Section 506.2.8., "Sandbags," except that any gradation of aggregate may be used to fill the sandbags.

2.2. **Temporary Pipe Slope Drains**. Provide corrugated metal pipe, polyvinyl chloride (PVC) pipe, flexible tubing, watertight connection bands, grommet materials, prefabricated fittings, and flared entrance sections that conform to the plans. Recycled and other materials meeting these requirements are allowed if approved.

Furnish concrete in accordance with Item 432, "Riprap."

2.3. **Temporary Paved Flumes**. Furnish asphalt concrete, hydraulic cement concrete, or other comparable non-erodible material that conforms to the plans. Provide rock or rubble with a minimum diameter of 6 in. and a maximum volume of 1/2 cu. ft. for the construction of energy dissipaters.

2.4. **Construction Exits**. Provide materials that meet the details shown on the plans and this Section.

2.4.1. **Rock Construction Exit**. Provide crushed aggregate for long- and short-term construction exits. Furnish aggregates that are clean, hard, durable, and free from adherent coatings such as salt, alkali, dirt, clay, loam, shale, soft or flaky materials, and organic and injurious matter. Use 4- to 8-in. aggregate for Type 1. Use 2- to 4-in. aggregate for Type 3.

2.4.2. **Timber Construction Exit**. Furnish No. 2 quality or better railroad ties and timbers for long-term construction exits, free of large and loose knots and treated to control rot. Fasten timbers with nuts and bolts or lag bolts, of at least 1/2 in. diameter, unless otherwise shown on the plans or allowed. Provide plywood or pressed wafer board at least 1/2 in. thick for short-term exits.

2.4.3. **Foundation Course**. Provide a foundation course consisting of flexible base, bituminous concrete, hydraulic cement concrete, or other materials as shown on the plans or directed.

2.5. **Embankment for Erosion Control**. Provide rock, loam, clay, topsoil, or other earth materials that will form a stable embankment to meet the intended use.

2.6. **Pipe**. Provide pipe outlet material in accordance with Item 556, "Pipe Underdrains," and details shown on the plans.

2.7. **Construction Perimeter Fence**.

2.7.1. **Posts**. Provide essentially straight wood or steel posts that are at least 60 in. long. Furnish soft wood posts with a minimum diameter of 3 in., or use nominal 2 × 4 in. boards. Furnish hardwood posts with a minimum cross-section of 1-1/2 × 1-1/5 in. Furnish T- or L-shaped steel posts with a minimum weight of 0.5 lb. per foot.

2.7.2. **Fence**. Provide orange construction fencing as approved.

2.7.3. **Fence Wire**. Provide 11 gauge or larger galvanized smooth or twisted wire. Provide 16 gauge or larger tie wire.

2.7.4. **Flagging**. Provide brightly-colored flagging that is fade-resistant and at least 3/4 in. wide to provide maximum visibility both day and night.

2.7.5. **Staples**. Provide staples with a crown at least 1/2 in. wide and legs at least 1/2 in. long.

2.7.6. **Used Materials**. Previously used materials meeting the applicable requirements may be used if approved.

2.8. **Sandbags**. Provide sandbag material of polypropylene, polyethylene, or polyamide woven fabric with a minimum unit weight of 4 oz. per square yard, a Mullen burst-strength exceeding 300 psi, and an ultraviolet stability exceeding 70%.

Use natural coarse sand or manufactured sand meeting the gradation given in Table 1 to fill sandbags. Filled sandbags must be 24 to 30 in. long, 16 to 18 in. wide, and 6 to 8 in. thick.

Table 1
Sand Gradation

Sieve #	Retained (% by Weight)
4	Maximum 3%
100	Minimum 80%
200	Minimum 95%

Aggregate may be used instead of sand for situations where sandbags are not adjacent to traffic. The aggregate size shall not exceed 3/8 in.

2.9. **Temporary Sediment Control Fence**. Provide a net-reinforced fence using woven geo-textile fabric. Logos visible to the traveling public will not be allowed.

2.9.1. **Fabric**. Provide fabric materials in accordance with DMS-6230, "Temporary Sediment Control Fence Fabric."

2.9.2. **Posts**. Provide essentially straight wood or steel posts with a minimum length of 48 in., unless otherwise shown on the plans. Furnish soft wood posts at least 3 in. in diameter, or use nominal 2 × 4 in. boards. Furnish hardwood posts with a minimum cross-section of 1-1/2 × 1-1/2 in. Furnish T- or L-shaped steel posts with a minimum weight of 1.3 lb. per foot.

2.9.3. **Net Reinforcement**. Provide net reinforcement of at least 12-1/2 gauge galvanized welded wire mesh, with a maximum opening size of 2 × 4 in., at least 24 in. wide, unless otherwise shown on the plans.

2.9.4. **Staples**. Provide staples with a crown at least 3/4 in. wide and legs 1/2 in. long.

2.9.5. **Used Materials**. Use recycled material meeting the applicable requirements if approved.

2.10. **Biodegradable Erosion Control Logs**.

2.10.1. **Core Material**. Furnish core material that is biodegradable or recyclable. Use compost, mulch, aspen excelsior wood fibers, chipped site vegetation, agricultural rice or wheat straw, coconut fiber, 100% recyclable fibers, or any other acceptable material unless specifically called out on the plans. Permit no more than 5% of the material to escape from the containment mesh. Furnish compost meeting the requirements of Item 161, "Compost."

2.10.2. **Containment Mesh**. Furnish containment mesh that is 100% biodegradable, photodegradable, or recyclable such as burlap, twine, UV photodegradable plastic, polyester, or any other acceptable material.

Furnish biodegradable or photodegradable containment mesh when log will remain in place as part of a vegetative system.

Furnish recyclable containment mesh for temporary installations.

2.10.3. **Size**. Furnish biodegradable erosion control logs with diameters shown on the plans or as directed. Stuff containment mesh densely so logs do not deform.

3. CONSTRUCTION

3.1. **Contractor Responsibilities**. Implement the Owner's Storm Water Pollution Prevention Plan (SWP3) for the project in accordance with the plans and specifications, TPDES General Permit TXR150000, and as directed by the Owner. Develop and implement an SWP3 for project-specific material supply plants within and outside of the Owner's right of way in accordance with the specific or general storm water permit requirements. Prevent water pollution from storm water associated with construction activity from entering any surface water or private property on or adjacent to the project site.

3.2. **General.**

3.2.1. **Phasing**. Implement control measures in the area to be disturbed before beginning construction, or as directed. Limit the disturbance to the area shown on the plans or as directed. If, in the opinion of the Owner, the Contractor cannot control soil erosion and sedimentation resulting from construction operations, the Owner will limit the disturbed area to that which the Contractor is able to control. Minimize disturbance to vegetation.

3.2.2. **Maintenance**. Immediately correct ineffective control measures. Implement additional controls as directed. Remove excavated material within the time requirements specified in the applicable storm water permit.

3.2.3. **Stabilization**. Stabilize disturbed areas where construction activities will be temporarily stopped in accordance with the applicable storm water permit. Establish a uniform vegetative cover. The project will not be accepted until a 70% density of existing adjacent undisturbed areas is obtained, unless otherwise shown on the plans. When shown on the plans, the Owner may accept the project when adequate controls are in place that will control erosion, sedimentation, and water pollution until sufficient vegetative cover can be established.

3.2.4. **Finished Work**. Upon acceptance of vegetative cover, remove and dispose of all temporary control measures, temporary embankments, bridges, matting, falsework, piling, debris, or other obstructions placed during construction that are not a part of the finished work, or as directed.

3.2.5. **Restricted Activities and Required Precautions**. Do not discharge onto the ground or surface waters any pollutants such as chemicals, raw sewage, fuels, lubricants, coolants, hydraulic fluids, bitumens, or any other petroleum product. Operate and maintain equipment on-site to prevent actual or potential water pollution. Manage, control, and dispose of litter on-site such that no adverse impacts to water quality occur. Prevent dust from creating a potential or actual unsafe condition, public nuisance, or condition endangering the value, utility, or appearance of any property. Wash out concrete trucks only as described in the TPDES General Permit TXR150000. Utilize appropriate controls to minimize the offsite transport of suspended sediments and other pollutants if it is necessary to pump or channel standing water (i.e. dewatering). Prevent discharges that would contribute to a violation of Edwards Aquifer Rules, water quality standards, the impairment of a listed water body, or other state or federal law.

3.3. **Installation, Maintenance, and Removal Work**. Perform work in accordance with the SWP3, according to manufacturers' guidelines, and in accordance with the TPDES General Permit TXR150000. Install and maintain the integrity of temporary erosion and sedimentation control devices to accumulate silt and debris until soil disturbing activities are completed and permanent erosion control features are in place or the disturbed area has been adequately stabilized as determined by the Owner. . If a device ceases to function as intended, repair or replace the device or portions thereof as necessary. Remove sediment, debris, and litter. When approved, sediments may be disposed of within embankments, or in the right of way in areas where the material will not contribute to further siltation. Dispose of removed material in accordance with federal, state, and local regulations.

Remove devices upon approval or as directed. Finish-grade and dress the area upon removal. Stabilize disturbed areas in accordance with the permit, and as shown on the plans or directed. Materials removed are considered consumed by the project. Retain ownership of stockpiled material and remove it from the project when new installations or replacements are no longer required.

3.3.1. **Rock Filter Dams for Erosion Control.** Remove trees, brush, stumps, and other objectionable material that may interfere with the construction of rock filter dams. Place sandbags as a foundation when required or at the Contractor's option.

Place the aggregate to the lines, height, and slopes specified, without undue voids for Types 1, 2, 3, and 5. Place the aggregate on the mesh and then fold the mesh at the upstream side over the aggregate and secure it to itself on the downstream side with wire ties, or hog rings for Types 2 and 3, or as directed. Place rock filter dams perpendicular to the flow of the stream or channel unless otherwise directed. Construct filter dams according to the following criteria unless otherwise shown on the plans:

3.3.1.1. **Type 1 (Non-reinforced)**.

3.3.1.1.1. **Height**. At least 18 in. measured vertically from existing ground to top of filter dam.

3.3.1.1.2. **Top Width**. At least 2 ft.

3.3.1.1.3. **Slopes**. No steeper than 2:1.

3.3.1.2. **Type 2 (Reinforced)**.

3.3.1.2.1. **Height**. At least 18 in. measured vertically from existing ground to top of filter dam.

3.3.1.2.2. **Top Width**. At least 2 ft.

3.3.1.2.3. **Slopes**. No steeper than 2:1.

3.3.1.3. **Type 3 (Reinforced)**.

3.3.1.3.1. **Height**. At least 36 in. measured vertically from existing ground to top of filter dam.

3.3.1.3.2. **Top Width**. At least 2 ft.

3.3.1.3.3. **Slopes**. No steeper than 2:1.

3.3.1.4. **Type 4 (Sack Gabions)**. Unfold sack gabions and smooth out kinks and bends. Connect the sides by lacing in a single loop–double loop pattern on 4- to 5-in. spacing for vertical filling. Pull the end lacing rod at one end until tight, wrap around the end, and twist 4 times. Fill with stone at the filling end, pull the rod tight, cut the wire with approximately 6 in. remaining, and twist wires 4 times.

Place the sack flat in a filling trough, fill with stone, connect sides, and secure ends as described above for horizontal filling.

Lift and place without damaging the gabion. Shape sack gabions to existing contours.

3.3.1.5. **Type 5**. Provide rock filter dams as shown on the plans.

3.3.2. **Temporary Pipe Slope Drains**. Install pipe with a slope as shown on the plans or as directed. Construct embankment for the drainage system in 8-in. lifts to the required elevations. Hand-tamp the soil around and under the entrance section to the top of the embankment as shown on the plans or as directed. Form the top of the embankment or earth dike over the pipe slope drain at least 1 ft. higher than the top of the inlet pipe at all points. Secure the pipe with hold-downs or hold-down grommets spaced a maximum of 10 ft. on center. Construct the energy dissipaters or sediment traps as shown on the plans or as directed. Construct the sediment trap using concrete or rubble riprap in accordance with Item 432, “Riprap,” when designated on the plans.

3.3.3. **Temporary Paved Flumes**. Construct paved flumes as shown on the plans or as directed. Provide excavation and embankment (including compaction of the subgrade) of material to the dimensions shown on the plans unless otherwise indicated. Install a rock or rubble riprap energy dissipater, constructed from the materials specified above, to a minimum depth of 9 in. at the flume outlet to the limits shown on the plans or as directed.

3.3.4. **Construction Exits**. Prevent traffic from crossing or exiting the construction site or moving directly onto a public roadway, alley, sidewalk, parking area, or other right of way areas other than at the location of construction exits when tracking conditions exist. Construct exits for either long- or short-term use.

3.3.4.1. **Long-Term**. Place the exit over a foundation course as required. Grade the foundation course or compacted subgrade to direct runoff from the construction exits to a sediment trap as shown on the plans or as directed. Construct exits with a width of at least 14 ft. for one-way and 20 ft. for two-way traffic for the full width of the exit, or as directed.

3.3.4.1.1. **Type 1**. Construct to a depth of at least 8 in. using crushed aggregate as shown on the plans or as directed.

3.3.4.1.2. **Type 2**. Construct using railroad ties and timbers as shown on the plans or as directed.

3.3.4.2. **Short-Term**.

3.3.4.2.1. **Type 3**. Construct using crushed aggregate, plywood, or wafer board. This type of exit may be used for daily operations where long-term exits are not practical.

3.3.4.2.2. **Type 4**. Construct as shown on the plans or as directed.

3.3.5. **Earthwork for Erosion Control**. Perform excavation and embankment operations to minimize erosion and to remove collected sediments from other erosion control devices.

3.3.5.1. **Excavation and Embankment for Erosion Control Features**. Place earth dikes, swales, or combinations of both along the low crown of daily lift placement, or as directed, to prevent runoff spillover. Place swales and dikes at other locations as shown on the plans or as directed to prevent runoff spillover or to divert runoff. Construct cuts with the low end blocked with undisturbed earth to prevent erosion of hillsides. Construct sediment traps at drainage structures in conjunction with other erosion control measures as shown on the plans or as directed.

Create a sediment basin, where required, providing 3,600 cu. ft. of storage per acre drained, or equivalent control measures for drainage locations that serve an area with 10 or more disturbed acres at one time, not including offsite areas.

3.3.5.2. **Excavation of Sediment and Debris**. Remove sediment and debris when accumulation affects the performance of the devices, after a rain, and when directed.

3.3.6. **Construction Perimeter Fence**. Construct, align, and locate fencing as shown on the plans or as directed.

3.3.6.1. **Installation of Posts**. Embed posts 18 in. deep or adequately anchor in rock, with a spacing of 8 to 10 ft.

3.3.6.2. **Wire Attachment**. Attach the top wire to the posts at least 3 ft. from the ground. Attach the lower wire midway between the ground and the top wire.

3.3.6.3. **Flag Attachment**. Attach flagging to both wire strands midway between each post. Use flagging at least 18 in. long. Tie flagging to the wire using a square knot.

3.3.7. **Sandbags for Erosion Control**. Construct a berm or dam of sandbags that will intercept sediment-laden storm water runoff from disturbed areas, create a retention pond, detain sediment, and release water in sheet flow. Fill each bag with sand so that at least the top 6 in. of the bag is unfilled to allow for proper tying of the open end. Place the sandbags with their tied ends in the same direction. Offset subsequent rows of sandbags 1/2 the length of the preceding row. Place a single layer of sandbags downstream as a secondary debris trap. Place additional sandbags as necessary or as directed for supplementary support to berms or dams of sandbags or earth.

3.3.8. **Temporary Sediment-Control Fence**. Provide temporary sediment-control fence near the downstream perimeter of a disturbed area to intercept sediment from sheet flow. Incorporate the fence into erosion-control measures used to control sediment in areas of higher flow. Install the fence as shown on the plans, as specified in this Section, or as directed.

3.3.8.1. **Installation of Posts**. Embed posts at least 18 in. deep, or adequately anchor, if in rock, with a spacing of 6 to 8 ft. and install on a slight angle toward the runoff source.

3.3.8.2. **Fabric Anchoring**. Dig trenches along the uphill side of the fence to anchor 6 to 8 in. of fabric. Provide a minimum trench cross-section of 6 × 6 in. Place the fabric against the side of the trench and align approximately 2 in. of fabric along the bottom in the upstream direction. Backfill the trench, then hand-tamp.

3.3.8.3. **Fabric and Net Reinforcement Attachment**. Attach the reinforcement to wooden posts with staples, or to steel posts with T-clips, in at least 4 places equally spaced unless otherwise shown on the plans. Sewn vertical pockets may be used to attach reinforcement to end posts. Fasten the fabric to the top strand of reinforcement by hog rings or cord every 15 in. or less.

3.3.8.4. **Fabric and Net Splices**. Locate splices at a fence post with a minimum lap of 6 in. attached in at least 6 places equally spaced unless otherwise shown on the plans. Do not locate splices in concentrated flow areas.

Requirements for installation of used temporary sediment-control fence include the following:

- fabric with minimal or no visible signs of biodegradation (weak fibers),
- fabric without excessive patching (more than 1 patch every 15 to 20 ft.),
- posts without bends, and
- backing without holes.

3.3.9. **Biodegradable Erosion Control Logs**. Install biodegradable erosion control logs near the downstream perimeter of a disturbed area to intercept sediment from sheet flow. Incorporate the biodegradable erosion control logs into the erosion measures used to control sediment in areas of higher flow. Install, align, and locate the biodegradable erosion control logs as specified below, as shown in plans or as directed.

Secure biodegradable erosion control logs in a method adequate to prevent displacement as a result of normal rain events, prevent damage to the logs, and to the satisfaction of the Owner such that flow is not allowed under the logs. Temporarily removing and replacing biodegradable erosion logs as to facilitate daily work is allowed at the Contractor's expense.

3.3.10. **Vertical Tracking**. Perform vertical tracking on slopes to temporarily stabilize soil. Provide equipment with a track undercarriage capable of producing a linear soil impression measuring a minimum of 12 in. long × 2 to 4 in. wide × 1/2 to 2 in. deep. Do not exceed 12 in. between track impressions. Install continuous linear track impressions where the 12 in. length impressions are perpendicular to the slope. Vertical tracking is required on projects where soil disturbing activities have occurred unless otherwise approved.

4. MEASUREMENT

4.1. **Rock Filter Dams**. Installation or removal of rock filter dams will be measured by the foot or by the cubic yard. The measured volume will include sandbags, when used.

4.1.1. **Linear Measurement**. When rock filter dams are measured by the foot, measurement will be along the centerline of the top of the dam.

4.1.2. **Volume Measurement**. When rock filter dams are measured by the cubic yard, measurement will be based on the volume of rock computed by the method of average end areas.

4.1.2.1. **Installation**. Measurement will be made in final position.

4.1.2.2. **Removal**. Measurement will be made at the point of removal.

4.2. **Temporary Pipe Slope Drains**. Temporary pipe slope drains will be measured by the foot.

4.3. **Temporary Paved Flumes**. Temporary paved flumes will be measured by the square yard of surface area. The measured area will include the energy dissipater at the flume outlet.

4.4. **Construction Exits**. Construction exits will be measured by the square yard of surface area.

4.5. **Earthwork for Erosion and Sediment Control**.

4.5.1. **Equipment and Labor Measurement**. Equipment and labor used will be measured by the actual number of hours the equipment is operated and the labor is engaged in the work.

4.5.2. **Volume Measurement**.

4.5.2.1. **In Place**.

4.5.2.1.1. **Excavation**. Excavation will be measured by the cubic yard in its original position and the volume computed by the method of average end areas.

4.5.2.1.2. **Embankment**. Embankment will be measured by the cubic yard in its final position by the method of average end areas. The volume of embankment will be determined between:

- the original ground surfaces or the surface upon that the embankment is to be constructed for the feature and
- the lines, grades and slopes of the accepted embankment for the feature.

4.5.2.2. **In Vehicles**. Excavation and embankment quantities will be combined and paid for under "Earthwork (Erosion and Sediment Control, In Vehicle)." Excavation will be measured by the cubic yard in vehicles at the point of removal. Embankment will be measured by the cubic yard in vehicles measured at the point of delivery. Shrinkage or swelling factors will not be considered in determining the calculated quantities.

4.6. **Construction Perimeter Fence**. Construction perimeter fence will be measured by the foot.

4.7. **Sandbags for Erosion Control**. Sandbags will be measured as each sandbag or by the foot along the top of sandbag berms or dams.

4.8. **Temporary Sediment-Control Fence**. Installation or removal of temporary sediment-control fence will be measured by the foot.

4.9. **Biodegradable Erosion Control Logs**. Installation or removal of biodegradable erosion control logs will be measured by the foot along the centerline of the top of the control logs.

4.10. **Vertical Tracking**. Vertical tracking will not be measured or paid for directly but is considered subsidiary to this Item.

5. PAYMENT

The following will not be paid for directly but are subsidiary to pertinent Items:

- erosion-control measures for Contractor project-specific locations (PSLs) inside and outside the right of way (such as construction and haul roads, field offices, equipment and supply areas, plants, and material sources);
- removal of litter, unless a separate pay item is shown on the plans;
- repair to devices and features damaged by Contractor operations;
- added measures and maintenance needed due to negligence, carelessness, lack of maintenance, and failure to install permanent controls;
- removal and reinstallation of devices and features needed for the convenience of the Contractor;
- finish grading and dressing upon removal of the device; and
- minor adjustments including but not limited to plumbing posts, reattaching fabric, minor grading to maintain slopes on an erosion embankment feature, or moving small numbers of sandbags.

Stabilization of disturbed areas will be paid for under pertinent Items.

Furnishing and installing pipe for outfalls associated with sediment traps and ponds will not be paid for directly but is subsidiary to the excavation and embankment under this Item.

5.1. **Rock Filter Dams**. The work performed and materials furnished in accordance with this Item and measured as provided under "Measurement" will be paid for at the unit price bid as follows:

5.1.1. **Installation**. Installation will be paid for as "Rock Filter Dams (Install)" of the type specified. This price is full compensation for furnishing and operating equipment, finish backfill and grading, lacing, proper disposal, labor, materials, tools, and incidentals.

5.1.2. **Removal**. Removal will be paid for as "Rock Filter Dams (Remove)." This price is full compensation for furnishing and operating equipment, proper disposal, labor, materials, tools, and incidentals.

When the Owner directs that the rock filter dam installation or portions thereof be replaced, payment will be made at the unit price bid for "Rock Filter Dams (Remove)" and for "Rock Filter Dams (Install)" of the type specified. This price is full compensation for furnishing and operating equipment, finish backfill and grading, lacing, proper disposal, labor, materials, tools, and incidentals.

5.2. **Temporary Pipe Slope Drains**. The work performed and materials furnished in accordance with this Item and measured as provided under "Measurement" will be paid for at the unit price bid for "Temporary Pipe Slope Drains" of the size specified. This price is full compensation for furnishing materials, removal and disposal, furnishing and operating equipment, labor, tools, and incidentals.

Removal of temporary pipe slope drains will not be paid for directly but is subsidiary to the installation Item. When the Owner directs that the pipe slope drain installation or portions thereof be replaced, payment will be made at the unit price bid for "Temporary Pipe Slope Drains" of the size specified, which is full compensation for the removal and reinstallation of the pipe drain.

Earthwork required for the pipe slope drain installation, including construction of the sediment trap, will be measured and paid for under "Earthwork for Erosion and Sediment Control."

Riprap concrete or stone, when used as an energy dissipater or as a stabilized sediment trap, will be measured and paid for in accordance with Item 432, "Riprap."

5.3. **Temporary Paved Flumes**. The work performed and materials furnished in accordance with this Item and measured as provided under "Measurement" will be paid for at the unit price bid for "Temporary Paved Flume (Install)" or "Temporary Paved Flume (Remove)." This price is full compensation for furnishing and placing materials, removal and disposal, equipment, labor, tools, and incidentals.

When the Owner directs that the paved flume installation or portions thereof be replaced, payment will be made at the unit prices bid for "Temporary Paved Flume (Remove)" and "Temporary Paved Flume (Install)." These prices are full compensation for the removal and replacement of the paved flume and for equipment, labor, tools, and incidentals.

Earthwork required for the paved flume installation, including construction of a sediment trap, will be measured and paid for under "Earthwork for Erosion and Sediment Control."

5.4. **Construction Exits**. Contractor-required construction exits from off right of way locations or on-right of way PSLs will not be paid for directly but are subsidiary to pertinent Items.

The work performed and materials furnished in accordance with this Item and measured as provided under "Measurement" for construction exits needed on right of way access to work areas required by the Owner will be paid for at the unit price bid for "Construction Exits (Install)" of the type specified or "Construction Exits (Remove)." This price is full compensation for furnishing and placing materials, excavating, removal and disposal, cleaning vehicles, labor, tools, and incidentals.

When the Owner directs that a construction exit or portion thereof be removed and replaced, payment will be made at the unit prices bid for "Construction Exit (Remove)" and "Construction Exit (Install)" of the type specified. These prices are full compensation for the removal and replacement of the construction exit and for equipment, labor, tools, and incidentals.

Construction of sediment traps used in conjunction with the construction exit will be measured and paid for under "Earthwork for Erosion and Sediment Control."

5.5. **Earthwork for Erosion and Sediment Control**.

5.5.1. **Initial Earthwork for Erosion and Sediment Control**. The work performed and materials furnished in accordance with this Item and measured as provided under "Measurement" will be paid for at the unit price bid for "Excavation (Erosion and Sediment Control, In Place)," "Embankment (Erosion and Sediment Control, In Place)," "Excavation (Erosion and Sediment Control, In Vehicle)," "Embankment (Erosion and Sediment Control, (In Vehicle)," or "Earthwork (Erosion and Sediment Control, In Vehicle)."

This price is full compensation for excavation and embankment including hauling, disposal of material not used elsewhere on the project; embankments including furnishing material from approved sources and construction of erosion-control features; and equipment, labor, tools, and incidentals.

Sprinkling and rolling required by this Item will not be paid for directly, but will be subsidiary to this Item.

5.5.2. **Maintenance Earthwork for Erosion and Sediment Control for Cleaning and Restoring Control Measures**. The work performed and materials furnished in accordance with this Item and measured as provided under "Measurement" will be paid under a Contractor Force Account Item from invoice provided to the Owner.

This price is full compensation for excavation, embankment, and re-grading including removal of accumulated sediment in various erosion control installations as directed, hauling, and disposal of material not used elsewhere on the project; excavation for construction of erosion-control features; embankments including furnishing material from approved sources and construction of erosion-control features; and equipment, labor, tools, and incidentals.

Earthwork needed to remove and obliterate erosion-control features will not be paid for directly but is subsidiary to pertinent Items unless otherwise shown on the plans.

Sprinkling and rolling required by this Item will not be paid for directly, but will be subsidiary to this Item.

5.6. **Construction Perimeter Fence**. The work performed and materials furnished in accordance with this Item and measured as provided under "Measurement" will be paid for at the unit price bid for "Construction Perimeter Fence." This price is full compensation for furnishing and placing the fence; digging, fence posts, wire, and flagging; removal and disposal; and materials, equipment, labor, tools, and incidentals.

Removal of construction perimeter fence will be not be paid for directly but is subsidiary to the installation Item. When the Owner directs that the perimeter fence installation or portions thereof be removed and replaced, payment will be made at the unit price bid for "Construction Perimeter Fence," which is full compensation for the removal and reinstallation of the construction perimeter fence.

5.7. **Sandbags for Erosion Control**. Sandbags will be paid for at the unit price bid for "Sandbags for Erosion Control" (of the height specified when measurement is by the foot). This price is full compensation for materials, placing sandbags, removal and disposal, equipment, labor, tools, and incidentals.

Removal of sandbags will not be paid for directly but is subsidiary to the installation Item. When the Owner directs that the sandbag installation or portions thereof be replaced, payment will be made at the unit price bid for "Sandbags for Erosion Control," which is full compensation for the reinstallation of the sandbags.

5.8. **Temporary Sediment-Control Fence**. The work performed and materials furnished in accordance with this Item and measured as provided under "Measurement" will be paid for at the unit price bid as follows:

5.8.1. **Installation**. Installation will be paid for as "Temporary Sediment-Control Fence (Install)." This price is full compensation for furnishing and operating equipment finish backfill and grading, lacing, proper disposal, labor, materials, tools, and incidentals.

5.8.2. **Removal**. Removal will be paid for as "Temporary Sediment-Control Fence (Remove)." This price is full compensation for furnishing and operating equipment, proper disposal, labor, materials, tools, and incidentals.

5.9. **Biodegradable Erosion Control Logs**. The work performed and materials furnished in accordance with this Item and measured as provided under "Measurement" will be paid for at the unit price bid as follows:

5.9.1. **Installation**. Installation will be paid for as "Biodegradable Erosion Control Logs (Install)" of the size specified. This price is full compensation for furnishing and operating equipment finish backfill and grading, staking, proper disposal, labor, materials, tools, and incidentals.

5.9.2. **Removal**. Removal will be paid for as "Biodegradable Erosion Control Logs (Remove)." This price is full compensation for furnishing and operating equipment, proper disposal, labor, materials, tools, and incidentals.

5.10. **Vertical Tracking**. Vertical tracking will not be measured or paid for directly but is considered subsidiary to this Item.

State of Texas Child Support Business Ownership Form

County: Cameron County

Project Name: Southmost Nature Trails Phas

TxDOT CSJ: 141-26-BMT-IFB

LG Project Number: 141-26-BMT-IFB

Business Entity Submitting Bid: 2GS LLC dba Earthworks Enterprise

Section 231.006, Family Code, requires a bid for a contract paid from state funds to include the names and social security number of individuals owning 25% or more of the business entity submitting the bid.

1. In the spaces below please provide the names and social security number of individuals owning 25% or more of the business.

Name	Social Security Number
Humberto Garcia JR.	[redacted]
Jorge A Andrade	[redacted]

2. Please check the box below if no individual owns 25% or more of the business.

( ) No individual own 25% or more of the business.

Except as provided by Section 231.302(d), Family Code, a social security number is confidential and may be disclosed only for the purpose of responding to a request for information from an agency operating under the provisions of Part A and D to Title IV of the Federal Social Security Act (42 USC Section 601-617 and 651-699).

Under Section 231.006, Family Code, the vendor or applicant certifies that the individual or business entity named in this contract, bid, or application is not ineligible to receive the specified grant, loan, or payment and acknowledges that this contract may be terminated and payment may be withheld if this certification is inaccurate.

The information collected on this form will be maintained by Enter Local Government Name. With few exceptions, you are entitled on request to be informed about the information collected about you. Under Sections 552.021 and 552.023 of the Texas Government Code, you also are entitled to receive and review the information. Under Section 559.004 of the Government Code, you are also entitled to have information about you corrected that you believe is incorrect.

Brownsville, Texas 78520

RE: Southmost Nature Trail Phase III Project
Letter to Award
CSJ# 0921-06-360 / City of Brownsville

Dear Mayor Cowen:

We have completed our review of the bid package and analysis that was included with the City of Brownsville (City) letter dated July 24, 2026, and we do concur with awarding the contract to 2GS LLC dba Earthworks Enterprise with their low bid amount of $1,539,579.07. The City may now award the contract and move forward with construction operations.

Ms. Yahaira Marroquin, out of the San Benito Area Office, will serve as our construction project manager and your point of contact from this point forward. Please work directly with her to ensure all requirements are met for you to receive the federal/state funding participation outlined in the Advance Funding Agreement. Ms. Marroquin can be contacted at (956)-399-5102 or Yahaira.Marroquin@txdot.gov. In addition, and as a reminder, the local government construction procedures that the City of Brownsville will need to follow can be found at http://www.txdot.gov/government/processes-procedures/lgp-toolkit.html.

If you have any questions, feel free to call me or our Design Support Supervisor, Agustin Ramirez, P.E. at (956) 702-6304.

Sincerely,

DocuSigned by:

RE: TxDOT Vendor Number 26664

Dear Contractor:

Your Confidential Questionnaire is satisfactory and qualifies you to bid on projects let by the Texas Department of Transportation (TxDOT) from the date of this letter through December 31, 2026.

Your bidding capacity has been set at $77,212,530.00. You may request and receive bidding proposals for projects on which the engineer's estimate does not exceed your bidding capacity, less any uncompleted work currently under contract with TxDOT.

If we may be of further assistance, please contact our Pre-qualification Branch at 512/416-2584.

Sincerely,

Greg Williams

Construction Division

Form 2 - Statement Of Conflicts Of Interest (If Any)

Conflict of Interest Disclosure Instructions

The Respondent must disclose any conflicts of interest related to the goods and/or services associated with this solicitation. A conflict-of-interest statement is required if any conflicts exist, along with a detailed plan for mitigating the conflict(s). The City reserves the sole discretion to determine whether a conflict disqualifies a firm and/or whether a conflict mitigation plan is acceptable.

If a conflict of interest exists, the Respondent must:

- Complete Form CIQ
- File the form with the City Secretary
- Include a copy of the completed Form CIQ with the proposal

If no conflict of interest exists, Form CIQ is not required. Regardless of whether a conflict exists, this Form 2 must be completed and signed.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Chapter 176, Texas Local Government Code, regarding conflict-of-interest disclosures.
2. The Respondent understands that a completed Texas Ethics Commission Form CIQ must be filed with the City Secretary's Office of the City of Brownsville, Texas, within seven (7) business days after the Respondent becomes aware of a conflict.
3. The Respondent acknowledges that the completed Form CIQ is a public record and will be made available by the City Secretary in accordance with state law.
4. The Respondent understands that failure to file a required Form CIQ is a violation of state law and may result in penalties under Texas Local Government Code §176.006 and possible disqualification from consideration for award.
5. The Respondent shall submit this acknowledgment form as part of its solicitation response and attach a copy of the completed TEC Form CIQ, if applicable.

City Secretary Contact Information

City of Brownsville – Office of the City Secretary
1001 East Elizabeth Street, Brownsville, Texas 78520
Email: citysecretary@brownsvilletx.gov
Phone: (956) 548-6000

Certification

By signing below, the Respondent certifies that they have reviewed and understand the requirements of Chapter 176, Texas Local Government Code and have determined whether a conflict of interest exists. The Respondent further certifies that, if a conflict of interest exists, a completed Conflict of Interest Questionnaire (Form CIQ) has been or will be filed with the City Secretary in accordance with state law and that a copy of the completed Form CIQ is included with this submission, if applicable. The Respondent affirms that all information provided is true and correct and that they are authorized to bind the entity.

CONFLICT OF INTEREST QUESTIONNAIRE

FORM CIQ

For vendor doing business with local governmental entity

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY
Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

[redacted]

2 N/A **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

[redacted]

Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

[redacted]

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☒ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☒ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

N/A

6 N/A Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

CONFLICT OF INTEREST QUESTIONNAIRE
For vendor doing business with local governmental entity

A complete copy of Chapter 176 of the Local Government Code may be found at http://www.statutes.legis.state.tx.us/Docs/LG/htm/LG.176.htm. For easy reference, below are some of the sections cited on this form.

Local Government Code § 176.001(1-a): "Business relationship" means a connection between two or more parties based on commercial activity of one of the parties. The term does not include a connection based on:

(A) a transaction that is subject to rate or fee regulation by a federal, state, or local governmental entity or an agency of a federal, state, or local governmental entity;

(B) a transaction conducted at a price and subject to terms available to the public; or

(C) a purchase or lease of goods or services from a person that is chartered by a state or federal agency and that is subject to regular examination by, and reporting to, that agency.

Local Government Code § 176.003(a)(2)(A) and (B):

(a) A local government officer shall file a conflicts disclosure statement with respect to a vendor if:

***

(2) the vendor:

(A) has an employment or other business relationship with the local government officer or a family member of the officer that results in the officer or family member receiving taxable income, other than investment income, that exceeds $2,500 during the 12-month period preceding the date that the officer becomes aware that

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor;

(B) has given to the local government officer or a family member of the officer one or more gifts that have an aggregate value of more than $100 in the 12-month period preceding the date the officer becomes aware that:

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor.

Local Government Code § 176.006(a) and (a-1)

(a) A vendor shall file a completed conflict of interest questionnaire if the vendor has a business relationship with a local governmental entity and:

(1) has an employment or other business relationship with a local government officer of that local governmental entity, or a family member of the officer, described by Section 176.003(a)(2)(A);

(2) has given a local government officer of that local governmental entity, or a family member of the officer, one or more gifts with the aggregate value specified by Section 176.003(a)(2)(B), excluding any gift described by Section 176.003(a-1); or

(3) has a family relationship with a local government officer of that local governmental entity.

(a-1) The completed conflict of interest questionnaire must be filed with the appropriate records administrator not later than the seventh business day after the later of:

(1) the date that the vendor:

(A) begins discussions or negotiations to enter into a contract with the local governmental entity; or

(B) submits to the local governmental entity an application, response to a request for proposals or bids, correspondence, or another writing related to a potential contract with the local governmental entity; or

(2) the date the vendor becomes aware:

(A) of an employment or other business relationship with a local government officer, or a family member of the officer, described by Subsection (a);

(B) that the vendor has given one or more gifts described by Subsection (a); or

(C) of a family relationship with a local government officer.

Form 3 – Texas Ethics Commission Certificate of Interested Parties (Form 1295)

Purpose

This form serves as an acknowledgment of the statutory requirement for certain vendors to file a Certificate of Interested Parties (Form 1295) with the Texas Ethics Commission (TEC) before a contract can be executed with the City of Brownsville.

The requirement applies to any contract that:

- Must be approved by the City Commission or executed by a City official before becoming effective, or
- Otherwise meets the criteria established by the Texas Ethics Commission under Texas Government Code §2252.908 and 1 Texas Administrative Code Chapter 46.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46.
2. When applicable, the Respondent shall complete and file Form 1295 electronically at https://www.ethics.state.tx.us/filinginfo/1295/ to obtain a Certificate Number issued by the TEC.
3. The Respondent shall print and provide a PDF copy to the City of Brownsville Procurement Department **after** notice of intent to award but prior to contract execution.
4. The Respondent understands that the City may not execute a contract until a completed and verified Form 1295 is received.
5. The Respondent acknowledges that the Certificate of Interested Parties will be made publicly accessible on the TEC's website in accordance with state law.

Certification

By signing below, the undersigned Respondent certifies that they have read and understood the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46 and that a completed Form 1295 will be filed and provided to the City prior to contract execution, if applicable.

The Respondent further understands that the Form 1295 itself must be signed in accordance with TEC requirements.

FORM 14: SYSTEM FOR AWARD MANAGEMENT (SAM.GOV) RECORD SEARCH

This project is funded by Coronavirus State and Local Fiscal Recovery Funds which requires all contractors and vendors to be in good standing according to SAM.gov and the Texas State Comptroller's office.

Verification of SAM.gov Status

1. Respondent must not be suspended or debarred at the time of the proposal submittal. The proposal response package must include a completed Non-Debarment Certification Form located **on the next page** herein.
2. All Respondents must be pre-vetted for eligibility to perform the outlined ARPA funded scope of work. A printed screenshot from the SAM.gov website verifies whether the Vendor is excluded from contract participation at the federal level.

Contract Award

The ARPA Award Recipient must verify the SAM.gov status of the Respondent(s) selected for contract award prior to execution of the contract as stated in the Non-Debarment Certification Form. The final verification of the Respondent's SAM.gov status is completed prior to contract award, and in addition to the initial verification documentation provided with the proposal response submittal.

ATTACHMENT I: SYSTEM FOR AWARD MANAGEMENT (SAM.GOV) RECORD SEARCH (CONTINUED)

NON-DEBARMENT CERTIFICATION FORM			
COMPANY/ENTITY LEGAL NAME: [redacted]			
STREET ADDRESS: [redacted]			
CITY: [redacted]	**STATE:** [redacted]	**ZIP:** [redacted]	
CONTACT NAME: [redacted]			
CONTACT EMAIL: [redacted]		**CONTACT PHONE:** [redacted] (956) 424-3414	
***UEI #**	[redacted]	****TIN #**	[redacted]

*Subrecipients are required to have a Unique Entity Identifier (UEI) Number prior to an award. All entities must be pre-vetted for eligibility/ability to perform the outlined ARPA funded scope of work and a record (PDF of SAM.gov screenshot) of SAM debarment clearance must be obtained prior to entering into any final contracts. **Beneficiary Entities are required to have UEI and/or TIN.

APPLICABLE REGULATIONS: As stated in the ARPA/SLFRF Terms & Conditions: *"OMB Guidelines to Agencies on Governmentwide Debarment and Suspension (Nonprocurement), 2 CFR Part 180, including the requirement to include a term or condition in all lower tier covered transactions (contracts and subcontracts described in 2 CFR Part 180, subpart B) that the award is subject to 2 CFR Part 180 and Treasury's implementing regulation at 31 CFR Part 19."*

Also, Federal Executive Order (E.O.) 12549: "Debarment" requires that contractors, beneficiaries or subrecipient organizations and their principals – who are receiving awards, using federal funds, are not debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any federal department or agency from doing business with the federal government. By signing this document, you certify that your organization and its principals are not debarred. Failure to comply or attempts to edit this language may disqualify you from receiving or retaining funds. Information on debarment is available at the following website: www.sam.gov

Be advised that we may pursue available remedies per 2 CFR 180.360 as an ARPA recipient entity: *"If a federal agency later determines that you failed to tell the [awarding agency] that you were excluded or disqualified at the time you entered into the covered transaction with that person/awarding agency, the agency may pursue any available remedies, including suspension and debarment."*

[INITIAL]	CERTIFICATION & SIGNATURE
	We hereby certify that we are not excluded, disqualified, or debarred from receiving federally funded awards.
	We hereby confirm that if that status should change within the course of this agreement, we will provide notification immediately. Failure to do so may result in this agreement's termination and/or the repayment of funds.

Your signature certifies that the information provided on this form is correct and that neither you nor your principal(s) is/are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.

Executive Compensation

Registrants in the System for Award Management (SAM) respond to the Executive Compensation questions in accordance with Section 6202 of P.L. 110-252, amending the Federal Funding Accountability and Transparency Act (P.L. 109-282). This information is not displayed in SAM. It is sent to USAspending.gov for display in association with an eligible award. Maintaining an active registration in SAM demonstrates the registrant responded to the questions.

Proceedings Questions

Registrants in the System for Award Management (SAM.gov) respond to proceedings questions in accordance with FAR 52.209-7, FAR 52.209-9, or 2. C.F.R. 200 Appendix XII. Their responses are displayed in the responsibility/qualification section of SAM.gov. Maintaining an active registration in SAM.gov demonstrates the registrant responded to the proceedings questions.

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

==========
Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at https://www.dol.gov/agencies/whd/government-contracts.

Note: Executive Order 13658 generally applies to contracts subject to the Davis-Bacon Act that were awarded on or between January 1, 2015 and January 29, 2022, and that have not been renewed or extended on or after January 30, 2022. Executive Order 13658 does not apply to contracts subject only to the Davis-Bacon Related Acts regardless of when they were awarded. If a contract is subject to Executive Order 13658, the contractor must pay all covered workers at least $13.65 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract from May 11, 2026, through December 31, 2026. The applicable Executive Order minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under Executive Order 13658 is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than "SU", "UAVG", "SA", or "SC" denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes

over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE: UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The "SU" identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

"SU" wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The "SA" identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the "SA" identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

1) Has there been an initial decision in the matter? This can be:

a) a survey underlying a wage determination
b) an existing published wage determination
c) an initial WHD letter setting forth a position on a wage determination matter
d) an initial conformance (additional classification

and rate) determination

On survey related matters, initial contact, including requests for summaries of surveys, should be directed to the WHD Branch of Wage Surveys. Requests can be submitted via email to davisbaconinfo@dol.gov or by mail to:

Branch of Wage Surveys
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

Regarding any other wage determination matter such as conformance decisions, requests for initial decisions should be directed to the WHD Branch of Construction Wage Determinations. Requests can be submitted via email to BCWD-Office@dol.gov or by mail to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2) If an initial decision has been issued, then any interested party (those affected by the action) that disagrees with the decision can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Requests for review and reconsideration can be submitted via email to dba.reconsideration@dol.gov or by mail to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210.

FORM 13
City of Brownsville Federal Clauses Certification Form

FEDERAL CERTIFICATIONS
AGREEMENT FUNDED BY U.S. FEDERAL GRANT

TO WHOM IT MAY CONCERN:

Federal Funds will be used therefore this form should be completed and returned.

Instructions for Completing this Form
Suppliers and contractors must review each federal clause and indicate whether it applies to the specific contract. For every section below, please initial **"YES"** to confirm agreement and compliance, or **"N/A"** (Not applicable) if the clause does not apply to the scope of work or funding source.
Yes – contractor/supplier agrees to comply with the clause as written and, where applicable, will provide all required documentation or certifications.
N/A – Clause is not applicable to the contract (e.g., Davis Bacon Act for non-construction work, Buy America for non-transportation projects, etc.) Contractor/supplier must initial next to "N/A" to confirm inapplicability.
Incomplete forms or unmarked sections may disqualify contractor/supplier and/or delay contract approval.

Vendor Responsibility for Regulatory Compliance
It is the responsibility of the contractor/supplier to review, verify, and comply with the most current versions of all applicable federal provisions, clauses, and regulations referenced in this document. The contractor/supplier shall refer to official U.S. Government websites, including the Code of Federal Regulations (www.ecfr.gov), Federal Acquisition Regulation (www.acquisition.gov), and agency-specific resources (e.g., HUD, DOT, Treasury, or OMB), to ensure full and current compliance at the time of bid submission and throughout the contract term.

DEFINITIONS

Contract: A legal agreement by which a non-Federal entity purchases property or services to carry out a federally funded project.

Contractor: An entity that receives a contract as defined in Contract.

Cooperative agreement: A form of federal financial assistance used when substantial involvement is expected between the federal agency or pass-through entity and the recipient.

Federal awarding agency: The U.S. federal agency providing the funding.

Federal award: The financial assistance or cost-reimbursement contract provided directly by a federal agency or indirectly through a pass-through entity to carry out a public purpose.

Non–Federal entity (NFE): A state, local government, tribe, institution of higher education, or non profit organization that receives and administers federal funds.

Pass-Through Entity (PTE): A Non-Federal entity that provides part of its federal award to another organization (a subrecipient) to carry out a portion of the program.

Subrecipient/Subaward: A Non-Federal entity that receives federal funds from a pass-through entity to carry out part of federal program. The legal instrument documenting this relationship is the subaward.

Recipient: A Non–Federal entity receiving funds directly from a federal agency.

Simplified acquisition threshold: The current small-purchase limit established under the FAR (presently $250,000, adjusted periodically for inflation).

Obligations: Orders placed on contracts or subawards made that require payment by the Non-Federal entity.

Termination: The ending of a federal award, in whole or in part, prior to the planned end of the period of performance. These definitions are provided for reference only. For full regulatory text, see 2 C.F.R. Part 200, Subpart A (§§ 200.0-200.1).

Certification Regarding Certain Telecommunications and Video Surveillance Services or Equipment (FAR 52.204-24 & 52.204-25)

The contractor/supplier certifies compliance with the prohibitions under Section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115-232) and the Federal Acquisition Regulation (FAR) 52.204-24 and 52.204-25.

The contractor/supplier shall not provide or use any equipment, system, or service that includes covered telecommunications equipment or services from Huawei Technologies Company, ZTE Corporation, Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, Dahua Technology Company, or any subsidiary or affiliate of such entities.

If the contractor/supplier identifies any covered telecommunications equipment or services during performance, it shall immediately notify the contracting agency or the City of Brownsville in writing and provide all information required under FAR 52.204-25(d).

Does contractor/supplier agree? **YES** H.G Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

APPENDIX II TO 2 CFR PART 200 – Contract Provision for Non-Federal Entity Contracts Under Federal Awards

(A) Contracts for more than the simplified acquisition threshold currently set at $250,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Pursuant to Federal Rule (A) above, when a Participating Agency expends federal funds, the Participating Agency reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party.

Does contractor/supplier agree? **YES** H.G Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(B) Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of $10,000)

Pursuant to Federal Rule (B) above, when a Participating Agency expends federal funds, the Participating Agency reserves the right to immediately terminate any agreement in excess of $10,000 resulting from this procurement process in the event of a breach or default of the agreement by Contractor/Supplier as detailed in the terms of the contract.

Does contractor/supplier agree? **YES** H.G Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(C) **Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity**

clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 CFR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

Pursuant to Federal Rule (C) above, when a Participating Agency expends federal funds on any federally assisted construction contract, the equal opportunity clause is incorporated by reference herein.

Does contractor/supplier agree? **YES** H.G Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.
Pursuant to Federal Rule (D) above, when a Participating Agency expends federal funds during the term of an award for all contracts and subgrants for construction or repair, contractor/supplier will be in compliance with all applicable Davis-Bacon Act provisions.

Does contractor/supplier agree? **YES** H.G Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

Pursuant to Federal Rule (E) above, when a Participating Agency expends federal funds, contractor/supplier certifies that contractor/supplier will be in compliance with all applicable provisions of the Contract Work Hours and Safety Standards Act during the term of an award for all contracts by Participating Agency resulting from this procurement process.

Does contractor/supplier agree? **YES** H.G Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Pursuant to Federal Rule (F) above, when federal funds are expended by Participating Agency, the contractor/supplier certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the contractor/supplier agrees to comply with all applicable requirements as referenced in Federal Rule (F) above.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) H.G_____

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non- Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA)

In the event Federal Transit Administration (FTA) or Department of Transportation (DOT) funding is used by Participating Public Agency, contractor/Supplier also agrees to include Clean Air and Clean Water requirements in each subcontract exceeding $100,000 financed in whole or in part with Federal assistance provided by FTA.

Pursuant to Federal Rule (G) above, when federal funds are expended by Participating Agency, the contractor/supplier certifies that during the term of an award for all contracts by Participating Agency member resulting from this procurement process, the contractor/supplier agrees to comply with all applicable requirements as referenced in Federal Rule (G) above.

Does contractor/supplier agree? **YES** H.G_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(H) Prohibition on Fraud, Waste, and Abuse - The contractor/supplier certifies that it will take all reasonable steps to prevent, detect, and disclose any suspected fraud, waste, or abuse of federal funds associated with this contract, consistent with applicable laws and agency guidance. Any such activity will be promptly reported to the awarding agency, pass-through entity, or the Office of Inspector General, as appropriate.

(I) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220 cross-reference to Treasury/OMB Guidance Subpart C) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the Executive Office of the President Office of Management and Budget (OMB) guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Pursuant to Federal Rule (H) above, when federal funds are expended by Participating Agency, the contractor/supplier certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the

contractor/supplier certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency. If at any time during the term of an award the contractor/supplier or its principals becomes debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency, the contractor/supplier will notify the Participating Agency.

Does contractor/supplier agree? **YES** H.G Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(J) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

Pursuant to Federal Rule (I) above, when federal funds are expended by Participating Agency, the contractor/supplier certifies that during the term and after the awarded term of an award for all contracts by Participating Agency resulting from this procurement process, the contractor/supplier certifies that it is in compliance with all applicable provisions of the Byrd Anti-Lobbying Amendment (31 U.S.C. 1352). The undersigned further certifies that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

(3) The prospective participant also agrees by submitting his or her bid or proposal that he or she shall require that the language of this certification be included in all lower tier subcontracts, which exceed $100,000 and that all such subrecipients shall certify and disclose accordingly.

Procurement of Recovered Materials 2 C.F.R. § 200.323 / 40 C.F.R Part 247

A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable,

consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

When Participating Agency expends federal funds for any contract resulting from this procurement process, contractor/supplier certifies that it will comply with 2 C.F.R. § 200.323

Does contractor/supplier agree? **YES** H.G Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

RECORD RETENTION REQUIREMENTS FOR CONTRACTS INVOLVING FEDERAL FUNDS

When federal funds are expended by Participating Agency for any contract resulting from this procurement process, contractor/supplier certifies that it will comply with the record retention requirements detailed in 2 CFR §§ 200.334-200.337. The contractor/supplier further certifies that contractor/supplier will retain all records as required by 2 CFR § 200.334 for a period of three years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

Does contractor/supplier agree? **YES** H.G Initials of Authorized Representative of contractor/supplier.

CERTIFICATION OF COMPLIANCE WITH BUY AMERICA PROVISIONS

To the extent purchases are made with Federal Highway Administration, Federal Railroad Administration, or Federal Transit Administration funds, contractor/supplier certifies that its products comply with all applicable provisions of the Buy America Act and agrees to provide such certification or applicable waiver with respect to specific products to any Participating Agency upon request. Purchases made in accordance with the Buy America Act must still follow the applicable procurement rules calling for free and open competition. Additionally:

(1) The Contractor agrees to comply with 49 USC 5323(j) and 49 CFR Part 661, which provide that federal funds may not be obligated unless steel, iron and manufactured products used in FTA-funded projects are produced in the United States, unless a waiver has been granted by FTA or the product is subject to a general waiver. General waivers are listed in 49 CFR 661.7.A general public interest waiver from the Buy America requirements applies to microprocessors, computers, microcomputers, software or other such devices, which are used solely for the purpose of processing or storing data. This general waiver does not extend to a product or device that merely contains a microprocessor or microcomputer and is not used solely for the purpose of processing or storing data. Separate requirements for rolling stock are set out at 5323(j)(2)(C) and 49 CFR 661.11.

(2) A bidder or contractor/supplier must submit to the FTA recipient the appropriate Buy America certification with all bids on FTA- funded contracts, except those subject to a general waiver. Bids or offers that are not accompanied by a completed Buy America certification must be rejected as nonresponsive. This requirement does not apply to lower-tier subcontractors.

The following certificates titled FTA and DOT Buy America Certification should be completed and returned with the response as part of FTA and DOT requirements.

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Martin Vega, Assistant Director of Land Development Services
Date:	Tuesday, September 1, 2026
Agenda #:	Consideration and **ACTION** to authorize the approval of a Tree Removal Permit as an alternative to the preservation of Protected and Heritage Trees under the Unified Development Code, Section: 5.1.3.B – Heritage Tree, for a proposed fuel station and convenience store development on the property described as being a 2.272-acre tract of land situated in the Jose Salvador De La Garza Survey, Abstract No. 2, comprised of a portion of Block 19, Share 27, El Jardin Subdivision; and all of a called 1.08-acre tract out of a certain 1.584-acre tract in Block 19, El Jardin Subdivision, Share 27, E.S. Gt., Cameron County, located at 4660 Boca Chica Boulevard, Brownsville, Texas 78521 (Planning & Redevelopment Department / Office of the City Forester) (District 1).

Summary:
The City of Brownsville Forester's Office has received a Tree Removal Permit application as an alternative to the preservation of Protected and Heritage Trees on the subject property located at 4660 Boca Chica Boulevard, Brownsville, Texas 78521. Pursuant to UDC Sec. 5.1.3 – Categories of Preserved Trees, trees measuring between twelve (12) and twenty-four (24) caliper inches, unless otherwise exempt, are classified as Protected Trees, while trees measuring twenty-four (24) caliper inches or greater, unless otherwise exempt, are classified as Heritage Trees.

For this project, both Protected Trees and Heritage Trees are proposed for removal; however, only the removal of Heritage Trees requires approval by the City Commission. UDC Sec. 5.1.3.B provides that a Heritage Tree may only be removed upon approval of a Tree Removal Permit by the City Commission. This request is being submitted as part of the Landscape Plan for a proposed fuel station and convenience store to be constructed on the subject property.

Project Scope and Analysis:
The surrounding area is characterized by a mix of commercial, single-family residential, and multifamily residential land uses. The property is currently occupied by multiple

residential structures and remains unsubdivided. These structures are proposed to be demolished to accommodate the development. The property will be required to complete the subdivision process prior to construction.

The Tree Removal Permit request seeks approval for the removal of four Protected Trees and 4 Heritage Trees located within the proposed area of construction. If approved, the applicant may proceed with final approval of the construction plans, including the landscape and tree mitigation plan, bringing the project one step closer to issuance of a building permit.

The project is subject to the mitigation requirements of UDC Sec. 5.1.4 – Tree Mitigation. Under this section, Protected Trees must be mitigated at a one-to-one (1:1) caliper-inch ratio, and Heritage Trees must be mitigated at a three-to-one (3:1) caliper-inch ratio, based on the caliper inches removed at the time of planting. Replacement trees must have a minimum caliper of three (3) inches. For this project, a total of 445.5 caliper inches of mitigation is required. To satisfy this requirement, the applicant proposes to partially mitigate the proposed tree removal by planting thirty-nine (39) trees, each measuring four (4) caliper inches, for a total of 156 caliper inches of mitigation. For the remaining mitigation requirement, 289.5 caliper inches, the applicant wishes to pay a fee in lieu of as permitted by UDC. Sec. 5.1.4.D – Fee In Lieu of Tree Mitigation, which states that the fee shall be equal to the cost of the replacement trees combined with the cost of installation. The applicant must submit a written estimate from a nursery as verification of the cost. As proposed, the mitigation plan meets the minimum requirements established by UDC Sec. 5.1.4 – Tree Mitigation.

Based on staff's review of the submitted exhibits and pursuant to the following provisions of the Unified Development Code:

- UDC Sec. 5.1.3 – Categories of Preserved Trees
- UDC Sec. 5.1.4 – Tree Mitigation
- UDC Sec. 5.1.4.D – Fee In Lieu of Tree Mitigation
- UDC Sec. 5.1.6 – Tree Preservation Credits

Funding:

Source: Fiscal Dept. Approval Not Required

Amount: N/A

Local Contribution if Applicable: N/A

Recommendation:

Staff finds that the developer's proposed on-site tree mitigation, combined with the payment of a fee in-lieu-of as per UDC Sec. 5.1.4.D – Fee In Lieu of Tree Mitigation, meets the minimum requirements of the Landscape Section of the Unified Development Code for the removal of protected and heritage trees; and therefore, is recommending approval.

Pursuant to UDC Sec. 5.1.3 – Categories of Preserved Trees, the City Commission may approve the removal of one or more Protected or Heritage Trees if the developer's proposed tree mitigation plan meets or exceeds the minimum mitigation standards established by code.

REVIEW CRITERIA *(UDC SEC. 5.1 – Tree Preservation)*

- **UDC Sec. 5.1.3 - Categories of Preserved Trees**
  - ***A. Protected Tree***
    1. *Trees between **twelve (12) and twenty-four (24) caliper inches** not otherwise exempted are designated as "Protected Trees".*
    2. *A **Protected Tree** may be removed upon approval of a Tree Removal Permit by the Planning Director. Any decision of the Planning Director regarding a Tree Removal Permit may be appealed to the Board of Adjustment.*
  - ***B. Heritage Tree***
    1. *Trees of **twenty-four (24) caliper inches or greater** not otherwise exempted are designated as "Heritage Trees".*
    2. *A **Heritage Tree** may only be removed upon approval of a **Tree Removal Permit** by the **City Commission**.*
- **UDC Sec. 5.1.4 - Tree Mitigation**
  - ***A. Protected Tree***
    *Protected Trees shall be mitigated at a **one-to-one (1:1) caliper inch ratio** at the time of planting for every tree removed. Replacement trees shall have a minimum caliper of three (3) inches.*
  - ***B. Heritage Tree***
    *Heritage Trees shall be mitigated at a **three-to-one (3:1) caliper inch ratio** at the time of planting for every tree removed. Replacement trees shall have a minimum caliper of three (3) inches.*
  - ***C. Location Requirements***
    1. *Tree mitigation shall occur on the **same site** as the proposed development, in addition to landscape requirements.*
    2. *Standards for planting shall conform to current Texas Forest Service standards.*
    3. *In the event that mitigation is not feasible on the same site as the proposed development, an applicant may request to donate trees, meeting the mitigation requirements of this section, to be planted at public parks, schools, or other approved public facilities, or provide a fee in lieu of tree mitigation in accordance with **Fee In Lieu of Tree Mitigation** policies.*

- **UDC Sec. 5.1.4.D – Fee In Lieu of Tree Mitigation**
  The City may establish a fee in lieu of replacement trees. The fee shall be equal to the cost of the replacement trees and shall include the installation or planting cost. The applicant shall submit a written estimate from a nursery as verification of the cost.
- **UDC Sec. 5.1.6 – Tree Preservation Credits**
  Protected Trees and Heritage Trees may be counted toward landscape requirements contained in this Ordinance.
  A. *A Protected Tree may be counted as three* ***(3) trees*** *required under* ***4.6.3 Landscaping****.*
  B. *A Heritage Tree may be counted as eight* ***(8) trees*** *required under* ***4.6.3 Landscaping****.*

PROPOSED TREE MITIGATION & SCOPE OF WORK (*SEE ATTACHED EXHIBITS)*

- **Salvaged Trees**
  (1) Protected Tree (*Species: Live Oak*) – 14.5-inch Caliper: **Equivalent to 3 credit trees**
  (2) Protected Tree (*Species: Silk Floss Tree*) – 17-inch Caliper: **Equivalent to 3 credit trees**
    - **Total Tree Credits Awarded: 6 tree credits**

- **Tree Removal**
  (1) Heritage Tree (*Species: Live Oak*) – **43 caliper inches**
  (2) Heritage Tree (*Species: Live Oak*) – **29 caliper inches**
  (3) Heritage Tree (*Species: Anacua*) – **29 caliper inches**
  (4) Heritage Tree (*Species: Silk Floss Tree*) – **28 caliper inches**
  (5) Protected Tree (*Species: Live Oak*) – **19 caliper inches**
  (6) Protected Tree (*Species: Sabal Palm*) – **14.5 caliper inches**
  (7) Protected Tree (*Species: Sabal Palm*) – **13 caliper inches**
  (8) Protected Tree (*Species: Live Oak*) – **12 caliper inches**
    - **Total Tree Removal (Caliper Inches): 187.5 caliper inches**

- **Required Tree Mitigation (Caliper Inches)**
  (1) Heritage Tree (*Species: Live Oak*) – 43 caliper inches x 3 = **129 caliper inches**
  (2) Heritage Tree (*Species: Live Oak*) – 29 caliper inches x 3 = **87 caliper inches**
  (3) Heritage Tree (*Species: Anacua*) – 29 caliper inches x 3 = **87 caliper inches**
  (4) Heritage Tree (*Species: Silk Floss Tree*) – 28 caliper inches x 3 = **84 caliper inches**
  (5) Protected Tree (*Species: Live Oak*) – 19 caliper inches x 1 = **19 caliper inches**
  (6) Protected Tree (*Species: Sabal Palm*) – 14.5 caliper inches x 1 = **14.5 caliper inches**
  (7) Protected Tree (*Species: Sabal Palm*) – 13 caliper inches x 1 = **13 caliper inches**
  (8) Protected Tree (*Species: Live Oak*) – 12 caliper inches x 1 = **12 caliper inches**
    - **Total Required Tree Mitigation (Caliper Inches): 445.5 caliper inches**

- **Proposed On-Site Tree Mitigation (Caliper Inches)**
  (1) Chinese Pistache / *Pistacia chinensis* (Mitigation) x 15 @ 4-inch Caliper = **60 caliper inches**
  (2) Southern Live Oak / *Quercus virginiana* (Mitigation) x 10 @ 4-inch Caliper = **40 caliper inches**
  (3) Cedar Elm / *Ulmus crassifolia* (Mitigation) x 14 @ 4-inch Caliper = **56 caliper inches**
    - **Proposed Total On-Site Mitigation: 156 caliper inches (below requirement)**
    - **Mitigation Inches Remaining: 289.5 caliper inches (fee in-lieu-of)**

- **Payment in-lieu-of:** Remaining 289.5 caliper inches
  (1) **UDC Sec. 5.1.4.D – Fee In Lieu of Tree Mitigation:** The City may establish a fee in lieu of replacement trees. The fee shall be equal to the cost of the replacement trees and shall include the installation or planting cost. The applicant shall submit a written estimate from a nursery as verification of the cost.

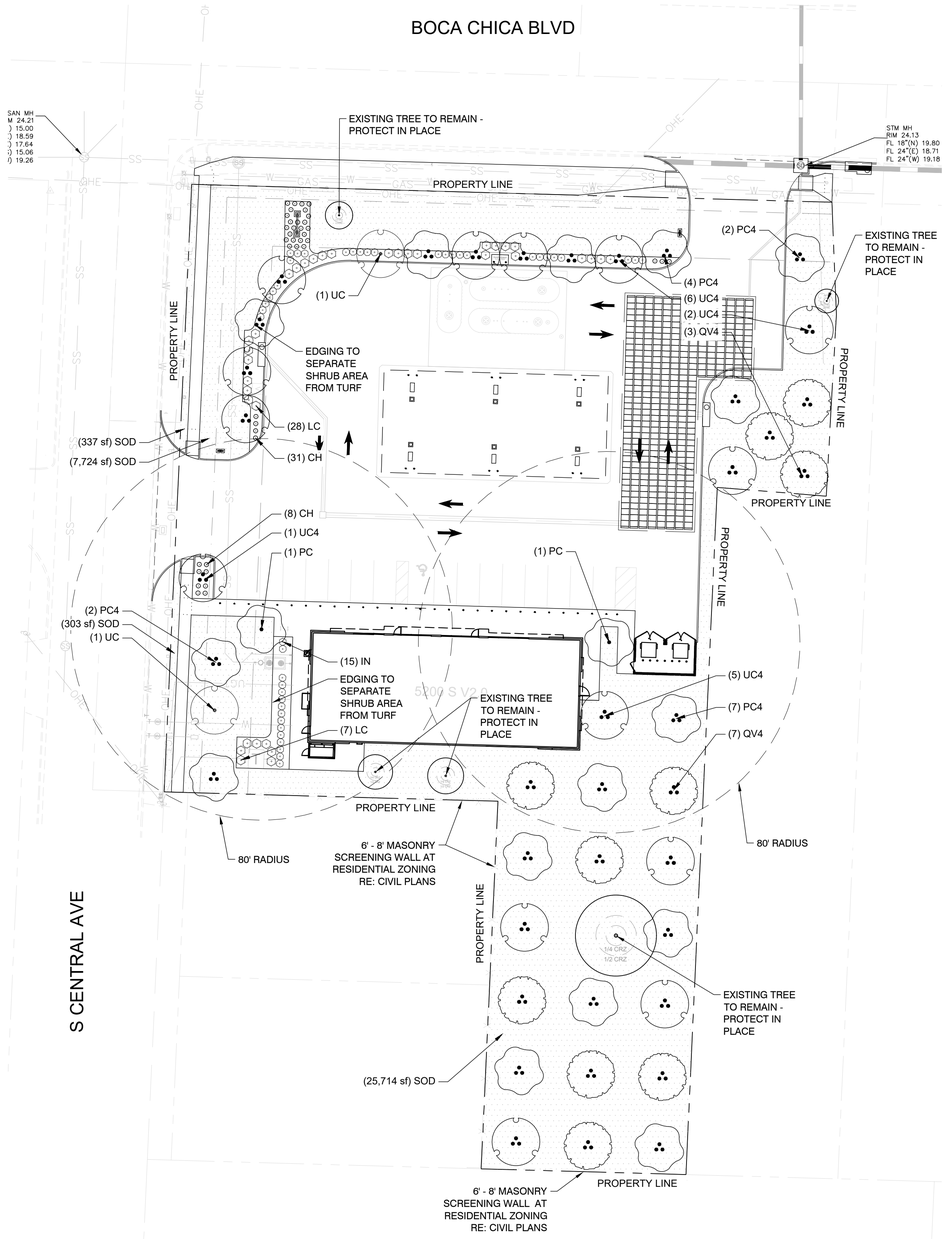
STAFF ANALYSIS



Based on staff's review of the submitted exhibits and pursuant to the following provisions of the Unified Development Code:

- UDC Sec. 5.1.3 – Categories of Preserved Trees
- UDC Sec. 5.1.4 – Tree Mitigation
- UDC Sec. 5.1.4.D – Fee In Lieu of Tree Mitigation
- UDC Sec. 5.1.6 – Tree Preservation Credits

Staff finds that the developer's proposed on-site tree mitigation, combined with the payment of a fee in-lieu-of as per **UDC Sec. 5.1.4.D – Fee In Lieu of Tree Mitigation**, meets the minimum requirements of the Landscape Section of the Unified Development Code for the removal of protected and heritage trees; and therefore, is **recommending approval**.

ACTION BY CITY COMMISSION

Pursuant to ***UDC Sec. 5.1.3 – Categories of Preserved Trees***, the City Commission may approve the proposed removal of Protected and Heritage Trees if the developer's proposed tree mitigation plan meets or exceeds the minimum mitigation standards established by code.

LANDSCAPE CALCULATIONS:

SITE LANDSCAPE:
CITY OF BROWNSVILLE, TEXAS
Zoning: CC (CORRIDOR COMMERCIAL)
Overlay District: NONE
Total Site: 76,393 SF

PERIMETER LANDSCAPE:
5' Wide Perimeter Landscape: Provided

MULCHES

AFTER ALL PLANTING IS COMPLETE, CONTRACTOR SHALL INSTALL 2" THICK LAYER OF 1-1/2" SHREDDED WOOD MULCH, NATURAL (UNDYED), OVER LANDSCAPE FABRIC IN ALL PLANTING AREAS (EXCEPT FOR TURF AND SEEDED AREAS). CONTRACTOR SHALL SUBMIT SAMPLES OF ALL MULCHES TO LANDSCAPE ARCHITECT AND OWNER FOR APPROVAL PRIOR TO CONSTRUCTION. ABSOLUTELY NO EXPOSED GROUND SHALL BE LEFT SHOWING ANYWHERE ON THE PROJECT AFTER MULCH HAS BEEN INSTALLED (SUBJECT TO THE CONDITIONS AND REQUIREMENTS OF THE "GENERAL GRADING AND PLANTING NOTES" AND SPECIFICATIONS).

PLANTING & IRRIGATION GUARANTEE

THE LANDSCAPE CONTRACTOR SHALL GUARANTEE THAT ALL NEWLY INSTALLED AND EXISTING PLANTS SHALL SURVIVE FOR ONE YEAR AFTER FINAL OWNER ACCEPTANCE OF THE INSTALLATION WORK. THE CONTRACTOR SHALL ALSO BE RESPONSIBLE FOR APPROPRIATE WATERING OF THE LANDSCAPE THROUGH INSTALLATION OF A PROPERLY DESIGNED IRRIGATION SYSTEM. THE OWNER SHALL APPROVE THE SYSTEM DESIGN BEFORE INSTALLATION OF PLANTS OR IRRIGATION.

ROOT BARRIERS

THE CONTRACTOR SHALL INSTALL ROOT BARRIERS NEAR ALL NEWLY-PLANTED TREES THAT ARE LOCATED WITHIN FIVE (5) FEET OF PAVING, CURBS, WATER, STORM, OR SANITARY SEWER UTILITIES. ROOT BARRIERS SHALL BE "CENTURY" OR "DEEP-ROOT" 24" DEEP PANELS (OR EQUAL). BARRIERS SHALL BE LOCATED IMMEDIATELY ADJACENT TO HARDSCAPE. INSTALL PANELS PER MANUFACTURER'S RECOMMENDATIONS. UNDER NO CIRCUMSTANCES SHALL THE CONTRACTOR USE ROOT BARRIERS OF A TYPE THAT COMPLETELY ENCIRCLE THE ROOTBALL.

GENERAL GRADING AND PLANTING NOTES

1. BY SUBMITTING A PROPOSAL FOR THE LANDSCAPE PLANTING SCOPE OF WORK, THE CONTRACTOR CONFIRMS THAT HE HAS READ, AND WILL COMPLY WITH, THE ASSOCIATED NOTES, SPECIFICATIONS, AND DETAILS WITH THIS PROJECT.
2. THE GENERAL CONTRACTOR IS RESPONSIBLE FOR REMOVING ALL EXISTING VEGETATION (EXCEPT WHERE NOTED TO REMAIN).
3. IN THE CONTEXT OF THESE PLANS, NOTES, AND SPECIFICATIONS, "FINISH GRADE" REFERS TO THE FINAL ELEVATION OF THE SOIL SURFACE (NOT TOP OF MULCH) AS INDICATED ON THE GRADING PLANS.
   a. BEFORE STARTING WORK, THE LANDSCAPE CONTRACTOR SHALL VERIFY THAT THE ROUGH GRADES OF ALL LANDSCAPE AREAS ARE WITHIN +/-0.1' OF FINISH GRADE. SEE SPECIFICATIONS FOR MORE DETAILED INSTRUCTION ON TURF AREA AND PLANTING BED PREPARATION.
   b. CONSTRUCT AND MAINTAIN FINISH GRADES AS SHOWN ON GRADING PLANS, AND CONSTRUCT AND MAINTAIN SLOPES AS RECOMMENDED BY THE GEOTECHNICAL REPORT. ALL LANDSCAPE AREAS SHALL HAVE POSITIVE DRAINAGE AWAY FROM STRUCTURES AT THE MINIMUM SLOPE SPECIFIED IN THE REPORT AND ON THE GRADING PLANS, AND AREAS OF POTENTIAL PONDING SHALL BE REGRADED TO BLEND IN WITH THE SURROUNDING GRADES AND ELIMINATE PONDING POTENTIAL.
   c. THE LANDSCAPE CONTRACTOR SHALL DETERMINE WHETHER OR NOT THE EXPORT OF ANY SOIL WILL BE NEEDED, TAKING INTO ACCOUNT THE ROUGH GRADE PROVIDED, THE AMOUNT OF SOIL AMENDMENTS TO BE ADDED (**BASED ON A SOIL TEST**, PER SPECIFICATIONS), AND THE FINISH GRADES TO BE ESTABLISHED.
   d. ENSURE THAT THE FINISH GRADE IN SHRUB AREAS IMMEDIATELY ADJACENT TO WALKS AND OTHER WALKING SURFACES, AFTER INSTALLING SOIL AMENDMENTS, IS 3" BELOW THE ADJACENT FINISH SURFACE. IN ORDER TO ALLOW FOR PROPER MULCH DEPTH. TAPER THE SOIL SURFACE TO MEET FINISH GRADE, AS SPECIFIED ON THE GRADING PLANS, AT APPROXIMATELY 18" AWAY FROM THE WALKS.
   e. ENSURE THAT THE FINISH GRADE IN TURF AREAS IMMEDIATELY ADJACENT TO WALKS AND OTHER WALKING SURFACES, AFTER INSTALLING SOIL AMENDMENTS, IS 1" BELOW THE FINISH SURFACE OF THE WALKS. TAPER THE SOIL SURFACE TO MEET FINISH GRADE, AS SPECIFIED ON THE GRADING PLANS, AT APPROXIMATELY 18" AWAY FROM THE WALKS.
   f. SHOULD ANY CONFLICTS AND/OR DISCREPANCIES ARISE BETWEEN THE GRADING PLANS, GEOTECHNICAL REPORT, THESE NOTES AND PLANS, AND ACTUAL CONDITIONS, THE CONTRACTOR SHALL IMMEDIATELY BRING SUCH ITEMS TO THE ATTENTION OF THE LANDSCAPE ARCHITECT, GENERAL CONTRACTOR, AND OWNER.
4. ALL PLANT LOCATIONS ARE DIAGRAMMATIC. ACTUAL LOCATIONS SHALL BE VERIFIED WITH THE LANDSCAPE ARCHITECT OR DESIGNER PRIOR TO PLANTING. THE LANDSCAPE CONTRACTOR SHALL ENSURE THAT ALL REQUIREMENTS OF THE PERMITTING AUTHORITY ARE MET (I.E., MINIMUM PLANT QUANTITIES, PLANTING METHODS, TREE PROTECTION METHODS, ETC.).
   a. THE LANDSCAPE CONTRACTOR IS RESPONSIBLE FOR DETERMINING PLANT QUANTITIES; PLANT QUANTITIES SHOWN ON LEGENDS AND CALLOUTS ARE FOR GENERAL INFORMATION ONLY. IN THE EVENT OF A DISCREPANCY BETWEEN THE PLAN AND THE PLANT LEGEND, THE PLANT QUANTITY AS SHOWN ON THE PLAN (FOR INDIVIDUAL SYMBOLS) OR CALLOUT (FOR GROUNDCOVER PATTERNS) SHALL TAKE PRECEDENCE.
   b. NO SUBSTITUTIONS OF PLANT MATERIALS SHALL BE ALLOWED WITHOUT THE WRITTEN PERMISSION OF THE LANDSCAPE ARCHITECT. IF SOME OF THE PLANTS ARE NOT AVAILABLE, THE LANDSCAPE CONTRACTOR SHALL NOTIFY THE LANDSCAPE ARCHITECT IN WRITING (VIA PROPER CHANNELS).
   c. THE CONTRACTOR SHALL, AT A MINIMUM, PROVIDE REPRESENTATIVE PHOTOS OF ALL PLANTS PROPOSED FOR THE PROJECT. THE CONTRACTOR SHALL ALLOW THE LANDSCAPE ARCHITECT AND THE OWNER/OWNER'S REPRESENTATIVE TO INSPECT, AND APPROVE OR REJECT, ALL PLANTS DELIVERED TO THE JOBSITE. REFER TO SPECIFICATIONS FOR ADDITIONAL REQUIREMENTS FOR SUBMITTALS.
5. CONTRACTOR SHALL PROVIDE AND INSTALL SOLID SOD IN ALL RIGHT-OF-WAYS AND PARKWAYS (UNLESS NOT ALLOWED BY THE LOCAL JURISDICTION) AND SHALL PROVIDE WATERING AND MAINTENANCE UNTIL THE TURF IS ESTABLISHED AND HAS BEEN ACCEPTED BY OWNER.
6. THE CONTRACTOR SHALL MAINTAIN THE LANDSCAPE IN A HEALTHY CONDITION FOR 90 DAYS AFTER ACCEPTANCE BY THE OWNER. REFER TO SPECIFICATIONS FOR CONDITIONS OF ACCEPTANCE FOR THE START OF THE MAINTENANCE PERIOD, AND FOR FINAL ACCEPTANCE AT THE END OF THE MAINTENANCE PERIOD.
7. AFTER FINAL ACCEPTANCE AT THE END OF THE MAINTENANCE PERIOD, CONTRACTOR IS TO PROVIDE SUGGESTED MAINTENANCE, WATERING SCHEDULE, WEEDING SCHEDULE, AND FERTILIZATION SCHEDULE.
8. SEE SPECIFICATIONS AND DETAILS FOR FURTHER REQUIREMENTS.

IRRIGATION CONCEPT

1. AN AUTOMATIC IRRIGATION SYSTEM SHALL BE INSTALLED AND OPERATIONAL BY THE TIME OF FINAL INSPECTION. THE ENTIRE IRRIGATION SYSTEM SHALL BE INSTALLED BY A LICENSED AND QUALIFIED IRRIGATION CONTRACTOR.
2. THE IRRIGATION SYSTEM WILL OPERATE ON POTABLE WATER, AND THE SYSTEM WILL HAVE APPROPRIATE BACKFLOW PREVENTION DEVICES INSTALLED TO PREVENT CONTAMINATION OF THE POTABLE SOURCE.
3. ALL NON-TURF PLANTED AREAS SHALL BE DRIP IRRIGATED. SODDED AND SEEDED AREAS SHALL BE IRRIGATED WITH SPRAY OR ROTOR HEADS AT 100% HEAD-TO-HEAD COVERAGE.
4. ALL PLANTS SHARING SIMILAR HYDROZONE CHARACTERISTICS SHALL BE PLACED ON A VALVE DEDICATED TO PROVIDE THE NECESSARY WATER REQUIREMENTS SPECIFIC TO THAT HYDROZONE.
5. THE IRRIGATION SYSTEM SHALL BE DESIGNED AND INSTALLED, TO THE MAXIMUM EXTENT POSSIBLE, TO CONSERVE WATER BY USING THE FOLLOWING DEVICES AND SYSTEMS: MATCHED PRECIPITATION RATE TECHNOLOGY ON ROTOR AND SPRAY HEADS (WHEREVER POSSIBLE), RAIN SENSORS, AND MULTI-PROGRAM COMPUTERIZED IRRIGATION CONTROLLERS FEATURING SENSORY INPUT CAPABILITIES.

CAUTION NOTICE TO CONTRACTORS

THE CONTRACTOR IS SPECIFICALLY CAUTIONED THAT THE LOCATION AND/OR ELEVATION OF EXISTING UTILITIES AS SHOWN ON THESE PLANS IS BASED ON RECORDS OF THE VARIOUS UTILITY COMPANIES AND, WHERE POSSIBLE, MEASUREMENTS TAKEN IN THE FIELD. THE INFORMATION IS NOT TO BE RELIED ON AS BEING EXACT OR COMPLETE. THE CONTRACTOR MUCH CALL 811 AT LEAST 72 HOURS BEFORE ANY EXCAVATION TO REQUEST EXACT FIELD LOCATIONS OF THE UTILITIES. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO RELOCATED ALL EXISTING UTILITIES WHICH CONFLICT WITH THE PROPOSED IMPROVEMENTS SHOWN ON THESE PLANS.

#	DESCRIPTION	DATE	BY

PLANTING SPECIFICATIONS

GENERAL

A. QUALIFICATIONS OF LANDSCAPE CONTRACTOR
   1. ALL LANDSCAPE WORK SHOWN ON THESE PLANS SHALL BE PERFORMED BY A SINGLE FIRM SPECIALIZING IN LANDSCAPE PLANTING.
   2. A LIST OF SUCCESSFULLY COMPLETED PROJECTS OF THIS TYPE, SIZE AND NATURE MAY BE REQUESTED BY THE OWNER FOR FURTHER QUALIFICATION MEASURES.
   3. THE LANDSCAPE CONTRACTOR SHALL HOLD A VALID NURSERY AND FLORAL CERTIFICATE ISSUED BY THE TEXAS DEPARTMENT OF AGRICULTURE, AS WELL AS OPERATE UNDER A COMMERCIAL PESTICIDE APPLICATOR LICENSE ISSUED BY EITHER THE TEXAS DEPARTMENT OF AGRICULTURE OR THE TEXAS STRUCTURAL PEST CONTROL BOARD.
   3. THE LANDSCAPE CONTRACTOR SHALL HOLD A VALID CONTRACTOR'S LICENSE ISSUED BY THE APPROPRIATE LOCAL JURISDICTION.

B. SCOPE OF WORK
   1. WORK COVERED BY THESE SECTIONS INCLUDES THE FURNISHING AND PAYMENT OF ALL MATERIALS, LABOR, SERVICES, EQUIPMENT, LICENSES, TAXES AND ANY OTHER ITEMS THAT ARE NECESSARY FOR THE EXECUTION, INSTALLATION AND COMPLETION OF ALL WORK, SPECIFIED HEREIN AND / OR SHOWN ON THE LANDSCAPE PLANS, NOTES, AND DETAILS.
   2. ALL WORK SHALL BE PERFORMED IN ACCORDANCE WITH ALL APPLICABLE LAWS, CODES AND REGULATIONS REQUIRED BY AUTHORITIES HAVING JURISDICTION OVER SUCH WORK, INCLUDING ALL INSPECTIONS AND PERMITS REQUIRED BY FEDERAL, STATE AND LOCAL AUTHORITIES IN SUPPLY, TRANSPORTATION AND INSTALLATION OF MATERIALS.
   3. THE LANDSCAPE CONTRACTOR SHALL VERIFY THE LOCATION OF ALL UNDERGROUND UTILITY LINES (WATER, SEWER, ELECTRICAL, TELEPHONE, GAS, CABLE, TELEVISION, ETC.) PRIOR TO THE START OF ANY WORK.

PRODUCTS

A. ALL MANUFACTURED PRODUCTS SHALL BE NEW.
B. CONTAINER AND BALLED-AND-BURLAPPED PLANTS:
   1. FURNISH NURSERY-GROWN PLANTS COMPLYING WITH ANSI Z60.1-2014. PROVIDE WELL-SHAPED, FULLY BRANCHED, HEALTHY, VIGOROUS STOCK FREE OF DISEASE, INSECTS, EGGS, LARVAE, AND DEFECTS SUCH AS KNOTS, SUN SCALD, INJURIES, ABRASIONS, AND DISFIGUREMENT. ALL PLANTS WITHIN A SPECIES SHALL HAVE SIMILAR SIZE, AND SHALL BE OF A FORM TYPICAL FOR THE SPECIES. ALL TREES SHALL BE OBTAINED FROM SOURCES WITHIN 200 MILES OF THE PROJECT SITE, AND WITH SIMILAR CLIMACTIC CONDITIONS.
   2. ROOT SYSTEMS SHALL BE HEALTHY, DENSELY BRANCHED ROOT SYSTEMS, NON-POT-BOUND, FREE FROM ENCIRCLING AND/OR GIRDLING ROOTS, AND FREE FROM ANY OTHER ROOT DEFECTS (SUCH AS J-SHAPED ROOTS).
   3. TREES MAY BE PLANTED FROM CONTAINERS OR BALLED-AND-BURLAPPED (B&B), UNLESS SPECIFIED ON THE PLANTING LEGEND. BARE-ROOT TREES ARE NOT ACCEPTABLE.
   4. ANY PLANT DEEMED UNACCEPTABLE BY THE LANDSCAPE ARCHITECT OR OWNER SHALL BE IMMEDIATELY REMOVED FROM THE SITE AND SHALL BE REPLACED WITH AN ACCEPTBLE PLANT OF LIKE TYPE AND SIZE AT THE CONTRACTOR'S OWN EXPENSE. ANY PLANTS APPEARING TO BE UNHEALTHY, EVEN IF DETERMINED TO STILL BE ALIVE, SHALL NOT BE ACCEPTED. THE LANDSCAPE ARCHITECT AND OWNER SHALL BE THE SOLE JUDGES AS TO THE ACCEPTABILITY OF PLANT MATERIAL.
   5. ALL TREES SHALL BE STANDARD IN FORM, UNLESS OTHERWISE SPECIFIED. TREES WITH CENTRAL LEADERS WILL NOT BE ACCEPTED IF LEADER IS DAMAGED OR REMOVED. PRUNE ALL DAMAGED TWIGS AFTER PLANTING.
   6. CALIPER MEASUREMENTS FOR STANDARD (SINGLE TRUNK) TREES SHALL BE AS FOLLOWS: SIX INCHES ABOVE THE ROOT FLARE FOR TREES UP TO AND INCLUDING FOUR INCHES IN CALIPER, AND TWELVE INCHES ABOVE THE ROOT FLARE FOR TREES EXCEEDING FOUR INCHES IN CALIPER.
   7. MULTI-TRUNK TREES SHALL BE MEASURED BY THEIR OVERALL HEIGHT, MEASURED FROM THE TOP OF THE ROOT BALL. WHERE CALIPER MEASUREMENTS ARE USED, THE CALIPER SHALL BE CALCULATED AS ONE-HALF OF THE SUM OF THE CALIPER OF THE THREE LARGEST TRUNKS.
   8. ANY TREE OR SHRUB SHOWN TO HAVE EXCESS SOIL PLACED ON TOP OF THE ROOT BALL, SO THAT THE ROOT FLARE HAS BEEN COMPLETELY COVERED, SHALL BE REJECTED.
C. SOD: PROVIDE WELL-ROOTED SOD OF THE VARIETY NOTED ON THE PLANS. SOD SHALL BE CUT FROM HEALTHY, MATURE TURF WITH SOIL THICKNESS OF 3/4" TO 1". EACH PALLET OF SOD SHALL BE ACCOMPANIED BY A CERTIFICATE FROM SUPPLIER STATING THE COMPOSITION OF THE SOD.
D. SEED: PROVIDE BLEND OF SPECIES AND VARIETIES AS NOTED ON THE PLANS, WITH MAXIMUM PERCENTAGES OF PURITY, GERMINATION, AND MINIMUM PERCENTAGE OF WEED SEED AS INDICATED ON PLANS. EACH BAG OF SEED SHALL BE ACCOMPANIED BY A TAG FROM THE SUPPLIER INDICATING THE COMPOSITION OF THE SEED.
E. TOPSOIL: SANDY TO CLAY LOAM TOPSOIL, FREE OF STONES LARGER THAN ½ INCH, FOREIGN MATTER, PLANTS, ROOTS, AND SEEDS.
F. COMPOST: WELL-COMPOSTED, STABLE, AND WEED-FREE ORGANIC MATTER, pH RANGE OF 5.5 TO 8; MOISTURE CONTENT 35 TO 55 PERCENT BY WEIGHT; 100 PERCENT PASSING THROUGH CLINCH SIEVE; SOLUBLE SALT CONTENT OF 5 TO 10 DECISIEMENS/M; NOT EXCEEDING 0.5 PERCENT INERT CONTAMINANTS AND FREE OF SUBSTANCES TOXIC TO PLANTINGS. NO MANURE OR ANIMAL-BASED PRODUCTS SHALL BE USED.
G. PLANTING MIX FOR POTS: AN EQUAL PART MIXTURE OF TOPSOIL, SAND AND COMPOST. INCORPORATE "GELSCAPE", AS MADE BY AMEREQ, INC., (800) 832-8788, AT THE RATE OF 3 LB. PER CUBIC YARD OF PLANTING MIX.
H. FERTILIZER: GRANULAR FERTILIZER CONSISTING OF NITROGEN, PHOSPHORUS, POTASSIUM, AND OTHER NUTRIENTS IN PROPORTIONS, AMOUNTS, AND RELEASE RATES RECOMMENDED IN A SOIL REPORT FROM A QUALIFIED SOIL-TESTING AGENCY (SEE BELOW).
I. PALM MAINTENANCE SPIKES: AS MANUFACTURED BY THE LUTZ CORP. (800) 203-7740, OR APPROVED EQUAL.
J. MULCH: SIZE AND TYPE AS INDICATED ON PLANS, FREE FROM DELETERIOUS MATERIALS AND SUITABLE AS A TOP DRESSING OF TREES AND SHRUBS.
K. TREE STAKING AND GUYING
   1. STAKES: 6' LONG GREEN METAL T-POSTS.
   2. GUY AND TIE WIRE: ASTM A 641, CLASS 1, GALVANIZED-STEEL WIRE, 2-STRAND, TWISTED, 0.106 INCH DIAMETER.
   3. STRAP CHAFING GUARD: REINFORCED NYLON OR CANVAS AT LEAST 1-1/2 INCH WIDE, WITH GROMMETS TO PROTECT TREE TRUNKS FROM DAMAGE.
L. STEEL EDGING: PROFESSIONAL STEEL EDGING, 14 GAUGE THICK X 4 INCHES WIDE, FACTORY PAINTED DARK GREEN. ACCEPTABLE MANUFACTURERS INCLUDE COL-MET OR APPROVED EQUAL.
M. PRE-EMERGENT HERBICIDES: ANY GRANULAR, NON-STAINING PRE-EMERGENT HERBICIDE THAT IS LABELED FOR THE SPECIFIC ORNAMENTALS OR TURF ON WHICH IT WILL BE UTILIZED. PRE-EMERGENT HERBICIDES SHALL BE APPLIED PER THE MANUFACTURER'S LABELED RATES.

METHODS

A. SOIL PREPARATION
   1. BEFORE STARTING WORK, THE LANDSCAPE CONTRACTOR SHALL VERIFY THAT THE GRADE OF ALL LANDSCAPE AREAS ARE WITHIN +/-0.1' OF FINISH GRADE. THE CONTRACTOR SHALL NOTIFY THE OWNER IMMEDIATELY SHOULD ANY DISCREPANCIES EXIST.
   2. SOIL TESTING:
      a. AFTER FINISH GRADES HAVE BEEN ESTABLISHED, CONTRACTOR SHALL HAVE SOIL SAMPLES FROM THE PROJECT'S LANDSCAPE AREAS TESTED BY AN ESTABLISHED SOIL TESTING LABORATORY. EACH SAMPLE SUBMITTED TO THE LAB SHALL CONTAIN NO LESS THAN ONE QUART OF SOIL, TAKEN FROM BETWEEN THE SOIL SURFACE AND 6" DEPTH. IF NO SAMPLE LOCATIONS ARE INDICATED ON THE PLANS, THE CONTRACTOR SHALL TAKE A MINIMUM OF THREE SAMPLES FROM VARIOUS REPRESENTATIVE LOCATIONS FOR TESTING.
      b. THE CONTRACTOR SHALL HAVE THE SOIL TESTING LABORATORY PROVIDE RESULTS FOR THE FOLLOWING: SOIL TEXTURAL CLASS, GENERAL SOIL FERTILITY, pH, ORGANIC MATTER CONTENT, SALT (EC), LIME, SODIUM ADSORPTION RATIO (SAR) AND BORON CONTENT.
      c. THE CONTRACTOR SHALL ALSO SUBMIT THE PROJECT'S PLANT LIST TO THE LABORATORY ALONG WITH THE SOIL SAMPLES.
      d. THE SOIL REPORT PRODUCED BY THE LABORATORY SHALL CONTAIN RECOMMENDATIONS FOR THE FOLLOWING (AS APPROPRIATE): SEPARATE SOIL PREPARATION AND BACKFILL MIX RECOMMENDATIONS FOR GENERAL ORNAMENTAL PLANTS, XERIC PLANTS, TURF, AND NATIVE SEED, AS WELL AS PRE-PLANT FERTILIZER APPLICATIONS AND RECOMMENDATIONS FOR ANY OTHER SOIL RELATED ISSUES. THE REPORT SHALL ALSO PROVIDE A FERTILIZER PROGRAM FOR THE ESTABLISHMENT PERIOD AND FOR LONG-TERM MAINTENANCE.
   3. THE CONTRACTOR SHALL INSTALL SOIL AMENDMENTS AND FERTILIZERS PER THE SOILS REPORT RECOMMENDATIONS. ANY CHANGE IN COST DUE TO THE SOIL REPORT RECOMMENDATIONS, EITHER INCREASE OR DECREASE, SHALL BE SUBMITTED TO THE OWNER WITH THE REPORT.
   4. FOR BIDDING PURPOSES ONLY, THE SOIL PREPARATION SHALL CONSIST OF THE FOLLOWING:
      a. TURF: INCORPORATE THE FOLLOWING AMENDMENTS INTO THE TOP 8" OF SOIL BY MEANS OF ROTOTILLING AFTER CROSS-RIPPING:
         i. NITROGEN STABILIZED ORGANIC AMENDMENT - 4 CU. YDS. PER 1,000 S.F.
         ii. PREPLANT TURF FERTILIZER (10-20-10 OR SIMILAR, SLOW RELEASE, ORGANIC) - 15 LBS PER 1,000 S.F.
         iii. "CLAY BUSTER" OR EQUAL - USE MANUFACTURER'S RECOMMENDED RATE
      b. TREES, SHRUBS, AND PERENNIALS: INCORPORATE THE FOLLOWING AMENDMENTS INTO THE TOP 8" OF SOIL BY MEANS OF ROTOTILLING AFTER CROSS-RIPPING:
         i. NITROGEN STABILIZED ORGANIC AMENDMENT - 4 CU. YDS. PER 1,000 S.F.
         ii. 12-12-12 FERTILIZER (OR SIMILAR, ORGANIC, SLOW RELEASE) - 10 LBS. PER CU. YD.
         iii. "CLAY BUSTER" OR EQUAL - USE MANUFACTURER'S RECOMMENDED RATE
         iv. IRON SULPHATE - 2 LBS. PER CU. YD.
   5. IN THE CONTEXT OF THESE PLANS, NOTES, AND SPECIFICATIONS, "FINISH GRADE" REFERS TO THE FINAL ELEVATION OF THE SOIL SURFACE (NOT TOP OF MULCH) AS INDICATED ON THE GRADING PLANS.
      a. BEFORE STARTING WORK, THE LANDSCAPE CONTRACTOR SHALL VERIFY THAT THE ROUGH GRADES OF ALL LANDSCAPE AREAS ARE WITHIN +/-0.1' OF FINISH GRADE. SEE SPECIFICATIONS FOR MORE DETAILED INSTRUCTION ON TURF AREA AND PLANTING BED PREPARATION.
      b. CONSTRUCT AND MAINTAIN FINISH GRADES AS SHOWN ON GRADING PLANS, AND CONSTRUCT AND MAINTAIN SLOPES AS RECOMMENDED BY THE GEOTECHNICAL REPORT. ALL LANDSCAPE AREAS SHALL HAVE POSITIVE DRAINAGE AWAY FROM STRUCTURES AT THE MINIMUM SLOPE SPECIFIED IN THE REPORT AND ON THE GRADING PLANS, AND AREAS OF POTENTIAL PONDING SHALL BE REGRADED TO BLEND IN WITH THE SURROUNDING GRADES AND ELIMINATE PONDING POTENTIAL.
      c. THE LANDSCAPE CONTRACTOR SHALL DETERMINE WHETHER OR NOT THE EXPORT OF ANY SOIL WILL BE NEEDED, TAKING INTO ACCOUNT THE ROUGH GRADE PROVIDED, THE AMOUNT OF SOIL AMENDMENTS TO BE ADDED (**BASED ON A SOIL TEST**, PER SPECIFICATIONS), AND THE FINISH GRADES TO BE ESTABLISHED.
      d. ENSURE THAT THE FINISH GRADE IN SHRUB AREAS IMMEDIATELY ADJACENT TO WALKS AND OTHER WALKING SURFACES, AFTER INSTALLING SOIL AMENDMENTS, IS 3" BELOW THE ADJACENT FINISH SURFACE, IN ORDER TO ALLOW FOR PROPER MULCH DEPTH. TAPER THE SOIL SURFACE TO MEET FINISH GRADE, AS SPECIFIED ON THE GRADING PLANS, AT APPROXIMATELY 18" AWAY FROM THE WALKS.
      e. ENSURE THAT THE FINISH GRADE IN TURF AREAS IMMEDIATELY ADJACENT TO WALKS AND OTHER WALKING SURFACES, AFTER INSTALLING SOIL AMENDMENTS, IS 1" BELOW THE FINISH SURFACE OF THE WALKS. TAPER THE SOIL SURFACE TO MEET FINISH GRADE, AS SPECIFIED ON THE GRADING PLANS, AT APPROXIMATELY 18" AWAY FROM THE WALKS.
      f. SHOULD ANY CONFLICTS AND/OR DISCREPANCIES ARISE BETWEEN THE GRADING PLANS, GEOTECHNICAL REPORT, THESE NOTES AND PLANS, AND ACTUAL CONDITIONS, THE CONTRACTOR SHALL IMMEDIATELY BRING SUCH ITEMS TO THE ATTENTION OF THE LANDSCAPE ARCHITECT, GENERAL CONTRACTOR, AND OWNER.
   6. ONCE PREPARATION IS COMPLETE, THE LANDSCAPE CONTRACTOR SHALL ENSURE THAT THERE ARE NO DEBRIS, TRASH, OR STONES LARGER THAN 1" REMAINING IN THE TOP 6" OF SOIL.

B. SUBMITTALS
   1. THE CONTRACTOR SHALL PROVIDE SUBMITTALS AND SAMPLES, IF REQUIRED, TO THE LANDSCAPE ARCHITECT, AND RECEIVE APPROVAL IN WRITING FOR SUCH SUBMITTALS BEFORE WORK COMMENCES.
   2. SUBMITTALS SHALL INCLUDE PHOTOS OF PLANTS WITH A RULER OR MEASURING STICK FOR SCALE, PHOTOS OR SAMPLES OF ANY REQUIRED MULCHES, AND SOIL TEST RESULTS AND PREPARATION RECOMMENDATIONS FROM THE TESTING LAB (INCLUDING COMPOST AND FERTILIZER RATES AND TYPES, AND OTHER AMENDMENTS FOR TREE/SHRUB, TURF, AND SEED AREAS AS MAY BE APPROPRIATE).
   3. SUBMITTALS SHALL ALSO INCLUDE MANUFACTURER CUT SHEETS FOR PLANTING ACCESSORIES SUCH AS TREE STAKES AND TIES, EDGING, AND LANDSCAPE FABRICS (IF ANY).
   4. WHERE MULTIPLE ITEMS ARE SHOWN ON A PAGE, THE CONTRACTOR SHALL CLEARLY INDICATE THE ITEM BEING CONSIDERED.

C. GENERAL PLANTING
   1. REMOVE ALL NURSERY TAGS AND STAKES FROM PLANTS.
   2. EXCEPT IN AREAS TO BE PLANTED WITH ORNAMENTAL GRASSES, APPLY PRE-EMERGENT HERBICIDES AT THE MANUFACTURER'S RECOMMENDED RATE.
   3. TRENCHING NEAR EXISTING TREES:
      a. CONTRACTOR SHALL NOT DISTURB ROOTS 1-1/2" AND LARGER IN DIAMETER WITHIN THE CRITICAL ROOT ZONE (CRZ) OF EXISTING TREES, AND SHALL EXERCISE ALL POSSIBLE CARE AND PRECAUTIONS TO AVOID INJURY TO TREE ROOTS, TRUNKS, AND BRANCHES. THE CRZ IS DEFINED AS A CIRCULAR AREA EXTENDING OUTWARD FROM THE TREE TRUNK, WITH A RADIUS EQUAL TO 1' FOR EVERY 1" OF TRUNK DIAMETER-AT-BREAST-HEIGHT (4.5' ABOVE THE AVERAGE GRADE AT THE TRUNK).
      b. ALL EXCAVATION WITHIN THE CRZ SHALL BE PERFORMED USING HAND TOOLS. NO MACHINE EXCAVATION OR TRENCHING OF ANY KIND SHALL BE ALLOWED WITHIN THE CRZ.
      c. ALTER ALIGNMENT OF PIPE TO AVOID TREE ROOTS 1-1/2" AND LARGER IN DIAMETER. WHERE TREE ROOTS 1-1/2" AND LARGER IN DIAMETER ARE ENCOUNTERED IN THE FIELD, TUNNEL UNDER SUCH ROOTS. WRAP EXPOSED ROOTS WITH SEVERAL LAYERS OF BURLAP AND KEEP MOIST. CLOSE ALL TRENCHES WITHIN THE CANOPY DRIP LINES WITHIN 24 HOURS.
      d. ALL SEVERED ROOTS SHALL BE HAND PRUNED WITH SHARP TOOLS AND ALLOWED TO AIR-DRY. DO NOT USE ANY SORT OF SEALERS OR WOUND PAINTS.

D. TREE PLANTING
   1. TREE PLANTING HOLES SHALL BE EXCAVATED TO MINIMUM WIDTH OF TWO TIMES THE WIDTH OF THE ROOTBALL AND TO A DEPTH EQUAL TO THE DEPTH OF THE ROOTBALL LESS TWO TO FOUR INCHES.
   2. SCARIFY THE SIDES AND BOTTOM OF THE PLANTING HOLE PRIOR TO THE PLACEMENT OF THE TREE. REMOVE ANY GLAZING THAT MAY HAVE BEEN CAUSED DURING THE EXCAVATION OF THE HOLE.
   3. FOR CONTAINER AND BOX TREES, TO REMOVE ANY POTENTIALLY GIRDLING ROOTS AND OTHER ROOT DEFECTS, THE CONTRACTOR SHALL SHAVE A 1" LAYER OFF OF THE SIDES AND BOTTOM OF THE ROOTBALL OF ALL TREES JUST BEFORE PLACING INTO THE PLANTING PIT. DO NOT "TEASE" ROOTS OUT FROM THE ROOTBALL.
   4. INSTALL THE TREE ON UNDISTURBED SUBGRADE SO THAT THE TOP OF THE ROOTBALL IS TWO TO FOUR INCHES ABOVE THE SURROUNDING GRADE.
   5. BACKFILL THE TREE HOLE UTILIZING THE EXISTING TOPSOIL FROM ON-SITE. ROCKS LARGER THAN 1" DIA. AND ALL OTHER DEBRIS SHALL BE REMOVED FROM THE SOIL PRIOR TO THE BACKFILL. SHOULD ADDITIONAL SOIL BE REQUIRED TO ACCOMPLISH THIS TASK, USE STORED TOPSOIL FROM ON-SITE OR IMPORT ADDITIONAL TOPSOIL FROM OFF-SITE AT NO ADDITIONAL COST TO THE OWNER. IMPORTED TOPSOIL SHALL BE OF SIMILAR TEXTURAL CLASS AND COMPOSITION IN THE ON-SITE SOIL.
   6. TREES SHALL NOT BE STAKED UNLESS LOCAL CONDITIONS (SUCH AS HEAVY WINDS OR SLOPES) REQUIRE STAKES TO KEEP TREES UPRIGHT. SHOULD STAKING BE REQUIRED, THE TOTAL NUMBER OF TREE STAKES (BEYOND THE MINIMUMS LISTED BELOW) WILL BE LEFT TO THE LANDSCAPE CONTRACTOR'S DISCRETION. SHOULD ANY TREES FALL OR LEAN, THE LANDSCAPE CONTRACTOR SHALL STRAIGHTEN THE TREE, OR REPLACE IT SHOULD IT BECOME DAMAGED. TREE STAKING SHALL ADHERE TO THE FOLLOWING GUIDELINES:
      a. 1"-2" TREES — TWO STAKES PER TREE
      b. 2-1/2"-4" TREES — THREE STAKES PER TREE
      c. TREES OVER 4" CALIPER — GUY AS NEEDED
      d. MULTI-TRUNK TREES — THREE STAKES PER TREE MINIMUM, QUANTITY AND POSITIONS AS NEEDED TO STABILIZE THE TREE
      e. #15 CONT. - 24" BOX TREES — TWO STAKES PER TREE
      f. 36"-48" BOX TREES — THREE STAKES PER TREE
      g. OVER 48" BOX TREES — GUY AS NEEDED
      h. MULTI-TRUNK TREES — THREE STAKES PER TREE MINIMUM, QUANTITY AND POSITIONS AS NEEDED TO STABILIZE THE TREE
   7. UPON COMPLETION OF PLANTING, CONSTRUCT AN EARTH WATERING BASIN AROUND THE TREE. COVER THE INTERIOR OF THE TREE RING WITH THE WEED BARRIER CLOTH AND TOPDRESS WITH MULCH (TYPE AND DEPTH PER PLANS).

E. SHRUB, PERENNIAL, AND GROUNDCOVER PLANTING
   1. DIG THE PLANTING HOLES TWICE AS WIDE AND 2" LESS DEEP THAN EACH PLANT'S ROOTBALL. INSTALL THE PLANT IN THE HOLE. BACKFILL AROUND THE PLANT WITH SOIL AMENDED PER SOIL TEST RECOMMENDATIONS.
   2. INSTALL THE WEED BARRIER CLOTH, OVERLAPPING IT AT THE ENDS. UTILIZE STEEL STAPLES TO KEEP THE WEED BARRIER CLOTH IN PLACE.
   3. WHEN PLANTING IS COMPLETE, INSTALL MULCH (TYPE AND DEPTH PER PLANS) OVER ALL PLANTING BEDS, COVERING THE ENTIRE PLANTING AREA.

F. SODDING
   1. SOD VARIETY TO BE AS SPECIFIED ON THE LANDSCAPE PLAN.
   2. LAY SOD WITHIN 24 HOURS FROM THE TIME OF STRIPPING. DO NOT LAY IF THE GROUND IS FROZEN.
   3. LAY THE SOD TO FORM A SOLID MASS WITH TIGHTLY FITTED JOINTS. BUTT ENDS AND SIDES OF SOD STRIPS - DO NOT OVERLAP. STAGGER STRIPS TO OFFSET JOINTS IN ADJACENT COURSES.
   4. ROLL THE SOD TO ENSURE GOOD CONTACT OF THE SOD'S ROOT SYSTEM WITH THE SOIL UNDERNEATH.
   5. WATER THE SOD THOROUGHLY WITH A FINE SPRAY IMMEDIATELY AFTER PLANTING TO OBTAIN AT LEAST SIX INCHES OF PENETRATION INTO THE SOIL BELOW THE SOD.

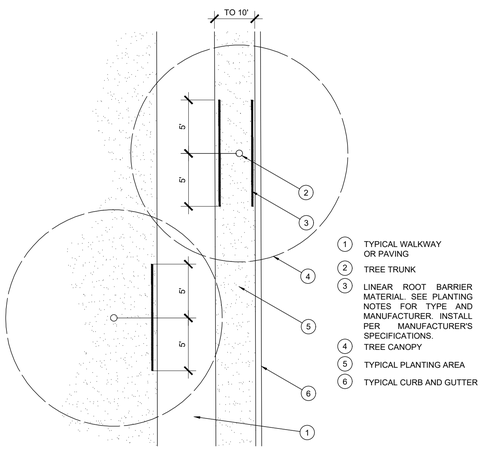
G. HYDROMULCHING
   1. TURF HYDROMULCH MIX (PER 1,000 SF) SHALL BE AS FOLLOWS:
      a. WINTER MIX (OCTOBER 1 - MARCH 31)
         50# CELLULOSE FIBER MULCH
         2# UNHULLED BERMUDA SEED
         2# ANNUAL RYE SEED
         15# 15-15-15 WATER SOLUBLE FERTILIZER
      b. SUMMER MIX (APRIL 1 - SEPTEMBER 30)
         50# CELLULOSE FIBER MULCH
         2# HULLED BERMUDA SEED
         15# 15-15-15 WATER SOLUBLE FERTILIZER
   2. SEED HYDROMULCH MIX (PER 1,000 SF) SHALL BE AS FOLLOWS:
      a. GENERAL
         50# CELLULOSE FIBER MULCH
         15# 15-15-15 WATER SOLUBLE FERTILIZER
         SEED RATE PER LEGEND

H. DRILL SEEDING
   1. ALL SEED SHALL BE DRILL SEEDED AT THE RATES SHOWN ON THE PLANS, WITH A HYDROMULCH MIX APPLIED AFTER SEEDING.
   2. THE HYDROMULCH MIX (PER 1,000 SF) SHALL BE AS FOLLOWS:
      50# CELLULOSE FIBER MULCH
      15# 15-15-15 WATER SOLUBLE FERTILIZER
      4# ORGANIC BINDER

I. MULCH
   1. INSTALL MULCH TOPDRESSING, TYPE AND DEPTH PER MULCH NOTE, IN ALL PLANTING AREAS AND TREE RINGS.
   2. DO NOT INSTALL MULCH WITHIN 6" OF TREE ROOT FLARE AND WITHIN 24" OF HABITABLE STRUCTURES, EXCEPT AS MAY BE NOTED ON THESE PLANS. MULCH COVER WITHIN 6" OF CONCRETE WALKS AND CURBS SHALL NOT PROTRUDE ABOVE THE FINISH SURFACE OF THE WALKS AND CURBS. MULCH COVER WITHIN 12" OF WALLS SHALL BE AT LEAST 3" LOWER THAN THE TOP OF WALL.

J. CLEAN UP
   1. DURING LANDSCAPE PREPARATION AND PLANTING, KEEP ALL PAVEMENT CLEAN AND ALL WORK AREAS IN A NEAT, ORDERLY CONDITION.
   2. DISPOSED LEGALLY OF ALL EXCAVATED MATERIALS OFF THE PROJECT SITE.

K. INSPECTION AND ACCEPTANCE
   1. UPON COMPLETION OF THE WORK, THE LANDSCAPE CONTRACTOR SHALL PROVIDE THE SITE CLEAN, FREE OF DEBRIS AND TRASH, AND SUITABLE FOR USE AS INTENDED. THE LANDSCAPE CONTRACTOR SHALL THEN REQUEST AN INSPECTION BY THE OWNER TO DETERMINE FINAL ACCEPTABILITY.
   2. WHEN THE INSPECTED PLANTING WORK DOES NOT COMPLY WITH THE CONTRACT DOCUMENTS, THE LANDSCAPE CONTRACTOR SHALL REPLACE AND/OR REPAIR THE REJECTED WORK TO THE OWNER'S SATISFACTION WITHIN 24 HOURS.
   3. THE LANDSCAPE MAINTENANCE PERIOD WILL NOT COMMENCE UNTIL THE LANDSCAPE WORK HAS BEEN RE-INSPECTED BY THE OWNER AND FOUND TO BE ACCEPTABLE. AT THAT TIME, A WRITTEN NOTICE OF FINAL ACCEPTANCE WILL BE ISSUED BY THE OWNER, AND THE MAINTENANCE AND GUARANTEE PERIODS WILL COMMENCE.

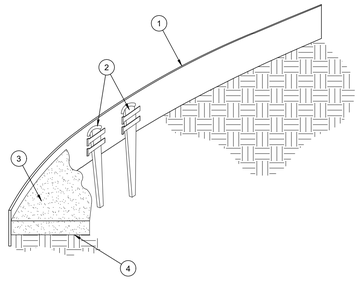


L. LANDSCAPE MAINTENANCE
   1. THE LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR THE MAINTENANCE OF ALL WORK SHOWN ON THESE PLANS FOR 90 DAYS BEYOND FINAL ACCEPTANCE OF ALL LANDSCAPE WORK BY THE OWNER. LANDSCAPE MAINTENANCE SHALL INCLUDE WEEKLY SITE VISITS FOR THE FOLLOWING ACTIONS (AS APPROPRIATE): PROPER PRUNING, RESTAKING OF TREES, RESETTING OF PLANTS THAT HAVE SETTLED, MOWING AND AERATION OF LAWNS, WEEDING, RESEEDING AREAS WHICH HAVE NOT GERMINATED WELL, TREATING FOR INSECTS AND DISEASES,REPLACEMENT OF MULCH, REMOVAL OF LITTER, REPAIRS TO THE IRRIGATION SYSTEM DUE TO FAULTY PARTS AND/OR WORKMANSHIP, AND THE APPROPRIATE WATERING OF ALL PLANTINGS. THE LANDSCAPE CONTRACTOR SHALL MAINTAIN THE IRRIGATION SYSTEM IN PROPER WORKING ORDER, WITH SCHEDULING ADJUSTMENTS BY SEASON TO MAXIMIZE WATER CONSERVATION.
   2. SHOULD SEEDED AND/OR SODDED AREAS NOT BE COVERED BY AN AUTOMATIC IRRIGATION SYSTEM, THE LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR WATERING THESE AREAS AND OBTAINING A FULL HEALTHY STAND OF PLANTS AT NO ADDITIONAL COST TO THE OWNER.
   3. TO ACHIEVE FINAL ACCEPTANCE AT THE END OF THE MAINTENANCE PERIOD, ALL OF THE FOLLOWING CONDITIONS MUST OCCUR:
      a. THE LANDSCAPE SHALL SHOW ACTIVE, HEALTHY GROWTH (WITH EXCEPTIONS MADE FOR SEASONAL DORMANCY). ALL PLANTS NOT MEETING THIS CONDITION SHALL BE REJECTED AND REPLACED BY HEALTHY PLANT MATERIAL PRIOR TO FINAL ACCEPTANCE.
      b. ALL HARDSCAPE SHALL BE CLEANED PRIOR TO FINAL ACCEPTANCE.
      c. SODDED AREAS MUST BE ACTIVELY GROWING AND MUST REACH A MINIMUM HEIGHT OF 1 1/2 INCHES BEFORE FIRST MOWING. HYDROMULCHED AREAS SHALL SHOW ACTIVE, HEALTHY GROWTH. BARE AREAS LARGER THAN TWELVE SQUARE INCHES MUST BE RESODDED OR RESEEDED (AS APPROPRIATE) PRIOR TO FINAL ACCEPTANCE. ALL SODDED TURF SHALL BE NEATLY MOWED.

M. WARRANTY PERIOD, PLANT GUARANTEE AND REPLACEMENTS
   1. THE LANDSCAPE CONTRACTOR SHALL GUARANTEE ALL TREES, SHRUBS, PERENNIALS, SOD, SEEDED/HYDROMULCHED AREAS, AND IRRIGATION SYSTEMS FOR A PERIOD OF ONE YEAR FROM THE DATE OF THE OWNER'S FINAL ACCEPTANCE (90 DAYS FOR ANNUAL PLANTS). THE CONTRACTOR SHALL REPLACE, AT HIS OWN EXPENSE AND TO THE SATISFACTION OF THE OWNER, ANY PLANTS WHICH DIE IN THAT TIME, OR REPAIR ANY PORTIONS OF THE IRRIGATION SYSTEM WHICH OPERATE IMPROPERLY.
   2. AFTER THE INITIAL MAINTENANCE PERIOD AND DURING THE GUARANTEE PERIOD, THE LANDSCAPE CONTRACTOR SHALL ONLY BE RESPONSIBLE FOR REPLACEMENT OF PLANTS WHEN PLANT DEATH CANNOT BE ATTRIBUTED DIRECTLY TO OVERWATERING OR OTHER DAMAGE BY HUMAN ACTIONS.

N. PROVIDE A MINIMUM OF (2) COPIES OF RECORD DRAWINGS TO THE OWNER UPON COMPLETION OF WORK. A RECORD DRAWING IS A RECORD OF ALL CHANGES THAT OCCURRED IN THE FIELD AND THAT ARE DOCUMENTED THROUGH CHANGE ORDERS, ADDENDA, OR CONTRACTOR/CONSULTANT DRAWING MARKUPS.

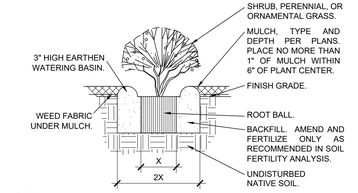
CAUTION NOTICE TO CONTRACTORS



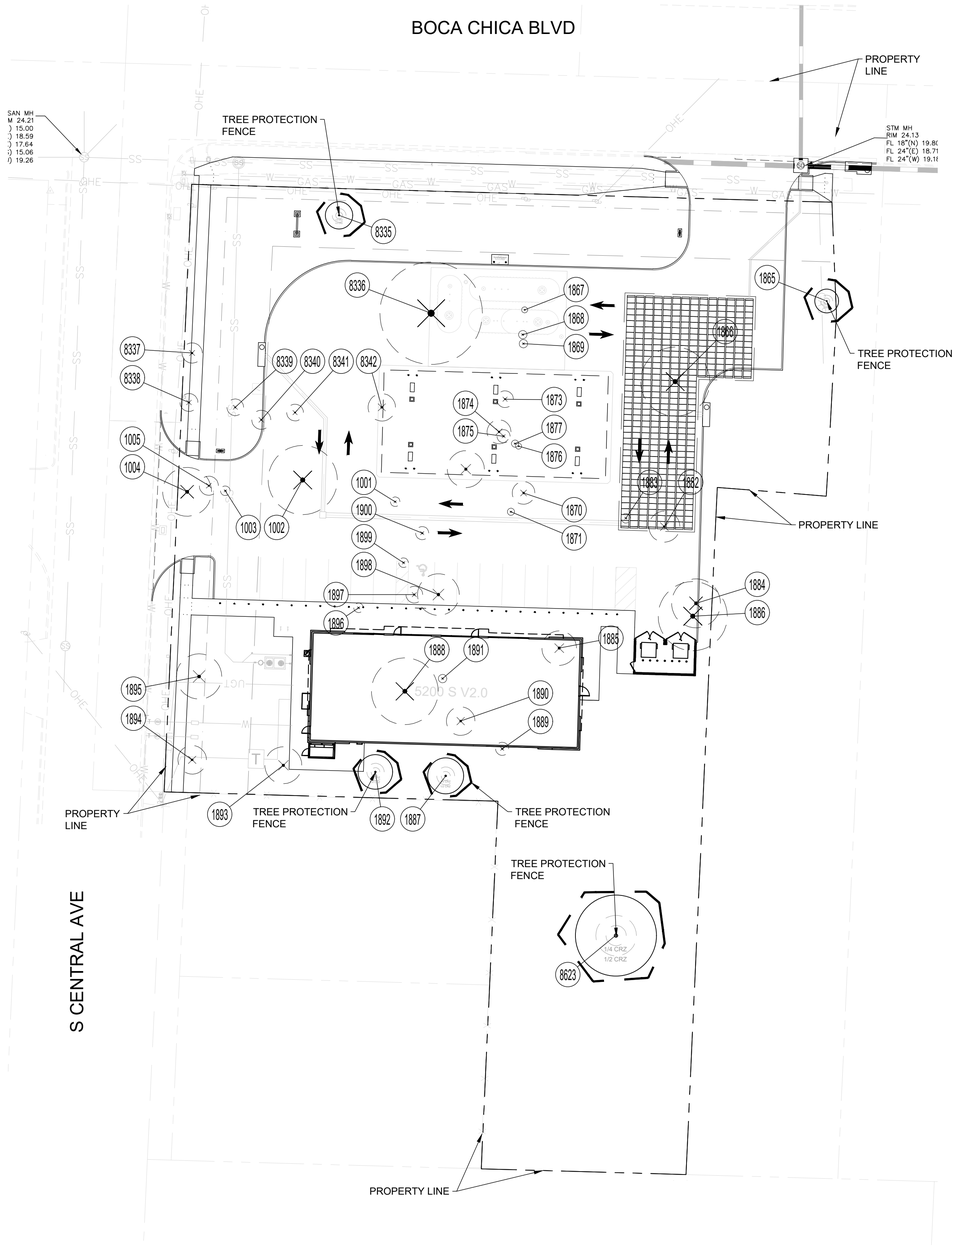
THE CONTRACTOR IS SPECIFICALLY CAUTIONED THAT THE LOCATION AND/OR ELEVATION OF EXISTING UTILITIES AS SHOWN ON THESE PLANS IS BASED ON RECORDS OF THE VARIOUS UTILITY COMPANIES AND, WHERE POSSIBLE, MEASUREMENTS TAKEN IN THE FIELD. THE INFORMATION IS NOT TO BE RELIED ON AS BEING EXACT OR COMPLETE. THE CONTRACTOR MUCH CALL 811 AT LEAST 72 HOURS BEFORE ANY EXCAVATION TO REQUEST EXACT FIELD LOCATIONS OF THE UTILITIES. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO RELOCATED ALL EXISTING UTILITIES WHICH CONFLICT WITH THE PROPOSED IMPROVEMENTS SHOWN ON THESE PLANS.

1. TYPICAL WALKWAY OR PAVING
2. TREE TRUNK
3. LINEAR ROOT BARRIER MATERIAL. SEE PLANTING NOTES FOR TYPE AND MANUFACTURER. INSTALL PER MANUFACTURER'S SPECIFICATIONS.
4. TREE CANOPY
5. TYPICAL PLANTING AREA
6. TYPICAL CURB AND GUTTER

NOTES:
1) INSTALL ROOT BARRIERS NEAR ALL NEWLY-PLANTED TREES THAT ARE LOCATED WITHIN FIVE (5) FEET OF PAVING OR CURBS.
2) BARRIERS SHALL BE LOCATED IMMEDIATELY ADJACENT TO HARDSCAPE. UNDER NO CIRCUMSTANCES SHALL THE CONTRACTOR USE ROOT BARRIERS OF A TYPE THAT COMPLETELY ENCIRCLE THE ROOTBALL.



F ROOT BARRIER - PLAN VIEW
SCALE: NOT TO SCALE



1. ROLLED-TOP STEEL EDGING PER PLANS.
2. TAPERED STEEL STAKES.
3. MULCH, TYPE AND DEPTH PER PLANS.
4. FINISH GRADE.

NOTES:
1) INSTALL EDGING SO THAT STAKES WILL BE ON INSIDE OF PLANTING BED.
2) BOTTOM OF EDGING SHALL BE BURIED A MINIMUM OF 1" BELOW FINISH GRADE.
3) TOP OF MULCH SHALL BE 1" LOWER THAN TOP OF EDGING.

E STEEL EDGING
SCALE: NOT TO SCALE

3" HIGH EARTHEN WATERING BASIN.
WEED FABRIC UNDER MULCH.
X
2X
SHRUB, PERENNIAL, OR ORNAMENTAL GRASS.
MULCH, TYPE AND DEPTH PER PLANS. PLACE NO MORE THAN 1" OF MULCH WITHIN 6" OF PLANT CENTER.
FINISH GRADE.
ROOT BALL.
BACKFILL. AMEND AND FERTILIZE ONLY AS RECOMMENDED IN SOIL FERTILITY ANALYSIS.
UNDISTURBED NATIVE SO

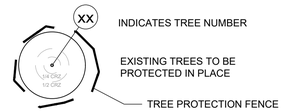
TREE PROTECTION GENERAL NOTES

(A) PRIOR TO THE LAND CLEARING STAGE OF DEVELOPMENT, THE CONTRACTOR SHALL CLEARLY MARK ALL PROTECTED TREES FOR WHICH A TREE REMOVAL PERMIT HAS NOT BEEN ISSUED AND SHALL ERECT BARRIERS FOR THE PROTECTION OF THE TREES ACCORDING TO THE FOLLOWING:
- (1) AROUND AN AREA AT OR GREATER THAN A SIX-FOOT RADIUS OF ALL SPECIES OF MANGROVES AND PROTECTED CABBAGE PALMS;
- (2) AROUND AN AREA AT OR GREATER THAN THE FULL DRIPLINE OF ALL PROTECTED NATIVE PINES;
- (3) AROUND AN AREA AT OR GREATER THAN TWO-THIRDS OF THE DRIPLINE OF ALL OTHER PROTECTED SPECIES.

(B) NO PERSON SHALL ATTACH ANY SIGN, NOTICE OR OTHER OBJECT TO ANY PROTECTED TREE OR FASTEN ANY WIRES, CABLES, NAILS OR SCREWS TO ANY PROTECTED TREE IN ANY MANNER THAT COULD PROVE HARMFUL TO THE PROTECTED TREE, EXCEPT AS NECESSARY IN CONJUNCTION WITH ACTIVITIES IN THE PUBLIC INTEREST.

(C) DURING THE CONSTRUCTION STAGE OF DEVELOPMENT, THE CONTRACTOR SHALL NOT CAUSE OR PERMIT THE CLEANING OF EQUIPMENT OR MATERIAL WITHIN THE OUTSIDE PERIMETER OF THE CROWN (DRIPLINE) OR ON THE NEARBY GROUND OF ANY TREE OR GROUP OF TREES WHICH IS TO BE PRESERVED. WITHIN THE OUTSIDE PERIMETER OF THE CROWN (DRIPLINE) OF ANY TREE OR ON NEARBY GROUND, THE CONTRACTOR SHALL NOT CAUSE OR PERMIT STORAGE OF BUILDING MATERIAL AND/OR EQUIPMENT, OR DISPOSAL OF WASTE MATERIAL SUCH AS PAINTS, OIL, SOLVENTS, ASPHALT, CONCRETE, MORTAR OR ANY OTHER MATERIAL HARMFUL TO THE LIFE OF THE TREE.

(D) NO PERSON SHALL PERMIT ANY UNNECESSARY FIRE OR BURNING WITHIN 30 FEET OF THE DRIPLINE OF A PROTECTED TREE.



(E) ANY LANDSCAPING ACTIVITIES WITHIN THE BARRIER AREA SHALL BE ACCOMPLISHED WITH HAND LABOR.

(F) PRIOR TO ISSUING A CERTIFICATE OF OCCUPANCY OR COMPLIANCE FOR ANY DEVELOPMENT, BUILDING OR STRUCTURE, ALL TREES DESIGNATED TO BE PRESERVED THAT WERE DESTROYED DURING CONSTRUCTION SHALL BE REPLACED BY THE CONTRACTOR WITH TREES OF EQUIVALENT DIAMETER AT BREAST HEIGHT TREE CALIPER AND OF THE SAME SPECIES AS SPECIFIED BY THE COUNTY ADMINISTRATOR, BEFORE OCCUPANCY OR USE, UNLESS APPROVAL FOR THEIR REMOVAL HAS BEEN GRANTED UNDER PERMIT.

(G) THE COUNTY ADMINISTRATOR MAY CONDUCT PERIODIC INSPECTIONS OF THE SITE DURING LAND CLEARANCE AND CONSTRUCTION.

(H) IF, IN THE OPINION OF THE COUNTY ADMINISTRATOR, DEVELOPMENT ACTIVITIES WILL SO SEVERELY STRESS SLASH PINES OR ANY OTHER PROTECTED TREE SUCH THAT THEY ARE MADE SUSCEPTIBLE TO INSECT ATTACK, PREVENTATIVE SPRAYING OF THESE TREES BY THE CONTRACTOR MAY BE REQUIRED.

LEGEND

NOTE: TREE PROTECTION FOR ANY PRESERVED OR RELOCATED TREES MUST BE PROVIDED PER DETAILS AND SPECIFICATIONS ON SHEET TD-2. THESE MUST BE UP PRIOR TO THE COMMENCEMENT OF ANY WORK AND MAINTAINED THROUGHOUT CONSTRUCTION.

NOTE: ALL TREE TRIMMING MUST BE APPROVED BY THE OWNER AND LOCAL JURISDICTION PRIOR TO COMMENCEMENT OF WORK. ALL TREE TRIMMING MUST BE DONE BY AN ISA CERTIFIED ARBORIST IN ACCORDANCE WITH LOCAL TREE PRESERVATION ORDINANCE.

BROWNSVILLE, TEXAS 78521

SHEET
TD-1

TREE PROTECTION SPECIFICATIONS

MATERIALS

1. FABRIC: 4 FOOT HIGH ORANGE PLASTIC FENCING AS SHOWN ON THE PLANS AND SHALL BE WOVEN WITH 2 INCH MESH OPENINGS SUCH THAT IN A VERTICAL DIMENSION OF 23 INCHES ALONG THE DIAGONALS OF THE OPENINGS THERE SHALL BE AT LEAST 7 MESHES.
2. POSTS: POSTS SHALL BE A MINIMUM OF 72 INCHES LONG AND STEEL "T" SHAPED WITH A MINIMUM WEIGHT OF 1.3 POUNDS PER LINEAR FOOT.
3. TIE WIRE: WIRE FOR ATTACHING THE FABRIC TO THE T-POSTS SHALL BE NOT LESS THAN NO. 12 GAUGE GALVANIZED WIRE.
4. USED MATERIALS: PREVIOUSLY-USED MATERIALS, MEETING THE ABOVE REQUIREMENTS AND WHEN APPROVED BY THE OWNER, MAY BE USED.

CONSTRUCTION METHODS

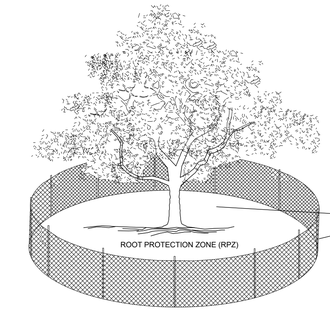
1. ALL TREES AND SHRUBS SHOWN TO REMAIN WITHIN THE PROXIMITY OF THE CONSTRUCTION SITE SHALL BE PROTECTED PRIOR TO BEGINNING ANY DEVELOPMENT ACTIVITY.
2. EMPLOY THE SERVICES OF AN ISA (INTERNATIONAL SOCIETY OF ARBORICULTURE) CERTIFIED ARBORIST AND OBTAIN ALL REQUIRED PERMITS TO PRUNE THE EXISTING TREES FOR CLEANING, RAISING AND THINNING, AS MAY BE REQUIRED.
3. PROTECTIVE FENCING SHALL BE ERECTED OUTSIDE THE CRITICAL ROOT ZONE (CRZ, EQUAL TO 1' FROM THE TRUNK FOR EVERY 1" OF DBH) AT LOCATIONS SHOWN IN THE PLANS OR AS DIRECTED BY THE LANDSCAPE CONSULTANT AND/OR CITY ARBORIST, AND IN ACCORDANCE WITH THE DETAILS SHOWN ON THE PLANS. FENCING SHALL BE MAINTAINED AND REPAIRED BY THE CONTRACTOR DURING SITE CONSTRUCTION. TREES IN CLOSE PROXIMITY SHALL BE FENCED TOGETHER, RATHER THAN INDIVIDUALLY.
4. PROTECTIVE FENCE LOCATIONS IN CLOSE PROXIMITY TO STREET INTERSECTIONS OR DRIVES SHALL ADHERE TO THE APPLICABLE JURISDICTION'S SIGHT DISTANCE CRITERIA.
5. THE PROTECTIVE FENCING SHALL BE ERECTED BEFORE SITE WORK COMMENCES AND SHALL REMAIN IN PLACE DURING THE ENTIRE CONSTRUCTION PHASE.
6. THE INSTALLATION POSTS SHALL BE PLACED EVERY 6 FEET ON CENTER AND EMBEDDED TO 18 INCHES DEEP. MESH FABRIC SHALL BE ATTACHED TO THE INSTALLATION POSTS BY THE USE OF SUFFICIENT WIRE TIES TO SECURELY FASTEN THE FABRIC TO THE T-POSTS TO HOLD THE FABRIC IN A STABLE AND UPRIGHT POSITION.
7. WITHIN THE CRZ:
   a. DO NOT CLEAR, FILL OR GRADE IN THE CRZ OF ANY TREE.
   b. DO NOT STORE, STOCKPILE OR DUMP ANY JOB MATERIAL, SOIL OR RUBBISH UNDER THE SPREAD OF THE TREE BRANCHES.
   c. DO NOT PARK OR STORE ANY EQUIPMENT OR SUPPLIES UNDER THE TREE CANOPY.
   d. DO NOT SET UP ANY CONSTRUCTION OPERATIONS UNDER THE TREE CANOPY (SUCH AS PIPE CUTTING AND THREADING, MORTAR MIXING, PAINTING OR LUMBER CUTTING).
   e. DO NOT NAIL OR ATTACH TEMPORARY SIGNS METERS, SWITCHES, WIRES, BRACING OR ANY OTHER ITEM TO THE TREES.
   f. DO NOT PERMIT RUNOFF FROM WASTE MATERIALS INCLUDING SOLVENTS, CONCRETE WASHOUTS, ASPHALT TACK COATS (MC-30 OIL), ETC. TO ENTER THE CRZ. BARRIERS ARE TO BE PROVIDED TO PREVENT SUCH RUNOFF SUBSTANCES FROM ENTERING THE CRZ WHENEVER POSSIBLE, INCLUDING IN AN AREA WHERE RAIN OR SURFACE WATER COULD CARRY SUCH MATERIALS TO THE ROOT SYSTEM OF THE TREE.
8. ROUTE UNDERGROUND UTILITIES TO AVOID THE CRZ. IF DIGGING IS UNAVOIDABLE, BORE UNDER THE ROOTS, OR HAND DIG TO AVOID SEVERING THEM.
9. WHERE EXCAVATION IN THE VICINITY OF TREES MUST OCCUR, SUCH AS FOR IRRIGATION INSTALLATION, PROCEED WITH CAUTION, AND USING HAND TOOLS ONLY.
10. THE CONTRACTOR SHALL NOT CUT ROOTS LARGER THAN ONE INCH IN DIAMETER WHEN EXCAVATION OCCURS NEAR EXISTING TREES. ALL ROOTS LARGER THAN ONE INCH IN DIAMETER ARE TO BE CUT CLEANLY. FOR OAKS ONLY, ALL WOUNDS SHALL BE PAINTED WITH WOUND SEALER WITHIN 30 MINUTES
11. REMOVE ALL TREES, SHRUBS OR BUSHES TO BE CLEARED FROM PROTECTED ROOT ZONE AREAS BY HAND.
12. TREES DAMAGED OR KILLED DUE TO CONTRACTOR'S NEGLIGENCE DURING CONSTRUCTION SHALL BE MITIGATED AT THE CONTRACTOR'S EXPENSE AND TO THE PROJECT OWNER'S AND LOCAL JURISDICTION'S SATISFACTION.
13. ANY TREE REMOVAL SHALL BE APPROVED BY THE OWNER AND LOCAL JURISDICTION PRIOR TO ITS REMOVAL, AND THE CONTRACTOR SHALL HAVE ALL REQUIRED PERMITS FOR SUCH ACTIVITIES.
14. COVER EXPOSED ROOTS AT THE END OF EACH DAY WITH SOIL, MULCH OR WET BURLAP.
15. IN CRITICAL ROOT ZONE AREAS THAT CANNOT BE PROTECTED DUING CONSTRUCTION AND WHERE HEAVY TRAFFIC IS ANTICIPATED, COVER THE SOIL WITH EIGHT INCHES OF ORGANIC MULCH TO MINIMIZE SOIL COMPACTION. THIS EIGHT INCH DEPTH OF MULCH SHALL BE MAINTAINED THROUGHOUT CONSTRUCTION.
16. WATER ALL TREES IMPACTED BY CONSTRUCTION ACTIVITIES, DEEPLY ONCE A WEEK DURING PERIODS OF HOT DRY WEATHER. SPRAY TREE CROWNS WITH WATER PERIODICALLY TO REDUCE DUST ACCUMULATION ON THE LEAVES.
17. WHEN INSTALLING CONCRETE ADJACENT TO THE ROOT ZONE OF A TREE, USE A PLASTIC VAPOR BARRIER BEHIND THE CONCRETE TO PROHIBIT LEACHING OF LIME INTO THE SOIL.
18. CONTRACTOR SHALL REMOVE AND DISPOSE OF ALL TREE PROTECTION FENCING WHEN ALL THREATS TO THE EXISTING TREES FROM CONSTRUCTION-RELATED ACTIVITIES HAVE BEEN REMOVED.

TREE PROTECTION GENERAL NOTES

(A) PRIOR TO THE LAND CLEARING STAGE OF DEVELOPMENT, THE CONTRACTOR SHALL CLEARLY MARK ALL PROTECTED TREES FOR WHICH A TREE REMOVAL PERMIT HAS NOT BEEN ISSUED AND SHALL ERECT BARRIERS FOR THE PROTECTION OF THE TREES ACCORDING TO THE FOLLOWING:
   (1) AROUND AN AREA AT OR GREATER THAN A SIX-FOOT RADIUS OF ALL SPECIES OF MANGROVES AND PROTECTED CABBAGE PALMS;
   (2) AROUND AN AREA AT OR GREATER THAN THE FULL DRIPLINE OF ALL PROTECTED NATIVE PINES;
   (3) AROUND AN AREA AT OR GREATER THAN TWO-THIRDS OF THE DRIPLINE OF ALL OTHER PROTECTED SPECIES.

(B) NO PERSON SHALL ATTACH ANY SIGN, NOTICE OR OTHER OBJECT TO ANY PROTECTED TREE OR FASTEN ANY WIRES, CABLES, NAILS OR SCREWS TO ANY PROTECTED TREE IN ANY MANNER THAT COULD PROVE HARMFUL TO THE PROTECTED TREE, EXCEPT AS NECESSARY IN CONJUNCTION WITH ACTIVITIES IN THE PUBLIC INTEREST.

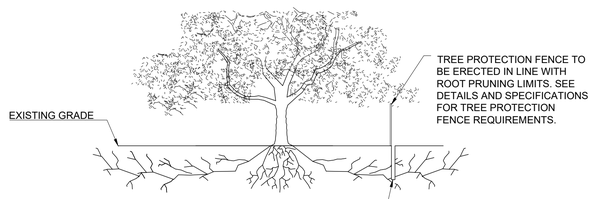
(C) DURING THE CONSTRUCTION STAGE OF DEVELOPMENT, THE CONTRACTOR SHALL NOT CAUSE OR PERMIT THE CLEANING OF EQUIPMENT OR MATERIAL WITHIN THE OUTSIDE PERIMETER OF THE CROWN (DRIPLINE) OR ON THE NEARBY GROUND OF ANY TREE OR GROUP OF TREES WHICH IS TO BE PRESERVED. WITHIN THE OUTSIDE PERIMETER OF THE CROWN (DRIPLINE) OF ANY TREE OR ON NEARBY GROUND, THE CONTRACTOR SHALL NOT CAUSE OR PERMIT STORAGE OF BUILDING MATERIAL AND/OR EQUIPMENT, OR DISPOSAL OF WASTE MATERIAL SUCH AS PAINTS, OIL, SOLVENTS, ASPHALT, CONCRETE, MORTAR OR ANY OTHER MATERIAL HARMFUL TO THE LIFE OF THE TREE.



(D) NO PERSON SHALL PERMIT ANY UNNECESSARY FIRE OR BURNING WITHIN 30 FEET OF THE DRIPLINE OF A PROTECTED TREE.

(E) ANY LANDSCAPING ACTIVITIES WITHIN THE BARRIER AREA SHALL BE ACCOMPLISHED WITH HAND LABOR.

(F) PRIOR TO ISSUING A CERTIFICATE OF OCCUPANCY OR COMPLIANCE FOR ANY DEVELOPMENT, BUILDING OR STRUCTURE, ALL TREES DESIGNATED TO BE PRESERVED THAT WERE DESTROYED DURING CONSTRUCTION SHALL BE REPLACED BY THE CONTRACTOR WITH TREES OF EQUIVALENT DIAMETER AT BREAST HEIGHT TREE CALIPER AND OF THE SAME SPECIES AS SPECIFIED BY THE CITY STAFF, BEFORE OCCUPANCY OR USE, UNLESS APPROVAL FOR THEIR REMOVAL HAS BEEN GRANTED UNDER PERMIT.

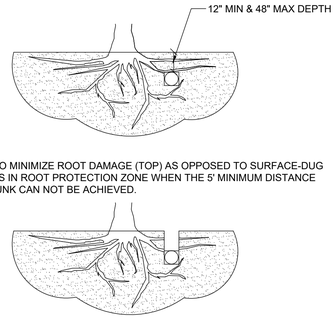


(G) THE CITY STAFF MAY CONDUCT PERIODIC INSPECTIONS OF THE SITE DURING LAND CLEARANCE AND CONSTRUCTION.

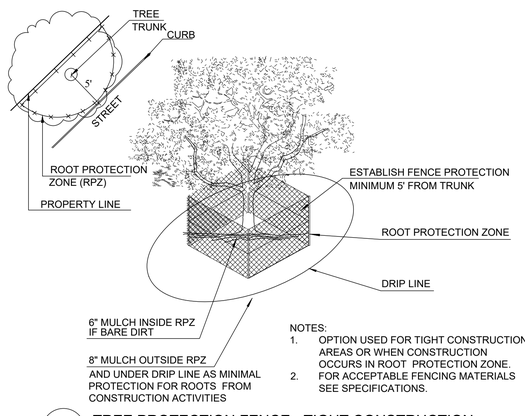
(H) IF, IN THE OPINION OF THE CITY STAFF, DEVELOPMENT ACTIVITIES WILL SO SEVERELY STRESS SLASH PINES OR ANY OTHER PROTECTED TREE SUCH THAT THEY ARE MADE SUSCEPTIBLE TO INSECT ATTACK, PREVENTATIVE SPRAYING OF THESE TREES BY THE CONTRACTOR MAY BE REQUIRED.

NOTES:
1. THE FENCING LOCATION SHOWN ABOVE IS DIAGRAMATIC ONLY AND WILL CONFORM TO THE DRIP LINE AND BE LIMITED TO PROJECT BOUNDARY. WHERE MULTIPLE ADJACENT TREES WILL BE ENCLOSED BY FENCING, THE FENCING SHALL BE CONTINUOUS AROUND ALL TREES.
2. FOR ACCEPTABLE FENCING MATERIALS SEE SPECIFICATIONS.

A TREE PROTECTION FENCE
SCALE: NOT TO SCALE



NOTES
1. RETENTION AREAS WILL BE SET AS PART OF THE REVIEW PROCESS AND PRE-CONSTRUCTION MEETING.
2. BOUNDARIES OF RETENTION AREAS MUST BE STAKED AT THE PRE-CONSTRUCTION MEETING AND FLAGGED PRIOR TO ROOT PRUNING.
3. EXACT LOCATION OF ROOT PRUNING SHALL BE DETERMINED IN THE FIELD IN COORDINATION WITH THE FORESTRY INSPECTOR .
4. TRENCH SHOULD BE IMMEDIATELY BACKFILLED WITH EXCAVATED SOIL OR OTHER ORGANIC SOIL AS SPECIFIED PER PLAN OR BY THE FORESTRY INSPECTOR.
5. ROOTS SHALL BE CLEANLY CUT USING VIBRATORY KNIFE OR OTHER ACCEPTABLE EQUIPMENT. ROT PRUNING METHODS AND MEANS MUST BE IN ACCORDANCE WITH ANSI STANDARD A3000.
6. ALL PRUNING MUST BE EXECUTED AT LOD SHOWN ON PLANS OR AS AUTHORIZED IN WRITING BY THE FORESTRY INSPECTOR.
7. SUPPLEMENTAL WATERING MAY BE REQUIRED FOR ROOT PRUNED TREES THROUGHOUT THE GROWING SEASON DURING CONSTRUCTION AND SUBSEQUENT WARRANTY AND MAINTENANCE PERIOD.



D ROOT PRUNING DETAIL
SCALE: NOT TO SCALE

TREES THAT ARE MARKED TO BE PRESERVED ON A SITE PLAN AND FOR WHICH UTILITIES MUST PASS THROUGH THEIR ROOT PROTECTION ZONES MAY REQUIRE TUNNELING AS OPPOSED TO OPEN TRENCHES. THE DECISION TO TUNNEL WILL BE DETERMINED ON A CASE BY CASE BASIS BY THE ENGINEER.

TUNNELS SHALL BE DUG THROUGH THE ROOT PROTECTION ZONE IN ORDER TO MINIMIZE ROOT DAMAGE.

C BORING THROUGH ROOT PROTECTION ZONE
SCALE: NOT TO SCALE

NOTES:
1. OPTION USED FOR TIGHT CONSTRUCTION AREAS OR WHEN CONSTRUCTION OCCURS IN ROOT PROTECTION ZONE.
2. FOR ACCEPTABLE FENCING MATERIALS SEE SPECIFICATIONS.

CAUTION NOTICE TO CONTRACTORS

THE CONTRACTOR IS SPECIFICALLY CAUTIONED THAT THE LOCATION AND/OR ELEVATION OF EXISTING UTILITIES AS SHOWN ON THESE PLANS IS BASED ON RECORDS OF THE VARIOUS UTILITY COMPANIES AND, WHERE POSSIBLE, MEASUREMENTS TAKEN IN THE FIELD. THE INFORMATION IS NOT TO BE RELIED ON AS BEING EXACT OR COMPLETE. THE CONTRACTOR MUCH CALL 811 AT LEAST 72 HOURS BEFORE ANY EXCAVATION TO REQUEST EXACT FIELD LOCATIONS OF THE UTILITIES. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO RELOCATED ALL EXISTING UTILITIES WHICH CONFLICT WITH THE PROPOSED IMPROVEMENTS SHOWN ON THESE PLANS.

ORDINANCE NUMBER 2026-1823

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF BROWNSVILLE, TEXAS, TO DISANNEX AND HEREINAFTER REDUCE THE CITY OF BROWNSVILLE BOUNDARY LIMITS AND TO RELEASE FROM THE CITY'S EXTRATERRITORIAL JURISDICTION CERTAIN TERRITORY DESCRIBED HEREIN, INCLUDING ALL PORTIONS OF RIGHTS-OF-WAY, CURRENTLY WITHIN CITY JURISDICTION AND EXTRATERRITORIAL JURISDICTION AS DESCRIBED ON EXHIBIT "A" AND EXHIBIT "B"; PROVIDING FOR AN ORDER OF DISCONTINUANCE TO BE ENTERED IN THE MINUTES OR RECORDS OF THE CITY; AMENDING THE OFFICIAL BOUNDARIES AND MAP; PROVIDING FOR FILING; MAKING FINDINGS THAT THE VALUE OF DIRECT SERVICES AND BENEFITS PROVIDED TO THE DISANNEXED AREA EXCEEDED TAXES AND FEES COLLECTED PURSUANT TO TEXAS LOCAL GOVERNMENT CODE §43.148; DETERMINING THAT NO REFUND IS DUE TO LANDOWNERS; PROVIDING SEVERABILITY, SAVINGS, AND REPEALING CLAUSES; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Brownsville, Texas (the "City") is a home-rule municipality organized and existing under the Constitution and laws of the State of Texas and its City Charter; and

WHEREAS, Space Exploration Technologies Corporation ("Landowner") is the sole landowner of real property consisting of approximately 444.46 acres described on Exhibit "A" attached hereto and incorporated herein for all purposes (the "Property"), including all adjacent rights-of-way, and has requested disannexation from the City's corporate and extraterritorial jurisdiction; and

WHEREAS, Texas Local Government Code §43.145 authorizes the governing body of a municipality by ordinance to discontinue an area as a part of the municipality when the municipality has a population of 4,000 or more and is located in a county with a population of more than 205,000, and the area is composed of at least three contiguous acres that are unimproved and adjoining the municipal boundaries; and

WHEREAS, Texas Local Government Code §42.023 authorizes the governing body of a municipality to reduce its extraterritorial jurisdiction by written consent given by ordinance or resolution; and

WHEREAS, the Property, including all adjacent rights-of-way, and the referenced portions of rights-of-way described on Exhibit "B" attached hereto and incorporated as is set forth herein, qualify for release from the extraterritorial jurisdiction under the foregoing authority; and

WHEREAS, all procedural requirements of the City Charter and applicable state law for the consideration and adoption of this Ordinance have been or will be satisfied; and

DRAFT

WHEREAS, the City Commission of the City of Brownsville, Texas (the "City Commission") has investigated and determined that it would be advantageous and beneficial to Brownsville and its citizens and the Landowner to disannex the Property under the authority of Chapter 43 of the Texas Local Government Code.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF BROWNSVILLE, TEXAS:

SECTION 1. Findings. The recitals and findings set forth in the preamble of this Ordinance are true and correct and are incorporated herein as if set forth in full, and are determined to be the legislative findings of the City Commission.

SECTION 2. Disannexation from Corporate Limits. The Property being identified in the legal descriptions attached as Exhibit A, to include all adjacent rights-of-way, and being more particularly described as follows:

> *444.46 ACRES MORE OR LESS OUT OF THE GARCIA - DOUGHTERY PROPERTY BEING OUT OF THE EAST HALF OF TRACT "A" OF SHARE 7, SAN MARTIN GRANT, CAMERON COUNTY, TEXAS, AS PER THE PARTITION DEED RECORDED IN VOLUME 141, PAGE 519, CAMERON COUNTY DEED RECORDS; AND ALL ADJACENT RIGHTS-OF-WAY.*

is hereby disannexed and discontinued as a part of the City of Brownsville. The corporate limits and boundary of the City are hereby reduced and adjusted to exclude the Property. The Property shall no longer be within the full-purpose jurisdiction of the City.

SECTION 3. Release from Extraterritorial Jurisdiction. Pursuant to Texas Local Government Code §42.023, the City Commission hereby gives its written consent, and does hereby release and exclude the Property, including the referenced portions of rights-of-way attached hereto in Exhibit "B," from the extraterritorial jurisdiction of the City of Brownsville for all purposes.

SECTION 4. Order of Discontinuance. Upon the second and final reading and adoption of this Ordinance, the City Secretary (or other appropriate official) is directed to enter in the minutes or records of the City an order discontinuing the Property as a part of the municipality, in accordance with Texas Local Government Code §43.145(b) (to the extent applicable). The Property ceases to be a part of the City on the date of the entry of such order.

SECTION 5. Relinquishment of Rights. The City of Brownsville hereby relinquishes any and all rights, jurisdiction, or control over the Property.

SECTION 6. Service Plan. The Service Plan previously adopted for the subject property is no longer in effect as to the subject property only.

SECTION 7. Official Map and Records; Filing. The official map and boundary records of the City shall be amended to reflect the disannexation and ETJ release accomplished by this

DRAFT

Ordinance. The City Secretary is authorized and directed to file a certified copy of this Ordinance (together with Exhibit "A" and Exhibit "B,") with the Cameron County Clerk, the Cameron Central Appraisal District, the Texas Department of Transportation (with respect to applicable rights-of-way), and any other governmental entity or official as may be required by law or deemed appropriate by the City Manager or City Attorney.

SECTION 8. Intent. It is not the intent of the City Commission, by the approval and adoption of this Ordinance, that the City disannex any other property other than the subject property described in Exhibit "A" and Exhibit "B".

SECTION 9. Taxes and Fees. Pursuant to Texas Local Government Code §43.148, the City Council hereby finds, determines, and declares that during the period the disannexed area was part of the municipality, the total amount of money expended by the City to provide direct services and benefits to the disannexed area exceeded the total amount of municipal property taxes and municipal fees collected by the City from the landowners within said area. The City Commission specifically identifies the following direct services and benefits provided to the disannexed area during the annexation period, the value of which constitutes a direct benefit expenditure under state law: police and fire protection and solid waste collection. Based upon the calculation and accounting of these direct benefit expenditures, the City Commission determines that the net refund amount under Texas Local Government Code §43.148 is zero dollars ($0.00). Consequently, no refund of municipal property taxes or fees is required, and no disposition of funds shall be made to the Landowner of the disannexed area.

SECTION 10. Right-of-Way Disannexation. The City Commission acknowledges that Texas Local Government Code §43.147 may require, when disannexing a road or highway, the simultaneous disannexation of an adjacent strip of area equal in size to the minimum area required to comply with the width requirements of § 43.054, unless undertaken with the mutual agreement of the county. The area being released as described in Exhibit B is found to comply with the requirements set out in Texas Local Government Code §43.147. However, if necessary, the City Manager and City Attorney are authorized to coordinate with Cameron County as needed regarding any such strip or agreement and to include any necessary additional description or exhibit if required.

SECTION 11. Severability. If any provision, section, sentence, clause, or phrase of this Ordinance, or the application of same to any person or set of circumstances, is for any reason held to be unconstitutional, void, or invalid, the validity of the remaining portions of this Ordinance shall not be affected thereby, it being the intent of the City Commission that no portion of this Ordinance, or provision hereof, shall become inoperative or fail by reason of any unconstitutionality or invalidity of any other portion hereof.

SECTION 12. Savings/Repealing Clause. All provisions of any ordinance in conflict with this Ordinance are hereby repealed to the extent they are in conflict. Any remaining portions of said ordinances shall remain in full force and effect.

SECTION 13. Open Meetings. It is hereby officially found and determined that the meeting at which this Ordinance was passed was open to the public as required by law, and that public notice of the time, place, and purpose of said meeting was given as required by the Texas Open Meetings Act, Chapter 551, Texas Government Code.

DRAFT

SECTION 14. Effective Date. This Ordinance shall become effective upon its second and final reading and passage, and publication as may be required by law.

INTRODUCED at a public hearing on August 21, 2026. Passed at Second and Final Reading and **ADOPTED**, **APPROVED**, **ENACTED** on _____ __, 2026.

PROPERTY METES AND BOUNDS DESCRIPTION

444.46 ACRES MORE OR LESS OUT OF THE GARCIA – DOUGHTERY PROPERTY BEING OUT OF THE EAST HALF OF TRACT "A" OF SHARE 7, SAN MARTIN GRANT, CAMERON COUNTY, TEXAS, AS PER THE PARTITION DEED RECORDED IN VOLUME 141, PAGE 519, CAMERON COUNTY DEED RECORDS; SAID 444.46 ACRE TRACT BEING MORE PARTICULARLY LOCATED AND DESCRIBED AS FOLLOWS:

COMMENCING AT THE INTERSECTION OF THE WEST BOUNDARY LINE OF THE WEST HALF OF TRACT "A" WITH THE NORTH RIGHT-OF-WAY LINE OF STATE HIGHWAY NO. 4 (100 FT. R.O.W.) BEING ON A CURVE TO THE LEFT WITH A RADIUS OF 1,095.92 FEET AND HAVING A COORDINATE VALUE OF NORTHING: 16,496,987.35', EASTING 1,353,211.05', **THENCE**, ALONG THE NORTH RIGHT-OF-WAY LINE OF STATE HIGHWAY NO 4 (100 FT. R.O.W) AND ALONG SAID CURVE TO THE LEFT AN ARC DISTANCE OF 685.20 FEET, **THENCE**, CONTINUING ALONG THE NORTH RIGHT-OF-WAY LINE OF SAID STATE HIGHWAY NO. 4, NORTH 35 DEG. 18 MIN. 43 SEC. EAST, A DISTANCE OF 1,840.24 FEET TO THE **POINT OF BEGINNING** HAVING A COORDINATE VALUE OF NORTHING: 16,498,892.48', EASTING 1,354,814.88', FOR THE SOUTHWEST CORNER OF THIS TRACT;

THENCE, LEAVING THE NORTH RIGHT-OF-WAY LINE OF STATE HIGHWAY NO. 4, NORTH 01 DEG. 56 MIN. 45 SEC. WEST, A DISTANCE OF 9,915.34 FEET TO A ONE HALF INCH IRON PIN WITH A YELLOW PLASTIC CAP STAMPED "M&R INC" SET, FOR A CORNER OF THIS TRACT;

THENCE, SOUTH 68 DEG. 10 MIN. 03 SEC. WEST, A DISTANCE OF 26.59 FEET TO A ONE HALF INCH IRON PIN WITH A YELLOW PLASTIC CAP STAMPED "M&R INC" SET AT THE WEST BOUNDARY LINE OF TRACT "A" SHARE 7, FOR A CORNER OF THIS TRACT;

THENCE, ALONG THE WEST BOUNDARY LINE OF SAID TRACT "A", NORTH 01 DEG. 56 MIN. 45 SEC. WEST, A DISTANCE OF 1,819.12 FEET TO A ONE HALF INCH IRON PIN WITH A YELLOW PLASTIC CAP STAMPED "M&R INC" SET, FOR A CORNER OF THIS TRACT;

THENCE, LEAVING THE WEST BOUNDARY LINE OF SAID TRACT "A", NORTH 68 DEG. 16 MIN. 53 SEC. EAST, A DISTANCE OF 998.19 FEET TO A ONE HALF INCH IRON PIN WITH A YELLOW PLASTIC CAP STAMPED "M&R INC" SET, FOR A CORNER OF THIS TRACT;

THENCE, NORTH 01 DEG. 49 MIN. 52 SEC. WEST, A DISTANCE OF 833.81 FEET TO A ONE HALF INCH IRON PIN WITH A YELLOW PLASTIC CAP STAMPED "M&R INC" SET ON THE ARMY CORPS OF ENGINEERS SOUTH 13+20 REFERENCE LINE AND THE SOUTH RIGHT-OF-WAY LINE OF THE BROWNSVILLE SHIP CHANNEL (VOLUME 243, PAGE 257, DEED RECORDS), FOR A CORNER OF THIS TRACT;

THENCE, ALONG THE SAID ARMY CORPS OF ENGINEERS SOUTH 13+20 REFERENCE LINE, NORTH 68 DEG. 16 MIN. 53 SEC. EAST, A DISTANCE OF 813.69 FEET TO A ONE HALF INCH IRON PIN WITH A YELLOW PLASTIC CAP STAMPED "M&R INC" SET AT THE INTERSECTION OF THE SAID ARMY CORPS OF ENGINEERS SOUTH 13+20 REFERENCE LINE AND THE SOUTH RIGHT-OF-WAY LINE OF THE SAID BROWNSVILLE SHIP CHANNELWITH THE EAST LINE OF SAID TRACT "A", FOR THE NORTHEAST CORNER OF THIS TRACT;

THENCE, ALONG THE EAST LINE OF SAID TRACT "A", SOUTH 02 DEG. 13 MIN. 38 SEC. EAST, A DISTANCE OF 10,891.03 FEET TO A ONE HALF INCH IRON PIN WITH A YELLOW PLASTIC CAP STAMPED "M&R INC" SET AT THE INTERSECTION OF THE EAST BOUNDARY LINE SAID TRACT "A" AND THE NORTH RIGHT-OF-WAY LINE OF SAID STATE HIGHWAY NO. 4, FOR THE SOUTHEAST CORNER OF THIS TRACT;

THENCE, ALONG THE NORTH RIGHT-OF-WAY LINE OF SAID STATE HIGHWAY NO. 4, SOUTH 35 DEG. 18 MIN. 43 SEC. WEST, A DISTANCE OF 2,866.20 FEET, TO THE **POINT OF BEGINNING**;

CONTAINING, 444.46 ACRES OF LAND, MORE OR LESS.

DRAFT

EXHIBIT B
RIGHT-OF-WAY METES AND BOUNDS DESCRIPTION

BEING a 123.17 acre (5,365,230 square feet) parcel of land situated in the Jose Ygnacio Trevino Survey, Abstract Number 6 and the Permanent School Land Fund Survey, Abstract Number 269, Section 318, Cameron County, Texas and being all of that certain parcel of land conveyed to Cameron County by Right-of-Way Deed recorded in Volume 266, Page 105 of the Deed Records of Cameron County, Texas (D.R.C.C.T.), all of that certain parcel of land conveyed to Cameron County by Easement recorded in Volume 263, Page 275, D.R.C.C.T., all of that certain parcel of land conveyed to Cameron County by Easement recorded in Volume 263, Page 276, D.R.C.C.T., all of that certain parcel of land conveyed to Cameron County by Easement recorded in Volume 263, Page 277, D.R.C.C.T., all of that certain parcel of land conveyed to The State of Texas by Easement recorded in Volume 263, Page 274, D.R.C.C.T., all of that certain parcel of land conveyed to Cameron County by Quitclaim Deed recorded in Volume 260, Page 357, D.R.C.C.T., all of that certain parcel of land conveyed to The State of Texas by Judgment recorded in Volume 262, Page 474, D.R.C.C.T. and being a portion of that certain parcel of land conveyed to Cameron County by Right-of-Way Deed recorded in Volume 211, Page 54, D.R.C.C.T. and further being a portion of that certain parcel of land conveyed to The State of Texas by Right-of-Way Deed recorded in Volume 263, Page 555, D.R.C.C.T., said 123.17 acre (5,365,230 square feet) parcel of land being more particularly described by metes and bounds as follows:

BEGINNING at a 5/8-inch iron rod with a yellow cap, illegible, (Controlling Monument, (C.M.)), found on the West line of that certain tract of land conveyed to JS Real Estate Partnership Ltd., as evidenced by Special Warranty Deed recorded in Document Number 2025-28037 of the Official Public Records of Cameron County, Texas (O.P.R.C.C.T.), same being the East line of that certain tract of land conveyed to Bank of America, N.A., Trustee of the Fca. E. de Yturria Testamentary Trust f/b/o Lydia Yturria Butler, Post Office Box 121, San Antonio, Texas 78291-0121, (ii) Bank of America, N.A., Trustee of the Fca. E. de Yturria Testamentary Trust f/b/o Leonora Yturria Wood, Post Office Box 121, San Antonio, Texas 78291-0121, (iii) Daniel Yturria Butler, Post Office Box 705, Raymondville, Texas 78580, (iv) Richard Earl Butler, Post Office Box 1208, Brownsville, Texas 78522, and (v) Leslie O. Levi, Post Office Box 1497, Buda, Texas 78610, as evidenced by Special Warranty Deed recorded in Volume 6030, Page 293, D.R.C.C.T., same being the East corner of that certain parcel of land conveyed to Cameron County by Right-of-Way Deed recorded in Volume 261, Page 262, D.R.C.C.T., same being the South corner of that certain parcel of land conveyed to Cameron County by Right-of-Way Deed recorded in said Volume 266, Page 105 and further being on the Existing Southeast Right-of-Way line of State Highway 4 (S.H. 4) (Variable Width Right-of-Way), as conveyed to The State of Texas by Right-of-Way Deed recorded in said Volume 263, Page 555;

THENCE, North 02 Degrees 04 Minutes 28 Seconds West, over and across said S.H.4 and along the West line of said JS Real Estate tract of land, same being the East line of said Bank of America tract of land, same being the West line of said Cameron County parcel of land recorded in Volume 266, Page 105 and further being the East line of said Cameron County parcel of land recorded in Volume 261, Page 262, for a distance of **164.72 feet**, to a calculated corner on the Existing Northwest Right-of-Way of said S.H. 4 (Volume 266, Page 105), from which a found aluminum monument bears North 02 Degrees 04 Minutes 28 Seconds West, a distance of 0.69 feet;

THENCE, along the Existing Northwest Right-of-Way line of said S.H. 4 the following thirty-seven (37) courses:

1. **THENCE, North 35 Degrees 18 Minutes 21 Seconds East**, for a distance of **8,530.06 feet,** to a point of deflection;

2. **THENCE, North 36 Degrees 23 Minutes 47 Seconds East,** for a distance of **142.81 feet**, for the beginning of a tangent curve to the right, having a **radius of 1,960.10 feet** and a **chord which bears North 37 Degrees 16 Minutes 37 Seconds East, a distance of 60.24 feet**;

3. **THENCE,** along said curve to the right, through a **central angle of 01 Degrees 45 Minutes 39 Seconds**, for an **arc length of 60.24 feet**, to the end of said curve to the right;

4. **THENCE, North 03 Degrees 04 Minutes 51 Seconds West**, for a distance of **74.66 feet**, for the beginning of a non-tangent curve to the right, having a **radius of 2,010.10 feet** and a **chord which bears North 41 Degrees 47 Minutes 26 Seconds East, a distance of 142.61 feet,** from which a found aluminum monument stamped, "U.S. DEPT. OF INTERIOR FISH & WILDLIFE SERVICE, COR. No. 33, TR 255, RPLS 1469, 1990" herein after referred to as "U.S.D.O.I.F&W.S.", bears: South 18 Degrees 32 Minutes 29 Seconds West, a distance of 7.27 feet;

5. **THENCE,** along said curve to the right, through a **central angle of 04 Degrees 03 Minutes 57 Seconds**, for an **arc length of 142.64 feet,** to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 32, TR 255, RPLS 1469, 1990", C.M., found for the end of said curve to the right;

6. **THENCE, South 46 Degrees 10 Minutes 35 Seconds East**, for a distance of **50.00 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 31, TR 255, RPLS 1469, 1990", C.M., found for the beginning of a non-tangent curve to the right, having a **radius of 1,960.10 feet** and a **chord which bears North 54 Degrees 11 Minutes 30 Seconds East, a distance of 705.53 feet**;

7. **THENCE,** along said curve to the right, through a **central angle of 20 Degrees 44 Minutes 11 Seconds**, for an **arc length of 709.40 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 30, TR 255, RPLS 1469, 1990", C.M., found for the end of said curve to the right;

8. **THENCE, North 64 Degrees 33 Minutes 36 Seconds East**, for a distance of **424.43 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 29, TR 255, RPLS 1469, 1990", C.M., found for the beginning of a tangent curve to the left, having a **radius of 1,096.30 feet** and a chord which bears **North 50 Degrees 41 Minutes 47 Seconds East, a distance of 525.37 feet**;

9. **THENCE,** along said curve to the left, through a **central angle of 27 Degrees 43 Minutes 38 Seconds**, for an **arc length of 530.53 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 28, TR 255, RPLS 1469, 1990", C.M., found for the end of said curve to the left;

10. **THENCE, North 36 Degrees 49 Minutes 58 Seconds East**, for a distance of **325.99 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 27, TR 255, RPLS 1469, 1990", C.M., found for the beginning of a tangent curve to the right, having a **radius of 1,482.70 feet** and a **chord which bears North 50 Degrees 22 Minutes 44 Seconds East, a distance of 694.57 feet;**

11. **THENCE,** along said curve to the right, through a **central angle of 27 Degrees 05 Minutes 31 Seconds,** for an **arc length of 701.09 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 26, TR 255, RPLS 1469, 1990", C.M., found for the end of said curve to the right;

12. **THENCE, North 63 Degrees 55 Minutes 00 Seconds East**, for a distance of **484.03 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 25, TR 255, RPLS 1469, 1990", C.M., found for the beginning of a non-tangent curve to the left, having a **radius of 1,382.70 feet** and a **chord which bears North 55 Degrees 09 Minutes 09 Seconds East, a distance of 420.97 feet**;

13. **THENCE,** along said curve left, through a **central angle of 17 Degrees 30 Minutes 44 Seconds,** for an **arc length of 422.62 feet**, to an aluminum monument, illegible, C.M., found the for the end of said curve to the left;

14. **THENCE, North 46 Degrees 24 Minutes 16 Seconds East,** for a distance of **174.60 feet,** to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 23, TR 25, RPLS 1469, 1990", C.M., found for the beginning of a non-tangent curve to the right, having a **radius of 1,960.10 feet** and a **chord which bears North 53 Degrees 26 Minutes 20 Seconds East, a distance of 480.59 feet**;

15. **THENCE,** along said curve to the right, through a **central angle of 14 Degrees 03 Minutes 15 Seconds,** for an **arc length of 480.80 feet,** to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 22, TR 255, RPLS 1469, 1990", C.M., found for the end of said curve to the right;

16. **THENCE, North 60 Degrees 28 Minutes 28 Seconds East**, for a distance of **875.28 feet**, to the beginning of a tangent curve to the right, having **a radius of 1,960.10 feet** and a **chord which bears North 74 Degrees 18 Minutes 21 Seconds East, a distance of 937.18 feet;**

17. **THENCE,** along said curve to the right, through a **central angle of 27 Degrees 39 Minutes 45 Seconds,** for an **arc length of 946.34 feet**, to an aluminum monument, destroyed, C.M., found for the end of said curve to the right;

18. **THENCE, North 88 Degrees 08 Minutes 13 Seconds East**, for a distance of **684.96 feet**, to the beginning of a non-tangent curve to the left, having a **radius of 1,860.10 feet** and a **chord which bears North 84 Degrees 16 Minutes 16 Seconds East, for a distance 250.29 feet;**

19. **THENCE,** along said curve left, through a **central angle of 07 Degrees 42 Minutes 55 Seconds,** for an **arc length of 250.48 feet,** to an aluminum monument, destroyed, C.M. found for the end of said curve to the left;

20. **THENCE, North 80 Degrees 23 Minutes 48 Seconds East**, for a distance of **2,827.27 feet,** to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 17, TR 255, RPLS 1469, 1990", C.M., found for a point of deflection;

21. **THENCE, North 09 Degrees 36 Minutes 12 Seconds West**, for a distance of **50.00 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 16, TR 255, RPLS 1469, 1990", C.M., found for a point of deflection;

22. **THENCE, North 80 Degrees 25 Minutes 05 Seconds East,** for a distance of **3,902.07 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 3, TR 214A, RPLS 4303, 1988", C.M., found for a point of deflection;

23. **THENCE, South 09 Degrees 38 Minutes 58 Seconds East,** for a distance of **50.00 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 4, TR 214A, RPLS 4303, 1988", C.M., found for a point of deflection;

24. **THENCE, North 80 Degrees 21 Minutes 02 Seconds East,** for a distance of **468.14 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 5, TR 214A, RPLS 4303, 1988", C.M., found for the beginning of a non-tangent curve to the left, having a **radius of 1,096.30 feet** and a **chord which bears North 61 Degrees 03 Minutes 02 Seconds East, a distance of 725.68 feet;**

25. **THENCE,** along said curve to the left, through a **central angle of 38 Degrees 39 Minutes 18 Seconds,** for an **arc length of 739.63 feet**, to the end of said curve to the left, from which a found 2-inch iron pipe bears: South 35 Degrees 30 Minutes 38 Seconds West, a distance of 1.03 feet;

26. **THENCE, North 41 Degrees 43 Minutes 23 Seconds East,** for a distance of **1,429.04 feet,** to the beginning of a non-tangent curve to the right, having a **radius of 1,482.70 feet** and a **chord which bears North 49 Degrees 41 Minutes 13 Seconds East, a distance of 411.29 feet;**

27. **THENCE,** along said curve to the right, through a **central angle of 15 Degrees 56 Minutes 41 Seconds,** for an **arc length of 412.62 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 8, TR 214A, RPLS 4303, 1988", C.M., found for the end of said curve to the right;

28. **THENCE, North 57 Degrees 39 Minutes 26 Seconds East,** for a distance of **926.45 feet,** to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 4, TR 225, RPLS 4731, 1989", C.M., found for the beginning of a tangent curve to the right, having a **radius of 1,482.70 feet and a chord which bears North 67 Degrees 38 Minutes 53 Seconds East, a distance of 514.47 feet;**

29. **THENCE,** along said curve to the right, through a **central angle of 19 Degrees 58 Minutes 55 Seconds,** for an **arc length of 517.09 feet**, to an aluminum monument, illegible, C.M., found for the end of said curve to the right;

30. **THENCE, North 77 Degrees 38 Minutes 51 Seconds East,** for a distance of **2,853.55 feet,** to a 5/8-inch Iron Rod, C.M., found for the beginning of a tangent curve to the right, having a **radius of 1,482.70 feet** and a **chord which bears North 86 Degrees 47 Minutes 19 Seconds East, a distance of 471.10 feet;**

31. **THENCE,** along said curve to the right, through a **central angle of 18 Degrees 16 Minutes 56 Seconds,** for an **arc length of 473.10 feet**, to a 5/8-inch Iron Rod, C.M., found for the end of said curve to the right;

32. **THENCE, South 84 Degrees 04 Minutes 13 Seconds East,** for a distance of **1,012.90 feet,** to a 3/4-inch Iron Rod, C.M., found for the beginning of a tangent curve to the left, having a **radius of 1,382.70 feet and a chord which bears South 87 Degrees 54 Minutes 39 Seconds East, a distance of 185.49 feet;**

33. **THENCE,** along said curve to the left, through a **central angle of 07 Degrees 41 Minutes 31 Seconds,** for an **arc length of 185.63 feet,** to a 3/4-inch Iron Rod, C.M., found for the end of said curve to the left;

34. **THENCE, North 88 Degrees 14 Minutes 36 Seconds East,** for a distance of **1,795.52 feet,** to an aluminum monument stamped, "U.S.D.O.I.F&W.S., TR 209, ROW 20", C.M., found for a point of deflection;

35. **THENCE, North 01 Degrees 45 Minutes 24 Seconds West,** for a distance of **50.00 feet**, to a point of deflection;

36. **THENCE, North 88 Degrees 14 Minutes 36 Seconds East,** for a distance of **7,628.04 feet,** to the beginning of a non-tangent curve to the left , having **a radius of 1,810.10 feet** and a **chord which bears North 82 Degrees 38 Minutes 52 Seconds East, a distance of 353.38 feet,** from which a found aluminum monument, illegible, bears: North 01 Degrees 47 Minutes 07 Seconds West, a distance of 0.35 feet**;**

37. **THENCE,** along said curve to the left, through a **central angle of 11 Degrees 12 Minutes 13 Seconds, for an arc length of 353.94 feet,** to a 3/4-inch Iron Rod, C.M., found for the end of said curve to the left;

THENCE, South 12 Degrees 57 Minutes 14 Seconds East, over and across the aforementioned S.H. 4, the aforementioned Cameron County Right-of-Way Deed recorded in Volume 211, Page 54 and the aforementioned State of Texas Right-of-Way Deed recorded in Volume 263, Page 555, for a distance of **200.00 feet**, to a 5/8-inch Iron Rod, C.M., found on the Existing Southeast Right-of-Way line of said S.H. 4, as evidenced by said Cameron County Right-of-Way Deed recorded in Volume 211, Page 54 and said State of Texas Right-of-Way Deed recorded in Volume 263, Page 555, same being the beginning of a non-tangent curve to the right, having a **radius of 2,010.10 feet and a chord which bears South 82 Degrees 38 Minutes 52 Seconds West, a distance of 392.43 feet;**

THENCE, along the Existing Southeast Right-of-Way line of said S.H. 4 the following thirty-seven (37) courses:

1. **THENCE,** along said curve to the right, through a central **angle of 11 Degrees 12 Minutes 13 Seconds, for an arc length of 393.05 feet**, to a 3/4-inch Iron Rod, C.M., found for the end of said curve to the right;

2. **THENCE, South 88 Degrees 14 Minutes 36 Seconds West,** for a distance of **7,628.02 feet**, to a 3/4-inch Iron Rod, C.M., found for a point of deflection;

3. **THENCE, North 01 Degrees 45 Minutes 24 Seconds West,** for a distance of **50.00 feet**, to a point of deflection, from which a found 5/8-inch Iron Rod bears: North 57 Degrees 41 Minutes 58 Seconds East, a distance of 0.29 feet;

4. **THENCE, South 88 Degrees 14 Minutes 36 Seconds West,** for a distance of **1,795.52 feet,** to the beginning of a tangent curve to the right, having a **radius of 1,482.70 feet** and a **chord which bears North 87 Degrees 54 Minutes 39 Seconds West, a distance of 198.90 feet;**

5. **THENCE,** along said curve to the right, through a central **angle of 07 Degrees 41 Minutes 31 Seconds**, for an **arc length of 199.05 feet**, to the end of said curve to the right;

6. **THENCE, North 84 Degrees 04 Minutes 13 Seconds West,** for a distance of **1,012.89 feet,** to a 5/8-inch Iron Rod, C.M., found for the beginning of a tangent curve to the left, having a **radius of 1,382.70 feet** and a **chord which bears South 86 Degrees 47 Minutes 19 Seconds West, a distance of 439.33 feet;**

7. **THENCE,** along said curve to the left, through a **central angle of 18 Degrees 16 Minutes 56 Seconds,** for an **arc length of 441.20 feet**, to a 5/8-inch Iron Rod, C.M., found for the end of said curve to the left;

8. **THENCE, South 77 Degrees 38 Minutes 51 Seconds West,** for a distance of **2,853.54 feet,** to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No.42, TR 225A, RPLS 4731, 1989", C.M., found for for the beginning of a non-tangent curve to the left, having a **radius of 1382.70 feet** and a **chord which bears South 67 Degrees 38 Minutes 53 Seconds West, a distance of 479.78 feet;**

9. **THENCE,** along said curve to the left, through a **central angle of 19 Degrees 58 Minutes 55 Seconds**, for an **arc length of 482.22 feet**, to the end of said curve to the left, from which a found aluminum monument, illegible, bears: North 73 Degrees 12 Minutes 53 Seconds West, a distance of 0.73 feet;

10. **THENCE, South 57 Degrees 39 Minutes 26 Seconds West,** for a distance of **926.45 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 19, TR 214, RPLS 4303, 1988", C.M., found for the beginning of a tangent curve to the left, having a **radius of 1,382.70 feet** and a **chord which bears South 49 Degrees 41 Minutes 13 Seconds West, a distance of 383.55 feet;**

11. **THENCE,** along said curve to the left, through a **central angle of 15 Degrees 56 Minutes 41 Seconds,** for an **arc length of 384.79 feet**, to an aluminum monument, illegible, C.M., found for the end of said curve to the left;

12. **THENCE, South 41 Degrees 43 Minutes 23 Seconds West,** for a distance of **1,429.05 feet,** to a 2-inch Iron Pipe, C.M., found for the beginning of a tangent curve to the right, having a **radius of 1,196.30 feet** and a **chord which bears South 61 Degrees 03 Minutes 02 Seconds West, a distance of 791.87 feet;**

13. **THENCE,** along said curve to the right, through a **central angle of 38 Degrees 39 Minutes 18 Seconds,** for an **arc length of 807.09 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 22, TR 214, RPLS 4303, 1988", C.M., found for the end of said curve to the left;

14. **THENCE, South 80 Degrees 21 Minutes 02 Seconds West,** for a distance of **468.09 feet,** to a point of deflection;

15. **THENCE, South 09 Degrees 38 Minutes 58 Seconds East,** for a distance of **50.00 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 24, TR 214, RPLS 4303, 1988", C.M., found for a point of deflection;

16. **THENCE, South 80 Degrees 25 Minutes 05 Seconds West,** for a distance of **3,902.23 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 19, TR 255A, RPLS 1469, 1990", C.M., found for a point of deflection;

17. **THENCE, North 09 Degrees 36 Minutes 12 Seconds West,** for a distance of **50.00 feet,** to an aluminum monument, illegible, C.M., found for a point of deflection;

18. **THENCE, South 80 Degrees 23 Minutes 48 Seconds West,** for a distance of **2,827.30 feet,** to the beginning of a non-tangent curve to the right, having a **radius of 1,960.10 feet** and a **chord which bears South 84 Degrees 16 Minutes 16 Seconds West, a distance of 263.74 feet;**

19. **THENCE,** along said curve to the right, through a **central angle of 07 Degrees 42 Minutes 55 Seconds,** for an **arc length of 263.94 feet**, to the end of said curve to the right, from which a found aluminum monument, destroyed, bears: South 01 Degrees 51 Minutes 47 Seconds East, a distance of 0.78 feet;

20. **THENCE, South 88 Degrees 08 Minutes 13 Seconds West,** for a distance of **684.97 feet,** to the beginning of a tangent curve to the left, having a **radius of 1,860.10 feet** and a **chord which bears South 74 Degrees 18 Minutes 21 Seconds West, a distance of 889.36 feet,** from which a found aluminum monument, destroyed, bears: North 01 Degrees 51 Minutes 47 Seconds West, a distance of 0.70 feet**;**

21. **THENCE,** along said curve to the left, through a **central angle of 27 Degrees 39 Minutes 45 Seconds**, for an **arc length of 898.06 feet**, to the end of said curve to the left;

22. **THENCE, South 60 Degrees 28 Minutes 28 Seconds West,** for a distance of **875.27 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 13, TR 255A, RPLS 1469, 1990", C.M., found for the beginning of a non-tangent curve to the left, having a **radius of 1,860.10 feet** and a **chord which bears South 53 Degrees 26 Minutes 20 Seconds West, a distance of 455.12 feet;**

23. **THENCE,** along said curve to the left, through a **central angle of 14 Degrees 03 Minutes 15 Seconds,** for an **arc length of 456.27 feet**, to the end of said curve to the left, from which a found aluminum monument bears: South 43 Minutes 35 Minutes 44 Seconds West, a distance of 0.27 feet;

24. **THENCE, South 46 Degrees 24 Minutes 16 Seconds West,** for a distance of **174.57 feet,** to a found aluminum monument, illegible, C.M., found for the beginning of a non-tangent curve to the right, having **a radius of 1,482.70 feet** and a **chord which bears South 55 Degrees 09 Minutes 09 Seconds West, a distance of 451.42 feet;**

25. **THENCE,** along said curve to the right, through a **central angle of 17 Degrees 30 Minutes 44 Seconds,** for an **arc length of 453.18 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 10, TR 255A, RPLS 1469, 1990", C.M., found for the end of said curve to the right;

26. **THENCE, South 63 Degrees 55 Minutes 00 Seconds West,** for a distance of **484.05 feet,** to an aluminum monument, illegible, C.M., found for the beginning of a non-tangent curve to the left, having a **radius of 1,382.70 feet** and a **chord which bears South 50 Degrees 22 Minutes 44 Seconds West, a distance of 647.73 feet;**

27. **THENCE,** along said curve to the left, through a **central angle of 27 Degrees 05 Minutes 31 Seconds,** for an **arc length of 653.80 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 8, TR 255A, RPLS 1469, 1990", C.M., found for the end of said curve to the left;

28. **THENCE, South 36 Degrees 49 Minutes 58 Seconds West,** for a distance of **325.99 feet**, to an aluminum monument stamped, "U.S.D.O.I.F&W.S., COR. No. 7, TR 255A, RPLS 1469, 1990", C.M., found for the beginning of a tangent curve to the right, having a **radius of 1,196.30 feet** and a **chord which bears South 50 Degrees 41 Minutes 47 Seconds West, a distance of 573.29 feet;**

29. **THENCE,** along said curve to the right, through a **central angle of 27 Degrees 43 Minutes 38 Seconds,** for an **arc length of 578.93 feet**, to an aluminum monument, illegible, C.M., found for the end of said curve to the right;

30. **THENCE, South 64 Degrees 33 Minutes 36 Seconds West,** for **a distance of 424.43 feet,** to the beginning of a tangent curve to the left, having a **radius of 1,860.10 feet** and a **chord which bears South 54 Degrees 11 Minutes 30 Seconds West, a distance of 669.54 feet;**

31. **THENCE,** along said curve to the left, through a **central angle of 20 Degrees 44 Minutes 11 Seconds,** for an **arc length of 673.21 feet**, to the end of said curve to the left;

32. **THENCE, South 46 Degrees 10 Minutes 35 Seconds East,** for a distance of **50.00 feet,** to an aluminum monument, illegible, C.M., found for the beginning of a non-tangent curve to the left, having a **radius of 1,810.10 feet** and a **chord which bears South 40 Degrees 06 Minutes 36 Seconds West, 234.47 feet;**

33. **THENCE,** along said curve to the left, through a **central angle of 07 Degrees 25 Minutes 37 Seconds,** for an **arc length of 234.64 feet**, to the end of said curve to the left;

34. **THENCE, South 36 Degrees 23 Minutes 47 Seconds West,** for a distance of **120.76 feet**, to a 5/8-inch Iron Pipe, C.M., found;

35. **THENCE, North 03 Degrees 04 Minutes 51 Seconds West,** for a distance of **78.64 feet**, to a point of deflection;

36. **THENCE, South 36 Degrees 23 Minutes 47 Seconds West,** for a distance of **82.28 feet**, to a point of deflection;

37. **THENCE, South 35 Degrees 18 Minutes 21 Seconds West,** for a distance of **8,659.52 feet,** to the **POINT OF BEGINNING** and containing **5,365,230 Square Feet or 123.17 acres of land**.

DRAFT

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Will Trevino, City Attorney
Date:	Tuesday, September 1, 2026
Agenda #:	Consideration and **ACTION**, if any, related to Collective Bargaining Agreement with Brownsville Police Officers' Association, Charter 290577-01. (Office of the City Attorney/ City Manager's Office)

Summary:

Project Scope and Analysis:

Funding:

Source: Not Applicable

Amount:

Local Contribution if Applicable:

Recommendation:

Commission Pillar:

Economic Development, Planning & Zoning, Infrastructure, Public Safety, Quality of Life & Vibrancy, Governance
